REPAIRS: Only minor repairs can be carried out and this is with the exclusive authorisation of the Superintendencia. These must not jeopardize the safety of the vessel or the installations.

REPATRIATION: Only if the person has all the necessary documents (passport, certificates, etc.).

TIME: GMT minus 5 hours.

SHORE LEAVE: Considering local operating conditions, permission to come ashore is subject to the approval of Migracion y Extranjeria (Immigration) and must be requested by the vessel's Agent. Transportation must be provided by the Agent and subject to the rates established by the respective authorities.

SERVICES: Yagua General Services Ltd. can offer the following services:
- Launch services.
- Water supply.
- Hospital medical attention.
- Shipchandler.
- Crewmember exchange, etc.

They could also be appointed as protecting Agent of any particular vessel.

GENERAL: *Flags:* The quarantine flag must be flown by the vessel when approaching the Balao Terminal. It must be lowered once the ship has been declared in Free Pratique.

The National Flag of Ecuador will be permanently flown while the ship is at the Terminal.

Contraband: Ecuadorian law is rigorous in reference to contraband. The Master must instruct his subordinates to avoid taking cigarettes, cigars, tobacco, alcoholic beverages, drugs, etc. to the shore.

These articles must be reported before arriving at the Terminal and with their respective lists put under the Master's custody during the ship's stay.

In no way will commercial transactions between crew members and Terminal employees or third parties be tolerated.

Visitors: With the exception of Terminal personnel and other employees whose duties require them to board (Port Authorities, Ministry of Natural Resources Inspectors etc.), all visitors are strictly forbidden. Exceptions to this rule will require the authorisation of the Superintendencia.

Watches: Permanent watches must be maintained on board; on deck as well as in the engine room. These watches must have sufficient crew members to move the ship in case of emergency.

Charts: National charts: I.O.A. 1002 Port of Esmeraldas. Ed. December 20, 1982. Foreign charts: N. 021033 (HO-1176).

Wind and Currents: The predominant wind and marine currents throughout the year are S.W. During the rainy season (December – May), however, the wind and current suffer a slight change and at times come from the N.E. and North.

In the berthing area the currents often vary and will oppose the direction of the wind and cause the ship to yaw strongly.

Tide: The tide in syzygy comes up 13 ft., in quadrature 11.5 ft. The tidal currents have been reported (1956) at a rate of 1.5 knots, a little stronger during low tide.

REGULATIONS: (Not all Regulations printed). Due to the fact that Balao is very close to Las Palmas, Atacames, Sua, etc., any pollution will cause serious damage to the beaches and fishing grounds. Therefore, ships are obliged to avoid any possible pollution of local waters that would be caused by pumping crude oil, diesel, or other fuels or oily mixtures from the engine room bilges.

In the piloting area the traffic of small craft such as fishing vessels, coasting vessels engaged in cabotage is absolutely prohibited with the sole exception of small craft used in the reception and mooring of tankers and these must be authorised by the Superintendencia.

Masters Responsibility: While the ship is at this Terminal, the Master will continue to be responsible for the security of the vessel.

While the ship remains at the buoys, its main engines must be ready for any emergency. If they are turbines they must be in reverse.

Vessel's Obligations in Port:

1. It is the obligation of the Master of the ship, or his representative, to receive the Pilot and the Loading/Mooring Master at the gangway, and provide them with all the information they may need.

2. The Master will delegate the First Officer or another responsible officer to receive the Port Authorities at the gangway and provide them with the documents and other information they may request while on board.

3. The Master must present the Superintendencia with a Certificate of Pollution Insurance issued by TOVALOP, the Ship's Register and any other document that may be required.

4. Meals must be provided for Superintendencia personnel and Customs, Police, etc. that are on duty.

5. A cabin and meals must be provided for the Loading/Mooring Master on duty during the loading operation.

6. The ship must provide meals for the 4 hosemen on board.

7. Meals and cabins must be provided for the Superintendencia's Safety and Pollution Control Inspectors when necessary.

8. Meals and a cabin must be provided for the Pilot if on board at mealtime.

9. All required materials and personnel must be placed at the disposition of the Terminal's Representative so that he can adequately carry out his job especially for easy and safe access of personnel on board.

10. The ship must provide personal assistance and other facilities required by the Ministry of Natural Resources Engineers on duty, so that they can efficiently control and inspect the oil being loaded and the tanks used.

Reports to the Superintendencia: During their stay in Port, the Master of the tanker must report any problem on board concerning:

1. Breaches in safety measures during mooring, deballasting, loading and unmooring operation.

2. Oil spills produced by bad hose connections, breaks in the hoses, filtration due to improper plugging of scupper holes, or any other reason.

3. Pollution caused by bilge pumping, tank washing, or any other operation that is not permitted.

4. Any abnormal situation that might affect the operating safety of the tanks.

5. Personnel accidents during work.

6. Theft on board or discovery of commercial transactions between crew members and Terminal workers etc. (contraband)

7. A copy of the measurements on board once the vessel is loaded.

Safety Regulations: The deck officer on duty must check the list of questions one by one to make sure the vessel's safety measures are in order. Some of the points that must be observed are as follows:

11. Are the mooring lines in good condition? (TEPRE – 12 nylon or polypropylene lines according to the tonnage of the tanker. SBM – 2 nylon or polypropylene lines, 600 ft. long.)

12. Are the short lines in good condition? (TEPRE: 12 short nylon lines, 1 in. thick and 10 ft. long each one.)

13. Is the derrick in good condition and has capacity for at least 5 tons?

24. Is the hydrocarbon log up-to-date? Check it!

25. Is the Master aware of the port regulations?

Safety Precautions for Ships:

1. Verify that mooring conditions are in accordance with Terminal requirements.

2. As a safety measure during operations, ships headed for Balao to load crude oil must arrive with enough ballast to correspond to 25% to 30% of its cargo capacity and down no more than 10 ft. by the stern.

9. The red flag, BRAVO, must be raised during the day and a red light must shine at night.

10. Ashtrays in the smoking room must contain water.

11. Due to the underwater chains, pipes and hoses, it is absolutely forbidden to use anchors close to the buoys.

12. All of these rules will be enforced by the Safety and Pollution Control Inspectors, along with the Loading and Mooring Masters.

AUTHORITY: Superintendencia del Terminal Petrolero de Balao, Casilla 286, Esmeraldas, Ecuador. *Tel:* 711-100, 712-100. *Telex:* 7579. *Contact:* Fernando Gavilanes Granja, Superintendent.

AGENT: *Main Office:* Yagua Ltd., Shipping Agency, P.O.Box No. 69, Quito, Ecuador. Victor Hugo 114e, Isla Pinzon, (Jipijapa), Quito, (Ecuador). Cable: Yagua Quito (Ecuador). Telex: 022220 Yagua Ed (Monday through Friday. See Operations Office for Saturdays and Sundays). Tel: 554-484, 554-485, 543-429.

Operations Office: Avenida Kennedy 1100 (Las Palmas). Cable: Yagua Esmeraldas (Ecuador). Tel: 710-370, 711-180 (available 24 hours a day). Telex: 7589 Yagua Ed.

Also on VHF Channels 16, 6, 12 and 71.

ESMERALDAS: 01.00 N. 79.39 W. (See Plan Book)

PORT LIMITS: Between the meridians 79° 38′ W. and 79° 39′ W. and the parallels 00° 59′ N. and 01° 02′ N.

NAVIGATION AIDS: The port complex of Esmeraldas has navigational aids consisting of the installation of 6 lighted buoys which mark the access channel to the port; 1 landfall buoy in the waiting area for Pilots; 4 lights located at the head of quays, 2 on the 2 breakwaters (principal and secondary) which limit the commercial quay and in the accesses to the dock of the Fishing Port and 2 pairs of leading lights – one pair at the top of Coquito Hill to the S.W. of the port and another pair near to the residential area of Tachina towards the S.E. of the port.

DOCUMENTS: The documents required by the Port Authorities on arrival of vessels are as follows:

Clearance From Last Port.
4 General Declarations.
1 Health Declaration.
5 Lists of Crew Members.
5 Lists of Passengers.
6 Sets of Cargo Manifests.
4 Sets of Bills of Lading.
1 Stevedoring Plan.
Certificate of tonnage and radio to be checked.

PILOTAGE: Pilotage is compulsory.

Prior to commencement of manoeuvring and navigation, the Pilot will require from the Master the following information: conditions of steering, conditions of ship machinery, condition of the aids to navigation, conditions which may limit the manoeuvres which are about to be effected, the draft forward and aft, nature of the cargo, availability of mooring lines and the system of anchorage.

The Pilot will require the presence of the Master of the vessel on the bridge at all times during manoeuvres.

ANCHORAGE: The area for awaiting the Pilot and quarantine is located between meridians 79° 39′ 15″ W. and 79° 40′ 00″ W. and the parallels 01° 01′ 00″ N. and 01° 01′ 50″ N.

MAX. SIZE: The port is limited to receiving vessels not greater than 200 m. LOA and 35 ft. max. draft.

RADIO: The Port of Esmeraldas currently has no radio service, but the Terminal of Balao: Lat. 01° 02′ N., Long. 79° 44′ W., which is relatively close, has a radio service.

To communicate through Balao, vessels arriving at Esmeraldas must advise or communicate their ETA to the Naval Superintendency of Esmeraldas, 72 and 24 hours prior to arrival. Messages must contain the names of the vessel, ETA and name of the Master.

24 hours listening out is maintained on HF-SSB-2182 – 2136.3 kHz call-up frequency and 4139 – 6210 kHz working frequency and on Channel 16. Generally vessels will have contact with this channel at a distance of 20 to 30 miles from the port. Channel 14 will be used for contact between the vessel and the Naval Superintendency before arrival in port.

BERTHING: All systems of maritime transport of general cargo (ro-ro, lash, USO multiple and containers with own crane equipment) can be used in the Port of Esmeraldas, since there is:

An ample dock of some 35 hectares with direct access. The port is not affected by winds, tides or undertow.

A marginal quay, 350 m. long and 26 m. wide at its forward part, giving facilities for handling and transfer of any kind of cargo.

Areas of free spaces for the storage of containers, semi-trailers and other types of cargo with an area of 66,000 sq.m. A closed warehouse of some 6,000 sq.m. area, and areas reserved for future usage of 110,000 sq.m.

A ramp for ro-ro vessels whose position is perpendicular to the quay designed so that vessels operating in loading and unloading are not interrupted by tidal differences.

Equipment for handling containers, semi-trailers, palletised cargo and others. Mobile cranes 2×60 tons, 2×35 tons, 2×15 tons, 20 loaders of 7.5, 6 and 3 tons and 8 trucks with platforms.

STEVEDORES: The port offers services to vessels without any restrictions and uninterrupted during all days of the year, 24 hours a day, with the exception of the 24th December when work is interrupted from 1700 hrs. until 0800 hrs. on the 26th December and the 31st December from 1700 hrs. until 0800 hrs. on the 2nd January.

MEDICAL: Doctors available.

FRESH WATER: Available.

FUEL: Available.

DEVELOPMENTS: The second stage of port works which have been projected, comprise:

Construction of a container quay 210 m. long with a storage area of 8 hectares.

A marginal quay 140 m. long with the same characteristics as the quay of 350 m. long and is a continuation of it, which will permit the berthing of 3 deep-sea vessels at one time.

Two additional warehouses of 6,000 sq.m. each.

Open air storage surface areas covering 3.5 hectares.

Extension of electric and sanitary services to the new areas.

SHIPMASTER'S REPORT: June 1979.

Navigation: Two orange coloured beacons on the land to the East side of the river, act as leading marks (bearing 166°T) from approx. 4 miles to seaward, right up to the entrance of the port. They are not lit. Depths along this line were not less than 100 m.

Off the entrance to the port, two orange coloured beacons on the West side near Coquitos Point Lighthouse, are the leading marks into the harbour. They are not lit. Entering the harbour, the deep water shoals rapidly to about 12 m., but at no time were echo soundings of less than 11.5 m. MLWS encountered either in the entrance, or in the manoeuvring area inside, or alongside. Beacons mark the extremities of the breakwaters but they are not lit.

Two buoys mark the East and West edges of the deep water channel outside of the breakwater. They are lit. Further buoyage is planned to mark the deep water area.

Pilots: 2 Pilots on board, 1 to communicate with each tug. Only 1 Pilot and 1 tug equipped with 'walkie-talkie' radios.

Tugs: 2 square bowed American type river-barge pusher tugs are available and they have adequate power to assist in manoeuvring on and off the berths. Unfortunately, the 2 vertical posts on their bows are likely to cause sharp indentations in vessels' bow and stern plating when the tugs are used for pushing. They should only push against the flat vertical surfaces of the hull.

Berthing/Facilities: There are 2 berths and a ro/ro facility, but only 2 large vessels can be accommodated alongside at any one time. A large cargo shed is under construction opposite Berth No. 2, and the container and open cargo areas have been surfaced. Both berths are to be supplied with bunkering and fresh water facilities, but these are not operative at present time. No actual assessment of cargo handling equipment could be made, but it was noted that there were 2×30 ton mobile cranes and 5×7.5 ton forklift vehicles in the parking area in the compound. The Agent reported that low-loaders and trailers were available for the movement of containers and that forklifts could be hired for use in the hatches.

The loading of bundles of balsawood was carried out directly from lorries which brought the cargo alongside and the rate of loading was about 165 bundles (20,600 board feet) per gang hour.

At present the harbour is somewhat obstructed by anchored fishing boats and small craft, but these are to be shifted to the new fishing port being constructed to the South of the main harbour.

AUTHORITY: Autoridad Portuaria de Esmeraldas, Casilla 280, Esmeraldas, Ecuador. *Tel:* 711-910, 710-800, 711-996. *Telex:* 7586 Aupesm-Ed. *Cables:* Aupesm. *Contact:* Ing. Teddoro Moroan Moran, Manager.

GUAYAQUIL: 02.12 S. 79.52 W. (See Plan Book)

DOCUMENTS:

Port Doctor:

Derat Certificate.
Maritime Declaration of Health.
Crew Roll.
Passenger List.
Passenger List in Transit.

Harbour Master's Office:

Voyage Report.
Clearance from last port.
Crew Roll with original visa from Ecuador Consul in first port of voyage (3 copies).
Passenger List with original visa from Ecuador Consul in embarking port, or declaration that they have no visa, signed by Master (2 copies).
Passenger List in transit signed by Captain or declaration that they have no passengers in transit (2 copies).
Provisions List, Stock and Medicines on ship (3 copies).
Cargo Manifest in transit (1 copy).
Combustible or inflammable Cargo (1 copy).

Customs:

8 copies of Manifest.
Sealed envelope of Manifests, consular and commercial invoices and non negotiable vouchers.
Cargo index and copy of Cargo Manifest in direct transit (8 copies).
A Register (8 copies) of spare parts for vessel and provisions.
Crew Roll and detailed list (8 copies) of personal belongings of officers and crew.
Passenger List, with indication of their suitcases and list of suitcases that travel without their owners; in this case should be specified the port where they were put on board and personal declaration of each passenger (8 copies).
If the vessel with ballast, Master will be obliged to produce (besides the ballast certificate) documents already mentioned in each respect. Master or Maritime Agency will produce a written statement to Customs within 12 hours from arrival of vessel whether they decide to take any cargo for exporting. If not loading vessel must leave within the following 24 hours.

Immigration:

Crew List signed by Master.
Passenger List of those who disembark there or a declaration of none for this port, signed by Master.
Passenger List in transit, or a negative declaration signed by Master. In case of having passengers to disembark in this port, Master should produce passports and visas.
Crew identification cards or similar documents.
Inspection of ship by Authorities will be done (compulsory) within 3 hours of arrival, usually as soon as ship berths, or in quarantine.

PILOTAGE: Vessels approaching port to notify their arrival by Naval Radio Station HCG, 24-hour service, frequency 8476 kHz and 500 kHz. Traffic list broadcast every hour on 8476 kHz.

Advance notice of not less than 12 hours required, addressed to Capuerto Aportuaria Agencia in either English or Spanish with the following details: date, and time of ETA, destination (whether Buoy No. 1 or Puna), maximum draft, cargo details, details of passengers or mail, and if Pilot required.

Pilot Station for Puerto Maritime: Situated in position Lat. 02° 43′ 18″ S., Long. 80° 17′ 30″ W. Pilot boat needs 1 hour to go from Pilot station to Buoy No. 1. Contact by VHF Channel 16, 24-hour service. Pilot boat is wooden, 45 ft. long, black hull, white cabin, with letter "P" on sides. During day carries blue flag with letter "P" and by night has regulation pilot lights.

Pilot Station for River Guayas: Situated in village of Puna. Pilot boat requires a minimum of 30 minutes to move from Pilot station to vessel. Vessels requiring Pilot signal Morse letter "X" by lamp or sound.

Pilot boat has grey iron hull, white cabin with Lancha de Practicos written on both sides. By day carries blue flag with letter "P". By night regulation pilot lights.

ANCHORAGES: *Puerto Maritime:* 1 mile South and 2 miles West of sea buoy in position Lat. 2° 44′ 26″ S., Long. 80° 24′ 44″ W. Min. depth in the area is 35 ft.

Guayas River: Inside area between bearings 180° and 135° from the lighthouse of Punta Mandinga at Puna, 1 mile from the lighthouse.

MAX. SIZE: Max. length for ships entering Puerto Maritime is 650 ft., with a max. draft of 33 ft. Vessels of deepest draft should begin to enter 1 hour before high tide. For Guayas River max. length 600 ft., max. draft 23 ft. 6 in.

HEALTH: Procedure to obtain free pratique is to produce health certificates to port doctor upon arrival. To get free pratique by radio, ship must radio to port doctor any changes in health situation on board since leaving last port.

TUGS: Normally join vessel beyond Buoy No. 80. Tugs are compulsory, also use of their lines is compulsory. Cost of both services is included in total cost of port duties.

BERTHING:

Berth	*Length* (m.)	*Depth* (ft.)	*Remarks*
Marginal Pier	960	31	5 berths
New Port			
Berth 1A	185	33	Bananas,
1B	185	33	General,
1C	185	33	Containers
1D	151	33	Bulk, sugar, grain, vegetable oil

BRIDGES: No bridges that restrict traffic either in Estero Salado nor in Guayas River, but ships that are to berth in village of Eloy Alfaro (Duran) should take into consideration height of telephone lines between Guayaquil and El Islote, minimum height 48 ft.

STEVEDORES: Radio message to ship's Agent will give agency enough data to make all arrangements required for operations of loading/discharging. In Maritime Terminal an average discharge/loading rate of 25 metric t.p.h. per hook.

MEDICAL: If ship requires medical attention, a notice of 12 hours should be given to Agents. Guayaquil Hospital and clinics are available.

TANKERS: Discharge asphalt in Guayas River at a special quay, max. draft 23 ft. 6 in. Discharge of petrol for aviation in Puerto Maritime is to lighters, max. draft permitted is 33 ft.

DENSITY: 1012.

FRESH WATER: Available. Three pipes at each berth delivering at a rate of about 20 metric t.p.h. each.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Capitania del Puerto provides members of the Policia Maritima. Ships to supply watchmen with food.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: All ship's certificates required.

CUSTOMS ALLOWANCES: Each member of crew allowed 600 cigarettes. Each Crew member or passenger allowed 1 litre of wine and 1 litre of spirits.

IDENTIFICATION CARDS: Not required.

CONSULS:

Argentina
Belgium
Bolivia
Brazil
Chile
Colombia
Costa Rica
Denmark
Dominican Republic
Finland
France
Germany (F.R.)
Great Britain
Greece
Guatemala
Haiti
Honduras

Venezuela

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: Dry dock with capacity of 3,600 metric tons.

REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Airport is 8 miles from Maritime Terminal and has scheduled international flights.

TIME: Local time is GMT minus 5 hours. There are no alterations during year.

HOLIDAYS: 1st January; Good Friday, 1st and 24th May; 24th and 25th July; 10th August; 9th and 12th October; 2nd and 3rd November; 25th December. Only on the 1st January and 25th December is there no working in port.

POLICE/AMBULANCE/FIRE: For any of these services call 211 (interno del Puerto).

TELEPHONES: Arrangements for placing telephone on board ships on request.

SHORE LEAVE: Allowed.

PURSER'S REPORT: (March 1975)
The government have now issued their own set of papers. These must be made out in sets of seven (7) ie:– Seven Crew Lists. Seven Passenger Lists, Seven Crew Customs Declaration Forms, Seven Cargo Manifests, Seven Dangerous Cargo Manifests (if carried), Seven Lists of Mail (if none – nil returns on sheet), Seven General Declarations. One (1) Maritime Health Form. Seven Stores Lists.

All Forms should be certified by Ecuadorian Consul or friendly Nation at Port of departure.

AUTHORITY: Capitan del Puerto de Guayaquil, Puerto Maritimo.

LA LIBERTAD: 02.12 S. 80.55 W. (See Plan Book)

DOCUMENTS: Port clearance is effected at La Libertad.

The following papers must be ready for presentation to the authorities on arrival:

1 Bill of Health signed by the Master and visaed by the Ecuadorian Consul at port of departure.
1 Ballast Certificate visaed by Ecuadorian Consul at port of departure.
6 copies of Cargo Manifest (if any cargo for the port).
6 copies Bills of Lading.
9 Crew Lists (original visaed by Ecuadorian Consul at port of departure).
9 Passenger Lists for the port (if no passengers state "without passengers"). If applicable, the list should show names, sex, age, nationality, port of embarkation, occupation and whether married or single. Passengers must make a declaration of their luggage on Ecuadorian Form No. 94.
9 Stores Lists.
5 Lists of Crew's personal effects (new articles only).
4 Lists of unaccompanied baggage (if none, state "without them").
4 Lists of Encomiendas (list of small private parcels to be landed in Ecuador – if none, state "without them").
4 Lists of Mail (if none, state "without them").

If there is no Ecuadorian Consul at the port of departure, the documents must be visaed by the Consul of a friendly nation.

PILOTAGE: Compulsory. Pilots boarding in position Lat. 2° 08′ S. – Lat. 2° 10′ S. and Long. 80° 55′ W. – Long. 80° 56′ W. ETA should be given to port 12 hours before arrival. Open roadstead.

ANCHORAGE: No limitations except depth 36 ft.

Vessels proceeding to oil terminal should anchor about 1 mile N.N.E. of the mooring buoys (which are about 15,000 ft. off-shore) where the Port Authorities and Mooring Master board. The anchorage is an open roadstead with sandy bottom.

RESTRICTIONS: *Tankers:* Daylight berthing only.

MAX. SIZE: *Tankers* – LOA 650 ft.
Beam 84 ft.
Loaded draft 34 ft. 6 in. max.
Depth MLWS at mooring is 43 ft.

HEALTH: Vessels arriving from foreign ports should fly appropriate International Code signals to advise state of health and request free pratique. Vessels put in quarantine required to fly signal QL all the time they are in port until Port Health Authority advises to the contrary.

RADIO: ETA messages may be sent by radio to Radio Naval, HCG Guayaquil Radio, 8476 kHz, 500 kHz. Radio Naval would then repeat the message to the Naval Station in Salinas, or to the Telegraph Office. Radio Naval has VHF/RT and Telex.

TUGS: Only tankers require tugs to berth at the buoys. Other vessels work cargo at anchor.

BERTHING: No wharves for large vessels, only for coasters.

STEVEDORES: Arranged by Agent; separate ETA not required.

MEDICAL: If urgent medical attention required, Master should radio details in advance. All facilities available.

TANKERS: The Anglo-Ecuadorian Oil Fields Terminal is located in Santa Elena Bay. Four small marker buoys indicate the seaward end of the submarine pipe-line. An Easterly current usually prevails, rate being from 0.5 to 1.5 knots. There is one 14 in. submarine pipe-line fitted with two 10 in. flexible hoses for connecting to ship. Max. loading rate is about 450 t.p.h, and max. pressure is about 150 p.s.i.

Mooring Master assists in berthing vessels. Vessels are moored port side to, using starboard anchor off the starboard bow and mooring buoys for lines to the port bow and astern. Vessels moored during daylight hours only; however, they may unmoor at any hour of the day or night. Recommended that at least 1 tank of clean ballast be retained on board vessels until mooring has been completed. Ballast will then be pumped overboard. Vessels should be equipped with three 9.5 in. or 10 in. (circ.) – 200 fathom hawsers for use in mooring and 7 rope stoppers each at least 3 fathoms long. The following signals are used in connection with the loading of cargo.

By day: Start loading 2 long blasts of vessel's whistle or siren, 1 red flag hoisted; stop loading 4 long blasts of vessel's whistle or siren, flag hauled down.

By night: Start loading, 2 long blasts of vessel's whistle or siren, 1 red light hoisted; stop loading, 4 long blasts of vessel's whistle or siren, 1 red light hauled down.

To summon the launch, 3 long blasts are to be blown on the vessel's whistle.

DENSITY: 1028

FRESH WATER: Not available.

FUEL: Bunkers available, but have to be requested 72 hours prior to arrival in order to make transport arrangements.

CONSULS: There is no consular representation of any country at La Libertad. The nearest are at Guayaquil.

GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by the crew or stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine/spirits per man.

IDENTIFICATION CARDS: Required.

REPAIRS: Anglo-Ecuadorian Oil Fields Company can effect small repairs.

REPATRIATION: Can be effected from port of Guayaquil.

AIRPORT: At Guayaquil, 130 km. away, served by regular airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: January 1st; Carnival; Good Thursday; Good Friday; May 1st; May 24th; July 24th; August 10th; October 9th; October 12th; November 2nd; November 3rd; December 25th.

TELEPHONES: No connections to vessels possible, except at tanker moorings which is direct to loading installation only.

SHORE LEAVE: Permitted.

GENERAL: Dirty ballast or slops not admissible at La Libertad.

AUTHORITY: Terminal Superintendence La Libertad.

MANTA: 00.56 S. 80.43 W. (See Plan Book)

DOCUMENTS:

A. List of documents, 2 copies (Port Authority 1, the latter will sign a copy for Purser).
B. Sailing Permit from last port. 1 copy for Port Authority representative, who will copy the permit and give original to Captain of Port.
C. General Declaration, 5 copies – Health Department 1, Captain of Port 1, Immigration 1, Custom House 1, and Port Authority 1.
The document will contain (see Note No. 4 below):
1. General data on ship, voyage, cargo and passengers.
2. Health Declaration.
3. Stores Declaration.
4. Under remarks – any pertinent item.
Should be signed by Master and ship's Doctor or, if no doctor aboard, by Purser. For further details, see Note No. 3 at end of this Article.
D. List of passengers destination Manta, including list of their baggage, 4 copies – Customs 1, Immigration 2, Port Authority 1.
E. List of Passengers in transit, 3 copies – Immigration 2, Port Authority 1.
F. Crew List (including and indicating any members leaving vessel at Manta), 4 copies – Customs 1, Immigration 1, Captain of Port 1, Port Authority 1.
G. Manifest of Cargo for discharge at Manta including transhipment 4 copies – Customs original and copy, Port Authority 2.
H. Unaccompanied Baggage List including baggage for any member of the crew, who may disembark, 3 copies – Customs 2, Port Authority 1.
I. Mail Manifest, 2 copies – Post Office 1, Port Authority 1.
J. Checking Books, 5 copies, plus 1 copy for each point of possible discharge of cargo from vessels for Port Authority.
K. Bills of Lading, 1 complete set for Port Authority.
L. List of vessel supplies including liquors, cigars, cigarettes, other tobacco products, matches, lighters, clothes, novelties, and provisions will be maintained in Purser's Office for review by Custom House.
M. Tissue Manifest, hatch list and cargo plan. 1 copy of each for Port Authority prior to arrival of vessels. These papers to be sent by air mail as per regulations.
N. Ballast Certificates will be used instead of manifests when vessels do not carry any cargo.
O. General Manifest. This manifest will include all cargo loaded during voyage which will include all cargo in transit – 1 copy. General manifest will be maintained in Purser's Office for review by Custom House, and be accessible for Customs at all times.

Note No. 1: All papers (items A to K) will be delivered to representative of Port Authority who will check them against list of documents to be receipted for Purser. Port Authority will subsequently distribute documents to interested parties as indicated above.

Note No. 2: Port Authority reserves the right to refuse berthing facilities until all documents received. Of course, this authority will be handled with discretion to avoid unnecessary or unwarranted delay to vessels, passengers, and cargo.

Note No. 3: All ship's papers will be filed in Port Authority Office, and authorities noted herein are welcome to inspect them whenever they wish to do so.

Note No. 4: General Declaration should contain the following:

A. Name of vessel, length and registered tonnage.
B. Owners.
C. Voyage number and ports of call on voyage.
D. Total number of passengers aboard.
E. Total tonnage (of 1,000 kilos) of cargo aboard.
F. Total number of passengers for Manta.
G. Total tonnage (of 1,000 kilos) of cargo for Manta.
H. Health Declaration.
I. Stores Declaration that ship's consumable foodstuffs and consumable supplies are under lock and key; that the slop chest, shop, and store-rooms containing liquors, cigars, cigarettes, other tobaccos, matches, lighters, clothes, novelties, sports material, toilet articles, cosmetics, medicines, etc. have been locked and sealed with metallic non re-usable seals with serial numbers. The seals are identifiable by their non-repeat numbers.
All vessels should have these seals aboard and should equip doors and door frames with suitable secure hardware through which seals can be passed. (Model of the form for the above document may be obtained from the Port Authority).

Note No. 5: Baggage listed as cargo should not also be listed as baggage or vice versa.

PILOTAGE: Compulsory. Pilot boat by day will show blue flag at mast head; by night red light 2 ft. 6 in. below mast head light, both visible around the horizon.

Pilot will board at point located at distance of 0.5 miles, 045° from Manta Lighthouse (Lat. 00° 56′ 20″ S., Long. 80° 43′ 02″ W.). He will immediately proceed to conduct ship to inner harbour and dock at assigned pier or anchor in assigned anchorage.

Vessels will not have to anchor, but will reduce speed to steerageway and stop propeller. Lower pilot ladder so Pilot may board safely. Pilot will act as Representative of Port Authority. Other Officials and Representative of steamship Agency will embark once ship has tied up.

Pilotage compulsory for all foreign vessels over 500 tons, with following exceptions:

(1) Fishing craft, yachts, tugs, barges and other craft of less than 500 tons total displacement whose handlers are suitably licensed by Captain of the Port of Manta.

(2) Vessels of the Ecuadorian Navy.

Note: Masters of large vessels and handlers of small craft who do not follow all rules of safety, including Rules of the Road may lose their right to navigate within jurisdiction of the Port Authority and may be subject to additional sanctions.

ANCHORAGES: Free anchorage area located around a point 1 mile from Manta Lighthouse (Lat. 00° 56′ 03″ S., Long. 80° 43′ 01″ W.). Depth 45 ft. Anchorage inside breakwater will be assigned by Pilot.

RESTRICTIONS: No restrictions upon entry. Vessels up to 32 ft. draft may enter at any time of day or night.

MAX. SIZE: Max. permissible length 600 ft., breadth 60 ft., draft 32 ft.

HEALTH: Radio pratique granted all ships in accordance with International Sanitary Regulations. Health documents will be delivered to boarding officer of Port Authority. When pratique granted by radio, not necessary for port doctor to board vessel.

In request by radio for pratique, vessels should give following data 12 to 24 hours before arrival.

A. Date and hour of expected arrival.
B. Number of Ecuadorian passengers.
C. Number of alien passengers.
D. Statement regarding existence or non-existence of communicable diseases aboard.

RADIO: Manta HCM 8372 kHz. Radio telephone 2182 kHz. VHF Channels 5, 6, 12, 16, 24, 25 and 26.

TUGS: A 1,200 h.p. tug, joins vessel in vicinity of pier. Ship's lines usually used. Use of tug for docking and undocking is at discretion of Port Authority.

BERTHING: Berth will be assigned by Pilot at boarding time.

Berthing Facilities:

2 Piers Length 200 m. for vessels with draft up to 10 m. Roll-on/Roll-off facility at one pier.

Marginal Quay, length 150 m., for vessels with draft up to 7.5 m.
Marginal Quay, length 150 m., for vessels with draft up to 5.7 m.
Marginal Quay, length 150 m., for vessels with draft up to 3.8 m.

Cranes: Mobiles cranes with capacity 12 – 35 tons.

Storage Area: 10,000 sq.m. of open storage available.

STEVEDORES: Arrangement for stevedores made by ship's Agent prior arrival.

FRESH WATER: Fresh water available in small quantities.

FUEL: Diesel oil available in small quantities by truck.

FIRE PRECAUTIONS: Regular fire precautions should be taken by all ships. Smoking should be prohibited in any section of the ship used for cargo. No smoking on the weather deck, cargo decks, and the ship's holds, whether cargo being worked or not. Smoking around hatches or at cargo winches must be prevented.

Smoking should be restricted to the passenger section of vessels, and to officers' and crew's quarters where suitable receptacles are available.

Persons including officials can be fined or refused entrance to terminal at discretion of Port Authority for careless or intentional disregard of reasonable fire prevention precautions.

Port Authority reserves right to inspect cargo working sections of vessel, to check precautions against fire, and to determine whether there are any undue accumulations of combustible materials.

Pumps and other fire fighting equipment aboard should be maintained in a state of readiness as long as vessels are in the terminal.

GANGWAY/DECK WATCHMEN: Custom police keep watch at the gangway.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: Tobacco, small amounts for personal use while in port. Wine and/or Spirits, wines and liquors by the glass for consumption on board while in port.

CARGO GEAR: Ship should have cargo nets, but Port Authority can provide cargo nets at extra cost.

IDENTIFICATION CARDS: Crew members should have identification cards while ashore at all times.

CONSULS:

Chile: Mr. Marino Concha Richards, Manuel J. Calle 200, Tel: 610-151.
Colombia: Dr. Anibal Ramirez Angel, Tel: 610-989 – Malecon.
Germany: Mr. Jorge Appenzauser, Tel: 611-169.
Italy: Romulo Massari P. P.O. Box 4847. Tel: 610-395.
Panama: Dagoberto Santana Morona.

REPAIRS: No repair facilities available.

REPATRIATION: Repatriation of crew members through Port of Guayaquil.

AIRPORT: Airport with 2,500 m. runway. Flights to Quito at 1050 hrs. on Monday, Wednesday, Friday. From Portoviejo (36 km.) flights to Quito on Tuesday, Thursday, and Saturday. Air taxis on request.

TIME: Local time GMT minus 5 hours.

HOLIDAYS: No movement of cargo within the terminal on 1st May, Christmas Day, or after 2000 hrs. on the 31st December, or on New Year's Day.

POLICE/AMBULANCE/FIRE: Police 610-900; Ambulance 612-014; Fire 610-100.

TELEPHONES: Telephone service can be obtained at Terminal Office, at same rate as public telephones.

SHORE LEAVE: Crew members are welcome ashore.

AUTHORITY: Autoridad Portuaria de Manta.

PUERTO BOLIVAR: 03.14 S. 80.01 W.

DOCUMENTS:

3 Voyage Memorandums.
2 Maritime Health Declarations.
1 Consular Despatch.
1 Port of Origin Certificate.
10 Crew Lists.
8 Stores Lists.
3 Individual Declaration List for each member of the crew.
8 Lists Passengers Disembarking at this port.
8 Lists Passengers in transit.
4 Luggage, Mail and Commissions Lists.
4 Manifest of Cargo Lists.

Documents for Port's Authority should be supplied by Agents:

1. General Cargo Manifest in complete sets (Importation in triplicate, Exportation one set).
2. Bill of Lading, complete sets: Importation (one set), Exportation (one set) at time of sailing.
3. Export Customs House Clearance Document (one set). This document is replaced by the Bill of Lading.
4. Certificate of Ballasting.
5. Request for Mooring Berth.
6. Stevedore's cargo plan per hatch.
7. Muster-roll of cargo.
8. Tally books: 15 copies in Spanish. These must be in accordance with the current Tally Law.

PILOTAGE: Send ETA through Radio Naval of Guayaquil 24 hours before arrival. Pilot will board vessel on the port side 1 mile from the Sea Buoy on arrival and disembark on the starboard side. In case Pilot not available it is recommended to anchor 1 mile from "Punta Jambeli" between the buoy and the lighthouse of Lambeli. Pilot boat is steel, black hull and white cabin, it carries pilot signals in accordance with International Regulations. Service available 24 hours a day. Pilotage is compulsory.

ANCHORAGES: Pilot will indicate recommended anchorage.

RESTRICTIONS: Depths 30 ft. at LW, from 0600 to 1800 hrs. draft allowable 30 ft. From 1800 to 0600 hrs. draft allowable 27 ft.

MAX. SIZE: At Espigon Quay depths alongside 30 ft. inner end to 36 ft. at quay head.

HEALTH: On the arrival of vessel the authorities come on board. If there are no illnesses aboard, the doctor gives free pratique. In case of any illness, Master should advise by radio and the vessel waits in quarantine for the visit of Port Health Doctor.

RADIO: Radio Naval of Guayaquil, Radio Naval of Puerto Bolivar VHF available call pilot station on Channel 16, effective reception 30 miles.

TUGS: 2 tugs available one at 1,200 h.p. and one of 500 h.p Usually, ship's lines are used. This service is free.

BERTHING: At Espigon Quay should be carried out within 1 hour before or after slack water. Tidal currents of 1 – 3 knots in dry season and 3 – 5 knots in Winter are at right angles to berthing face of the quay.

Wind: From 000° in the morning, speed 3 – 5 knots. From 210° in the afternoon and night, speed 3 – 5 knots.

STEVEDORES: Agents take charge of gangs.

MEDICAL: Hospitals, clinics and dental surgery in Machala, 6 km. from the port. There is also a medical service for vaccination.

DENSITY: Salt water.

FRESH WATER: Only available by tanker truck, capacity 7 tons.

FUEL: No fuel in this port. In case required one has to contact Guayaquil and they send it by small tankers.

GANGWAY/DECK WATCHMEN: The Agent names 1 or 2 watchmen for the vessel besides the Maritime Police and Coast Guard.

OPENING/CLOSING HATCHES: Carried out by shore gang supervised by someone on board.

CERTIFICATES: Vessel's Register and Tonnage Declaration required.

CUSTOMS ALLOWANCES: 100 cigarettes per person and 1 bottle wine or spirits per person.

IDENTIFICATION CARDS: Not necessary.

CONSULS: Consul of Peru, Tel: 920608.

REPAIRS: There are no facilities in this port.

REPATRIATIONS: The Immigration Office can arrange.

AIRPORT: Distance to the airport is 6 km. It has 6 daily flights in connection with Guayaquil.

TIME: GMT minus 5 hours; there is no change.

HOLIDAYS: No work from 1700 hrs. on 24th December till 0800 hrs. on 26th December, and 1700 hrs. on 31st December till 0800 hrs. on 2nd January; Carnival; Maundy Thursday; Good Friday and Saturday; 1st May; 24th and 25th July; 9th October.

POLICE/AMBULANCE/FIRE: There are services.

TELEPHONES: Can be connected to the vessel.

GENERAL: When the vessel is anchored, landing service is done by launches. They are called by 1 long whistle and 2 short ones. This service works 24 hours a day.

At Night: A flashing light is to be used to call launches and not the whistle.

SHORE LEAVE: Passengers or crew do not need any special permit to land.

DEVELOPMENTS: A marginal pier for general cargo is being built. Length of pier 360 m.

SHIPMASTER'S REPORT: 1978

Fresh Water: Water is available at anchorage by a barge of 48 ton capacity, at a cost of 120 Sucre (US $4.80) per ton. For ships berthed alongside, water is delivered by modern trucks of 7 or 8 ton capacity, at a cost of 70 Sucre (US $2.80) per ton.

Surveyor: A non-exclusive surveyor acting for Lloyds, Det Norske Veritas, and the Japanese Classification Society, is based at Guayaquil. Loadline survey and engine survey work done. He travels by air from Guayaquil (45 minutes).

Watchmen: One Customs and one Naval guard are obligatory, and should be fed and provided with room to sleep. Ship's crew should be employed day and night, one as accommodation watchman and one as deck watchman. Store-rooms should be locked up, and all loose equipment and lifeboat equipment stowed in lockers or accommodation. Only one accommodation door should be left unlocked, and a ship's watchman posted there, day and night.

Banana Cargoes: Loaded through side doors from the quay or from barges, or both together. No cranes, derricks or mechanised equipment used. About 400 men employed at one time. Very fast.

Casual Labour: This is freely available for painting hull, cleaning engine room, etc. The usual rate of $1 per hour with double for the foreman is now rising, some ships paying $1.50 during 1978. Overtime after 6 p.m., usually double. Possibly negotiable.

PURSER'S REPORT: See "Quayaquil".

AUTHORITY: Port Captain.

Egypt, Arab Republic of

GENERAL

NAVIGATION REGULATIONS:

The following rules for ships navigating in the Gulf of Suez have been approved by IMO.

1.1 Ships should take into account that crossing traffic may be encountered in the traffic junction Eastward of Ain Sukhna and in the precautionary area off Ras Shukheir, and should be in a high state of readiness to manoeuvre in these areas.

1.2 Exceptional care is needed, when overtaking another ship within a lane, not to enter the separation zone or force the overtaken ship to do so.

1.3 Ships navigating in the Gulf of Suez are requested to keep continuous listening watch on the Suez Gulf Traffic Information Broadcasts and report any aids to navigation which are malfunctioning or are out of position and which are not already included in the Suez Gulf Traffic Information Broadcasts.

2.1 All ocean ships should have their radar in effective use by day and night throughout the passage between Shaker Island and Suez Port as an aid to achieving maximum feasible lane conformity and avoiding risk of collision. Particular care is required for strict adherence to the confines of relevant traffic lanes.

2.2 Ships preceding South from Suez should be alert for tankers heading for the Sumed Oil Terminal off Ain Sukhna.

2.3 Northbound tankers heading for Sumed Oil Terminal should report their intention of using the traffic junction off Ain Sukhna on the appropriate frequencies.

2.4 All ships North and Southbound when navigating through the precautionary area off Ras Shukheir or in the vicinity of the July oilfield should avoid overtaking in the traffic lanes in these areas.

2.5 All ships including service and supply craft serving the oil workings in July, Ramadan and Morgan oilfields proceeding in and out of Ras Shukheir oil terminal, should only cross the South and Northbound traffic flow through the precautionary area off Ras Shukheir. Within the precautionary area local rules relating to crossing traffic apply.

2.6 Tankers leaving the Ras Shukheir oil terminal and intending to join the Northbound traffic lane should only do so when no through Southbound traffic is in the vicinity and should always report their movements to other ships beforehand on VHF.

2.7 Ships anchored in the designated waiting area for Ras Shukheir should ensure that they are never less than 0.25 mile from the edge of the Southbound traffic lane and should pay special regard to their correct light signals for ships at anchor. They should also show their deck lights.

AIN SUKHNA: 29.32 N. 32.24 E. (See Plan Book)

Also see "General" before first port.

LOCATION: Ain Sukhna Sea Terminal is situated in the Northern end of the Gulf of Suez.

The position of the sea terminal is: Lat. 29° 32′ N., Long. 32° 24′ E. As a reference point, there is a light which is exhibited from a metal structure standing close to the seaward side of an old abandoned lighthouse on Ras Abou Darag.

DOCUMENTS: All vessels calling at Ain Sukhna have to deliver directly their official documents, as indicated below, to SUMED's Port Authority:

Certificate of Registry.
Load Line Certificate.
Safety Certificate.
Derat Certificate.
Radio Certificate.
Suez Canal Tonnage Certificate when applicable.
Panama Canal Tonnage Certificate when applicable.

Vessel's official documents, after being reviewed, will be handed to the vessel's Master after discharging and before vessel departs from SUMED's port.

PILOTAGE: SUMED's Mooring Master and his assistant board the tanker 2 miles Southeast of buoy "S2".

Notifications: ETA messages should be sent by cable via Alexandria/Port Said Radio on leaving previous port. Cables should be prefixed "For urgent delivery send via Telex 54108 or 54033 SUMED UN" and be confirmed 72, 48 and 24 hours prior to arrival. (Day and Night berthing and operation). Arrival draft should be indicated.

LOCATION OF BUOYS: (SBMs)

S1:	Lat. 29° 35′ 16″ N.	Long. 32° 23′ 35″ E.
S2:	Lat. 29° 34′ 12″ N.	Long. 32° 22′ 42″ E.
S3:	Lat. 29° 35′ 17″ N.	Long. 32° 22′ 16″ E.

The 3 SBMs are painted orange and have the following characteristics:

Lights: A flashing light, activated by an automatic photo-electric sun switch.

Light frequencies are as follows:

SBM No. 1	Morse Code A
SBM No. 2	Morse Code B
SBM No. 3	Morse Code C

Fog Horn: An acoustic signal with an approximate range of 2 miles.

Hose Line Marker Beacons: 3 flashing lights with the following characteristics are fitted to the floating hose strings to mark the line during darkness.

Flashing character 1-10 at 20-60 flashes/minute activated by an automatic photo-electric sun switch. Lens: white.

Radar Reflector: Each buoy is provided with an octahedral radar reflector constructed in stainless steel with a diameter of 0.5 m. installed on top of the rope guard.

ANCHORAGES: Tankers can anchor to the S.E. of the buoyfield.

RESTRICTIONS: *Maximum weather conditions for occupying SBMs:*

The SBMs are designed to accommodate tankers up to the following weather conditions.

Wind velocity (knots)	35 (65 km./hr.)
Maximum tidal range	2.0 m.
Maximum wave height	3.4 m.
Maximum surge/seiche conditions	0.5 m.
Current: Surface	2.0 knots.
Seabed	1.0 knot.

The above conditions are not relevant to the safety of the ship but to the safety of the buoys. Consequently the Mooring Master shall have the authority to decide whether the ship should remain moored or vacate the buoy due to adverse weather conditions.

MAX. SIZE: The three berths are spaced one from the other so that each has:

Mooring Area Radius: 410 m. for S1 and S2 (accommodates vessels up to 285,000 d.w.t.); 320 m. for S3 (accommodates vessels up to 13,000 d.w.t.); Manoeuvring Area Radius: For S1 and S2, 1,220 m.; For S3, 915 m.

Water Depth and Draft Limitations:

For S1 and S2:	85 ft. minimum water depth
	75 ft. maximum draft
For S3:	65 ft. minimum water depth
	55 ft. maximum draft

HEALTH: Vessels proceeding to Ain Sukhna must be in possession of the following documents:

(a) Maritime International Declaration of Health.
(b) Valid Derat or Derat Exemption Certificate.
(c) Valid Smallpox Vaccination Certificates for all passengers and crew members.
(d) Certificates of inoculation against any communicable diseases prevailing at the Ports of departure.

Masters are required to immediately notify SUMED by cable in the manner outlined in "Radio – ETA" in case of any epidemic diseases or illness onboard while the vessel is bound for Ain Sukhna. The same message is to be conveyed to the terminal as soon as an HF or VHF contact is established, at least 6 hours before arrival.

RADIO: *ETA:* In order to avoid undue delays it is essential that Masters of vessels proceeding to Ain Sukhna terminal cable their ETAs to "SUMED" Alexandria.

The cable to be prefixed quote "to be conveyed via telex (54108) or (54033) SUMED UN operations office-oil movement" unquote.

ETA notifications to be sent as follows:

Immediately upon sailing from loading port/s
In case of a change in ETA exceeding 6 hours
72, 48 and 24 hours prior to arrival.

Confirmation of ETA: An additional contact can be made with the Ain Sukhna Terminal on HF 2182 kHz 24 hours before arrival.

Moreover, Masters are required to contact the terminal on VHF 6 hours before arrival on Channel 16 (or preferably Channels 78 and 79 if available).

Information from the vessel: All vessels proceeding to unload their cargoes at Ain Sukhna are required to convey the following information to SUMED.

(a) Immediately upon sailing from loading port/s vessel is to cable, in the manner outlined in "Radio – ETA" the following information:

(i) ETA (in GMT) and expected arrival draft at Ain Sukhna, vessels are requested to arrive even keel.
(ii) All B/L data and ship's figures at loading port/s, stating quantity of free water on board after loading.
(iii) Whether the vessel loaded on top of slops stating grades of crude that were commingled with residues, quantity and API of contents of slop tank/s.
(iv) If the vessel is loaded with more than one grade of oil, Master is requested to confirm ability to unload according to the sequence agreed upon with the shipper (vessel's owner or charterer as the case may be).
(v) SUMED is to be immediately notified in the case any repairs are required that could delay commencement of discharging.
(vi) Estimated time for unloading the cargo if no restrictions are imposed by shore.

(b) On arrival at Ain Sukhna the following written information is to be handed to SUMED's Mooring Master:

(i) Whether vessel equipped with inert gas system. Vessels arriving with gas inerting blankets should, on arrival depressurise their system sufficiently to allow visual sampling and ullaging of cargo tanks. Upon completion of ullaging, pressurisation of inerting system shall be resumed and maintained throughout discharge.
(ii) Whether the vessel has external impressed cathodic protection.
(iii) Vessel's readiness to connect 2×16 in. hoses ASA 150.
(iv) The pressure which the vessel expects to maintain at the ship's rail and which is required to be a minimum of 100 p.s.i. unless otherwise specifically requested in writing by shore.
(v) Whether vessel requests to perform crude washing and in the affirmative the relevant check list should be filled in by the Master. See "Crude Oil Washing" under "Discharging".
(vi) Full names and addresses of Owners, Managers and Charterers of the vessel and their Agents in Egypt if any.
(vii) Whether the tanker's Owners/Bareboat Charterers are members of a P & I club stating name and address of such club, if available.

Information from Terminal:

The following information will be given to the vessel upon arrival at the anchorage area or when SUMED's Pilot boards the vessel:

(i) Any expected pre-mooring delays and their likely duration.
(ii) Any special mooring instructions.
(iii) Details of any restrictions on discharging rate.

All such restrictions and their duration will be confirmed in writing by SUMED.

VHF: Channels 16, 78 and 79.

TUGS: Tug "Sukhna" 3,200 h.p. with fire fighting and with anti-pollution equipment is available as required.

Mooring Launches: 500 h.p. mooring launches assist in mooring and hose operations.

BERTHING: Ain Sukhna Sea Terminal consists of 3 sea berths all of which are single point mooring buoys (SBMs).

2 large buoys for vessels up to 285,000 d.w.t. and 1 small buoy for vessels up to 120,000 d.w.t.

Subject to SUMED's prior approval and acceptance in each case the buoys can accommodate vessels larger than those specified above within the following limits:

Large Buoys (S1 and S2)	up to 350,000 d.w.t.
Small Buoy (S3)	up to 200,000 d.w.t.

maintaining all other length and draft limitations. Each of the larger buoys is connected to shore by a submarine line 48 in. (1.22 m.) in diameter and approximately 8 km. in length.

The small buoy is connected to shore by a submarine line 42 in. (1.067 m.) in diameter and approximately 5 km. in length.

Ropes: All SBMs are equipped with twin 15 in. circumference nylon ropes each 180 ft. long ending with a 20 ft. chafing chain 2.3125 in. diameter. A support buoy is connected to the chain.

The port side mooring rope has a 350 ft. polypropelene 10 in. pick-up rope with a 3ft. soft eye at the end.

The starboard side is the same but the pick-up rope is only 150 ft., 10 ft. or 12 ft. snotters with shackles are used for connecting the chafing chain to ship's bollard.

Mooring Master Duties: When the Mooring Master boards he will advise the ship's Master or officer in charge of the bridge on the approach to the berth, arrangements for mooring and unmooring, connecting and disconnecting of the hoses, and all other operations within the berthing area. The Mooring Master will submit and receive from the Master all forms, documents and papers required, to be filled and signed or received by the Master.

Adequate Lighting: There must be adequate search lights rigged on both wings of the bridge when mooring at night to facilitate running lines to the buoys.

VHF: The Mooring Master will be in direct charge of the portable VHF ship to shore radio telephone communications.

Mooring: Pick up from the mooring boat:

2 wire rope snotters of 12 ft. or 20 ft. length (to suit tanker bollard location).

Weight of 12 ft. 80 kg	23.8 in. diameter
Weight of 20 ft. 135 kg.	23.8 in. diameter

2 bow shackles 55 tons SWL (weight of shackle = 43 kg.) or 2 bow shackles 75 tons SWL (weight of shackle = 68 kg.) for tankers over 130,000 d.w.t.

Tool box.

Move these items to bow.

Slip the soft eye of the snotter onto bollard having a good lead to forward fairlead. The forward winches should be tested, drained and be in good working order.

Ensure that both anchors are secured by stoppers in the hawse pipe. Anchors must not be dropped at the berth.

Prepare messenger line, (about 10 in. circumference × 500 ft. length polypropylene), and pass through the forward fairlead and lower as directed by Mooring Master, starting at the port side.

The mooring boat will fasten this messenger to the 10 in. 350 ft. polypropylene pick-up line on the buoy mooring system.

Upon the boat's signal, heave away until the chafing chain is in the fairlead or Panama lead with the support buoy close outside.

Shackle the free end of the wire snotter to the open end link of the chafing chain.

Ease back on the pick-up line until the weight falls on the bollard wire snotter.

Should the vessel have a "SMITS" type towing bracket, release the pin, install the open link and lead the pick-up so that the end link of chain is directly fastened to the open link with the bow shackle.

Same procedure will be adopted to the starboard polypropylene pick-up rope of 150 ft. length connected to the buoy mooring system.

Mooring Sequence:

Prompt Berthing: SUMED will make every effort to moor ships arriving according to agreed schedules as promptly as operational circumstances permit.

Notice of Readiness: To be tendered when vessel arrives at Ain Sukhna anchorage area provided that vessel is ready in all respects to unload her cargo. NOR will be accepted according to SUMED's agreement with the relevant shipper.

Arrival Time: Arrival time will be considered at the time the vessel anchors.

Cargo Operations: Vessel moored to the SBMs must limit their stay to the allowed berth occupancy time stipulated in the transportation agreement between SUMED and the relevant shipper.

Unless vessel sizes are otherwise classified in the said agreement the allowed berth occupancy time is as follows:

MDWT	Hours
More than 285	52
Over 240 to 285	42
From 200 to 240	36
Less than 200	28

Delay due to weather: In the event that berthing delayed on account of adverse weather conditions the vessels will maintain their position in line.

Port Closure: Should vessels be requested to vacate the berth on account of adverse weather conditions closing the port, they shall keep in contact by VHF with the terminal in order to be readily available for re-entry as soon as the terminal so requires, after weather conditions permit.

Port Re-opening: When the port is re-opened discharging will recommence according to the firm schedules agreed upon with SUMED's shippers.

Vessel refusal: SUMED reserves the right to decline to berth a specific vessel should it consider that such vessel's condition or facilities are unsafe.

Unmooring: Take the weight of the moorings on the pick-up starting with the starboard side first, using windlass. Unshackle the wire snotter (or unpin the "SMITS" brackets).

Slack the pick-up until the support buoy is in the water. Pay out the pick-up line (as ship clears from the berth). Return the wire snotters, bow shackles and tool box to mooring boat prior to Mooring Master's departure.

The tug and mooring launches will be in attendance.

HOSES: SBMs No. 1 and 2 contain twin crude floating hose strings each 297.2 m. (975 ft.) in overall length consisting of:

23 hoses	24 in. × 35 ft.
1 hose	24 in./20 in. × 35 ft.
1 hose	20 in./16 in. × 35 ft.
2 hoses	16 in. × 35 ft.
1 hose	16 in. × 30 ft.

SBM No. 3 contains twin crude floating hose strings each 243.9 m. (800 ft.) in overall length.

Each consists of:

19 hoses	20 in × 35 ft.
1 hose	20/16 in. × 35 ft.
2 hoses	16 in. × 35 ft.
1 hose	16 in. × 30 ft.

All tail hoses are 16 in. in diameter and the gear attached to each of the 16 in. crude oil hose tails consists of a lifting eye, butterfly valve, spool piece with camlock and light weight blind flange.

The camlock is suitable only for connections with tanker manifold flange of 16 in. ASA 150.

Quick Release Safety Couplings: Quick coupling (Camlock) are connected at each hose end and they will be used as follows:

In case of emergency the butterfly valve shall be immediately closed and the quick coupling immediately disconnected.

Hose Connecting and Disconnecting: The connecting and disconnecting of cargo hoses shall be performed by the crew of the vessel under instructions from SUMED's Mooring Master.

Preparations: The tanker crew are required to lift 2×16 in. crude hose strings and connect them to the vessel's port side manifold.

To avoid delays the following items should be prepared prior to berthing, otherwise the vessel will not be considered ready to discharge.

3×16 in. standard 150 ASA flange connections in position on selected lines for discharging crude oil.

Port derrick with a minimum 10 ton SWL rigged for maximum height and load lifting. The derrick shall be guyed to plumb the vessel's rail-hose bolster bar at the vessel's manifold.

If possible, the topping lift of the boom shall be on its own winch. All winches shall be tested, drained and in ready running condition.

Drip trays, sand bags, dispersant and fire fighting equipment in position.

A steel basket to contain tools, gaskets, nylon lifting slings and other equipment for lifting on board from the mooring boat.

Equipment to be Onboard Before Berthing: In order to expedite the connection of the hoses the following equipment must be available.

2 polypropelene messenger lines
(about 10 in. circumference 500 ft. long).
Sledge hammer.
Large crowbar.
Large marlin spike.
Large flashlight.
Bags of sand.

Manifold on the port side must be used:

All manifolds to be ready with 16 in. flange ASA 150.
Hose derrick rigged.
Derrick fall fitted with cargo hook 10 ton SWL.
Heaving line.
2 × 1-1-2 ton pullers.
Copper hammer.
Steel spike.
Spare bolts and 16 in. gaskets.
Nylon lifting slings.

DISCHARGING:

Terminal Design: The design of the discharging terminal is based on the following flow rates with crude oil characteristics as follows:

Viscosity = 17 cst
Specific gravity = 0.867 kg/cu.cm.

SBMs No. 1 & 2	Max.	12,500 tonnes/p.h. 200 p.s.i.
	Min.	7,400 tonnes/p.h. 100 p.s.i.
SBMs No. 3	Max.	7,400 tonnes/p.h. 120 p.s.i.
	Min.	5,900 tonnes/p.h. 100 p.s.i.

Inert Gas System: Vessels equipped with inert gas system are to depressurise tanks before berthing in order to allow for sampling and ullaging upon arrival and after completion of discharge to check remainders on board. Pressurisation of inerting system should be resumed as soon as ullaging and sampling are completed and throughout the discharge.

Crude Oil Washing: COW is usually acceptable if the ship can maintain an average flow rate of no less than 7,400 tonnes/p.h. (100 p.s.i. at ship's rail throughout discharging). However, COW is subject to the terminal's approval depending on both operational circumstance and if this operation has been previously carried out by the vessel.

When vessel requests permission to perform COW the Master must respond in writing to the "Crude Oil Wash Checkoff List".

COW of slop tank is prohibited.

Crude Oil Wash (COW) – Checkoff List: Vessels requesting permission to perform crude oil wash while unloading at Ain Sukhna, are requested to respond to the following checkoff list:

Inert gas system is fully operational and tested.

Each tank will be positively pressurised and method of recording pressure will be available.

Each tank will be kept below 8% oxygen before and during operation.

Inert gas system flue gas oxygen content will be continuously monitored and maintained below 8% oxygen.

Oxygen alarm in cargo control room set to give visual indication when to abort crude washing.

Pressures in cargo tanks are available to vessel's control room personnel.

Washing systems have permanent steel pipework and will be pressure tested to 10 to 15 p.s.i. above expected working pressure but to minimum of 150 p.s.i. prior to use.

All tank openings are sealed and remote tank gauging system is operational.

All necessary throttling of discharge for crude spraying will be done on vessel's valves.

There is a responsible designate person in charge of operation. (Give name.)

Effective communication will be maintained between vessel and shore.

Water will not intrude into the crude wash cycle.

Washing to be commingled and discharged at the same time with the rest of the cargo.

Previous crude wash exprience of key personnel is (list).

Tanks crude washed last 2 voyages are (list).

Any additional vessel requirements or comments.

Emergency Communication: If ship-to-shore communication fails the ship's whistle shall be sounded continuously. Discharging shall be immediately stopped and will not be resumed until communications have been re-established.

Overside Lighting: During night discharging sufficient overside lighting must be provided to readily detect any oil spill so that immediate appropriate action may be taken.

International Code of Signals: During discharging operations the following signals shall be displayed:

By Day : The International Code flag "B".
By Night : A red light visible all round the horizon for distance of at least 2 miles.

Unloading Procedures: Upon being informed by the vessel's Master or responsible officer that the vessel is ready to start discharging, the Mooring Master will contact the Terminal Control Room to co-ordinate the commencement of unloading in accordance with the terminal's instructions.

The control room operator will normally give a "standby warning" by VHF approximately 10 minutes before the shore tanks are ready to receive cargo.

When the request to commence discharging is received the Mooring Master will ensure that discharging commences at slow speed. This starting procedure will always be adhered to.

Discharging will commence utilising 1 pump only with circulating system and when it has been confirmed that there is no significant rise in pressure on the discharging line which could indicate a blocked or closed valve on the shore or ship's discharging system, the crude oil will be discharged at the steady operating flow previously agreed upon.

Should there be any significant rise in pressure, discharging must be immediately stopped. The ship will be advised to check the on-board systems, take any necessary remedial steps and inform the terminal's control room.

At the same time the underwater and floating hoses should be checked to ensure that there are no obstructions.

Should the Master be requested to increase or decrease the cargo discharging rate this should be promptly implemented provided the vessel's pumps are capable of an increased rate.

SUMED may allow vessels to simultaneously ballast while unloading provided they are equipped to properly segregate the ballast and avoid any possible commingling with the cargo. Pumping ballast water into the sealine is strictly prohibited.

Any suspension and subsequent resumption of discharging of cargo must be logged both ashore and in the "Tanker Time Sheet".

All events regarding mooring, commencement, termination of unloading, stoppages, if any, and unmooring are both logged and recorded ashore at the terminal's control room as and when they are received from the Mooring Master.

These events shall jointly be logged in the Tanker Time Sheet by the vessel's Master and SUMED's Mooring Master.

Vacating Berth: Vessels shall vacate berth immediately after disconnection of hoses, allowing the least possible time to take ballast if essential for the safe manoeuvering of the vessel while vacating the berth.

Emergency Shut-Down: In case of emergency such as fire, sudden deterioration of sea and weather conditions, failure in ship to shore communications, etc, the discharging operations must be immediately suspended at the request of the Mooring Master. The ship's discharging pumps must be stopped immediately, the butterfly valves of the floating hoses and the manifold valves must be closed.

Depending upon the reasons causing the emergency, the ship's Master and Mooring Master will decide whether or not to disconnect the hoses and vacate the berth. In case of dispute the final decision will be taken by the Mooring Master.

Sampling: Representative samples of the cargo will be taken either from the vessel's cargo tanks or from the online automatic samplers.

The samples will be divided into 3 equal portions of about 1 gallon each, one portion will be handed to the quality control laboratory, the second to the ship's Master (sealed by SUMED) and the third retained by SUMED for 60 days (sealed by the Master).

The ship's Master will sign a receipt on receiving the ship's sealed and stamped container of the sample.

MEDICAL: Neither medical nor hospital facilities are provided by SUMED. In case urgent medical assistance is required the vessel should contact SUMED's Harbour Master by VHF radio. Private doctors and facilities are available at Suez.

REPAIRS: Masters of vessels discharging at Ain Sukhna Terminal are instructed that under no circumstances may engines be shutdown for repairs whilst their vessel is moored to the SBMs. There are no facilities at Ain Sukhna Terminal for repairs. Repair facilities are available at Suez.

It is emphasised that all vessels at the SBMs must be prepared to clear immediately on instructions from the Mooring Master.

CONSULS: Consular or diplomatic representatives for most maritime nations are represented in Cairo.

REPATRIATION: Crew changes are only permitted in cases of emergency.

SHORE LEAVE: There is no shore leave for personnel of vessels whilst at Terminal.

WEATHER:

Climate: The climate in the Ain Sukhna area is generally good. Summers are hot and dry and winters are relatively cool.

The visibility is usually excellent with few sand storms and infrequent fog. Sub-zero temperatures are unknown and there are very few rain squalls.

Summary of Weather Statistics (1884 – 1967):

Average rainfall year	0.8 in.
Mean maximum temperature	84°F (29°C)
Mean minimum temperature	62°F (16.7°C)
Extreme maximum temperature	111°F (44°C)
Extreme minimum temperature	35°F (1.7°C)
Average relative humidity	60%

Winds: The prevailing winds at Ain Sukhna are from the N.W. throughout the year.

Tides: The tidal range is up to a maximum of 7.4 ft.

Waves: The estimated characteristics of the 100 year extreme waves are:

Maximum height	12.0 ft. (3.7 m.)
Maximum crest elevation	11.0 ft. (3.3 m.)
Period	7.5 secs.
Length	280 ft. (85 m.)
Speed	22 knots (41 km./hr.)
Direction from	North

Tidal Streams: At Ain Sukhna the tidal streams set parallel to the coast line Northwards on the flood tide and parallel to the coast Southwards on the ebb tide. Maximum rate is 0.5 knots (0.9 km./hr.) at the surface.

Currents: There is no fixed current in this area and any flow is caused entirely by the prevailing tidal stream and winds.

Sea Salinity: The Red Sea and Gulf are extremely saline and salinity is around 40,000/50,000 parts per million.

Sea Temperature: The surface temperature of the sea ranges between 66°F (19°C) in February and 80°F (26.7°C) in August.

GENERAL:

Navigation: When entering, manoeuvering or leaving the Port Limits of Ain Sukhna, the Master has to conform with the conditions setforth in this Manual and has to adhere to the 1972 International Regulations for preventing Collisions at Sea which will be complied with at all times.

The Master guarantees that his vessel fulfils all navigational and worthiness conditions in particular those required for vessels carrying dangerous cargo, (crude oil) in accordance with the provisions setforth in the Appendix for vessels carrying Dangerous cargo annexed to Rules of Navigation of the Suez Canal Authority to the extent that such provisions are applicable.

Master should submit the respective certificate and declarations whenever required in this respect.

Helicopters (available in emergencies): Should the services of a helicopter be required by SUMED for any purposes whatsoever the vessel will be given a minimum of 30 minutes warning notice before the helicopter's approach in order that cargo operations can be stopped and all tanks and vents closed.

A responsible officer should be on deck to assist the helicopter in making the approach to the vessel. Although the safety of the helicopter remains at all times the responsibility of its pilot, helicopter services shall not be employed in any event without the express prior consent of Shipper and vessel's Master.

Supplies: Stores and supplies are available through an Agent and can be delivered from Suez to Ain Sukhna anchorage area after unloading but entirely at the vessel's own risk.

Government Officials: A.R.E. officials, such as Customs Director, Quarantine Officer and Immigration Officer are stationed at Ain Sukhna. Should Customs guards be stationed on board vessels whilst moored it is expected that vessels will extend all courtesies to them and or other officials while on board.

Ship's Readiness: This terminal is an open roadstead and therefore, during the time a ship is moored, the engines must be ready with full power for immediate use.

Vessels at berths must clear immediately upon advice of the Mooring Master or as directed by SUMED's terminal superintendent. Ship's personnel should be at their respective stations at all times during mooring, unmooring and cargo transfer operations.

Courtesy Flag: All vessels are required to fly A.R.E. Ensign on the foremast during daylight hours.

Quarantine Regulations: The rules governing quarantine regulations are the same as for Suez.

Unauthorised Craft: The presence of unauthorised craft alongside is extremely hazardous.

SUMED prohibits the boarding of individuals other than those authorised to do so in the bona fide conduct of the vessel's operation. No unauthorised person is allowed to board the vessel whether at anchorage or while moored.

Contraband: SUMED prohibits unauthorised craft from coming alongside vessels. To avoid the possibility of undesirable items getting aboard vessels, it is requested that Masters discourage craft coming alongside whilst the vessel is in the terminal.

AGENCY SERVICES: Not required under normal circumstances.

TIME: GMT plus 2 hours.

AUTHORITY: Arab Petroleum Pipeline Company (Sumed Un).

Headquarters: 9 Amin Yehia St., Zizinia, Alexandria. *Tel:* 61579, 64138, 64139. *Telex:* 54295, 54380 Sumed Un.

Central Operations: 16 Syria St., Roushdt, Alexandria. *Tel:* 42975, 43940, 44939. *Telex:* 54108, 54033 Sumed Un.

ALEXANDRIA: 31.09 N. 29.53 E. (See Plan Book)

DOCUMENTS:

4 copies of Crew List.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of passengers in transit.

Landing cards for passengers landing finally in A.R.E. and for those landing in A.R.E. in transit.

4 copies List of passengers finally landing in A.R.E. (if any) together with their addresses in A.R.E.

Deck log books showing date of last call at a A.R.E. port, completed up to the time of arrival.

For Quarantine: Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.

Derat Certificate should be handy for inspection.

Clearance from Last Port.

For Immigration Officer:

Arrival Immigration Form, duly completed.

1 Passenger List.

List of Passengers finally landing, in duplicate.

Crew List.

Valid passport with entry visa is required for landing in A.R.E. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

Bonded Store List, in duplicate.

Crew List and passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: Compulsory. Pilot boards off harbour entrance. International code signals used.

Vessels are not to proceed from the waiting area (Lat. 31° 12.6′ N., Long. 29° 44.5′ E. with radius of 1.5 miles) without a Pilot onboard.

RESTRICTIONS: Entrance channels 36 ft. depth, being dredged to 50 ft. Arriving vessels should keep 50 miles offshore between sunset and sunrise.

MAX. SIZE: Up to 34 ft. draft.

RADIO: Alexandria Radio, call sign SUH, operating 24 hours daily on 444, 500 and 8578 kHz and between 0600 to 1800 GMT on 12,974 kHz. Also harbour VHF Channel 16.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor. The Quarantine Doctor meets ships whilst entering the port and ships are boarded in turn.

In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at an A.R.E. port, the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and have a doctor on board.

(2) Details shown on the Quarantine Statement should be wirelessed to the Quarantine Authorities 24 hours prior to ship's arrival.

(3) Masters of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.

(4) The ship must not have called at any infected port.

TUGS: 5 tugs available up to 1,200 h.p.

BERTHING: Alongside quays in depths up to 34 ft.

Refrigerated cargoes should be direct delivery.

Ro/Ro facilities available.

Cement to silos and bagged in heavy cloth (no paper bags permitted).

Coal: Discharged at Berth Nos. 63 and 64. Max. draft 33 ft. 4×25 ton cranes. Rate 10,000 tonnes per day.

TANKERS: Petroleum Basin: in West part of Outer Harbour, Berth Nos. 3 and 4, depth alongside 38 ft., max. length 700 ft., draft 34 ft. Berth Nos. 3 and 4: in East part of Outer Harbour. Stern to moorings.

It has been reported that tankers are required to take on ballast in excess of that deemed to be necessary by the Master, even in fine weather. One Master was ordered to bring his forward draft to 21 ft. Once the vessel was alongside a charge was made for deballasting the vessel.

FRESH WATER: Available by barge, and alongside most quays.

FUEL: Available by barge.

MEDICAL: All facilities available. International Vaccination Certificates required.

REPAIRS:

Alexandria Shipyard: Builds vessels up to 40,000 tons. One drydock capacity 85,000 d.w.t., cranes with up to 30 tons capacity. One drydock capacity 20,000 d.w.t., cranes with capacity up to 30 tons. Fully equipped engineering workshops capable of carrying out extensive repairs alongside quays length 1,200 m. Depth alongside 11 m.

Alexandria Ship Repair Co.: Ship repairs including engine repairs and boiler repair. Fully equipped workshops.

The Egyptian Shipbuilding and Repairs Co.: Floating dock for ships up to 12,000 d.w.t. 100 ton floating crane. All types of hull and machinery repairs possible.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Suez Canal".

DEVELOPMENTS: Container terminal to be completed 1984. Depth alongside 14.0 m. 2×42 tonne gantry cranes available.

Grain elevator (Berth Nos. 81/82) to be constructed. Capacity 6,000 tonnes. Grain silo of 100,000 tonnes to be constructed. Completion mid-1985.

Control tower with radar and VHF being constructed.

Approach channel to be widened to 220 m. and deepened to 13.0 m.

Dekehila: New port 28 miles West of Alexandria. There will be 1,792 m. of quays with depths up to 19.0. m. Bulk terminal to be operational early 1986.

SHIPMASTER'S REPORT: 1976

Approaches: Ships making the passage from Port Said to Alexandria are obliged to keep to the route laid down by the Egyptian Authorities. The coastline is rather featureless and a good operational radar is invaluable. Radar conspicuous objects were found to be – Ras el Barr Lighthouse and fort, forts numbers 2 & 4, the forts and lighthouses at Brulos and at Rosetta Mouth and also Nelson Island.

The anchorage can be identified from a considerable distance by the number of ships at anchor off the port – often more than fifty. The prohibited area marked on Chart No. 243 to the East of Great Pass is ignored and ships anchor as convenient but as near to the pilot ground as possible. Ras el Tin Lighthouse, Great Pass Beacon and the Minaret (248) were found to be good marks. There is a latticed beacon to the West of Great Pass Beacon which should not be confused with the latter. The new beacon is not marked on the chart and was stated by the Pilot to be for a new channel which is being constructed.

Arrival Procedure: It is important to register one's arrival with the Alexandria Port Control as soon as possible. This is done by means of VHF.

At 1100 hrs. (approx.) a traffic list is broadcast and ships mentioned should contact Port Control and obtain berthing instructions. They will probably be told to move in to the pilot boarding ground 2 miles N.W. of Great Pass Beacon. When there, they should anchor again and await either further instructions or the unannounced arrival of the Pilot.

Berthage is decided at a meeting held around Noon so there may be a supplementary traffic list around 1400 hrs. In any case, it is a good idea to call Port Control at least once a day to remind them that you are still awaiting a berth.

A Pilot will take the ship into the anchorage in the Outer Harbour where Health, Immigration etc. officials board and clearance given. The Agent may also board. The main radio transmitter is sealed at this time. The ship will then await allocation of a berth.

Anchorages: At the anchorage outside the port depths vary from 20 to 30 fathoms but the holding ground seems to be good. This ship lay comfortably with 7 shackles of cable out. Ships usually leave each other ample room in case of bad weather. There are good anchor bearings.

The anchorages inside the Outer and Inner Harbours are very congested and the holding ground (said to be sand) is not good. Time spent at anchor here can be a very anxious period.

The ship was anchored in the Inner Harbour just off the end of the Passenger Quay. When it was pointed out to the Pilot that, in the Master's opinion, she was too close to the 3 fathoms line at the old Aircraft Moorings, the Pilot stated that it would be all right because the ship wouldn't swing that way. If the vessel had swung the other way she would have gone aground.

At 0300 hrs. the following morning the ship began to swing onto the sand bank. Fortunately there was no wind and it was possible to turn her, weigh anchor and find another anchorage. A call to Port Control on VHF was made for a tug and Pilot but was not acknowledged.

The main engine should be kept at very short notice when at anchor inside the harbour.

The accommodation ladder should never be left down while at anchor but should be raised and lowered as required.

It is usually an easy matter to hail a passing boat and bargain for a trip either ashore or to another ship. However, all ship movements and boatwork are officially prohibited after dark.

Pilotage: The pilot launches are Fairmiles (ex H.D.M.L.s) painted light blue with white wheelhouses and the word 'Pilot' in black on the side of the bridge.

All the Pilots employed spoke good English and were competent. They board at any time during the day and often without the slightest warning. They order tugs as they think necessary.

The beacons and leading marks in the Great Pass were good but the Fairway Buoy at the outer end of the channel is no longer there. Most of the mooring buoys marked on Chart No. 3119 have either been removed or changed.

As a result of experience, the Pilots have considerable skill in handling ships in very congested situations and they are to be relied upon.

Arrival Formalities: These are carried out at the Outer Harbour Anchorage. A list of documents required follows.

Documents:

2 Health Declarations*
1 Crew Customs Manifest
1 Arrival Form†
1 Stores List
1 Bond Stores List
8 Crew Lists‡

* Supplied by Quarantine Officers
† Brought out by Agent.
‡ This is the minimum number required.

Notes: Customs Manifests, stores lists and crew lists should be typed out on plain paper – there does not appear to be any proper forms.

Immigration Officers wish to see all Dis 'A' Books and will then issue Shore Passes which will have to be filled in by the ship. On departure, the Officials ask for the passes but, if they have not been collected will only request that they be destroyed when the ship sails.

Berthage: Every foot of wharfage is used and space is at a premium. This ship lay at Berths 16 to 20 and in both cases had ships ahead and astern with very little room between.

Berth 16 has unequal but good fendering, Berth 20 has none at all. Both are concrete wharves. There are an adequate number of bollards.

Berths 16 and 20 are both at the Passenger Quay and the soundings obtained by hand lead are shown on the plan. In theory, telephones are available at both berths. Water is laid on but the pipe is of small bore and delivery is slow (about 8.5 t.p.h.). Arrangements should be made through the Agent.

Berthage is said to be under the sole control of the Harbour Master. Ships may be ordered to berth, shift or move out to anchor without any warning. It should be noted that the Pilots always insist that Agents are told of a move the day before. In no case did this ship receive official notice. It is wise to hand a written notice to the Agent informing him of the time required to prepare the main engine for a move. However, in our case, the Agent did not bother to forward the information to the Harbour Master.

Being at the Passenger Terminal means that a cargo vessel has to move out to anchor frequently to allow passenger ships to berth. Unfortunately there seems to be only one other berth with enough water alongside for a fully loaded ship such as our vessel.

Repairs: Repair firms are available. There is a shipbuilding yard and graving and floating docks. Radio and radar servicing as well as gyro are available. There is a Lloyd's Register surveyor.

There is an abundance of small firms offering to do scaling and painting quite cheaply.

Medical: The Agent will arrange for a doctor to visit the ship if required. Unless special equipment and/or facilities are necessary, this is the best arrangement.

Repatriation: Apparently available via Cairo Airport.

Stores: Only small quantities of fresh fruit and vegetables were bought and these were good and cheap but the Catering Officer should be prepared to bargain.

Bunkers: The barges arrived alongside without any warning. There were separate barges for D.O. and I.F.O. The pumping rate for D.O. was 75 t.p.h. and for I.F.O., 143 t.p.h. It is reported that it is advisable to check the viscosity of fuel.

Communications: While at anchor outside the port, the ship's radio station is available and is by far the best means of communication.

Port Control, Pilots and launches all use Channel 16 both for calling and working. Making contact with Port Control to report arrival or request information is a matter of perseverance.

Agents: Memphis Shipping Agencies.

There is a main office in the city (Sesostris St.) to which the Master must go to draw money. Two hours will be needed for this plus an hour for travelling. In addition there are two offices in the Main Hall of the Passenger Terminal between Berths 16 and 20.

The Agents will arrange for doctor, waterman and watchmen. They will advance cash to the Master.

Garbage: Subject to negotiations with a private company. An old lighter will be moored alongside while the ship is in port. All garbage should be thrown into it. It is completely uncovered and after a while, in Summer time, would probably become highly offensive.

Fresh Water: Although there was no reason to suspect the water supply, Stabochlor was added as a precaution. As the ship may be sent out to anchor without notice for an unspecified time, it is wise to keep the water tank topped up.

Watchmen: The civilian watchmen employed were obtained through the Agent.

Two uniformed guards are put aboard by one or other of the authorities. Both the official and civilian guards will stop and search stevedores and take from them the cargo they have taken.

Tugs: These are arranged by the Pilot. There are several ranging from old coal burners to fairly modern diesels and they are well handled and efficient.

Cargo Work: It is supposed to be against the law to work frozen cargo during daylight hours. Therefore work was mainly carried on between 1700 and 0500 hrs. with a break about 2300 hrs., the same labour working through.

A gang consists of a total of 20 men. There is a foreman, two winchmen and eight stevedores in the hatch. The rest work ashore and on the lorries. The men in the hatch 'spell' each other and this is a major cause of lost time.

The butter and cheese was loaded onto pallets which were landed on the lorries and the cargo transferred. There are three pallets per gang but shortages often occur and the gear is not very good, two of the pallets breaking under load.

Crane and Velle derrick drivers were generally competent.

Lloyds Agency was asked to appoint a surveyor to witness the opening of the hatches and later to conduct a continuous survey during discharge. The surveyor was particularly helpful at the commencement of discharge. His firm asked for and received an advance of one hundred Egyptian pounds in cash from the ship because payment through the Agent was said to be slow.

Miscellaneous: Photography is forbidden within the port area and a permit must be obtained to take a camera ashore.

It is important to fit rat guards. A fine of £20 may be imposed for each one not fitted.

There is at least one floating crane with a SWL of 150 tons.

The Port Surveyor will ask to see the Suez Canal Certificate. If this has been retained by the Canal Authorities, he will require a signed statement to that effect.

Departure: The Agent will inform the various authorities of the expected time of departure.

Immigration Officers will board to check any changes in the crew.

The Agent will put aboard the clearance and the sanitary clearance and the senior official guard will demand a written statement that all crew are aboard.

The Sea Pilot will board with the Harbour Pilot. The latter disembarks into a motor boat as soon as the ship is clear of the berth, the former when she is clear of the Great Pass. If the weather is rough, a pilot ladder will be required outside instead of the accommodation ladder.

SHIP'S OFFICER'S REPORT: September 1979.

Arrival: On arrival at waiting area (BA Chart 243), vessel is required to register with "Alexandria Port Control" on VHF Channel 16.

The following information is required:

Ship's name and country of registry.
Time (local) of anchoring in waiting area.
Length overall and max. draft.
Description and tonnage of cargo for discharge at port.
Bearing and distance from Ras el-Tin Lighthouse.
Last port of call.
Name of Agent in Alexandria.

It is also necessary to confirm arrival time by W/T, with the Harbour Master and ship's Agent via Alexandria Radio on 454 kHz or 8578 kHz.

Traffic Lists, giving the names of vessels programmed for port entry that day, are generally broadcast on VHF Channel 16 at 0600 hrs. and 1400 hrs. daily. However, times may be altered without prior warning or list may be omitted altogether.

Fresh Water: Fresh water is unavailable in August at anchorage. Within port, fresh water is available from barge said to contain 150 tons, at an approx. rate of 40 t.p.h. No information on water supply at berths.

Also see "General" below.

Services: Doctor and hospital facilities are available on order via Agents or chandler.

Chandlers will approach vessel at anchorage – complete proof of identity should be obtained before trading commences. Also see "General" below.

Local labour is available for tank cleaning.

General:

(1) All telegrams via Alexandria Radio to addresses in Alexandria should contain a request for confirmation of receipt from addressee.

(2) Within the first 24 hours of anchoring the vessel is besieged by numerous persons, claiming to be chandlers, Agent's runners, watermen, receivers of the cargo, etc. Their proof of identity should be most carefully checked.

(3) The fresh water situation during this vessel's anchorage was desperate. It appears that from late July to mid-September, no water is available for vessels outside the harbour. Rationing is required on board, even if a water barge is ordered for the next day. Several ships ran out of fresh water at the anchorage during our stay and had to lower their boats to obtain minimal supplies from nearby ships. A good supply can apparently be obtained at Cyprus. Stores will not be brought out to the anchorage and boats cannot be ordered through Alexandria Port Control for medical or personnel transport.

AUTHORITY: Alexandria Port Authority, 106 El Horreya Street, Alexandria, Egypt. *Tel:* 34321/4. *Telex:* 54147. *Contact:* Commodore Ali Saleman, Harbour Master. Captain Ahmed Hossain, Deputy Harbour Master. Captain Maroni, Deputy Chairman.

HAMRAWEIN: 26.15 N. 34.12 E.

APPROACHES: *Daytime Leading Marks:*

Front mark: 26° 15′ 05.984″ N. 34° 12′ 01.622″ E.
Rear mark: 26° 15′ 01.46″ N. 34° 11′ 54.95″ E.

BERTHING: Length of quay – 67 m. Max. draft 33 ft. Conveyor belt and mechanical apparatus available. Daily average loading rate 4,000 tons. In addition to mooring bollard on the quay there are four mooring buoys.

MARSA AL HAMRA (El Alamein): 30.59 N. 28.52 E.

WEPCO Terminal

The Mono Mooring Buoy is in an open and unsheltered roadstead. The mooring buoy is located at Lat. 30° 58.7′ N., Long. 28° 52.2′ E. It is 53 miles on a bearing of 255° from Ras-el-Tin Lighthouse, Alexandria, and 3 miles offshore in approximately 66 ft. of water.

DOCUMENTS:

4 copies Crew List.

Deck log books showing date of last call at a A.R.E. port, completed up to the time of arrival.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

Derat Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: The S.-S.W.-W. quandrant from the buoy is a Prohibited Anchorage Area. Gebisa Reef is at Lat. 30° 58′ 30″ N., Long. 28° 49′ 10″ E., at 2.7 miles on a bearing of 260° from the buoy.

The mooring buoy carries a light, flashing red 6 times per minute, and visible all round to a distance of 4.5 – 5 miles in clear tropical weather. It also has a fog horn, sounding "U" and a radar reflector.

Surface current sets East at 10 miles offshore at the rate of 1 knot. Maximum rise and fall of tide in the mooring area is 2 ft.

Vessel arriving should approach to within 2 miles North of the buoy, where they will be met by the Harbour Master or Pilot who will advise the ship's Master on approaches to the mooring buoy, mooring and unmooring.

RESTRICTIONS: Normally vessels are moored during daylight hours only, but permission can be obtained to sail at night.

HEALTH: Hoist International Code Quarantine Signals when entering. Any sickness must be reported to local authorities.

RADIO: The commercial radio station at Alexandria will handle WEPCO radio traffic. Alexandria Coast Radio Station (call sign SUH) operates 24 hours a day on 444, 500 and 8,578 kHz, and between 0600 hrs. and 1800 hrs. GMT on 12,974 kHz.

Ships nearing Al Hamra Terminal may contact the terminal by FM/VHF radio on 156.70 MHz or 2182 kHz.

While at the mooring, ship-to-shore communication is by portable VHF radio-telephone units, under the direct charge of the Mooring Master. The terminal uses Channel 10 VHF for all communications.

TUGS: Not available and not required.

BERTHING: 2 good lines must be ready on the forecastle to be sent to the buoy plus a further 2 lines for use as messengers. Ship's lifting gear must be ready near the port manifold for lifting and connecting 2×12 in. hoses, with proper reducers if the manifold does not fit 12 in. hose with 150 ASA standard flanges. The total weight per hose assembly is approximately 5 tons. Maximum loading rate is 3,700 t.p.h.

A pilot ladder must be safely rigged for immediate use and long enough to reach the Mooring Master's launch. At night adequate lighting must be rigged overside to enable the Mooring Master to approach and board the ship safely, and searchlights should be rigged on both sides of the bridge to assist in running lines to the buoy.

BALLAST: No dirty ballast may be pumped overboard, and it is the ship's Master's responsibility to ensure that no oil – whether crude, diesel, bunker or bilge – is pumped or spilled into the waters of and surrounding the Terminal. Ballast can be pumped ashore through one or both of the floating hoses direct to disposal facilities on shore.

CUSTOMS ALLOWANCES: Present regulations at El Alamein allow each seaman to retain in his possession a maximum of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: Nearest hospital facilities are at Alexandria, at least 90 minutes drive from the terminal.

First Aid could be provided and if necessary, transportation to hospital in Alexandria.

TIME: GMT plus 2 hours.

AUTHORITY: Western Desert Operating Petroleum Company – (WEPCO), Borg El Saghr Building, P.O.Box 412, Alexandria, Egypt. *Tel:* 28710/17/18/19. *Telex:* 54075 Un. *Cables:* Wepoil Alexandria.

RAS BUDRAN: 26.56 N. 33.08 E.

PILOTAGE: SUCO (Suez Oil Company) Pilot/Mooring Master boards approximately 2 miles West of SBM, together with an Assistant Pilot and 3 riggers. Vessel provides lee on a course away from the shore.

Accommodation ladder on vessel's starboard side normally not necessary as use of pilot ladder will suffice. Accommodation ladder should only be used under fine and calm weather conditions.

ANCHORAGES: Anchorage area in position Lat. 28° 52.5′ N., Long. 33° 06.9′ E., with 1 mile radius. This area has been surveyed and is considered clear of any obstruction. Anchoring outside the area is prohibited.

RESTRICTIONS: Weather conditions may prevent berthing. This is the case when wind speed exceeds 25 knots. Vessel will then remain in the anchorage until weather improves. Daylight berthing only. Unberthing anytime.

MAX. SIZE: 250,000 d.w.t. and 27.4 m. draft.

RADIO/VHF: SUCO installation is to be supplied with relevant information on lifting gear, connections, ballast/segregated/dirty and quantity.

On the berth (SBM) communications by VHF Channels 12 (24 hours listening) and 74 (Marine Office, 0700 – 1800 hrs.). HF 2638 kHz to be used in case of VHF breakdown or emergency.

TUGS: 1 supply vessel/tug which is equipped for fire fighting, available on a standby basis and berthed behind the port's breakwater, 1.8 miles East of SBM.

BERTHING: Approach is to be made into the wind which is normally from a steady direction (313°).

Standard SBM berthing procedure. 2 mooring boats used.

AKD stopper cannot be used. Instead 2 snotters are provided by the terminal. Vessel's mooring rope (not messenger) must be used to take SBM's pick-up rope on board. For this one mooring rope on each side is needed. Mooring tackle is too heavy for a small diameter messenger line. Monkey-face on mooring chain will be locked to shackle of snotter. Vessel's heading when on SBM approximately 315°.

HOSE CONNECTION: Riggers will assist vessel's crew with positioning mooring gear and with connecting the cargo hose.

1 cargo hose only. Port derrick rigged to lift hose (weight of full hose approximately 9 tonnes). Diameter of hose 20 in., connection 16 in. Vessel to supply reducers.

LOADING: One submarine line from shore to buoy; diameter 36 in. Loading by pumps, and gravity during start up and top off. Pumping rate maximum 6,000 tonnes per hour, depending on size of vessel's manifold. Before loading, cargo tanks are dipped by an independent Inspector and a Terminal Inspector. If dirty ballast is retained on board until the next discharge port then amount of water and oil on top will be checked.

Density of Ras Budran Crude is approximately 0.900/15°C. Temperature when received on board approximately 31°C.

Immobilisation of engines at SBM not permitted.

BALLAST/POLLUTION: Only segregated clean ballast may be pumped overboard after Master has signed letter which states that all responsibility lies with the vessel in case of pollution. Vessel has to pay for clean up operation and additional fine of 15,000 US dollars.

Dirty ballast reception facilities being installed, however, no information as to when operational.

MEDICAL: Medical assistance can be given by SUCO doctor in emergencies.

DENSITY: 1030.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: Not available.

REPATRIATION: Possible in an emergency only.

RAS GHARIB: 28.21 N. 33.06 E.

A natural port at the Western side of Suez Gulf sheltered by the Cape and a chain of reefs.

DOCUMENTS:

4 copies Crew List.

Derat Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

PILOTAGE: Compulsory. International Pilot flag must be hoisted and Pilot will board vessel on arrival. Vessels should approach the anchorage from South-eastward and wait Southward of the Prohibited Anchorage until boarded by the Harbour Master who will pilot them either to moorings or to an anchorage clear of the prohibited area of the pipe-lines.

2 pairs of leading beacons stand about 4 and 5.5 cables, beside 3 others that stand about 12 cables Southward of Ras Gharib light-structure. About 2 cables further Southward are 2 leading beacons. All the above beacons are difficult to identify until close inshore.

ANCHORAGES: Ras Gharib Anchorage, South-westward of the Cape, affords some shelter, but a moderate swell round the Cape is experienced on most days. Vessels can obtain anchorage in depths of about 5 fathoms.

During most of the year there are Northerly winds, force 3 – 5, but in December and January there are occasionally calms. On very rare occasions, there are Southerly gales of short duration which make the anchorage untenable.

The Northerly wind causes some swell in the anchorage, but it is not normally severe enough to interfere with the working of lighters or boats of moderate size. It is, however, unpleasant for small boats, except alongside the piers, which are well protected.

Except in the vicinity of the piers, there is usually some swell on the beaches. There is practically no rainfall and sand storms occur only very occasionally and they do not interfere with work in the anchorage.

Anchorage is prohibited, owing to the existence of pipe-lines, within an area indicated by pecked lines on the chart.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor, specially when it is presumed that the sick will be hospitalised.

The vessel's personnel should carry international vaccination and/or inoculation certificates.

TUGS: 2 tugs, 400 h.p. and 80 h.p. available.

BERTHING: There is an ore pier where vessels may berth with max. draft of 11 ft. without any restrictions in length. Vessels with deeper draft may discharge whilst at anchorage on to supply boats.

Two cranes are available with capacities of 30 and 35 tons. Towage is also available.

TANKERS:

	Northern Pier No. 1	*Southern Pier No. 2*	*New Pier No. 3*
Depth at the pier	27 ft.	36 ft.	78 ft.
Max. permissible draft	24 ft.	32 ft.	55 ft.
Max. length for tanker	450 ft.	600 ft.	980 ft.
Min. length for tanker	350 ft.	500 ft.	600 ft.
Diameter of crude hose	18 in.	18 in.	30 in.
Diameter of water hose	10 in.	12 in.	18 in.
Min. capacity of tanker's derrick	5 tons	5 tons	5 tons
Loading capacity (t.p.h.)	650	1,200	2,000
Max. permissible load (tons)	8,000	30,000	100,000

Cargo: Ras Gharib Blend. API 24.1. Loading temperature 92°F/33°C.

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by the United Arab Contracting and Marine Supply Company.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain in his possession a max. of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines.

TIME: GMT plus 2 hours. GMT plus 3 hours (1st May – 30th September).

AGENCY: See "Suez Canal".

RAS SHUKHEIR: 28.08 N. 33.17 E. (See Plan Book)

Also see "General" before first port.

ADVICE OF ARRIVAL: It is important that ships establish radio contact with "GUPCO" (Gulf of Suez Petroleum Co.) when 3 days distant from Terminal and maintain this contact until just previous to arrival at the Terminal. All ships should send a 72 hour ETA message to "Panintoil Cairo" giving the best estimate of ship's arrival time at the Terminal. This ETA message should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to "Panintoil Cairo" when the vessel is 24 hours and 12 hours distant from Ras Shukheir and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hour ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.

6 hours before arrival, tankers should call Ras Shukheir on VHF Channel 16 to be advised if berthing is available or not, also to be advised of the approximate time for berthing.

DOCUMENTS:

4 copies Crew List.

Deck log books showing date of last call at an A.R.E. port, completed up to the time of arrival.

Derat Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

PILOTAGE: Compulsory. International Pilot Flag must be hoisted and Pilot will board vessel on arrival. Ras Shukheir Lighthouse is located in Lat. 28° 08′ 15″ N., Long. 33° 16′ 20″ E. It is a white flashing light, flashing every 3 seconds and visible for 10 miles.

Gebal Gharib, situated about 18 miles South-westward, 5,742 ft. high. It makes a nearly perfect equilateral triangle with Ras Shukheir and Ras Gharib Lighthouse. Ras Gharib Lighthouse is an excellent landmark whether by day or night for vessels approaching from North, but caution should be exercised since this Light is obscured from 308° to the Westward. The sea-berth buoys are unlit.

The company's Mooring Master will meet all incoming tankers about 2 miles from Ras Shukheir Terminal on a bearing of 290/300° from Ras Shukheir Lighthouse and will advise ship's personnel in mooring and unmooring, raising and lowering of hoses.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side and climb the ladder safely.

ANCHORAGES: There are a number of oil well installations, structures and submarine pipelines located in the Gulf of Suez opposite Ras Shukheir Terminal and approaching vessels are warned of these obstacles in manoeuvring and anchoring. Vessels should approach from the Eastward and if necessary anchor S.E. of the sea berth.

Never anchor North of the sea berth.

Tankers should only anchor in Ras Shukheir Anchorage Area which is located as follows:

Lat. 28° 04′ 30″ N.
Long. 33° 22′ 30″ E. (with radius of 0.5 miles).

RESTRICTIONS: The Ras Shukheir Terminal operates 24 hours per day, 7 days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only, however, an exception may be made at the discretion of the Terminal.

HEALTH: The vessel's personnel should carry international vaccination and/or inoculation certificates.

RADIO: The Alexandria or Port Said coast radio stations will handle GUPCO radio traffic. Ships may contact GUPCO through their cable address "Gupcoil Cairo". The message will be received on their Cairo Radio Telegraph Office local teleprinter circuit, tape perforated and relayed to the Ras Shukheir Terminal.

Cables from Ras Shukheir Terminal to the ships would be handled in the same manner. The Alexandria or Port Said coast radio stations transmit traffic lists at regular intervals listing the call signs of all ships for which they have traffic on hand. Thus any ship hearing its call sign in the traffic list of the coast station would call the coast station immediately after the traffic list.

VHF: When ships are near Ras Shukheir Terminal, they may use their FM/VHF radios to contact the Terminal using 160.70 MHz or 160.80 MHz (Channels 2 and 4).

BERTHING: One pier where vessels with max. length of 76 m. are allowed to berth alongside with a max. draft of 15 ft. Vessels may discharge whilst at anchorage and propeller type lighters are available for such cargo operations.

Four cranes with capacities of 15, 30, 40 and 50 tons respectively are available together with floating crane with capacity up to 200 tons. Towage is also available.

TANKERS:

	Seaberth No. 1	*Seaberth No. 2*	*Seaberth No. 3*
Depth	75 ft.	95 ft.	90 ft.
Max. permissible draft	55 ft.	55 ft.	50 ft.
Max. length for Tankers	1,200 ft.	1,200 ft.	800 ft.
Min. length for Tankers	750 ft.	750 ft.	600 ft.
Numbers of Crude hoses	3	3	2
Diameter of Crude hoses	12″	12″	12″
Diameter of Ballast hose	12″	12″	12″
Min. capacity of Tanker's derrick	5 tons	5 tons	5 tons
Loading capacity (t.p.h.)	6,000	4,000	3,000
Max. permissible load (tons)	175,000	175,000	70,000

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by United Arab Contracting and Marine Supply Co.

SUBMARINE HOSE LOADING BERTH: Tanker is loaded by means of submarine pipe-lines to which are attached 2 or 3 hoses for loading and 1 hose for discharging ballast. A 36 in. pipe-line transports the oil and a 24 in. line in No. 1 Seaberth, or 16 in. lines in Nos. 2 and 3 Seaberths transports the dirty ballast to a ballast pit ashore. The loading berths are located approximately 3,580 ft. offshore in a water depth of approximately 80 ft. The loading and ballast lines are laid in the same trench and run in a direction 055°. The mooring buoys are numbered 1, 2, 3, 4, 5 and 6, starting No. 1 North of the mooring and running consecutively in a clockwise direction.

LOADING READINESS AND ARRIVAL TIME: The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting. Notice of Readiness will not be accepted as at time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that vessel anchors, whichever occurs first.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: Not recommended.

CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain in his possession a max. of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines.

TIME: GMT plus 2 hours.

AUTHORITY: *Operator:* Gulf of Suez Petroleum Co. – GUPCO, (P.O. Box 2400) Palestine Street, 4th Sector, New Maadi, Cairo, Egypt. *Tel:* 506985, 503064. *Telex:* 92248 Gupco Un. *Cables:* Gupcooil, Cairo. *Contact:* Captain Nashaat Khodair, Marine Superintendent.

AGENCY: See "Suez Canal".

SAFAGA: 26.46 N. 34.00 E.

DOCUMENTS: The following documents are required on arrival:

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.

Derat Certificate should be handy for inspection.

Clearance from Last Port.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of Passengers in Transit.

4 copies Crew List.

Deck log books showing date of last call at an A.R.E. port, completed up to the time of arrival at Port Said or Suez.

PILOTAGE: Compulsory. International pilot flag must be hoisted and Pilot will board vessel on arrival. Masters should endeavour to arrive at the N. end of the island by sunrise, at Safaga Port by early morning; the light behind them will show up the reefs clearly. Wind, light in the morning, gains strength during the day, making tying up more difficult. A beacon (Morewood Beacon), visible a mile off, is erected on the Southern spit of the island. After rounding the spit, Masters keep 5 cables clear of visible reefs and enter the harbour keeping the 2 large beacons to the North of the pier in line. Anchorage is then indicated by a small red or white flag. The Manager, or his representative, of the Safaga Phosphate Company will meet ships in launch with instructions on berthing.

MAX. SIZE: Safe draft in the fairway, over reefs and alongside pier: 27 ft. 6 in.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor especially when it is presumed that the sick will be hospitalised.

The vessel's personnel should carry international vaccination and/or inoculation certificates.

BERTHING: There are 2 mooring buoys marked B and C and 2 mooring posts marked A and D.

(1) The anchor position is marked by a small red or white flag. When mooring, manila ropes only should be used, as wire ropes can be run out afterwards when ship is alongside.

(2) Due to rocky nature of sea bottom, it is very desirable that ship in coming into berth, does not override her anchor, as, if this happens, chain is apt to foul coral bottom and cause trouble later on.

(3) Endeavour to have all way off ship when anchor position is reached. Drop anchor as close to flag as convenient and go astern. If necessary check cable when 2 shackles have been paid out.

(4) Run rope to Buoy C, run rope to Buoy B, run rope to Post D, then run rope to Post A. Run Spring to S1, S2, S3, and pull alongside. Company's launches will run all ropes.

(5) If wind is blowing strongly off shore, a Spring may be run to S3, immediately a good rope to Buoy B is made fast.

(6) The best way to reach the anchor position is to steer straight for same, keeping Buoy C on port side. This will keep vessel clear of Buoy C and when anchor is dropped, the stern should swing clear of this Buoy. If it does not, a rope can be run to S3 and the stern pulled in before falling back on pier.

(7) With anchor dropped as shown, 6 shackles should see No. 1 hatch at the pier, but if chain is slackened carelessly, it may foul bottom and be insufficient to reach pier.

If visibility is very good, a course can be made between the Hyndman and Cannon Reefs, and altered to bring the beacons referred to into line.

Rock phosphate and ground phosphate are loaded at this port for shipment all over the world. The mines are situated some 30 km. away and are connected by company's own railway. Rock phosphate loaded (1,000 metric tons per day) from elevator and phosphate in bags by ship's gear.

Cargo vessels can berth alongside a new quay of 600 m. with a draft of 27 ft. Quay used for loading and discharging general cargo. It can accommodate 2 medium size vessels and one large vessel. Part of the quay is used by vessels discharging aluminium.

STEVEDORES: Canal Stevedoring Co.

SERVICES: Water, deck and engine stores and provisions provided by Egyptian Contracting and Marine Supply Co.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Suez Canal".

DEVELOPMENTS: Grain berth to be extended to accommodate vessels up to 900 ft., 42 ft. draft and 75,000 d.w.t. Travelling gantry will have a discharge rate of 600 t.p.h.

SHIPMASTER'S REPORT: January 1981.

Pilotage: Vessels enter the inner anchorage without Pilot, and are allocated an anchor position by the Harbour Master. Pilotage for berthing is compulsory, and the Harbour Master acts as Pilot.

Entry or departure at night is forbidden, without special permission from the Naval Authorities.

Anchorages: Vessels are allocated an anchor berth in the inner harbour by the Harbour Master. Vessel anchored in the Northern part of the anchorage, with Morewood Beacon bearing 135.5° × 2.8 miles, in 30 m. of water, with 6 shackles of cable out, and no difficulties were experienced, despite a period when wind from the North of force 5, gusting 6, occurred when the ship had a 3,000 tonne coaster alongside.

Approaches: Vessel arrived off Safaga Island at approximately 2130 hrs. and no difficulty was experienced in anchoring with Morewood Beacon bearing 334° × 11 cables. The N.E. point of Safaga Island, and the headland near Bir Safaga showed up well on radar, as did Morewood Beacon, once identified.

Upon entering harbour the next morning at first light, a little difficulty was experienced in locating the leading beacons. From outside the harbour, the most prominent object visible is the alumina silo and elevator, and this uncharted feature being mistaken initially for the charted phosphate transporter, we were looking in the wrong place. Once sighted, however, the beacons were found to show up well in the early morning light. (These leading beacons are fitted with Fixed Red lights, but these are only turned on when Naval Vessels are entering or leaving port by night). A can shaped mooring buoy situated in the middle of the inner anchorage just North of the leading line is of assistance, but the buoys marking the dredged channel are non-existent. This mooring buoy is a handy turning point for ships proceeding to the Northern part of the anchorage.

A partly ruined beacon is visible on the sand spit at the Southern end of Safaga Island approximately 3 cables from Morewood Beacon.

Of the two stranded wrecks charted on the S.W. shore of the inner anchorage, the Northern one (marked PA) has been salvaged. The Southern one is conspicuous, and afloat at high water. It is reported that this one may well be salvaged soon.

There appeared to be little or no tidal stream or current to speak of in the inner anchorage, vessel lying to the wind most of the time.

Max. Size: The largest size of ship handled is about 50,000 tonnes d.w.t., with a max. draft of about 11 m.

Radio: There is no radio station at Safaga, and telephone/telex links are minimal. Harbour authorities wishing to communicate with ships entering use VHF sets of ships alongside. We maintained a normal sea watch (1 Radio Officer) both at anchor and alongside, and good communications were obtained with Portishead Radio.

Tugs: There are no tugs available.

Berthing:

Commercial Wharf: Approximately 500 m. in length.

This has 3 berths at present. No. 1 Berth is the one at the N.E. end, No. 2 Berth in the middle, and the alumina berth at the S.W. end.

Nos. 1 and 2 Berths are kept exclusively for the discharge of wheat; cement ships use the alumina berth by private arrangement. Depth alongside No. 2 Berth is officially 9.1 m., but reported deeper. (We berthed drawing 9.6 m.) and at No. 1 Berth the depth is stated to be 9.7 m. alongside, but 11.0 m. if barges are placed between the ship and the quay. Works are in progress to extend the commercial wharf Northeastwards from No. 1 Berth almost up to the Naval Wharf, which extends as marked on the chart.

The Oil Jetty charted to the South of the town is reported to be part of the Naval Base.

Cargo Handling: Bulk wheat is discharged by portable pneumatic conveyors (vac-u-vators) into hoppers on the quay, where it is bagged and taken away by lorry. (Discharge rate for this vessel approximately 1,900 tonnes/day).

Alumina is discharged direct to the silo by fixed elevator.

Cranes: There are no cranes on the wharves. It was reported that there is a mobile floating crane, of 15 tonnes SWL at 35 m. radius, although this was not seen by us. A small floating crane is in use for the extension works.

Medical: A doctor is available, and will visit ships at the inner anchorage. Cholera Vaccination Certificates are required, and the doctor will do vaccinations.

Density: 1030.

Fresh Water: There is a limited supply of fresh water, the quota being 500 tonnes a month for all ships, but this is expensive. A price of $12.00 per tonne was quoted.

Fuel: No fuel oil of any kind available.

Consuls: None locally.

Repairs: The nearest repair facilities are at Suez.

Gangway/Deck Watchmen: Employment by the ship of shore watchmen is compulsory, and they have to be accommodated on board both alongside and at the inner anchorage. Whilst shore labour is onboard, a policeman is placed on board to guard the ship's accommodation.

Shore Leave: Permitted, passes being issued when ships are alongside, although apart from one hotel there is very little to do in Safaga. Agents can arrange trips to the River Nile, Valley of the Kings, etc., but special passes are required.

General: Provisions: Fresh provisions are available in season, and a chandler will visit ships without prior appointment.

Cargo Handled:

The principal activities of the port are:

(i) Import of wheat: approximately 100,000 tonnes/month.

(ii) Import of alumina: 60 – 75,000 tonnes/month. (3 – 4 ships).

(iii) Import of cement: 13 – 15,000 tonnes/month. (1 – 2 ships).

(iv) Export of phosphates: approximately 20,000 tonnes/month. (1 – 2 ships).

(i), (ii) and (iv) are all under the control of the Egyptian Government, (iii) is carried out privately.

SHIPMASTER'S REPORT: September 1982

1. Pilot does not board on arrival. Ships have to enter port without Pilot, even with no port chart, as I just found out, when a ship came in without a chart. Pilot only gave advice by VHF.

There are very good visible leading markers (red and white), also 5 buoys have been laid out marking the dredged canal. They are ordinary unlit mooring buoys. Pass between these buoys with the leading beacons 310° True and vessel is clear of dangers. On the 5th buoy, which is (single) on vessel's starboard side vessel can turn out of the channel and proceed to any place outside the 310° lead.

2. Discharging grain, draft limit 36 ft. 6 in., berthing against 2 lighters to keep vessel in deep water. After discharging to 31 ft. lighters are taken away and vessel goes alongside. With 30 ft. vessel shifts to Berth No. 2 to finish. Daily rate of discharge is about 3,600 tonnes.

3. The price of fresh water is US$15 per tonne. Water comes by pipeline from Nile River not by barge from Suez.

4. Berthing: Use starboard anchor. A motorboat takes first 2 headropes then 2 stern ropes ashore and then heave the ship alongside. Pilots are careful.

Mooring: Have 3 headropes, 2 breastlines and 1 spring ready (same aft).

When shifting from Berth No. 1 to No. 2 ship does not shift along the berth but makes a new berthing due to anchor.

SHIPMASTER'S REPORT: January 1983.
Pilotage: The Harbour Master has ceased allocating anchorage and ships now anchor wherever they like inside bay. Our vessel is 610 ft. long and drawing 36 ft. 6 in. and like your earlier report arrived and anchored half a mile South of Morewood Beacon at 2140 hrs. and moved up to anchor four cables from grain berth in the morning. Passage over reef crossing bay (apart from clearly shown leads) is now marked by four mooring buoys and channel is 13 m. depth.
Berthing: There is now a 900 h.p. tug to assist. The new berth towards the Naval Wharf is nearing completion. We berthed at No. 1 drawing 11.13 m. with barges between ship and quay.
Fresh Water: Now costs U.S.$19.75 per tonne. Service is prompt when needed.

AUTHORITY: Ports and Lights Administration.

AGENCY: See "Suez Canal".

SIDI KERIR: 31.06 N. 29.37 E. (See Plan Book)

DOCUMENTS: Free zone area, no entry documents to the offshore terminal are required.
PILOTAGE: SUMED's Mooring Master and his assistant board the tanker 2 miles North of Buoy A1.
Notifications: ETA messages should be sent by cable via Alexandria/Port Said Radio on leaving previous port. Cables should be prefixed "For urgent delivery send via Telex 54108 or 54033 SUMED UN" and be confirmed 72, 48 and 24 hours prior to arrival. (Day and night berthing and operation). Arrival draft should be indicated. Vessels should arrive with a trim of 8 ft. by the stern and appropriate ballast to ensure that propeller is completely submerged.
LOCATION OF BUOYFIELD: (SBMs)

A1: Lat. 31° 06′ 26″ N., Long. 29° 36′ 46″ E.
A2: Lat. 31° 05′ 32″ N., Long. 29° 35′ 38″ E.
A3: Lat. 31° 04′ 24″ N., Long. 29° 35′ 37″ E.
A4: Lat. 31° 04′ 54″ N., Long. 29° 37′ 39″ E.
A5: Lat. 31° 05′ 40″ N., Long. 29° 38′ 24″ E.

ANCHORAGES: Tankers can anchor to the North and N.W. of the buoyfield.
MAX. SIZE: The five berths are spaced one from the other so that each has:

Mooring Area Radius: 410 m. for A1 and A2 (accommodate vessels up to 285,000 d.w.t.); 320 m. for A3, A4 and A5 (accommodate vessels up to 130,000 d.w.t.); Manoeuvring Area Radius: For A1 and A2, 1220 m.; For A3, A4 and A5, 915 m.

Water Depth and Draft Limitations:

For A1 and A2:	85 ft. minimum water depth
	75 ft. maximum draft
For A3, A4 and A5:	60 ft. minimum water depth
	52 ft. maximum draft

RADIO: All messages to be sent via Alexandria/Port Said Radio. Sidi Kerir has a HF long range radio working on 2182 kHz and 4142.5 kHz.
VHF: Channels 16, 78 and 79.
TUGS: Tug "Kerir" 3100 h.p. with fire fighting and anti-pollution equipment is available as required.
Mooring Launches: 500 h.p. mooring launches assist in mooring and hose operations.
BERTHING: *Ship's Derrick:* The ship's derrick should be capable of lifting 10 tons and rigged on the port side ready on arrival to take the gear on board for berthing the ship and connecting the hoses.
Hoses: Each berth has two cargo hoses with a 16 in. connection (ASA 150). There is a ballast unloading facility with 16 in. connection. Connection of hoses to be performed by the vessel under the supervision of SUMED's Mooring Master.
SUPPLIES: No bunkers or supplies are available or permitted.
MEDICAL: Private doctors and hospitals are available in Alexandria.
SHORE LEAVE: There is no shore leave for personnel of vessels loading at Sidi Kerir Terminal (disembarkment from vessels is strictly forbidden except in emergencies).
AGENCY SERVICES: Not required under normal circumstances.
TIME: GMT plus 2 hours.

SHIPMASTER'S REPORT: *General:* Sidi Kerir is the Northern end of the pipe-line from Ain Sukhna in the Gulf of Suez. The pipe-line is owned by the Arab Petroleum Pipeline Co. and operated by SUMED Co. (Suez – Mediterranean).

The Sidi Kerir Terminal (Tankfarm) position is at Lat. 31° 03′ N., Long. 29° 40′ E. There are at the moment 5 SBMs for loading vessels, more are planned for the future. The buoy field is marked by the following points: "A" Lat. 31° 08′ N., Long. 29° 37′ E., "B" Lat. 31° 04′ N., Long. 29° 31′ E., "C" Lat. 31° 01′ N., Long. 29° 35′ E., "D" Lat. 31° 05′ N., Long. 29° 41′ E.

The area within ABCD is a prohibited anchorage area and may not be entered without a Pilot.

The position of the 5 SBMs is within the area:

1. Lat. 31° 06.7′ N., Long. 29° 35.7′ E. For loading Arabian Light & Kirkuk Crude.
2. Lat. 31° 05.9′ N., Long. 29° 36.9′ E. For loading Arabian Light & Kirkuk Crude.
3. Lat. 31° 04.6′ N., Long. 29° 36.9′ E. For loading Arabian Light & Kirkuk Crude.
4. Lat. 31° 05.0′ N., Long. 29° 37.9′ E. For loading Arabian Light & Kirkuk Crude.
5. Lat. 31° 05.1′ N., Long. 29° 38.6′ E. For loading Basrah Crude.

(a) The current sets usually from N.W. at about 0.5 knots but may increase during Summer to 1 knot; there is no considerable tide.

(b) References: BA Chart 3356; BA Pilot Book 49, 6th edition 1976.

Documents: One crew list, one ship's stores list and clearance from last port.
Pilotage: Pilot also acts as Loading Master and boards vessel at the anchorage. A pilot ladder/accommodation ladder combination is to be rigged on the starboard side. Vessels must give a lee for the pilot launch. Pilots work preferably during daylight hours.
Anchorage: The anchorage is one to two miles North of the buoyfield in 20 to 40 fathoms of water. There is good holding ground on sandy bottom; no shelter during Northerly winds or swell. The port closes during strong winds and swell. An open sea approach; no dangers on the way to the anchorage. The coastline is low desert and gives a poor echo, the best radar echo during the approach was the tankfarm and the pipe-line.
Max. Size: Max. draft 70 ft. No limit on size of vessel.
Radio: ETA information to be given preferably via Alexandria Radio to telex number 54108 attention "SUMED operations – Alexandria" at 72, 48, 24 hours prior to arrival. Initial message should give call sign; Summer deadweight; Summer draft; cargo requirements with name of crude and approximate quantity required in cubic metres and long tons, also maximum loading rate required in cubic metres; last port; whether vessel carries 2 × 16 in. reducers.
Health: Free pratique is given by the Pilot/Loading Master.
Tugs: One tugboat, 5000 h.p., is on standby at the buoyfield and will assist on request.
Berthing: The vessel moors to a SBM. The mooring equipment, 2 wire slings, 2 shackles and a toolbox, are taken from the launch.
SBM Loading Berth: The hoses are connected by the ship's crew under the supervision of the Loading Master. The (2×16 in.) hoses are of a floatable type with a Camlock connection.

The maximum loading rate is given as 15.000 cu.m./h. or as requested by vessel. Before completion of cargo the pumps are stopped and the balance loaded by gravity. At the present time the dirty ballast facilities are under construction.
Repairs/Drydocks: At Alexandria about 12 miles to the East. No facilities at Sidi Kerir.
Time: GMT plus 2 hours.
Density: 1026.
Supplies/Services: None.
Authority: The Pilot/Mooring Master acts as Government Representative.

AUTHORITY: Arab Petroleum Pipeline Co. – (SUMED), 9 Amin Yehia Street, P.O.Box 2056, Zizinia, Alexandria, Egypt. *Tel:* 64138, 64139. *Telex:* 54108 Sumed. *Cables:* Sumed Alexandria.

SUEZ CANAL (including Port Said and Suez): (See Plan Book)

Also see "Rules of Navigation".
DOCUMENTS:

The following documents are required on arrival:
The last Classification Certificate issued.
Information concerning a vessel transiting the canal.
4 copies Crew List.
Ship's Register and Suez Canal Special Tonnage Certificate.
General arrangement and capacity plans of the vessel, if transiting the Suez Canal for the first time, or, undergone any alterations.
Suez Canal Authority's double bottom tanks capacity form.
Navigability form.
Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
4 copies List of Passengers in Transit.
Landing cards for passengers landing finally in the A.R.E. and for those landing in the A.R.E. in transit.
4 copies List of Passengers finally landing in the A.R.E. (if any) together with their addresses in the A.R.E.
Deck Log Books showing date of last call at an A.R.E. port, completed up to the time of arrival at Port Said or Suez.
Mail Waybills for ports beyond Suez Canal ports and alternatively, a document from the Master is required (cargo and passenger ships only).
Quantity of bunkers, water and cargo on board.
Free Pratique Certificates issued by the local Quarantine Doctor.

In case of a Northbound vessel loading or discharging alongside quay staying more than 24 hours in Suez, the following documents should also be presented.

(1) Load Line Certificate.
(2) Safety Equipment Certificate.
(3) Radio Safety Certificate.
(4) Documents covering names and ratings of ship's officers and their certificates.

For Pilot's Use:

(1) Arrival form of the Suez Canal Authority.
(2) Declaration "E" form for dangerous cargo on board in transit.
(3) Any other documents relating to shipments of dangerous cargo, radio-active or fissile.

N.B. Plain Suez Canal Forms are normally handed to Master by Pilots or ship's Agents, to be filled on arrival and also for use on consequent voyages.

Quarantine Authorities:

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.

Derat Certificate should be handy for inspection.

Clearance from last port.

Passports:

For Immigration Officer the following documents are required on arrival:

Arrival Immigration form, duly completed.

1 Passenger List.

List of Passengers finally landing, in duplicate.

Crew List.

Valid passport with entry visa is required for landing in A.R.E. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

(1) Bonded Store List, in duplicate.

(2) Crew List and Passengers' list in duplicate, showing rate of consumption of each.

Shipmaster's Report: January 1984.

Crew Personal Effects Declaration – Not required.
Bonded Stores Declaration – Not required.
Stores List – Not required.
The Bonded Store is not sealed.

The ship's Log books are not taken ashore but the Certificate of Registry is taken in Port Said and returned at Suez.

Circulars: Issued by Canal Shipping Agencies Company, Port Said:

Circular No. 42/81: To all Shipowners and Masters.

We append hereunder free translation of Circular No. 2004/T81 received from the Deputy Manager, Transit Section, Suez Canal Authority, Port Said:

"It has been noticed that the necessary notification which should be given before the ship's entry in harbour in case of carrying dangerous cargo on board is neglected by Masters who also fail to fulfil the relative declarations, as stipulated in the Suez Canal Authority's Rules of Navigation Appendix for Vessels Carrying Dangerous Cargo (Edition 1977), which may expose both the vessel and the port to risks arising from the goods in question.

Kindly, therefore, draw the attention of Owners and Masters to the necessity of adhering to the said rules, noting that the Master will be entirely responsible navigably and criminally for any occurrence which may arise from failure to give the required notification, inaccuracy of details or omitting to take the necessary precautions on board".

Circular No. 23/82: To all Shipowners and Masters.

We once again should like to draw your kind attention to the fact that some Owners abroad do not provide the Protection Centre, Nuclear Researches Centre of the Atomic Energy Establishment, Cairo with sufficient information in respect of such shipment on board their vessels.

In this connection, we would refer to our Circular No. 3/79 dated 6th January, 1979, text of which is quoted hereunder for your easy reference.

"According to Circular No. 4/3BA-406012, dated 1st September, 1964 and the amending Circulars issued by the Transit Section of the Suez Canal Authority and also the Suez Canal Authority's Rules of Navigation Appendix for Vessels Carrying Dangerous Cargo, Edition 1977, the transport of radioactive substances carried by vessels transiting the canal are subject to protective conditions concerning transportation and transit, as specified therein, with the object of ensuring the safety of the said water channel and its environment.

However, it has lately been noticed that due attention is not given by Shipowners and Shippers abroad to forwarding the relative complete data which must reach the Atomic Energy Establishment before each shipment with regard to substances of Group 1 or on shipment with regard to substances of Group 2, this being in accordance with Item 3 of the aforesaid circulars and also Chapter 3 of the Appendix in question.

Kindly, therefore, advise Shipowners and Shippers that all the said conditions should be fulfilled, especially regarding the complete information relating to radioactive substances which should be sent immediately upon its receipt to: Head of the Protection Section, Nuclear Researches Centre, Atomic Energy Establishment, Atomic Energy Post Office, Cairo.

This will enable us to take the necessary action to safeguard public interest.

We add that it is of vital importance that you also supply your Agents with all the required relative information and documents sufficiently in advance, to enable them to take the necessary action with both the Suez Canal Authority and the Atomic Energy Establishment in Cairo.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor specially when it is presumed that the sick will be hospitalised. The Quarantine doctor meets the ships whilst entering the port and the ships are boarded in turn. To get a quick clearance and not to be left for later attendance, Masters are requested to receive the doctors as soon as they board and to have the following documents ready:

Quarantine Forms in Duplicate: When inserting the ship's register net tonnage special care should be taken in indicating same on the 2 quarantine forms (Form No. 15 Q.A.) as the dues are calculated on that tonnage, as incorrect information may cause complications.

Derat Certificate should be handy for inspection.

Clearance from Last Port should also be handy.

All ports at which the vessel has called as well as dates of sailings for the last 30 days should be inserted in the form.

Quarantine Signals:

By day: "Q" flag (signifying vessel healthy). *"Q" Over first substitute (QQ).* (Vessels have cases of infectious diseases more than 5 days ago, and there have been unusual mortality among the ratings or crew on board.) *"Q" over L flag (QL)* signifying (vessel is infected and has cases of infectious diseases less than 5 days ago.)

By night: red light over white: The flags and lights must remain hoisted until free pratique is granted. Ships in transit under Quarantine through the Suez Canal will use the same signals until they clear the other end of the Canal.

Important: In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at an A.R.E. port the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless, the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique Granted by Radio: Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and has a doctor on board.

(2) Details shown on the Quarantine Statement should be radioed to the Quarantine Authorities 24 hours prior to ship's arrival.

(3) Masters of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.

(4) The ship must not have called at any infected port.

RADIO: *Authorised Personnel Checks:* Masters of vessels are requested to contact the Suez Canal Authority via its wireless station "SUQ" (watch frequencies 425 kHz, 454 kHz and 468 kHz) whenever they want to make sure of the identity of any Suez Canal personnel embarking their vessels, either in the approaches or in the harbours or in the Canal waters. Also in case of any urgent complaints which may need quick investigation.

		4 E	220	721	172	563	Depth 32 ft.

**Note:* In good weather the length on buoys may be increased from 3 m. to 9 m. according to the length of the berth and height of the vessel.

Quays at Port Said: The Suez Canal Authority has built new quays to enable vessels to berth alongside at Cheriff and Abbas Basins. Length about 1300 m. Height about 2 m. from sea level. Also 14 cranes of 3 tons lifting capacity each, running on rails have been installed. Maximum draft allowed is 27 ft. The best part of these quays is ready and vessels with full cargo for discharge are now berthing alongside. Vessels drawing more than 27 ft. have to lighten their cargo into lighters to that draft before berthing.

The distance between Bollards 23 and 24 South of deep Abbas Quay (30 m.) has been reserved for the berthing of one Ro/Ro vessel by the stern, within the present allowed draft (27 ft.).

Height of quay from sea level: 2 m.
Average tide all year: from 40 to 50 cm.
Thickness of fender: about 50 cm.
Breadth of quay edge: from 50 to 60 cm.

Developments: Container quay length 350 m. under construction. Depth 45 ft. 2 cranes will be installed.

An additional 250 m. quay is planned for 1986 and will serve as a multi-purpose quay and be equipped with a gantry crane.

Suez:

Port Ibrahim: Port Ibrahim is the port of Suez. It consists of North and South basins.

North Quay: The North basin has, on the North side, a quay length of 2,415 ft. a total breadth of 975 ft. and depth of 26 ft. at high tide. Quay can accommodate 4 large ships.

Berths 4 and 5, where stores are available, are suitable for general cargo.

Khedivial Quay: Berths Nos. 9, 10 and 11, length 119 ft., depth 24 ft. at high tide.

Mobile cranes available; 5 tons, 15 tons and 30 tons capacity.

Pilgrim's Quay: (Pontoon Berth) No. 6, 1 berth, length 1,000 ft., draft 26 ft.

Adabiya Quay: This quay is situated on the Western shore of the Suez Bay, and is under the control of the Naval Authorities. The max. draft is 26 ft. 06 in. and can accommodate 4 large vessels. Max. length of vessel allowed to berth alongside quay 500 ft. Mainly bulk wheat discharge and direct delivery of general cargo.

Marakib Quay: Situated at the entrance of the Canal depth 28 ft.; can accommodate passenger and cargo vessels.

Storage Capacity at Suez:

North Quay	40,150 sq. ft.
Pilgrims Quay	20,952 sq. ft.
Khedivial Quay	8,448 sq. ft.
	69,550 sq. ft.

While stacking spaces on the quays are: 332,050 sq. ft.

TUGS: Highly qualified crew are available on board several tugs owned by the Suez Canal Authority in Port Said, Suez and in all Suez Canal stations. These tugs assist vessels to berth in Port Said harbour as well as in Canal if a case arises. It is left solely to the Canal Authority to decide whether more than 1 tug is needed (free of charge) to assist any ship to moor in the Port Said harbour, but if a Master of a vessel finds it necessary to employ an extra tug for berthing or if he needs a tug for any other reason, such an operation will then be charged against the vessel.

Salvage Tug Boats:
(1) 3,200 h.p. *Mounir, Moawen 1, Moawen 2.*
(2) From 3,500 to 5,000 h.p. *Antar, Bassel, Barei, Fahd.*
(3) 6,400 h.p. *Mared, Shahm.*

Harbour Tug Boats:
1,600 h.p. *Bori, Wakar, Chadid, Hout, Kirsh, Morgan, Shabar.*

STEVEDORES: As stated in the ETA messages, Masters are advised to include in their messages details of cargo to be discharged in either Port Said or Suez, hatch by hatch and gangways required, if possible. All loading and discharging operations in Port Said harbour and Suez Roads are effected by lighters. There are steel lighters, and self-propelled barges available for this purpose that will allow rapid work to be carried out. At Port Said several reefer ships are provided with flat floating pontoons to facilitate discharge of cargo. At Port Said the draft of water does not allow ships to be berthed alongside quays to carry out cargo operations except in Cherif and Abbas Quays which accommodate vessels up to 27 ft. and consequently same are carried out also from and into lighters which are brought alongside the vessels whilst at anchor.

MEDICAL: It is very essential for Agent to receive advance notice of required medical attendance at least 24 hours prior to ship's arrival. All ordinary medical supplies are available and prescriptions are executed at any time at moderate prices and delivered during ship's stay in port. Medical assistance at Port Said and Suez is available. Consultations on board could be arranged through ship's Agent at any time by day or night. Reliable dentists are available at Port Said and could be consulted on board, if necessary, and during the following period at their clinics: From 0900 to 1300 hrs. and from 1600 to 1900 hrs.

Oculists are available for consultations at town clinics in Port Said during usual working hours. Opticians are also available at Port Said. The following hospitals are available with ample first, second and third class accommodation, accepting patients irrespective of nationality at reasonable charges:

At Port Said	*At Suez*
Al Mabarra Hospital	Al Mabarra Hospital
Notre Dame de la Deliverande Hospital	Abou El-Azayem Hospital
Two General Government Hospitals	General Government Hospital
T.B. Hospital	Isolation Hospital
Isolation Hospital	Ophthalmic Hospital
Ophthalmic Hospital	

Ship's personnel should carry international vaccination and/or inoculation certificates if a vessel is arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of arrival.

FRESH WATER: Available for supply ex self-propelled barges to any quantities required at all times with minimum supply of 50 tonnes for vessels exceeding 500 tonnes gross provided vessels inside the harbours, vessels at anchorage areas minimum supply quantity is 200 tonnes.

TANKERS: There is a bunkering station at Port Said harbour which can accommodate 4 tankers with not more than 38 ft. draft for the purpose of discharging their cargo of fuel or diesel oil to the different oil bunkering companies.

Tankers in Suez discharging bunkers and changing crew do so in the New Suez Terminal or the Suez Petroleum Basin. Tankers in Port Said discharge bunkers only.

Oil Storage: There is ample tank storage for bulk petroleum products.

New Suez Terminal: The terminal is situated in Suez Roads.
(1) Presently one berth has been reconstructed and is used by tankers chartered by EGPC.
(2) Minimum depth of water at LWOST in the approach Channel is 8 ft.
(3) Minimum depth of water at LWOST alongside each berth is 38 ft.
(4) Maximum safe length of tanker applicable 750 ft.
(5) Six pipe lines each berth:–
4 lines × 20 in.
2 lines × 16 in.
1 line × 4 in. (fresh water)
(6) All types of oil products can be handled at this berth.
(7) No facilities are available at present for reception of ballast.

Suez Petroleum Basin:
Jetty No. 4 can take tanker length 500 ft. with 26 ft.draft.
Jetty No. 5 Max. length 530 ft. Max. draft 26 ft.
Jetty No. 7 Max. length 570 ft. Max. draft 26 ft.
There are sufficient pipes for discharge.

FUEL: Different grades of fuel oil are available from different firms. It is customary that the Master should advise in his ETA message of the vessel's requirements, fuel or diesel oil, at least 24 hours prior to ship's arrival into port. Bunkering is by contract between the Owners and the different bunkering firms, and nominations should be arranged for each vessel separately between the Owners and Head Office of the bunkering firm abroad, and for which payment is also effected abroad. Only the Compagnie Orientale des Petroles accepts payment in cash out of Shipping Account No. 2 for supplies effected by them and in which case a nomination is not required. Vessels can be berthed in the oil installation and thus can effect their bunkering requirements through pipe-lines. Tankers which are not gas-free, cargo vessels carrying dangerous materials and passenger vessels, which are moored opposite the town, can be supplied with requirements of fuel and diesel oil ex self-propelled barges with max. capacity of 700 tons.

Port Said: Vessels can also be supplied at the anchorage areas and in Port Berths by means of supply tankers and self-propelled barges respectively.

Suez: Bunkering always done ex-barges.

FIRE PRECAUTIONS: In accordance with the Suez Canal Authority's regulations, tankers and vessels carrying dangerous materials must comply with their requirements, concerning fire regulations.

OPENING/CLOSING HATCHES: In accordance with Charter Parties, the opening and closing of hatches are dealt with as instructed in this Agreement, but for vessels carrying out minor cargo operations, it is customary that stevedores open and close ships' hatches against ships' account. To expedite vessel's transit, it is always recommended that ship's crew, during vessel's entering into the harbour should open the hatches and rig ship's derricks in order that they may be ready for cargo operations immediately upon ship's arrival at either Port Said or Suez.

CARGO GEAR: These are normally supplied by the stevedores to comply with the nature of cargo discharged or loaded from cargo ships. Rope lengths and other cargo gear may be additionally required to expedite ship's discharge.

GANGWAY/DECK WATCHMEN: In both basins Cherif and Abbas at Port Said, where cargo vessels are normally berthed, ships' gangways can be used for disembarkation and embarkation. Passenger vessels are moored in special berths, i.e. Red Buoys, opposite the town, and can be supplied with 1 or 2 floating bridges (snake pontoon) which can connect the ship with the shore to enable the transit passengers and members of crew to proceed ashore. Cargo ships and other vessels mooring at the different buoys must lower their gangway to facilitate disembarkation and embarkation of ship's personnel as well as different officials. As far as Suez is concerned, all vessels must lower their gangway for the same purpose stated above. A deck watchman is recommended.

Also see "Police/Ambulance/Fire".

Circular No. 74/84:

1. Each vessel tanker and/or floating unit of any type which berths in Port Said and/or Suez either to transit the Suez Canal and/or to carry out operations has to engage watchmen in the following procedure:

Gross Tonnage of Floating Unit	*Minimum No. of Watchmen to be engaged Per Unit*
(a) Up to 999 tons	1 watchman
(b) From 1,000 tons to 2,999 tons	2 watchmen
(c) From 3,000 tons and over	3 watchmen
(d) Passenger ships	According to Master's requirements with a minimum of 3 watchmen.
(e) Large cargo ships	

2. Each Contactor has to submit to the Master a list showing names of watchmen engaged and their serial numbers.

3. The vessel has to ascertain that each watchman is in possession of an identity card and/or badge bearing a serial number, photo and name of the marine contractor through whom he has been engaged.

4. Masters are kindly requested not to sign blank receipts as it is recommended to keep a copy of same onboard for perusal in case of need.

5. Any incident concerning watchman's attitude on board has to be reported immediately to the Agents so that necessary steps can be accomplished on the spot for the safeguard of ship's interests.

Circular No. 86/84:

On the occasion of the current security precaution measures adopted at present, kindly advise Owners and Masters to the following steps:

1. Upon ship's arrival in Canal waters, security personnel may board vessels with at least two persons with certified identity cards issued by the Suez Canal Security Directorate. The above procedure is a part of security plan to safeguard ships' transit in the Canal due to the prevailing circumstances.
2. Utmost care and accuracy to be taken in relaying information about ship's tonnage and all particulars concerning cargoes onboard, thus complying with manifests, avoiding ship's delay or checking.
3. Special attention to be given on passing information for expected vessels either from the North or the South, and immediate notice for any alteration to be relayed to concerned parties with a minimum period of 6 hours before arrival at Anchorage Area to avoid being delayed.

CUSTOMS ALLOWANCES: Every member of crew is entitled to have 1 carton of cigarettes, 8 ounces of tobacco, and 1 bottle of spirits for his own consumption during ship's stay in Port Said, Suez Canal transit, until vessel exits the Canal or vice-versa. Same applies to passengers, and a limited quantity of bonded stores can be permitted in public rooms and bars on passenger ships. Crew and passenger list, in duplicate, showing the amount in possession of each must be ready on vessel's arrival for submission to the Customs Representatives who normally proceed on board on arrival to seal up the Bonded Stores.

IDENTIFICATION CARDS: Every member of crew must have a seaman's book deposited with the Officer in charge for inspection, if so required by the Immigration Authorities. If a vessel is stopping in Port Said or Suez for a lengthy time, these seamen's books are normally taken off the ship by the said Authorities and kept in their departing office pending ship's sailing day when they are placed on board by the proper officer on a previous advice. Identity cards are also needed if a crew member wishes to proceed ashore for a short visit to the town or for proceeding to any excursion inland.

CONSULS: The following countries have Consulates or Consular Agencies in Port Said:

Denmark
Finland
Greece
India
Italy
Netherlands
Norway
Panama
Republic of China
Spain
Sweden
U.K.
U.S.A.
U.S.S.R.
West Germany

The following countries have Consular Agencies in Suez:

Denmark
Finland
Norway
Sweden

REPAIRS: Most types of repairs whether temporary or permanent can be carried out here by the Suez Canal Authority's shipyard or its subsidiary companies, under the supervision of the appropriate surveyors, if necessary. Suez workshops are well equipped for undertaking all kinds of marine repairs to hull, main and auxiliary engines, boilers, navigation aids, radar and cooling, and installations.

Vessels carrying explosives are not allowed to carry out repairs. Tankers loaded or in ballast but not gas free are not allowed to carry out repairs, except in cases of force majeure of which the Canal Authority is sole judge. Gas-free tankers must present Gas-free Certificate before they are allowed to carry out any repairs. If unavailable, a chemist approved by the Suez Canal Authority can be appointed for testing the tanks and issuing the Gas-free Certificate. The aforementioned restrictions are applicable at Port Said only and not at Suez where vessels anchor at roads and are of no danger.

Other Repair Facilities: Exist at Port Said for air conditioning, wireless telegraphy, radar, course and rudder recorder, refrigerators, and refrigerating units.

All kinds of repairs to echo sounding devices are carried out at Port Said and Suez by experienced specialists at reasonable charge. In Port Said different types are dealt with by the Port Said Engineering Works with the exception of Raytheon radar, B.T.H. radar and Cossor radar which are represented by the Eastern Electronics. The electrical repair workshop in Suez is operated by Suez Electronics.

DRY DOCKS: A floating dock of 25,000 tons, capable of docking vessels up to 50,000 d.w.t., is available at Port Said as well as a dry dock at Suez. Sufficient notice is required to book the date for either the floating or the dry dock.

Repair facilities are available at Suez, where a dry dock is suitable to accommodate vessels up to 8,000 d.w.t.

Dimensions:

Extreme length to inner sill	464 ft.
Breadth at entrance	73 ft.
Height of water over keel blocks:	
at Spring tide	22 ft. fore, 26 ft. 3 in. aft
at Neap tide	19 ft. fore, 23 ft. 3 in. aft

The max. draft at which a vessel can use the dry dock is 17 ft. fore and 20 ft. aft. Deeper drafts may be arranged with the management.

The Suez Canal Authority's Floating Dock and Shipyard is situated at the Northern entrance of the Suez Canal, opposite to Port Said lighthouse.

Ships up to 50,000 d.w.t. may undergo all kind of repairs in the shortest possible time. Tankers, by gas-freeing during their voyage from their home harbour to Port Said, will save at least 4 days if they carry out their repairs in our dock.

CREW CHANGES:

By law, only the official State Agents are permitted to handle reception or repatriation of crew in Egypt.

Crew members arriving at Cairo Airport to join a vessel must have a letter of introduction addressed to the Manager of Cairo Shipping Agency, 7 Abdel Khalek Tharwat Street, P.O.Box 468, Cairo, telephone number 745755 or 745863. This introductory letter is to be produced immediately upon arrival to the representative attending at the airport.

Note: A representative is usually in attendance when the crew member steps off the bus and passes through the doors at the entrance hall. Distance from the bus about 20 m. – 25 m. – just in front of the banks.

Visas can be obtained at the airport.

The Suez Canal Authorities have also stipulated the following requirements for arriving crew members:

(a) Be of same nationality as the vessel's flag.
(b) Be in possession of a contract signed and stamped by the shipowners.
(c) Be holding a valid Seaman's Book.

Note: Crew members joining vessels at Suez Canal are not permitted to bring with them spare parts, equipment, electrical apparatus, etc., for vessels unless the goods in question are accompanied by an air waybill which must indicate the words "in transit", together with an invoice from the suppliers stating description and value of the goods.

Principals are requested to telex their Agent giving full details of crew changes including names, flight numbers, dates and times of arrival.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: *General Holidays 1983.*

February 22nd	Unity Day
May 1st	Labour Day
May 9th	Sham El Nessim (Spring Holiday)
June 18th	Evacuation Day
July 10th – 13th	Ramadan Bairam (End Of Ramadan)*
July 23rd	Revolution Day (National Day)
September 16th – 20th	Courban Bairam (Pilgrimage Feast)**
October 6th	Armed Forces Day
October 7th	Islamic New Year***
October 24th	Suez Day
December 16th	Mouled El Nabi (Birth of the Prophet)

*Possibly observed July 11th – 14th
**Possibly observed September 17th – 21st
***Possibly observed following day.

The Dates of the Islamic holidays are stated approximately. Working hours: 0600–1800 hrs. Overtime: 1800–0600 hrs. Friday is the weekly day of rest but it does not affect labour.

If a holiday falls on a Friday it is possible that the following working day will be decreed a holiday also.

Ramadan: Thirty days' fast and how it affects labour; Cargo operations can be carried out at night and on Fridays and General Holidays against payment of overtime rates. Arrangements should be made on the previous working day to enable Customs to delegate the necessary personnel in time.

Local Holiday

Port Said:
December 23rd — Port Said Day

AIRFREIGHT: The Official State Agents are the only Agents legally entitled to handle airfreighted consignments such as parcels, spares, etc., and the following procedure should always be followed:

All parcels should indicate:

(a) Name of vessel to which consignment is intended and port of delivery.
(b) Name of Official State Agent.
(c) The wording . . . . "delivery at Cairo Airport to Cairo Shipping Agency only, on behalf of (insert name of Official State Agent)".
(d) All parcels to be encircled with a wide self-adhesive tape, coloured red. In addition a self-adhesive label to be affixed bearing the name of Cairo Shipping Agency and also the name of the Official State Agent in large capital letters.
(e) The parcel and air waybill must indicate the words "in transit".
(f) Suppliers of the spare parts must always be instructed to enclose with the parcel, copy of their invoice stating description of the contents and value and to ensure that the commodity of the cargo can be indicated precisely on the relative Bill of Lading.

Note: Crew members joining vessels at Suez Canal are not permitted to bring with them spare parts, equipment, electrical apparatus, etc., for vessels unless they are accompanied by an air waybill and an invoice duly completed as instructed above. Please note that any goods for vessels arriving with embarking crew members must also follow precisely points (e) and (f) as indicated above otherwise the Customs Authorities will refuse to release such goods "in transit".

In order to enable check upon airfreighted consignments, Principals are requested to telex advise their Agent giving full details of flight number, date, air waybill number, etc.

Circular No. 19/83: Dated 8th February, 1983.

Parcels of spare parts, equipment and electrical apparatus arriving care of crew members without transit shipping documents.

Reference is made to our previous circulars, dealing with the above subject, ending with No. 101/82, dated 31st October, 1982, requesting you to kindly ascertain that the air waybill covering a parcel of spare parts must show that same is "In Transit".

The object of the present circular is to bring to your kind attention that, considering that, according to Regulations, a crew member is allowed to be accompanied only by his personal effects, the Customs Authorities refuse to release "In Transit" other goods, such as spare parts, various equipment, electric apparatus of high value (T.V., video etc.) arriving care of crew members. As already explained, the goods in question should be accompanied by an air waybill and an invoice duly completed as described previously.

Kindly, therefore, arrange for parcels of spare parts, equipment, apparatus etc. not to be forwarded care of crew members unless they are accompanied with complete shipping documents, otherwise it will not be possible to have them released "In Transit".

Circular No. 114/1983:

We would refer to our various Circulars ending with No. 19/1983 (see above), dated 8.2.1983, dealing with the necessity of instructing Suppliers of spare parts to ensure that:

(a) the parcels be accompanied by copies of invoices showing description of their contents and its value.
(b) that the relative Bills of Lading should point out the commodity of the cargo precisely.

Moreover, you are also kindly requested to make certain that the respective Air Waybill should clearly show that the parcel is "In Transit", indicating the vessel's name to enable the Customs to avoid dealing with the parcels as "Import Cargo", which irregularity causes much complication and delay.

In this respect, it is also recommended that parcels be airfreighted to Cairo four days before ship's arrival, taking into consideration the weekends and official holidays.

AIRPORT: The distance between the international airport at Cairo and Port Said or Suez is normally 2.5 hours. International airlines serve this airport. Cairo Shipping Agency is on constant contact with Agent for the necessary instructions.

In the interest of all and in order not to lose any time and to avoid any restrictions when sending crew members by plane to join their respective vessels, it is essential that the Agent concerned should notify by cable in good time the flight number as well as the time and date of the arrival in Cairo, thus enabling the Agent to notify Cairo Shipping Agency for the necessary clearance and as to whether they should be sent to join their vessels.

POLICE/AMBULANCE/FIRE: Vessels which are moored in the harbour either in Port Said or Suez requiring assistance from the Port Police, should hoist the International Code Signal (YM). There is always a police guard appointed by these Authorities on each ship in either Port Said or Suez harbour. First-aid assistance can provide ambulances at a request through the Agent. In case of fire on board when in port, the Master must inform the Port Authorities (the Suez Canal Authority) imediately and at the same time give a general warning by means of a long blast of whistle or siren and be prepared to move his ship to another berth if so required. The Suez Canal Authority own 7 tugs and other craft distributed in various points of the Canal with individual output from 10 to 950 t.p.h. well equipped with fire-fighting appliances, ready for use at any moment.

Police guards are placed onboard vessels in Suez Roads for vessels' protection.

TELEPHONES: There are no telephone facilities available in Port Said except at Berth No. 4 Red where passenger ships are normally berthed, and this can be connected when snake pontoon is fixed with ship's gangway.

SERVICES: Port Said and Suez being situated at a middle point between the East and the West, have become an ideal centre for replenishing stores and provisions which can be obtained in bond or from town.

Delivery of provisions and stores is effected 24 hours a day at Port Said and Suez.

It is recommended that Masters should order their requirements prior to their arrival with a view to avoiding any delay specially for ships joining the 0700 hrs. convoy Southbound.

Deck and engine stores are ample and are also available and sold at (in bond) prices.

Paints: All kinds (bottom, boot-top, topside, enamel, engine ready mixed, heat resisting, varnishes) are also available at "in bond" prices. Painting of ships or undertaking any maintenance work on board is permitted while ship is in port waiting to join the North or the Southbound convoys as well as while transiting the Suez Canal.

The following companies are represented here:

International Marine Paint	Sole agent in Egypt: International Shipping Enterprise.
Hemples Marine Paint Camrex Marine Paint	Represented by The Egyptian Marine Supply and Contracting Co. (cable address: "Consup")

Chemicals: The following chemical firms are represented in Port Said and Suez:

Gamlen & Co.	Represented by The Egyptian Marine Supply and Contracting Co. (cable address: "Consup")
Bird Archer/Norus (Tommons & Chartes) Chemicals. Drew Chemicals Cameroid Products. Paroline Chemicals Cameroid Products. Walker Bow.	Represented by The International Marine Services Co. (cable address: "Marinco")
Houseman Marine Chemicals	International Shipping Enterprise

Grease and lubrication oils. Available from:

Esso Petroleum Co.
Misr Petroleum Co. (ex Shell)
Mobil Oil Co.
Caltex Oil Co.
Ocean Oil Co.
Wisure Oil Co.
Fina Oil Co.
Gulf Oil Co.
Castrol Burma Oil.

An advance notice of 48 hours is necessary to arrange for lubricating oils and/or bunkers required.

Charts: Admiralty Charts are available at Port Said from the Egyptian Marine Supply and Contracting Co. If any order has to be supplied at Suez, arrangements can be made for the required charts to be sent there.

Defense Mapping Agency, Washington and British Admiralty Charts available from International Shipping Enterprise, who also act as distributor for Pains-Wessex Marine distress signals and line-throwing equipment.

Cigarettes: American and British cigarettes are available "in bond".

Technical Gases: Technical gases are also available at Port Said and Suez, and empty containers can be exchanged.

Fish: Bream, prawns, crab, rock fish available throughout the year; Mullet available June/February; Slip soles available November/March.

Vegetables: Beans, beetroots, cauliflower, cabbages, carrots, eggplant, endive, garlic, herbs, lettuce, marrows, parsley, radishes, spinach, tomatoes, turnips, escarole, onions, potatoes: *available throughout the year.*

Green peas, celery, pumpkins: *available January/March.*

Artichokes: *available October/April.*

Parsnips, spring onions: *available November/May.*

Green pepper, mint, lady's finger: *available June/September.*

Capsicum: *available May/December.*

Cucumber: *available February/December.*

Lemons, limes: *available throughout the year.*

Fresh figs, fresh dates: *available August/October.*

Bananas: *available October/June.*

Grapefruits, oranges, tangerines, *available October/May.* (When out of season import citrus are available).

Apricots: available May/June.

Water melons, sweet melons: *available May/October.*

Grapes: *available June/October.*

Plums, peaches: *available June/October.*

Mangoes: *available August/September.*

Pears: *available August/October.*

Apples: *available November/February* (also imported the whole year).

Eggs: Eggs are available throughout the year.

Meat: Fresh meat is only supplied to vessels having a Mohammedan Crew after permission is obtained from the Customs. Other vessels are supplied with "frozen" in bond.

Laundry: Well equipped, reliable and fast services are available at Port Said, through the ship's contractor. Ship's laundry is usually delivered within 24 hours. For vessels remaining a few hours in Port Said and transiting the Canal, their laundry could be collected, washed and ironed and then transported to Suez by special car or lorry for delivery to them there.

Garbage: No refuse or ashes are allowed to be thrown whilst ships are moored in Port Said, transiting the Canal or in Suez Roads. Small barges are available in Port Said and Suez for disposal of garbage or ashes, which craft can be obtained at a reasonable hire.

Motor Launches and Tugs Hire: Motor launches and tugs required for extra service are charged for as under:

At Port Said:

Motor launches per hour at day time, pt. 60 each; night-time, pt. 75 each; motor launches per day, pt. 300 each; night, pt. 450 each.

At Suez:

Motor launches per hour, pt. 1,250 each; tugs per hour, pt. 5,000 each.

Divers: Suez Canal Authority's Divers as well as other Contractors' experienced divers are available, capable of carrying out any kind of underwater repairs including welding and fees are subject to the kind of job to be performed. Anchors and other articles left behind by any ship in Canal waters are retrieved on no cure no pay basis.

SHORE LEAVE: Crew members are allowed ashore provided that they obtain a shore leave pass issued by the Immigration Authorities through the local Agent. They can proceed ashore by means of motor launches or rowing boats at their own expense. For vessels mooring opposite the town and connected with the shore by snake pontoon, crew, together with passengers, can proceed ashore free of charge.

DEVELOPMENTS: There is a modernisation plan underway at Suez.

When the modernisation is complete, cargo handling will be largely mechanised, resulting in a great increase in the port's capacity. The first stage of the expansion will provide 3 multi-purpose berths, shoreside installation, container-handling facilities, and grain storage facilities. An offshore grain pier connected to onshore storage silos is expected to be built during the next phase.

Second Stage (Suez Canal): It aims at deepening the Canal to step its wet cross-section to about 5,000 sq.m. and the permissible draft to 67 ft., thus allowing tankers up to 260,000 d.w.t. to transit fully loaded, tankers up to 300,000 d.w.t. partially loaded and tankers up to 400,000 d.w.t. in ballast. Completion expected in 1988.

SHIPMASTER'S REPORT No. 1: *Suez Canal Transit (South/North) (1976)*

C. Guardafui light was clearly seen and identified at a range of 39 miles.

There was an oil rig operating Southwards of the Cape in approximate position Lat. 11° 44′ N., Long. 51° 21′ E.

The Straits of Bab El Mandeb were congested but the traffic separation scheme seems to be satisfactory. The passage of the Red Sea does not seem to be any different from the past.

When passing Aden, a preliminary message was sent to the Suez Agent. This was of doubtful value but it is advisable to send a message addressed to 'Port Authorities Suez', via station SUK, giving the following information:–

Ship's name and flag.
Whether transit of canal is desired.
Destination.
Where from.
Cargo aboard.
Whether any dangerous cargo carried.
Draft.
ETA at – 23° North, Straits of Gubal, Suez.

All radio messages through the Egyptian radio stations must have a signature, i.e. 'Master'.

The ETAs can be updated as necessary. The message to the Port Authorities is mandatory.

Approaches: The Gulf of Suez is congested by oil rigs – particularly in the vicinity of Ras Shukheir and the Ramadan and July oil fields where there are many rigs and flares and supply vessels crossing the Gulf. One oil rig was working in the middle of the fairway East of Ras Dib. With poor visibility, if a Southbound convoy were to be met in this region, it might be wise to proceed at manoeuvring speed.

Most of the lights in the Gulf are extinguished but Newport Rock lighthouse, the buoys and other lights in Suez Bay are working and are efficient.

A pilot cutter operates just South of the waiting area but an approaching ship will be called by signal lamp from ashore, asking for the ship's name and making "VHF". Contact is then established on Channel 16, changing to 6 when the ship will be told whether to anchor in the waiting area or remain underway until the Pilot boards.

Pilotage: The Pilot boards from a launch by means of the accommodation ladder (which should be lowered to within 3 ft. of the water) and takes the ship to her designated anchorage in Suez Bay.

Arrival Formalities: Quarantine and Customs authorities (about 8 people) board the ship at the anchorage together with the Agent. The accommodation ladder is used for all boarding and disembarkation within the canal. It should be raised when not actually in use otherwise the ship will be boarded by numerous "Businessmen".

A list of forms required is listed below but there are others which the various authorities bring with them and some are presented for filling in more than once and by different officials. This ship's transit was delayed because the Agents had not received funds from London. Deck log books for the past six months have to be landed.

The Suez Canal Cargo Declaration Form (in duplicate) is handed to the Pilot who disembarks at Ismailia.

At Anchor: With 3 shackles out, this ship lay comfortably at A8 berth. Some difficulty, however, was found in reconciling the various anchor bearings with the chart.

A bumboatman will seek permission to set up shop aboard. Care should be taken to agree methods of payment beforehand.

A listening watch should be kept for Suez Control on Channel 6. Water can be ordered through the Control and will be delivered in a large water boat carrying about 300–400 tonnes. Rate of delivery is about 50 t.p.h.

Convoy lists are made out at about 0300 hrs. and ships can call Suez Control soon after that to learn their convoy number and time of Pilot boarding. Convoys can start as early as 0500 hrs. This vessel was number 10 and hove up at 0830 hrs. Our searchlight was brought out at 1700 hrs. and the boats at 0500 hrs. We were asked to carry 4 extra boats but Pilots advise against this as the time taken to unload 6 boats can cause delay at the other end of the canal.

Transit: The Pilots change at Ismailia. The convoys cross in the Great Bitter Lake, anchoring as necessary. There is now one convoy from each end every day.

A Harbour Pilot takes over on reaching Port Said and, as soon as the searchlight and boats have been off-loaded and the ship has entered the approach channel, he disembarks.

The Agent will board at Port Said with yet another form to be filled in and he will return the log books.

Documentation:

2 Health Forms (Egyptian)
1 Passport Form (Egyptian)
1 D.B. Tank Statement (Egyptian)
1 Radio Frequencies Form
2 Cargo Declarations
*4 Cargo Manifests
8 Crew Lists

Plus several others which will be produced by the various officials.

*It was explained that our company's vessels do not carry cargo manifests but the Agent said that a typed statement of the amount of cargo aboard, destination and where loaded would suffice.

SHIPMASTER'S REPORT No. 2:

Suez Canal Transit (South/North) – (1976)

After clearing Aden a radio message was sent to the Port Authorities Suez via Port Said Radio advising them of the following:

Ship's name and flag.
Whether desire transit.
Destination and last port.
Cargo aboard total tonnage and type of cargo.
Whether dangerous or explosive cargo carried.
Draft.
British tonnages gross and nett.
Date Suez Canal Certificate issued.
Tonnages gross and nett from Suez Canal Certificate.
Advice as to whether searchlight required.
ETAs 23° North, Straits of Gubal, Suez.

During the passage in the Red Sea both Port Authorities and Agents received up-dated ETA messages. When using SUK radio to give updated ETA this station advised that a cable was necessary to be sent to Port Authorities Port Safaga via SUK giving ETA Strait of Gubal.

Navigation in the Red Sea does not seem to be any different from the past. The Traffic separation scheme in the Straits of Bab El Mandeb seems satisfactory.

Straits of Gubal and passage in the Gulf of Suez was in daylight. Especially in the Straits of Gubal very few seem to adhere to any form of traffic separation scheme. There is no doubt that if it were night time or poor visibility then it would be advisable to be on 'Stand-by'. There is now an oil rig Lat. 27° 57′ N., Long. 38° 41.2′ E., or 349°, 5.7 miles from Ashrafi Lt. Ho.

The Ramadan and July Oil Field area has many oil supply ships, most of the Southbound traffic was met in the Straits of Gubal thus further North it was very quiet.

The ship was anchored in the waiting area South of Newport Rock but alas this area shown as being to the East of the 2 green flash buoys is *now wrong!* The waiting area is to the S.E. of the most Southern Green flash buoy. About 1 mile South of the previous position. Evidently there is shoaling in the old area and ships have grounded.

On arrival at the waiting area the ship had to anchor as the Southbound convoy was clearing. A tug with Pilot Signal closed the ship to ask for information with regard to tonnages, cargo etc. After first vocal contact Channel 6 VHF was used. The ship was not called up by lamp nor did the Port Control answer any VHF requests etc. It would seem that if the Tug is on station advice is received from there. They did not, however, attempt to advise the ship that the waiting area had been altered.

As the ship anchored a boat came alongside with two watchmen but as I had not requested these and the visitors had not boarded they were sent ashore.

Later a Pilot boarded via the accommodation ladder to shift the ship from the waiting area to a designated anchorage, in our case '1B'. Ship was anchored in '1B' by 0030 hrs. on 12th, having arrived at the waiting area at 1947 hrs. on the 11th.

As the ship had some essential repairs to the main engine which would only take a short time, engines were immobilised. Pilot had advised that 0800 hrs. would be earliest time for transit. During the middle watch the area was hit by a fierce short lived blow from a Southerly direction. Although the vessel did not drag, ships close by did. It was necessary to pay out more cable to ensure a bulk carrier cleared us comfortably. During this time a ship called Port Control to say they had dragged some 3 to 5 cables.

As the weather for some 3 hours was considered bad for small boats the first of the visitors did not board until 0515 hrs.

The Canal Surveyor, who was the first to board was quite helpful and pleasant. He took the Suez Canal Tonnage Certificate for verification as the ship was making a first transit. This I have been informed will be returned to the Company in about 2 months.

Later other officials boarded about 0700 hrs. The Agent also came off with the mail. The 2 electricians for the searchlight insisted on being given a cabin or they would not remain on board. As there was no spare cabin, except one in the crew accommodation, I endeavoured to explain that a reasonable shelter had been built on the after end of No. 2 hatch. It transpired that in the end I moved a patient who had tonsilitis out of the hospital. Later the Canal Pilot informed me that the electricians cannot be so demanding provided a reasonable shelter is provided.

Documentation was found to be as advised in the report above. One small difference is that the Cargo Declaration form is only required as 1 copy and is now in English with one form for South to North ship's and another for North to South ships.

At the moment there is only the 1 convoy each way per day. Hours of commencing transit seem a little doubtful. I gather that first Southbound ship leaves Port Said at 0200 hrs. while the first Northbound ship now leaves Suez at 0800 hrs.

Searchlight and 2 boats were brought alongside and loaded in ample time prior to the Canal Pilot boarding at 0909 hrs. I gather that because of the 'bad' weather for those few hours the delivery of searchlights and boats was delayed. Also no advice was obtainable on the VHF after 0300 hrs. with regard to convoy number or time of proceeding. About 20 minutes' notice was given over the VHF.

The Transit was quite straight forward. Ship was anchored in the North Anchorage, Bitter Lakes for 3.5 hours, the Southbound convoy passing. Transit was commenced at 0947 hrs. At Ismailia the Pilot changed. He took the Cargo Declaration with him.

Port Said was reached at 0033 hrs. on the 13th. The Sea Pilot boarded here as did the Agents who returned the Ship's Register and Log Books which had been landed at Suez. The ship had to keep moving while the boats and searchlight and personnel were either offloaded or disembarked. At night this is not easy and the whole crew are required to ensure a safe and quick operation. Once these matters were completed the Sea Pilot left well within the breakwater. Accommodation ladder was used at all times for Pilots, Officials and Agents boarding and disembarking. Fairway Buoy was abeam at 0148 hrs. on the 13th.

On the Eastern Banks of the Canal there is much work being done with levelling ground and widening the canal. Also in the Little Bitter Lake. *According to the Pilot 2 convoys from North will be put into operation in about 1 month.*

SHIPMASTER'S REPORT: September 1979.

The Pilot advises that vessels anchoring further South than the 0.5 mile limit South of No. 1 Buoy at Suez may not receive Pilot.

SHIPMASTER'S REPORT: June 1982.

Suez Canal – Northbound.

Vessel was 8th in convoy and joined convoy at about 0600 hrs. On arrival Suez contact Suez Agent on VHF Channel 6 or 13. When Northbound and messages are sent to Agents at Port Said we found it was necessary to repeat the messages to Agents at Suez otherwise you do not receive any advance information. The Port Said Agents pass the messages to Suez Agents but Suez Agents do not repeat to the ship.

We transited with experimental loaded draft of 46 ft., plus one tug escort. The tug changes twice during transit so have altogether 3 tugs during transit. If the Pilot gives a bad report about the vessel then SCA will assign 2 tugs, one ahead and one astern.

According to the Pilots, maximum permissible draft is either 50 ft. or 52 ft.

We were clear of Canal about 1730 hrs. and full away 1 hour later.

In the Gulf of Suez there are now drilling rigs in the traffic lanes but they give out good and regular navigational warnings.

SHIPMASTER'S REPORT: October 1983.

Anchorages: Northbound:

Anchorage area for Northbound VLCCs, 3rd generation container ships and vessels over 38 ft. draft is rarely used as Agents are understandably reluctant to board vessel there.

To ensure prompt transit vessel should anchor in the Northern waiting area. However, it would be prudent for deep draft ships arriving after midnight to anchor in the deep draft area and move to the Northern anchorage around 0800 hrs.

SHIPMASTER'S REPORT: July 1984.

ETAs and information on ship's data were sent after departure Jeddah as per Shipmaster's Reports No. 1 and 2 to both Agents "Assiuship Suez" and Port Authorities Suez and updated at entering Gubal Straits. First VHF contact was made by Chabana Shipchandlers who called us and relayed our message in Arabic to the Port Authorities. Pilot station called vessel only after having anchored at the outer waiting anchorage to tell us that we were anchored in a wrong position while at least 12 other ships were anchored in the prohibited anchorage area. However, the pilot station did not come back so the vessel stayed anchored where she was. When vessel approached the waiting area several heavily manned and well equipped business motorboats approached and besieged the ship and could only be stopped from entering the ship by placing seamen along the ship's rail. I knew these businessmen from years ago but they seemed to have become more aggressive by trying to enter the ships and they even followed the ship to the inner anchorage which they had never done before. The Pilot boarded the ship at very short notice and brought her inside. Clearing by Agent and Immigration was as usual, the only difference I noted was that the logbook did not have to be handed to be checked ashore. The next morning (Friday!) vessels were not called as usual to receive their number and Pilot boarding time. The Pilot suddenly came on board without any notice and therefore it is wise to have the engine standing by all the time while expecting to join the convoy. Suez Canal passage was as usual and vessel left the Canal through the new channel.

SHIPMASTER'S REPORT: August 1984.

Egypt maintains Summer Time of GMT plus 3 hours from 1st March to 1st October.

Vessel transited Canal Northbound. At the time of the Pilot boarding at Suez the Canal boat had not yet arrived although the boatmen were on board. The Pilot on being informed, contacted the Port Control and then asked if vessel would agree to using a lifeboat if the need arose. This was agreed and vessel transited Canal.

Suez offices to be contacted via Alexandria or Port Said Radio around the clock.

TRANSIT SERVICE: Gulf Agency Company operate a Suez Canal Transit Service the purpose of which is to assist Owners and Shipmasters with the numerous formalities applicable to transit of the Canal including supervising the pre-payment of Canal Dues and ensuring no delay in entering or clearing the Canal. Full details of the service are obtainable from Gulf Agency Co. (Greece) Ltd., P.O.B. 17071, Kolonaki, 10024 Athens, Greece. Telex: 216344, 218687, 214548.

SUEZ CANAL – RULES OF NAVIGATION*

Part I Navigation
Part II Canal and Lakes (Characteristics)
Part III Communications – Signals

*Not all the Rules of Navigation are printed herein. Part IV is concerned with tonnage and dues and the Appendix with carriage of dangerous goods.

GENERAL

Article 1: Transit Through the Suez Canal

(a) Transit through the Suez Canal is open to vessels of all nations, subject to their complying with the conditions stated in the present Rules of Navigation and all the references and circulars which shall be issued by the Suez Canal Authority. They will constitute an integral part of these rules, and the provisions of the International Regulation for Safety Of Life At Sea, and its amendments, as well as the provisions of the International Regulations for Preventing Collision at Sea, and all laws, orders and regulations issued by the A.R.E. Government.

However, the Suez Canal Authority reserves the right to refuse access to the Canal Waters, or order the towage or convoying of vessels considered dangerous or troublesome to navigation in the Canal. Non or erroneous declaration of dangerous cargo (see "Article 47 Bis").

(b) By the sole fact of using the Canal Waters, Masters and Owners of vessels bind themselves to accept all the conditions of the present Rules of Navigation, with which they acknowledge being well acquainted, to conform with these conditions in every respect, to comply with any requisition made with a view to their being duly carried out, and to adhere to the Canal Authority's private Code of Signals as shown in Part III of these Rules.

Article 2: Agents

Every vessel other than warships intending to transit the Suez Canal or staying at Port Said or Port of Suez, or in the Suez Canal Basins or docks must have a recognised Shipping Agent.

The Egyptian Authorities are to be notified of intended transit of warships in the Suez Canal : *Viz* : Ministry of Foreign Affairs, Ministry of Defence as well as Ports and Lights Administration.

Article 3: Canal Waters (Definition)

Canal Waters mean the Canal proper, and the access channels thereto,[1] the waters within the Canal Authority's Concession adjacent to the Canal proper and Port Said Harbour and Port of Suez.

The Canal proper, as to its length, is reckoned to run from Km. 3.710 West Branch for vessels entering from Port Said Harbour and from Km. 1.333 East Branch for vessels entering through the East Approach Channel, to Hm. 3 at Suez, including the 2 channels of the Great Bitter Lake and all Canal by-passes.

As to its width the Canal is bounded by the banks when they are above water; when the banks are submerged, the width of the Canal is limited to the perpendiculars at the point of intersection of the submarine bank with the horizontal plane corresponding to the max. draft authorised including squat.

Article 4: Responsibilities

When in Canal Waters, the Owners and/or Operators of any vessel or floating structure of any description are responsible for any damage and consequential loss it may cause either directly or indirectly to the Canal Authority properties or personnel without option for the Owners and/or Operators to release themselves from responsibility by purely and simply abandoning the vessel, floating structure or wreck.

The words "Owners and/or Operators" for the purpose of the present article, shall be construed to mean person, persons or corporate body responsible for the vessel at the time of the navigational accident or incident.

Moreover, the vessel guarantees to indemnify the Canal Authority in respect of any claim against the latter by reason of any damage whatsoever she may cause either directly or indirectly to third parties.

The vessel waives the right to claim against the Suez Canal Authority for any damages caused by third parties that she may sustain while in Canal Waters.

Vessels carrying petroleum or dangerous cargo must comply with these regulations and also with the Appendix to the Rules of Navigation for vessels carrying dangerous cargo.

Article 5: Temporary Delaying of Vessels

The Canal Authority may delay a vessel for the purpose of investigating any claim or dispute that may arise, or any formal or informal complaint, or allegation of violation of the laws of the Canal.

A vessel may be delayed until in the opinion of the Canal Authority, its tenderness, trim, list, cargo, hull, machinery have been put into such condition as will make the vessel reasonably safe for her passage through the Canal.

No claim for damages is accepted or considered because of any such temporary delaying of vessels.

Article 6: Pilotage

Pilotage is compulsory for all vessels whatever their tonnage,[2] when entering, leaving, moving, changing berth or shifting in Canal Waters or Port Said and Port of Suez harbours.

Any exemption must be explicitly authorised by the Suez Canal Authority (See Art. 11(e)).

Article 7: Changing Berth in Road Anchorages

Vessels in Port Said Anchorages Area (Northern and Southern Anchorages), Suez VLCCs and 3rd generation container ships Anchorage, Suez Roads, the Bitter Lakes or Timsah Lake are not authorised to change berth or anchorage without explicit authorisation from the Suez Canal Authority.

---

[1] Port Said Eastern and Western Entrance channels, Suez Entrance channel which includes the Port of Suez Eastern channel leading to the Canal entrance.

[2] Except Egyptian vessels under 300 Tons Suez Canal Gross Tons authorised to work in Canal Port and Accesses and Egyptian fishing vessels under 300 tons S.C.G.T. This does not apply for the Canal proper.

PART I – NAVIGATION

CHAPTER I: SUEZ CANAL FEATURES

SECTION I: Approaches

Article 8: Port Said (See Plan Book)

Ten miles before arrival to Approach Buoy,(3-1)(3-2)(4) all vessels arriving from seaward should contact the Suez Canal Harbour Office by VHF (Channel 16). If not able to, by R/T (2182 kHz) or by W/T via S.U.Q. for instructions (see Part III Articles 87 and 88).

Approach Buoy: Position: Lat. 31° 25′ 30″ N., Long. 32° 22′ 00″ E. Height 10 m., black and yellow horizontal bands.

Daymark: 2 black cones points in.

At Night: Group flashing white light (9) every 13 seconds.

Fitted with a Racon and fog horn.(5)

(3-1) See Plan Book.

(3-2) For the safety of navigation at Port Said Approaches it is recommended to all vessels arriving from sea to avoid entering Port Said Anchorage Areas during the movement of vessels leaving Port Said Anchorage Areas to enter Port Said Harbour or Canal (from about 0100 hrs. to 0500 hrs.), and that until the said movement has ended.

Vessels are to contact Port Said pilot boat for information.

(4) All buoys in the Canal and access channels may be replaced temporarily by others of smaller size.

(5) Not fitted at time of printing.

(A) ANCHORAGE AREAS(6): The incoming vessels have two anchorages.

(1) The Northern Area

(i) For VLCCs, and vessels over 38 ft. draft.

(ii) The area is limited as follows:

North Limit Latitude	31° 25′ 00″ North
South Limit Latitude	31° 23′ 12″ North
East Limit Longitude	32° 20′ 30″ East
West Limit Longitude	32° 16′ 00″ East

(6) All vessels arriving from sea have to anchor in the berth allocated to them by the Suez Canal Port Authority.

(iii) V Berths: Centre of Circle (radius 750 m.)

Berth	*Latitude*	*Longitude*
V1	31° 23′ 42″ North	32° 19′ 30″ East
V2	31° 24′ 30″ North	32° 19′ 30″ East
V3	31° 23′ 42″ North	32° 18′ 30″ East
V4	31° 24′ 30″ North	32° 18′ 30″ East
V5	31° 23′ 42″ North	32° 17′ 30″ East
V6	31° 24′ 30″ North	32° 17′ 30″ East
V7	31° 23′ 42″ North	32° 16′ 30″ East
V8	31° 24′ 30″ North	32° 16′ 30″ East

(iv) Vessels at anchor in this area when entering the Canal (East Channel) will proceed between the East and West Buoys at Hm. 135.(7)

At. Hm. 150 (East) a buoy is fixed to be used as a lead when approaching the 2 Entrance Buoys of Hm. 135 (course 194°).

Hm. 150 Buoy: Red Can shape. Red St. Andrew's Cross. At Night: Occulting red (1) every 4 seconds.

Hm. 135 Buoys: West: Black Cone shape. At Night: Quick flashing green light. East: Red Can shape. At Night: Quick flashing red light.

(7) All the buoys in the Suez Canal and its approaches are fitted with Radar Reflectors.

(2) The Southern Area

(i) For all other vessels(8) (maximum draft 38 ft.)

(ii) The area is limited as follows:

North Limit Latitude	31° 23′ 03″ North
South Limit Latitude	31° 21′ 15″ North
East Limit Longitude	32° 20′ 30″ East
West Limit Longitude	32° 16′ 42″ East

(8) If number of ships exceeds 12, they are to anchor N.W. of Middle Buoy indicating the West Limit of the Anchorage Area.

(iii) C Berths: Centre of Circle (radius 500 m.)

Berth	*Latitude*	*Longitude*
C1	31° 21′ 30″ North	32° 20′ 06″ East
C2	31° 22′ 06″ North	32° 20′ 06″ East
C3	31° 22′ 42″ North	32° 20′ 06″ East
C4	31° 21′ 30″ North	32° 19′ 24″ East
C5	31° 22′ 06″ North	32° 19′ 24″ East
C6	31° 22′ 42″ North	32° 19′ 24″ East
C7	31° 21′ 30″ North	32° 18′ 42″ East
C8	31° 22′ 06″ North	32° 18′ 42″ East
C9	31° 22′ 42″ North	32° 18′ 42″ East
C10	31° 21′ 30″ North	32° 18′ 00″ East
C11	31° 22′ 06″ North	32° 18′ 00″ East
C12	31° 22′ 42″ North	32° 18′ 00″ East
C13	31° 21′ 30″ North	32° 17′ 18″ East
C14	31° 22′ 06″ North	32° 17′ 18″ East
C15	31° 22′ 42″ North	32° 17′ 18″ East

N.B. North, Middle and South Buoys of West Limit Port Said Anchorage area are cancelled – to be deleted in:

Admiralty Chart No. 234.

(iv) Vessels at anchor in this area will enter the port of Port Said through the West Approach Channel as follows:

(a) Take on their starboard: Fairway, No. 8, No. 7 and No. 6 Buoys.

(b) On the port are 3 yellow buoys showing yellow lights.

(c) On reaching No. 5 pair of buoys at Hm. 80 showing occ. green and red, one every 4 seconds, they will proceed through the Old Channel to port (course 217.5°).

(3) West Limit Buoys of Anchorage Areas North of Port Said (See Plan Book).

The West Limit of the 2 Anchorage Areas is marked by 3 black buoys as follows:

(a) Northern Buoy with a black ball day mark and showing white isophase by night (3 seconds). Lat. 31° 25′ 18″ N., Long. 32° 17′ 20″ E.

(b) Middle Buoy on the extreme West of the line separating the anchorage berthing areas showing occulting white (1) every 3 seconds. Lat. 31° 22′ 48″ N., Long. 32° 17′ 20″ E.

(c) Southern Buoy with 2 cones, points up, as day mark and showing quick flashing white. Lat. 31° 21′ 04″ N., Long. 32° 17′ 20″ E.

(4) Prohibited Area for Anchorage

The area between the East limit of the 2 anchorage areas and the approach channels is prohibited for anchorage to all vessels and floating units.

(B) DANGEROUS AREAS

(1) Wreck. A wreck buoy is situated on the Western side of a sunken ship at Hm. 195 West of the approach channel:

Lat. 31° 25′ 19″ North Long. 32° 23′ 00″ East.

Height 5 m., painted black and red horizontal bands, with day mark 2 black balls. Showing group flashing white (2) every 10 seconds. (See Plan Book).

(2) Dumping Areas. The hopper dredgers, dredge underway for several months every year in the entrance channels and dump in the following areas.

3,140 m. East of the axis of the East channel at Hm. 140.

Lat. 31° 20′ 48″ North Long. 32° 25′ 48″ East.

4,000 m. East of the axis of the East channel at Hm. 80 approximately.

Lat. 31° 18′ 42″ North Long. 32° 24′ 42″ East.

(C) PORT SAID APPROACH CHANNELS

(1) Buoyage (See Plan Book – "Suez Canal North Entrance").

The Port Said West approach channel extends from the port of Port Said till Hm. 80 where it joins the East approach channel.

The Port Said East approach channel extends from the land boundary, East of Port Said, till Hm. 195.

The 2 channels are marked, on each side, by light buoys of 5 m. height. The light is red on the Eastern side and green on the Western.

(a) East Approach Channel (See Plan Book).

The buoys of the East Approach Channel are black cone shaped in the West and red can shaped in the East, showing by night flashing lights, except: the 2 buoys indicating the Northern end of the channel, at Hm. 195, are Isophase (2 secs. on, 2 secs. off). The distance between them is 745 m.

(b) Junction of East and West Approach Channels

Three yellow buoys mark the junction of the East and West approach channels. They are placed at Hm. 83, Hm. 95 and Hm. 105.

Buoy at Hm. 83: Yellow in colour, is fitted with a yellow St. Andrew's cross day mark and shows by night group flashing yellow (5) every 20 seconds.

Buoy at Hm. 95: Yellow in colour, shows a fixed yellow light.

Buoy at Hm. 105: Yellow in colour, is fitted with a yellow St. Andrew's cross day mark and shows by night group flashing yellow (4) every 15 seconds.

(c) West Approach Channel

The buoyage of the West approach channel of Port Said harbour, is as follows:

(i) Port Said Fairway Buoy (See Plan Book).

Off Port Said, a fairway light buoy, height 10 m., painted black with yellow vertical stripes, surmounted by a day mark 2 cones point out, and showing group flashing white light (3) every 10 seconds.

Lat. 31° 21′ 18″ North Long. 32° 20′ 42″ East.

(ii) The buoys of the West approach channel are black cone shaped in the West and red can shaped in the East and show fixed lights, except the Northern buoy on the West side of the channel which shows occ. green (1) every 4 seconds (Buoy No. 5 of Hm. 80).

(2) Navigation

(a) Northbound Vessels: (i) All Northbound vessels use the East Approach Channel. The end of the navigable channel is the pair of buoys at Hm. 195. (course 014°). From Hm. 195, vessels are to steer North (000°) for 5 miles before altering course.

(ii) Vessels leaving Port Said harbour to sea, use the West Approach Channel (course 037.5°) till Hm. 80 where it joins the East Approach Channel (course 014°) till Hm. 195. From Hm. 195, vessels are to steer North (000°) for 5 miles before altering course.

(iii) Vessels of the Northbound convoys wishing to enter Port Said Harbour shall proceed through the East Approach Channel till Hm. 195, then steer North (000°) for 5 miles and then steer for the berth allocated by the Harbour Office.(9)

(9) This is to avoid crossing incoming vessels to the Northern Anchorage Area.

(b) Southbound Vessels: The maximum draft authorised for Southbound vessels is limited to 40 ft.(10) in accordance with the tables giving the maximum draft according to the vessel's breadth.

(10) Maximum draft will be increased to 42 ft. on further notice.

(i) VLCCs, in ballast or partially loaded, 3rd generation container ships and vessels having a draft of more than 38 ft. and up to 40 ft.(11) maximum, have to use the East Approach Channel (course 194°).

The said vessels enter the channel between flashing green buoys of Hm. 165 and Hm. 135.

(11) Maximum draft will be increased to 42 ft. on further notice.

(ii) All other vessels, either transiting the Canal or berthing at Port Said, have to enter through the West Approach Channel (course 188°) from the entrance, passing between the West green buoys and the East yellow buoys till Hm. 80, then *alter course* to 217.5° passing between green and red buoys, till Port Said Harbour.

(D) BREAKWATERS:

(1) The breakwater protecting the West Approach Channel is situated to the West of the channel and extends from land boundary till Hm. 73 with a submerged part from Hm. 50. This part is marked by cigar shaped unlit buoys.

(2) Two breakwaters protect the East Approach Channel. The Eastern extends 2 km. from the land boundary; the Western, 0.5 km.

Each breakwater has a small fixed white light on its end.

Article 9: Suez (See Plan Book)

Five miles before arrival at the First Separation Zone Buoy, all vessels coming from sea should contact the Suez Canal Harbour Office by VHF Channel 16. If not able to, contact by R/T (2,182 kHz) or by W/T via S.U.Q. for instructions. (See Part III, Articles 87 and 88).

(A) Separation Zone

A Separation Zone has been established. It is a rectangular area extending 0.3 miles on each side of the line connecting the two Separation Buoys mentioned hereafter. All vessels arriving or leaving have to pass the Separation Zone Buoys(12) on their Port side.

Separation Zone Buoy No. 1 (Southern Buoy):
Lat. 29° 39′ 36″ North Long. 32° 32′ 00″ East

Height 5 m., yellow in colour with a yellow St. Andrew's Cross daymark and a fog horn. Showing flashing yellow light (1) every 2 seconds.

Separation Zone Buoy No. 2 (Northern Buoy):
Lat. 29° 48′ 27″ North Long. 32° 32′ 03″ East

Height 5 m., yellow in colour with a yellow St. Andrew's Cross daymark. Showing group flashing yellow light (4) every 15 seconds.

(B) Anchorage Area for Northbound VLCCs, 3rd Generation Container Ships, and Vessels Over 38 ft. Draft

This Anchorage Area is indicated by the following buoys:

(1) South Shoal Buoy:
Lat. 29° 38′ 48″ North Long. 32° 35′ 54″ East

Black, cone shaped, showing a green isophase light, (2 seconds ON – 2 seconds OFF); fitted with a 12 mile Racon. (Not fitted at time of printing).

(2) Buoy "K":
Lat. 29° 41′ 12″ North Long. 32° 38′ 42″ East

Black, cone shaped, showing a fixed green light.

(3) Buoy "L":
Lat. 29° 45′ 00″ North Long. 32° 38′ 42″ East

Height 5 m., black, cone shaped and showing a flashing green light.

(4) Conry Rock Buoy:
Lat. 29° 48′ 18″ North Long. 32° 34′ 09″ East

Height 5 m., black, cone shaped, and showing group flashing green light (2) every 7 seconds; fitted with a 5 mile Racon. (Not fitted at time of printing).

(i) V Berths: Centre of Circle (0.41 nautical miles)

Berth	*Latitude*	*Longitude*
V1	29° 46′ 30″ North	32° 35′ 00″ East
V2	29° 45′ 30″ North	32° 35′ 00″ East
V3	29° 45′ 30″ North	32° 36′ 00″ East
V4	29° 45′ 00″ North	32° 37′ 00″ East
V5	29° 44′ 30″ North	32° 36′ 00″ East
V6	29° 44′ 30″ North	32° 35′ 00″ East
V7	29° 44′ 00″ North	32° 37′ 00″ East
V8	29° 43′ 30″ North	32° 36′ 00″ East
V9	29° 43′ 30″ North	32° 35′ 00″ East

(C) Waiting Area for other Northbound Vessels

The area bounded by:

Conry Rock Buoy	Lat. 29° 48′ 18″ North	Long. 32° 34′ 09.0″ East
Buoy (M)	Lat. 29° 50′ 00″ North	Long. 32° 35′ 18.0″ East
Buoy (N)	Lat. 29° 50′ 39″ North	Long. 32° 35′ 18.0″ East
Spherical Buoy (D)	Lat. 29° 51′ 20″ North	Long. 32° 35′ 18.0″ East
Spherical Buoy (C)	Lat. 29° 52′ 00″ North	Long. 32° 35′ 18.0″ East
Spherical Buoy (B)	Lat. 29° 52′ 08″ North	Long. 32° 34′ 34.0″ East
Spherical Buoy (A)	Lat. 29° 52′ 15″ North	Long. 32° 33′ 51.0″ East
Buoy Hm. 60.00 E	Lat. 29° 52′ 22″ North	Long. 32° 33′ 07.5″ East
Buoy Hm. 70.50 E	Lat. 29° 51′ 48″ North	Long. 32° 33′ 13.0″ East
Buoy Hm. 80.50 E	Lat. 29° 51′ 16″ North	Long. 32° 33′ 17.0″ East
Position (R)	Lat. 29° 48′ 36″ North	Long. 32° 33′ 12.0″ East

Vessels coming from South have to pass East of the Buoy No. 2 and anchor in the Waiting Area.

Those leaving for sea (coming from North) have to pass West of Buoy No. 2 in position:
Latitude: 29° 48′ 27″ North Longitude: 32° 32′ 03″ East

(D) – Arrival to Suez of Northbound Vessels

Vessels coming from South have to pass East of the Buoy No. 2 and anchor in the Waiting Area. Those leaving for Sea (Coming from North) have to pass West of Buoy No. 2 in position: Lat. 29° 48′ 36″ N., Long. 32° 32′ 00″ East.

(E) – Prohibited Area for Anchorage. The area bounded by:

	Latitude	Longitude
Hm. 80.5 E.	29° 51′ 16″ North	32° 33′ 17″ East
Hm. 80.5 W.	29° 51′ 15″ North	32° 33′ 06″ East
Position (P)	29° 48′ 36″ North	32° 30′ 54″ East
Position (R)	29° 48′ 36″ North	32° 33′ 12″ East

is strictly prohibited for anchorage for all ships.

All ships have to comply with above instructions, until further notice.

(F) – Suez Entrance Channel

(Including the Eastern Channel leading to the Canal Entrance).

This channel is used for vessels entering or leaving Suez Canal and also by those entering Port of Suez and using its anchorages (13).

Buoyage of Suez Entrance Channel.

This channel is buoyed as follows:

(1) A pair of light buoys at Hm. 80.5 (entrance buoys):

(i) The Eastern Buoy, height 5 m., black, cone shaped and showing a green occulting light (1) every 4 seconds.

(ii) The Western Buoy, height 5 m., red, can shaped and showing an occulting red light (1) every 4 seconds.

The distance between the Eastern and Western Buoys is 340 m.

(2) Proceeding Northward, the channel is marked on both sides by light buoys, height 5 m.

(i) On the Eastern side of the channel, the buoys are black, cone shaped and show a flashing green light.

They are placed as follows:
Hm. 70.50
Hm. 60.00
Hm. 44.40
Hm. 19.00
Hm. 10.00

(ii) On the Western side, the buoys are red, can shaped and show a flashing red light.

They are placed as follows:
Hm. 70.50
Hm. 60.00
Hm. 44.40
Hm. 21.00
Hm. 17.20

Course: From the entrance buoys (Hm. 80.50) (New Port Rock Channel) to the green light buoy of Hm. 19.00.
Northbound: 352.5°
Southbound: 172.5°

(G) – Canal South Entrance

The Canal South entrance is marked by 2 light buoys, height 7 m.

(1) The Eastern at Hm. 3.00 is black, cone shaped and showing occulting green light (1) every 4 seconds.

(2) The Western at Hm. 1.00 is red, can shaped and showing occulting red light (1) every 4 seconds.

(H) Port of Suez: Port of Suez is delimited by the imaginary line which extends from Ras Adabya to Eyoun Moussa and comprises the coastal zone North of this line, up to Suez Canal entrance.

(1) Navigation

(a) General Rules:

(i) All vessels shall conform to the International Regulations for preventing Collision at Sea.

(ii) Navigation in the port is limited to approved channels only.

(iii) Crossing or overtaking in the channels is strictly forbidden.

(iv) Vessels must proceed in the port with caution and at reduced speed.

(v) Vessels must not let go their anchors except in the anchorage.

(b) Traffic Regulation:

(i) Vessels entering the port from sea and vessels leaving the port for sea.

These movements shall be effected through the Western channel, except for vessels to which the following anchorages have been allocated: 1C – 2C – 3C – 4C – 5C. They should use the Eastern channel.

(ii) Vessels entering the Canal from the Port, the Zone N.W. of Green Island, anchorages 8C to 16C and anchorage groups A and B shall pass through the Western channel, then South of Green Island to join the Eastern channel and then proceed to the entrance of the Canal.

Vessels entering the Canal from the Zone N.E. of Green Island and Anchorages 1C to 7C shall proceed directly from their anchorages to the entrance of the Canal.

If the number of vessels exceeds the number of anchorages, vessels in excess shall anchor South of the Western channel, parallel to anchorages 2A, 4A, 6A, 4B and 7B, making sure to leave the Western channel clear for navigation at all times.

Vessels entering the Canal from the Zone South of Green Island and anchorages 1D to 6D shall proceed directly from their anchorages to the entrance of the Canal; or if leaving for sea, shall use the Eastern Channel.

(iii) Vessels coming from the Canal shall proceed to sea through the Eastern Channel. If anchoring in the Zone N.W. of Green Island or anchorages 8C to 16C and anchorage groups A and B, shall proceed through the Eastern Channel, then the Western Channel, until reaching the designated anchorage. If anchoring in the Zone N.E. of Green Island or anchorages 1C to 7C, they shall proceed directly from the Canal to the designated anchorage.

(c) Priority of Movement in the port:

Priority of movement in the port shall be as follows:

(i) Vessels coming out of the Canal.

(ii) Vessels proceeding to the Canal.

(iii) Vessels coming from sea must wait outside the port until the Eastern channel is clear.

(iv) Vessels leaving the anchorages of the Port of Suez.

(v) Vessels coming out of the Basins (Ibrahim Basin – Adabeya – Petroleum Basin).

(vi) Vessels using the New Petroleum Jetty.

(d) Priority of Passage in the Eastern Channel:

Vessels leaving:

(i) The Canal.

(ii) Anchorages of Port of Suez, and proceeding Southward to sea, have to pass through the Eastern channel.

Ships approaching Port of Suez from seaward should wait outside until the channel is clear.

(e) Prohibited Area:

The area enclosed by the pecked line drawn from (a) to (b) to (c) to (d) to (e) and thence to (a), as mentioned below, is dangerous to navigation:

(a) 151.0° – 17.3 cables from Green Island Light
(b) 223.0° – 20.1 „ „ „ „ „
(c) 210.0° – 28.3 „ „ „ „ „
(d) 160.5° – 26 „ „ „ „ „

Buoys:
Buoy 1A 309.0° – 6.0 cables from Newport Rock Light
Buoy 2A 281.5° – 20.9 „ „ „ „ „
Buoy 3A 278.5° – 26.9 „ „ „ „ „

These buoys show flashing red light (1) every 5 seconds.

(12) See Plan Book.

(13) The max. draft authorised for vessels using Ibrahim Basin, the Petroleum Basin or El Adabya must not exceed 26 ft. at HW.

(2) Buoyage of Port of Suez:

Position of Green Island Light: Lat. 29° 54′ 39″ North, Long. 32° 31′ 48″ East.

(a) Eastern Channel (East of Green Island) is limited by the following buoys:

(i) In the East:

Buoy	*From Green Island Light*	*Distance (m.)*
Hm. 3.00 East	057.5°	2620
Hm. 10.00 East	070°	2030
Hm. 19.00 East	095°	1590
Hm. 44.40 East	144°	3250
Hm. 60.00 East	153°	4695
Hm. 70.50 East	164°	5720
Hm. 80.50 East	159°	6695

(ii) In the West:

Buoy	*From Green Island Light*	*Distance (m.)*
Hm. 1.00 West	049°	2560
Hm. 17.20 West	081°	1360
Hm. 21.00 West	117°	1320
Hm. 44.40 West	150°	3110
Hm. 60.00 West	157°	3580
Hm. 70.50 West	160°	5630
Hm. 80.50 West	162°	6630

(b) Shallow water in the Green Island Zone is limited as follows:

North Buoy bearing 000° at a distance of 1,490 m. from Green Island Light, showing flashing green light (1) every 2 seconds.

Red Buoy of Hm. 17.20.

Red Buoy of Hm. 21.00.

South-West Buoy bearing 239.5° at a distance of 780 m. from Green Island Light, showing group flashing green (3) every 7 seconds.

West Buoy bearing 308° at a distance of 820 m. from Green Island Light, showing group flashing green (2) every 5 seconds.

Oil Jetty quick flashing white light.

(3) Anchorages of Port of Suez:

Anchorage	*Bearing of Green Island Light*	*Distance from Green Island Light (cables)*
(a) Group "A":		
1A	308.0°	6.1
2A	333.0°	7.2
3A	334.5°	4.2
4A	358.0°	6.4
5A	018.0°	3.9
6A	023.0°	7.1
7A	048.0°	5.8
8A	041.5°	8.9
9A	061.5°	8.2
10A	083.0°	7.2
(b) Group "B":		
1B	101.5°	14.4
2B	092.5°	12.1
3B	078.0°	12.4
4B	064.0°	13.9
5B	090.0°	15.2
6B	098.0°	17.25
7B	071.5°	17.2
8B	095.0°	20.2
9B	086.0°	20.3
10B	079.5°	15.1
11B	089.5°	17.9
12B	090.5°	22.2
13B	078.0°	19.3
(c) Group "C":		
1C	220.0°	11.8
2C	208.5°	11.5
3C	187.5°	11.2
4C	235.0°	8.5
5C	214.5°	8.1
6C	170.5°	9.4
7C	161.0°	10.6
8C	158.0°	8.55
9C	142.0°	9.3
10C	143.0°	12.3
11C	133.5°	12.0
12C	144.0°	6.58
13C	121.5°	6.5
14C	104.0°	6.7
15C	097.0°	4.7
16C	073.5°	4.8
(d) Group "D": (Not to be used until further notice).		
1D	346.0°	12.9
2D	004.0°	12.6
3D	021.0°	13.4
4D	035.0°	14.5
5D	041.0°	16.7
6D	047.0°	18.4
(e) Group "H":		
1H	298.0°	12.0
2H	308.0°	14.3
(f) Adabeya Anchorage:		
1	059.0°	28.3
2	054.0°	28.8

(4) In Bad Weather When Harbour is Closed:

(a) Vessels coming from sea:

It is recommended not to enter the Port of Suez when it is closed by foul weather which prevents the Pilots from boarding the vessels.

However, any vessel who would like to enter on her own responsibility will have to contact the Suez Canal Authority wireless station (SUQ) and ask permission for doing so, giving her draft and length in feet, by the following cable:

"I wish to enter Suez Anchorage on my own responsibility. Length...........................ft. Draft.................................ft."

If permission is granted, the Master will receive the following cable:

"Port is closed. Entering on your own responsibility. Available Anchorage ...."

(b) Vessels coming out from the Suez Canal:

In case when the embarkation of the Road Pilot is not possible the following cable will be sent to the ship:

"Owing to bad weather Road Pilot will not board your ship".

The following will be added in case the vessel would ask for an anchorage:

"Available Anchorage..............................."

(c) Vessels anchored in the Port of Suez leaving for sea:

Vessels who would like to sail on their own responsibility, will have to hoist the signal for Pilot, send the following cable to SUQ and wait for orders:

"I wish to go to sea on my own responsibility. Please confirm".

They may proceed if they receive the cable:

"You may proceed to sea on your own responsibility".

Article 10: Roads and Harbour Pilot Signals:

Vessels requiring a Pilot for:

(a) Entering from sea

(b) Sailing out to sea

(c) Changing berth

(d) Entering the Canal

should hoist a black ball over G by day and 3 white lights by night in a vertical line. These signals are to be hoisted where can best be seen.

SECTION II

Article 11: Pilotage:

(A) Pilotage is compulsory in Canal waters.

All vessels [14] entering or leaving Canal waters, must take a Pilot.

However, the Suez Canal Authority reserves the right to put on board vessels under 1,500 tons gross a tug Master and under 800 tons gross a patron conducteur, instead of a Pilot.

Men of war and any vessel carrying dangerous cargo must have a Pilot regardless of their tonnage.

Roads Pilots, on boarding vessels arriving from sea, hand over to the Master the present Rules, the Declaration of State of Navigability and the Pilotage Form.

[14] See footnote as attached to Article 6.

(B) Port Said:

VLCCs, 3rd generation containers, and vessels over 38 ft. draft are piloted from Northern anchorage area for Canal transit through the East Approach channel. Other vessels, either for local trade or intending to transit the Canal, are piloted from Fairway Buoy to berths in the harbour through the West channel. Vessels are piloted between Port Said harbour and Port of Suez by Canal Pilots who are relieved at Ismailia. Northbound vessels either through East or West Branches are piloted till Hm. 80.00.

(C) Port of Suez:

VLCCs, large bulk carriers, 3rd generation containers, and vessels over 38 ft. draft are piloted from anchorage area South of Conry Rock for Canal transit. Other vessels are piloted from waiting area to anchorage area in the Port of Suez. These vessels are also piloted from Port of Suez by Canal Pilots who are relieved at Ismailia. Southbound convoy and vessels in Port of Suez Anchorages sailing South are piloted to Hm. 80.50. Pending Master's request, piloting may end at Hm. 44.4 (Newport Rock).

Vessels have to maintain course through the channel till the last pair of buoys keeping the separation zone on the port side.

(D) Master and Pilot:

(1) Master:

When a vessel is transiting the Canal, the Master or his qualified representative should be present at all times on the bridge; he has to keep the Pilot informed concerning any individual peculiarities in the handling of the vessel so that the Pilot might be in a position to give better advice to control the navigation and movement of the vessel.

(2) Pilot:

The duties of Pilots commence and cease at the entrance buoys of Port Said and Port of Suez. He only gives advice on manoeuvring the vessel, courses to steer, etc. He puts at the disposal of the Master his experience and practical knowledge of the Canal, but as he cannot know the defects or difficulties of manoeuvring every vessel, the responsibility falls completely upon the Master. The Pilot has to ensure the execution by the vessel of:

(a) The Articles of Rules of Navigation.

(b) The orders of transit given by Movement Control.

The manoeuvre and orders are carried out under the direction of the Master who is solely responsible.

It is therefore for the Master, taking into account the indications given by the Pilot, to give the necessary orders to the helm, to the engines, and tugs. If, in the interest of quick manoeuvres the Master thinks it preferable to allow the Pilot to give orders direct, manoeuvres carried out in these circumstances shall be considered as having been carried out on the order of the Master and on his sole responsibility.

Masters are held solely responsible for all damage or accidents of whatever kind resulting from the navigating or handling of their vessels directly or indirectly by day or night.

(3) The Pilot must inform the Movement Control Office or the Port officials immediately by WT and/or VHF or UHF if their advice and/or their orders, regarding the safety of navigation are not accepted or respected by the vessel.

The vessel in this case if underway is considered navigating without Pilot and an additional due of 15,000 Egyptian Pounds is charged.

(E) Moving in Suez Canal Waters without Pilot's assistance:

(1) Unless explicitly authorised by the Suez Canal Authority:–

(a) Whenever a vessel moves in Canal Waters or Port Said Harbour without having a Pilot on board she shall be charged an additional due of 15,000 Egyptian Pounds[15].

(b) An additional due of 3,600 Egyptian Pounds shall be charged to vessels moving in Port of Suez Anchorages, or entering or leaving Basins at Port of Suez without having a Pilot on board.

These dispositions do not apply in the event of the Pilot being suddenly unable to carry on with his duties owing to sickness or death, in this case the Master must:

Warn the vessels astern of his intended manoeuvre by means of the visual and sound signals as well as VHF and W/T.

Reduce speed and make fast if in the Canal, or the entrance channels; or anchor if in the Lakes.

The Movement Office at Ismailia is to be informed at all times by UHF and confirmed by W/T.

(2) Exceptions:

In case of bad weather to the extent of not allowing pilotage in Canal Approach channels, Masters will be authorised by notice from the Suez Canal Port Offices, to sail with their vessels on their own responsibility at the following positions:

(a) For Southbound convoy, from Km. 162 to sea.

(b) For Northbound convoy, from Hm. 30 in East Port Said channel Northward.

(c) For vessels leaving Port Said Harbour through West Approach channel, from Hm. 30 Northward.

(d) For vessels anchoring in Port of Suez anchorages wishing to head to sea, also for vessels in Waiting Area wishing to enter Port of Suez anchorage area.

(e) For vessels entering Port Said Harbour either for transiting Canal or for trade, through West Approach channel till Hm. 50 approximately where Roads Pilot will board vessels.

(f) For vessels entering Port Said East Approach channel, between Hm. 165 and Hm. 135 from VLCCs anchorage area to join Southbound convoy, Canal Pilot will board vessels at Km. 0 of East Port Said channel.

(g) For VLCCs and other large vessels joining Northbound convoy from new anchorage area South of Conry Rock, Canal Pilots will board vessels at Km. 161 approximately.

(h) For other vessels joining Northbound convoy from Port of Suez anchorages, Canal Pilots will board vessels at Km. 161 approx.

N.B.: (1) For items c, d, e, f, g and h, the time of proceeding will be fixed by Suez Canal Port Authority.

(2) In all cases advice will be given if necessary by shore radars to vessels[16].

(F) Calling Pilots unnecessarily:

When a vessel signals for Pilot, and it is found when boarding that she is not ready to get underway in the limited time, the vessel is liable to be delayed and Pilot disembarked. The vessel will pay extra pilotage dues for the new Pilot as mentioned before.

(G) Extra Pilots:

(1) Additional Pilots shall be assigned in the following cases:

(a) Vessels over 80,000 SCGT.

(b) Vessels having cargoes or installations impeding visibility from inside the wheelhouse (obstructions to all-round view).

(c) If a Pilot is disembarked and relieved by another Pilot, in case of slow speed vessels, vessels having troubles which prevent continuation of transit with same convoy, or vessels that have to transit by day only.

(d) If vessel has no accommodation for the Pilot to rest while anchored in Bitter Lakes or making fast in mooring places for a long period.

(e) An extra Pilot for assisting the Pilot in charge, may be assigned on Master's request or by the Canal Authority if deemed necessary.

(2) A due of L.E. 200 (200 pounds) for every additional Canal Pilot and L.E. 100 (100 pounds) for every additional Roads Pilot is charged.

CHAPTER II ARRIVAL AND PREPARATION FOR TRANSIT

SECTION I: Pre-Arrival of Vessels

Article 12: Booking for transit

Vessels may book for transiting the Canal. The booking notice shall reach the Suez Canal Authority Offices not later than four days prior to the transit date. It must contain the name, nationality of the vessel, her type (container, Ro-Ro, etc. . . .) her draft, Suez Canal Gross Tonnage and deadweight tonnage.

Vessels booking for fixed date will have priority to catch the convoy on that date, if they arrive within the time limit defined by the present Rules.

Booking can be cancelled or altered by notice to the Suez Canal Authority offices at least 24 hours before the date booked, otherwise the vessel shall be charged 100 (one hundred) Egyptian Pounds.

In case of VLCCs and similar vessels, this charge will be 1,000 (one thousand) Egyptian Pounds on account of the special arrangements made by S.C.A.

Vessels arriving without previous booking will catch the convoy if capacity of movement in the Canal permits, otherwise they may catch the following convoy.

Article 13: Notice of Arrival

Masters of vessels fitted with wireless apparatus are requested to transmit the following information to their Agents, 48 hours prior to the vessel's arrival.

The name and nationality of the vessel, her ex-name if any.

Suez Canal gross tonnage and deadweight tonnage.

Whether they intend transiting or merely stopping in the harbours and, in this case, mention the duration of stay required.

The ETA.

Whether they carry dangerous cargo, stating quantity and class according to IMO's regulations.

Number of crew on board plus number of passengers on board and their nationalities.

Furthermore, upon arrival anchorage areas vessels have to contact the Harbour Office by VHF (Port Said on Channel 9 – Port of Suez on Channel 15) giving full details either for transit or stoppage in harbour.

Vessel carrying dangerous cargo: Advance notice of arrival must reach the Canal Authority Offices at least 48 hours before the vessel's arrival to the Canal entrances'. Masters of vessels carrying dangerous cargo, are required to furnish the Canal Authority with the detailed list of the dangerous goods they have on board, stating quantity and their IMO Classification. Moreover, the Master must inform the S.C.A.office by wireless telegraphy (SUQ) – NOT V.H.F.– of the above mentioned information as soon as possible. Non or erroneous declaration of dangerous cargo (see "Article 47 Bis").

The above mentioned list, sent directly or through the shipping agency, must reach the Suez Canal Authority offices at least 48 hours before the vessel's arrival; failing which the vessel may be subject to delay before being authorised to enter the Canal Waters.

Article 14: Contacting Port Offices on Arrival

(a) Vessels have to contact the harbour office by VHF[17].

(1) Ten miles before arrival at Approach Buoy off Port Said.

(2) Five miles before arrival at separation Zone Buoy No. 1 off Port Suez.

(b) When in touch, give the following information:

(1) Latitude and longitude.
(2) Vessel's name.
(3) Vessel's call sign.
(4) Suez Canal official number, if any.
(5) Suez Canal gross tonnage and deadweight tonnage.
(6) Draft.
(7) Loaded or not.
(8) Kind of cargo.
(9) If transiting the Canal for the first time she has to send[18]:
 (i) Date of building.
  Having Suez Canal Tonnage Certificate or not.
  Date of issue if any.
  Call sign or official number.
 (ii) Length overall.
 (iii) Beam.
 (iv) Type of engines.

This information will assist the Harbour Master to identify the vessel through his radar, acquire and assign her identification "ID" tag which will follow her path until the other end.

(c) If failing to contact by the assigned Channels, Masters may use, with the consent of the Harbour Master through the International R/T (2182 kHz) or SUQ (W/T), any of the following frequencies:

(1) 156.650 (Channel 13) Port Said.
(2) 156.600 (Channel 12) Port Said.
(3) 156.550 (Channel 11) Port of Suez.
(4) 156.700 (Channel 14) Port of Suez.

(d) Any vessel who does not contact the Port offices during her approach is subject to delays in catching the convoys.

(e) When berthing, changing berth or sailing, the Master must handle the mooring ropes by means of ship's boats or mooring boats of a firm approved by the Suez Canal Authority.

Article 15: Documents to be produced

(a) Suez Canal Special Tonnage Certificate.
(b) Certificate of Registry.
(c) Statistical Declaration.
(d) Extract from the vessel's official documents and information concerning the vessel's type and her cargo (containers, barges, etc.).
(e) Declaration concerning the use of double bottom tanks and the lower parts of the high tanks.
(f) Declaration concerning vessels in ballast.
(g) Declaration of State of Navigability (see Art.79).
(h) The last Classification Certificate issued.
(i) Any other information necessary for transiting the Canal.

The Master of a vessel wishing to transit the Canal must register at the Canal Authority offices and pay the various dues.

He must furnish the Canal Authority's officials with all the particulars requested.

The vessel must in addition comply with the requirements of the A.R.E. Government Authorities.

In case the Authority deems it necessary to be supplied with a new Seaworthiness Certificate, the following Classification Societies are recognised to deliver same:

(1) Lloyd's Register of Shipping.
(2) Bureau Veritas Francais.
(3) American Bureau of Shipping.
(4) Registro Navale Italiano.
(5) Germanischer Lloyd.
(6) Norske Veritas.
(7) U.S.S.R. Register.
(8) Nippon Kaiji Kyokai.
(9) Polski Rejestr Statkow.

Notice from Director of Transit: Dated July 1983.

Seaworthiness Certificates are accepted by the Suez Canal Authority in Arabic or English. If written in any other language, it is to be translated in one of these two above mentioned languages and duly certified by the Embassy or Consulate of the Arab Republic of Egypt.

In case of impossibility of obtaining said translation, it may be translated by the Embassy or Consulate to which the vessel belongs, in Egypt.

Failing to do same, a Seaworthiness Certificate is to be obtained locally from one of the recognised Classification Societies in the Canal Zone.

---

[15] Vessels under 300 tons SCGT are subject to Rules of Navigation for small craft.

[16] Vessels in Port Said Anchorage Area (Northern and Southern Anchorages), Suez VLCCs Anchorage and Waiting Area, the Bitter Lakes or Lake Timsah, if changing berth or mooring without explicit authorisation from the Suez Canal Authority, shall be charged an additional due of 3,600 Egyptian Pounds.

[17] Port Said on Channel 16 – Port of Suez on Channel 16.

[18] In all cases the Master must inform whether aiming to transit the Canal or just stay in the harbour.

(A) Warships:

Warships transiting the Suez Canal Waters must be provided with a Suez Canal Special Tonnage Certificate showing the Suez Canal Gross and Net Tonnages.

If such document is not onboard, the Commanding Officer has to give, in writing, the following information:

(1) Name of Ship.
(2) Name of Commanding Officer.
(3) Call sign of the ship (Radio Call).
(4) LOA, beam overall and depth of the ship.

As long as the ship is not provided with the Suez Canal Special Tonnage Certificate, transit dues will be levied on the temporary Gross Tonnage product of the empirical formula without any allowance till the presentation of the documents required.

(B) Erroneous Declarations:

If the Canal Authority Officials discover false information concerning the cargo carried[19] or the ship's situation ballast or loaded, resulting from the shipping clerk's or the Master's negligence, in statistical declarations held, the tolls difference will be doubled.

The tolls difference means the difference between the correct and the wrong amount of transit dues.

[19] e.g. The carriage of sweet water as cargo and declared as ship's water ballast; the omission of declaring the presence or quantity of containers on the weather deck or any cargo onboard, passengers, etc.

Article 16: Stay in the Harbour

(a) The Master is responsible for the mooring of his vessel in Port Said harbour and Port of Suez.

(b) He must pay special attention to the instructions in the following paragraphs.

(c) When the vessel is moored to the buoys, the mooring ropes must be watched to ensure safe mooring. If two vessels are moored to the same buoy, when one leaves, the other must adjust her moorings.

(d) Masters must comply with the Harbour Master's advice regarding mooring ropes during the stay of their vessel in port; especially when, in case of expected bad weather, it is necessary to increase the moorings if required.

(e) When a vessel is moored with her stern to the bank, the Master must keep himself continuously informed of the depth of water aft, to avoid grounding on the submerged slope either as a result of the settling of the vessel as she loads, or her proximity to the bank.

(f) At night, the vessel, whether moored or manoeuvring, must show the lights prescribed by the International Regulations for Preventing Collisions at sea, in addition to the Suez Canal Light Signals.

(g) Unless authorised, barges alongside a vessel must not be more than two abreast.

(h) It is forbidden to try projectors, or to turn the propellers during the process of warming-up, in the absence of the Pilot, or without informing him when onboard.

(i) Vessels must not put their engines out of working order for any reason whatsoever without permission from the Canal Authority.

(j) The Master must always keep onboard sufficient crew to ensure efficient handling of the moorings, fire fighting and damage control.

(k) The Harbour Master or his delegate should have free access onboard to ensure the carrying out of the Regulations, to verify the vessel's seaworthiness, and to ascertain that dangerous cargo onboard complies with the Suez Canal Regulations.

Article 17: Change of Berth

(a) If the Master wishes to change the berth of his vessel, he should notify the Harbour Office stating the desired time when the shift should take place. A tug or more will be imposed to assist in the manoeuvres.

The change of berth will take place at the time fixed by the Harbour Office. A Pilot will be sent to the vessel in due time.

(b) Shifting at the Master's request and the tugs used are charged for as per rates set down by the Suez Canal Authority.

(c) Charges for shifting due to erroneous or incomplete declarations by the Master must also be paid by the vessel.

(d) When necessary, the Harbour Master may order a vessel to shift; when so ordered, it should be made as quickly as possible. In such a case it is free of charge.

SECTION II: Preparations for Transiting the Canal

Article 18: Measures taken before entering the Canal

All vessels ready to enter the Canal must have their ladders and jib-booms run in, their boats swung in and any derricks or cranes obstructing the view forward, lowered.

Article 19: Mooring Ropes

At least 6 flexible floating mooring ropes of appropriate size for the vessel, in good condition, fitted with spliced eyes, must be in readiness for any emergency, at suitable points on deck. All arrangements must be made for their quick handling. For vessels equipped with tension mooring wires the number of floating ropes may be reduced to 4. It is to be noted, however, that any mooring lines, likely to produce sparks by their manipulation are absolutely forbidden on board petroleum tankers, LPG or LNG or any vessel carrying flammable substances.

It is recommended that:

(a) One of the ropes which is selected as "first line ashore" must be of floating material to ensure quick securing to the shore.

(b) Wires should not exceed 5.5 in. circumference to facilitate handling.

(c) All vessels should have:

Two fire ropes (wire) made fast, one forward and one aft, and hung over the vessel's side ready for use in case of emergency.

Article 20: Mooring Boats

(a) Vessels transiting the Canal must have mooring boats as mentioned hereafter hired from a mooring company approved by the Suez Canal Authority. In case no mooring boats from the said company are available, ship's boats if suitable for mooring in the Canal can be used and must be manned by shore crew, hired from the same mooring company. Each boat is to be manned by three men.

(b) One mooring boat or one motor boat for vessels under 2,500 tons gross, SCGT (SCGT = Suez Canal Gross Tonnage).

(c) One mooring boat and one motor boat or two mooring boats for ships from 2,500 to 30,000 tons SCGT.

(d) Two motor boats for vessels over 30,000 tons SCGT.

(e) Ships may ask for additional motor boats or mooring boats according to Master's request. These mooring boats must be in constant readiness for lowering to run the ropes to the mooring posts without any delay during the transit of the vessel. (Vessels contravening (b), (c) and (d) above will not be permitted to transit).

(f) Ships must be fitted with lifting appliances capable of lifting mooring boats of 3 tons weight. Ship's derricks to be 5 ton SWL. (Vessels not having lifting appliances ready will have their transit postponed).

Further to the above concerning the necessity of equipping vessels with derricks of a capacity not less than 5 tons each.

In case the capacity of the vessels' derricks is less than 5 tons, Master should advise either the mooring company through his Agents, or the Suez Canal Authorities, Harbour Office, upon arrival at either of the Canal Ports in order to supply the ship with suitable mooring boats from the Canal Mooring Company.

These vessels are required to have their lifeboats in constant readiness for mooring and unmooring operations in case the Canal Mooring Company is unable to provide them with the required mooring boats. Each life boat will be manned by 3 shore crew from the Mooring Company.

The Canal Mooring Company have declared that the new mooring boats weigh 3 tons each in accordance with the specifications from Expert Bureau and needs derricks not less than 5 tons capacity.

(g) Ships may carry extra mooring boats for safety of navigation. However, LPG, LNG and Loaded Tankers are not allowed to carry any extra boats.

(h) The handling of mooring boats must be carried out well clear from the ship's propellers.

Article 21: Spreaders (Slings)

Container ships are advised to have their own spreaders (slings) to assist unloading and reloading containers in case of necessity. Those carrying different sizes of containers must have their own spreaders.

Article 22: Indicators

There must be a rudder angle indicator and an engine RPM indicator in the wheelhouse so located and illuminated as to be easily visible by the Pilot.

Article 23: Bow Anchors

The bow anchors must be ready to let go. (If only one anchor, see Article 57, paragraph f).

Article 24: Accommodation and Pilot Ladders

(a) Pilot Ladder: In anchorage areas, outside the Canal, North or South, pilot ladders can be used to embark and disembark Pilots.

The ladder shall be secured in such position that each step rests firmly against the vessel's side and so that the Pilot can have safe access to the vessel. Whenever the distance from sea level to the point of access to the vessel is more than 12 ft. (or 3.65 m.), access from the pilot ladder to the vessel shall be by means of an accommodation ladder or other equally safe and convenient means.

The treads of the pilot ladder shall not be less than 19 in. long, 4.5 in. wide and 1 in. in thickness. Steps shall be joined in such a manner as will provide a ladder of adequate strength with treads maintained in a horizontal position and not less than 12 in. or more than 15 in. apart.

A man-rope properly secured, and a safety line shall be available and ready for use if required. Handholds are to be provided to assist the Pilot to pass safely and conveniently from the head of the ladder into the vessel or on to the vessel's deck and vice versa.

If necessary, spreaders shall be provided at such distance as will prevent the ladder from twisting.

Arrangements shall be such as:

(1) The rigging of the ladder, the embarkation and disembarkation of the Pilot is supervised by a responsible officer of the vessel.

(2) A self igniting life buoy is to be available at hand.

(b) Accommodation Ladders: Accommodation ladders are to be used in the Canal, harbours and lakes to embark and disembark Pilots.

In case no accommodation ladder is available, or difficult to rig, the vessel has to inform S.C.A. before entering harbour or Canal. The change of Pilot which is originally carried out at Ismailia, will take place in the Bitter Lakes after anchoring. In such case, the vessel will be charged an extra 200 L.E. (Egyptian Pounds) as pilotage dues for each relieving Pilot.[20]

[20] Ships with freeboard of less than 10 ft. may use pilot ladder.

Article 25: Efficiency of Vessel's Equipment

Before entering the Canal it must be ascertained that main engines, steering gear, engine room, telegraph, rudder angle and r.p.m. indicators, W/T, VHF and radar are in good working order.

Every vessel navigating in the Suez Canal Waters under the advice of the Suez Canal Pilot, should maintain bridge and engine bell books.

In the bridge bell book, each engine movement and the time of its transmission from the bridge to the engine room is to be recorded as well as in the engine room bell book.

No vessel is required to maintain any bell books if equipped with an automatic device which produces a permanent legible record of every engine movement.

The bell books and the automatic records referred to, must be handed, upon request, to the Suez Canal Officials for the purpose of investigation if necessary.

Note: Gyro Pilot should not be utilised on board during the transit of the Suez Canal, the ordinary steering Telemotor apparatus is to be utilised, making sure of the steersman's ability, with a view to realising the safety of navigation and avoiding any risk of error involving grounding or any other accident.

Article 26: Deck Cargo

Deck cargo is to be stowed in a way so as to provide a clear view from the navigating bridge while transiting the Canal, as well as not to affect the vessel's stability.

The deck cargo should not protrude more than half the vessel's breadth on any side with a maximum of 15 m. if breadth exceeds 30 m.[21]

Note: Vessels having a deck cargo protruding in excess of the fixed limit, may be exceptionally granted authorisation to transit on the following conditions:

Each case is to be studied separately. If authorisation is granted, an additional due of 2 per cent of the transit dues is levied on each foot or fraction of foot in excess.

Article 27: Water Ballast

Vessels in ballast must fill spaces intended to be used for carrying water ballast in such proportion as the Officials of the Suez Canal Authority may direct.

Article 28: Searchlight

(A) Before transiting the Canal, the vessel should be provided with a searchlight (projector) of the following characteristics:

1. Minimum range of radiation of single beam 1,800 m. ahead (brightness of 1 Lux approximately at the atmospheric transmission factor = 0.85).
2. The power of the lamp must give a luminous intensity of single light beam not less than 3×10^6 (3 million) candela, which is equivalent to high efficiency incandescent lamp of:
   2,000 Watts for vessels up to 30,000 S.C. tons gross.
   3,000 Watts for vessels over 30,000 S.C. tons gross.
3. The drum and stand should be of high corrosion resisting material and can be operated both horizontally and vertically.
4. The front glass must be of hardened type and can stand rapid cooling.
5. The reflector must be in two halves of precise ground glass mirror of highest quality or of polished aluminium having at least 95% the reflective capacity of the glass mirror.
6. The two halves of the reflector can be brought together (zero position) to make a single reflector light beam and can be parted to give two separate light beams each of 5° at least, on the horizontal level with adjustable dark sector from 0 to 10°.
7. The searchlight drum must be watertight (presssure test 0.25 kg./sq.cm.) and gastight (according to the classification rules for the vessel's electric appliances within dangerous areas) and provided with a vent-out to which a flexible hose can be fitted on the drum to dissipate the heated air out of the searchlight in addition to a safety vent.
8. The searchlight must be equipped with 2 lamps carrier that can be turned into position to let the lamp exactly in the focus of the reflector, and the current must be switched on automatically.
9. The electric system (switches, plug, socket and cables) must be of first class marine type. The degree of protection IP 55 or similar standards.
10. The searchlights must have a certificate for the "type test" issued by one of the Classification Societies (Lloyd's Register, etc.). The original to be submitted to Suez Canal officials and thereby after test by S.C.A. inspection the searchlight can be accepted.

(B) For vessels carrying petroleum products, LPG, LNG, or flammable substances, or vessels Not Gas Free, the searchlight must be gastight and all electrical connections leading to it should be insulated. If a device for expelling the hot air from the interior of the searchlight exists, exit of the air must be effected in a place devoid of flammable gas. For safety reasons it has been decided that on all vessels of whatever type, electric cable installations for searchlight and all electrical connections leading to it must be permanently fixed, insulated and gastight.

At the end of the cables a fixed and gastight socket should be installed close to the searchlight.

(C)The searchlight, to be approved, must have a Certificate for the 'Type test' issued by one of the recognised Classification Societies, which will be submitted to the Suez Canal Authority Inspector, and be tested in the Canal and proved to be in good working order. On board vessels electrically propelled or having electrically driven gear (steering, winches, etc. . . .) the number of generators and their individual power output must be sufficient to ensure uninterrupted functioning of the searchlight in the event of stoppage of one of the generators.

No exception to this rule will be allowed except when there is an independent generator and circuit on board specifically set apart for the searchlight.

(D) This projector can be hired locally from the Canal Mooring and Light Company.

(E) For vessels fitted with their own projector, 2 shore electricians should operate it during the transit.

(F) Vessels with bulbous bow, may be provided with searchlight on condition that top of bulbous bow be lower than sea level by not less than 10 ft.

However, LPG and LNG vessels, without any exception, must be provided with their own searchlight.

Vessels entering the Canal, direct from sea through East Branch must also be provided with their own searchlight.

Article 29: Overhead Lights (Deck Lights)

Overhead lights visible all round the horizon with a minimum range of 200 m. (roughly 650 ft.).

Article 30: Bridge Wing Projectors

Bridge wing projectors on either side of the bridge must be fitted to show the Canal banks clearly during the transit and mooring operations.

Characteristics: Power about 4 LUX at an atmospheric transmission factor (T = 0.74) and minimum range 200 m.

Article 31: Funnels

Funnels must be lit to facilitate the identification of the vessel by night.

Article 32: Bridge and Engine Room Communication

Communication system between engine room and bridge must be in good working condition.

Article 33: Pumping Draining Arrangements

The pumps and pumping arrangements including valves, pipes and strainers from holds as well as from the engine and boiler spaces must be in good working condition.

Article 34: Watertight Bulkheads and Doors

All watertight bulkheads and doors are required to be in good efficient condition.

Article 35: Draft Marks

All vessels shall have the draft plainly marked and painted upon the stem, amidships (including Plimsoll Mark and Deck Line) and stern post or rudder post.

Article 36: Whistles and/or Sirens Must Always be Ready for Use

As prescribed in Part III, Article 93.

Article 37: Fire Fighting Equipment on Vessels

As prescribed in Article 61.

Article 38: Side Doors

When side doors are used for boarding, and the minimum vertical distance between the waterline and the bottom of the side door is less than six feet, they should be closed immediately after embarking and disembarking of Pilot and during transit through the Canal.

Article 39: Manning Vessels

The crew of vessels intending to transit the Canal should have efficient and good knowledge of their vessel and be sufficient in number to permit safe handling of the vessel during transit.

Article 40: Deck Watch & Engine Room

When underway in Canal Waters the vessels shall keep a full watch on the bridge and in the engine room, as well as anchor watch.

Article 41: Special Arrangements for VLCCs

(See Article 58).

Article 42: Accommodation

A suitable (Officer Class) accommodation is to be put at the Pilot's disposal while at anchor in the Bitter Lake or made fast in mooring places alongside the Canal. In case of no suitable accommodation available, the vessel will pay extra dues of LE200 (two hundred Egyptian Pounds) for each relieving Pilot. She may be delayed if no relieving Pilot is available.

A sheltered place is to be provided for the mooring boatmen (6 to 9 men according to the size of the vessel) and 2 shore electricians for the projector, during transit.

Article 43: Vessels Carrying Timber

The timber deck cargo shall be compactly stowed, lashed and secured in a way that it shall not hinder navigation and allow safe access on deck. The loading must not exceed the Tropical Timber Load Line (LT). The height of the deck cargo above the weather deck shall not exceed one third of the extreme breadth of the vessel.

Article 44: Life Saving Appliances

Life saving appliances for vessels navigating in the Canal Waters should meet with the requirements of the International Convention for the Safety Of Life At Sea.

Article 45: Anchor Watch

An anchor watch has to be added during bad weather or poor visibility and when advised by the Pilot.

Article 46: Stoppage in Canal

When anchored in the Bitter Lakes, Lake Timsah or stopped in the Canal, the engines should always be ready for use.

If failing to comply with any of the previous requirements, a vessel may be delayed from joining the convoy and/or may be subject to special arrangements for her transit. This includes imposing convoying tug boats. Access to the Canal may also be refused.

SECTION III: Interdiction to Enter Canal

Article 47: A vessel will not be allowed to transit the Canal in any of the following cases:

(a) Any vessel considered by the Suez Canal Officials, dangerous for navigation.

(b) If carrying dangerous cargo and not conforming to the Appendix of Rules of Navigation for vessels carrying dangerous cargo.

(c) If having a list more than 3 degrees.

(d) If trimmed in a way causing bad manoeuvrability.

(e) If having deck loads protruding from vessel's sides in a manner endangering the safety of transit (see Article 26).

(f) If the vessel is tender or loaded in a manner that dangerously affects her stability.

(g) If her draft is in excess of the maximum permitted according to these Rules.

(h) For VLCCs and ULCCs if there is strong wind.

(i) The Suez Canal Authority may consider delaying the entry to the Canal in cases of bad weather.

Article 47 Bis:

(a) The Suez Canal Authority reserves the right to refuse access to Canal Waters to any vessel in case of non or erroneous declaration of the presence of dangerous cargo on board such as ammunition, explosives, radioactive substances, etc.

(b) If the dangerous cargo mentioned in para (a) is discovered during the transit, the Suez Canal Authority reserves the right to refuse access to Canal Waters to this vessel for a period not exceeding two years. An additional due of 30,000 L.E. (thirty thousand Egyptian Pounds) will be imposed for this violation.

SECTION IV: Proceeding to the Canal

Article 48: General

Masters shall ask for Pilots by clearly displaying "G" flag by day and 3 white lights at night, at least two hours before the time they expect their vessel to be ready to get underway. *Singling Up* should not be before the Pilot is on board. When several vessels are ready to get underway at the same time, the order of their sailing will be fixed by the Canal Authority.

---

[21] Containers on containerships are not considered as deck cargo. Specially built vessels and barges carrying drillers or bulky deck cargo to be studied separately.

All vessels must stop whenever the passage ahead is not clear. They must slow down passing collapsed or under repair banks, as well as when passing all vessels in sidings, hoppers, dredgers and other floating plants made fast.

As soon as a vessel is made fast, she must hoist the signals pendant No. 2 by day and red light aft at night. The vessel must be ready to slack down ropes or cut them if need be. Engines must always be ready for manoeuvring.

CHAPTER III: CONVOY SYSTEM – Maximum Dimensions, Towage and Escorting

SECTION I: Convoy System

Article 49: Formation of Convoys

A 3 convoy system is applied in the Suez Canal.

(A) *Northbound Convoy*

Starts about 0520 hrs. at Km. 160 and consists of 2 groups of vessels.

(1) *Group A*

(a) Third generation container ships, LPG and LNG, speed of transit 14 km./hr.[22]

(b) Loaded VLCCs, conventional loaded tankers and heavy bulk carriers,[23] speed of transit 13 km./hr.[22]

(2) *Group B*

Cargo and other vessels anchored in Suez Anchorages.

The speed of transit of this group is 14 km./hr.[22] The Northbound convoy has a free run from Port of Suez till Port Said. It passes through the East Kabrit Channel, the Eastern Dredged Channel in the Bitter Lakes, the Deversoir East Channel, the East Channel of Lake Timsah, the East Channel of Ballah By-pass and the East Channel from Km. 17 Northward.

In case the Northbound convoy has to stop in the Bitter Lakes due to traffic situation of Southbound convoy or any emergency:

Container vessels heading the convoy will drop anchor in the North of the East anchorage areas of the Bitter Lakes. Escorted VLCCs stop in Bitter Lake East Dredged Channel, assisted by the escort tugs and other extra tugs, available in the Bitter Lakes, if needed. Super tankers and heavy bulk carriers following the VLCCs will make fast in Kabrit East Branch, North Berths.

Vessels of over 35 ft. draft in the cargo group will make fast in Kabrit East Branch. Vessels with drafts of 35 ft. or less in the group will proceed through Kabrit West Branch to the East anchorage area of the Bitter Lakes, if East Branch is not clear.

(B) *Southbound Convoy (N1)*

Starts about 2330 hrs. at Km. 17 and consists of 2 groups of vessels.

(1) *Group A,* consists of vessels who are made fast in Canal West Branch from Km. 14 to Km. 4 and Port Said Harbour. The first vessel of this group will proceed as soon as the last vessel Northbound enters the East By-pass at Km. 17. Speed of transit is 14 km./hr.[22]

(2) *Group B,* consists of vessels anchored in the new anchorage areas to the N.W. of Port Said, third generation container ships, VLCCs in ballast and vessels of over 38 ft. draft. This group will be headed by the container ships and the first vessel will enter through the Port Said East Approach Channel as soon as the last vessel Northbound clears Hm. 150. The speed of transit is 14 km./hr.[22]

The Southbound convoy has a free run to the Bitter Lakes. It passes through the East branch of Ballah By-pass, the East Channel of Timsah Lake, the Deversoir West Channel and anchors in the Western anchorages in the Bitter Lakes.

The sequence of vessels when route continues from Bitter Lakes will be the third generation container ships, followed by VLCCs in ballast and then other vessels. The first ship of the Southbound convoy will regulate speed to cross the last Northbound vessel abeam of Kabrit station.

(C) *Third Convoy (N2)*

A third convoy, Southbound, according to intensity of traffic from North or South. Max. draft 35 ft., max. beam 115 ft.

In case of forming a second Southbound convoy the starting time from Port Said will be at 0600 hrs. and up to 0800 hrs. Vessels will make fast in Ballah West Branch and continue route after last Northbound vessel clears Km. 60.

Vessels not authorised to join this convoy are the following:
Loaded tankers carrying Petroleum Grades A – B – C and similar substances.
Tankers in ballast (Non Gas Free).
LPG and LNG.
Vessels carrying Group 1 dangerous cargo (explosives).
Vessels carrying chemicals in bulk.
Vessels carrying radioactive substances.

NOTICE: Issued by Canal Shipping Agencies Company, Port Said:

Circular No. 80/83:

We have been advised by Suez Canal Authority that as a trial from 23.7.83 convoy timing will be as follows:

First Convoy from Port Said:
From 0100 hrs. until 0500 hrs.
Followed by small vessels up to 5,000 tons until 0600 hrs.
(Limit time arrival waiting area 1800 hrs.).
(Latest time for hoisting the signal asking for Pilot 2030 hrs.).

Second Convoy from Port Said:
From 0700 hrs. until 0900 hrs.
(Limit time arrival waiting area 0200 hrs., instead of 2400 hrs.).
(Latest time for hoisting the signal asking for Pilot 0300 hrs.).

Following vessels are not permitted to join second convoy:
A – Tankers loaded petroleum flash point −23°C.
B – LPG.
C – LNG.
D – Tankers carrying chemicals in bulk.
E – Vessels carrying radioactive materials.

Convoy from Suez:
A – Containers and Ro-Ro vessels from 0615 hrs.
B – Tankers from 0700 hrs. followed by ordinary vessels until 1130 hrs.

Masters have to send by radio to the Agents the following information at least 48 hours before vessel's arrival.
Gross and net tonnage indicated by the Suez Canal Special Tonnage Certificate and date of latest certificate.
Gross and net tonnage indicated by Registry Certificate and date of latest certificate.
Vessel's nationality.
Owner's name.
Type of vessel (cargo – container ship – LASH vessel – Ro/Ro, etc.).
If vessel has previously transited canal under her present or former name. Affirmatively mention date of last transit.
If any alteration has been made in the vessel's particulars. In case no alterations made, they have to send "Particulars No Change".

Circular No. 90/83

Second Convoy from North (Convoy N2)

We would like to inform you that it has been decided as from the 23rd July, 1983, to authorise the following categories of vessels to join the second convoy from North (Convoy N2) and, therefore, to moor at Ballah Loop:
Loaded tankers carrying Petroleum Grades B – C and similar substances (Flash Point +23°C).
Tankers in ballast NGF.
Vessels carrying Group 1 dangerous cargo (Explosives).

Consequently, vessels NOT ALLOWED to join the Convoy N2 that has to moor at Ballah Loop, are:
1. Loaded tankers carrying Petroleum Grade A and similar substances (Flash Point −23°C).
2. LPG and LNG vessels.
3. Vessels carrying chemicals in bulk.
4. Vessels carrying radioactive substances.

Circular No. 20/84

As from 1.2.84 vessels with beam and draft as indicated in table below are authorised to use the Ballah West Branch:

Beam		*Draft*		*Beam*		*Draft*	
ft.	m.	ft.	in.	ft.	m.	ft.	in.
141	42.98	38	00	151	46.02	35	1.5
142	43.28	37	11	152	46.33	34	10
143	43.59	37	7.5	153	46.63	34	6
144	43.89	37	4	154	46.94	34	2
145	44.20	37	00	155	47.24	33	10.5
146	44.50	36	8	156	47.55	33	7
147	44.80	36	4	157	47.85	33	3
148	45.11	36	00	158	48.16	32	11
149	45.41	35	8.5	159	48.46	32	7.5
150	45.72	35	5	160	48.77	32	4

Circular No. 25/84: **Ballah West, Beam/Draft**

Further to our Circular No. 20/84 concerning vessels authorised to use Ballah West Branch, please note that for vessels of the Second Southbound convoy (N2), making fast at Ballah West Branch, the beam must not exceed 141 ft. and draft 38 ft.

Article 50: Limit Time of Arrival to Join Convoys

Also see Article 49 – "Notices".

(A) *Southbound convoy*

(1) 3rd generation container ships, VLCCs in ballast and loaded vessels over 38 ft. draft who will anchor in the new anchorage area (V berths) N.W. of Port Said and declared by Agents ready for transit, have to reach the anchorage area before 1800 hrs.

(2) Other ships entering from Port Said harbour have to reach the anchorage area before 1800 hrs.

(3) Ships arriving after 1800 hrs. and not later than 2400 hrs. will join the second convoy either from Port or direct from sea and be declared by Agents ready for transit, providing the capacity of the Canal permits.

(B) *Northbound convoy*

(1) Ships anchoring South of Conry Rock: 3rd generation container ships, VLCCs, super tankers, heavy bulk carriers and vessels over 38 ft. draft, have to reach the anchorage area (V berths) and be declared by Agents ready for transit before 2400 hrs.

(2) Other vessels who will anchor in the anchorages of the Port of Suez, have to reach the waiting area and be declared by Agents ready for transit before 0200 hrs.

(C) In all cases the documents required should be produced before the passage of the vessel to the Canal office at Port Said or Port Tewfik.

Article 51: Courses to Keep on Leaving for Sea

(A) *At Port Said*

Vessels of Northbound convoy have to maintain course through the East approach channel till Hm. 195 then alter course North 000° for five miles before altering to destination.

(B) *At Port of Suez*

Vessels proceeding to sea have to maintain course through the channel till the last pair of buoys, then keep the separation zone on the port side till the separation zone Buoy No. 1.

---

[22] Without current and in good weather conditions.

[23] Draft over 38 ft. or length over 950 ft. B.P.

[22] Without current and in good weather conditions.

SECTION II: Maximum Dimensions (Vessel's Sizes and Drafts)

Article 52: Dimensions of Vessels Authorised to Transit

These dimensions are given hereunder:

(a) *Max. length:* No restrictions.

(b) *Max. beam:* 210 ft.

(c) *Max. draft:* The tables A, B and C give the maximum draft authorised in relation to the beam of vessel according to the following:

(i) *Table "A":* For vessels in ballast transiting in either direction.

(ii) *Table "B":* For loaded vessels transiting Southbound. The speed of transit being 14 km./hr.

(iii) *Table "C":* for loaded vessels transiting Northward and includes two tables C-1 and C-2.

(a) Table C-1 gives the draft for vessels transiting at speed of 13 km/hr.

(b) Table C-2 gives the draft for vessels transiting at speed of 14 km./hr. (including LPG, LNG vessels and vessels carrying chemicals in bulk).

In these Tables the beams are given in metres and feet and the drafts in feet only.

Article 53: Progressive Increase in Draft

(A) For loaded vessels the max. draft for each vessel according to tables B and C or her tropical loadline whichever is less is to be reached gradually by successive steps.

(B) For each step of increase a vessel has to effect an experimental satisfactory transit before being admitted to the following step.

(C) Vessels transiting the Canal for the first time have to undergo an experimental transit at the draft preceding the max. draft indicated.

Notes:

1. (a) Vessels allowed to transit at a draft of over 50 ft. up to maximum 53 ft. must prior to those drafts effectuate an experimental satisfactory transit at a draft of 50 ft. max. and not less than 49 ft. 9 in.

(b) Sisterships are not to get benefit of authorisation granted to a particular ship of the group.

2. Vessels with beam over 200 ft. and up to 210 ft. are allowed to transit only in calm weather, i.e. beam wind not exceeding 10 knots.

3. Northbound LPG, LNG vessels and vessels carrrying chemicals in bulk, are subject to the Tables of Beam and Draft for vessels proceeding at 14 km./hr. speed.

For safety measures they are included in the "tankers" group.

(a) Chemicals in bulk vessels are included in the "tankers" group **only** when they are **loaded.**

(b) LPG and LNG vessels are included in the "tankers" group either loaded or in ballast and they are put ahead of the loaded tankers.

4. Vessels with Load Line Certificate not mentioning the amount of Freeboard of their Tropical Load Line and consequently do not have the Tropical Load Line marked on their sides, will be authorised to transit Suez Canal with a maximum draft up to the SUMMER Load Line only, or the maximum allowed draft Tables A, B, C-1 and C-2, whichever be the less.

Table "A" Vessels in Ballast.

Max. draft for different beams for vessel from North or South.

Beam	*Up to* 160 ft. (48.77 m.)	*Over* 160 ft. *Up to* 190 ft. (48.77 m. *up to* 57.91 m.)	*Over* 190 ft. *Up to* 210 ft. (57.91 m. *up* *to* 64.00 m.)
Draft in feet	*Recommended*		*Maximum*
	Fore 25 *Aft* 29	*Fore* 28 *Aft* 32	*Fore* 29 *Aft* 33

Note: Vessels with beam up to 190 ft. or 57.91 m. are not authorised to transit at a draft over 33 ft.

Table "B" – Loaded Vessels.

Note: For technical considerations LPG and LNG vessels *in ballast* are admitted to transit the Canal at draft of 33 ft.

In case of use of fresh water for ballast, vessel loses the privilege of being in ballast, and therefore, dues will be levied on the basis of laden vessel.

1. *Maximum draft for different beams for loaded vessels transiting Southbound Speed 14 km./h.*

Beam				*Draft*	
ft.	*in.*	*m.*	*cm.*	*ft.*	*in.*

Article 54: Speed

The speed of convoys is the following:

(a) Southbound: 14 km./hr.

(b) Northbound:

(1) 13 km./hr. for loaded tankers and bulk carriers group.

(2) 14 km./hr. for ordinary group.

SECTION III: Towage and Escorting

Article 55: Canal Authority Tugs

(A) At Port Said Harbour, tugs may be placed at the disposal of Masters if the Canal Authority deems it necessary. No charge is made for the assistance given by these tugs to transiting vessels for mooring and getting underway. In all other cases, a charge is levied by the Suez Canal Authority. Vessels manoeuvring in the harbour are required to provide their own ropes. Wire tow-ropes are not allowed.[24]

(B) In other cases, tugs can be hired for mooring, towing or getting a vessel afloat. Charges paid by the vessel will be according to rates set by Suez Canal Authority.

(C) In accordance with the terms of Article 57 of the present Chapter, the Officials of the Canal Authority may impose on certain defective vessels, or vessels carrying dangerous cargo, a tug or more for towing or escorting during transit of the Canal.

In such cases, charges are paid according to rates set by Suez Canal Authority.

(D) The Master of a vessel using a tug placed at his disposal has the exclusive direction and control of the manoeuvres of both the vessel and the tug.

(E) Whatever may be the conditions or circumstances under which the Canal Authority tugs are made use of by a vessel, the Master of the vessel is responsible for any damage or accidents whatsoever resulting directly or indirectly from the use of the said tugs, including damage which may occur to the tugs themselves, and to equipment.

Article 56: Use of Private Tugs

Shipowners are authorised to have their vessel towed or conveyed by their own tugs under their entire responsibility. Such tugs must be approved by the Suez Canal Authority. Apart from the special towage dues, tugs belonging to private owners are subject to the strict observance of all the parts of the rules relative to vessels manoeuvring, in transit or berthing.

Towing arrangement must be supervised and approved by the Suez Canal Authority personnel.

Article 57: Cases of Imposed Tugs

Chargeable tugs shall be imposed during Canal transit, at the tariff hire rate, in the following cases:

(a) The Canal Authority may require any vessel to take a tug or tugs through the Canal, when in its judgement such action is necessary to ensure safety to the vessel or to the Canal.

(b) LPG and LNG of over 80,000 tons (SCGT). It is also requested that a steering light, to be lit at night, be fitted on the extremity of the tanker's bows.

(c) Any vessel without mechanical power, or the machinery of which is (or becomes) disabled, or steers badly, or which is liable to become unmanageable for any reason, shall be towed through the Canal.

(d) Bad view vessels owing to deck cargo, containers, cranes or constructions impeding the view from the wheelhouse and wings.

(e) Vessels with defective indicators, or vessels without indicators, on their second trip through the Canal.

(f) Vessels unable to use one of her two anchors.

Article 58: Escorting

The escort of VLCCs, ULCCs, large bulk carriers and other vessels will be as follows:

(a) Loaded vessels under 110,000 d.w.t. will be escorted by 1 tug if for technical reasons the Suez Canal Authority finds it necessary, or when the vessel's draft exceeds 45 ft.

(b) Loaded vessels from 110,000 d.w.t. to 150,000 d.w.t. will be escorted by 1 tug.

(c) Loaded vessels over 150,000 d.w.t. will be escorted by 2 tugs.

(d) Vessels in ballast over 200,000 d.w.t. will be escorted by one tug.

Above mentioned vessels have to prepare 2 polypropylene ropes 16 in. circumference[25] to join the stern to the tug during stopping operations. The ropes should be eye spliced to fit in the quick release hook on the tug and with adequate length to give distance between fore of the tug and stern of vessel at about 50 m. On the vessel these ropes will be made fast on stern bitts port and starboard. The eyes will be hanging over the stern about 2 m. above water and lashed with rope stoppers to break loose when necessary.

Transit of drilling rigs and towed units:

1. (a) Drilling vessels.
   (b) Drilling rigs loaded on special vessels are to be escorted by a Suez Canal tug.
2. (a) Drilling rigs with self steering power.
   (b) Drilling rigs without self steering power.
   (c) Drilling rigs with legs which can be lifted so that nothing extends under the rig's bottom.

The above are to be assisted by a Suez Canal tug aft and another Suez Canal tug as escort, in addition to a powerful tug forward to make speed in the Canal not less than 12 km. per hour over the ground. They must also be in good state of stability.

3. Drilling rigs with legs that cannot be lifted and a part remains under the rig's bottom: Each case has to be studied separately to decide whether the unit is allowed to pass the Canal or not.

4. Other towed units are not allowed to transit Suez Canal, unless they are towed by a tug suitable to the size of the unit and powerful enough to maintain a speed in the Canal not less than 12 km. per hour over the ground, in addition to the assisting Suez Canal tugs, whenever found necessary by Suez Canal officials.

General:

(a) All enquiries concerning the possibility and/or approval of transit of towed units, drilling rigs, dredgers, etc., are to be submitted by the Owners of the units or Local Official Agency, accompanied by a General Arrangement plan and all particulars of the unit: name, LOA, beam, draft, height, self steering, etc.

The application must reach the Suez Canal Authority (Directorate of Transit, Ismaila, Egypt) not less than two weeks before sailing of the unit from its base.

(b) Any towed unit must be supplied with floating mooring ropes in good condition and suitable in number (more than six) and size according to the dimensions of the unit.

(c) A responsible person and a crew of at least 10 persons must be on board the unit during the transit.

(d) A valid Seaworthiness Certificate for the towage through Suez Canal must be available.

(e) The unit must comply with the Suez Canal Regulations.

(f) If the transit is authorised a survey of the unit shall be made on the arrival, in order to take the definite steps and make the final arrangements for the transit, if it complies to Suez Canal Rules.

(g) The transit is subject to the circumstances of the Navigation in the Canal, and the weather conditions.

CHAPTER IV: ACCIDENTS – LEAKS – PRECAUTIONS AGAINST FIRE AND POLLUTION

Article 59: Accidents

(A) Whenever a vessel underway is accidently stopped, she must, if other vessels are following, attract their attention by giving five or six short blasts on the whistle or siren. This signal is to be repeated at short intervals. It means "I am reducing speed and may have to stop and make fast". Vessels stopped accidentally at night, must in addition, immediately replace their white light astern with a red light.

In case of grounding, the Master must immediately hoist the following:

	By Day	*By Night*
Passage clear for tugs	Black Ball Pendant No. 2	Red Light
Passage not clear for tugs	Black Ball; Pendant No. 2; International Code Flag "N".	2 Red Lights.

Send also a radio message stating whether a tug is required or not, whether or not passage is clear for the tug and whether lightening is necessary, etc.

(B) When a vessel runs aground, the Canal Authority Officials are alone empowered to order and direct all operations required to get the vessel afloat and if necessary, have her unloaded and towed. Nevertheless, Masters remain responsible for all damages or accidents of any kind which may be the direct or indirect consequence of the grounding.

All attempts on the part of other vessels to refloat a vessel aground are strictly prohibited.

(C) When a vessel grounds or stops in the Canal itself in consequence of an accident other than a collision, the Canal Authority, in order to clear the way with all possible speed, and to get her underway, will assist with the necessary tugs to refloat her, free of charge. If, once afloat, and the Canal Officials find it necessary to tow or escort the vessel by one tug or more, she must from that moment, pay towage charges as set down by Suez Canal Authority, moreover, it is understood that the vessel bears all expenses necessary for repairs of any damage or breakdown which might interfere with her getting underway regardless of the time when such damage or breakdown takes place.

(D) When a vessel grounds or stops outside the Canal itself or if the grounding or stoppage is due to a collision, all charges for getting the vessel afloat, towing, unloading, reloading, etc., are payable by the vessel and must be settled as per statement drawn up by the Canal Authority before the vessel leaves Port Said or Port of Suez.

(E) Whenever a collision appears probable, vessels must not hesitate to run aground should this be necessary to avoid it.

(F) When a vessel or floating structure of any description runs aground or strands or sinks or is left abandoned, either in the Canal itself or in one of its ports, Waiting or Anchorage Areas, and the Canal Authority deems it an obstruction or a menace to navigation in Canal Waters, the Authority has the right to take of its own accord such action as may be necessary for the purpose of removing or destroying the vessel or floating structure by whatever means the Canal Authority may select and at the risk and expense of the Owner of, or the person responsible for the vessel or the floating structure. The Suez Canal Authority has – in this case – the right to sell the vessel or the floating structure or the wreck salvaged or all of them together in public auctions with a view to covering all kinds of expenses.

Article 60: Leaks

In the case of leaks, when in harbour the Master must inform the Harbour Office at once. When in Canal or anchored in lakes, he must inform immediately the Movement Office. He must at the same time make the appropriate International Signal and call attention by sounding a prolonged blast on the whistle or siren; and take all necessary measures to stop the leakage and ensure the safety of the vessel.

The Suez Canal Authority Officials whose decision shall be final may order any action deemed necessary in the best interest of all concerned: change of berth or mooring, beaching, taking the vessel out to sea. The Master is nevertheless responsible for all damage or accidents arising directly or indirectly from the salvage operations.

Article 61: Fire Fighting

(A) Vessels transiting the Canal should be equipped with the fire fighting equipment in accordance with the requirements of the International Convention for the Safety of Life at Sea. All equipment should be in a good and efficient condition.

(B) Fire hoses with suitable nozzles attached shall be connected to the outlets of fire lines at all times while in Canal Waters. Sufficient hoses shall be connected to reach all parts of the vessel.

(C) Approaching Canal Waters, as precautionary measures, all vessels must have a fire wire hanging over the side ready for use fore and aft, before entering Canal Waters.

---

[24] Wire tow-ropes should not be confused with the fire-wire ropes made fast onboard and fitted with an eye splice or connecting shackle hanging over the side as required. See Article 61 (C).

[25] For vessels under 100,000 d.w.t., if their draft is over 45 ft.

Article 62: Fire Onboard

(A) In case of fire onboard, when in harbour the Master must inform the Harbour Office at once. When underway or in the Canal or anchored in Lakes or made fast in Canal, he must inform the Movement Office.

He must at the same time make the appropriate International Signal and call attention by sounding a prolonged blast on the whistle or siren. He must make ready to get underway if required to do so.

(B) Neighbouring vessels must in such cases also be ready to change berth.

(C) Masters are responsible for the use onboard their vessels of fire fighting appliances and installations and for the stability and safety of their vessel.

(D) *The Suez Canal Officials will co-operate with the Master for the purpose of directing the fire fighting operations.*

The vessel's crew shall co-operate with the Suez Canal Authority personnel.

(E) If in the opinion of the Canal Authority Officials, whose decision shall be final – there is a risk of fire spreading, they may order any action deemed necessary in the best interest of all concerned (change of mooring, beaching, taking vessel out to sea); it is understood that Masters are nevertheless responsible for all damages or accidents arising directly or indirectly from outbreaks of fire or salvage operations.

Article 63: Fuelling

A vessel at fuel berth or while being supplied by fuel in Waiting Areas shall at all times be ready for immediate fire fighting. She shall keep up steam and be ready to move on short notice.

Article 64: Pollution

Before arrival from sea at either of the Terminal Ports, vessels should comply with the requirement of appropriate Convention currently in force.

(A) Discharge of Substances Polluting Water

Vessels must not discharge or throw into the Canal Waters any polluted water ballast, heavy slops, engine or fire room polluted bilge water, oil or any other substances that will cause pollution.

In case of violation, the vessel shall be charged an additional due of 10,000 L.E. (Ten Thousand Egyptian Pounds), shall be liable for any damage resulting from the pollution and shall pay all expenses incurred for its removal. Moreover, she may be prevented from transiting the Canal.

In case of leakage of any polluting material from a vessel, due to any reason, the Master, the Owners and/or operators of the vessel shall be liable for any damage resulting from the pollution and shall pay all expenses incurred for its removal.

(B) Dumping Garbage

Dumping Garbage is Strictly Forbidden

In case of violation, the vessel will be charged an additional due of 1,000 L.E. (One Thousand Egyptian Pounds).

If a vessel is anchored in Canal Waters for a considerable length of time, she may get rid of garbage by requesting garbage lighter alongside.

(C) Whenever a vessel observes *oil spill* in Canal Waters, she must at once inform the Suez Canal Authority with the following information if possible.

(i) The place and area covered by spill.
(ii) The direction of motion of the spill.
(iii) If known, the name of vessel causing the spill.

CHAPTER V: Prohibitions and Charges

General

When a vessel is in Canal Waters, either in anchorage areas or ports or during transit, the following is prohibited:

Article 65: Use of Anchors and Thrusters

Masters must avoid anchoring and using the thrusters in the Canal, except in case of absolute necessity.

Article 66: Misuse of Whistle or Siren

The sounding of a whistle or siren is prohibited except for giving any authorised or required signal, as mentioned in Part III, Article 93.

Article 67: Firing Shots

(A) Firing shots is not allowed.

(B) An additional due of 200 L.E. (two hundred Egyptian pounds) will be imposed for violation of this rule.

Article 68: Picking up Object from Water

(A) Whenever any object or merchandise whatsoever falls overboard, it must be immediately reported to the Canal Authority. If it is considered that the picking up cannot be effected by the vessel without impeding transit, the Canal Authority will proceed to carry it out, at the expense of the vessel.

(B) An additional due of 200 L.E. (two hundred Egyptian pounds) will be imposed for violation of this rule.

Article 69: Riveting, Welding etc.

(A) Riveting, welding, burning, metal cutting or similar operations requiring the use of heat, are not allowed unless authorised by the Suez Canal Authority.

(B) An additional due of 500 L.E. (five hundred Egyptian pounds) will be imposed for violation of this rule.

Article 70: Pollution

(A) See Article 64 and following.

(B) An additional due of 10,000 L.E. (ten thousand Egyptian pounds) will be imposed for discharge of substances polluting water. Besides, the vessel may be prevented from transiting the Canal any more.

(C) An additional due of 1,000 L.E. (one thousand Egyptian pounds) will be imposed for throwing waste.

Article 71: Direct Lights

Under no circumstances shall the rays of any blinding lights be directed to the bridge or any other direction which would interfere with the safe navigation of other vessels.

Article 72: Embarking and Disembarking of Persons

(A) Unless authorised by the Canal Authority or Port Officials, no person shall embark or disembark from a vessel while passing through the Canal or in Ballah, Timsah Lake or the Bitter Lake.

(B) An additional due of 200 L.E. (two hundred Egyptian pounds) will be imposed for violation of this rule.

Article 73: Boats, other than the Canal Authority's own are not allowed to come alongside vessels underway or manoeuvring except the following at their own risk.

(A) Quarantine and police boats.
(B) Mooring boats.
(C) The ship's Agent's boats.

Article 74: Vessel Overtaking Another

(A) Vessels proceeding in the same direction are not allowed to overtake one another while underway in the Canal Waters and ports unless authorised by the Suez Canal Control Office.

(B) An additional due of 500 L.E. (five hundred Egyptian pounds) will be imposed for violation of this rule.

Article 75: Boat Drills

(A) No rowing or sailing boat drills are allowed except after authorisation.

(B) An additional due of 200 L.E. (two hundred Egyptian pounds) will be imposed for violation of this rule.

Article 76: Venting

(Tank openings to be closed through the whole transit).

(A) Venting of gas for the purpose of tank cleaning is prohibited in Canal Waters.

(B) An additional due of 10,000 L.E. (ten thousand Egyptian pounds) will be imposed for violation of this rule.

Article 77: Long Stay

(A) Unless due to conditions of traffic or incidents in the Canal, transiting vessels should not remain more than 24 hours in Port Said berths, anchorages in Port Said and Port of Suez roads, Timsah Lake or Bitter Lakes.

(B) An additional due of 2 P.T. (two Egyptian piastres) per Suez Canal net ton/day will be imposed.

Article 78: Vessels Having Damaged Container With Dangerous Cargo

If upon arrival of a vessel in waiting areas or port or while transiting the Canal, it is found that a container of dangerous cargo has been damaged or is leaking, the Master of the vessel has to notify the Suez Canal Port Authority at once. In cases of dangerous situations the vessel may be ordered to leave the port or waiting area for sea.

Article 79: Declaration of State of Navigability

I, the undersigned, Master of the..

(a) Certify that my ship satisfies the conditions laid down in Part I, Articles 22 and 25 of the Navigation Regulations and that, in particular, the engines and the steering gear are in good working order(*).

(b) Declare that my ship has, at the present time, the following defects in engines or steering gear(*).

(c) I declare, also, that the wireless installations of my ship permit to transmit on the frequencies hereafter, in kHz: Telegraphy...............kHz. Telephony...............kHz.

(d) I state also that my ship is/is not (*) fitted with a rudder angle indicator and engine r.p.m. indicator on the bridge in such a position that the Pilot may read both without having to move away from his station and that the rudder angle indicator/engine r.p.m. indicator(*) is/are in good working condition.

I undertake to bring to the notice of the Suez Canal Authority, before my ship enters the Canal, any defects, not specified above, which may appear.

Made at Port...................., the........................
Signature.........................

(*)Delete where inapplicable.

PART II – CANAL AND LAKES

CHAPTER VI: CANAL AND LAKES

Article 80: Canal and Approaches

(A) Length of the Navigable Channel

(1) East Approach Channel (Port Said).

(a) Distance from outer pair of buoys at Hm. 195 to Hm. 94.90 where it joins the West Approach Channel is 10.010 km.

(b) Distance from Hm. 94.90 to the pair of revolving lights at Km. 3.000^{E} is 12.490 km.

(2) West Approach Channel (Port Said).

(a) Distance from Fairway Buoy to Port Said Lighthouse is 11 km.

(b) Distance from Port Said Lighthouse (Km. 0.000) or (Km. 3 East Branch) to Ismailia is 78.5 km.

(c) Distance from Ismailia to Port Tewfik (Km. 162.250) is 83.750 km.

(d) Distance from Port Tewfik (Km. 162.250) to the outer pair of buoys Hm. 80.50 is 8.500 km.

(e) Total length of the navigable channel is 193.250 km.

(B) Characteristics of the Navigable Channel (Canal and Approaches).

(1) North Approaches

(a) East Port Said Approach Channel from Hm. 195 to Km. 1.333 East.

(i) Depth of water 20.00 m.

(ii) Channel width measured at 20 m. depth – Hm. 195.00, 745 m.; Hm. 80.00 East, 400 m.; Km. 1.333 East, 120 m.

(iii) Side Slopes

Natural land side slopes, ranging from 5/1 near shore to about 20/1 in the off-shore part.

(b) West Port Said Approach Channel from Hm. 95.00 to Port Said

(i) Depth of water 14.00 m.

(ii) Channel width measured at 12.50 m. depth – Hm. 95.00, 600 m; Hm. 25.00, 350 m.

(2) Canal Cross Sections (See Plan Book)

(a) The Canal cross sections are trapezoidal in shape, having side slopes of 4/1 in the Northern part up to Km. 61.00 and of 3/1 in the Southern part. Toussoum Zone is the only place where the Western slopes are 2.5/1.

(b) Tables of main dimensions of cross sections all through the Canal (See below).

(c) Both sides of the Canal are provided with mooring bollards.

(3) South Approach from Hm. 0.00 (Km. 162.250) to Hm. 80.50

(a) Depth of water 23.50 m.

(b) Channel width measured at 18 m. depth Hm. 0.000 to Hm. 80.50, 298.00 m.

(c) Side slopes 3/1.

(C) Depth and Width of Different Parts of the Canal

i. *Main Canal and Bitter Lake West Channel*
ii. *Canal East Branches and Bitter Lake East Channel*

i. *Main Canal and Bitter Lake West Channel*

Kilometric Position		*Designation of Different Parts of the Canal*	*Theoretical Depth*	*Width of Canal at 18 m. Depth*	*Width of Canal at 14 m. Depth for West Branches*	*Remarks*

(D) Bends in the Canal

(1) The bends in the navigable channel have the following characteristics:

(a) Radius of navigation line = 5,000 m.

(b) Width of channel at −11.00 m., depth = 190 m.

(c) Width of channel at −18.00 m., depth North of Km. 61.000 (side slopes 4/1) = 134 m.

(d) Width of channel at −18.00 m., depth South of Km. 61.000 (side slopes 3/1) = 148 m.

(e) At the ends of two bends, there is usually a funnel made to allow increasing the width of the channel gradually from 160 m. to 190 m. (at −11.00 m. depth).

(f) Locations of beginning and end of each bend are included in the following table:

Canal Bends	*Kilometric indication of beginning point*	*Kilometric indication of end point*
Km. 53	Km. 52.050	Km. 53.520 West
Km. 57	Km. 56.870	Km. 58.800 West
S. "Curves"	Km. 71.960	Km. 75.300
Timsah Curve	Km. 76.520	Km. 81.700 East
Km. 85	Km. 85.030	Km. 87.400
Km. 103	Km. 102.600	Km. 105.030 West
Km. 130	Km. 129.500	Km. 131.980
Km. 146	Km. 145.500	Km. 146.330
Km. 154	Km. 154.700	Km. 155.720
Km. 157	Km. 156.280	Km. 160.000

(2) At the approaches of the by-passes, bends are made with radius more than 5,000 m. Location of these bends are included in the table hereafter.

Approaches	*Kilometric indication of beginning point*	*Kilometric indication of end point*
Km. 51	Km. 49.510	Km. 51.480 West
		Km. 51.790 East
Km. 61	Km. 60.310 West	
	Km. 59.940 East	Km. 63.300
Km. 122	Km. 121.940 East	
	Km. 122.500 West	Km. 125.510

(E) By-Passes and Loops

(1) Port Said By-Pass (See Plan Book)

A new by-pass is dredged East of Port Fouad starting at Km. 17.000 and extending straight to join the existing Port Said Roadstead at Hm. 94.90 and continuing until Hm. 195. This channel (By-Pass) will be used for the exit of Northbound ships, the entry of VLCCs in ballast and vessels with draft over 38 ft. coming from North.

Characteristics and dimensions: The kilometric marks are followed by letter "E" to distinguish them from those of the West branch. The inland part (from Km. 1.500 E. to Km. 15.465 E.) width (at 18 m. depth) is 114 m. with side slopes 4/1 and depth 19.5 m., fitted with bollards on the Western side, spaced every 100 m.

The seaward part (from Km. 1.500 E. to Hm. 94.90 E.) with width (at −20 m. depth) ranging from 120 m. at Km. 1.333 E. to 400 m. at Hm. 80.00 E. with natural side slopes (average 5/1 – 10/1).

Two revolving lights, one on each bank to indicate the entrance of Canal from East Approach channel at Km. 3.000 E.

(2) Ballah Loop (See Plan Book)

Between Km. 51 and 61 the Canal is doubled in the East, by a branch. The zone comprising the 2 branches of the Canal limited by the North and South ends where the 2 branches meet, is called "Ballah Loop".

In the East Branch the kilometric marks are followed by letter "E". The length of the East Branch is 8.490 km.

	West Branch	*East Branch*
Kilometric marking of North end	51.477	51.449 E.
Kilometric marking of South end	60.333	59.943 E.

Slope of bank 4/1. In the West branch 15 mooring posts are situated on the Eastern bank and numbered South to North.

(3) Timsah By-Pass (See Plan Book).

Between Km. 76.580 and Km. 81.700 E.

Characteristics and dimensions

The kilometric marks are followed by letter "E". Length: 5.110 km. counted at right angle from Km. 76.578 to Km. 81.700. Width: 148 m. at a depth of 18 m. Slope: The side slope is 3/1. The radius of its axis is 4905 m. The by-pass will be used by North and Southbound vessels.

(4) Deversoir By-Pass (See Plan Book)

A new branch is dredged East of the existing channel at Deversoir zone. This branch begins at Km. 95.000 and joins the main East channel in the Great Bitter Lake at Km. 104.160. The branch will be used by Northbound vessels.

Dimensions

Width: 148 m. at 18 m. depth. Depths: 19.500 m. from Km. 95.000 to Km. 100.670; 19.900 m. from Km. 100.670 to Km. 102.600; 18.500 m. from Km. 102.600 to Km. 104.160. Side slope: 3/1.

(5) Kabrit By-Pass (See Plan Book)

The By-Pass is situated to the East of the main Canal. It begins at Km. 114.960 and ends at Km. 122.100. It is 250 – 118 m. wide at a depth of 18 m., the bank slope is 3/1. The By-Pass is separated from the main Canal by a submerged island at a depth between 2 and 6 m. The width of the island varies between 200 m. in the North and 66 m. in the South. Some mooring bollards have been installed on the submerged island to be used in case of emergency. The two extremities of the submerged island are marked at Km. 114.970 and 122.150 by a light buoy painted horizontally white and red and showing a flashing white light. The by-pass (East channel) is to be used by Northbound vessels. Southbound vessels use the West channel.

Article 81: Lakes

(A) Lake Timsah (See Plan Book)

Lake Timsah extends from Km. 76.500 to Km. 80.520. In the presence of the new Timsah By-Pass, Lake Timsah will be used mainly as an anchorage area.

(B) Great Bitter Lake (See Plan Book)

There are 2 dredged channels in the Great Bitter Lake. The East is the main channel about 364 m. wide at 18.00 m. depth and dredged to 18.50 m. for Northbound vessels. The West channel 250 m. wide at 14.00 m. and dredged to 14.50 m. depth for Southbound vessels.

These channels divide the Great Bitter Lake into two anchorage areas, one to the East and the other to the West.

Article 82: Floating Bridges

The fixed parts of floating bridges are outside the line of navigational buoys. The bridges may be rigged day or night.

CHAPTER VII: BUOYAGE SYSTEM IN THE CANAL

Article 83: Buoyage

The navigable channel is marked by pairs of light buoys. On the East side Black buoys showing Green lights. On the West side Red buoys showing Red lights.

In the straight parts, the distance between each pair is 1.5 km. in the North Section, and 1.0 km. in the South Section. In the curves the distances will be less than 1.0 km. All buoys in the Canal and its approaches are fitted with radar reflector.

Article 84: Location of Buoys in the Suez Canal See Plan Book.

CHAPTER VIII: TIDES AND CURRENTS IN SUEZ CANAL

Article 85

The Suez Canal is divided in three main sectors according to the nature of tide in each.

The characteristics of each can be summarised as follows:

(A) The Northern Sector

This part is located between Port Said and the Great Bitter Lake.

1. The height of tide at Port Said co-oscillates with the tides of the Mediterranean sea with 0.50 m. extreme tidal range (difference between highest and lowest levels) at Spring tides. This tidal range decreases gradually going South, to be about 0.20 m. at the entrance of Lake Timsah.
2. In this sector, the peak tidal current may reach 1.0 knot (in case of no wind).
3. Currents can be doubled by strong prevailing winds.
4. Peak currents occur about 50 minutes after predicted HW and LW at Port Said.

5. The duration and velocity of currents in this sector are greatly affected by the relative mean sea levels between the Mediterranean sea, the Bitter Lakes and the Red Sea as follows:

(a) *In Summer:* Between July and October, the mean sea level at Port Said is slightly higher than that of the Bitter Lakes. This difference (which reaches its maximum about 0.20 m. in September), due to the great evaporation at the Bitter Lakes, causes the *predominance of the Southward* current in duration and velocity.

(b) *In Winter:* Between December and May, the mean sea level at the Bitter Lakes is slightly higher than that of Port Said. This difference which reaches its maximum of about 0.30 m. in January, causes the *predominance of the Northward* current in duration and velocity.

(B) The Lakes (Timsah and Bitter Lakes)

1. The Lakes along the Canal have an important role in dampening the effects of sudden meteorological changes.

2. The Bitter Lakes with a surface of about 250 sq.km. reduce the vertical movement of the tide to a minimum between Km. 100 and Km. 130.

3. The high Spring tidal range (MHWS) in the Great Bitter Lake may reach 0.25 m.

4. The phase of the vertical tide in the Great Bitter Lake is about 3 hours later than that of Port Tewfik.

5. The vertical tide in Lake Timsah is almost in phase with the tide in the Great Bitter Lake.

(C) The Southern Region

This part is located between Port of Suez and the Bitter Lakes.

1. The height of tide at Suez co-oscillates with the tides of the Red Sea with extreme tidal range of about 1.90 m. at Spring tides. This range decreases gradually going North till the Bitter Lakes entrance where it is 0.15 m. at Genefa.

2. The tidal volume of the Bitter Lakes is very large compared to the tidal volume of the Southern section. Consequently the currents are relatively strong and almost uniform between Port Tewfik and Genefa.

3. In this region the Northward current is called *Flood* and the Southward current is called *Ebb*.

4. Peak currents about 50 minutes after predicted HW and LW at Port Tewfik.

5. At the entrance of the Canal, Km. 159, the *Flood* tide starts at an average of 3 hours after the LW at Suez. The *Ebb* tide 3 hours after HW in Suez.

6. Generally in Summer, the duration of the *Ebb* exceeds the average of 6 hours. In Winter, the *Flood* is the predominant. The *Ebb* is prolonged by "Strong Northerly Winds". The *Flood* is prolonged by "Strong Southerly Winds".

7. In this region the average peak current is about 1.5 knots. In Spring tides, current may reach 2.5 knots.

8. The change of current occurs 5 to 10 minutes later in the bottom of the Canal, than on its surface.

Article 86: Weather Forecast

Six meteorological stations are installed on the Canal area. Information about local weather will be passed to vessels through Pilots.

PART III – COMMUNICATIONS – SIGNALS.

CHAPTER IX: RADIOCOMMUNICATIONS

Article 87: Wireless and Radio Telephony

Masters of vessels are requested to contact the Suez Canal Authority via its wireless station "SUQ" (watch frequencies 425 kHz, 454 kHz and 468 kHz) whenever they want to make sure of the identity of any Suez Canal personnel embarking their vessels, either in the approaches or in the harbours or in the Canal waters. Also in case of any urgent complaints which may need quick investigation.

(A) Vessels must have their W/T and/or Radio Telephony apparatus in good working order before entering the Canal.

They must also be fitted with a VHF set easily operated from the bridge. It will have the frequency range of 156 to 174 MHz (Channels 8, 9, 11, 12, 13, 14, 15 and 16). If not, they will rent one from the Suez Canal Authority for the transit.

(B) "SUQ" transmits on a frequency of 421 kHz.

Vessels communicating with SUQ must transmit on a frequency of 425 kHz, 454 kHz or 468 kHz.

(C) Master shall place their wireless apparatus at the disposal of Pilots during transit through the Canal.

(D) In addition, vessels arriving at Port Said or Port of Suez from sea can call by Radiotelephony.

Article 88: Radiotelephony (VHF)

(A) Radiotelephony for vessels from sea

(1) *At Port Said*

(a) Harbour Office: Call Sign: "Port Said 16" (HP-1) 156.800 MHz. Working Channel 13 (Inner Harbour), Channel 12 (Outer Harbour).

(b) Pilot Vessel and Radar Guidance:

(i) Outside the Harbour: Call Sign: "Port Said 12" (HP-2) 156.600 MHz.

(ii) Inside the Harbour: Call Sign: "Port Said 13" (HP-3) 156.650 MHz.

(iii) East Branch: Call Sign: "Port Said 8".

(c) Measurement Office: Call Sign: "Port Said 73" (M) 156.675 MHz.

(2) *At Port of Suez*

(a) Harbour Office: Call Sign: "Suez 16" (HP-1) 156.800 MHz.

(b) Pilot Vessel and Radar Guidance:

(i) Outside the Harbour: Call Sign: "Suez 11" (HP-2) 156.550 MHz.

(ii) Inside the Harbour: Call Sign: "Suez 14" (HP-3) 156.700 MHz.

(c) Measurement Office: Call Sign: "Suez 74" (M) 156.725 MHz.

(B) Radiotelephony in the Canal (UHF)

Channel No.	*Transmission Frequency MHz.*	*Reception Frequency MHz.*	*Function*
1	415.350	412.850	V/Ls from North (SB)
2	415.600	413.100	V/Ls from South (NB)
3	415.850	413.350	Emergency (EM)
4	416.600	414.100	In Port of Suez Harbour HP (T)
5	416.350	413.850	In Port Said Harbour HP (S)
6	416.125	413.600	Emergency Critical (EMC) (V/Ls out of convoy)

Escorting Tugs – Towing Tugs

Channel 1 – 414.750 MHz.
Channel 2 – 414.775 MHz. } another set
Channel 3 – 414.800 MHz.

Note: Channel 9 (156.450 MHz.) may be used as stand-by Channel at Port Said or Port of Suez.

CHAPTER X: THE SUEZ CANAL VESSEL TRAFFIC MANAGEMENT SYSTEM (SCVTMS)

Article 89: Overview

The SCVTMS is a new integral system for traffic management in the Suez Canal. The system offers the following services:

(a) Continuous monitoring of vessel's position, speed, off-track and gap by means of highly accurate computerised tracking radars (at Port Said, Port Tewfik and Great Bitter Lake), also a dedicated Loran-C position fixing chain (covering the Canal and its approaches).

(b) A dedicated voice communication network that enables direct and uninterrupted communication between Pilots and Movement Centres.

(c) A computerised data base containing vessel's information and transit requirements (e.g. early booking) files.

This system greatly enhances safety of transit in the Suez Canal.

Article 90: Sequence of Events for Vessels Transiting The Canal.

(a) At each Port, a radar covers approximately 35 km. offshore. A vessel approaching the Canal at either end(26) is requested to call the Port Office on one of the frequencies listed in Chapter IX of the present Part. The Harbour Pilot boarding the vessel will have his own portable transceiver. The vessel is requested to declare her position when anchored in the anchorage area (if instructed to do so).

(b) When calling the Port Office for the first time, the vessel is requested to give her international call sign and her Suez Canal file number (if any). This file number will be registered on a special card by the Suez Canal Authority and given to any vessel transiting after June 30th, 1981. If the vessel does not carry a file number, she should so advise the Port Office. This file number is used by the computerised data base system in retrieving data pertaining to the vessel.

(c) Approaching the roads, the vessel is requested to call the Port Office declaring her international call sign. This is essential to start radar tracking of the vessel's speed, position, off-track and separation distances. Before entering the road, the Port Office monitors the vessel by radar.

(d) The Port Office follows the vessel as long as the Harbour Pilot is on board. On entering the Canal, the Canal Pilot will board. On boarding, the Canal Pilot will have a special set (Carry On Receiver Transmitter, called CORT) receiving Loran-C signals from SCVTMS dedicated chain continuously. The time difference calculated by the CORT is not displayed at the CORT. Instead, this information is continuously sent by the CORT to Ismailia centre where it is used to calculate vessel's speed, position, off-track and separation distances.

Circular No. 73/84:

Masters of vessels transiting the Suez Canal are hereby kindly requested to render all facilities and necessary assistance to the Canal Technician boarding their vessels for the purpose of supervising the Electronic CORT during Canal passage.

Article 91: Some Considerations to be Taken into Account

(a) The CORT should be mounted on the West wing of the vessel. The area around should be clear of any obstruction within 10 ft. radius. A trained technician will mount the CORT in place and operate it before disembarking. The CORT power is self-sufficient and does not need any attendance while in operation. At the other end of the Canal it is dismounted by a SCA technician.

(b) After mounting and operating the CORT, the Pilot is requested to report same to Ismailia Movement Office through VHF or UHF (Canal Pilots are equipped with portable UHF sets linked to Ismailia Movement Office). The Pilot is also requested to declare his approximate position, the vessel's "SCA" file number and "Call sign". This is essential to start the Loran-C tracking of the vessel.

(c) Vessels will be tracked simultaneously by radar and Loran-C at the Great Bitter Lake area.

(d) When approaching either end of the Canal (Km. 3 East Port Said Branch or Km. 162.000), the respective Port Office will be handed the responsibility of following up the vessel to sea.

(e) On passing either end, the Canal Pilot will declare his position together with the vessel's call sign and file number.

(f) The Harbour Pilot will then board the vessel while the CORT will be dismounted by a SCA technician.

(g) Any changes in the vessel's characteristics should be reported to Canal Officials to be filed in SCA vessel's file.

CHAPTER XI: SIGNALS

Article 92: Generalities

All signals used in Canal Waters are shown hereafter.

All flags and pendants to be hoisted by vessels, as shown hereafter, should be those in the International Code of Signals.

Night signals shall be hoisted where best seen by other vessels.

---

(26) Ten miles before arrival to Approach Buoy at Port Said. On Passing Separation Zone Buoy No. 1 at Port of Suez.

Article 93: Sound Signals

(A) Normal Manoeuvre

(1) The International Regulation for Preventing Collision at Sea Signals.

"One short blast": I am altering my course to starboard.

"Two short blasts": I am altering my course to port.

"Three short blasts": I am operating astern propulsion.

(2) The signal 5 or 6 short blasts repeated several times at short intervals to say: "I am reducing speed and may have to stop or make fast".

At night besides the blasts, four to five long flashes with the Aldis lamp or signal mast lamp.

(3) The signal one prolonged blast to attract attention. The expression "short blast" means a blast of about 1 second duration.

The expression "prolonged blast" means a blast of 4 to 6 seconds duration.

(B) Obstruction in Channel in all Circumstances

A vessel which under any circumstances causes or finds obstruction in the channel must immediately warn the vessels in the vicinity.

That warning is given by whistle or siren:

4 long blasts meaning: "The channel is not free".

That warning must be repeated every 3 minutes until vessels concerned have answered in the same manner. As soon as they hear the signal mentioned above, the vessels take steps to stop and instruct a Radio Watch, to receive full details of the alert given by the vessel that sent the said signal. The vessel should maintain Radio Watch until otherwise advised.

(C) Engine or Steering Failure Approaching Dredger

In case of engine or steering failure making the vessel not under command, while approaching a dredger, the vessel has to give the signal one long blast followed by two short blasts (– · ·).

(D) Vessel Mooring Voluntarily for Fog or Sand

During the mooring manoeuvre, the vessel sounds every 2 minutes a series of 6 short blasts.

Once made fast (Signal Garage Volontaire hoisted), the vessel must rapidly ring the bell for 5 seconds at intervals not exceeding one minute. For vessels over 350 ft. (106.75 m.) they will have to ring the bell forward and in addition a gong aft, at intervals not exceeding one minute, (a gong or any other instrument which tone and sound will be different to that of the bell forward).

These signals are stopped when the vessel is told that all vessels concerned have been notified of her mooring.

(E) Vessel Aground or Across Canal

See Article 93 (B) Obstruction in Channel.

(F) Between Vessels and Tugs

(1) Vessel Aground in Canal

Signals between a vessel aground in the Canal and a tug.

These signals are for manoeuvre of refloating, as long as the vessel has one of the grounding signals.

Pull slowly	(– ·)
Increase	(– · ·)
Stop	(– –)
Slack the line	(– – ·)
I am to let go	(– – · ·)

These signals are to be repeated by the tug.

(2) Vessel Towed in the Canal

Signals between a vessel towed in the Canal and a tug.

Radiotelephony is used as communication between ship and tug, besides the following signals.

By Day (Flag)		*At Night (Sound)*
Slow speed	: "A" hoisted above bridge	(– ·)
Half speed	: "A" hoisted half way	(– · ·)
Normal Tow	: "A" hoisted right up	(– · · · ·)
Steady	: "A" lowered	(– –)

(Or sound signals if considered surer).

The sound signals are to be repeated by the tug. The flag signal remains flying as long as the tug is to give the signalled speed. By day, every change of flag signals is followed by a long blast.

(G) Signals Between VLCCs and Escort Tugs

(1) Attention to Start Manoeuvre

Prolonged blasts given by the ship.

(2) Stern Tug

Bring my stern to starboard	(·)
Bring my stern to port	(· ·)
Keep my stern in the axis	(· · ·)
Pull my stern aft slowly	(· · · ·)
Increase pulling my stern up to half speed astern	(· · · · ·)
Increase pulling my stern up to full speed astern	(· · · · · ·)
Stop pulling (very long blast)	(——)

(3) Forward Tug

Give me a push on starboard bow	(–)
Give me a push on port bow	(– –)
Stop pushing	(– – –)

Article 94: "See Plan Book", pages P263 – P280.

WADI FIRAN: 28.44 N. 33.13 E.

An open anchorage on Sinai coast in the Gulf of Suez about 85 nautical miles South of Suez.

There are 6 large and conspicuous storage tanks in 2 parallel rows of 3 tanks each lined on shore near the pumping station and painted with aluminium.

DOCUMENTS:
4 Crew Lists.
2 Stores Lists.
2 Vaccination Lists.

PILOTAGE: Pilot boards each tanker at anchorage.

ANCHORAGE: About 0.75 miles W. to S.W. of No. 1 Berth.

RESTRICTIONS: Mooring and unmooring during daylight only.

RADIO: It is essential that vessels bound for Wadi Firan give 72 hours and 24 hours notice to both "Petmisr Cairo 2049 UN" and "Cop UN 2449", to be accepted on the berth without delay. Contact Abu Rudeis on VHF Channel 16 and/or Channel 6 when in range. There is no radio station at Abu Rudeis. Pilots working on Channels 6 and 8.

VHF: VHF radio is used for communication between tanker and pumping station. Also see "Radio".

TUGS: One tug of 2,000 h.p. available for mooring and unmooring.

BERTHING: Tankers must approach berth from West, never from North, and must follow same track on their departure to be entirely clear of shallow water. Tankers at berth will be connected to shore pumping station by submarine hoses for pumping crude oil.

One mooring launch available. Both ship's anchors are used, the port anchor first. Normally 4 or 5 × 5.5 in. circumference stern wires from buoy are taken on board. Special care should be taken when mooring in Southerly winds. If blowing strong, berthing may be delayed.

	Berth 1	*Berth 2*	*Berth 3*
LOA (ft.)	1,200	1,000	Under
Max. Draft (ft.)	75	58	Design
Max. d.w.t.	75,000	50,000	
Under water crude line (in.)	24	16	13⅜
Hose connection	Amidships 12 in.	Astern 12 in.	Amidships 8 in.

Reception facilities for 5,000 cu.m. of dirty ballast.

Two tankers can moor simultaneously but only one may load.

DENSITY: 1032.

FRESH WATER: No. 3 Berth has 1×10 in. sealine and 1×8 in. hose for fresh water discharge. But not available to vessels.

FUEL: Not available.

AUTHORITY: Belayim Petroleum Co., 155, Sharia Mohamed Farid, Cairo, Egypt. *Tel:* 913233 (5 lines). *Telex:* 92449, 92373. "Petbl Un". *Cables:* "Petrobel". *Contact:* Captain Wassim Rady, Manager – Marine Division.

NOTES

Please also advise Shipping Guides Ltd.

El Salvador

ACAJUTLA: 13.35 N. 89.50 W. (See Plan Book)

PORT LIMITS: Not determined.

DOCUMENTS:

Consular Documents:

Only the requirement for visa of shipments of firearms and narcotics, which must be carried out at the port of embarkation, remains in force.

Prior to Arrival:

Arrival Notice:

24 hours before the vessel's arrival, notification is submitted in writing to the Autonomous Port Executive Committee (CEPA) on the time of arrival and the number of stevedores that will be needed. The CEPA serves as a kind of single shipping agency. In that capacity, it arranges for entrance and clearance of vessels, payment to other Official Agencies and draws up the port account for the ship's Agent.

Information on Cargo for the Port:

Prior to the vessel's arrival, the following documents are to be submitted to CEPA:

16 copies of the Cargo Manifest.
1 set of the Shipper's Manifest.
1 Mail Guide.
4 copies of the cargo distribution for each hold.
1 Stowage Plan.
1 List of Container Contents.
14 to 16 Cargo Tally Books, depending on the number of stevedores.

If this information is not available before the vessel's arrival, it may be submitted at the time of the reception visit (boarding party).

On Arrival:

Type of Documents	*Number and Distribution of Documents*				
Basic Forms	*Captain of Port*	*Customs*	*Plant Health*	*CEPA*	*Total*
General Declaration	1	1	1	1	4
Cargo Manifest	1	2	1	16	20
Crew List	2	1	1	1	5
Passenger List	2	1	1	1	5
Ship's Stores List	1	1	1	1	4
Crew's Effects Declaration	–	–	–	–	–
Maritime Health Declaration	1	–	–	–	1
Mail List	–	–	–	1	1
Additional Documents:					
Clearance from Last Port	1	–	–	–	1
Consular Manifest	–	1	–	–	1
Set of Bills of Lading	–	–	–	1	1
Cargo Distribution	–	–	–	4	4
Contents of Containers	–	–	–	1	1
Stowage Plan	–	–	–	1	1
Cargo Tally Books	–	–	–	14/16	14/16

Prior to Departure: The CEPA draws up the clearance permit and has it signed by Customs before submitting it to the Captain of the Port. When loading and unloading is completed, a representative of the Captain of the Port delivers the clearance permit on board.

PILOTAGE: Compulsory. *(a)* Vessels should apply for Pilots calling VHF radio station through Channel 27 which operates on 157.36 MHz to receive and 161.95 MHz to transmit. Channel 16 operates on 156.8 MHz ships calling and safety.

Notice of ETA must be made to Port Manager not less than 48 hours before arrival at the port limits. Confirmation of ETA is required 10 hours before arrival. VHF radio station is on service 24 hours a day, so vessels may call at any time. *(b)* Pilot boards vessel between one or two km. before arrival at the port limit; where vessels should stay with engine running, Pilot ladder ready. Gangways should be raised and folded. Derricks and cranes inboard and anchors ready for berthing. Pilot is equipped with walkie talkie for communicating with tugs. *(c)* Inform radio station if cargo manifests are carried on board or if they were air mailed to vessel's Agent.

ANCHORAGE: There is no specific anchorage area. Water depth is over 15 m. Bottom nature: Sand laying over volcanic tuff.

RESTRICTIONS: Vessels can berth any time day or night. Main engines should always be on short notice, due to swell as mooring lines often break. Vessels are advised to make use of extra shore mooring lines which may be provided if Agent makes request. The least depth in the berths is 30 ft.

MAX. SIZE: "C" Pier (breakwater berth) has 12 m. of water alongside and can berth vessels of up to 40,000 d.w.t. It is well fendered. Containerised, general and bulk cargoes can be handled at this pier.

Also see "Tankers".

HEALTH: On arrival, vessel should always fly a yellow flag. If there is any suspicion of illness aboard, Master has to inform by radio 24 hours in advance, indicating nature of disease and all details.

RADIO: Advise ETA to Agents at San Salvador 96, 48, 24 and 12 hours before arrival. Telex available at Port Facilities. Area Code 301. Telex No. 27000.

VHF: There is no special time for calling. VHF service is open 24 hours a day. Contact through Channels 16 and 27.

Business operations: Channel 27 receives on 157.36 MHz and transmits at 161.95 MHz.

Channel 16 and 156.8 MHz for ship calling and safety.

RADAR: There is no port radar service.

TUGS: Tug lines are not used. If required, the tug's line will be used and the charge is included in the docking and undocking services. There are four tugs available with the following capacities: 800, 1,200, 1,400 and 1,800 h.p. Tugs meet vessels off the docks at all times.

SPECIALISED CARGO HANDLING FACILITIES: Pier "A" with liquid cargo facilities for vegetable, animal and mineral oil, as well as chemical liquids.

BERTHING: Vessels can berth in safety at any time during day or night.

In the case of cargo vessels it should be stressed that the swell experienced alongside is sometimes a serious problem and Masters would be well advised to make use of the shore lines offered on hire to save undue wear and tear on their moorings.

Berth	*Max. Draft (m.)*	*Depth at MLW (m.)*	*Vessel Length (m.)*
A–1	9	10	140
A–2	10	12	160
B–3	9	10	140
B–4	10	12	195
B–5	9	10	180
B–6	9	10	180
C–7	12	13.7	128
C–8	12	13.7	128

There are three piers. The first one "A" consists of a breakwater mole 760 m. long. The access mole in its first section from land side to pier "B" has a width of 10.50 m. and is 260 m. long. The second section from Pier "B" to Pier "A" has a width of 7 m. and is 180 m. long. The overall length of access is 450 m.

Pier "A" is 37 m. width and 310 m. long, it consists of a mooring dock with two berths called "A–1" and "A–2", for general bulk and liquid cargoes and has a transit shed of 4,500 sq.m. At the end of Pier "A" is constructed another breakwater section in a N.W. direction, in line with the existing Pier "A", connecting this pier with the Pier "C" with a length of 35 m. Then direction of Pier "C" is changed to the North, with an angle of 30° and extended over 270 m. with a width of 18 m. This breakwater offers two berths, "C–7" and "C–8", capable of handling containerised, general and bulk cargoes.

The third pier called "B", with four berths is 370 m. long and has a free width of 28 m. This pier handles containerised (max. gross weight 20 tonnes), general and bulk cargoes.

CRANES: Two semi-portic cranes of 3 tonnes capacity are available at Pier "A". At Pier "B" there is a 25 tonnes crane for general bulk and containerised cargoes. Pier "B", berths "B–5" and "B–6" as well as Pier "C", berths "C–7" and "C–8", have no cranes available and vessels are required to use their own cranes or derricks.

BULK CARGO FACILITIES: For berthing length of quays and max. permissible draft in salt water at MLW see "Berthing".

Cargoes handled: Importation: Grains, fertiliser, soda ash, phosphoric rock sulphur, soya flour, etc.

Exportation: Raw sugar cane, cotton seed meal and flour, grains, etc.

Berth Equipment: 25 tonne cranes which operates for imports at Berth "B–3" and "B–4" and unloads vessels with clamshells of different capacities ranging from 5 cu.m. to 9 cu.m., and feeds the conveyor systems through a hopper of 85 tonnes. Maximum height of discharging gear above MWL: 19 m.

Conveyor System: Two belt conveyor systems exist for importation and exportation. Both systems interconnected with port warehouses as well as private silos and warehouse facilities. Loading/discharge rates: 500 tonnes/p.h.

BRIDGES: None.

STEVEDORES: ETA advice required to arrange gangs, should be made 12 hours before vessel's arrival. A line handling gang is always standing by and also attends gangways without charge. Stevedores are available for nightwork.

Average load and discharge rates:

General cargo	35 tonnes/p.h.
Bulk cargo	190 tonnes/p.h.
Liquid cargo	110 tonnes/p.h.

MEDICAL: There are doctors in the port who attend normal cases and specialists and hospitals in Sonsonate City (20 km. by road) and at San Salvador, capital of the Republic, 85 km. from the port.

TANKERS: Mooring at RASA (Refineria de Acajutla Sociedad Anonima). This refinery is the property of Esso Standard Oil and Shell Petroleum Co.

Buoy berth: Depth of water is about 15 m. Diameter of buoy hoses: 2×25 cm. for clean products and one of 75 cm. for crude and fuel oil. There are no facilities for residue discharge.

DENSITY: 1027.

FRESH WATER: Delivered by hoses. Rate approximately 40 t.p.h., cost US$1.60 per metric ton.

FUEL: Possible to supply diesel (Grade "2") and Bunker "C" only in limited quantities, delivered by tank truck. Viscosities: Bunker "C" 175 sec. Saybolt furol. Diesel 40 sec. Saybolt universal.

FIRE PRECAUTIONS: Inspection of hoses; no smoking; not allowed to weld or light any kind of fire; isolation of the place of loading and discharging operations; fire equipment to be ready to use at all times.

CONSULS: There is a Consular representative of The Republic of Guatemala at this port and most countries have Consular representatives in San Salvador City, Capital City, at 85 km. from the port.

REPAIRS: Possible to make minor engine and deck repairs. Other repairs can be carried out at Capital City, San Salvador. Any repairs that will delay sailing of vessel cannot be made without previous and specific authorisation of the Port Manager.

DRY DOCKS: None.

SURVEYORS: At the port there is P & I representative and surveyor and independent marine surveyors. G.L. Surveyor at San Salvador City.

GANGWAY/DECK WATCHMEN: Gangway is watched by Customs Police and marine members without charge. Deck watchmen available on request.

HATCHES: The opening and closing of hatches is carried out by stevedore gangs, and its costs are included in the loading or discharging tariff rate. Whenever vessel's Master decides to carry out these operations with his crew, a stand-by charge will be debited.

CUSTOMS ALLOWANCES: Customs only allow tobacco for personal use to be taken out of the vessel. Not allowed to take any wine or spirits out of the vessel.

CARGO GEAR: Ship's gear has to be used on request. Semi-portic cranes for general cargo may be used at Berths "A–1" and "A–2". Heavy lift crane at Berths "B–3" and "B–4". This crane is also used to unload bulk cargoes to a conveyor belt system.
REPATRIATION: There are facilities for repatriation, it is also possible to effect crew changes.
AIRPORT: The "El Salvador International Airport" is 134 km. from the port (by road), which is served by regular airlines.
TIME: No alterations in time during the year; local time is GMT minus 6 hours.
HOLIDAYS: The port has the following official holidays:

(*)1st January; 2nd February; (b) Thursday, Friday and Saturday of Easter Week; (*)1st May; (c) 10th May; 3rd and 6th August; 15th September; 15th October; (*)2nd November; (a) 24th; (*)25th and (a) 31st December.

(*) No work.
(a) Port operations cease at 0700 hrs.
(b) Port operations cease at 1700 hrs. on Thursday until 2300 hrs. on Saturday (Easter Week).
(c) 10th of May port operates only from 0700 hrs. until 1500 hrs.

POLICE/AMBULANCE/FIRE: National Police (Sonsonate) Tel: 51-0838; Ambulance (Sonsonate) Tel: 51-0374 – 51-0200; Fire Department (CEPA, Acajutla) Tel: 52-3200.
TELEPHONES: No possibilities of installing telephones aboard.
SERVICES: No facilities to discharge tank-washings. No equipment for tank cleaning or facilities to adjust compasses. Minor electronic repairs at Agent's request.
SHORE LEAVE: Allowed.
IDENTIFICATION CARDS: Valid passport must be shown to Authorities on request.
REGULATIONS: None.
DELAYS: Normally there are no delays to be expected during berthing, loading, discharging or bunkering. Bunkering operates at a slower rate than normal loading and discharging.
GENERAL: Quarantine Authorities pay strict attention to garbage and any residue must be kept aboard properly covered. It is forbidden to drop garbage or any residue in the sea whilst vessel is in the port area.

In the case of swell, special hawsers and wires can be requested on hire at US$ 1.50 on every 1,000 g.r.t. per day or part of a day.
DEVELOPMENTS: CEPA intends to provide specialised facilities for handling containers by means of a 300 m. pier with a depth of 12.5 m. MLLW. It will have an electric crane of 40 tonnes capacity and a ramp for Ro-Ro vessels. It will be in service late in 1984.

SHIPMASTER'S REPORT: 1979.
Port Limits: No port limits stated.
Documents:
Clearance from last port.
5 Crew Lists.
4 Voyage Memorandums.
4 Store Lists.
4 Passenger Lists, (negative required).
1 Ship's Health Declaration.
Manifests prepared by the Agent:
2 Copies for the Customs.
1 Copy for the Port Captain.
1 Copy for Quarantine Inspector.
16 Copies for the Stevedores.

Customs seal the spirits and tobacco, but not the beer. No private declarations required.

Boarding party of about 8 persons board the vessel with the Agent who will attend to documents and other needs of Officials.
Pilotage: Pilotage is compulsory, Pilot boards vessel up to 3 miles from "A" Pier.
Restrictions: Vessels can berth any time day or night, main engines should always be on short notice, due to swell at berths, as moorings often part. Vessels are advised to make use of extra shore moorings provided, these can be requested via the Agent.

The least depth at the berths is 30 ft.
Max. Size: "C" Pier (outer berth) has 46 ft. of water alongside and can take vessels of up to 40,000 d.w.t., it is well fendered. General cargo and liquid cargo can be handled at this berth.
Health: Standard Health message to be sent to Agents who will make the necessary arrangements, every vessel coming in should fly the "Q" flag, this is to avoid fines.
Radio: Advise ETA to Agents at San Salvador 96, 48, 24 and 12 hours before arrival. For Telex messages use "WLO" Mobile. For W/T messages use "KSF" San Francisco.

For Port Control use VHF Channels 16 and 27. (Range 40 miles). Hours of operation 24 hours. Call sign: "Acajutla Tower" also R/T on 2182, 2163 and 2169 kHz. Tugs work on 2182, 2163, 2196, 2638 and 2738 kHz.
Radar: There is no Port Radar service.
Tugs: There are three tugs available with the following power: 800 h.p., 1,200 h.p. and 1,800 h.p. Tug's lines are used at no extra charge.
Berthing:

Pier	*Berth No.*	*Depth* (m.)	*Remarks*
"A"	1	10.0	General cargo, 2×3 ton cranes. Liquid cargo (Berth No. 1)
	2	12.0	
"B"	3	9.1	General cargo, bulk cargo. 25 ton crane on Pier "B".
	4	9.1	
	5	9.1	
	6	9.1	
"C"	7	14.0	General cargo, liquid cargo No cranes available.
	8	14.0	

Stevedores: Arranged by the Agents, and based on information passed in ETA advise, vessels arriving from New Zealand may well be at the port before the cargo plans arrive. Stevedores work round the clock.
Medical: Doctor available but nearest hospital 13 miles away, Doctor will board the vessel, advise the Agents before arrival.
Density: Observed density 1025.
Fresh Water: Available at about 20 t.p.h.
Fuel: Only available in emergency.
Provisions: Limited quantity available, 24 hours notice required.
Fire Precautions: Tugs have fire fighting equipment on board. As no phones on board, contact can be made on VHF with "Acajutla Tower".
Consuls: British Vice-Consul at Sansonate 14 miles away from the port.
Repairs: Minor repairs only possible.
Dry Dock: No dry dock available.
Surveyors: Arie Van-Helden (Lloyd's Agents only), San Miguel, Cutuco, La Union.
Gangway/Deck Watchmen: Shore gangway available and recommended due to swell at the port, full deck patrol necessary during night time.
Hatches: For safety it is better to open and close the hatches with the ship's crew, which is allowed at this port.
Cargo Gear: Ship's gear and shore cranes used depending on which berth the vessel at.

There are no Reefer points ashore. There are no Tower Units ashore. Containers can be landed on Flats. Fork Lift trucks are well maintained.
Repatriation: Not advisable from this port.
Airport: Ilopango Airport is 8 miles from San Salvador, flights from this airport connect with international flights at Mexico City.

There are three flights a week from Mexico City to London.
Holidays: December 25th, January 1st, also Special Holiday for this region being August 5th and 6th. (From 1500 hrs. 5th to 1900 hrs. on the 6th).
Police/Ambulance/Fire: This is covered by the Agent who remains on board all the time the vessel is in port, the Agent will require a room to live in whilst he remains on board.
Services: No special services available.
Shore Leave: Permitted.
Identification Cards: Not required, but Crew Members are advised to carry some means of identification.
Regulations: No unusual regulations.
Delays: Vessels have to leave the berth due to swell, this decision is left to the Master of the ship.
General: Vessels alongside the berth, move quite a lot, but the shore fenders are well maintained. Stevedores will unpack containers on board the vessel.

AUTHORITY: Comision Ejecutiva Portuaria Autonoma (CEPA), Boulevard de Los Heroes, Torre Roble, San Salvador, El Salvador, Central America. *Tel:* San Salvador (Area Code 503) 24-1133; Acajutla 52-3200. *Telex:* (Area Code 301) 20-0194. *Cables:* CEPA. *Contact:* Pedro L. Mena A., Port Manager, Acajutla.

LA LIBERTAD: 13.29 N. 89.19 W.

CLOSED TO CARGO VESSELS SINCE MAY 1976

DOCUMENTS: Required:
By Port Captaincy
Clearance from last port called.
2 Crew Lists.
1 Store List.
1 Passengers List. In case passengers disembarking, passports to be countersigned by the migration delegate have to be shown.
1 Voyage Memorandum.
1 Manifest of Cargo from each port.
By Doctor Delegate of Health
Health Certificate.
1 Voyage Memorandum.
By Quarantine Delegate
Voyage Memorandum.
Crew List.
Cargo Manifest, one for each port.
By CEPA Delegate
Voyage Memorandum.
Crew List.
2 Store Lists.
Cargo Manifest (5 copies).
Tally Books for cargo.
Number of tons of diesel on board.
Number of tons of water.
By Customs Delegate
Voyage Memorandum.
1 Crew List.
Passenger List.
Store List.
Cargo Manifests countersigned by the Consuls each port of origin and 7 more copies for each one.

PILOTAGE: Vessels requiring a Pilot use International Code signals. No official pilot service.
ANCHORAGE: Depths of 60 ft. available. Vessels can anchor at a minimum distance of 1 km. from the quay. All dry cargo vessels work cargo at the anchorage. No quay berths available.
HEALTH: On arrival vessel should anchor and wait visit of Port Authorities. Any suspected diseases should be notified 24 hours in advance.

RADIO: VHF Service with transmission and receiving frequency of 27.075 MHz. In the dock the set is 100 watts AM, transmitter/receiver by 3 Channels:

Channel 1, 2163 kHz calling the tugboats.
Channel 2, 2182 kHz calling and Safety.
Channel 3, 2196 kHz calling the ships.

In the tugs, the sets are 60 watts AM, transmitter/receiver by 5 Channels:

Channel 1, 2163 kHz calling the dock.
Channel 2, 2182 kHz calling and Safety.
Channel 3, 2196 kHz calling the ships.
Channel 4, 2638 kHz calling the ships.
Channel 5, 2738 kHz calling the ships.

The following set is a monitor to receive emergency calls: 2163 and 2196 kHz.

TUGS: No tugs required or available.

STEVEDORES: 24 hours notice required to arrange gangs and barges.

MEDICAL: Inform Agent as soon as possible to arrange a medical visit. The port has doctors to attend normal cases, and there are specialists and hospitals in San Salvador (capital of the Republic) at 35 km. by road from this port.

TANKERS: At Esso Standard Oil, S.A. terminal, vessels anchor and moor to 3 buoys about 900 yards S.E. of the shore and about 1,000 yards S.S.W. of the pier. Pipe-line extends from La Puntilla in a S.E. direction. Two pipe-lines for discharging products to Esso Standard Oil, S.A. The end of each pipe-line is marked by a metallic buoy, the cargo hoses for No. 1 and No. 2 pipe-lines are connected by separate chain to a "Spreader" which by single chain is attached to a metallic marker buoy. On the "Spreader" there is marked, by welding, 1 and 11 where the chains are attached, indicating what pipe-line they are connected to. Ship's crew is used in connecting and disconnecting cargo hoses.

Vessels should moor only on high water during daylight hours; however, they may unmoor day or night. Launch available for mooring and running lines. Approach is made from the Eastward on a true course 270°, a marker buoy is placed temporarily at a distance of 700 ft. seaward from end of pipe-lines to guide vessel in mooring operations. The marker buoy should be passed on the inside at a distance of 50 ft. Port anchor should be dropped first when the end of the pier is in true bearing 006°. When about 7 shots of chain have run out, the starboard anchor should be dropped. The stern of vessel will swing or may be worked to Northward (starboard). A mooring line should be run to the port stern buoy from port side assisting in swinging the vessel into position. Vessel should tie up securely with 3 lines to each buoy, and anchor spread 60° with 60 – 76 fathoms of chain on each. The eyes of all lines to buoys should be well protected to prevent chafing on the buoys. When in position, the pipe-line hose buoy is taken on board at the starboard side.

DENSITY: Salt water.

FRESH WATER: Not available.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: There is a service of watchmen provided by Customs.

OPENING/CLOSING HATCHES: Carried out by stevedores.

SHIP CERTIFICATES:

Ship's Register.
Derat Certificate.
International Health Certificates required.

CUSTOMS ALLOWANCES: Only tobacco for personal consumption may be taken ashore. No wine or spirits to be taken ashore.

CARGO GEAR: Vessels' cargo gear to be in good condition with certificates of capacity and safety.

IDENTIFICATION CARDS: Not required if crew members possess passports.

CONSULS: In the capital, San Salvador, 35 km. from the port, there are consulates for most countries.

REPAIRS: It is not possible to have repairs.

REPATRIATION: Facilities available.

AIRPORT: There is an international airport served by regular airlines in San Salvador, distance approximately 46 km. from the port.

TIME: GMT minus 6 hours. No alteration.

HOLIDAYS: Festivals: Saturday of the Holy week, 14th April, 10th May, 22nd June, Corpus Christi, 5th August, 12th October, 24th October, 5th November, 7th December, 24th December, 31st December. Legal holidays: 1st January, Maundy Thursday and Good Friday, 1st May, 6th August, 15th September, 2nd November, 8th December, 25th December. The port is only completely out of work on the following days: 1st January, Good Friday and 25th December.

POLICE/AMBULANCE/FIRE: National Police (La Libertad), 35-3175; Ambulance (San Salvador), 21-9406; Fire (San Salvador), 21-8661.

TELEPHONE: It is not possible to place telephones on board.

GENERAL: Quarantine Authorities prohibit removal of meat from the vessel.

SHORE LEAVE: Crew is allowed to go ashore.

AUTHORITY: Comision Ejecutiva Portuaria Autonoma (CEPA), Torre Roble, Boulevard De Los Heroes, San Salvador, El Salvador. *Tel:* 24-1133. *Telex:* (301) 20-194. *Cables:* CEPA. *Contact:* Ing. Julio O. Gavarrete L., Port Division Manager.

LA UNION (Cutuco): 13.20 N. 87.50 W.

(See Plan Book)

DOCUMENTS: *Consular Documents:*

Only the requirement for visa of shipments of firearms and narcotics, which must be carried out at the port of embarkation, remains in force.

Prior to Arrival:

Arrival Notice:

24 hours before the vessel's arrival, notification is submitted in writing to the Autonomous Port Executive Committee (CEPA) on the time of arrival and the number of stevedores that will be needed. The CEPA serves as a kind of single shipping agency. In that capacity, it arranges for entrance and clearance of vessels, payment to other Official Agencies and draws up the port account for the ship's Agent.

Information on Cargo for the Port:

Prior to the vessel's arrival, the following documents are to be submitted to CEPA:

16 copies of the Cargo Manifest.
1 set of the Shipper's Manifest.
1 Mail Guide.
4 copies of the cargo distribution for each hold.
1 Stowage Plan.
1 List of Container Contents.
14 to 16 Cargo Tally Books, depending on the number of stevedores.

If this information is not available before the vessel's arrival, it may be submitted at the time of the reception visit (boarding party).

On Arrival:

Type of Documents	*Number and Distribution of Documents*				
Basic Forms	*Captain of Port*	*Customs*	*Plant Health*	*CEPA*	*Total*
General Declaration	1	1	1	1	4
Cargo Manifest	1	2	1	16	20
Crew List	2	1	1	1	5
Passenger List	2	1	1	1	5
Ship's Stores List	1	1	1	1	4
Crew's Effects Declaration	–	–	–	–	–
Maritime Health Declaration	1	–	–	–	1
Mail List	–	–	–	1	1
Additional Documents:					
Clearance from Last Port	1	–	–	–	1
Consular Manifest	–	1	–	–	1
Set of Bills of Lading	–	–	–	1	1
Cargo Distribution	–	–	–	4	4
Contents of Containers	–	–	–	1	1
Stowage Plan	–	–	–	1	1
Cargo Tally Books	–	–	–	14/16	14/16

Prior to Departure: The CEPA draws up the clearance permit and has it signed by Customs before submitting it to the Captain of the Port. When loading and unloading is completed, a representative of the Captain of the Port delivers the clearance permit on board.

PILOTAGE: Obtained usually through Agent, can be cable-requested to Port Captain-La Union. Fenadesal has availability to dock and undock vessels any time required.

ANCHORAGE: La Union Bay – up to 34 ft. Approximately 14 Class II and a large number of Class III anchorage berths are available in the harbour. 5 Class II berths are in the vincinity of the pier in depths of 33 ft. to 30 ft., and approximately 9 more, in depths of 70 ft. to 30 ft., are just Westward of Isla Zacatillo. The first area has a mud bottom; the second is sandy and rocky. The large number of Class III berths are in an area Northward of the pier and in the area between the 2 anchorages providing Class II berths. The least depth in each of the areas is 25 ft. A large number of relatively unsheltered anchorage berths of all classes are available outside the harbour in the Gulf of Fonseca.

RESTRICTIONS: Enter any time – preferable on flood tide with draft over 24 ft.

MAX. SIZE: Largest vessel that can be accommodated in harbour would occupy an anchorage berth with a min. depth of 43 ft. and a diameter of 3,300 ft. Largest vessel that can be accommodated alongside wharf would occupy a berth with least depth of 25 ft.; length is not a limiting factor, although a max. 550 ft. is recommended due to strong currents, 3 – 4 knots, and pressure on part of any vessel extending for any greater distance beyond length of wharf.

HEALTH: Disease should be reported. Pratique necessary on each occasion.

RADIO: Direct to Agents or Fenadesal, Telex: 20-194, Area 301, San Salvador.

TUGS: No tugs required.

BERTHING: Berthing usually carried out on slack tides due to cross currents, up to 3 – 4 knots. The estimated military port capacity is 1,800 tons of general cargo per day. Port can accommodate 2 standard-type ocean-going cargo vessels, and possibly one alternative class T/C (small ocean-type tanker under favourable conditions) alongside berths, and approximately 14 ocean-type cargo vessels, and a large number of Class III (coaster-type cargo vessels) at anchorage berths. Roll-on/roll-off pier, depth alongside 16 ft. LW.

STEVEDORES: Prior advice preferable. Stevedore force consists of 9 gangs of up to 16 men per gang for on-board work. Similar gangs are available on pier, and up to 300 labourers, crane and fork-lift operators comprise shore gangs.

MEDICAL: Services available – no special restrictions.

TANKERS: Drafts 25/34 ft. fore and aft. Tankers of up to 550 ft. in length can be accommodated at either side of pier, where adequate connections of 6 in. – 8 in. and 10 in. pipe-lines are located. Largest vessel that can be accommodated alongside would occupy a berth with a least depth of 25 ft.; length is not a limiting factor, except as noted previously.

FRESH WATER: Four 2 in. connections on each side; volume estimated at 10 t.p.h

FUEL: Bunkers and diesel – can be delivered when berthed.

GANGWAY/DECK WATCHMEN: Not required – National Marines on guard.

OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCE: Not controlled, but restricted ashore.
IDENTIFICATION CARDS: Passes for leaving ship to have Master's signature.
CONSULS: Only Honduras is represented.
REPAIRS: No facilities.
REPATRIATION: Can be arranged.
AIRPORT: "El Salvador", 102 miles away in the "Comalapa's Valley".
TIME: GMT minus 6 hours. No alterations.
HOLIDAYS: Easter Thursday, Good Friday. Port not worked only on those dates.
POLICE/AMBULANCE/FIRE: In La Union – Close to the Port.
TELEPHONES: Available.
SHORE LEAVE: Allowed.
AUTHORITY: Ferrocarriles Nacionales de El Salvador (Fenadesal), Cutuco-La Union, El Salvador. *Contact:* Fernando Rodriguez Yudice, Port Manager.

Ferrocarriles Nacionales de El Salvador, Apartado Postal 2292, San Salvador, El Salvador C.A. *Tel:* 21-8940, 22-9000. *Telex:* (301) 20-194. *Cables:* Fenadesal.

NOTES

Please also advise Shipping Guides Ltd.

Equatorial Guinea

GENERAL

PIRACY/TERRITORIAL WATERS: *Shipmaster's Report:* Whilst steaming from Lagos towards Douala (passing North of the island Fernando Poo which is considered the normal route) the vessel was hailed at 0640 GMT by Equatorial Guinean Patrol Boat "LP 009" with two 20 mm. double automatic guns pointed at vessel. The vessel's position was Lat. 03° 48.4′ N., Long. 09° 03.0′ E. (about 10 nautical miles from the island).

An Officer with the rank of Lieutenant and 2 men boarded the vessel. They claimed that the vessel had violated Equatorial Guinean territorial waters having passed inside the 12 nautical mile limit. The Officer wished to take a crew member ashore to prove that the vessel has been boarded, but when the vessel's Master protested, the Officer claimed cases of whisky as proof. Having no alternative, the vessel's Master was forced to accept and the patrol boat departed 0745 GMT.

BATA: 01.52 N. 09.46 E. (See Plan Book)

SHIPMASTER'S REPORT

Roadstead with single point mooring buoy connected to the shore with 6 in. pipe-line, 6 in. hose: (everything in a deplorable state). No tugs or Pilots available. Master should have local knowledge when approaching berth in hours of darkness. Vessels are moored with 2 anchors forward and 2 ship's lines (plus two 8 in. shore lines) to the single point mooring buoy. 5 lengths of 15 m. hose available. Preferable stern discharge connection to be used. Max. pressure: 4 kg./sq.cm. All grades through this line. Linewash of water in between the different grades. There is rubber ball for cargo separation.

ADVICE: 1. In view of the deplorable state of buoy, lines and hose, Master should be very careful in mooring his vessel – which has to be done by himself – in order not to damage same.

2. Master should have ship's motorboat ready to run ship's lines to the buoy because motor launch, which is supposed to do this is very old and liable to breakdown at a crucial moment.

3. Anchors should be dropped in a position S.W. of the buoy in order to stay well clear of the unmarked wrecks, in good holding ground with 4 to 5 lengths of chain.

4. Tidal currents move the ship relative to the mooring buoy – so it is necessary to heave anchors tight – bearing in mind that the construction, etc. of the buoy is very weak.

5. The buoy carries a light but the light does not work. Anyway mooring after dark is not advisable.

DOCUMENTS: Only a small customs post available here:

1 Cargo Manifest.
1 Store Manifest.
1 Crew List.

CUSTOMS ALLOWANCES: No restrictions – no sealing of bonded stores.

SHORE LEAVE: Allowed by ship's boat.

RADIO COMMUNICATION: None. Though there are officially coast radio stations in this country, they do not operate on schedule. Telegrams should be sent via coastal radio stations of other countries. No VHF. Also see "Purser's Report", Rey Malabo.

PUERTO MACIAS (Puerto Nuevo): 01.49 N. 09.44 E.

Situated about 1 mile South of the mouth of the Rio Ekuku. This is quite a new jetty – developed in 1973 – shaped like the letter "L", where the long leg of this "L" is connected to the shore and 4 dry cargo vessels can moor alongside the short leg in about 14 m. of water. Every vessel has on her off-shore side 2 mooring buoys to assist in mooring and unmooring. No tugs available. Though it is stated that a Pilot is available, this information should be treated as unreliable. The pier is used for the discharge of general cargo and the loading of logs and sawn wood. According to information received this jetty will be made available to tankers for discharge of oil products.

DOCUMENTS: See "Bata". This new jetty falls under the jurisdiction of Bata Authorities.

RADIO COMMUNICATION: See "Bata".

SHIPMASTER'S REPORT: October 1979.

Documents:

Crew List	6 copies	(vessel's care)
Passenger List	6 copies	(vessel's care)
List of Ports of Call	6 copies	(vessel's care)
Crew Declaration	6 copies	(vessel's care)
Store List	6 copies	(vessel's care)
Cargo Declaration	2 copies	(vessel's care)
Arms & Ammunition	2 copies	(vessel's care)
List of Narcotics	2 copies	(vessel's care)
List of Animals on Board	2 copies	(vessel's care)
Vaccination List	2 copies	(vessel's care)
Cargo Manifest for discharge cargo	6 copies	(vessel's and loading port Agent's care)

Authorities boarded the ship on the Roads.

Pilotage: Pilot is available, native, has knowledge of local currents and winds, otherwise is not skilled. Speaks only Spanish.

Anchorage: Half a mile West of the breakwater or further in depths from 12 to 25 m., sand, the holding ground is good but swell can be heavy.

Restrictions: Berthing possible only during daylight.

Berthing: The jetty can accommodate four ships, two on each side but at present all mooring buoys are removed, except Buoy No. 8. For this reason only ships equipped with stern anchor could be moored outside, to keep herself (with anchor) clear from the breakwater owing to swell, current and wind from S.W. Also the inner berth is not protected against the swell, because the breakwater was constructed of concrete piles. According to information the mooring buoys will be replaced in near future.

Loading/discharging with ship's gear, no shore cranes available. Oil products can be discharged by pipe line connected with shore storage tanks.

Stevedores: Available, arranged through Agent of shippers/receivers.
Medical: Hospital facilities available, but there is total shortage of drugs.
Fresh Water: Available from quay.
Opening/Closing Hatches: Normally done by crew.
Customs Allowance: No limit. No sealing of bonded stores.
Shore Leave: No restrictions. Identification cards not needed.
Airport: There is an airport close to Bata with flights to the capital (Malabo) and Douala.
Time: GMT plus 1 hour.
Currency: Ekuela.
Stores: Not available.

REY MALABO, (formerly Santa Isabel): 03.46 N. 08.48 E.

Situated on the Island of Macias Ngueme Biyogo (formerly Fernando Poo) Capital of the Republic of Equatorial Guinea.

DOCUMENTS:

9 Crew Lists.
3 Stores Manifests.
3 Crew declarations.
2 Lists of Arms and Ammunition.
4 Lists of Ports of Call.
2 Passenger lists or negative.

GENERAL: No tugs.

PILOTS: Effectively none. Only a locally informed inhabitant of this port comes on board to inform the Master, he is equipped with a large scale Spanish chart of this bay, but he has no nautical knowledge and he does not know how to handle a ship.

Note: 1. Masters should bear in mind that they have to manoeuvre and moor the vessel themselves.

2. In view of the continuous breakdowns (and insufficient power) of the mooring-launch it is absolutely necessary to have the ship's motor boat at stand by to run the ship's mooring-lines ashore.

MOORING PROCEDURE: Tanker berth: old jetty (muelle viejo). The ship should be moored stern-to to this jetty. On entering the port with the lights in line starboard anchor is dropped in the middle of the bay and the ship has then to manoeuvre around with her own engines, till in line with the berth.

N.B. Because there is very seldom anybody present at the jetty to accept the mooring lines (on arrival as well as on departure) the vessel's crew should be kept on stand by to do this job.

ARRIVAL/DEPARTURE: Between 0600 and 1800 hrs.

TANKERS: Preferably stern discharge into a 6 in. line with 6 in. hose. All grades through one line – Linewash with water in between – pressure 4 kg./sq.cm. max.

DRY CARGO VESSELS: Berth at a new jetty on the West side of the bay. No cranes available.

ADVICE: 1. Masters should be very careful when dropping their anchors as some vessels (Man of war) moor with their sterns to the dry cargo jetty and have their anchors in the middle of the bay. These anchors are very easily fouled by incoming vessels anchors. A useful suggestion might be to put anchor buoys on the anchors in order to show another incoming ship their position.

2. Because it is quite difficult to manoeuvre a tanker around in this bay without any tug assistance, it should be borne in mind that when the wind is over Force 2 manoeuvring with a sizeable vessel is apt to falter, and no assistance can be expected from any quarter.

DEPARTURE: Vessels are free to leave within mentioned hours without Pilot.

RADIO COMMUNICATION: See "Bata".

CUSTOMS ALLOWANCE: No limit – no sealing of bonded stores.

SHORE LEAVE: No restrictions, but with own motor boat.

Currency: Eq. Guinea Peseta = Spanish Peseta.

PURSER'S REPORT:

Documents:

9 Crew Lists.
9 Passenger Lists (Marked "none" if no passengers on board).
3 Customs Declarations.
3 Stores and Provisions.
4 Arms and Ammunition.
1 Vaccination List (Cholera and Yellow Fever).
9 Cargo Manifests.

Stores: No stores were purchased at this port, advise top up prior to calling at this port.

Mail: Advisable to send to next big port.

Bata: Same papers as above. No officials come out to the ship at this port, however, papers should be kept ready. Vessels moor to a buoy for discharge.

SHIPMASTER'S REPORT: May 1984.

Pilotage: There are no Pilots at Malabo. Masters are expected to berth the vessel themselves on receiving instructions from Agents via VHF to proceed to the berth. If requested an Agents' representative may board the vessel but they are not persons with nautical knowledge and can be helpful only in communicating with the mooring boat.

Berth: The general cargo berth on the S.E. side of the bay is 200 m. long and fitted with good fenders. Depths alongside vary from 6.0 m. at the extreme S.E. end to about 7.0 m. one third of the length from the end and nearly 9.0 m. at the N.W. end of the pier.

There is no definite draft restriction but a vessel with a maximum after draft of 24 ft. can safely berth alongside. Off the pier the water is deep with depths of 14 m. to 17 m.

Berthing Procedure: Vessels berth starboard to without using anchor. After passing the red buoy about 20 m. off to port swing to starboard to bring vessel as close to and as parallel to the pier as possible. Mooring boat takes the ship's lines ashore.

Unberthing Procedure: Using headline and forward springs swing vessel off pier sufficiently to drop astern to the centre of the bay. Then swing using engines to proceed out. (Note: It is advisable not to attempt berthing or unberthing if the wind is unfavourable, particularly with large vessels. There are no other craft in the port other than two mooring boats).

Cargo Handling: Vessels discharge cargo using their own gear. There is one small wooden barge fitted with outboard motor for handling small consignments. There are no lighters or towing boats or tugs in Malabo.

Radio Communications: All the radio stations in Equatorial Guinea are unreliable and mostly not operating. Messages should be sent via Douala or some other major coastal station.

Lights: None of the lights shown on the chart were functioning. At night only vessels with radar should approach close. There has been a complete breakdown of the power supply to the town of Malabo for 8 weeks. It is uncertain when the power supply will resume.

Consulates: Spanish, Belgian, French, American, U.S.S.R. and Cameroon.

Fresh Water: Available, laid on to the pier, good pressure.

NOTES

Please also advise Shipping Guides Ltd.

Ethiopia

ASSAB: 13.01 N. 42.44 E. (See Plan Book)

PORT LIMITS: A line drawn from Ras Gombo to the Northern point of Umm al Baher (Islands) to Southern point of Umm al Baher, then to Ras Marcanah.

DOCUMENTS:
5 Manifests for transit passengers and passports.
5 Manifests for landing passengers and passports.
5 Crew Lists.
1 Complete Crew Provisions List.
1 Crew Personal Effects List.
1 Store List.
6 Cargo Manifests.

PILOTAGE: Compulsory Pilots take tankers in and out of oil harbour only during daytime. Pilots embark about 1 mile N.N.E. from Northern extremity of breakwater. Commercial harbour gives 24 hour service. Vessels calling Assab must advise Agent through Assab Coastal Radio Station by call sign ETC. Assab Radio Signal Station is available.

ANCHORAGES: Assab Bay provides good anchorage in 42 ft. to 48 ft. of sand and coral bottom, good holding ground. Generally weather in Assab can be divided into two: Summer time and Winter time weather, during Summer (May–September) Northerly wind blows with a maximum force of 3/4 BS. During Winter time (October-April) South-easterly local monsoon winds blow usually 5/6 BS but reaching force 7/8 BS during daytime and generally drop at night. This 7/8 BS force is mainly experienced about December to February.

RESTRICTIONS: There are 2 entrances, the North and the South entrance, the depth at the entrances is 38 ft. Least width 1,300 ft.

Vessels of any size enter or leave port during hours of darkness except tankers, and vessels carrying dangerous cargo. In these cases, where vessels are carrying explosives or other dangerous cargoes, Agents of calling vessels must notify the Port Office in advance of discharging and/or loading of explosives. Inflammable and other highly dangerous cargoes in commercial harbour are permitted from 0600 to 1800 hrs. local time.

MAX. SIZE: Largest vessels which can enter commercial harbour 200 m. LOA, 80 ft. beam, 34 ft. draft.

HEALTH: Quarantine and sanitation services available. Quarantine officer boards arriving vessels and necessary medical clearance given.

RADIO: Coastal radio station available *(a)* Position Lat. 13° 01′ 24″ N., Long. 42° 44′ 38″ E.

(b) Coastal radio station in service for 13 hours per day 0700 hrs. to 2200 hrs. Call sign ETC. Transmits traffic lists on 489 kHz after a preliminary announcement on 500 kHz, 30 minutes past each odd hour starting at 0500 and ending 1700 hrs. (0530, 0730, 0930, hrs. etc.).

(c) Transmit traffic lists on 6509 at 0500, 0900 and 1300 hrs. and searches 6265.5 – 6280.5 between 0515 – 0600, 0915 – 1000, and 1315 – 1400 hrs.

(d) Transmit traffic lists on 8618 at 0700, 1100 and 1500 hrs. and searches 8354 – 8374 between 0715 – 0800, 1115 – 1200 and 1515 – 1600 hrs.

(e) Rates shall include station charges and charge of transmission over telecommunication network within Ethiopia.

(f) Accepts ship letter telegrams (SLT) from ships for delivery in Assab.

(g) For radio telephone service. Station keeps watch and replaces on 2182 for radio telephone service at 0615 – 0700, 0815 – 0900, 1015 – 1100, 1215 – 1300, 1415 – 1500, 1615 – 1700 hrs. and transmits traffic same hours on 4379.3. Service hours will be extended to 24 hours.

VHF: VHF system is in operation in the port area.

TUGS: Tug service compulsory for ships over 300 n.r.t. 3 tugs of 600, 1,200 and 1,400 h.p. attend ships during arrival and departure.

BERTHING:
(a) North Half Jetty 1,620 ft. length, 36 ft. depth.
(b) South Half Jetty.
 (i) 1115 ft. length and 33.8 ft. depth.
 (ii) 459 ft. length and 29.5 ft. depth.
 (iii) 164 ft. length and 19 ft. depth

Fenders are good and protect ships from impact; harbour is modern and has modern breakwater 711 m. length. 7 large vessels can be accommodated at a time. In addition stern ramp ro/ro vessels are accommodated at the ends of the North and South Jetties.

Salt Loading Terminal: Located 1.7 miles from the Commercial Harbour, salt loading ships drawing up to 33 ft. are berthed at this terminal using 2 anchors and mooring to buoys and dolphins. Not in use at present time.

STEVEDORES: 14 stevedoring agencies, any kind of cargo can be discharged and loaded. Skilled labourers and loading/discharging capacity are respectively 30-15 t.p.h. Crane lift capacity 50 tons.

Normal working hours: 0700 to 0600 hrs. (23 hours a day).

MEDICAL: 1 hospital in town and clinic in port. When sick person on board, hoist (by day) International code flag "W", (by night) 3 lights in vertical line upper one red, and middle and lower, white lights. Doctor may be called on board at any time to attend sick crew or passengers by arrangement with Agents.

TANKERS: Oil harbour about 1.5 miles S.E. of commercial harbour with draft 33 ft. Crude oil discharging terminal 500 m. from Southern end of breakwater open sea buoy berth – tankers of 800 ft. length, and 36 ft. draft can be accommodated. Diameter of pipe-line for loading and discharging black products – 16 in., white products 10 in.

Tankers at the Shell Berth are moored by dropping 2 anchors and tying up 2 ropes from each quarter to the buoys, and 1 rope from each quarter to the dolphins. All grades of oil in bulk discharged into shore storage tanks from this harbour, and fuel oil is discharged from the Commercial Harbour.

In Assab, the petroleum installations are of Shell Red Sea Co., Mobil Oil East Africa Co. and Ethiopian Petroleum Corporation

DENSITY: At berths is 1030 while the tides are negligible for all seasons; max. 1 ft.

FRESH WATER: Available. Supplied upon request by Agent and can be delivered at 60 t.p.h.

FUEL: All grades available, at commercial harbour. Advance notice necessary. Rate of 300 t.p.h.

FIRE PRECAUTIONS: Modern fire brigade.

GANGWAY/DECK WATCHMEN: Watchmen on deck necessary, and rate arranged as per agreement of employer and employee.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: All ship's International Certificates should be on board.

CUSTOMS ALLOWANCES: Tobacco, 400 cigarettes. Wine and/or Spirits. 1 litre or bottle of spirit.

CARGO GEAR: Different types of certified cargo handling equipment available.

IDENTIFICATION CARDS: Needed.

CONSULS: Only Italian Consulate in Assab, others in Addis Ababa.

REPAIRS: Minor repairs can be carried out at Port Office workshop.

REPATRIATION: Possible.

AIRPORT: 15 km. from Assab.

TIME: GMT plus 3 hours.

HOLIDAYS: See "Massawa".

POLICE/AMBULANCE/FIRE: Port Police Tel: 60049; Hospital Tel: 60119; Port Office fire brigade Tel: 60102.

GENERAL: 1 modern hotel and 1 motel available in town.

SHORE LEAVE: Crew allowed ashore, with boarding passes.

DEVELOPMENTS: Ro/Ro berth and tug berth to be constructed. Work to commence mid-1985.

SHIPMASTER'S REPORT: January 1983.

VHF: VHF system is installed. Call sign "Assab Signal Station". Working Channel 12.

Medical: No dentist available in city.

Fresh Water: Available in emergencies only, Port Authority advises that all vessels should take sufficient water at previous port.

Our vessel was supplied with 20 tons of water every other day, which was arranged by cargo receiver's Representative.

We advise that water should be purified before drinking.

Repairs: Not possible. No oxygen or acetylene available.

General: No spares of any description available. Provisions can be supplied in small quantities.

AUTHORITY: Ministry of Communication, Department of Marine.

MASSAWA: 15.37 N. 39.28 E.

PORT LIMITS: The coastline of Gurgussum Peninsula, at Lat. 15° 39′ N. to a point Lat. 15° 39′ N., Long. 39° 30′ E. to Lat. 15° 35′ N., Long. 39° 30′ E. to the coastline at Lat. 15° 35′ N., Long. 39° 26′ 50″ E.

DOCUMENTS:
2 sets Manifests.
2 sets Bills of Lading.
5 Crew Lists.
5 Passenger Lists.
2 Stores Lists.

APPROACHES: Through North Channel and South Channel. In channel, in direction of leading lights 243°, max. depth 31 ft. (but alongside 30 ft.) Marking buoy showing a wreck in position approximately 200 m. S.E. of North Breakwater.

PILOTAGE: Pilotage is compulsory for all vessels over 100 n.r.t. Pilot section headed by a Chief Pilot and 2 other Pilots.

There is 1 pilot boat. ETA should be given to Agent who will inform Pilot 72 hours prior to arrival. Signal tower located in port area contacts vessel on arrival informing Agent and Pilot, and receiving or transmitting by Morse lamp messages to and from vessel.

ANCHORAGES: 8 cables East of main lighthouse. Anchorage North of leading light not recommended.

Tides: Normally the range of tide varies between 1.5 and 2.0 m., but during spring tide season the range varies up to 3 m.

MAX. SIZE: Length 520 ft., draft 30 ft.

HEALTH: Doctor normally boards with Pilot, but can be asked to board together with Customs and Immigration while vessel on roads. All crew members must be vaccinated against yellow fever, and possess necessary certificates. Derat and other health certificates required. Derat cannot be effected at Massawa, but exemption certificate can be obtained.

RADIO: Assab Radio, call sign ETC, Djibouti Radio, or Aden Radio may be used. Asmara Radio, call sign ETC 2, working hours 0500 to 1700 GMT. Radio-telegraphy and radio-telephone services.

TUGS: Compulsory. Join vessel in port.

3 tugboats are available, two of 350 h.p. and the third 1,000 h.p. The smaller motor tugboats used for assistance mainly within the port limits, and the deep-sea salvage motor tugboat, for salvage operations, but whenever conditions demand, is also employed for assistance within the port.

BERTHING: Vessels normally drop anchor before berthing.

Commercial Harbour: 6 berths, namely 1 to 6, and the overall distance from Berth No. 1 to Berth No. 6 is 907 m. These berths normally used by vessels handling general cargo, bagged cargo and livestocks. Depth of water at mean low water springs (MLWS) is shown below:
Berth No. 1 – 16 ft. 6 in.
Berth No. 2 – 24 ft. 6 in.
Berth No. 3 – 28 ft. 6 in.
Berth No. 4 – 28 ft. 0 in.
Berth No. 5 – 27 ft. 0 in.
Berth No. 6 – 30 ft. 0 in.

Salt Berth: This is a single berth where vessels load salt in bulk. The depth at the berth is 32 ft. Max. draft 29 ft. Loading with the help of conveyor belt at the rate of about 300 t.p.h.

Cement Berth: Depth 18 ft.

American Jetty: Depth 18 ft.

However, dredging will be carried out to accommodate vessels of a greater draft in the future.

STEVEDORES: Radio 24 hours' notice of ETA stating number of gangs required. Loading discharging rates 5 t.p.h. on general, 10 – 15 t.p.h. on bagged cargo.
DENSITY: 1025.
MEDICAL: Notice should be given to Agent only when specialist needed. Hospital treatment available. Dental facilities available at Asmara, 110 km. away.
TANKERS: AGIP, Arkiko Oil Station Terminal: Max. draft for entering channel 29 ft.

Total Pier, depth alongside 36 ft., max. draft 30 ft.
FRESH WATER: Supplied alongside, Max. rate 600 tons per day or by barge of 50 tons on roads. Barge can be loaded/discharged in 8 hours.
FUEL: Can be obtained alongside oil terminals and at Berth Nos. 5 and 6 for heavy fuel only. Diesel can be supplied by lorries alongside. No bunker barge available.
GANGWAY/DECK WATCHMEN: Compulsory when alongside.
OPENING/CLOSING HATCHES: Normally by labourers, but can be done by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. New allowance can be delivered after 1 week. Wine/Spirits: 1 bottle of wine/spirits (opened). Wine and beer quantity necessary for the stay in port allowed upon reasonable request on arrival.
IDENTIFICATION CARDS: Not needed. Immigration gives port entry card (without crew member's name) which must be given back prior to departure. In case of loss a fine is likely.
CONSULS: Italian Vice-consulate, Box 62. Tel: 52214. Other consulates at Addis Ababa for Belgium, France, Gt. Britain, Italy, Sudan, U.S.A. and others.
REPAIRS: Good workshops for minor engine repairs. Slipway for vessel up to 600 g.r.t.
REPATRIATION: Via Asmara by chartered air-taxi, then by international flights. Or Massawa-Asmara by road, 110 km., asphalt road (daily convoy).
TIME: GMT plus 3 hours.
HOLIDAYS: January 7th (Christmas Day – Coptic); January 19th (Epiphany); March 2nd (Victory of the Battle of Adowa); March 13th (Prophet's Birthday); April 6th (Victory Day); April 23rd (Good Friday – Coptic); April 25th (Easter Sunday – Coptic); May 1st (Labour Day); September 11th (New Year's Day); September 12th (Abolition of Feudalism); September 27th (Finding of the True Cross); October 6–8th Id-al-Fatir; December 18th Id-al-Kebir and Sundays.
POLICE/AMBULANCE/FIRE: Police, Tel: 52425; Ambulance, Tel: 52234-5-6; Fire Brigade, Tel: 52220.
TELEPHONES: Possible to place telephones on board. Arranged by Agent.
SERVICES: Radar and gyro compass technician available, but special spare parts not available.
SHORE LEAVE: Crew cannot leave vicinity of Massawa without special immigration permit.
AUTHORITY: Department of Marine.

NOTES

Please also advise Shipping Guides Ltd.

Ethiopia

ASSAB: 13.01 N. 42.44 E. (See Plan Book)

PORT LIMITS: A line drawn from Ras Gombo to the Northern point of Umm al Baher (Islands) to Southern point of Umm al Baher, then to Ras Marcanah.

DOCUMENTS:

5 Manifests for transit passengers and passports.
5 Manifests for landing passengers and passports.
5 Crew Lists.
1 Complete Crew Provisions List.
1 Crew Personal Effects List.
1 Store List.
6 Cargo Manifests.

PILOTAGE: Compulsory Pilots take tankers in and out of oil harbour only during daytime. Pilots embark about 1 mile N.N.E. from Northern extremity of breakwater. Commercial harbour gives 24 hour service. Vessels calling Assab must advise Agent through Assab Coastal Radio Station by call sign ETC. Assab Radio Signal Station is available.

ANCHORAGES: Assab Bay provides good anchorage in 42 ft. to 48 ft. of sand and coral bottom, good holding ground. Generally weather in Assab can be divided into two: Summer time and Winter time weather, during Summer (May–September) Northerly wind blows with a maximum force of 3/4 BS. During Winter time (October-April) South-easterly local monsoon winds blow usually 5/6 BS but reaching force 7/8 BS during daytime and generally drop at night. This 7/8 BS force is mainly experienced about December to February.

RESTRICTIONS: There are 2 entrances, the North and the South entrance, the depth at the entrances is 38 ft. Least width 1,300 ft.

Vessels of any size enter or leave port during hours of darkness except tankers, and vessels carrying dangerous cargo. In these cases, where vessels are carrying explosives or other dangerous cargoes, Agents of calling vessels must notify the Port Office in advance of discharging and/or loading of explosives. Inflammable and other highly dangerous cargoes in commercial harbour are permitted from 0600 to 1800 hrs. local time.

MAX. SIZE: Largest vessels which can enter commercial harbour 200 m. LOA, 80 ft. beam, 34 ft. draft.

HEALTH: Quarantine and sanitation services available. Quarantine officer boards arriving vessels and necessary medical clearance given.

RADIO: Coastal radio station available *(a)* Position Lat. 13° 01′ 24″ N., Long. 42° 44′ 38″ E.

(b) Coastal radio station in service for 13 hours per day 0700 hrs. to 2200 hrs. Call sign ETC. Transmits traffic lists on 489 kHz after a preliminary announcement on 500 kHz, 30 minutes past each odd hour starting at 0500 and ending 1700 hrs. (0530, 0730, 0930, hrs. etc.).

(c) Transmit traffic lists on 6509 at 0500, 0900 and 1300 hrs. and searches 6265.5 – 6280.5 between 0515 – 0600, 0915 – 1000, and 1315 – 1400 hrs.

(d) Transmit traffic lists on 8618 at 0700, 1100 and 1500 hrs. and searches 8354 – 8374 between 0715 – 0800, 1115 – 1200 and 1515 – 1600 hrs.

(e) Rates shall include station charges and charge of transmission over telecommunication network within Ethiopia.

(f) Accepts ship letter telegrams (SLT) from ships for delivery in Assab.

(g) For radio telephone service. Station keeps watch and replaces on 2182 for radio telephone service at 0615 – 0700, 0815 – 0900, 1015 – 1100, 1215 – 1300, 1415 – 1500, 1615 – 1700 hrs. and transmits traffic same hours on 4379.3. Service hours will be extended to 24 hours.

VHF: VHF system is in operation in the port area.

TUGS: Tug service compulsory for ships over 300 n.r.t. 3 tugs of 600, 1,200 and 1,400 h.p. attend ships during arrival and departure.

BERTHING:

(a) North Half Jetty 1,620 ft. length, 36 ft. depth.
(b) South Half Jetty.
  (i) 1115 ft. length and 33.8 ft. depth.
  (ii) 459 ft. length and 29.5 ft. depth.
  (iii) 164 ft. length and 19 ft. depth

Fenders are good and protect ships from impact; harbour is modern and has modern breakwater 711 m. length. 7 large vessels can be accommodated at a time. In addition stern ramp ro/ro vessels are accommodated at the ends of the North and South Jetties.

Salt Loading Terminal: Located 1.7 miles from the Commercial Harbour, salt loading ships drawing up to 33 ft. are berthed at this terminal using 2 anchors and mooring to buoys and dolphins. Not in use at present time.

STEVEDORES: 14 stevedoring agencies, any kind of cargo can be discharged and loaded. Skilled labourers and loading/discharging capacity are respectively 30-15 t.p.h. Crane lift capacity 50 tons.

Normal working hours: 0700 to 0600 hrs. (23 hours a day).

MEDICAL: 1 hospital in town and clinic in port. When sick person on board, hoist (by day) International code flag "W", (by night) 3 lights in vertical line upper one red, and middle and lower, white lights. Doctor may be called on board at any time to attend sick crew or passengers by arrangement with Agents.

TANKERS: Oil harbour about 1.5 miles S.E. of commercial harbour with draft 33 ft. Crude oil discharging terminal 500 m. from Southern end of breakwater open sea buoy berth – tankers of 800 ft. length, and 36 ft. draft can be accommodated. Diameter of pipe-line for loading and discharging black products – 16 in., white products 10 in.

Tankers at the Shell Berth are moored by dropping 2 anchors and tying up 2 ropes from each quarter to the buoys, and 1 rope from each quarter to the dolphins. All grades of oil in bulk discharged into shore storage tanks from this harbour, and fuel oil is discharged from the Commercial Harbour.

In Assab, the petroleum installations are of Shell Red Sea Co., Mobil Oil East Africa Co. and Ethiopian Petroleum Corporation

DENSITY: At berths is 1030 while the tides are negligible for all seasons; max. 1 ft.

FRESH WATER: Available. Supplied upon request by Agent and can be delivered at 60 t.p.h.

FUEL: All grades available, at commercial harbour. Advance notice necessary. Rate of 300 t.p.h.

FIRE PRECAUTIONS: Modern fire brigade.

GANGWAY/DECK WATCHMEN: Watchmen on deck necessary, and rate arranged as per agreement of employer and employee.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: All ship's International Certificates should be on board.

CUSTOMS ALLOWANCES: Tobacco, 400 cigarettes. Wine and/or Spirits. 1 litre or bottle of spirit.

CARGO GEAR: Different types of certified cargo handling equipment available.

IDENTIFICATION CARDS: Needed.

CONSULS: Only Italian Consulate in Assab, others in Addis Ababa.

REPAIRS: Minor repairs can be carried out at Port Office workshop.

REPATRIATION: Possible.

AIRPORT: 15 km. from Assab.

TIME: GMT plus 3 hours.

HOLIDAYS: See "Massawa".

POLICE/AMBULANCE/FIRE: Port Police Tel: 60049; Hospital Tel: 60119; Port Office fire brigade Tel: 60102.

GENERAL: 1 modern hotel and 1 motel available in town.

SHORE LEAVE: Crew allowed ashore, with boarding passes.

DEVELOPMENTS: Ro/Ro berth and tug berth to be constructed. Work to commence mid-1985.

SHIPMASTER'S REPORT: January 1983.

VHF: VHF system is installed. Call sign "Assab Signal Station". Working Channel 12.

Medical: No dentist available in city.

Fresh Water: Available in emergencies only, Port Authority advises that all vessels should take sufficient water at previous port.

Our vessel was supplied with 20 tons of water every other day, which was arranged by cargo receiver's Representative.

We advise that water should be purified before drinking.

Repairs: Not possible. No oxygen or acetylene available.

General: No spares of any description available. Provisions can be supplied in small quantities.

AUTHORITY: Ministry of Communication, Department of Marine.

MASSAWA: 15.37 N. 39.28 E.

PORT LIMITS: The coastline of Gurgussum Peninsula, at Lat. 15° 39′ N. to a point Lat. 15° 39′ N., Long. 39° 30′ E. to Lat. 15° 35′ N., Long. 39° 30′ E. to the coastline at Lat. 15° 35′ N., Long. 39° 26′ 50″ E.

DOCUMENTS:

2 sets Manifests.
2 sets Bills of Lading.
5 Crew Lists.
5 Passenger Lists.
2 Stores Lists.

APPROACHES: Through North Channel and South Channel. In channel, in direction of leading lights 243°, max. depth 31 ft. (but alongside 30 ft.) Marking buoy showing a wreck in position approximately 200 m. S.E. of North Breakwater.

PILOTAGE: Pilotage is compulsory for all vessels over 100 n.r.t. Pilot section headed by a Chief Pilot and 2 other Pilots.

There is 1 pilot boat. ETA should be given to Agent who will inform Pilot 72 hours prior to arrival. Signal tower located in port area contacts vessel on arrival informing Agent and Pilot, and receiving or transmitting by Morse lamp messages to and from vessel.

ANCHORAGES: 8 cables East of main lighthouse. Anchorage North of leading light not recommended.

Tides: Normally the range of tide varies between 1.5 and 2.0 m., but during spring tide season the range varies up to 3 m.

MAX. SIZE: Length 520 ft., draft 30 ft.

HEALTH: Doctor normally boards with Pilot, but can be asked to board together with Customs and Immigration while vessel on roads. All crew members must be vaccinated against yellow fever, and possess necessary certificates. Derat and other health certificates required. Derat cannot be effected at Massawa, but exemption certificate can be obtained.

RADIO: Assab Radio, call sign ETC, Djibouti Radio, or Aden Radio may be used. Asmara Radio, call sign ETC 2, working hours 0500 to 1700 GMT. Radio-telegraphy and radio-telephone services.

TUGS: Compulsory. Join vessel in port.

3 tugboats are available, two of 350 h.p. and the third 1,000 h.p. The smaller motor tugboats used for assistance mainly within the port limits, and the deep-sea salvage motor tugboat, for salvage operations, but whenever conditions demand, is also employed for assistance within the port.

BERTHING: Vessels normally drop anchor before berthing.

Commercial Harbour: 6 berths, namely 1 to 6, and the overall distance from Berth No. 1 to Berth No. 6 is 907 m. These berths normally used by vessels handling general cargo, bagged cargo and livestocks. Depth of water at mean low water springs (MLWS) is shown below:

Berth No. 1 – 16 ft. 6 in.
Berth No. 2 – 24 ft. 6 in.
Berth No. 3 – 28 ft. 6 in.
Berth No. 4 – 28 ft. 0 in.
Berth No. 5 – 27 ft. 0 in.
Berth No. 6 – 30 ft. 0 in.

Salt Berth: This is a single berth where vessels load salt in bulk. The depth at the berth is 32 ft. Max. draft 29 ft. Loading with the help of conveyor belt at the rate of about 300 t.p.h.

Cement Berth: Depth 18 ft.

American Jetty: Depth 18 ft.

However, dredging will be carried out to accommodate vessels of a greater draft in the future.

STEVEDORES: Radio 24 hours' notice of ETA stating number of gangs required. Loading discharging rates 5 t.p.h. on general, 10 – 15 t.p.h. on bagged cargo.
DENSITY: 1025.
MEDICAL: Notice should be given to Agent only when specialist needed. Hospital treatment available. Dental facilities available at Asmara, 110 km. away.
TANKERS: AGIP, Arkiko Oil Station Terminal: Max. draft for entering channel 29 ft.
Total Pier, depth alongside 36 ft., max. draft 30 ft.
FRESH WATER: Supplied alongside, Max. rate 600 tons per day or by barge of 50 tons on roads. Barge can be loaded/discharged in 8 hours.
FUEL: Can be obtained alongside oil terminals and at Berth Nos. 5 and 6 for heavy fuel only. Diesel can be supplied by lorries alongside. No bunker barge available.
GANGWAY/DECK WATCHMEN: Compulsory when alongside.
OPENING/CLOSING HATCHES: Normally by labourers, but can be done by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. New allowance can be delivered after 1 week. Wine/Spirits: 1 bottle of wine/spirits (opened). Wine and beer quantity necessary for the stay in port allowed upon reasonable request on arrival.
IDENTIFICATION CARDS: Not needed. Immigration gives port entry card (without crew member's name) which must be given back prior to departure. In case of loss a fine is likely.
CONSULS: Italian Vice-consulate, Box 62. Tel: 52214. Other consulates at Addis Ababa for Belgium, France, Gt. Britain, Italy, Sudan, U.S.A. and others.
REPAIRS: Good workshops for minor engine repairs. Slipway for vessel up to 600 g.r.t.
REPATRIATION: Via Asmara by chartered air-taxi, then by international flights. Or Massawa-Asmara by road, 110 km., asphalt road (daily convoy).
TIME: GMT plus 3 hours.
HOLIDAYS: January 7th (Christmas Day – Coptic); January 19th (Epiphany); March 2nd (Victory of the Battle of Adowa); March 13th (Prophet's Birthday); April 6th (Victory Day); April 23rd (Good Friday – Coptic); April 25th (Easter Sunday – Coptic); May 1st (Labour Day); September 11th (New Year's Day); September 12th (Abolition of Feudalism); September 27th (Finding of the True Cross); October 6–8th Id-al-Fatir; December 18th Id-al-Kebir and Sundays.
POLICE/AMBULANCE/FIRE: Police, Tel: 52425; Ambulance, Tel: 52234-5-6; Fire Brigade, Tel: 52220.
TELEPHONES: Possible to place telephones on board. Arranged by Agent.
SERVICES: Radar and gyro compass technician available, but special spare parts not available.
SHORE LEAVE: Crew cannot leave vicinity of Massawa without special immigration permit.
AUTHORITY: Department of Marine.

Falkland Islands

PORT STANLEY: 51.42 S. 57.51 W. (See Plan Book)

PORT LIMITS: West of the line joining Mengeary Point and Cape Pembroke.

DOCUMENTS:
2 Copies Crew Lists.
2 Copies Passenger Lists.
2 Copies Customs Documents.
Health Document.
Manifest and Bills of Lading.
Ship's Papers.
Ship's Certificates.

PILOTAGE: Pilotage should be requested via Cable & Wireless Radio Station. 24 hours notice of arrival required. Frequency 2182.

ANCHORAGES: For large vessels, the anchorage is somewhat confined; except S. of Navy Point, where there is good swinging room in depths of from 8.2 m. to 10.4 m. (27 ft. to 34 ft.). There is good anchorage N.N.E. of the cathedral, but, owing to the prevailing strong W. winds, a vessel may have some difficulty in turning, when leaving this position. The best time to leave is after 1800 hrs. or before 0800 hrs. as, unless there is a widespread area of bad weather over the islands, the wind, which is local, is seldom strong between these hours. The holding ground is good, and vessels have not dragged during winds of up to force 8, though a second anchor is often necessary.

The bottom of the harbour is stiff mud, which is very noisome and sticky; it is necessary to allow plenty of time for cable washing when weighing.

Two oil barges and numerous small boats, none of which exhibit a riding light at night are moored at the South side of the harbour.

RESTRICTIONS: No restrictions on entry.

RADIO: Cable & Wireless Ltd.

VHF: Port Radio, call sign "Port Control", listening on Channel 16 from 0800 - 1200 hrs. and 1315 - 1630 hrs.

RADAR: No port radar service.

TUGS: No harbour tugs.

BERTHING: Falkland Islands Company jetty with a depth of 1.5 m. at its head. T shaped Head.

CRANES: 1×5 ton crane.

BULK CARGO FACILITIES: Nil, drummed cargoes only are handled.

STEVEDORES: 1 week's notice required. If Falkland Islands Company charter vessel (4 voyages a year) is being worked then stevedores will not be available until work on the charter vessel has been completed.

MEDICAL: Advance notice required.

TANKERS: Advance information should be sought.

DENSITY: Full salt water.

FRESH WATER: Available at night. Delivery by direct hose. Cost £2 per ton +33% of the cost of the labour involved.

FUEL: Fuel is available only by special arrangement with the Ministry of Defence. Grade 47 Cetane (viscosity cSt 100° F – 1.8; s.g. at 15° C – 0.840). Delivery by lighter and pump.

FIRE PRECAUTIONS: Normal safety requirements.

CONSULS: Norwegian.

REPAIRS: Minor repairs to machinery.

DRY DOCKS: Nil.

SURVEYORS: Not available.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: By ship's crew.

CUSTOMS ALLOWANCES Quantity permitted by crew is one bottle of spirits, 200 cigarettes or 1 lb. of tobacco, 6 bottles of wine, 1 case (24 cans) beer.

CARGO GEAR: There is 1×5 ton crane. Ship's gear may be used.

AIRPORT: 5 miles from Port.

TIME: GMT minus 4 hours. Summer time from October to end of March.

HOLIDAYS: Cargo can be handled on the 10 public holidays.

POLICE/AMBULANCE/FIRE: Police – 95; Fire – Exchange; Ambulance – 54.

TELEPHONES: Connection possible at rate of £30 a year.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Seamans book sufficient.

REGULATIONS: No particular or unusual regulations.

DELAYS: Delays may be experienced if berthing alongside only commercial jetty if firms charter vessel is being handled. Four voyages a year: – turn around 1 week.

DEVELOPMENTS: No port developments under way.

AUTHORITY: Harbour Master, Customs and Harbour Dept., Port Stanley, Falkland Is. *Tel:* 22. *Contact:* L. J. Halliday, Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

Faroe Islands

KLAKKSVIK: 62.14 N. 06.35. W. (See Plan Book)

DOCUMENTS:
One of Each:
Crew List.
Passenger List.
Custom Documents (one list crew's quantity of tobacco and spirits).
Health Document.
Manifest.
Bill of lading.

PILOTAGE: Not compulsory but available. Give ETA via Torshavn Radio, OXJ, 1 or 2 hours before arrival, and Pilot will meet vessel in Roads. International signals can always be used. VHF Channels 16, 12, and 6 in use.
ANCHORAGE: In Roads in 12 to 20 fathoms; good anchorage.
RESTRICTIONS: No restrictions upon entry.
MAX. SIZE: Up to 450 ft. length, but draft must not exceed 20 ft.
HEALTH: Pratique usually automatic.
RADIO: Torshavn Radio, OXJ, is only coast station in Faroe Isles.
TUGS: No tugs available.
BERTHING: Ships will be berthed on arrival, if ETA announced 12 hours before arrival.
STEVEDORES: Ship's Agent will arrange stevedores.
MEDICAL: Inform doctors before arrival. Hospital facilities available.
TANKERS: Only small tankers, up to 2,000 – 3,000 tons can be handled.
FRESH WATER: Available from quay. 30 t.p.h.
FUEL: Diesel oil available, usually without notice (or short notice).
GANGWAY/DECK WATCHMEN: Watchmen usually unnecessary, but available if desired.
OPENING/CLOSING HATCHES: Normally done by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes. Wine and/or Spirits, 1 bottle of wine and 1 of spirits.
IDENTIFICATION CARDS: Not needed.
CONSULS: British, Tel: 5109 and 5489; Norwegian, Tel: 55018 and 55353.
REPAIRS: All types of deck and engine repairs possible. Slipways for ships up to 200 ft. length.
REPATRIATION: Small changes in crew can usually be arranged and, for example, sick seamen/fishermen are often sent home, when recovered.
AIRPORT: Nearest airport on Vagoy, about 6 hours travelling. Regular flights, 6 a week.
TIME: GMT. Permanent.
HOLIDAYS: Cargo work can be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police 5348; Ambulance 5464; Fire 04.
TELEPHONES: Can be arranged on board at one berthing place, at about 50.00 kr plus dues for conversations.
SERVICES: Compass adjusting, day and night.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Normally there are none.
DEVELOPMENTS: Two new quays under construction, 1 with a depth of 7.0 m. Completion expected 1984.
AUTHORITY: Klakksvikar Havn, P.O.Box 26, 3870 Klakksvik.

AGENT: Christen Joensen Stengavegur, P.O.Box 179, 3870 Klaksvik, Faroe Islands. Cables Christen Joensen. Tel: Klaksvik 55922.

SOERVAAG: 62.04 N. 07.18 W.

DOCUMENTS:
Bill of Lading.
Customs Documents (including Crew List).
Ship's Certificate (stating size of ship).

PILOTAGE: Ships can call Pilot via Torshavn Radio. Pilot has good knowledge of local conditions.
ANCHORAGES: Danish Chart No. 82 – on Soervaag fjord – can be recommended as good. Bottom gravel.
RESTRICTIONS: Difference between high and low water up to 2 m. on Spring tide and up to 1 m. on neap tide.
MAX. SIZE: Largest vessel reported in Soervaag was 12,000 d.w.t. tanker. Harbour about 150 m. long and formed with one long pier and another 1 stretching from it. Draft at pier 8 m. Pier runs N.E./S.W.
HEALTH: Ships coming from countries having epidemic-disease have to fly the flag "Q". No persons allowed connection with shore, before official doctor given free pratique. Doctor comes from Midvaag or Wesmannahavn and can be at Soervaag in half hour.
RADIO: Only civilian radio on Faroe Islands is Torshavn-Radio (Int. call sig.: OXJ) via this radio ships can call for medical assistance and weather forecast. These 2 services are free. All traffic to Faroe Islands via Torshavn-Radio.
TUGS: No actual tugs can be obtained, but many small vessels which can be used as tugs.
BERTHING: Captains should take care when berthing not to come on to East side of pier – owing to very low water.
STEVEDORES: Arranged through A/S NI. Niclasen, Soervaag, or Harbour Master.
MEDICAL: Hospital in Torshavn with all facilities.
TANKERS: Ordinary pier also used by tankers (draft 8 m.) size of load/discharge-lines: 3 in. and 6 in.
FRESH WATER: Ships can obtain fresh water direct from pier.
FUEL: Marine diesel fuel; turbo-jet A1–100; gasoline-petroleum.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Masters have to make arrangements with stevedores, receivers or shippers.
CUSTOMS ALLOWANCES: Tobacco, each crew member is allowed to have 200 cigarettes or 250 gm. of tobacco. Wine and/or Spirit, crew members not allowed any wine or spirit. Master allowed 2 bottles every second day.
IDENTIFICATION CARDS: Not required.
CONSULS: Belgium, Finland, Greece, Iceland, Norway, Spain, U.K., West Germany, Brazil, France, Holland, Italy, Portugal, Sweden.
REPAIRS: Small deck and engine repairs carried out.
DRY DOCKS: On Skaalefiord, dry dock up to 1,500 d.w.t.
REPATRIATION: Available.
AIRPORT: Faroe Island has 1 airport – only 3 km. from Soervaag. During Summertime daily services to Bergen, Norway and Copenhagen, and weekly services to Glasgow.

During Wintertime weekly services to above destinations.

TIME: GMT. Permanent.
HOLIDAYS: Same as Denmark.
POLICE/AMBULANCE/FIRE: Police 8; Ambulance 8; Fire 4 or 46.
TELEPHONE: Telephones can be placed on board.
SHORE LEAVE: Crew members are allowed ashore.
REGULATIONS: Per ordinary regulations in Danish Ports. Harbour dues to be paid before ship's departure.
DELAYS: Usually none.
AUTHORITY: Harbour Master.

TORSHAVN: 62.00 N. 06.45 W.

DOCUMENTS: See "Klakksvik".
PILOTAGE: Not compulsory. Can be obtained through Torshavn Radio 2182 kHz or Channel 16 VHF (Harbour Office).
ANCHORAGES: Due South of breakwater in depths about 30 fathoms.
MAX. SIZE: Max. draft 25 ft. This is only restriction.
HEALTH: Pratique usually automatic.
RADIO: Torshavn Radio, OXJ.
TUGS: No tugs available.
STEVEDORES: Must be arranged with the Agent.
FRESH WATER: 100 t.p.h., by pipe-line.
FUEL: All kinds of fuel at 100 t.p.h.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCES: Tobacco (1 carton); litre of spirits or 2 litres of wine.
IDENTIFICATION CARDS: Not required.
REPAIRS: All kinds are possible.
DRY DOCKS: Slipway for vessels up to 1,000 tons.
REPATRIATION: Can be arranged.
AIRPORT: Regular airlines, 2 hours by car from Airport.
TIME: GMT. Summertime GMT plus 1 hour (late March – late September).
HOLIDAYS: Cargo work can be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police, 11448; Ambulance, 13540; Fire, 000.
TELEPHONES: No facilities.
SERVICES: Compass adjusting only.
SHORE LEAVE: Allowed.
AUTHORITY: Torshavnar Havn, Torshavn, Faroe Islands. *Tel:* 1-1762. *Contact:* Hogni Mohr.

TRANGISVAAG: 61.33 N. 06.50 W.

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Bill of Lading.
1 Bonded Store List.

PILOTAGE: When Pilot required pre-arrange with Agent by telegram or telephone, 2 hours notice ETA wanted. Pilot boat is local fishing-boat, usually boarding vessel at harbour entrance.
ANCHORAGE: Safe sheltered harbour up to 30 fathoms deep along the entrance transit bearing. Vessels anchor 1 cable offshore in 8 fathoms, clay bottom.
RESTRICTIONS: Vessels may enter harbour day and night.
MAX. SIZE: Vessels may berth with draft up to 7 m.
HEALTH: Pratique granted if no contagious illnesses aboard and all arrival formalities accomplished by the boarding officials.
RADIO: Torshavn Radio, call signal OXJ, 24 hours service, listens 2482 kHz, replies and transmits traffic on 1778 kHz, traffic lists on 1778 kHz 35 minutes past each even hour. VHF service: Channel 16 (156.80 MHz) Channel 26 (161.90 MHz). All ETA messages, etc. must be routed through Torshavn Radio.
TUGS: None; if required local fishing-boats are capable to act as tugs.
BERTHING: Tveraa at Northern side of fjord. Outer side of quay 280 m. length and 20/21 ft. alongside. Inner side length 170 m. and 15 ft. alongside. Quay is for general cargo, fish and salt.

Harbour basin length 58 m., depths 7 ft. to 18 ft. alongside.

Drelnes on South side of fjord. Quay length 89 m. Depth alongside outer side 23 ft.; inner side length 43 m. depth 22 ft.

STEVEDORES: Enable Agent to arrange gang important obtain in good time accurate ETA from vessel. Work normally not carried out on Sundays.
MEDICAL: Advance notice to Agent preferable, good hospital facilities for both surgery and medicine.

DENSITY: 1024.
FRESH WATER: Water available at main quay, rate 50 t.p.h.
FUEL: Diesel gas oil available, 50 t.p.h., no advance notice required.
GANGWAY/DECK WATCHMEN: Available, but not compulsory.
OPENING/CLOSING HATCHES: Crew allowed to open and close hatches.
CUSTOMS ALLOWANCES: Each crew member allowed 200 cigarettes or 200 grams tobacco out of Bond. Limited quantity wine and spirits.
IDENTIFICATION CARDS: Not needed.
CONSULS: Spanish Vice-Consul.
REPAIRS: Local marine repair companies can undertake all repairs of general nature to deck, engines, hull, electric and radio equipment, etc. Slipway available for small vessels.
REPATRIATION: May be arranged by sea or air.
AIRPORT: (Vagar) Served by regular airlines, located 50 miles from Trangisvaag.
TIME: GMT, no alterations during the year.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Christmas Day; Second Christmas Day; work not carried out these days.
POLICE/AMBULANCE/FIRE: Police Tel: 10 and 53; Ambulance 134; Fire 159.
TELEPHONES: Usually not placed aboard, but can be arranged.
SHORE LEAVE: Allowed.
SHIP SUPPLY SERVICE: Contact Vaktar-OE Bjargin-Gartenastan, Torshavn, Faroe Islands.
DEVELOPMENTS: New quay under construction as extension of existing quay.
AUTHORITY: Tvoroyrar Havn, 3880 Tvoroyri, Faroe Islands. *Tel: 71055. Contact:* Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

Fiji Islands

LABASA: 16.26 S. 179.22 E.

SHIPMASTER'S REPORT: January 1983.

Vessel called to load raw bulk sugar.

PORT LIMITS: Port limit is up to the entrance of Mali Passage.

DOCUMENTS:

1 Crew Personal Property Declaration.
8 Crew Lists.
5 Passenger Lists.
4 Stores Lists.
3 Parcels Lists.
4 Maritime Declarations.
3 Form 'D' Regulation 46.
Maritime Declaration of Health.
1 Vaccination List.
1 Copy Fiji Quarantine Ordinance cap–92.

PILOTAGE: Compulsory. Agent arranges booking for Pilot. Pilot boards at entrance to Mali Passage from 30 ft. long, white hulled boat (no flag). Docking/undocking carried out during daylight hours only. Pilotage is also available for inshore passages to Suva, Lautoka, etc. Reef navigation is carried out by Pilots during daylight hours only.

ANCHORAGES: Safe anchorage is available only after passing Mali Passage; about 6 miles to the S.E.

If vessel arrives early, she can drift safely about 20 miles N.N.W. of Mali Passage.

RESTRICTIONS: Docking/undocking only during daylight hours. Max. draft 10.5 m.

MAX. SIZE: LOA 174 m., draft 10.5 m. Max. shipment available 27,000 tonnes as this is the max. storage capacity at Labasa.

HEALTH: Anti-malarial squad boards vessel with Pilot. They inspect and spray the vessel; only then is pratique granted.

If vessel is coming from a "Malaria Infested" region, spraying is done twice daily during the vessel's stay in port.

TUGS: None available. 2 mooring boats are used for taking lines ashore.

BERTHING: *Malau Wharf:* Length 150 m., depth alongside 11 m. Vessel berthed starboard side to, using 1 head/sternline, 2 breastlines and 1 spring at each end.

As the sugar loader is fixed, this mooring system enabled vessel to shift fairly easily when loading in different hatches.

Caution must be exercised while docking, undocking and shifting to avoid contacting the middle piled dolphins of the wharf, as they are unfendered and non-loadbearing.

No tidal restrictions for wharf or port.

BULK HANDLING FACILITIES: Raw bulk sugar: 400 t.p.h./24 hours a day.

MEDICAL: Facilities available in local hospital and from private practitioners.

DENSITY: 1024.5.

FRESH WATER: Not available.

FUEL: Available at Suva only. Very expensive.

SURVEYORS: Pilot carries out hatch inspection prior to loading.

GANGWAY/DECK WATCHMEN: None.

HATCHES: Attended to by crew.

AIRPORT: Local airport with connections to Suva and Lautoka.

HOLIDAYS: Most of the population is of Indian descent, hence some Indian holidays observed.

TELEPHONES: No telephone provided for berth.

DELAYS: Normally 12 hours documentation time (non-laytime) after completion is provided for in the Charter Party; which may not be necessary.

GENERAL: *Exchange rate:* 1 Fiji $ = 0.95 US$, can be changed at bank only.

Communications: Well connected via Suva. Telexes can be sent via Suva or Lautoka, by telephoning Agent's office there.

Formalities, Clearance, etc: Labasa is not a 'Port of Entry' (about 2 vessels per month call here). Pilot, Agent, Surveyor, Customs, Immigration, Agricultural Inspector, Malaria Prevention Squad, etc., all have to come from Suva or Lautoka. Customs Officer *only* stays on board the vessel until departure.

Pilferage: None reported.

Bonded Stores: Not available.

Provisions: No shipchandler. Fresh fruit, vegetables, etc., are available at reasonable prices from the local market, about 8 miles from the wharf.

LAUTOKA, (Vuda Point): 17.36 S. 177.26 E. (See Plan Book)

DOCUMENTS/HEALTH: Refer to "Suva".

PILOTAGE: Not compulsory at present. However, most vessels avail themselves of a Pilot, who boards at Navula Passage, 20 miles South of Lautoka. Masters should telegraph to their Agents ship's ETA at Navula and indicate whether they require a Pilot or not at least 24 hours in advance.

Note: Radio communications with Fiji can be difficult and Masters are advised that telephone or telex messages worked via New Zealand or Australia direct to their Agents are far more reliable.

The Pilot normally boards from a 26 ft. wooden launch, blue hull with white superstructure, buff cabin top with orange liferaft on forward cabin. The pilot vessel can be contacted on VHF 16/6. Listening watch only when vessels are expected. Pilot normally boards 1 mile seaward of the passage on the leads. In heavy weather it may be necessary for a vessel to enter the passage to embark the Pilot. There is no anchorage outside the passage.

Vessels requiring pratique should anchor approximately 1 mile to the Westward of Vio Island in Lautoka Harbour. If prior arrangements have been made through Agent, Health Officers may board inside Navula (The Health Officers inspect vessels only from 1 hour after sunrise to 1 hour prior to sunset). The Pilot for those vessels not employing one from Navula but requiring a Pilot for berthing will board at the Quarantine Anchorage off Vio Island.

ANCHORAGES: The whole of the area enclosed by a circle of diameter approximately 1 mile between Vio Island and Pinder Reefs is an acceptable anchorage with depths ranging from 9 to 13 fathoms.

MAX. SIZE: Minimum depth in approaches to wharf 32 ft., depth alongside 36 ft. Generally speaking, any vessel not exceeding 32 ft. draft can be accommodated. Main wharf is only 457 ft. long but overhangs are allowable, ("Oriana" LOA 804 ft., berths at Main Wharf), dolphins for mooring lines being situated off each end of the wharf. Range of tide approximately 5.5 ft. at springs and 3 ft. at neaps, but state of tide does not affect the foregoing.

At Vuda Point, the tanker berth of Lautoka, tankers in the 18,000 to 24,000 d.w.t. class can be handled. This is a submarine pipe-line installation, the ship mooring to 4 buoys, available depth being about 36 ft.

VHF: Port Control on Channels 12 and 16 during normal office hours.

TUGS: No tugs available. Can be obtained from Suva if reasonable notice is given.

BERTHING: Berthing and unberthing at Vuda Point only in daylight. Berthing at Lautoka is at discretion of Harbour Master or Pilot, but in normal conditions is effected at any hour of day or night.

Berthing in Lautoka is generally effected port side to.

Wharf	*Length*	*Depth*
Queens West	457 ft.	36 ft.
Queens North	257 ft.	24 ft.
Queens East	423 ft.	12 ft.
*F.S.C.	271 ft.	32 ft.

*Bulk sugar loading installation for Fiji Sugar Corporation Ltd.

FUEL: Diesel fuel is available at the North and East berths on Queens Wharf.

FRESH WATER: Fresh water is available at all berths, there may be some restrictions in the dry season.

TANKERS: See "Max. Size". No slop discharge facilities. Discharge line 8 in. diameter.

DENSITY: 1025.

CONSULS: None.

REPAIRS: Only comparatively minor repairs can be effected such as welding jobs and repairs to pumps and other auxiliaries.

SURVEYORS: Not available.

REPATRIATION: Repatriations can be effected through vessel's Agents.

AIRPORT: Nandi International Airport is 16 miles from Lautoka. Frequent flights to all parts of the world by several major airlines operating through Nandi.

TIME: GMT plus 12 hours. No alterations to clocks.

HOLIDAYS: *Public holidays:* 1984.

New Year's Day	2nd January
Good Friday	20th April
Easter Saturday	21st April
Easter Monday	23rd April
Queen's Birthday	18th June
Bank Holiday	6th August
Fiji Day	8th October
Deepwali	24th October
Prince Charles' Birthday	12th November
Prophet Mohammed's Birthday	7th December
Christmas Day	25th December
Boxing Day	26th December

POLICE/AMBULANCE/FIRE: Dial 000 in emergency. Police, 60222; Ambulance, 60399; Fire, 60211.

SERVICES: Tank-cleaning labour and labour for painting, chipping, etc. can be provided, but no equipment. No facilities for discharge of slop tanks etc. Compass adjustments can be arranged.

Telephone connection on wharf (3 lines). Police post on wharf.

AUTHORITY: Ports Authority of Fiji, G.P.O. Box 780, Suva, Fiji. *Tel:* 312-700. *Telex:* 2203 PAF FJ. *Cables:* Pafiji Suva. *Contact:* Director General.

LEVUKA: 17.41 S. 178.51 E. (See Plan Book)

DOCUMENTS:

Goods carried in unregistered space (C.E. 148) (1 only).
List of articles in possession of Crew, Officers and Master (1 only).
Crew List (8 only).
Passenger List (8 only).
Parcel List (2 only).
Primary Health Report (1 only).
Special Malaria Forms (1 only).
Vaccination Certificates (1 for each person).
Derating Certificates (1 only).

PILOTAGE: Pilots are arranged through Agents.

MAX. SIZE: Length 560 ft. Max. draft 25 ft.

HEALTH: Radio pratique may be granted when any vessel has not visited any malarious port and Master declares that crew and passengers are healthy and vessel has not come from any area where internationally quarantinable diseases are endemic or in epidemic.

Vessel may then enter port by day or night. On berthing, Master must immediately deliver to Quarantine Officer fully completed Primary Health Report and Derat or Derat Exemption Certificate. If there is any suspected case of disease or fever on board, vessel must be anchored at Quarantine Anchorage until cleared by Port Medical Authority. Pratique is automatic if a vessel has been granted pratique at another port in Fiji.

TUGS: No tug service available.

BERTHING: Only 1 vessel berthing at a time.

Berthing in Levuka is generally effected starboard side to, outside Queens Wharf. Both dry cargo ships and tankers use the one berth available for overseas shipping at Levuka.

Wharf	*Length*	*Depth Alongside*
Outer Face	255 m. (837 ft.)	7.9 m. (26 ft.)
Inner Face	208 m. (683 ft.)	6.7 m. (22 ft.)

STEVEDORES: Estimated time of arrival of any vessel and tonnage of cargo to be discharged should be received at least 24 hours from time of arrival.

MEDICAL: Normal hospital facilities are available. Specialist services not available but can be arranged for within 24 hours. Smallpox, cholera and yellow fever valid Vaccination Certificates are required to be held by ship's crew and passengers except those coming from New Zealand, Australia, Kiribati, Tuvalu, Tonga or Samoa.

TANKERS: Load and discharge lines 8 in. steel pipe. 1 berth only.

DENSITY: 1025.

FRESH WATER: Available only during normal working hours, which is from 0600 to 1600 from Monday to Thursday, and Friday up to 1500. Rate of delivery of water is about 15 t.p.h.

FUEL: Light marine diesel only – viscosity kin. at 100°F. = 3.4.

FIRE PRECAUTIONS: Bunkering only permitted during period between sunrise and sunset.

GANGWAY/DECK WATCHMEN: Services of watchman highly recommended to stop unauthorised persons from going on board.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: All crew and Officers will be issued with 25 cigarettes per day. A maximum of 4 days' allowance may be given at any one time. Cigars or tobacco may be taken in lieu of cigarettes. Masters and other Officers may be allowed to keep in their possession small quantities of liquor.

Daily allowances: spirits, 1 reputed quart to Master; beer, 2 reputed quarts to other Officers; spirits, 0.25 reputed quart to other Officers; beer, 2 reputed quarts to Master.

IDENTIFICATION CARDS: Not compulsory.

CONSULS: None.

REPAIRS: Minor engine repairs are possible, but deck and major engine repairs could be carried out at Port of Suva, which is about 57 miles away.

REPATRIATION: Facilities exist for repatriation.

AIRPORT: Is situated on island of Viti Levu and the distance is about 200 miles. It is served by regular airlines (international). Connections twice daily from local airport, 12 miles from port.

TIME: GMT plus 12 hours.

HOLIDAYS: Working of cargo is not permitted on Sundays, Good Friday and Christmas Day. Application to work on Sundays to be made to the Ports Authority of Fiji at Levuka.

Public Holidays (1984): See "Lautoka".

POLICE/AMBULANCE/FIRE: Police, 44222; Ambulance, 44015; Fire, 44014.

TELEPHONES: Arrangements may be made with Postmaster for installing telephone on board.

GENERAL: Rat guards must be affixed to all shore moorings or cables greased when alongside to prevent the advent of rats.

SHORE LEAVE: All crew members are allowed shore leave unless there is a special restriction from any Government authorities.

DELAYS: No berthing at night (lines cleared by Quarantine Authorities). Bunkering from sunrise to sunset. No loading or discharge during rain.

AUTHORITY: Port Authority of Fiji, G.P.O.Box 780, Suva, Fiji. *Tel:* 312-700. *Telex:* 2203 Paf Fj. *Cables:* Pafiji Suva. *Contact:* Director General.

SUVA: 18.08 S. 178.26 E. **(See Plan Book)**

PORT LIMITS: A vessel is considered to be an "arrived vessel" having passed the West Reef Beacon at the entrance to Suva Harbour.

DOCUMENTS:

1 Last Port of Clearance Certificate.
2 Declaration of Nett and Unregistered Tonnage form.
8 Passenger Lists.
8 Crew Lists.
6 Stores Lists (for high duty goods).
Passenger liners are required to submit Transit Passenger Lists and also a letter of Guarantee from Master.
Vaccination Certificates for Passengers and Crew.
Derat Certificates.

PILOTAGE: Arranged through vessel's Agents. 24 hours notice of ETA with confirmation 12 hours before arrival. Suva Harbour Control should be contacted on Channel 16 and 20 VHF when within VHF range. Pilot vessel is a white clipper bow launch with word "Pilot" in black on each side and will leave wharf 30 minutes before signalled ETA of vessel. Pilots board on leads 5 miles from front lead. Vessels may stand in on leads to meet pilot vessel. Vessels are advised to provide 2 manropes for pilot ladder which will usually be required on the port side. No anchorage for vessels awaiting a Pilot.

ANCHORAGES: Safe anchorage may be found in depths of 10 to 20 fathoms within the harbour. Holding is good, mud bottom.

RESTRICTIONS: Vessels may enter at any time of day or night.

MAX. SIZE: No length or draft limitation for conventional vessels entering port. Largest vessel regularly entering is 42,000 tons.

HEALTH: Health authorities require that vessels cable details of ports visited within 50 days of ETA. Radio pratique will be granted to vessels which are healthy and have not visited a port in a malarial area within 50 days. Health authorities board and inspect any vessel which has visited a malarial port within 50 days and will spray any vessel which has visited a malarial port. Authorities board from a launch as vessel enters harbour. Quarantine Officer will sight Maritime Declaration of Health and Deratisation Certificate on boarding. No further pratique formalities are required in Fiji ports other than first port of entry.

RADIO: Suva Radio, call sign 3 DP. 500 kHz., 24 hours listening watch.

VHF: Port Control maintains a 24-hour port radio control watch at Suva on VHF Channels 16 and 20. The call sign is "Suva Harbour Control".

TUGS: One tug available – 1,125 h.p. Compulsory for vessels of 3,000 g.r.t. and upwards.

BERTHING: Vessels berth port or starboard side to King's Wharf or port or starboard side to Walu Bay Wharf as may be necessary. King's Wharf is 495.0 m. in length, having a least depth alongside of 11.6 m. at MLWS at the North end and 10.6 m. at the South end, whilst Walu Bay Wharf is 183.0 m. in length, having a least depth alongside of 9.0 m. MLWS.

Vegetable Oil: Vessels loading vegetable oils berth at Walu Bay or North King's Wharf.

LPG Carriers: Berth North King's Wharf or Walu Bay.

STEVEDORES: Arranged by ship's Agents.

Working Hours:

Day Shift:	0800 –c 1300 hrs.	: 5 hours
	1300 – 1400 hrs.	: unpaid meal break
	1400 – 1600 hrs.	: 2 hours
		7 hours
Afternoon Shift:	1600 – 2100 hrs.	: 5 hours
	2100 – 2200 hrs.	: unpaid meal break
	2200 – 2400 hrs.	: 2 hours
		7 hours
Night shift:	2400 – 0500 hrs.	: 5 hours
	0500 – 0600 hrs.	: unpaid meal break
	0600 – 0800 hrs.	: 2 hours
		7 hours

MEDICAL: Advance notice of medical assistance is desirable. Hospital facilities available. Current international vaccination certificates required.

TANKERS: Discharge lines 8 ins. diameter. Tankers discharge at King's Wharf, North and South Berths. Depths alongside 42 ft. No residue discharge facilities.

DENSITY: Salt water, density 1025 approx. No tide effect on density.

FRESH WATER: Available at all berths. Delivery rate 30 t.p.h. per hose.

FUEL: Furnace fuel oil, diesel fuel oil, gas oil available by prior arrangement through oil company.

GANGWAY/DECK WATCHMEN: Employment of deck/gangway watchmen is recommended and normally provided by ship's Agents.

OPENING/CLOSING HATCHES: Normally opened and closed by stevedore labour but crew may be employed at Master's discretion.

CERTIFICATES:

Load Line.
Certificate of Registry.
Safety Equipment Certificate.
Radio Certificate.
Derat Certificate.
Maritime Declaration of Health.

CUSTOMS ALLOWANCES: 1 oz. tobacco per man per day. No alcohol.

IDENTIFICATION CARDS: Not compulsory.

CONSULS: *Diplomatic Heads of Missions Resident in Fiji:*

Australian High Commissioner	H.E. Mr. Colin McDonald
British High Commissioner	H.E. Mr. Roger A. R. Barltrop
French Ambassador	H.E. Mr. Robert Puissant
Indian High Commissioner	H.E. Mr. C. P. Ravindranathan
Japanese Ambassador	H.E. Mr. Ken Ikebe
New Zealand High Commissioner	H.E. Lindsay J. Watt
Papua New Guinea High Commissioner	H.E. Mr. Naime Doko
Ambassador for the People's Republic of China	H.E. Mr. Shen Zhiwei
Tuvalu High Commissioner	H.E. Mr. Kitiseni Lopati
United States Ambassador	H.E. Mr. Fred J. Eckert
Malaysian Ambassador	H.E. Mr. Abdul Karim Bin Marzuki
South Korean Ambassador	H.E. Mr. Sung Kwoo Kim

Consular Representatives in Fiji:

Denmark	Mr. A. Dickson
Finland	Mr. S. L. Christian
Italy	Mr. R. M. Warner
West Germany	Mr. Gerald Barrack
Mexico	Mr. Simon C. Israel
Nauru	Mr. Francis Garoa
Netherlands	Mr. R. J. Woodman
Norway	Hon. Senator Sir Robert L. Munro
Pakistan	Mr. Rahim Zullah
Philippines	Mr. Abdul Lateef
Sweden	Mr. Aminiasi Katonivualiku

REPAIRS: Engine and deck repairs may be carried out at local machine shops.

REPATRIATION: Facilities exist for crew changes and repatriation.
AIRPORT: 15 miles to Nausori (Suva) Airport, serving Pacific Islands on weekly basis. Numerous daily flights to Nandi International Airport.
TIME: Local time is 12 hours ahead of GMT.
HOLIDAYS: See "Lautoka".
Cargo is not worked on Public Holidays.
POLICE/AMBULANCE/FIRE: Police, 311222; Hospital, 313444; Ambulance, 312439; Fire, 22688; Emergency, 000 for any of the above services.
TELEPHONES: Telephone connections to ships are provided.
SERVICES: Compass adjusting may be carried out.
SHORE LEAVE: Allowed.
DELAYS: Delays are not usual except for rain during hurricane season from November to April.
AUTHORITY: Ports Authority of Fiji. G.P.O.Box 780, Suva, Fiji. *Tel:* 312-700. *Telex:* 2203 Paf Fj. *Cables:* Pafiji Suva. *Contact:* Director General.

OUT PORTS OF SUVA: Customs and Pilot are embarked at Suva or Lautoka.

Ellington: Lat. 17.20° S., Long. 178.14° E. Private wharf for loading sugar and molasses from Raki Raki Mill.

Naikorokoro: North Coast of Kandavu. Anchorage for loading sawn timber.

Savu Savu: Lat. 16.47° S., Long. 179.21° E. Government wharf for local coast trade and anchorage for cruise vessels.

Vatia Point: Lat. 17.25° S., Long. 177.46° E. Private wharf for discharging explosives and fuel to gold mines.

NOTES

Please also advise Shipping Guides Ltd.

Finland

EKENAS/TAMMISAARI: 59.58 N. 23.26 E.

DOCUMENTS:

International or Finnish Measurements Certificate.
1 Personal Effects List.
1 Ship's Provisions List.
2 Crew Lists (passengers to be included).
1 Customs Declaration (official forms supplied by the Customs Authorities).
4 Manifests.
2 Bills of Lading.

PILOTAGE: Pilots for Ekenas/Tammisaari applied for at Hango Pilot Station by approaching pilot station outside Hango/Hanko, where pilot boat will meet vessel right outside pilot station.

Telegram address: Hango Pilot.

MAX. SIZE: Max. draft 15.1 ft. (4.6 m.). No other restrictions. At Skogby, draft up to 24 ft. – No tide.

RADIO: Hanko Radio, Call sign OFI.

TUGS: Normally no tugs stationed at Ekenas but can be arranged from Koverhar or Hanko (12 nautical miles and 20 nautical miles from Ekenas respectively).

BERTHING: Two quays at Ekenas: "Trakajen", length about 160 ft.; "Stenkajen", length about 500 ft.

3 mobile cranes, capacities 27, 36 and 56 tons are available. Two of the mobile cranes are equipped with grabs suitable for discharging of bulk cargoes such as coal, coke, china clay, ball clay, salt and grain.

Situated about 6 nautical miles from Ekenas is Skogby Sawmill Quay. Depth alongside 24 ft. Skogby Sawmill exports packed sawn goods and chipboard, mainly to U.K.

STEVEDORES: ETA to be given to Agent 1400 hrs. Finnish time on the day before arrival in order to prepare loading/discharging (Stevedore: J. A. Westerlund).

MEDICAL: Hospital treatment can be arranged when needed.

DENSITY: 1001.

FRESH WATER: Fresh water is delivered to the ship's side by means of hose in summertime. Also at Skogby.

FUEL: Bunkering available at Ekenas by means of tank trucks.

CUSTOMS ALLOWANCES: 200 cigarettes permitted for each crew member. 1 open bottle of 1 litre wine or spirit is allowed for each crew member over 18 years of age.

REPAIRS: Minor electrical and deck repairs may be carried out.

AIRPORT: Nearest airport is Helsinki Airport, situated about 100 km. from Ekenas.

HOLIDAYS: On Saturdays and days preceding Church holidays, the eve of Independence Day, the day preceding May Day, on Whitsun Eve and on New Year's Eve the working day consists of four working hours, starting from 0700 hrs. or 0800 hrs. and lasting to 1100 hrs., or 1200 hrs. respectively without break for meals. May Day, Independence Day, (6th December), Easter Saturday, Midsummer Eve and Christmas Eve are considered as labour free days.

POLICE/AMBULANCE/FIRE: Police, Tel. 002; Ambulance, Tel. 14100; Fire, Tel. 000.

TELEPHONES: There are no arrangements for placing telephones on board the vessel but telephone calls can be made from the Harbour Constable's Office.

SUPPLIES: Ship stores and provisions can be ordered from Hango through Agent.

SHORE LEAVE: Shore leave allowed for crew members.

IDENTIFICATION CARDS: Not needed.

OPENING/CLOSING HATCHES: Normally carried out by crew.

AUTHORITY: Hamnkontoret i Ekenas, Postbox 52, SF-10601 Ekenas. *Tel:* 911 – 12364. *Telex:* 13 – 121 Sbrok Sf. *Contact:* Rolf Artzen, Harbour Master.

HAMINA: 60.34 N. 27.11 E. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" subject to Charter Party Terms, when arrived at roads.

DOCUMENTS: Normally required:

1 Crew List.
1 Passenger List.
3 Manifests.
1 Bill of Lading of each consignment.

Customs Documents:
1 Special List (personal effects).
1 Provision List (Ship's Articles).

Ship's Papers Required:
Safety Equipment Certificate.
Radio Safety Certificate.
Construction Certificate.
International Tonnage Certificate.
International Load Line Certificate.
Certificate of Registry.
Tonnage Dues and Ice Dues Certificates if vessel called earlier.

PILOTAGE: Sea Pilot boards at Orrengrund. Fairway 33 miles from Orrengrund to Hamina, depth 9.0 m. New Fairway 38 miles long depth 10.0 m. VHF radio telephone Channel 16; pilot boat: hull red, superstructure yellow. Vessels coming from Eastward can take Pilot at Haapasaari (Aspo), but must order Pilot by radio via Coast Radio Station at least 6 hours before ETA Haapasaari.

Harbour Pilotage: Harbour Pilot takes over at Roads. Harbour pilot boat: hull black, superstructure yellow, word "Pilot" painted with black letters. Harbour pilotage optional.

ANCHORAGES: 2 anchorages with good holding grounds at Roads.

RESTRICTIONS: Usually no restrictions. Max. draft 10.0 m. Port open throughout year.

MAX. SIZE: Draft is governing factor. No tide but prolonged Easterly winds can cause lower water level, which must be checked before entering berths.

HEALTH: Bill of Health not required. In case suspected disease or fever on board, doctor to be contacted, preferably via Agent, by radio before arrival.

RADIO: Vessels in Baltic Sea usually contact Helsinki Radio/OHC, A1 and OHG, A3. VHF Channels 16 and 26. Vessels in Eastern part of Gulf of Finland contact Kotka Radio/OHF, A1 and OFU, A3. VHF Channels 16, 25 and 27.

RADAR/VHF: There is no land radar service. Harbour is equipped with VHF radio telephone, Channels 16 and 12. Also see "Radio".

TUGS: Join vessels at Roads. Ship's lines usually used.

BERTHING:

Quay	*No.*	*Draft* (m.)	*Length* (m.)

STEVEDORES: ETA is expected in good time before arrival.

MEDICAL: Advance notice helpful but not compulsory. Hospital facilities available at town.

TANKERS: Possibility to discharge oily water ballast.

Also see "Berthing".

DENSITY: 1003.

FRESH WATER: Available at majority of quays; elsewhere supplied by boat.

FUEL: Fuel and diesel oils available at short notice. Delivery by tank truck.

GANGWAY/DECK WATCHMEN: Shore watchmen available, Sundays and holidays 100% extra.

OPENING/CLOSING HATCHES: Crew close automatic hatch covers. Hatches to be covered manually are usually covered by stevedores.

CUSTOMS ALLOWANCES: Tobacco: Master 200 cigarettes or 200 grams tobacco. Others, 100 cigarettes or 100 grams tobacco. Wine and/or Spirit: Master, 3 bottles wine or spirits. Others, 1 bottle.

CONSULS: Great Britain, Denmark, Netherlands, Norway, Sweden.

REPAIRS: Minor repairs effected.

REPATRIATION: There are facilities for repatriation.

AIRPORT: Helsinki Airport, distance 145 km. Regular flights.

TIME: Local time is GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: New Year's Day (Jan. 1); Epiphany (Jan. 6); Good Friday; Easter Monday; Labour Day (May 1); Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (Dec. 6); Christmas (Dec. 25 and 26); Midsummer's Eve.

POLICE/AMBULANCE/FIRE: Police 1; Ambulance 1; Fire 000.

TELEPHONES: None available for placing on board.

REGULATIONS: Regular terminal vessels have preference at certain berths.

AUTHORITY: Port of Hamina Authority, PL 14, SF-49401 Hamina. *Tel:* 952-54940. *Contact:* Tapio Mansikka, Harbour Master. S. Vaulo, Port Director.

HANKO: 59.49 N. 22.58 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Crew List.
Manifests.
Bills of Lading.
Provisions List.
Health Certificate.

PILOTAGE: Compulsory, distance from sea to port is 6 miles. Pilot boat painted red, arriving outside Russaro called by radio via Hanko Radio or by flag, sound or Morse: "G".

ANCHORAGES: Inside Gustavsvarn.

RESTRICTIONS: Draft 26.5 ft., length/breadth no restriction; no tide.

RADIO: Cable Agents giving ETA via Hanko or Helsinki Radio.

RADAR: At pilot station; service for ships entering port, contact by ship's radio.

TUGS: In Winter harbour tug boat helps ships to and from the quay.

BERTHING: Advise Pilot. Depths at piers 19 ft. – 29 ft. Quay height about 6 ft. above sea level. Shore fenders keep vessel about 2 ft. off quay. Special quays for roll-on/roll-off traffic.

Quay	*Permitted draft in feet*	*Length of quays metres*

Great Mole	1	6	Movable
	2	3	"
Notholms quay	1	2.5	"
	2	5	" 1 with grabs
	1	40	"

Free Harbour: One mobile crane, lifting capacity 40 tons. 21 fork lift trucks available.

STEVEDORES: Ordered by Agents.
FRESH WATER: Delivered from shore installations during daytime. Rate of delivery about 20 t.p.h.
FUEL: Delivered by rail cars only.
DENSITY: 1005.
WATCHMEN: Available but not compulsory.
HATCHES: Crew allowed to open and close hatches.
CUSTOMS ALLOWANCES: No restrictions in the Free Port, outside about 200 cigarettes and limited amount spirits per man.
IDENTIFICATION CARDS: Not required.
CONSULS: Denmark, Iceland, Netherlands, Norway, Spain, Sweden.
REPAIRS: Small repairs possible.
SURVEYORS: Surveyors and cargo inspectors available.
TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.
POLICE/AMBULANCE/FIRE: Police 003; Fire 005; Ambulance 82228.
STORING: Storing possible by barge or truck. Fork lift trucks and riggers available.
AUTHORITY: Port of Hanko, Bulevardi 15, 10900 Hanko. *Tel:* (911) 83131. *Contact:* Tom Luoma, Port Director, *Tel:* (911) 81217.
Harbour Master, *Tel:* (911) 81201.

HELSINKI: 60.10 N. 24.57 E. (See Plan Book)

DOCUMENTS: See "Oulu".
PILOTAGE: Compulsory. ETA required 24 hours prior arrival. At present there are 3 different channels available for vessels approaching Helsinki.

1. Helsinki Lighthouse-Harmaja-Helsinki. This may be considered the main approach to Helsinki. Helsinki Lighthouse is situated in the Gulf of Finland, off the outermost shoals South of Helsinki, at a distance of about 22 km. from the port. The channel is navigable by vessels drawing up to 9.6 m. (31 ft. 6 in.). Pilots are picked up from the pilot station at Harmaja.

2. Helsinki Lighthouse-Melkki-Helsinki. This 11 m. channel leads from Helsinki Lighthouse, passing between the islands of Pihlajasaari and Melkki, to Ferry Berth 4 in the West Harbour. The fairway is navigable at all times of day or night, and is lit and marked with buoys that allow for passage under winter ice conditions. Pilots are picked up from the Harmaja Pilot Station.

3. Porkkala-Helsinki. A 10 m. deep fairway leads from the open sea from a point 9 km. West of the Porkkala Lighthouse, and joins a 9 m. coastal channel leading to Helsinki just North of the Suvisaaristo group of islands. Merging with this channel is the one from the West of Porkkala, which joins on the Southern side of Stor Trask, and a channel from the East, which meets it North of Pihlajasaari. Both these are navigable to a depth of 7.9 m. The Pilot is taken on from the Porkkala Pilot Station.

Harmaja Sea-Pilot Station: Tel. 668 122. Harbour Pilots at Harbour Office: Tel. 169-3777 or 631251.
ANCHORAGES: Good anchorage available outside harbour, depth 26 ft. – 32 ft. clay bottom.
MAX. SIZE: Draft 31 ft., length no limit.
HEALTH: See "Oulu".
VHF: Harmaja Pilots, Porkkala Pilots and Port Authority call VHF Channel 16 or 13.
DIRECTION FINDING: Harmaja Radio Beacon (frequency 298.8 kHz. Signal "HA") transmits:
Non-directional radio signals, with a modulation frequency of 395 kHz. By listening to these signals with a direction finding receiver, equipped with frame aerial, a ship can determine her bearing to the beacon.
Harmaja lighthouse and Helsinki lighthouse fitted with "Racon" for 3 cm. radar (X-area).
DEPTH OF CHANNELS:
From Helsinki to East 9 m.
From Helsinki Lighthouse to Helsinki 9.6 m. and 11.0 m.
From sea South via Porkkala 9.0 m.
TUGS: Several available: charges based upon time when tug leaves station berth until moment of return to same station.
BERTHING: Port and equipment owned by Municipality of Helsinki. 5 principal parts of port are South Harbour and West Harbour, Sornainen Harbour, and Herttoniemi and Laajasalo Oil Harbours.

Foreign passenger traffic is concentrated on the South Harbour.

West Harbour handles main part of transoceanic traffic; heavy goods and container terminal in West Harbour fitted with 1 container crane and 1 multi-purpose crane (lifting capacity of each 40 tons), also silos of 2 flour-milling plants (Vaasan mylly Oy and State Granary), into which grain discharged by suction. On silo quay pneumatic grain unloader owned by State Granary travels along 71 m. long bridge alongside ship to be unloaded. Equipment is 30 m. above quay level and range of suction pipe 11 m. from edge of quay. Unloading equipment can handle 100 t.p.h. Mass export articles such as cellulose, paper and wood goods, loaded chiefly in this harbour. In West Harbour is free-zone warehouse, which offers same privileges as free port.

The Sornainen Harbour operates mainly as a North Sea general cargo harbour. The area contains a coal harbour.

Herttoniemi and Laajasalo form the oil harbour, where the leading oil companies have oil storage tanks and their own piers.

See Tables below and opposite.

REPATRIATION: Available.

AIRPORT: Distance to airport 25 km. Flights every day all over Europe.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: New Year's Day (1st January); Epiphany; Good Friday; Easter Monday; Workers' Holidays (1st May); Ascension; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (6th December); Christmas Eve; Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Police 002; Ambulance 006; Fire 005. General alarm 000.

TELEPHONES: Available.

SERVICES: Compasses are adjusted by competent adjusters approved by the Board of Navigation. For compass adjustment the port has constructed piles or buoys with direction markings. These appliances can be used also for radio direction-finders.

Vessels using the compass-adjustment facilities must have on board a Harbour Pilot, who is entitled to the same compensation as for harbour pilotage.

CLASSIFICATION SURVEYORS: Lloyd's Register of Shipping, Bureau Veritas, American Bureau of Shipping, Germanischer Lloyd, Det Norske Veritas.

ICEBREAKERS: *Teuvo*, length 39.9 m., breadth 12.9 m., fitted with 2 combined water/foam cannons for fire fighting purposes, total capacity of 300 cu.m.p.h. VHF-telephone: call OIEV.

During ice seasons one of the following Government icebreakers assigned to assist ships from open water to harbour area and vice versa:

	Length (m.)	*Breadth (m.)*
Varma	86.5	21.2
Apu	86.5	21.2
Tarmo	84.0	21.1
Voima	83.5	19.4
Sampo	74.6	17.4
Murtaja	74.1	17.4
Karhu	74.1	17.4
Hanse	74.6	17.4
Sisu	104.7	23.8
Urho	104.7	23.8

Masters should communicate with icebreakers between January and March.

DEVELOPMENTS: *New Quay in the West Harbour:* The new ferry-berth (LP 4), was finished in 1981 and the draft of which is 11 m. The quay will be furnished with a 40 ton multipurpose crane.

AUTHORITY: Port of Helsinki Authority, Etelaranta 10, P.O.Box 26, 00131 Helsinki 13, Finland. *Tel:* 358-0-1691. *Telex:* 124913. *Contact:* Mr. Eljas Muurinen, Managing Director (*Tel:* 169 3801.) Mr. Juha Lainio, Harbour Master (*Tel:* 169 3775).

INKOO: 60.01 N. 23.55 E.

PILOTAGE: Pilot station is Porkkala pilot station. Pilotage service 24 hours a day, VHF watch on Channels 16 and 13, 24 hours a day. Notice must be given 2 hours before arrival at boarding place (Lat. 59° 54′ N., Long. 24° 12′ E.). Distance from boarding place to harbour area about 14 miles. Pilot may also be ordered by telephoning Helsinki 2984112.

APPROACHES: Max. draft 13 m., turning place for large vessels (over 200 m. LOA) is 1 mile East of harbour area.

MAX. SIZE: See "Berthing".

ANCHORAGES: 2-4 miles S.W. of Sommaro Island.

VHF: Call sign "Inkoo Harbour", watch maintained 16 hours a day on Channel 16.

TUGS: Tugs are available at any time, notice required is same as Pilot. If the vessel is over 200 m. LOA tug joins at Fagero Island about 5 miles before harbour area, otherwise tugs join at the turning place 1 mile before harbour area. Tugs use ship's lines.

BERTHING:

Oy Lohja Harbour: Max. draft 7.8 m.

Coal Quay: Length 175 m., 2 cranes, 10 tons and 6 tons by hook and half the capacity by grab.

Paper Quay: Length 140 m., mobile cranes available.

Imatran Voima Oy Inkoo Power Plant: Max. draft 13 m. and 10 m.

Total length of quay 455 m., max. draft 13 m. at the East part of the quay (240 m.), and the West part, max. draft 10 m. (length 215 m.). 3 cranes, 10 tons each by hook and half the capacity by grab, working area 410 m.

Inga Hamn – Inkoon Satama Oy: Same as the East part of Inkoo Power Plant.

FRESH WATER: Available.

DENSITY: 1004.

DEVELOPMENTS: Dredging underway.

AUTHORITY: *Oy Lohja Harbour:* Oy LK-Shipping AB, 10210 Inkoo, Finland. *Tel:* (International) 3580218121. *Telex:* 1418 Lkin Sf. *Cables:* Elcoy. *Contact:* Rolf Danielsson.

JAKOBSTAD (Alholmen): 63.42 N. 22.42 E.

(See Plan Book)

DOCUMENTS:

International Measurement Certificate.
3 Manifests.
2 Bills of Lading of each consignment.

Customs Documents:

1 Crew List.
1 Special List (personal effects).
1 Provision List (ship's articles).

Important: If the vessel is calling at two or more Finnish ports, 2 of each of these lists are to be produced at the first port of call.

PILOTAGE: VHF Channel 16, MF 2182 kHz. Anchorage for vessel awaiting a Pilot: outside the lighthouse "Kallan". Pilot boat equipped with radar.

ANCHORAGES: On inner roads called "Ado Roads", depth 8 m.

MAX. SIZE: Max. draft in the inner harbour 9.0 m. No tide.

HEALTH: See "Oulu".

RADIO: Vasa Radio Station. Gamlakarleby/Kokkola VHF Channel 28.

TUGS: Tugs (1,300 h.p.) are normally stationed in the harbour. Ship's lines to be used.

BERTHING: New Quay: Length 200 m., depth 7.4 m.

Old Quay: Length 180 m., depth 4.9 m. (inside), 6.0 m. (outside).
Busko Quay (Ro/Ro Berth): Length 160 m., depth 7.4 m.
Laucko Quay: Length 150 m., depth 9 m.
Elevator Quay: Depth 6 m.

CRANES: 6 mobile cranes available.

STEVEDORES: 1st shift Monday to Saturday 0700 – 1600 hrs. (meal hours 1100 – 1200 hrs.); 2nd shift Monday to Friday 1600 – 2400 hrs. To commence loading at 0700 hrs. notice must be given latest at 1600 hrs. the day before, or before 1200 hrs. if commencing at 1600 hrs.

MEDICAL: Advance notice not required. All facilities available.

TANKERS: Vessel's draft must not exceed 9.0 m.

DENSITY: Fresh water.

FRESH WATER: From pipe-line alongside quay.

FUEL: Light Fuel Oil and Heavy Fuel Oil available.

GANGWAY/DECK WATCHMEN: Watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Derat Certificate to be kept on board.

CUSTOMS ALLOWANCES: Tobacco: 100 cigarettes per 3 days for each crew member. Wine and/or Spirits: 1 bottle per 6 days for each man over 20 years of age.

IDENTIFICATION CARDS: Not needed.
CONSULS: Danish, Tel: 10144; Swedish, Tel: 10444.
REPAIRS: All types of repairs possible.
REPATRIATION: Crew changes can be effected.
AIRPORT: Kronoby Airport about 30 km. from Jakobstad. 4 flights daily.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: 1st and 6th January; Good Friday; Easter Eve; Easter Monday; Labour Day (1st May); Ascension Day; Midsummer Eve; Whit Monday; 6th December (Independence Day); 25/26th December; All Saints' Day.
POLICE/AMBULANCE/FIRE: Police 002; Ambulance and Fire 005.
TELEPHONES: Connection for telephone on board available.
DEVELOPMENTS: A ramp for passenger ships under construction, depth 6 m. Ready for use 1984.

The new depth will be 9 m. in the fairway to port and at the quay under construction.
AUTHORITY: Jakobstad Port Authority, SF 68600 Pietarsaari, Finland. *Tel:* 967-10034. *Contact:* Ingmar Fagerudd, Harbour Master.

KASKO (KASKINEN): 62.23 N. 21.13 E. (See Plan Book)

DOCUMENTS:

2 Crew Lists.
2 Customs Lists.
2 Passenger Lists.
Manifest, Bill of Lading, etc.

Between 1st December – 30th April (Winter) ice breaker available. The Finnish Ice Class Certificate, (required since 1984) can be obtained in Kaskinen.
PILOTAGE: Pilot boards 4 miles outside pilot station. Pilot boat or station can be called by radio telephone 2182 or VHF Channel 16. Notice is not required. Pilot can be called, daytime flag "G" or "PT", night-time by Morse "PT".
ANCHORAGES: Safe areas of anchorages, 3 miles W.S.W. of pilot station Salgrund, depths 10 m. – 20 m.
MAX. SIZE: Max. draft 8 m.
HEALTH: Pratique automatic. In case of sickness onboard, contact the Agent.
RADIO: Vasa Radio.
VHF: VHF Channel 16 (Salgrund Pilot).
TUGS: None.
BERTHING:

Pier 112 m. length, 8.5 m. depth
Pier 35 m. length, 7.0 m. depth
Pier 130 m. length, 6.8 m. depth

DENSITY: 1004.
STEVEDORES: Available; rates about 250 – 300 tons pulp per work gang.
MEDICAL: Hospital available.
FRESH WATER: By pipe-line.
FUEL: Available by tank truck.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes. Wine/Spirit: 1 bottle spirit.
CONSULS: None.
REPAIRS: Only small repairs.
AIRPORT: Distance to Vasa Airport 100 km. Served by regular airlines.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: See "Oulu".
POLICE/AMBULANCE/FIRE: Police 002; Ambulance 006; Fire 005.
TELEPHONE: Can be connected. No cost for connection.
SHORE LEAVE: Allowed.
GENERAL: Port is the most Northern in Finland which under reasonable conditions can be kept open throughout Winter.
AUTHORITY: Kasko Hamnkontor (Harbour Office), 64260 Kaskinen, Finland. *Tel:* 962 – 27201. *Contact:* Matti Vihanto, Harbour Master.

KEMI (Ajos): 65.40 N. 24.31 E. (See Plan Book)

LOCATION: Ajos harbour is a municipal port owned and managed by the city of Kemi. It is located at Ajos, about 10 km. (6 nautical miles) South of Kemi, Lat. 65° 40′ N., Long. 24° 31′ E. The area is shown on Finnish Charts Number 275 and Number 59.
APPROACHES: The distance from Kemi lighthouse to the harbour is about 21 nautical miles (39 km.). The minimum width of the channel is 100 m. (328 ft.), and approved depth up to the oil harbour is 10 m. (32.8 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on winds (water level rises during Southerly and falls rapidly during Northerly winds). There are no tides in the area.

During normal winters the harbour is frozen from the beginning of December to the end of May. Over this period the channel from the open sea to the harbour area is kept navigable by state-owned ice-breakers. The Finnish Board of Navigation determines the restrictions and requirements for vessels allowed to enter the harbour during this period. The port has been kept open throughout the year since 1971.
DOCUMENTS: Documents to be handed over after berthing:

2 Crew Lists.
1 Provision List.
1 Special List (Customs).
Tonnage Certificate.
The usual Cargo Documents.

PILOTAGE: Pilot boards from "Kemi I" Lighthouse or Nukkujanmatala Lighthouse. VHF and radio telephone watch maintained.
RESTRICTIONS: Ships can enter and leave Ajos harbour 24 hours a day.
MAX. SIZE: Sea to Fairway at Ajos. Max. draft 10 m. Sea to Fairway at Veitsiluoto. Max. draft 7.1 m. Also see "Berthing".
RADIO: *Entering the Harbour:* Time passing Kiel/Holtenau/Copenhagen is to be given via Harnosand Radio, Mariehamn Radio or Stockholm Radio.

ETA to be given 12 hours before the calculated time of arrival.

Notice is to be given to the pilot station, which is situated at the S.W.-end of Ajos Island via VHF Channels 16/13 two hours before ETA at the pilot embarking point, which is between Kemi lighthouse and lighthouse Nukkujanmatala depending on the weather.

The notice is to include the name, call sign and the nationality of the vessel, n.r.t., the draft and length of the vessel, time of arrival (at the Pilot's boarding site) and tugs needed for berthing.
TUGS: Icebreaker tugs of 3,500 h.p., 1,300 h.p. and 600 h.p. Ship's lines used.
BERTHING:

GENERAL: It is prohibited to let or throw any substance or refuse causing pollution or shoaling in the harbour area.
SERVICES: Compass adjusting service available.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not required.
NOTICE: Port Authority Notice to Masters.
Instructions Concerning Waste Disposal:

The Port Authority of Kotka informs you hereby that in the Port of Kotka the rules and regulations concerning the protection of the marine environment of the Baltic Sea Area as stated in the Helsinki Convention have to be followed by all ships.

On the strength of this convention no wastes shall be discharged into the water while the ship is in the port area. Breaking of these rules cannot be accepted. The Port Authority will check that the instructions are observed without exception.

While your ship is in the port a necessary amount of sacks for waste disposal will be delivered to the ship. The waste emanating from your ship shall be put into these sacks and before the departure of your ship the sacks shall be delivered *by your crew* to the waste container in the vicinity of the berth of your ship.

In case you want to get rid of oily residues please inform the Harbour Master either through your Agent or directly. For the reception of these wastes the Port Authority does not charge you separately as the cost of this service is included in the general waste disposal fee.

In case your ship is a tanker loading oil products and you wish to dispose of oily water such as tank washing water or ballast water it has to be agreed separately with the Port Authority.

All questions in connection with the waste disposal service will be answered by the Harbour Master (Tel: 11672).

Signed: Port Director.

KRISTINESTAD: 62.16 N. 21.23 E.

DOCUMENTS:
Ship's Measurement Certificate.
2 Crew Lists.
Cargo Manifest.
Copy Bill of Lading.
2 Provision Lists and Tobacco Lists for Customs.
Ice Certificate 1.12–3.4.
PILOTAGE: Pilot boards at Hojerstein Light Buoy. At least 2 hours ETA required. Pilot boat has red painted hull, white marking "L" on bow, and deck house yellow. Pilot station situated on Hoggklubb Island South of Kristinestad, International pilot call signals to be used, also radio telephone 2182 and VHF Channel 16.
ANCHORAGES: Good safe holding ground off Adgrund. Depth 10 m.
MAX. SIZE: For general cargo and timber, 20 ft. draft in old port. For tankers, 33 ft. in the oil port. Depth at new coal harbour 33 ft.
See also "Tankers".
RADIO: Messages through coastal stations. Also Kristinestad VHF Channel 24. Also see "Pilotage".
TUGS: 1 tug available 240 h.p. Additional powerful tugs available with sufficient notice.

BERTHING: No special requirements. Pilot gives orders for berthing.
Inner Wooden Quay. Length 75 m., depth alongside 15 ft.
Outer Stone Quay. Length 250 m., depth alongside 20 ft.
There are 3 mobile cranes of 10 tons capacity.

SPECIALISED CARGO HANDLING FACILITIES: Bulk cargoes can be discharged at quay, 4 portable cranes available. There is one ramp for roll-on/roll-off ships in oil harbour at Bjorno.

New coal harbour at Bjorno Power Station, depth alongside 10.0 m. Berth is equipped with one conveyor for handling self-discharging vessels.

STEVEDORES: Advise ETA and gangs required as stipulated in charter-party. Also when laytime will commence to count. Only timber cargoes loaded.

Normal working hours 0700 – 1600 hrs. all weekdays.

DENSITY: 1004.

MEDICAL: Hospital facilities available.

TANKERS: Oil harbour at Pohjolan Voima Oy, power station at Bjorno. Depth 33 ft. (10 m.) alongside the oil pier. One berth for tankers. Discharge capacity with two 10 in. pipe-lines 2,500 t.p.h. Fresh water supply to tankers available from shore installation rate 30 t.p.h.

FRESH WATER: Fresh water supply by shore installation. Any amount available.

FUEL: Fuel available by tank cars of about 20 tons capacity at short notice.

GANGWAY/DECK WATCHMEN: Not compulsory at Timber Pier. Compulsory in oil harbour, according to rules of Board of Navigation.

OPENING/CLOSING HATCHES: Normally carried out by crew, but on request may be handled by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes per 6 days, per man. Wine/Spirit allowance: One bottle per man.

CARGO GEAR: BOT Certificates. No additional requirements.

CONSULS: Danish, tel. 962-12350.

REPAIRS: No shipyards, but welding pipe-line electric repairs possible.

SURVEYORS: Surveyors and Cargo Inspectors available.

AIRPORT: Nearest airports in Vaasa and Pori within 100 km., several flights per day.

TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police Station of Kristinestad 12055 or 002; Ambulance 11626; Fire Brigade 005.

TELEPHONE: Public telephones on the pier.

GENERAL: Timber pier in Port of Kristinestad closed from the end of December to the middle of April owing to ice. Oil port will be kept open according to the general ice situation of Gulf of Bothnia.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Not required.

EMERGENCY CO-ORDINATION CENTRE: Kummalgrund Coast Guard Station: Tel: 962-29142 (Kristinestad) or VHF Channel 16.

STORING: Vessels may be stored by truck which may proceed alongside. No special Customs regulations in force. Riggers and fork lift trucks available.

AUTHORITY: Kristinestad Harbour Office, 64100 Kristinestad, Finland. *Tel:* 962-11051. *Contact:* Sakari Laipio, Harbour Master.

LOVISA (Valkom): 60.25 N. 26.16 E. (See Plan Book)

PILOTAGE: Pilot arrives from pilot station at Orrengrund (Tel. 915–565334, radio telephone). Station equipped with radar. Distance to port 12 miles.

APPROACHES: Depth in fairway (Orrengrund – Valko) – 7.3 m.

TUGS: 1 tug available, 1,250 h.p., between December and April.

BERTHING:
Middle Quay: Length 280 m., depth 7.30 m.
Connection Quay: Length 115 m., depth 7.30 m.
Roll-on/Roll-off Berth: Length 20 m., depth 7.30 m.
South Pier (East Side): Length 130 m., depth 8.50 m.
Inner Harbour: Length 80 m., depth 4.20 m.
In 1984 the depth at all quays will be 8.50 m.

CRANES: 6 mobile cranes, lifting capacity 6 – 36 tons. 2 shore cranes, lifting capacity 6 tons. 1 shore crane lifting capacity 6 – 28.5 tons.

DENSITY: 1003.

DEVELOPMENTS: Depth in fairway increased to 8.50 m. (1984). Land area from 23 ha. to 76 ha. (1983-90). Loading depth to 8.50 m. (1984).

AUTHORITY: Lovisa Port, 07910 Valkom, Finland. *Tel:* Port Director: 915-565514. Harbour Master: 915-565163. *Contact:* Pekka Pajunen, Port Director. Bengt Sandvik, Harbour Master.

MARIEHAMN: 60.06 N. 19.56 E. (See Plan Book)

PORT LIMITS: The Southern boundary of the port is on a line between Lat. 60° 03.5′ N., Long. 19° 56.1′ E. and Lat. 60° 04.2′ N., Long. 19° 55′ E.

DOCUMENTS:
1 Crew List.
1 Passenger List.
3 Provision Lists.
2 Special Lists (in possession each crew member – cigarettes, tobacco, spirit, radios, etc.).
2 Bills of Lading.
Registered Tonnage Certificate.

PILOTAGE: Pilot arrives from station at Lotsberget in Westerhamn harbour, and meets entering vessels about 2 nautical miles S.W. of Marhallan lighthouse. 3 hours' notice of ETA is required. Pilot station and cutter are fitted with VHF radio and keep watch on Channel 16, 24 hours a day. Working Channel is 13. Pilot can also be ordered by cable via Mariehamn Radio.

Pilot can also be taken from Nyhamn pilot station 12 miles from the port. Nyhamn has VHF, Radio 2182 kHz and Radar.

At Nyhamn, Sea Pilot may be obtained for the Baltic Sea, Bay of Bothnia and Bay of Finland.

ANCHORAGES: Good anchorages North of Grano Island in 10 m. to 20 m. water.

MAX. SIZE: Ships of 160 m. length and 7 m. draft can enter the port, but require twin screw and bow thruster for safe manoeuvring.

RADIO: Mariehamn Radio, call sign OHM on telegraphy and OFH for telephony. Connected to the public telegraph and telephone service.

VHF: Following stations keep watch on VHF Channel 16: Mariehamn Radio, Mariehamns Pilot, Mariehamns Hamn (Harbour Office), Sjobevakningen Mariehamn. (The Coast Guard at Mariehamn.)

TUGS: 1 tug of 320 h.p. available. The m/s *Gustaf Erikson* belongs to the Alands Lifeboat Society. Usually ships' lines are used.

BERTHING: *Quays for Passenger Vessels:*

Berth No.	*Length* (m.)	*Depth* (m.)	*Remarks*
1A	100	5.0	
1B	150	6.0	
2	120	3.5	
3	70	6.0	
4	120	6.5	Fitted for Ro/Ro traffic.
5	140	7.0	

Power Station Pier: Depth 5.0 m.

CRANES: 7 mobile cranes can be rented. Maximum lift, 2 cranes of 25 tons and 5 of 16 tons on the shortest radius.

SPECIALISED CARGO-HANDLING FACILITIES: 2 berths for roll-on roll-off traffic, used by car ferries.

STEVEDORES: Ordered by Agents. ETA in good time to obtain gangs.

DENSITY: 1005.

TANKERS: Max. LOA 100 m. Depth alongside 5.5 m.

MEDICAL: All services available.

FRESH WATER: Most berths supplied by shore installations about 15 t.p.h., otherwise by truck.

FUEL: Only diesel oil, no heavy products.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Normally done by crew.

CERTIFICATES: International Tonnage Certificate or National Tonnage Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes and limited amount spirits for each crew member.

CONSULS: Denmark 11 454, Netherlands 12 070, Iceland 21 849, Norway 12 050, Sweden 11 624, U.S.S.R. 11 524, West Germany 11 410.

REPAIRS: Most repairs possible.

DRY DOCKS: Slipway for small vessels, max. about 3-400 d.w.t.

SURVEYORS: No permanent surveyors at Mariehamn.

REPATRIATION: Mariehamn is a good place for repatriation, with many connections to Sweden and to the Finnish mainland every day, with car-ferries and aeroplanes. About 1 million tourists visit Aland Island every year.

AIRPORT: About 5 km. from town, daily traffic to Stockholm and Abo/Turku.

TIME: GMT plus 2 hours. Summertime GMT plus 3 hrs.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police 002 or 11 126; Ambulance 005, Fire 005 or 11 000.

TELEPHONES: Available at berths for passenger ships.

IDENTIFICATION CARDS: Not needed for Scandinavian citizens. Passports for all others.

AUTHORITY: Port of Mariehamn, Harbour Office, Box 5, SF-22101 Mariehamn, Finland. *Tel:* 928-13962. *Contact:* Captain Uno J. Gottberg, Harbour Master.

NAANTALI: 60.28 N. 22.01 E. (See Plan Book)

DOCUMENTS:
Health Certificate.
Crew List.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot compulsory at Uto Pilot station. When approaching Uto communicate via VHF Channel 16 – ETA, name of vessel, destination, draft. Change of Pilot takes place in Lohm. Harbour Pilots available at the port. Distance Uto-Lohm, 25 miles. Lohm-Naantali, 28 miles.

ANCHORAGES: Good safe anchorage in harbour area. Max. draft for vessels 10 m.

MAX. SIZE: Maximum permissible length for tankers 210 m., main quay – maximum length for any vessel 150 m.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise ask Agent.

RADIO: Hanko Radio; Mariehamn Radio; VHF Turku 26; VHF Mariehamn 27; VHF Korpo 23.

VHF: Communication on Channel 16, own working Channel 11.

RADAR: When Radar Service needed, ask Agent.

CONSULS (Vice-Consuls): Sweden Tel: 968/11141; Norway Tel: 968/13791; Denmark Tel: 968/14444.

GENERAL: It is prohibited to let or throw any substance or refuse causing pollution or shoaling in the harbour area.
SERVICES: Compass adjusting service available.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not required.
NOTICE: Port Authority Notice to Masters.
Instructions Concerning Waste Disposal:

The Port Authority of Kotka informs you hereby that in the Port of Kotka the rules and regulations concerning the protection of the marine environment of the Baltic Sea Area as stated in the Helsinki Convention have to be followed by all ships.

On the strength of this convention no wastes shall be discharged into the water while the ship is in the port area. Breaking of these rules cannot be accepted. The Port Authority will check that the instructions are observed without exception.

While your ship is in the port a necessary amount of sacks for waste disposal will be delivered to the ship. The waste emanating from your ship shall be put into these sacks and before the departure of your ship the sacks shall be delivered *by your crew* to the waste container in the vicinity of the berth of your ship.

In case you want to get rid of oily residues please inform the Harbour Master either through your Agent or directly. For the reception of these wastes the Port Authority does not charge you separately as the cost of this service is included in the general waste disposal fee.

In case your ship is a tanker loading oil products and you wish to dispose of oily water such as tank washing water or ballast water it has to be agreed separately with the Port Authority.

All questions in connection with the waste disposal service will be answered by the Harbour Master (Tel: 11672).

Signed: Port Director.

AUTHORITY: Port Authority of Kotka, Laivurinkatu 7, SF-48100 Kotka 10. *Tel:* 952 – 181200. *Telex:* 53144. *Cables:* Port Authority. *Contact:* Ilmari Elo, Port Director.

KRISTINESTAD: 62.16 N. 21.23 E.

DOCUMENTS:
Ship's Measurement Certificate.
2 Crew Lists.
Cargo Manifest.
Copy Bill of Lading.
2 Provision Lists and Tobacco Lists for Customs.
Ice Certificate 1.12–3.4.
PILOTAGE: Pilot boards at Hojerstein Light Buoy. At least 2 hours ETA required. Pilot boat has red painted hull, white marking "L" on bow, and deck house yellow. Pilot station situated on Hoggklubb Island South of Kristinestad, International pilot call signals to be used, also radio telephone 2182 and VHF Channel 16.
ANCHORAGES: Good safe holding ground off Adgrund. Depth 10 m.
MAX. SIZE: For general cargo and timber, 20 ft. draft in old port. For tankers, 33 ft. in the oil port. Depth at new coal harbour 33 ft.
See also "Tankers".
RADIO: Messages through coastal stations. Also Kristinestad VHF Channel 24. Also see "Pilotage".
TUGS: 1 tug available 240 h.p. Additional powerful tugs available with sufficient notice.

BERTHING: No special requirements. Pilot gives orders for berthing.
Inner Wooden Quay. Length 75 m., depth alongside 15 ft.
Outer Stone Quay. Length 250 m., depth alongside 20 ft.
There are 3 mobile cranes of 10 tons capacity.

SPECIALISED CARGO HANDLING FACILITIES: Bulk cargoes can be discharged at quay, 4 portable cranes available. There is one ramp for roll-on/roll-off ships in oil harbour at Bjorno.

New coal harbour at Bjorno Power Station, depth alongside 10.0 m. Berth is equipped with one conveyor for handling self-discharging vessels.

STEVEDORES: Advise ETA and gangs required as stipulated in charter-party. Also when laytime will commence to count. Only timber cargoes loaded.

Normal working hours 0700 – 1600 hrs. all weekdays.

DENSITY: 1004.

MEDICAL: Hospital facilities available.

TANKERS: Oil harbour at Pohjolan Voima Oy, power station at Bjorno. Depth 33 ft. (10 m.) alongside the oil pier. One berth for tankers. Discharge capacity with two 10 in. pipe-lines 2,500 t.p.h. Fresh water supply to tankers available from shore installation rate 30 t.p.h.

FRESH WATER: Fresh water supply by shore installation. Any amount available.

FUEL: Fuel available by tank cars of about 20 tons capacity at short notice.

GANGWAY/DECK WATCHMEN: Not compulsory at Timber Pier. Compulsory in oil harbour, according to rules of Board of Navigation.

OPENING/CLOSING HATCHES: Normally carried out by crew, but on request may be handled by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes per 6 days, per man. Wine/Spirit allowance: One bottle per man.

CARGO GEAR: BOT Certificates. No additional requirements.

CONSULS: Danish, tel. 962-12350.

REPAIRS: No shipyards, but welding pipe-line electric repairs possible.

SURVEYORS: Surveyors and Cargo Inspectors available.

AIRPORT: Nearest airports in Vaasa and Pori within 100 km., several flights per day.

TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police Station of Kristinestad 12055 or 002; Ambulance 11626; Fire Brigade 005.

TELEPHONE: Public telephones on the pier.

GENERAL: Timber pier in Port of Kristinestad closed from the end of December to the middle of April owing to ice. Oil port will be kept open according to the general ice situation of Gulf of Bothnia.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Not required.

EMERGENCY CO-ORDINATION CENTRE: Kummalgrund Coast Guard Station: Tel: 962-29142 (Kristinestad) or VHF Channel 16.

STORING: Vessels may be stored by truck which may proceed alongside. No special Customs regulations in force. Riggers and fork lift trucks available.

AUTHORITY: Kristinestad Harbour Office, 64100 Kristinestad, Finland. *Tel:* 962-11051. *Contact:* Sakari Laipio, Harbour Master.

LOVISA (Valkom): 60.25 N. 26.16 E. **(See Plan Book)**

PILOTAGE: Pilot arrives from pilot station at Orrengrund (Tel. 915–565334, radio telephone). Station equipped with radar. Distance to port 12 miles.

APPROACHES: Depth in fairway (Orrengrund – Valko) – 7.3 m.

TUGS: 1 tug available, 1,250 h.p., between December and April.

BERTHING:
Middle Quay: Length 280 m., depth 7.30 m.
Connection Quay: Length 115 m., depth 7.30 m.
Roll-on/Roll-off Berth: Length 20 m., depth 7.30 m.
South Pier (East Side): Length 130 m., depth 8.50 m.
Inner Harbour: Length 80 m., depth 4.20 m.
In 1984 the depth at all quays will be 8.50 m.

CRANES: 6 mobile cranes, lifting capacity 6 – 36 tons. 2 shore cranes, lifting capacity 6 tons. 1 shore crane lifting capacity 6 – 28.5 tons.

DENSITY: 1003.

DEVELOPMENTS: Depth in fairway increased to 8.50 m. (1984). Land area from 23 ha. to 76 ha. (1983-90). Loading depth to 8.50 m. (1984).

AUTHORITY: Lovisa Port, 07910 Valkom, Finland. *Tel:* Port Director: 915-565514. Harbour Master: 915-565163. *Contact:* Pekka Pajunen, Port Director. Bengt Sandvik, Harbour Master.

MARIEHAMN: 60.06 N. 19.56 E. **(See Plan Book)**

PORT LIMITS: The Southern boundary of the port is on a line between Lat. 60° 03.5′ N., Long. 19° 56.1′ E. and Lat. 60° 04.2′ N., Long. 19° 55′ E.

DOCUMENTS:
1 Crew List.
1 Passenger List.
3 Provision Lists.
2 Special Lists (in possession each crew member – cigarettes, tobacco, spirit, radios, etc.).
2 Bills of Lading.
Registered Tonnage Certificate.

PILOTAGE: Pilot arrives from station at Lotsberget in Westerhamn harbour, and meets entering vessels about 2 nautical miles S.W. of Marhallan lighthouse. 3 hours' notice of ETA is required. Pilot station and cutter are fitted with VHF radio and keep watch on Channel 16, 24 hours a day. Working Channel is 13. Pilot can also be ordered by cable via Mariehamn Radio.

Pilot can also be taken from Nyhamn pilot station 12 miles from the port. Nyhamn has VHF, Radio 2182 kHz and Radar.

At Nyhamn, Sea Pilot may be obtained for the Baltic Sea, Bay of Bothnia and Bay of Finland.

ANCHORAGES: Good anchorages North of Grano Island in 10 m. to 20 m. water.

MAX. SIZE: Ships of 160 m. length and 7 m. draft can enter the port, but require twin screw and bow thruster for safe manoeuvring.

RADIO: Mariehamn Radio, call sign OHM on telegraphy and OFH for telephony. Connected to the public telegraph and telephone service.

VHF: Following stations keep watch on VHF Channel 16: Mariehamn Radio, Mariehamns Pilot, Mariehamns Hamn (Harbour Office), Sjobevakningen Mariehamn. (The Coast Guard at Mariehamn.)

TUGS: 1 tug of 320 h.p. available. The m/s *Gustaf Erikson* belongs to the Alands Lifeboat Society. Usually ships' lines are used.

BERTHING: *Quays for Passenger Vessels:*

Berth No.	*Length* (m.)	*Depth* (m.)	*Remarks*
1A	100	5.0	
1B	150	6.0	
2	120	3.5	
3	70	6.0	
4	120	6.5	Fitted for Ro/Ro traffic.
5	140	7.0	

Power Station Pier: Depth 5.0 m.

CRANES: 7 mobile cranes can be rented. Maximum lift, 2 cranes of 25 tons and 5 of 16 tons on the shortest radius.

SPECIALISED CARGO-HANDLING FACILITIES: 2 berths for roll-on roll-off traffic, used by car ferries.

STEVEDORES: Ordered by Agents. ETA in good time to obtain gangs.

DENSITY: 1005.

TANKERS: Max. LOA 100 m. Depth alongside 5.5 m.

MEDICAL: All services available.

FRESH WATER: Most berths supplied by shore installations about 15 t.p.h., otherwise by truck.

FUEL: Only diesel oil, no heavy products.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Normally done by crew.

CERTIFICATES: International Tonnage Certificate or National Tonnage Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes and limited amount spirits for each crew member.

CONSULS: Denmark 11 454, Netherlands 12 070, Iceland 21 849, Norway 12 050, Sweden 11 624, U.S.S.R. 11 524, West Germany 11 410.

REPAIRS: Most repairs possible.

DRY DOCKS: Slipway for small vessels, max. about 3-400 d.w.t.

SURVEYORS: No permanent surveyors at Mariehamn.

REPATRIATION: Mariehamn is a good place for repatriation, with many connections to Sweden and to the Finnish mainland every day, with car-ferries and aeroplanes. About 1 million tourists visit Aland Island every year.

AIRPORT: About 5 km. from town, daily traffic to Stockholm and Abo/Turku.

TIME: GMT plus 2 hours. Summertime GMT plus 3 hrs.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police 002 or 11 126; Ambulance 005, Fire 005 or 11 000.

TELEPHONES: Available at berths for passenger ships.

IDENTIFICATION CARDS: Not needed for Scandinavian citizens. Passports for all others.

AUTHORITY: Port of Mariehamn, Harbour Office, Box 5, SF-22101 Mariehamn, Finland. *Tel:* 928-13962. *Contact:* Captain Uno J. Gottberg, Harbour Master.

NAANTALI: 60.28 N. 22.01 E. **(See Plan Book)**

DOCUMENTS:
Health Certificate.
Crew List.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot compulsory at Uto Pilot station. When approaching Uto communicate via VHF Channel 16 – ETA, name of vessel, destination, draft. Change of Pilot takes place in Lohm. Harbour Pilots available at the port. Distance Uto-Lohm, 25 miles. Lohm-Naantali, 28 miles.

ANCHORAGES: Good safe anchorage in harbour area. Max. draft for vessels 10 m.

MAX. SIZE: Maximum permissible length for tankers 210 m., main quay – maximum length for any vessel 150 m.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise ask Agent.

RADIO: Hanko Radio; Mariehamn Radio; VHF Turku 26; VHF Mariehamn 27; VHF Korpo 23.

VHF: Communication on Channel 16, own working Channel 11.

RADAR: When Radar Service needed, ask Agent.

TUGS: Harbour icebreaker tug *Naantali* 1,200 h.p., equipped with bow steering propeller. Use ship's lines. Additional tugs on application from Turku.
BERTHING: No special requirements. Harbour/Drafts: No tide. Main quay, length 328 m., draft 10 m. Timber quay, length 110 m., draft 8.0 m. 3 car-ferry piers, length 80 m./125 m./95 m., drafts 9 m./6.4 m./6.0 m. Lubricating Oil pier/Car Ferry pier, length 95 m., draft 6.6 m. Sugar quay, length 32 m., draft 4.5 m.
CRANES: 2 cranes owned by electric powerplant of 6 tons each.
BULK CARGO FACILITIES: Grain handled by two pneumatic elevators and belt conveyor, Loading/Discharging 200 t.p.h., maximum reach for outlet/inlet 15 m. and 18.7 m., maximum height above quay level 9.0 m. and 16.0 m. when loading, discharging limits are 11.6 m. and 18.6 m., 200 m. of main quay intended to be for handling of grain, 128 m. for coal,, which is handled by 2 cranes of 6 tons each and belt conveyor, discharging rate about 300 t.p.h.
SPECIALISED CARGO-HANDLING FACILITIES: Roll-on/roll-off traffic possibility.
STEVEDORES: Available, ordered by Agent.
MEDICAL: Advise by radio prior arrival if medical attendance required aboard.
TANKERS: Oil Harbour, Neste Oy. Discharge lines ashore 10 in., 12 in., 18 in., Diameter of cargo hoses and respective draft of tanker berths:
Berth No. 1, 6 in., 5.7 m.
Berth No. 2, 10 in., 10.0 m.
Berth No. 3, 8 in., 10 in., 12 in., 11.5 m.
DENSITY: 1007.
FRESH WATER: Supplied by shore installations at most berths.
FUEL: All grades available.
FIRE PRECAUTIONS: Usual precautions.
GANGWAY/DECK WATCHMEN: Available. Tankers compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: 200 cigarettes/200 gm. tobacco and 1 bottle spirits/wine.
CONSULS: In Turku 17 km. away.

OULU: 65.02 N. 25.26 E. (See Plan Book)

PORT LIMITS: The seaward boundary of the port is drawn West of Oulu Roads. The arriving vessel passing the line Hermanni Island – Kyrokari Ice Buoy is inside the boundaries and if necessary to anchor on the roads, is considered to be an "arrived vessel".

Port consists of four separate parts: Toppila, Nuottasaari, Oritkari and Vihreasaari harbours.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ship's Bond-store Lists.
Derat Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of tonnage.
PILOTAGE: Vessel requiring Pilot applies from Marjaniemi. Pilot station, Lat. 65° 02′ 4″ N., Long. 24° 34′ E., near West point of Hailuoto Island. Pilots require 12 hours' notice of ETA to Peltinmatala lightbuoy (Pilots) or to alternative position 3 miles North of Kelmi lightbuoy. Pilot boat red coloured displaying usual international pilot signs. Pilot station equipped with HF (2182) and VHF, listening on Channels 16 and 13, radar and RC. Morse signalling by light. No specific requirements on part of Pilots boarding, only safe pilot ladder according to rules. Anchorage near lightbuoy Peltinmatala, when awaiting for Pilot in fine weather; in bad weather advisable to ride against weather and wind. Pilot for Oulu can also be obtained near the "Kemi 1" light-tower. Vessels with a draft more than 8.0 m. must use this fairway and apply for Pilot either from Marjaniemi or "Kemi 1" pilot station, wireless 2182 or VHF Channels 16 and 13.
ANCHORAGES: Safe anchorage on Oulu roads. There are no safe anchorages West of Hailuoto Island.
RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.
MAX. SIZE: *Marjaniemi Fairway:* 8.0 m. *Kemi Fairway:* 10.0 m.
Toppila Harbour: Toppila Quay depth 6.1 m., Hietasaari Quay, depth 6.1 m.
Oritkari Harbour: Main Quay, depth 9.0 m. Stern Door Quay, depth 7.0 m. North Quay, depth 10.0 m.
Nuottasaari Harbour: Main and Chemical Quay, depth 6.4 m.
Vihreasaari Harbour: Oil Quay, length 72 m., depth 10.0 m. Bulk Quay, length 150 m., depth 10.0 m.
Also see "Berthing".
HEALTH: No special rules existing in obtaining pratique. If disease or fever is suspected on board report to ship's Agent; will contact the Health Authority for necessary arrangements.
RADIO: Vaasa Radio (North Quarken). Close to Hailuoto Island call "Oulu Radio" VHF Channel 27 or Channel 24.
RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (Channel 16).
TUGS: Tug optional, but for vessels over 140 m. long use is advisable. Tug ("Alpo", 500 h.p.) will meet on Oulu Roads according to agreement; customary to use ship's lines.
BERTHING: *Toppila Harbour:* Depth 5.0 – 6.1 m. Toppila Quay length 992 m. Hietasaari Quay length 600 m.
Nuottasaari Harbour: Main Quay, length 320 m. Waiting Quay, length 130 m.
Oritkari Harbour: Main Quay, length 270 m. Stern Door Quay, length 85 m. North Quay, length 170 m. Facility for Ro/Ro service.
Vihreasaari Harbour: Oil Quay, length 72 m. Bulk Quay, length 150 m.
CRANES:

	No.	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Nuottasaari Harbour	1	5	12	Movable
Toppila	1	5	12	„
Toppila	1	3	12	„
Vihreasaari	1	6	22	„
Vihreasaari	1	8	26	„

CARGO HANDLING FACILITIES: Toppila Harbour is equipped with 2 cranes, Vihreasaari Harbour with 2 cranes and Nuottasaari Harbour with 1 crane to load and discharge bulk cargoes and general cargoes with hook. 10 mobile cranes available from stevedores in all ports.

Roll-on/roll-off berth is adjacent to the Oritkari Harbour.

Oritkari Harbour is built to mechanically handle paper cargoes.

Free zone warehouse in Toppila (700 sq.m.) and free zone area in Oritkari (18,000 sq.m.). Warehouses in Toppila and Oritkari of 31,500 sq.m. There is a large amount of open storage in all harbours.
BRIDGES: No bridges. Electric cable across Toppila fairway, 50 m. above water.
STEVEDORES: 24 hours' notice of ETA to be given to Agent who arranges necessary gangs.
MEDICAL: Medical attention arranged through Agent, 2 – 4 hours' notice required. Good hospital facilities available.
TANKERS: One principal tanker berth in Vihreasaari Oil Harbour, depth 10.0 m. Discharge lines of 12, 14 and 18 in. Pressure 10 kg./sq.cm.
DENSITY: Fresh water.
FRESH WATER: Available at main berths and Oil Harbour from pipeline, cost about 9.00 mk/ton. Elsewhere water is delivered by boat, cost about 10.00 mk/ton.
FUEL: Small quantities of all grades available, delivered by lorries.
GANGWAY/DECK WATCHMEN: Watchmen recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as shipwork.
CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load-line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Derat Certificate.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: One bottle wine or spirit allowed for each member of the crew.
CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board vessel.
IDENTIFICATION CARDS: Not needed.
CONSULS: Sweden, Norway, Denmark, Great Britain and Netherlands.
REPAIRS: Minor deck and engine repairs carried out. Docking only for small tug boats.
SERVICES: Compass adjusters and ship's cleaning.
DRY DOCKS: One small slipway. Max. vessels of 25 m. length and 8 ft. draft.
REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriation.
AIRPORT: Oulu Airport 15 km. from harbour served by regular airlines. Six daily flights to Helsinki and six flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.
TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: General holidays in Finland: New Year's Day (January 1st); Good Friday; Easter Monday; Labour Day (May 1st); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police 002, Reserve 003.
TELEPHONES: A telephone connection available in all harbours.
SHIP SUPPLY SERVICE: English speaking Pilots keep watch round the clock at Oulu pilot station on VHF Channels 13 and 16. The have pilot boats for ship-to-shore transport in emergency cases. In other cases Oulu Harbour Radio keeps English speaking watch in office hours VHF Channels 13 and 16. At other times the Pilots help to translate messages to tugowners. Oulu Harbour and a few private Owners have tugboats for service around the clock. Vaasa Coastal Radio has watch around the clock on Channels 16 and 27. They can arrange a helicopter in emergency cases for service in whole Bay of Bothnia area.
DEVELOPMENTS: Railway and storehouse at Oritkari North Quay will be completed 1985-86.
AUTHORITY: Port of Oulu Authority, Harbour Office of Oulu, 90520 Oulu 52, Finland. *Tel:* 981 – 344266. *Cables:* Satama. *Contact:* Veikko Lauriala, Harbour Master. Tel: 343632.

PARGAS: 60.18 N. 22.18 E. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
1-2 Custom Provision Lists.
1-2 Custom Special Lists.
2 Passenger Lists.
2 Copies each Bill of Lading.
Tonnage Certificate and in special instances other regular documents.

PILOTAGE: On arrival at Pargas, from Gulf of Finland, from Baltic via Uto, from Gulf of Bothnia via Enskar, information of ETA to be given in good time to respective pilot stations. VHF Channel 16 for calling, 13 for further communication. Charge for pilotage in accordance with official Finnish tariff. Harbour Pilot available, but not compulsory, and can be ordered through Sea Pilot.
ANCHORAGES: Well sheltered and safe anchorage, immediately outside harbour area.
MAX. SIZE: Maximum depth both in channel and along quay 6.70 m. As regards length of quay and possibilities for a quick dispatch, it is desirable (though not an absolute stipulation) that discharging vessel be a bulk carrier with the engines aft.
HEALTH: Free pratique automatic for all vessels, but temporary exceptions in and according to regulations issued by W.H.O. and Authorities may occur.
RADIO: Radio-telephone contact with Agent and consignee/shipper is obtained via Mariehamn, radio-call 2196 kHz, reply 1852 OHF; or via Hango, radio-call 1967 kHz, reply 2649 OFO. Contact with VHF is made via Abo, Channel 26.
TUGS: A small motor tug of 200 h.p. available.
BERTHING: Directions to berth via nearest pilot station, Pargasport. Quay level above water 1 – 2 m., dependent on berth.
Length of quays, 800 m. 2 electric coal-discharging bucket cranes and one electric conveyor belt.
STEVEDORES: Arrangements will be made by Agent, who must be advised of ETA previous day to enable arrange men, trucks, etc.
MEDICAL: Medical Officer available locally. Necessary examination and taking of tests usually done in Abo. Regular appointment with local physician can be arranged by telephone with Agent or doctor.
DENSITY: Brackish water 1002.
FRESH WATER: Delivery from installation on quay.
FUEL: No local supply. In case of need delivery by truck from Abo.
GANGWAY/DECK WATCHMEN: Available but not necessary.
OPENING/CLOSING HATCHES: Must always be performed by crew.
CERTIFICATES: Normally tonnage certificate only but in special instances other regular ship's documents may also be needed.
CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits. In accordance with the decision of Customs Authorities.
CONSULS: See "Turku".
REPAIRS: Facilities for arranging small repairs on deck and engine in Pargas, but usually carried out by reliable companies in Abo.
DRY DOCKS: No local docking facilities. See "Turku".
AIRPORT: Nearest airport in Abo. Distance about 25 km.
HOLIDAYS: Whit Monday, Midsummer (2 days), All Saints' Day, Independence Day (6th December), Christmas (25th December). Work in harbour carried out during these days only under very pressing circumstances.
POLICE/AMBULANCE/FIRE: Police 744048; Ambulance 744064; Fire 005; Life-saving Corps 356595.
TELEPHONE: No facilities for placing telephone on board. Telephone available on quayside.
SHORE LEAVE: No restrictions for crew members.
IDENTIFICATION CARDS: Not required.
DELAYS: Vessels dispatched in order of arrival. Usually no delays occur as work has generally been carried out within the time limit stipulated in C/P. Port activity aimed at good dispatch of vessels, and consequently work in 2 shifts has been arranged.
AUTHORITY: Oy Partek Ab., 21600 Pargas, Finland. *Tel:* 921-742111. *Telex:* 62220. *Cables:* Pkpar Finland. *Contact:* Karl-Erk Lindholm, Manager of Shipping Department.

PATENIEMI: 65.06 N. 25.23 E. (See Plan Book)

OPERATORS: Oulu Oy Sawmill. Port used for export of timber only, about 120,000 cu.m. per year. 12 km. North of Oulu.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ship's Bond Store Lists.
Derat Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of Tonnage.

PILOTAGE: Pilot station at Marjaniemi. Marjaniemi – Oulu Roads 40 nautical miles, 7.0 m. depth. Oulu Roads – Pateniemi 6.0 m. depth.
ANCHORAGES: Safe anchorage on Oulu roads. There are no safe anchorages West of the Hailuoto Island.
RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.
MAX. SIZE: Only dry cargo vessels use this terminal. Max. draft 6.0 m. Length 100 m. (approx.).
HEALTH: No special rules existing in obtaining pratique. If fever or disease suspected on board to be reported to ship's Agent, he will contact Health Authority for necessary arrangements.
RADIO: "Vaasa Radio" (North Quarken). Approaching Oulu contact Agent through "Vaasa Radio". Close to Hailuoto Island call "Oulu Radio" VHF Station, Channel 27.
RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).
TUGS: Tug optional. Tug will meet on Oulu Roads, according to agreement. Customary to use ship's ropes.
BERTHING: One berth of 85 m. enabling one vessel of medium size to load at quay. Depth at quay is 6.61 m.
STEVEDORES: 24 hours' notice of ETA to be given to Agent, who arranges necessary gangs.
MEDICAL: Medical attention arranged through Agent. 2–4 hours' notice required. Good hospital facilities available.
DENSITY: Fresh water.
FRESH WATER: Available and delivered by boat and from pipe-line.
FUEL: Small quantities of all grades available, delivered by lorries.
FIRE PRECAUTIONS: Smoking prohibited in timber yards.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as ship work.
CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Equipment.
Derat Certificate.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: 1 bottle wine or spirits is allowed for each member of the crew.
CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board.
CONSULS: British (Consul), Danish, French, Dutch, Italian, Norwegian and Swedish Vice-Consuls at Oulu.
SERVICES: Compass adjusters and ship's cleaning (no tank-washing).
REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriations.
AIRPORT: Oulu Airport about 25 km. from harbour served by regular airlines. 7 daily flights to Helsinki and 6 flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.
TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: General Holidays in Finland: New Year's Day (January 1st); Epiphany; Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire Tel: 005, Reserve Tel: 006; Ambulance Tel: 006, Reserve Tel: 005; Police Tel: 002.
REGULATIONS: Oil pollution strictly prohibited. Considerable number of logs lying in water and damages are ship's responsibility.
SHORE LEAVE: Crew members allowed ashore without restrictions.
IDENTIFICATION CARDS: Not needed.
AUTHORITY: Oulu Oy, Head Office, P.O.Box 196, SF-90101 Oulu 10, Finland. *Tel:* Int +35881221411. *Telex:* 32125.
Sawmill Industry at Pateniemi: *Tel:* Int +35881 510555. *Telex:* 32274. *Contact:* Shipping Department.

PORI, (including Mantyluoto, Reposaari and Tahkoluoto): 61.36 N. 21.29 E. (See Plan Book)

PORT LIMITS: The line between the lighthouses on Mantyluoto and Reposaari.
DOCUMENTS:
Ship's Register.
Crew List.
Passenger List.
Customs Documents.
Manifests.
Bills of Lading.

PILOTAGE: Pilot compulsory. Cable address: Luotsiasema, Mantyluoto (pilot station Mantyluoto), VHF Channel 16 or frequency 2182. 24 hour service by pilot boats from Mantyluoto pilot station, boats red-painted, international light or sound signals. Pilot to be taken 4 miles off Mantyluoto. In heavy fog, if required, pilot station able to navigate vessels into harbour by radar, provided vessel has corresponding equipment.

ANCHORAGES: Reposaari Roads and outside the breakwater.
RESTRICTIONS: Depth in the channel 8.6 m.
MAX. SIZE: No other restrictions, but max. draft 25 ft. (7.6 m.).
Tahkoluoto Oil Harbour: Max. draft: 10.0 m.
Tahkoluoto Bulk Harbour: Max. draft: 10.0 m. Length of the quay 145 m. In September 1985 the Deep Water Harbour will be available. Length of quay 400 m. max. draft 15.3 m.
Reposaari: Max. draft: 3.9 m.
RADIO: Inform Agents giving ETA via Helsinki Radio, Hanko Radio, or Mariehamn Radio, or VHF Channel 26, Pori.
TUGS: 5 tugs available from 200 h.p. up to 3,520 h.p. Tugs normally join the vessel near the quays. Tugs use ship's lines.
BERTHING:

		Depth of water	
	Quay	*(at normal water)*

Kirrisannan laituri	XI	1	200 tons
Reposaaren laituri	XII	—	—
Tahkoluodon laituri	XIII	—	—

CARGO HANDLING FACILITIES: Three Ro/Ro berths, 30-ton and 40-ton cranes able to handle containers.
Tahkoluoto Bulk Harbour: Transhipment berth equipped with conveyor, rate 1,200 t.p.h. Unloading capacity at new Deep Water Harbour is 1,000-1,400 t.p.h. by Siwertell travelling ship unloader.
STEVEDORES: The vessels receive workers in the order in which they enter the harbour. ETA advices appreciated in order to facilitate arranging gangs.
MEDICAL: No advance notice for medical attention required. Hospital facilities available.
TANKERS: Berth No. 13. Max. draft 10.0 m.
DENSITY: 1004.5.
FRESH WATER: Supply by shore installation.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: This work normally carried out by crew.
CERTIFICATES: Load Line Certificate; and during Winter season Ice Dues Certificate which issued by authorities for each season.
CONSULS: Vice-Consuls: Britain, tel. 939/443122; Denmark, tel. 939/443122; Netherlands, tel. 939/443222; Norway, tel. 939/443222; Sweden, tel. 939/11141.
REPAIRS: Most repairs possible.
AIRPORT: Distance from airport 22 km. Served regularly by Finnair.
TIME: Local time 2 hours ahead of GMT. 3 hours ahead in Summer. (end March – end September.)
GENERAL: Harbour icebreaker "Porin Karhu", 3,500 h.p. available.
AUTHORITY: Port of Pori Authority, 28880 Pori 28, Finland. *Tel:* 39–443200. *Contact:* Hannu Sjoros, Harbour Master.

PORKKALA (Kantvik): 60.05 N. 24.23 E.

(See Plan Book)

Documents and all general information, refer to "Helsinki".
PILOTAGE: A Pilot can be obtained from the Pilot Station of Porkkala, Tel. 90–2984 112 or VHF Channels 13 and 16. Distance to port about 14 miles. Pilotage in the harbour area may be carried out only by State-appointed Pilots. Pilotage in the harbour is not obligatory.
MAX. SIZE: Maximum draft 30 ft. 2 in. (9.2 m.).
APPROACHES: There are four official ship routes leading to the port of Porkkala (Kantvik) of Suomen Sokeri Osakeyhtio. The deepest one is 9.2 m. (30 ft.) and the shallowest one is 5.5 m. (18 ft.). The port does not have an ice-breaker of its own and the fairway is kept open by means of the State's ice-breakers.
CLEARANCE: The customs formalities of the port are attended to by the Custom House of Helsinki.
TUGS: A small motor tug of 200 h.p. available. Bigger tug, if needed can be ordered from Helsinki or from Inkoo.
BERTHING: The port of Porkkala (Kantvik) is owned by Suomen Sokeri and it is located at Kantvik. Directly in the vicinity of the port there is the factory of Suomen Sokeri Osakeyhtio (sugar mill). The port basin has 3 quays:
The outer quay is 110 m. long, draft 9.2 m. (30 ft. 2 in.).
The inner quay is 50 m. long, draft 5.3 m. (17 ft. 4 in.).
The fairway of the port basin is 120 m. wide, narrowing up at its end to 76.5 m. South quay (at the South bank of Kantvik Bay) is 60 m. long, draft 9.2 m. (30 ft. 2 in.).
DENSITY: 1004.
CRANES: Two cranes, capacity 8 tons. One crane is on the outer quay and one on the South quay. Also one 3-ton mobile crane.
FRESH WATER: Available at quays.
CONSULS: Nearest in Helsinki.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by the crew.
AIRPORT: Nearest Helsinki, distance 45 km.
TIME: Local time is GMT plus 2 hrs. GMT plus 3 hours in Summer.
HOLIDAYS: On Saturdays, Sundays and General Holidays in Finland no cargo work is done.
POLICE/AMBULANCE/FIRE: Contact the Gatehouse of Factory.
TELEPHONES: Can be arranged on board. Telephone calls can be made from the Harbour Office during day-time.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not needed.

SHIPMASTER'S REPORT: The sugar discharging berth for Porkkala is at Kantvik, situated in Lat. 60° 05′ N., Long. 24° 23.25′ E., about 21 miles West of Helsinki.

The Pilot for the port is embarked at the position indicated on British Admiralty Chart No. 2331, 115° 3.5 miles from Porkkala lighthouse. From there to the berth is 12 miles and the passage presents no difficulties. It is well lit, and there is ample water. The least depth recorded was 31 ft. and that was alongside the berth. There is a powerful tug for assisting in berthing and unberthing.

The discharging berth, alongside which vessels lie port side to, is modern and well fendered. It is sheltered from most directions. Unfortunately, the berth is short for a 500 ft. vessel, and additional moorings have to be placed from amidships.

There is only 1 crane on the berth and to work either of the end hatches a shift would be necessary. Work was continuous while the vessel discharged her part cargo at Kantvik, and an out-turn rate of 100 t.p.h. was achieved.

Fresh water is readily available from the Jetty, and presumably, fuel could be obtained by lighter from Helsinki. Telephones in the dock offices are available for official use.

There is a bus service to and from Helsinki, the journey taking about 40 minutes.

AUTHORITY: Suomen Sokeri Oy, Harbour Master.

PORVOO (Skoldvik): 60.18 N. 25.33 E.

(See Plan Book)

The harbour is a private oil harbour owned and managed by Neste Oy.

The harbour is located at Skoldvik in the municipal area of Porvoo about 45 km. (28 miles) East of Helsinki, Lat. 60° 18′ N., Long. 25° 33′ E. The area is shown on Finnish Marine Chart Nos. 17 and 902.

The distance from the Kallbadagrund Lighthouse to the harbour is 20.5 nautical miles (38 km.). The minimum width of the harbour channel is 270 m. (885 ft.) and the approved depth is 15.3 m. (50 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on the wind. There are no tides in the area.

The Winter period is from January to the end of April. During this time the channel from the open sea to the harbour is kept open by icebreakers owned by the State. The Finnish Board of Navigation determines the requirements for vessels allowed to enter various ports during this period.

Officially, the extra charges for the Winter period are collected from 1st December to 30th April.
DOCUMENTS: The following documents shall be handed over after berthing:
4 Crew Lists.
2 Lists of Visitors.
3 Passenger Lists.
1 Provision List.
1 Special List (Customs).
Ship's Register, Certificate of Tonnage.
The usual Cargo Documents.
PILOTAGE: Pilotage is compulsory. The Pilots are Sea Pilots employed by the State. They also perform the pilotage inside the port area.

The pilot station is at the outer end of Emsalo Island. Vessels entering from the sea are boarded by the Pilot at Kallbadagrund, Lat. 59° 59.1′ N., Long. 25° 36.1′ E.

The Pilot shall be called by using the international code, VHF Channels are 13 and 16.

The Sea Pilots serve as Docking Masters berthing the vessel with the help of 2 tugs when the vessel is over 15,000 tons.

RESTRICTIONS: Vessels can enter and leave the harbour 24 hours a day. However, vessels whose keel clearance is minimal are not allowed to berth in darkness or under unfavourable wind conditions.

In bad Winter, port may be closed by ice between January and April although normally kept open by ice-breakers.

MAX. SIZE: Up to about 260,000 d.w.t. Max. draft 15.3 m.

HEALTH: Bill of Health not required. In case suspected disease or fever on board, radio Agent full details before arrival to advise Port Health Officer in advance.

RADIO: Notice of arrival shall be given 12 hours before the calculated time of arrival by the ship's Agent (Helsinki Radio). Two hours before arrival at the boarding site for the Pilot, the same notice shall be sent, including

1) The name and the nationality of the vessel
2) Net registered tonnage
3) The time and date of the notice
4) The draft of the vessel
5) Time of arrival at the boarding site for the Pilot.

VHF: The harbour office is open 24 hours a day. It is provided with the VHF station "Neste". The following Channels are available: 6, 9, 13, 15, 16, 17 and 21. Telex connection is 17-46 Neste Sf.

TUGS: The harbour tugs "Esta", "Kari", "Aulis" and "Esko" owned by Neste are available to handle vessels. Respective capacities are:

"Esta"	1,000 kW	(1,330 h.p.)
"Kari" "Aulis" "Esko"	2,352 kW	(3,200 h.p.)

Vessels over 80,000 d.w.t. need additional tugs, which the ship's Agent shall order from Helsinki.

The ship's own lines shall be used for towing.

Tug to stand-by whilst vessel discharging.

BERTHING: There are 6 berths available for discharging crude oil and loading of oil products. An additional berth is available for handling of petrochemical products.

Loading and discharging is possible around the clock. During the icefree period all berths are surrounded by oil booms.

Berth 1:	Face direction 023° 42′ Water depth 12.6 m. (41 ft.) Maximum vessel size about 50,000 d.w.t.
Berth 2:	Face direction 128° 42′ Water depth 17.6 m. (57 ft.) Maximum vessel length 330 m. (1,082 ft.) without special permission N.B. Vessel to be moored starboard side alongside Shore gangway Maximum reach of loading arms +21.5 m. (+70 ft.) from sea level
Berth 3:	Face direction 128° 42′ Water depth 17.6 m. (57 ft.) Maximum vessel length 280 m. (918 ft.) N.B. Vessel to be moored starboard side alongside Shore gangway Maximum reach of loading arms +19.5 m. (+64 ft.) from sea level
Berth 4:	Face direction 017° 56′ Water depth 15.3 m. (50 ft.) Maximum vessel size about 150,000 d.w.t.
Berth 5:	Face direction 002° 58′ Water depth 8 m. (26 ft.) Maximum vessel size about 8,000 d.w.t.
Berth 8:	Face direction 004° 42′ Water depth 13.5 m. (44 ft.) Maximum vessel size about 40,000 d.w.t.
Berth 9:	(Formerly Kymi Kymmene Oy, Svartback Harbour). Face direction 333° 18′ Water depth 7.3 m. Maximum vessel size about 7,000 d.w.t.

The water depths correspond to the normal water level.

All loading arm flanges are ANSI 150 lb. RF. For tugs and cargo vessels there are separate berths in the harbour.

DISCHARGING/LOADING: The usual methods are applied in discharging and loading. While discharging and loading the safety rules for Neste tank vessels and oil harbours shall be followed.

Crude oil can be discharged simultaneously at a maximum of three berths. However, at Berths 2 and 3 only one ship at a time can be discharged because of a common pipe-line.

LPG is butane or propane. As there is one common pipe-line for LPG loading, only one ship at a time can be loaded.

Berth 8 is used for benzene loading, capacity 500 cu.m./h. and propylene loading, capacity 400 cu.m./h.

During cargo handling adequate crew shall be on board. A gangway watchman is not required.

Loading and Discharging Facilities:

Berth 1: Discharging rate 5,000 cu.m./h., shore line 24 in. diameter, arms No. 12 and No. 13, 2×12 in. diameter.

Loading rate for heavy fuel oil 3,500 cu.m./h., shore line 20 in. diameter, arms No. 12 and No. 13, 2×12 in. diameter.

Loading rate for diesel oil 2,000 cu.m./h., shore line 14 in. diameter, arm No. 14, 1×12 in. diameter.

Loading rate for gasoline 2,000 cu.m./h., arm No. 15, 1×12 in. diameter.

Loading rate for jet fuel 500 cu.m./h., arm No. 16, 1×8 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 12, 1×12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 11, 1×8 in. diameter.

All flanges ANSI 150 lb., RF.

LPG Loading rate 80 cu.m./h., hose 1×4 in. diameter, flanges ANSI 300 lb., RF.

Berth 2: Discharging rate 12,000 cu.m./h., main shore line 40 in. diameter, arms No. 22, No. 23 and No. 24, 3×16 in. diameter.

Loading rate for heavy fuel oil 5,000 cu.m./h., arm No. 22, 1×16 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 22, 1×16 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 21, 1×10 in. diameter.

All flanges ANSI 150 lb., RF.

Berth 3: Discharging rate 6,000 cu.m./h., main shore line 40 in. diameter, arms No. 34 and No. 35, 2×12 in. diameter.

Loading rate for heavy fuel oil 5,000 cu.m./h., arms No. 34 and No. 35, 2×12 in. diameter.

Loading rate for diesel oil 2,500 cu.m./h., arm No. 33, 1×12 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 35, 1×12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 37, 1×8 in. diameter.

All flanges ANSI 150 lb., RF.

Berth 4: Discharging rate 6,000 cu.m./h., shore line 24 in. diameter, arms No. 42, No. 43 and No. 44, 3×12 in. diameter.

Loading rate for heavy fuel oil 4,000 cu.m./h., shore line 20 in. or 24 in. diameter, arms No. 42 and No. 43 or No. 43 and No. 44, 2×12 in. diameter.

Loading rate for diesel oil 2,000 cu.m./h., arm No. 40, 1×12 in. diameter.

Loading rate for gasoline 2,000 cu.m./h., arm No. 45, 1×12 in. diameter.

Loading rate for straight-run naphtha 1,500 cu.m./h., arm No. 40, 1×12 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 42, 1×12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 41, 1×8 in. diameter.

All flanges ANSI 150 lb., RF.

Berth 5: Discharging rate 1,000 cu.m./h., arm No. 51, 1×8 in. diameter.

Loading rate for heavy fuel oil 1,000 cu.m./h., arm No. 51, 1×8 in. diameter.

Loading rate for diesel oil 1,000 cu.m./h., arm No. 52, 1×8 in. diameter.

Loading rate for gasoline 1,000 cu.m./h., arm No. 53, 1×8 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 51, 1×8 in. diameter.

Bunkering rate for heavy fuel oil 600 cu.m./h., arm No. 51, 1×8 in. diameter.

Bunkering rate for diesel oil 40 to 1,000 cu.m./h., arm No. 52, 1×8 in. diameter and hose 1×2 in. diameter.

All flanges ANSI 150 lb., RF.

LPG Loading rate 80 cu.m./h., hose 1×4 in. diameter, flanges ANSI 300 lb., RF.

Berth 8: Loading rate for benzene 500 cu.m./h., arm No. 81, 1×8 in. diameter.

Loading rate for phenol 100 cu.m./h., hose 1×6 in. diameter.

Loading rate for propylene 400 cu.m./h., hose 1×8 in. diameter.

Loading rate for oily water 100 cu.m./h., hose 1×4 in. diameter

Loading rate for acetone 300 cu.m./h., arm 1×8 in.

Flanges for propylene loading ANSI 300 lb., RF.

All other flanges ANSI 150 lb., RF.

Berth 9: (Formerly Kymi Kymmene Oy, Svartback Harbour).

Loading rates for:

Styrenemonomer	500 cu.m./h.
Ortoksylene	500 cu.m./h.
Hexanol	500 cu.m./h.
Glykol	60 cu.m./h.
Oktanol	500 cu.m./h.
VCM	45-200 cu.m./h.
Isobutene	270 cu.m./h.
Ethylene	270 cu.m./h.
Vinylasetate	200 cu.m./h.
Alfol-610	500 cu.m./h.

BALLAST: There are facilities for discharging ballast at oil berths. However, discharging can be effected simultaneously only from 2 berths.

The capacity of the ballast handling system of the refinery is 30,000 cu.m. and the maximum discharging rate at each berth is 1,000 cu.m./h. Ballast over 5,000 cu.m. must be reported 48 hours prior to arrival.

The harbour office collects a charge to cover treatment costs for receiving ballast.

No ballast can be discharged at Berth 8. However, in near future, flushing water for the tanks can be discharged provided that the pollutants can be handled in the Neste waste water treatment system. In that case the capacity is 100 cu.m./h.

MEDICAL: In emergency a doctor can be called on board. To call ambulance, dial 69-2222. The nearest hospitals are in Porvoo and in Helsinki. Ship's Agent helps in other medical problems, such as providing medicines.

DENSITY: 1006.

FRESH WATER: Drinking water can be supplied from:

Berths 1, 4 and 5	25 cu.m./h.
Berths 2 and 3	50 cu.m./h.(2 connections)
Berth 8	20 cu.m./h.

FUEL: Bunkering facilities are installed at oil berths. Two grades are available, marine fuel oil and marine diesel oil.

The bunkering capacities:

Marine fuel oil	600 cu.m./h.
Marine diesel oil	up to 1,000 cu.m./h.

The diesel oil can be delivered through product lines. Bunkers must be ordered with 72 hours' notice addressed to Neste Marine Product Sales, Telex: Hki 12-4641.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine or spirits for each man.

GANGWAY/DECK WATCHMAN: Not required.

REPAIRS: Only minor repairs can be effected following the safety rules and with the permission of the harbour office.

REPATRIATION: Disembarking is possible. A foreigner needs a passport. Distance to Porvoo is 20 km. (12.5 miles) and to Helsinki 45 km. (28 miles).

AIRPORT: There are daily flights from Helsinki – Vantaa Airport with good connections all over the world. Distance to the airport is about 50 km. (30 miles).

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

TELEPHONE NUMBERS: After berthing a telephone connected to the local automatic exchange will be placed on board all vessels, the respective dial numbers being:

Berth 1	23333
Berth 2	23334
Berth 3	23335
Berth 4	23336
Berth 5	23337
Berth 8	23341
Important Numbers:	
Harbour Office	23339 or 147700/2380 and 2381
Customs	23293
"Esta"	23350
"Kari" "Aulis" "Esko"	23423
Fire Alarm/ Ambulance	69-2222

Bus Connections, Taxi:

Bus connection daily to Porvoo from 0700 to 2300 hrs.

Taxi 24 hours	tel. Nos.
Neste Oy Taxi Station	23245
Pekema Oy Taxi Station	23390
K-O Johansson	22252

GENERAL: *Inspections:*

To avoid oil accidents, an inspection based on the checking list is carried out before loading/discharging to find out the preparedness of the vessel to act in an emergency.

Vessels loading/discharging oil products are surrounded by oil booms.

Inspections are carried out and loading/discharging is supervised by the Loading Master, whose instructions must be followed. If he is not on board, he can be contacted by telephone, No. 23339 or 147700/2381.

REGULATIONS: In addition to the existing Finnish laws, statutes and other regulations the Port Regulations of Neste Oil Harbour must be followed.

Some excerpts:

Entering the Harbour: Vessels carrying explosives or flammable liquids or gases shall observe what has been separately laid down concerning such cargo. The vessel shall show the prescribed caution sign in the harbour area.

Traffic in the Port Area: In the port area the speed of the vessel shall be according to the circumstances, so that no harm or danger shall be caused to anyone. Oil booms, underwater jobsites etc. shall be passed with special care. The maximum speed allowed in the port area is 6 (six) knots, unless otherwise stated by the Harbour Office.

Berthing of the Vessel: Without urgent need, anchorage is prohibited in the marked fairway, in the vicinity of the submarine pipe-lines or cables or in any place where the vessel may disturb the traffic.

The vessel shall be moored alongside the berth appointed by the Harbour Authorities and it shall not be removed without permission.

While berthing or unberthing or whilst moored at the berths the relevant safety precautions shall be taken to avoid any damage to the berths.

All ships' scuppers must be plugged or closed by mechanical means so that no water, steam or dirt comes into contact with the berth or its immediate vicinity.

A sufficient crew shall be maintained on board to ensure that the ship can be removed, if necessary.

Prevention of Shallowing and Contamination of the Harbour: In the port area it is prohibited to discharge oil or oil-emulsified water. In the Baltic Sea the existing restrictions must be observed.

The jettisoning of garbage and refuse is prohibited in the port area. The blowing of tubes and boilers of the ship while at the berth is prohibited.

AUTHORITY: Neste Oy, Porvoo Works, Harbour Office, 06850 Kulloo, Finland. *Tel:* 15-23339. *Telex:* 1746. *Contact:* Simo Vilkki, Harbour Master.

RAAHE (LAPALUOTO): 64.41 N. 24.29 E. (See Plan Book)

PORT LIMITS: Vessel is considered to be an "arrived vessel" subject to Charter Party Terms, when passing breakwaters if not ordered to anchor near Raahe Lighthouse by Port Authority.

DOCUMENTS:

Crew Lists.
Passenger List.
Ship's Register.
Custom List.
Provisions List.

PILOTAGE: Compulsory. To avoid delay in obtaining a Pilot the Owners, Master or Agent of the ship bound for Raahe must report vessel's ETA 6 hours in advance of ETA. ETAs must be confirmed or corrected not less than 2 hours prior to ETA by VHF contact with pilot station on Channel 16.

Pilots board and disembark by pilot cutter (red) near Raahe Lighthouse (Lat. 64° 39′ N., Long. 24° 13′ 5″ E.). Day and night service.

ANCHORAGES: Vessels can anchor outside Raahe Lighthouse, depth 15-20 m. No anchorages inside breakwaters.

RESTRICTIONS: No restrictions night entry.

MAX. SIZE: Lapaluoto Harbour, depth inside 5.4 m., outside 6.7 m. Length 140 m.

Rautaruukki Oy Harbour; depth 7.8 m., length 200 m. (approx.).
Ore Harbour, depth 6.7 m.

RADIO: Helsinki Radio, 2182 kHz, call sign OHG, Mariehamn Radio, 2182 kHz, call sign OFH; Vaasa Radio 2182 kHz and VHF Channels 16, 24 and 27, call sign OFW.

RADAR/VHF: No port radar services. Pilot station. Radio, 2182 kHz, VHF Channel 16. Rautaruukki Oy Harbour Office, VHF Channel 16 and tugboat "Rautaluoto" VHF Channel 16.

TUGS: Tug *Rautaluoto* 600 h.p.

STEVEDORES: Rautaruukki Oy, in Steelworks Harbour, Lapaluoto private firms.

SPECIALISED CARGO – HANDLING FACILITIES: Lapaluoto Harbour, no shore cranes, Ore Harbour (Helmi), only conveyor. Rautaruukki Oy Harbour, import quay equipped with three 12.5-ton shore cranes and conveyor; export quay equipped with one 12.5-ton and one 40 ton shore crane, straddle carriers and equipment for handling steel and general goods.

LIFEBOAT STATION: Lifeboat cutter "Niilo Saarinen", 360 h.p., 10 knots. Radio 2182 kHz, VHF Channel 16, Radar, fire and drainage pump 4,000 litres/minute. Alarm through National Lifeboat Service, Pilot or Police Stations.

DENSITY: Average density 1002.

FRESH WATER: Available at all berths in Rautaruukki's harbour.

FUEL: Small quantities available, one day's notice required.

FIRE PRECAUTIONS: No special precautions in Lapaluoto Harbour.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally by the crew.

CUSTOMS ALLOWANCES: About 200 cigarettes and limited amount spirits per man.

CONSULS:

Denmark 31146 – 37269
Norway 31146 – 37269
Sweden 37300 – 37007

REPAIRS: Raahe Oy, Mechanical Workshop. Slip for small ships.

DRY DOCKS: None.

AIRPORT: Oulunsalo Airport, about 60 km. from Raahe.

REPATRIATION: Crew changes and repatriation can be carried out without difficulties.

TIME: Local time is GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: New Year's Day; Twelfth Night; Good Friday; Easter Monday; Labour Day (1st May) holiday when no work takes place; Ascension Day; Whitsun Monday; Midsummer Day; All Saints' Day; Independence Day (6th December); Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Police 37911; Ambulance; Fire and First Aid 005.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: Not required.

GENERAL: Government ice-breaker assistance available when needed.

AUTHORITY: Rautaruukki Oy, Harbour Office, 92170 Raahensalo, Finland. *Tel:* 982-302304. *Telex:* 32132. *Cables:* Rautaruukki, Raahe. *Contact:* Captain R. Rahja, Harbour Master. Tel: 982-302304.

RAUMA: 61.08 N. 21.30 E. (See Plan Book)

PORT LIMITS: Southern entrance port limit when passing Tankkarit, northern entrance port limit when passing Riskonpoella.

DOCUMENTS: 2 Crew Lists and 1 Passenger List. Ship's Register, Customs Documents, Ship's Papers, etc. (Ship's Agent will give the necessary advice).

PILOTAGE: Pilot station at Kylmapihlaja-island, Lat. 61° 08′ 7″ N., Long. 21° 18′ 4″ E. International Pilot signals, VHF Channels 16 and 13. Fairways: Valkeakari 6.5 m.; deep passage 9.0 m.

ANCHORAGES: Ample area for anchorage in Archipelago.

RESTRICTIONS: Entrance: North Channel 6.5 m., South Channel 9.0 m., max. draft 9.0 m. Harbour open all year round.

MAX. SIZE: Draft limit only.

HEALTH: Event any suspect contagious disease ask for orders by wireless. Port Regulations do not allow such a ship to come alongside or closer than 350 yards. Pilot must not leave ship before allowed by the Doctor. Pilot does not board an infected ship but ship piloted to safe anchorage by pilot boat.

RADIO: Helsinki Radio, Hanko Radio, Mariehamn Radio and nearest station Vaasa Radio.

VHF: Vaasa VHF, intermittent watch on Channels 16, 26 and 28. Channel 16 used for calling Pilot, tug etc. Channels 13 and 12 for further operations.

RADAR: When required pilot station radar used for advising Pilot onboard.

TUGS: 3 ice-breaker tugs available (up to 3,500 bhp) 24 hours per day. 2 hours' notice recommended.

BERTHING:

Quay	Length (m.)	Depth Alongside (m.)	Remarks
Petajas	170	10.5	Bulk Cargo
Iso-Hakuni	100	10.5	Ro-Ro
Hakuni	270	6.5	General Cargo
Central	410	6.6 – 7.3	General Cargo
Laitsaari	280	9.15	General Cargo
Suoja	110	5.7	General Cargo
Chemical I	100	5.5	Liquid Cargo
Chemical II	110	7.2	Liquid Cargo
Oil	125	9.15	Oil Carriers
Kallistus	400	4.0	Small ships, tugs, etc.

CRANES: 2×6 tons; 1×5 tons; 2×3 tons. 15 mobile cranes 5 – 42 tons available.

STEVEDORES: 24 hours' notice to Agent recommended.

BULK CARGO FACILITIES: Part of Central Quay for bulk carriers, shore cranes, max. draft 7.0 m.

Petajas Quay for bulk carriers, max. draft 9.0 m. (depth alongside 10.5 m.).

Facilities for grain cargo.

SPECIALISED CARGO – HANDLING FACILITIES: No special equipment for containers, but containers can be handled by harbour cranes and mobile cranes.

Good berths for roll-on/roll-off traffic.

Oil slop discharge to tanks available.

Different kinds of liquid chemicals can be handled in special berths.

MEDICAL: Advance notice recommended if possible. Hospital available (231 beds).

TANKERS: See "Berthing".

DENSITY: 1004 – 1003.

FRESH WATER: Fresh water available on quay, except Petajas Quay where water delivered by tugs. Charges depending on amount taken. An extra fee is charged if tug is used.

FUEL: Fuel brought by tank-trucks.

GANGWAY/DECK WATCHMEN: Available if wanted. Watchmen supplied by private company.

OPENING/CLOSING HATCHES: Performed by ship's crew or by Stevedores at request of ship.

CUSTOMS ALLOWANCES: Tobacco: 6 day's ration (about 200 cigarettes or 200 gm. tobacco). Wine and/or Spirits: 1 opened bottle of wine or liquor, subject to Customs Regulations.

CARGO GEAR: Central quay shore gear available. Other quays mobile gear or ship's gear.

CONSULS: Denmark, Norway and Sweden.

REPAIRS: All types available.

DRY DOCKS: Rauma-Repola Oy: Dry dock 159 m.×21.7 m.×7.3 m. All sorts of repairs. Hollming Oy: Slipway for ships up to 600 d.w.t.

Cranes: Movable electric crane up to 80 tons.

SURVEYORS: Ship's Agent will give advice.

REPATRIATION: Repatriation and signing on or off.

AIRPORT: Pori – airport 50 km. away. Regular connections.

TIME: Local time is 2 hours ahead of Greenwich (Long. 30° E.). GMT plus 3 hours in Summer.

HOLIDAYS: See "Turku".

POLICE/AMBULANCE/FIRE: Police, 002 and 003; Ambulance, 006; Fire alarm, 005.

TELEPHONES: Oil quay, Laitsaari Quay and Iso-Hakuni Quay.

SERVICES: Compass adjusting facilities and compass adjusters.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: Normally no identification card needed but passport or seaman's book preferable.

DELAYS: No delays in berthing, loading and discharging weather permitting.

DEVELOPMENTS: New warehouses and storage fields under construction.

Bulk berth to be completed December 1984.

AUTHORITY: Port of Rauma Authority, 26100 Rauma, Finland. *Tel:* 358 38 13000. *Telex:* 65182 Raupo Sf. *Cables:* Rauma Habour Master. *Contact:* General Manager or Harbour Master.

SAIMAA CANAL AND PORTS IN LAKE AREA OF SAIMAA (See Plan Book)

APPROACH CHANNELS: The canal can be reached from the international waters of the Gulf of Finland through an approach channel South of Someri. The channel passes the Island of Vihrevoi and continues, at the Island of Malyj Vysotski, as the Vysotski-Viipuri Channel, from which the approach channel departs at a distance of 10 km. from Malyj Vysotski. The length of the approach channel from the point of departure to the Brusnitchnoe Lock is 14 km. The distance from the international water area to the Island of Vihrevoi is 94.5 km. and the length of the section Vihrevoi-Malyj Vysotski 12 km. The total length of the channel from the territorial waters of the Soviet Union to the Brusnitchnoe Lock is thus 131 km.

From the territorial waters of Finland the canal may be reached through the so-called coastal channel starting from the Finnish border at the island of Santio and joining the above sea channel at the Island of Vihrevoi. The length of the channel from the border to Vihrevoi is 49 km. and the overall length to the Brusnitchnoe Lock is 85.5 km. The channel and its refuge harbours have been marked on the Soviet sea charts Nos. 1131 and 1132 and on Finnish charts Nos. 11 and 12. The coastal channel may only be used by Finnish vessels while vessels of other nationalities must use the sea channel, except for foreign tugs.

Canal: The length of the canal on the Finnish side of the border is 23.3 km. and that of the part on the Soviet side 19.6 km. The overall length of the Saimaa Canal is thus 42.9 km. The average difference in the height between Lake Saimaa and the Gulf of Finland is 75.6 m. The canal has 8 locks, the heights of fall of which range between 5.54 m. and 12.69 m. Earth transports will use the 7 moving bascule bridges and the 6 stationary bridges across the canal.

NAVIGATION SEASON: The natural openwater season of the Saimaa Canal lasts on average 211 days. Since most vessels navigating in the Canal have been strengthened and inspected for navigation in ice, a season of navigation of nine months has lately been reached, the season beginning in early April and ending in January. The goal is to prolong little by little the season to ten months long.

The opening and closing of the season of navigation on the Canal is decided each year by the Finnish and Soviet Saimaa Canal Delegates. The opening will be announced not later than 1 day before the opening day and the closing not later than 7 days before the closing day.

During the season of navigation the Saimaa Canal and the other deep channels are kept open 24 hours a day.

PILOTAGE: *Use of Pilot is compulsory in the Soviet territory:* Pilotage in the Soviet water area is carried out by the Soviet Pilot Service. Pilotage is needed when using the outer channel between Vihrevoi – Brusnitchnoe and when using the coastal channel between the border – Brusnitchnoe. All vessels must use Pilot on these channel sections.

Pilotage on the Saimaa Canal: Pilotage on the section Brusnitchnoe – the lock of Malkia is carried out by canal pilots subordinated to the Saimaa Canal Office. All vessels, excluding small Finnish vessels less than 25 m. in length, shall use a Pilot when proceeding through the Canal. The Canal Office may grant upon application to a Master of a vessel the right to navigate a certain vessel on the Canal without a Pilot provided that the Master of the vessel has passed an examination required for the purpose.

Pilot must be ordered 12 hours in advance of point of receipt of Pilot: In navigation from the Gulf of Finland the Pilot must be ordered from the Viipuri Section of Inflot 12 hours before the arrival at the point where the Pilot is taken on board. The order must be checked four hours before the start of the pilotage. When using the coastal channel it is recommended, however, that the checking is done 6 hours before the start of the pilotage. To avoid excessive work by the Pilot Service and to eliminate delays special attention is to be paid to the accuracy of the time the pilotage is to be started, particularly in the last notifications.

In navigation from the Lake Saimaa the Pilot must be ordered from the Canal Office 12 hours before entrance into the Canal. The order must be checked two hours before the pilotage is to be started.

In navigation from the Gulf of Finland a Canal Pilot need not be ordered separately. Similarly, a Soviet Pilot for the approach channel need not be ordered separately when the vessel proceeds from Lake Saimaa.

Pilotage in the water system of Saimaa: Pilotage in the water system of Saimaa is carried out by Pilots of the National Board of Navigation in Finland. The order for Pilots shall be made 6 hours before the start of the pilotage to the pilot stations of Saimaa of the National Board of Navigation in Finland.

MAX. SIZE: The canal can be used by vessels with dimensions not exceeding the following:

Length	82.0 m.
beam	11.8 m.
draft	4.35 m.
height of mast	24.5 m.

The draft of a vessel in tow, however, shall not exceed 4.5 m. For vessels larger than those mentioned above, a permit for navigation on the canal may be granted upon application to the Canal Office of the Saimaa Canal.

The permit may contain regulations concerning the structure or equipment of the vessel or special provisions pertaining to navigation of the vessel on the canal such as good manoeuvrability, liability to wait or speed restrictions.

The Canal Office of the Saimaa Canal may also grant a vessel or equipment with slightly larger dimensions, carrying exceptional cargo, a Trip Let Pass for one passage through the canal.

The Rules and Regulations for Traffic on the Saimaa Canal also contain more detailed directions – among others on the permissible dimensions of vessels in tow and timber rafts using the open canal sections.

NEW VESSELS: When designing new vessels, to be used also in traffic through the Saimaa Canal, the designers are advised to consult the main dimensions and the structure of the vessels with the canal authorities. The conditions of navigation in the canal depend, first of all, on manoeuvrability, though certain other factors are also important.

MAXIMUM PERMISSIBLE SPEED AND TIME OF PASSAGE: The highest permissible speed on the actual channel of the Saimaa Canal is 9 km./hr. for vessels with a draft greater than 3.9 m. For vessels navigating on lesser drafts the speed is graduated within the limits of 9–15 km./hr. depending on the draft. In the lake parts of the Canal the highest permissible speed varies between 15–18 km./hr. depending on the size of the vessel. Detailed regulations available from the Canal Office. The time of passage through the part of the Canal provided with locks (mouth of the Canal on Lake Saimaa–Lock of Brusnitchnoe) is 5–8 hours depending on waiting time at locks caused by heavy traffic volumes, and on size of vessels.

SIGNS AND SIGNAL LIGHTS: The sign system of the approach channel of the Saimaa Canal, the canal and the channels on Lake Saimaa is adequate to ensure safe navigation throughout the day, also at night and in poor visibility.

The approach channel is provided with beacons, light buoys and signs in accordance with the lateral system. The signs have been erected by Soviet authorities. The illumination and the signalisation systems of the Saimaa Canal are based on the same principles with beacons and signs, but in the signal system of the canal, sign lanterns, signboards, line markers, water traffic signs and radar reflectors have been used. The colour of sign lanterns is orange on the West bank and green on the East bank of the canal. In marking of the lake channels of Saimaa according to the cardinal and lateral system, leading and warning lights, light buoys, range beacons, landmarks and signs have been used. Information of the marking of the water system of Saimaa has been issued as a booklet by the National Board of Navigation in Finland: "Sisavesistojen loistot I 1976" – "Beacons of Inland Water Areas I 1976".

RADIO: There are two radiotelephone networks for marine use in the sphere of influence of the Saimaa Canal. On the frequency of 160 MHz reserved for actual marine radio communications there are also the Pilot radiotelephone and the public radiotelephone networks.

The Pilot radiotelephone network covers all stationary radiotelephone equipment at all locks, on the Kansola Bascule Bridge, at pilot stations and in the traffic office in the administrative building at Mustola as well as portable radiotelephone apparatus used by canal Pilots. The radiotelephone equipment of the canal Pilots operate on Channel 11 of the international marine radio. The telephone of the Brusnitchnoe Lock and the Lock of Malkia and the radio telephone in the Administrative Centre of the canal are also provided with a general calling and safety Channel 16.

When approaching from the sea the vessel makes a radio contact with the Brusnitchnoe Lock by using Channel 11. After this all radio communications required by navigation on the canal also use Channel 11. On Lake Saimaa, radio communications move over to Channel 13 on which the traffic office of the Saimaa Canal and the pilot station of Lauritsala are also able to operate.

The general radiotelephone network on Lake Saimaa (the so-called Saimaa Radio) uses Channels 23–28 of the international marine radio. The network covers the entire region of the water system of Saimaa extending from Lappeenranta to Iisalmi and Lake Pielinen. Channel 24 is the calling channel of the Saimaa Radio.

Two marine radio stations for general traffic have been built at Nuijamaa and Virolahti especially for navigation on the Saimaa Canal. Both radio stations are on duty and they are remote-controlled from the Coast Station of Kotka. The stations have the calling and safety Channel 16 and a calling Channel 24 for public traffic. The Nuijamaa Station operates on Channel 28 and the Virolahti Station on Channel 23. The range of the Nuijamaa Station extends from South of Viipuri to Southern Saimaa and the range of the Virolahti Station covers the entire Bay of Viipuri. The stations can be called either on Channel 16 or on the operating Channel. The Kotka Radio calls vessels either on Channel 16 or 24.

The principal purpose of both the Saimaa and the Kotka Radios is to ensure the communications of the safety service of navigation. These stations may also be used to transmit calls to the public telephone network – also to foreign countries – or vice versa, to receive calls from the public telephone network.

THE HARBOURS OF THE LAKE AREA OF SAIMAA:

Mustola Harbour:

Situated in the Saimaa Canal.
Authority: The town of Lappeenranta, Harbour Office,
Address: Satamatie, 53900 Lappeenranta 90, Finland.
Tel: 953-518841.
Room for four ships, draft 4.35 m.
Warehouse terminal of 3,200 sq.m., first class storage yard of 10,000 sq.m., second class storage yard 30,000 sq.m.
Electricity, water, telephone etc. services available.
Harbour Master, Tel: 518841.

Kaukas Industrial Harbour:

Owner: Oy Kaukas Ab.
Address: 53200 Lappeenranta 20, Finland.
Tel: 953-5141.
Telex: 58211.
Room for one ship, draft 4.35 m.
Pilotage distance from the canal entrance 1.5 nautical miles.

Rapasaari Harbour:

Authority: The town of Lappeenranta, Harbour Office.
Address: Satamatie, 53900 Lappeenranta 90, Finland.
Tel: 953-518841
Room for one ship, draft 4.35 m.
First class storage yard of 3,000 sq.m., second class storage yard of 2,000 sq.m. Railway connection.
Pilotage distance from the canal entrance 6 nautical miles.
Harbour Master, Tel: 518841.

Joutseno Harbour:

Authority: The Community of Joutseno.
Address: 54100 Joutseno, Finland.
Tel: 953-34221.
Room for one ship, draft 4.35 m.
First class storage area 3,000 sq.m.
Pilotage distance from the canal entrance 13 nautical miles.

Vuoksi and Kaukopaa Industrial Harbours:

Situated in the town of Imatra.
Owner: Enso-Gutzeit Oy.
Address: 55800 Imatra 80, Finland.
Tel: 954-31866.
Telex: 5710.
Room in both quays for one ship, draft 4.35 m.
Pilotage distance from the canal entrance 25 nautical miles.

Ristiina Harbour:

Authority: The Community of Ristiina.
Address: 55800 Ristiina, Finland.
Tel: 955-41310.
Room for one ship, draft 4.35 m.
First class storage yard of 5,000 sq.m.
Pilotage distance from the canal entrance 49 nautical miles.

Savonlinna Harbour:

Authority: The town of Savonlinna, Technical Office.
Address: Olavinkatu 40, 53130 Savonlinna 30, Finland.
Tel: 957-12771.
Room for one ship, draft 4.35 m.
First class storage yard of 7,000 sq.m., second class storage yard of 6,000 sq.m. Railway connection.
Electricity, water, telephone, etc., services available.
Pilotage distance from the canal entrance 84 nautical miles.
Harbour Master, Tel: 12771.

Joensuu Harbour:

Authority: The town of Joensuu, Harbour Office.
Address: Ukonniemi, 80220 Joensuu 20, Finland.
Tel: 973-824521.
Room for three ships, draft 4.35 m.
Sawed timber roof of 1,200 sq.m., first class storage yard of 6,000 sq.m., second class storage yard of 60,000 sq.m. Railway connection.
Electricity, water, telephone, etc., services available.
Pilotage distance from the canal entrance 188 nautical miles.
Harbour Master, Tel: 824521.

Varkaus Oil Harbour (Akonniemi):

Owner: Vapo Oy.
Address: Akonniemi, 78710 Varkaus 71, Finland.
Tel: 972-13672.
Room for one tanker, draft 4.35 m.
Pilotage distance from the canal entrance 123 nautical miles.

Varkaus Harbour:

Authority: TVL/Kuopion piiri.
Address: Box 117, 70101 Kuopio 10, Finland.
Tel: 971-84522.
Room for one ship, draft 4.35 m.
Harbour is located in the lock of Taipale. It is a waiting berth for ships passing the lock of Taipale. A. Ahlstrom Oy uses it for shipping paper.
Pilotage distance from the canal entrance 125 nautical miles.

Industrial Harbour of A. Ahlstrom Oy:

Owner: A. Ahlstrom Oy.
Address: Box 14, 78101 Varkaus 10, Finland.
Tel: 972-251.
Telex: 4315.
Room for two ships, draft 4.2 m.
Water, etc., services available.
Pilotage distance from the canal entrance 126 nautical miles.

Kumpusaari Harbour:

Authority: The town of Kuopio, Harbour Office.
Address: 70100 Kuopio, Finland.
Tel: 971-121411.
Room for two dry cargo ships and for one tanker, draft 4.20 m.
Warehouse terminal of 2,500 sq.m., sawed timber roof of 2,000 sq.m., first class storage yard of 25,000 sq.m., second class storage yard of 28,000 sq.m. Railway connection.
Electricity, water, telephone, etc., services available.
Pilotage distance from the canal entrance 168 nautical miles.
Harbour Master, Tel: 121411.

Kelloniemi Oil Harbour (in Kuopio):

Owner: Oy Esso Ab.
Address: Kelloniemi, 70460 Kuopio 46.
Tel: 971-343333.
Room for one tanker, draft 4.20 m.
Pilotage distance from the canal entrance 169 nautical miles.

Siilinjarvi:

There are two quays, each with berthing for one vessel, in the community Siilinjarvi, draft 4.20 m.
Owners: Kemira Oy, 71800 Siilinjarvi, Tel: 971-421144.
Lohja Oy, 71800 Siilinjarvi, Tel: 971-431300.
Pilotage distance from the canal entrance 181 nautical miles.

TOLKKINEN (Tolkis): 60.20 N. 25.35 E.

PILOTAGE: Pilot arrives from port station at Emsalo (tel. 915 – 27710). Station equipped with VHF, radiotelephone and radar. Pilot boards between Kalbadagrund and Porvoo Lighthouse. Pilotage distance to port 22 miles.
APPROACHES: Max. draft of fairway from sea to roads 15.0 m., and from Roads to quay 7.0 m.
TUGS: Several tugs available from oil harbour.
BERTHING: Tolkis North Quay, depth 7.0 m. Tolkis South Quay, depth 5.2 m. Oil Harbour (see "Porvoo").
CRANES: Tolkis South Quay equipped with 1 movable crane. Lifting capacity 2.5 tons with grab and 5 tons with hook. Several mobile cranes up to 70 tons available for hire.
STEVEDORES: Working hours from 0700 – 1600 hrs. 4 – 5 gangs available Monday to Friday. On Saturday only 1 gang.
FUEL: Small quantity available by tank-car.
FRESH WATER: Fresh water available. Rate 8 t.p.h.
DENSITY: 1004.

AGENT: Oy Borga Stuveri Ab., 06750 Tolkis, Finland. Tel: 915 – 24530. After office hours: Tel: 915 – 143952. Telex: 1758 clear sf. Cables: Stevedore. Contact: Captain Christer Lindstrom.

TORNIO: 65.51 N. 24.09 E. (See Plan Book)

The outer harbour of Tornio is Roytta situated about 6 miles S.W. of Tornio.
DOCUMENTS:
2 Crew Lists.
2 Provisions Lists.
Passenger List.
One set of Bills of Lading, Ship's Papers, Health Documents.
PILOTAGE: Ajos pilot station VHF Channel 16. Pilot to be taken on board by lighthouse "Kemi 2" in position 65° 30.3′ N., 24° 22.5′ E., 10 miles from Ajos.
ANCHORAGES: In Roads, depth is 24 ft.
MAX. SIZE: At same time there can be 2 vessels of 100 m. – 120 m. length, draft 21 ft. 06 in.; 2 vessels of 50 m. – 60 m. length alongside Main Quay; and 2 vessels of 50 m. – 60 m. length, draft 14 ft. at Old Quay.
RADIO: Vaasa Radio/OHX or Harnosand Radio, Sweden/SAH.
TUGS: No tug available at Tornio. To be ordered from Kemi 12 hours before arrival.
CRANES: Three 20 ton mobile cranes for general cargo and several cranes for discharging bulk cargo.
STEVEDORES: Ordered by Agent (Telex 35 – 12). Agent must be given 24 hours ETA. Normal working time 0700 – 1100 hrs., 1200 – 1600 hrs. and 1600 – 2400 hrs. (Two shifts).
DENSITY: Fresh water.
FRESH WATER: Fresh water can be delivered by tank lorry (8 tons).
FUEL: Ordinary fuel by lorries from Kemi.
OPENING/CLOSING HATCHES: By the ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes or 200 grams tobacco and 1 bottle spirits.
CONSULS: France tel. 40473; Sweden tel. 23651; Norway 14411.
REPAIRS: No docks but accommodation for small repairs.
AIRPORT: At Kemi, 20 km. from Tornio; served by Finnair.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
POLICE/AMBULANCE/FIRE: Police 003; Fire 005; Ambulance 006; Salvage 47472.
AUTHORITY: Tornion Satamakonttori, PL60, SF-95400 Tornio, Finland. *Tel:* 980 – 40416. *Contact:* J. Arvola, Harbour Master.

TURKU (Abo): 60.27 N. 22.15 E.

DOCUMENTS: See "Oulu".
PILOTAGE: Telegram to Agent with 24 hours ETA to Sea Pilot station (State Pilots) Uto. Contact pilot station via Hango Radio or at shorter distance by VHF. Coastal Radar service available. When approaching port ETA by VHF to Port Information Centre, international Channel 12 for Harbour Pilot. Cutter whilst in action, same Channel, but takes orders from Information Centre only.

Pilot cutters painted red with white circular field marked "L" on the bows. Flying flag in daylight, showing red and white lights vertically at night. Coming out when required to pilot station 0.75 mile from Main Harbour. Call signals: International flag "G", at night 3 long blasts. No special boarding measures. All ships arriving from sea will get necessary information from Sea Pilot, whose service is compulsory. Harbour Pilot not compulsory.
ANCHORAGES: Outer anchorage at Bay of Airisto, 2 miles from Port, 15 – 18 m. In practice all ships taken into port without anchoring or waiting.
MAX. SIZE: Maximum draft in Commercial Harbour 30 ft. fresh water. In Oil Harbour 29 ft. 6 in. fresh water. Length and breadth of minor importance. No tides.
HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise, ask Agent.
RADIO: Hango (Hanko) Radio and Mariehamn Radio. In addition these have telephone and VHF service. Local telephone network on VHF Channel 26.
TUGS: Off Harbour Pilot station, Pikisaari/Beckholmen, further out on application. Advisable apply for tugs in advance. 4 tugs available.
BERTHING: Priority given to arriving and departing passenger ships on regular lines. 6 hydraulic stern loading roll-on/roll-off berths and 3 without hydraulics..
Total length of quays 4,896 m.

Canal Bank quay	Depth 27 ft.
West quay	Depth 30 ft.
Coal quay	Depth 18 ft.
Oy Wartsila A/B	Depth 18 ft.
Linnanselka/Slottsfjarden quay	Depth 27 ft.

Container facilities available.
Also see "Developments".
CRANES:

Quay	*No.*	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Canal bank	7	5.0	15	Movable
	1	7.0-5.0	5.5-12	,,
Linnanselka/ Slottsfjarden	7	5	20	,,
	2	60-40	20-24	,,
	9	6	20	,,
Oy Wartsila Ab Turku Shipyard (only for dock work)		100-40-10	17.5 35-36	Stationary
Valmet Oy Pansion Telakka	1	30-6	19-39	Floating for dockwork only

DENSITY: 1004.
STEVEDORES: Agent should be well informed about ETA and Master's Requirements. Normal working hours: 0700 – 2230 hrs.; Saturdays and days preceding public holidays 0700 – 1430 hrs. The Post Office: 0900 – 1600 hrs. Saturdays and days preceding public holidays 0900 – 1400 hrs.
MEDICAL: All medical and hospital facilities available. No special requirements regarding inoculations, etc.
TANKERS: No special requirements. Small slop discharge facilities. 1 berth, depth 29 ft. 6 in. for larger ships.
FRESH WATER: From pipe-lines along berths. Approx. 5 fmk. per ton.
FUEL: Most grades available. No advance notice neccessary if from motor vehicles. In case of greater quantities: from Oil Harbour only. This requires advance notice to Agent.
GANGWAY/DECK WATCHMEN: Gangways to be rigged out so that they do not obstruct quay crane movements. Watchmen customary, but not necessarily hired.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CONSULS: The following countries are represented by Consuls or vice-consuls in Turku: Austria, Belgium, Denmark, France, Great Britain, Greece, Honduras, Iceland, Italy, Norway, Portugal, Spain, Sweden and U.S.S.R.
REPAIRS: All types of repairs possible.
DRY DOCKS: Graving dock: length 600 ft. (183 m.), width of sluice gate 85 ft. (26 m.), depth on sill 26 ft. 3 in. (8.0 m.).

Floating dock: lifting capacity 4,000 tons, max. length of ship 358 ft. (109 m.), inner width 59 ft. (18 m.) max. draft 16 ft. 6 in. (5.0 m.). By agreement the shipyard's 80-ton crane can be used in port traffic if such is needed. Tel. 359 500, Telegrams "Wartsila". Telex 62-228.
Valmet Shipbuilding Group:
Floating Dock: 155.0×23.4×7.0 m., lifting capacity 8,500 tons.
REPATRIATION: Yes, good connections everywhere.
AIRPORT: 4 miles from port, regular lines.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: New Year's Day (January 1st); Twelfth Night (January 6th); Good Friday; Easter Bank Holiday; Midsummer Day; All Saints' Day; Independence Day (December 6th); Christmas Day; (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire 005; Police 002; Ambulance 006.
GENERAL: Ice-breakers maintain Winter traffic. 2,000 and 800 h.p.
TELEPHONES: Ships' telephones available.
IDENTIFICATION CARDS: Not needed.
DEVELOPMENTS: Entrance channel to Main Harbour to be dredged to 33 ft. in 1984. Container Harbour being built. Outer Harbour planned. New Shed (No. 26) of 4,500 sq.m. in service, intended mainly for Ro/Ro traffic. Draft alongside 27 ft.

New bulk shed under construction and will be in service mid-1984.
AUTHORITY: Port of Turku Authority, Linnankatu 80, SF-20100 Turku 10, Finland. *Tel:* 21–764 111. *Telex:* 62190 Port Sf. *Contact:* Captain H. E. Pettersson, Harbour Master.

UUSIKAUPUNKI: 60.48 N. 21.24 E.

APPROACHES: 3 fairways lead to harbour through sheltering archipelago; Uto-Uusikaupunki, 78 miles; Isokari-Uusikaupunki, 13 miles; Kylmapihlaja-Uusikaupunki, 24 miles.

Good sheltered anchorage in the roads. Depth of fairways 10.0 m.

DOCUMENTS:

Agent will prepare during clearance:
- 2 Ship's Report.
- 1 Declaration List, Arrival (Board of Navigation).
- 1 Declaration List, Departure (Board of Navigation).

To be prepared before Arrival:
- 2 Provision Lists (own provision of the ship).
- 2 Special Lists (must be signed by each member of the crew).
- 2 Crew Lists.
- Bill of Admeasurement.
- Certificate of Registry.
- Ice-class Certificate (during Winter months, 1st December-30th April, issued by hull surveyor).
- Bill of Lights (issued by Customs).

PILOTAGE: Embark Pilot at Isokari or Uto Pilot Stations. Distance through archipelago Isokari-Uusikaupunki 13 miles, Uto-Uusikaupunki 78 miles. Under normal circumstances first fairway recommended. During Winter months, if ice-situation difficult in Gulf of Bothnia, traffic goes via Uto.

Both pilot stations equipped with radio 2182 kHz, Channels 16 and 24, VHF duplex-Channels 18, 20 or 22 and radar. Pilot-boat red, with letter "L" and fitted with VHF Channels 13 and 16. Pilot boards usually between Sandback-Isokari, to where "Hauteri" light leads in line 134.5°–314.5° (T). Notice of ETA at least 4 hours prior reaching station.

ANCHORAGES: Many areas of safe anchorages in Archipelago. Pilot advises.

RESTRICTIONS: No entry restrictions. No tide. During North and East winds sea-level can fall about 40 cm. below normal, which may sometimes delay deep loaded vessels reaching port.

MAX. SIZE: Longest quay 340 m. depth alongside 10 m.

HEALTH: Pratique not necessary. In the event of any disease/fever on board or in last port of departure, vessel has to inform before arrival, hoist quarantine-flags, or in darkness 2 lights, red light above white, showing all round horizon.

RADIO: Mariehamn Radio OFH; Helsinki Radio OHG.

TUGS: 2 available; normally tugs join vessel at port, ship's lines used.

BERTHING: *Kemira Quay:* 340 m. long, owned by fertiliser factory Kemira Oy, has depth 10 m. alongside, two 8 ton cranes, two discharging pipes, one for discharging ammonia at minus 32° C and one for sulphur acid. Discharging capacity depending material 140-170 tons/hour/crane and loading/discharging bags 45-50 tons/hour/crane.

Esso Quay: 40 m. long, owned by Oy Esso AB, depth in channel and alongside 5 m. Terminal is used for discharging LP gas.

Telakka Quay: 140 m. long, owned by Uudenkaupungin Telakka Oy, has depth alongside 5 m. Quay is only used for ship repairs, and fitting works for new buildings. There is also a floating dock with 5,000 ton capacity.

Hepokari Pier: 90 m. long and 18 m. breadth, owned by town. Channel and alongside depth 7 m. There is terminal on South side for Ro-Ro traffic.

Saunasilta Quay: 60 m. long and depth 3.5 m., owned by town. Used only by small coasters.

STEVEDORES: Available. Contact Agent.

MEDICAL: Hospital facilities, vaccination, certificates, etc., available. Contact Agent.

TANKERS: For discharging and loading liquid ammonia – Marine Loading arm "Luceat/Chiksan, Type RCMA" 8 in., ASA 300.

DENSITY: No tide, density 1004.

FRESH WATER: Water-hoses, about 20 t.p.h.

FUEL: Fuel available, contact Agent.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: All certificates according to International Convention for the Safety of Life at Sea, Class Certificate, etc.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per each member of the crew. Wine and/or Spirit: 1 bottle wine or spirit per each member of the crew.

CARGO GEAR: No additional requirements.

CONSULS: None.

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: Uudenkaupungin Telakka Oy has a floating dock, lifting power 5,000 tons, draft 6.1 m., breadth 19.6 m., and length 130 m.

REPATRIATION: Facilities exist for effecting crew changes and arranging any necessary repatriations.

AIRPORT: Distance to Turku Airport about 90 km. Airport is served by regular Airlines.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: Official Holidays are: New Year's Day (January 1st); May 1st; Midsummer Day (Saturday between June 20th and June 26th); Independence Day (December 6th). Usually no work on those days.

POLICE/AMBULANCE/FIRE: Police 002 or 3002; Ambulance 3005; Fire 005 or 3005.

TELEPHONES: Available.

SHORE LEAVE: Crew members are allowed ashore.

IDENTIFICATION CARDS: Not needed.

AUTHORITY: Uusikaupunki Harbour Office, Satamantie 9, Uusikaupunki. *Tel:* 922 – 22963. *Cables:* Satamatoimisto. *Contact* Harbour Office.

VAASA: 63.06 N. 21.36 E. (See Plan Book)

DOCUMENTS:

- 3 Crew Lists.
- 3 Passenger Lists.
- 2 Customs Documents.
- 2 Health Documents.
- 5 Manifests.
- 5 Bills of Lading.

PILOTAGE: Pilot vessel not cruising in open sea. Meets ship 2 miles N.W. of Vaasa Lighthouse (Lat. 63° 14.36' N., 20° 55.75' E.).

Pilot signals: Letter "G" as flag, light or sound. Radio telephone call: Pilots watching 24 hours on 2182 kHz, also VHF.

Pilot vessel: 30 ft. motor yacht with wheelhouse and radar. Hull red all over with letter "L" painted on bow.

Harbour Pilot available from Vaasa Pilot Station Tel. 39 725.

ANCHORAGES: To Pilot's advice.

RESTRICTIONS: No locks. Fairway lit all the way.

No tide, but water level may be reduced by up to 20 in. in Spring and early Summer, or increased by 10 in. to 25 in. in Autumn.

MAX. SIZE: Depth alongside piers up to 29 ft. 4 in. At the Oil Harbour, max. recommended LOA is 610 ft., depth 26 ft. 3 in.

HEALTH: See "Documents" – no restrictions. Hospital and Doctor for any purpose available.

RADIO: Vaasa Radio – OFW 2803 kHz.

RADAR/VHF: No radar service in port area. Pilot vessels at sea pilot stations equipped with radar. VHF radios on pilot stations, harbour tug-boat and Harbour Office. Channels 16, 13 and 12.

TUGS: Harbour tug-boat and ice-breaker m/s *Vaasa* available 24 hours. 650 h.p. Radio telephone/VHF – call sign OGWE. Charge according to size.

BERTHING: 2 piers of 180 m. length and the Reins Quay of 240 m. length. Depth 26 ft. 3 in. to 29 ft. 4 in. New Coal Quay length 145.9 m., depth 29 ft. 4 in. There are three 5-ton cranes on the South Pier.

The Ferry Pier, 106 m. and 118 m. length, depth alongside 5.0 m. with berths for Ro-Ro traffic.

The Oil Harbour is at Vasklot. Depth alongside 26 ft. 3 in. Tankers discharge through three arms of 500 mm. and 400 mm. diameter.

STEVEDORES: ETA as usual according to C/P to Agent, etc.

MEDICAL: If serious illness advance notice to Agent necessary. Coastguard has an aeroplane stationed at Vaasa; coast radio station will advise and arrange.

DENSITY: Nearly fresh water 1002-1004. No tide.

FRESH WATER: Available, no limit. Direct from quay-side, through pipes, rate about 25 t.p.h.

FUEL: All grades of bunker fuel available – direct from oil jetty or by lorries to berth.

FIRE PRECAUTIONS: Dry cargo ships; no smoking in holds. Tankers: usual restrictions. Tankers with petrol cargo not allowed to berth at dry cargo piers.

GANGWAY/DECK WATCHMEN: Not compulsory, ship's own crew can be used. Police watchmen available.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES:
- Safety Equipment Certificate.
- Stability Certificate.
- Load Line Certificate.
- Derrick and Hoisting Gear Test Certificate.
- Derat Certificate.
- Nationality Certificate.
- Measurement Certificate.
- Ice-class Bill.

CUSTOMS ALLOWANCES: Tobacco: Max. 200 cigarettes per man or 50 gm. of tobacco. Wine/Spirit: Maximum 1 bottle of each per man to be opened and used on board only.

CARGO GEAR: Cargo gear test book to be in order – all gear to be tested within a year otherwise risks for breaks in discharging/loading.

IDENTIFICATION CARDS: Not needed.

CONSULS:
- Belgium
- Denmark
- France
- Great Britain
- Netherlands
- Norway
- Sweden

REPAIRS: Shipyard in Vaasa. All deck and engine work can be carried out; slip for ships up to 1,500 d.w.t. Nearest dry dock Rauma. Harbour tug acting as salvage vessel, diver on board, all kinds of underwater cutting and welding, pumps, etc.

REPATRIATION: Can be carried out easily.

AIRPORT: Vaasa Airport (about 8 miles from town) served by regular airlines, domestic and abroad, Stockholm, U.K., Continent, etc.

TIME: Local time GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: Working hours in port: 0800 – 1200 hrs., 1300 – 1700 hrs. Monday to Friday, Saturday: 0800 – 1200 hrs. Sunday free. Working days in port: Monday to Saturday. Working days ashore: Usually Monday to Friday. All banks closed on Saturday. Shops open all weekdays. Other holidays: 6th December – Independence Day – Christmas, etc., as usual.

TELEPHONES: Can be arranged on board.

POLICE/AMBULANCE/FIRE: Tel. numbers Vaasa: Police 002; Ambulance 003; Fire 006. Ambulance, Aeroplane, Coast Guard: Vaasa 114 859.

GENERAL: Ships approaching port of Vaasa in Winter time (January-May) when sea area icebound, have to call any of Government ice-breakers operating in area or to inform Harbour Authorities of exact ETA – engine power, size and nationality, and whether strengthened for ice or not. Call signs, etc., for Government ice-breaker can be obtained from nearest coast radio station.

SERVICES: Compass adjusting available.

DELAYS: Only Winter time when Government ice-breaker is arranging, waiting or assisting in outbound convoys of ships.

AUTHORITY: Vaasa Harbour Office, SF-65170 Vaasa 17, Finland. *Tel:* 358-61-112162. *Contact:* Lars Holmqvist, Harbour Master.

VEITSILUOTO: 65.42 N. 24.37 E. (See Plan Book)

DOCUMENTS: Usual documents for Finnish ports. In addition the Harbour Master requires a copy of the Crew List.
PILOTAGE: Inwards compulsory for vessel in foreign trade. Boarding about 8 miles before Ajos. Ajos Pilot Station may be contacted on VHF Channel 16.
ANCHORAGES: Good holding ground about 1 mile from Rautakallio and by Koivuhauta 2 miles from harbour entrance.
RESTRICTIONS: No tide. Entry by day or night. Approach Channel, depth 7.1 m. It is recommended that vessels longer than 150 m. and with a minimal keel clearance avoid berthing in dark or under unfavourable weather conditions at Veitsiluoto harbour.
MAX. SIZE: See "Berthing".
VHF: Make initial contact on Channel 16.
HEALTH: See "Oulu".
TUGS: Available when required, charges according to net tonnage. Use ship's lines.
BERTHING: Length of Quay 552 m.
Berth Nos. 1 & 2: Total length 95.5 m. Depth 4.9 m.
Berth Nos. 3, 4 & 5: Total length 235 m. Depth 7.1 m.
Berth Nos. 6, 7 & 8: Total length 222 m. Depth 7.1 m.
CRANES: No shore cranes available. Load/discharge by ship's gear or mobile cranes.
SPECIALISED CARGO – HANDLING FACILITIES: One Ro/Ro berth, no special equipment.
STEVEDORES: Ordered by Agent.
MEDICAL: Hospital at Kemi. Masters to advise if medical attendance required aboard.
FRESH WATER: Available at short notice. Rate 7 t.p.h.
FUEL: Ordinary fuel, diesel and gas oil. Deliveries by lorries only.
FIRE PRECAUTIONS: No special precautions. Company's fire-fighting corps.
GANGWAY/DECK WATCHMEN: Available, ordered by Agent.
OPENING/CLOSING HATCHES: By crew.
IDENTIFICATION CARDS: Not required.
CONSULS: Norway, others at Kemi.
REPAIRS: Available at Kemi.
SERVICES: Radar repairs possible in Kemi.
AIRPORT: At Kemi, approx. 15 km. from port.
POLICE/AMBULANCE/FIRE: The nearest emergency services are available through the Alarm Centre of the Veitsiluoto Company, telephone number 22. If you phone outside the Company, call first 8141 (the number of the Company), and then ask for number 22.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Not normally expected.
REGULATIONS: Port regulations delivered to ship on arrival.
AUTHORITY: Veitsiluoto Oy, SF-94800 Kemi 80, Finland. *Tel:* (980) 8141/5542. *Telex:* 3614 Vto Sf. *Contact:* Harbour Master.

NOTES

France

GENERAL

NOTICE TO MARINERS: No. 2005/81

Regulations concerning vessels laden with hydrocarbons (including) oil or other dangerous cargoes approaching French ports.

Regulations have been promulgated by the French Authorities concerning vessels laden with hydrocarbons (including oil) or other dangerous cargoes in the approaches to French Mediterranean ports and the ports in Corse.

Any such vessel intending to enter French territorial waters (including Corse) from seaward, or to sail from a French port or anchorage, is required to signal certain details to the Prefet Maritime of the Third Region at Toulon 6 hours beforehand. Should there be any subsequent change in the vessel's intended movements, or in her material state, a further signal should be made. All such vessels are required, throughout their stay in French territorial waters, except when lying alongside in port, to maintain radio watch on Channel 16 or the local frequency, if applicable.

Any such vessel which suffers significant damage at sea, or the threat of damage, from whatever cause, while within 50 miles of the French coasts, is required to signal certain details to the Prefet Maritime at Toulon. Subsequent developments must be reported, including the time of requesting assistance, the expected time of its arrival and the actual time of arrival. Any ship joining the damaged vessel to render assistance is required to signal details to the Prefet Maritime, and to render reports on the casualty on arrival. These signals are informative and do not constitute a request for rescue or assistance.

For details of all signals required above see *Admiralty List of Radio Signals, Vol. 6.*

Vessels exceeding 1,600 gross tons laden with hydrocarbons (including oil) or other dangerous cargoes must not approach the French coasts within 7 miles, unless instructed to do so by the French authorities or within the port approach channels listed below. Exceptions to this rule are made in the channel between Corse and Capraia, where the minimum distance is reduced to 5 miles, and in the Bonifacio Strait.

Such vessels approaching, or departing from, the ports of Port-la-Nouvelle, Sete, l'Espiguette, Golfe de Fos, Marseille, Toulon, Antibes, Ajaccio, Porto Vecchio, Solenzara, Lucciana and Bastia are required to use the charted port approach channels. When in these channels such vessels are priority vessels and must display Flag "B" of the International Code by day, and exhibit one red light, visible all round, at night. The provisions of Rule 9 of the *International Regulations for Preventing Collisions at Sea (1972)* explicitly apply.

NOTICE TO MARINERS: No. 2379/81.

Regulations concerning tankers laden with hydrocarbons and vessels carrying dangerous cargoes navigating in the approaches to the N. and W. coasts of France.

The French authorities have issued the following regulations concerning the above mentioned vessels.

(a) **Laden vessels exceeding 1,600 tons gross** must keep at least 7 nautical miles from the French coast, unless otherwise instructed by a Prefet Maritime, except within:–

The N.E.-bound lane of the Dover Strait traffic separation scheme.

Race of Alderney.

The access channels to the following ports:

Dunkerque, Calais, Boulogne, Dieppe, Fecamp, Le Havre-Antifer, Rouen, and the ports of the lower Seine, Caen/Ouistreham, Cherbourg, Granville, Val de Saire transhipment area, Saint-Malo, Saint-Brieuc, Roscoff, Brest, Douarnenez, Concarneau, Lorient, ports of the Loire, Les Sables-d'Olonne, La Rochelle/La Pallice, Ports of the Gironde, Bayonne.

(b) **Vessels intending to enter French territorial waters (12 miles) or to sail from a French port or anchorage,** are required to inform Marine Brest and Marine Cherbourg 6 hours beforehand, either by radio or through the port authority, giving the following details:–

Prefix	SURNAV FRANCE
A	Name, nationality and call sign.
B	Date and time (GMT) suffixed "Z".
C	Position.
E	Course.
F	Speed.
I	Destination.
J	Date, time (GMT) and position of entering French territorial waters or of getting underway.
K	Date, time (GMT) and position of leaving French territorial waters, or of arriving at destination in French waters.
N	RT watch being maintained.
P	Draft.
Q	Cargo: type (as defined in MARPOL 73) and quantity.
R	Whether manoeuvring ability is normal or impaired by defects in propulsion, steering or anchoring equipment.
S	Whether operational fitness is normal or impaired by defects in radar, radio, safety or ballasting equipment.

Any subsequent changes should be reported immediately.

Constant listening watch must be maintained on Channel 16, or a frequency specified for this purpose by a local authority throughout the period the vessel is in French territorial waters, except when lying alongside in a port.

(c) **Vessels within French territorial waters suffering from an impairment of normal navigational or manoeuvring capability,** are required to take such an action as the Prefet Maritime may require to ensure, the safety of navigation and to avoid the threat of pollution.

(d) **Vessels within 50 nautical miles of the French coast suffering damage or having defects,** are required to report to Marine Brest and Marine Cherbourg any occurrence (collision, stranding, incident on board or external) which could result in damage to the vessel or cargo.

Any vessel going to the assistance of the damaged vessel is also required to make a report.

These reports are informative and do not constitute a request for rescue or assistance.

Requests for assistance, if required, should be made in accordance with international regulations, keeping Marine Brest and Marine Cherbourg informed.

The damaged and the assisting vessel are required to take such action as the Prefet Maritime may direct with a view to avoiding danger to navigation and threat of pollution, whether they are in French territorial waters or international waters.

Form of signalled report to be made by the damaged vessel:–

Prefix	SURNAV AVARIES
A	Name, nationality and call sign.
B	Date and time (GMT) suffixed "Z".
C	Position.
E	Course.
F	Speed.
I	Destination.
J	Time (GMT) and nature of a call for assistance or towage.
K	Name of assisting vessel, if present, or ETA (GMT).
M	Name and telegraphic address of Owner, Charterer and any French consignee.
N	Radio watch being maintained.
P	Draft.
Q	Cargo: type (as defined in MARPOL 73) and quantity.
R	Nature of damage or development of the situation.
T	Any other information.

Subsequent developments are also to be reported.

Form of signalled report to be made by the assisting vessel:– Prefix and A to I as above, but details applicable to the assisting vessel.

J	Date, time (GMT) and position of casualty.
K	Name, nationality and call sign of casualty.
L	Course of casualty, or destination, if known.
M	Speed of casualty, if known.
N	Radio watch being maintained.
Q	Cargo of casualty if known.
R	Damage of casualty.
T	Any other information.

Further reports on the casualty are required after arrival.

(e) **Laden vessels exceeding 1,600 tons approaching or departing from the following French ports:–**

Saint-Malo, Saint-Brieuc, Roscoff, Brest, Douarnenez, Concarneau, Lorient, ports of the Loire, Les Sables-d'Olonne, La Rochelle/La Pallice, ports of the Gironde, Bayonne.

are required to comply with the following regulations:–

To use the authorised approach and entry channels and waiting areas.

Inform the Port Authority on entering the approach channel.

When in these channels and waiting areas, display Flag B of the International Code of Signals by day and exhibit one red light at night, clearly visible all round.

Anchoring or waiting in the approach and entry channels is not permitted except in emergency, in which event the Port Authority must be informed as soon as possible.

Vessels crossing approach or entry channels should do so as nearly as possible at right angles to the channel and well clear of vessels in the channel.

These regulations do not in any way absolve Masters and Pilots from the requirement to comply with the International Regulations for Preventing Collisions at Sea (1972).

For further details of signals required by the above regulations see *Admiralty List of Radio Signals Vol. 6.*

Similar messages must be sent to Marine Toulon by vessels in the Mediterranean.

Navigation in the French Territorial Waters:

Any ship as specified above must keep permanently 7 nautical miles off the French Coast, except:

1. When entering a French harbour, in the specified channel leading to this harbour;
2. In the N.E. lane of the Dover Straits Separation Scheme;
3. In the Channel of Corsica between the Italian island of Capraia and the Corsican shore, where the limit is reduced to 5 nautical miles.

DISTRESS, SEARCH AND RESCUE:

Search and Rescue operations are controlled by the following organisations:

1. Centre Regional Operational de Surveillance et de Sauvetage pour la Manche-Mer du Nord (CROSSMA) covers the North coast of France from the Belgian border to Mont St. Michel (48° 38′ N., 1° 31′ W.). Stations at Cap Gris Nez (50° 52′ N., 1° 35′ E.). and Jobourg (49° 41′ N., 1° 54.5′ W.) maintain a continuous watch on 2182 kHz and VHF Channels 16 and 11.

2. Centre Regional Operational de Surveillance et de Sauvetage Corsen-Ouessant (CROSSCO) covers the N.W. coast of France from Mont St. Michel to the latitude of Pointe du Raz (48° 02′ N.). A station at Corsen (48° 25′ N., 4° 48′ W.) maintains a continuous watch on 2182 kHz and VHF Channels 16 and 11.
3. Centre Regional Operational de Surveillance et de Sauvetage pour L'Atlantique (CROSSA) covers the Atlantic coast of France from the latitude of Pointe du Raz (48° 02′ N.) to the Spanish border. Stations at Etel (47° 39′ N., 3° 12′ W.) and Soulac (45° 31′ N., 1° 07′ W.) maintain a continuous watch on 2182 kHz and VHF Channel 16.
4. Centre Regional Operational de Surveillance et de Sauvetage Mediterranee (CROSSMED) covers the Mediterranean coast of France. A station at Toulon (43° 06′ N., 6° 00′ E.) maintains a continuous watch on 2182 kHz, 2677 kHz and VHF Channel 16. A station at Agde (43° 18′ N., 3° 30′ E.) maintains 0500–2100 watch from 15th June to 15th September on 2182 kHz, 2677 kHz and VHF Channel 16.

AJACCIO, Corsica: 41.55 N. 08.44 E. (See Plan Book)

DOCUMENTS:

Cargo vessels:
1 Stores List.
1 Personal Effects List.
1 Crew List.
1 Passenger List.
2 Manifests.
Ship's Register.

Passenger Vessels:
1 Stores List.
1 Personal Effects List.
3 Crew Lists.
3 Passenger Lists.
Ship's Register.
2 Manifests.

PILOTAGE: No advance notice required for regular ships. Vessels call Pilot with 3 blasts on ship's siren. Pilot boat flies usual Pilot flag. Pilot joins approaching vessel at a line Isolella/Chapelle des Grecs. Available 24 hours a day. Pilot boat has VHF Channel 6.

ANCHORAGES: Several safe anchorages in harbour which can be indicated by Pilot.

MAX. SIZE: Length 200 m., draft 7 m. At anchor, no limit.

HEALTH: Health Officer boards on arrival. Pratique automatic unless suspected contagious disease on board, when it is necessary to notify Agent or Health authorities in advance by cable.

RADIO: ETA cables, etc., via Grasse Radio, Marseilles Radio or Ajaccio Radio. VHF Channel 24. Captain of the Port. Tel: (95) 21.68.34.

TUGS: None available.

BERTHING: Regular vessels have priority at all berths.

CRANES: Up to 20 tons.

STEVEDORES: Advice should be sent 24 hours prior to arrival. French vessels have priority of labour.

MEDICAL: Advance notice required Tel: 21.52.08. All hospital facilities available. Except in the case of an epidemic in any country from which the vessel has sailed, no inoculations or vaccinations are necessary.

TANKERS: Max. draft 6 m., length 110 m. Preferably with bow thrust unit. Gas tankers also preferable with bow thrust unit.

FRESH WATER: Available at all berths, except Gas Berth.

FUEL: All grades available, 48 hours notice required.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ship's Register.

CUSTOMS ALLOWANCES: Tobacco, 2 oz. or 200 cigarettes per member of crew. Wine, no restrictions. Spirits 1×20 oz. bottle.

IDENTIFICATION CARDS: Required.

CONSULS: Greek, Dutch, Monaco, Danish, Swedish, Finnish.

REPAIRS: Minor repairs can be carried out.

SURVEYORS: None.

DRY DOCKS: None.

REPATRIATION: Can be arranged by Ship's Agents.

AIRPORT: 8 km. from port. Served daily by Air France regular lines.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: 1st January; Easter Monday; Whit Monday; 1st May; 14th July; 15th August; 1st November; 11th November; 25th December. Cargo work can be arranged on all dates except 1st November.

POLICE/AMBULANCE/FIRE: Police 0.17; Ambulance 21.50.50 (SAMU); Fire 0.18.

TELEPHONES: Can be placed on board warships only.

BANKS: Banque de France, Tel: (95) 21.00.05. Telex: Banfra Ajacc 460083; Banque Internationale pour l'Afrique Occidentale, Tel: (95) 21.34.75. Telex: Bancafr 460291; Banque Worms, Tel: (95) 21.00.13. Affaires Maritimes, Tel: (95) 21.55.53. Telex: Afmar Ajacc 460690.

STORING: Stores and bunkers by truck only. Trucks may go alongside except at gas berth and tanker berth. Fork lift trucks available. Dockers available to assist.

GENERAL: Galley waste, etc., must not be discharged inside the bay, but into special containers at berth.

AUTHORITY: Departmental de L'Equipement de la Corse du Sud, Terre Plein de la Gare, 20184 Ajaccio. *Tel:* (95) 23.31.12. *Telex:* Corsequi 460943. *Contact:* Port Director.

Capitainerie du Port, Gare Maritime, 20000 Ajaccio. *Tel:* (95) 21.68.34. *Contact:* R. Lemai, Harbour Master.

ANTIBES: 43.35 N. 07.08 E. (See Plan Book)

DOCUMENTS:

(a) For Harbour Master:
Ships Papers.
Declaration of Exit and Entry.
Crew List.
Passenger List.

(b) For Customs:
Health Declaration.
Provision List.

PILOTAGE: Not obligatory for yachts. Port cannot receive pleasure boats longer than 40 m. Ensure pilotage authorities advised of ETA. VHF Channel 9 day and night.

ANCHORAGE: In winds of N.E. to S.E. anchorage in front of Antibes not advised. Recommended anchor in Bay de Golfe-Juan, in shelter of Cap d'Antibes, in direction of Juan-les-Pins. In winds from N.W. to S.W., good anchorages on East face of Cap d'Antibes, Bay of Garoupe, Bay of La Salis, Bay of Ilette.

RESTRICTIONS: Night entry not advised.

MAX. SIZE: For yachts in the old port, length 23 m., width 6 m., draft 3.5 m. For tankers, 1 berth only in tanker outer port. Max. length 110 m., draft 7 m.

VHF: Port Captain on VHF Channel 9 throughout 24 hours.

TUGS: None.

TANKERS: A berth against dolphins, in Outer Port and strictly reserved for unloading refined fuels. See "Max. Size".

FRESH WATER: Oil companies have water point on berth in Outer Port.

FUEL: For pleasure boats only.

CONSULS: None.

REPAIRS: For pleasure boats only. 2 slipways for boats of max. length 30 m.

REPATRIATION: Must be arranged through Consulates at Nice.

AIRPORT: Nice, Cote d'Azur. 15 km.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

POLICE/AMBULANCE/FIRE: Tel. Police 33.58.58 and 17; Ambulance 18; Fire 18 and 33.65.00.

SERVICES: Water and electricity on each pier.

AUTHORITY: Capitainerie du Port d'Antibes, Port Vauban, S.A.E.M. de Gestion, Port Vauban. *Tel:* (93) 34.74.00/01. *Contact:* J. Pluym, Le Commandant du Port.

BASTIA, Corsica: 42.41 N. 09.27 E.

DOCUMENTS: See "Ajaccio".

PILOTAGE: Address, Vieux Port 20, Bastia. Tel. 315095. VHF Channel 16. Pilot boats, 12 m. long, black and white with navigation and pilotage lights. Previous advice to Pilots necessary before arrival. Pilot boards in bay of Porto Vecchio, North of the citadel.

ANCHORAGE: Anchoring not recommended in Easterly winds. Depth 15 m. to 30 m. in Porto Vecchio Bay. Bastia harbour: up to 4.50 m. deep.

RESTRICTIONS: Ships may enter harbour any time.

MAX. SIZE: Max. length: 160 m.; draft 7 m.

TUGS: None available.

BERTHING: Ships berth in order of arrival. Accommodation for about 10 ships. General Cargo.

Mooring carried out by watermen. Same address as Pilots.

MEDICAL: Medical controls made by Customs officer. Doctor available.

FRESH WATER: Supplied ashore.

FUEL: Available in small amounts.

FIRE PRECAUTIONS: General rules. One wharf reserved for tankers.

GANGWAY/DECK WATCHMEN: Night watchman supplied by Agent.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCES: None on entry, 10 packets cigarettes when leaving. Wine/spirits unlimited when leaving.

IDENTIFICATION CARDS: Required.

CONSULS: Nearest at Ajaccio.

REPATRIATION: No facilities exist.

AIRPORT: Bastia 20 km. from ports. Departures every day to continent.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

POLICE/AMBULANCE/FIRE: Police, 1881; Ambulance, 2281 733–2686; Firemen, 018-088.

TELEPHONES: As a rule telephone is put only on naval ships.

SHORE LEAVE: Crew may go ashore.

AUTHORITY: Bureau du Port, Quai de la Sante, Bastia. *Tel:* 31-31-12. *Contact:* J. Fusella, Port Captain.

BAYONNE: 43.30 N. 01.28 W. (See Plan Book)

DOCUMENTS:
- 3 Crew Lists.
- 3 Passenger Lists.
- 3 Lists of Provisions on Board.
- 3 Individual Lists of Tobacco and Spirits.
- 3 Manifests of Cargo.
- 1 Set Bills of Lading.

PILOTAGE: Station extends 3 miles between the parallel of Ondres to the North and the limit of French territorial waters to the South. When weather permits, the pilot boat comes out of l'Adour and comes alongside ships near the light buoy situated W.N.W. of the port entrance. Contact Pilot at least 12 hours before arrival relaying through Bordeaux Arcachon Radio and stay on radio watch in the pilot zone. VHF Channel 12.

ANCHORAGE: Ships must not anchor in the river.

RESTRICTIONS: In bad weather ships are led to take the Pilot at the pilot boat which is based on St. Jean-de-Luz and are led either towards l'Adour or to the anchorage of St. Jean-de-Luz.

When alongside, even in fine weather, a swell may be experienced causing lines to part.

MAX. SIZE: The Adour is accessible to ships of 160 m. length (15,000 – 20,000 tonnes). Depth at the mouth varies with the seasons and are maintained by dredging. They are never less than 7 m. during Summer but during Winter can be reduced following Westerly storms. The height of the tide has to be added to these depths but the draft can never exceed 8.0 m.

HEALTH: A Declaration of Health Form is lodged by the Customs Service on arrival; it must be completed by the Master. In case of a suspect illness, advise Agent 24 hours in advance.

RADIO: Bordeaux – Arcachon Radio. The signal tower on the South side of the mouth, and the Harbour Master's Office, in the tower, has a VHF radio station, Channel 12.

TUGS: 1 tug available, 1,250 h.p., 10 tons bollard pull. Request for tug through the Agent. Tug waits at the entrance to the Adour.

BERTHING: When working berth is occupied, vessel is directed to a waiting berth. Large ships or those carrying dangerous cargo can be requested to wait outside the entrance.

Berth	*Max. Length Vessel*	*Recommended Draft*
Socadour	150 m.	29.5 ft.
Cement Wharf	160 m.	24 ft.
Satec Wharf	160 m.	24 ft.
Grain Silo	130 m.	23 ft.
SNPA Sulphur Quay	150 m.	25 ft.
Other berths	120 m.	22 ft.

BULK HANDLING FACILITIES: Silos with capacity 60,000 tonnes (maize). Rate 450 t.p.h.

3 silos, total capacity 10,000 tonnes at Armand Gommes Quay.

Phosphate handled at Boucau Quay with 3 cranes of 10 tonnes capacity, feeding conveyor belts with capacity 350 t.p.h. – 400 t.p.h.

CRANES: Edmond Foy Quay: 3×3 ton and 2×6 ton cranes.
Pierre Le Roy Quay: 4×3 – 4 tonne cranes.
Boucau Quay (Socadour): 2×10 tonne cranes.
Marcel Forgues Quay: 1×10 tonne and 1×8 tonne crane.
Jean Letellier Quay (private): 1×10 tonne crane.
Armand Gommes Quay: 2×3 – 4 tonne cranes.

STEVEDORES: Arrival must be notified to Agent 24 hours in advance.

MEDICAL: Medical attendance can be organised by the Agent without advance notice, Hospital and private clinic available. However, if medical attendance required as soon as the ship arrives, particularly at night, it is advisable to send a radio message 12–15 hours before the arrival of the ship.

TANKERS: No installation to receive residues. Two berths for unloading of refined products. Refinery de Midi: max. length 120 m., max. draft 6 m. Saint Gobain, length 150 m. max. draft. 24 ft.

FRESH WATER: Available at each berth, minimum supply 3 cu.m.

FUEL: Available by arrangements in advance through Agent or suppliers.

GANGWAY/DECK WATCHMEN: Not obligatory except for ships with dangerous merchandise on board.

OPENING/CLOSING HATCHES: Generally carried out by the crew.

CUSTOMS ALLOWANCES: 200 grammes or 250 grammes of tobacco for each crew member and for 8 days (must without fail be declared in the individual list of provisions). 1 bottle of wine or spirits (must without fail be declared in the individual list of provisions).

IDENTIFICATION CARDS: Not necessary – seaman's identity card sufficient.

CONSULS:
Belgium
Brazil
Chile
Spain
Finland
Great Britain
Norway
Peru
Portugal
Sweden
Uruguay

REPAIRS: Running repairs to hull, machinery, radio and radar can be effected.

SURVEYORS: Bureau Veritas. Tel: 25.20.44.

DRY DOCK: Usable length 98 m. Length on stocks 94.1 m. Width of entry 15 m. Depth above sill, neap tides 4.5 m., spring tides 6 m.

REPATRIATION: Possible for all countries as well as crew changes.

AIRPORT: At Biarritz: 7 km. away. Regular service with Paris. Two services per week to and from London.

TIME: European Standard Time: GMT plus 1 hour and GMT plus 2 hours from 2nd April to 1st October.

HOLIDAYS: 1st January; Easter Sunday/Monday; May 1st; Ascension Day; Whit Sunday/Monday; 14th July; 15th August; 1st November; 25th December.

POLICE/AMBULANCE/FIRE: Police, telephone 17 or 55.84.09., Anglet: 17 or 03.76.10 Boucau: 17 or 55.29.53. St. Leon Hospital: 63.50.50. Fire Station: 18 or 59.21.84.

TELEPHONES: Telephones on board not possible.

SHORE LEAVE: Crew are authorised to go ashore.

AUTHORITY: Direction Departementale de L'Equipement Alles Maritimes, 64109 Bayonne. *Tel:* (59) 25.43.60 *Contact:* Ch. Lesbordes, L'Ingenieur Des T.P.E.

Capitainerie du Port, 128 Av. de L'Adour, Anglet. *Tel:* 63.11.57. *Telex:* Porbayo 55 04 57.

BORDEAUX (inc. Verdon, Bassens, Ambes, Pauillac, Blaye): 44.50 N. 00.34 W. (See Plan Book)

DOCUMENTS:
- Tonnage Certificate.
- 2 copies Provisions List.
- 2 copies Personal Effects List.
- 2 copies Crew List.
- Customs Clearance.
- Crew Manifests.
- Check List.

PILOTAGE: No Vessel may enter the waters of the Gironde Mouth without permission of the Harbour Master's Office.

Vessels should announce their arrival at BXA Buoy at least 24 hours in advance to the Commandant du Port de Bordeaux through Coast Station Arcachon – Bordeaux Port Radio. In addition they should contact the pilot boat and confirm their ETA and speed 12 hours in advance The ship will be able to keep in touch with the pilot boat where radio watches are kept as follows.

1. On 500 kHz (radio) and 2182 kHz (radiotelephone): permanent watches from 0800 to 1000 hrs. GMT. 1200 to 1400 hrs. GMT. 1600 to 1800 hrs. GMT. 2000 to 2200 hrs. GMT.

2. On 2182 kHz, a general RT call (both in French and in English) at the end of each radio contact with the Pilots' station at Le Verdon.

These contacts are made on 1743 kHz at the following hours (GMT) 0030 – 0300 – 0500 – 0630 – 0717 – 0915 – 1030 – 1230 – 1430 – 1600 – 1715 – 2000 – 2124.

Upon request a special radio contact can be obtained at any time.

Under normal weather conditions, the pilot boat remains between the landing buoy and the West channel entrance. In bad weather the Pilot is sent on board as soon as boarding becomes possible, usually around buoy No. 10.

Vessels sailing from ports between Santander and Lorient, these ports included, must send their estimated arrival times, when sailing from these ports.

Small coasting vessels, for which pilotage is not compulsory, must also signal their ETA, 24 hours in advance by radio and their Masters must signal their arrival to the pilot boat, so that their position in the channel be known to all. They shall keep a permanent liaison on VHF with the Harbour Master's Office at Le Verdon port.

Having indicated arrival at BXA and corrected the ETA, if the difference from the previous forecast is more than an hour, vessels may communicate with the pilot boat, which maintains:

1. Permanent watch on 2182 kHz (radiotelegraphy).
2. Permanent watch on VHF Channel 16 (156.8 MHz).

Vessels less than 70 m. long, for which pilotage from the sea to Verdon is not compulsory, may embark river Pilot at Le Verdon providing Masters have advised the pilot station accordingly. Pilots can be contacted on VHF Channels 12 and 16.

ANCHORAGE: The normal waiting anchorage area is the Roadstead of Le Verdon, depth 10 m. to 12 m. and sand silt bottom. The big tankers with more than 10 m. draft find a good anchoring area in the Saintonge Roadstead with a depth of 15 m. to 20 m. (sand silt bottom).

MAX. SIZE: Verdon Petroleum Harbour. Tankers up to 350 m. length or approximately 230,000 d.w.t. can be accepted, with 50% load.
Bec d'Ambes: Tankers up to 32 ft. 6 in. draft, 210 m. length.
Pauillac: Tankers up to 32 ft. draft, 240 m. length.
Bassens: Vessels up to 34 ft. draft.
Blaye: Vessels up to 25 ft. draft.

RESTRICTIONS: The great entrance to the Gironde estuary (Western entrance) is dredged to a depth of 13.50 m. under the zero of French sea charts. It permits the sailing in of ships with a draft of 15 m. (49 ft.) at practically all tides.

HEALTH: Vessel should ask for free pratique by radio at least 12 hours before arriving at port. Message should be addressed to Sanipor – Bordeaux routed via Bordeaux/Arcachon Radio. Otherwise, pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.

Health Control: Vaccination Centre, 110 bis, quai des Chartrons (Shed 14). Tel: 52.53.12 or 90.91.21 ext. 397.

RADAR/VHF: Port radar is in operation in the Gironde estuary and approaches. Vessels may contact this station for navigation information by calling Verdon Port Radio on VHF Channel 14.

RADIO: Arcachon Bordeaux Port Radio: Radiotelephony 1,862 kHz. Radiotelegraphy 421 kHz.

Port Authority by VHF: Calling band 156.8 MHz Channel 16. Traffic band 156.6 MHz Channel 12 (port). Traffic and 156.7 MHz Channel 14 (radar).

Pilots: Telegraphy: watch on 500 kHz at the prescribed hours. Telephony: continuous watch on 2,182 kHz. VHF: continuous watch on Channel 6.

Every vessel fitted with HF radio equipment shall keep a constant watch and be in contact with "Arcachon-Bordeaux-Port-Radio" Station when navigating in the area between the landing buoy and her berth, or at least watch at the sending times of this station, when moored and awaiting orders.

Every vessel fitted with VHF radio equipment, shall also keep permanent watch and maintain contact with the Port Operations Station on 156.6 MHz (Channel 12) when navigating in the zones indicated below, or when moored and awaiting orders.

Le Verdon zone: call "Radar-Verdon".

Bordeaux zone: call "Port-Bordeaux".

TUGS: Tug assistance is available as ordered by the Pilot. Tugs will join vessels at the following places: In Verdon Roads for vessels mooring at Verdon. In Pauillac Roads for vessels mooring at Pauillac. At Buoy BA1 for vessels mooring at Ambes. Off the Harbour Basins for vessels mooring at Bordeaux Docks.

As a rule ship's tow-lines are used; when a tug line is required there will be an additional charge.

BERTHING: *Le Verdon Deep Water Terminal:* 2 containership berths, length 600 m., depth alongside 13 m. at LW; slip for quarter ramp Ro/Ro's. Handling operations carried out 24 hours a day 7 days a week. 100 power points for reefer containers. 3 container gantry cranes (1×32 ton and 2×40 tons capacity below spreader). One is multi-purpose and can work with a 30 ton grab for bulk unloading.

Riverside Quays: 18 berths depth alongside 7.5 m. – 9 m. at LW. Electric cranes available. 6 berths are now reserved as waiting berths.

Enclosed Docks: 2 basins joined by a lock 25 m. wide. Entrance effected by two locks of the following dimensions: Large lock 146 m. long 22 m. wide. Small lock 100 m. long 14 m. wide. Depth of water in the basins is maintained at 6.50 m. These are now used only for repairs and yachting.

Queyries: 493 m. long, depths offered are 7 m. alongside. 4×6 ton cranes.

Bassens-Amont: 1,225 m. long, depth alongside at LW. up to 9.5 m. (7 berths). The quay caters for general trade. Equipped with 9 cranes of 4/6 tons, 2 of 12/15 tons, 2 Caillard cranes 15/24 tons, the upper sector has been developed as a heavy bulk berth able to accommodate ore carriers of 40,000 d.w.t. ladened with 30,000 tons of cargo. Ships can be unloaded at a rate of 10,000 tons per day. This upper sector is available for phosphate cargoes.

The heavy bulk storage zone has a capacity of 128,000 cu.m. It is served by two railway sidings with road/rail weighbridges for redispatch.

One of the berth at Bassens-Amont is equipped to cater for molasses which can be stored in 3 reservoirs.

Bassens-Amont is also the centre of the ports phosphate traffic, bound for neighbouring industries and stocked in a silo depot, which is linked to the quay by a conveyor belt network.

During the last quarter of 1982, the bulk trades received at Bassens-Amont, ceded their place to general cargo. In the context of this redevelopment, which enables better throughput rates and more flexibility, a 6,000 sq.m. shed has been built. Containers are already provided with a storage yard of 12,000 sq.m. in the first sector and will have on completion, 20,000 sq.m. in the second sector; they are handled by 2 Caillard cranes of 15/24 tons.

Bassens-Aval: 11 berths, total length 1,474 m. Depth alongside 9.50 m. – 11.0 m. at LW. 15×4 ton cranes, 2×2.5 – 6 ton cranes, 2×15 ton – 24 ton Caillard cranes and 5×15 ton – 25 ton Ceretti cranes.

A Bulk terminal is available with discharge capacity 2,000 t.p.h. Max. size 120,000 d.w.t.

In addition there are facilities for heavy bulk goods, coal; forest products terminal; grain conveyors of 150 t.p.h., 400 t.p.h., 600 t.p.h. and 900 t.p.h.

Blaye: Public berth 8.0 m. draft, 170 m. long.

Pauillac: Public berth for vessels drawing up to 10 m. Total quay length 290 m.

Also see "General".

TANKERS: *Verdon Terminal:* Main berth. The ship is berthed on elastic dolphins (steel pipes) with an available depth of 17 m. Ship makes fast with own hawsers on four mooring dolphins, two up and two down on the wharf and set back about 35 m. from the face. This mooring is strengthened by very flexible steel warp hawsers of 55 and 60 mm. diameter. Five hawsers of this type may be placed at each end of vessel according to needs and weather conditions. Ships must have strong chain or claw-stoppers for turning on bitts.

For crude oil, the berths have following equipment: 1×30 in. line connecting the main berth to storage; 1×16 in. line connecting the coaster berth to the foresaid lines; 2 lines for bunkering. Discharge rate, 10,000 t.p.h.

Arms for connecting pipe-lines to ship. Connecting of the crude oil pipe-lines is made by ASA type, 16 in. Mannesmann arms (4 at main berth – 1 at the coaster berth). The Port Authority has a number of connecting collars in various dimensions and types. Ships are requested to inform before arrival on the type and data of their own collars. Connecting to the bunkering line is made by flexible hoses (ships must use their own handling gear).

Fire wire must be rigged on forecastle and poop, the eye 1 m. (3 ft.) above the water (all the time) when ship is light. Each fire wire must have a 10 m. (30 ft.) coil laying between bitts and fair lead.

If no other request, the ship is assisted by 2 tugs (with Kort nozzle 23 ton thrust) one of which stays at disposal during the call.

Secondary berth. This berth is for the use of shuttle-service ships, lighters and coasters, depth of 7.0 m. alongside.

Fire-fighting line. A 12 in. line supplies the wharf and the 2 berths with sea water under pressure. At each berth there are fire-fighting hydrants. The first help material for fire-fighting is ready to use at each call. It includes spray nozzles, water and foam hoses, emulsion liquid containers, powder extinguisher systems (movable and portable).

Bunkering. Supply is made by lighters mooring at the coaster berth. Securing of lighters alongside tankers is forbidden, except with special permission of the Port Authority.

Telephone. Telephone is connected to every ship on arrival. In that way the ship is regularly connected to the French telephone network (Tel. No. 59.63.28 – Le Verdon).

Pauillac: Oil installation operated by Shell, 33 ft. alongside.

Ambes: Terminal for tankers up to 210 m. length, 32 ft. 6 in. draft. Operated by Societe Elf and Esso. Also see "Shipmaster's Report" – dated June 1981.

Bassens: See "Report" date March 1981.

DENSITY: Verdon 1023 to 1015. Pauillac 1026 to 1000. Ambes approximately 1000. Bordeaux approximately 1000.

FUEL: Vessels wishing to bunker during their call at Bordeaux-Le Verdon, shall make known their needs of quantity and quality to their Agents or consignees before arrival in port. Requests must be forwarded, 48 hours in advance (at least), to one of the bunkering Agents of the following companies:

Shell – Bassens. Tel: 06.29.20.
Esso – Worms. Tel: 90.93.80.
ELF/SIMA. Tel: 50.56.70.
B.P. Floirac. Tel: 86.53.25.
Total C.F.R. Tel: 29.63.87.

A very large proportion of the bunkering fuels comes from the Shell refinery at Pauillac. These fuel-oils are mainly intermediate oils made by viscosity mixing between 80 and 460 centistocks (at 50°). Orders must therefore be for a quantity of at least 400 tons.

The quality control of mixtures is carried out by the Shell refinery laboratory, whose opening hours are: Monday: from 0400 to 1630 hrs. Tuesday, Wednesday, Thursday, Friday & Saturday: from 0400 to 2000 hrs.

MEDICAL: All facilities available. Malaria and cholera vaccinations can be performed at the Military Hospital or at the Port Vaccination Centre (Shed 14).

DRY DOCKS: There are 3 dry docks and 5 small covered docks. Dimensions of the largest graving dock are 247 m. length 34 m. width 13.40 m. depth.

REPAIRS: Ateliers de Realisations Navales et Industrielles, Cours Dupre-de-St-Maur, Bordeaux. Tel: 50.83.83.

Les Ateliers et Chantiers du Sud-Ouest, 162 quai de Brazza, Bordeaux. Tel: 86.37.28.

Ateliers et Chantiers Auroux, 7 boulevard Chanzy, Arcachon. Tel: 83.32.62.

Anciens Ets Mounerat et Gaussens, 99 a 107 rue Bourbon, Bordeaux. Tel: 39.75.06.

Service de Travaux et d'Etudes Maritimes et Industrielles, 236 boulevard Godard, Bordeaux. Tel: 50.40.35.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of alcohol per man.

IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.

AIRPORT: Situated 10 km. from Bordeaux. Frequent and Daily flights to most parts of Europe and North Africa. Good internal service.

POLICE/FIRE/AMBULANCE: Police 17; Ambulance 17; Fire 18.

TELEPHONES: Can be connected on board vessels moored at quays in Bordeaux, Bassens, Ambes, Pauillac, and Verdon.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

Le Verdon Container Terminal: Operational 24 hours per day, 365 days per year.

GENERAL:

Mooring Regulations: Vessels fitted with radio equipment, which, for any accidental cause, (engine damage, fog, etc.) are obliged to moor or ground at any point in the area between the landing buoy "BXA" and the "Ponts de Pierre" (Stone Bridges) at Bordeaux and Libourne, must immediately indicate their mooring or grounding position, by cable to the Harbour Master, Bordeaux. In all cases, the text of the message must specify whether the moored or grounded vessels interferes or not with shipping.

Berthing: Berthing is carried out on the advice of the Pilot, following instructions from the Harbour Officers.

Special precautions are recommended during Spring Tide periods to ensure that vessels in the river are held fast to the quay.

The following instructions apply:

Special Instructions for Securing Vessels at the Quay During Spring Tide Periods (K › 90).

Given the disturbances caused by the strong currents of tides with a K of over 90, the securing of vessels on the quay must receive unremitting attention.

Pilots shall pay close attention to the mooring lines, for which the Master remains constantly responsible.

Masters shall follow Pilot's instructions and provide all means asked for in terms of both manpower and equipment.

A strict surveillance is necessary to ensure that lines remain correctly secured by adjusting them according to the height of the tides.

A sufficient number of crew shall be kept on board, to carry out any handling which might eventually be ordered by the Harbour Officers.

Fire Fighting: 1. All vessels berthed in the Port of Bordeaux, be they loading, discharging, or under repair, must have permanently on board a sufficient watch to keep effective surveillance, to take all preventive measures and to fight any fire on board.

2. It falls to the Master or the watch, and this under their sole responsibility, to use the signalling equipment at their disposal.

3. Communication and signalling equipment. Telephones and fire hydrants available on all quays.

4. Fire fighting is carried out under the direction of the Master, but gangs intervening, especially the fire brigade, remain under the command of their respective officers.

The ship's crew must be able to guide the rescue teams. A plan of the ship and her loading plans, in particular those showing the location of dangerous goods on board, shall be put at their disposal on arrival. Where there is a risk of the fire spreading, for which the Harbour Master is the sole judge, he shall lead operations and order all necessary steps to be taken to safeguard public interests.

REPORT: The following report was received from a Ship Operator in March 1981.

Michelins Reception Facilities at Bassens:

1. The equipment consists of 2 pipes: One 10 in. diameter with a normal capacity of 500 cu.m./h.and the other 6 in. diameter. These capacity limits result from the meter which is fitted. Either pipe can be used independently according to conditions and features of the ship's pumps and equipment. The absolute maximum pressure allowed in whole system is 10 bars.

Length of pipes:
2,315 m. for 10 in. pipe.
2,274 m. for the 6 in. pipe.

The equipment incorporates a meter post consisting of a Smith LB 250 volumeter normal temperature – 3 degrees normal pressure, 8 bars accuracy, 0.2 outputs of between 110 and 570 cu.m./.h. The equipment does not include a vapour return line.

2. Deliveries must be made by tanker vessels specifically designed and fully equipped for carriage and refrigerated liquid gases. The liquid must be delivered at a temperature of between −2° and −5° Celcius when measured at the ship's discharge connection.

The ship must be fitted with suitable pumping equipment, in full working order and of a capacity sufficient to maintain throughout the whole unloading operation and under the condition of temperature and pressure already specified, an hourly delivery rate at least equal 1/16th the total shipment and in any case not less than 100 cu.m./h. As indicating the pumps must be specifically designed for the movement of butadiene in the order that any premature failure, or suction of gas, be avoided. A further reason for the pumps and compressors being in perfect condition is that the quay is public and any delay prejudicial to the movement of vessels requiring to use it. The ship's discharge equipment must include a security device capable ensuring at all times, both under normal conditions and in the event of accidental or unforeseen mishandling that the delivery pressure at the connection point for the hose never exceeds 10 bars.

The ship must have lifting gear (derrick, hoist, etc.) with a minimum 2 tons capacity and sufficient reach to maintain the flexible hose at right height, even at low tide. The ship must be capable of completely emptying each tank and the systematic use of nitrogen must be avoided, as it is detrimental to the manufacturing process.

To enable receivers to prepare for cargo, following information required at least one week prior arrival of vessel.

1. The position of discharge outlets in relation to central axis of vessel and to the level of the deck.

2. Type and diameter and thread dimensions of the sampling connection.

3. Diameter and details of the ship's outlet union.

4. The details of the discharging equipment for each pump or compressor.

5. The normal and maximum rates of discharge and pressure of delivery should be given.

The vessel is equipped with 2 sampling positions in the middle and lower positions of each tank.

Notice of Arrival: Either the seller or the carrier must give to the Bordeaux Authorities (Port Autonome de Bordeaux) notice of the estimated arrival of the vessel at Bassens either 7 days advance of the tanker getting under way at the previous port of call should this be less than 7 days before arrival. Confirmation of the arrival of the vessel off the Gironde Fairway/Buoy (BXA) must be given to the Bordeaux Port Authorities by cable, telex or other means at least 24 hours in advance.

If the vessel is likely to arrive during a weekend, Michelin Bassens must be informed by Friday mid-day at the latest, otherwise operations will not be able to commence before 0800 hrs. on Monday.

Discharge: The ship's crew must scrupulously observe all general security regulations, together with any particular ones laid down by the officials appointed by the Bordeaux Port Authority to supervise the safety of discharging operations.

Receivers cannot be held responsible for any mishandling, excessive pressure or untimely purging that may occur during the discharge operation due to the vessel, or for the consequences of any failure to observe the security regulations by any person not employed by Michelin.

On arrival of the ship, Michelin, assisted by the crew, will connect up the shore line to the ship's outlets union by means of flexible hose. The ship's crew will be responsible for the use of their own lifting equipment (crane and derricks) for the raising of the flexible pipe to a sufficient level above the quay so as to take into account the tide. Jointly with representatives of the ship and the sellers, Michelin will proceed with, the drawing of samples from each tank (for quality control).

The Liaison of Discharging Procedures: Michelin's representatives are to be introduced to the crew members appointed to the discharging operation.

Throughout the duration of the discharging operations the rate and pressure of the output must remain constant and within the agreed limits in order that the metering equipment shall function correctly. On having completed discharge of the liquid from the last tank, the ship must cease pumping to permit:

The meter post personnel to by-pass the meters.

Michelin in conjunction with the representatives of the seller and the ship, to check the remaining cargo (the weight of liquid butadiene discharged thus being determined).

The gas can then be pumped out – the quantity being determined by measuring the difference in pressure and temperature of the ship's tanks, on the assumption that it contains only gas both before and after pumping out.

Unloading Completion: On the representatives of the sellers and the ship agreeing that the discharge of the butadiene has been satisfactorily completed, the receiver's personnel and the ship's crew will uncouple the flexible hose.

In the event that after complete discharge of all liquid, it is agreed between the ship and the seller to pump out the gas, the quantity involved will be calculated by measuring the difference in pressure and temperature of the ship's tanks, on the assumption that they held only gas both before and after pumping.

SHIPMASTER'S REPORT: June 1981.

Bordeaux – Bec d'Ambes: If proceeding further up river then Sea Pilot leaves at Le Verdon and River Pilot boards. Pilot gives an Inwards Declaration which (different from EEC check list) is to be completed and handed to Port Officer after boarding.

Reference Admiralty List of Radio Signals, Volume 6, 1980, Part 1, Page 205, paragraph (2), vessels wishing to enter La Gironde should address the 24 hour message to "Capiport Bordeaux" and 3 hours before entering French Territorial Waters should request, via 'Capiport' permission to enter La Gironde. These messages are free of charge.

Port regulations require the berthing (River Pilot) Pilot to stand-by, together with 1 tug, until a loaded vessel has lightened to 28 ft. fresh water maximum draft.

When berthing starboard side to then one tug on port bow and second tug just for pushing.

Usually, first ropes on board are one shore head wire and one shore head breast. Final moorings usually 2 shore heads, 2 shore breast, (fore and aft) and 2 shore stern lines, and 2 springs each end from ship.

The shore moorings consist of a chain cable connected to the shore, this is connected to a 57 mm. wire which is made fast on board. The wires are hove on board by means of a messenger (ship) which is attached to a small size, long length pennant attached to the 57 mm. wire. The shore end of the 57 mm. wire is attached to a chain cable thus creating a 'catenary effect' which proves very good in keeping the vessel alongside. For berthing there is one shore rigger each end to advise and assist.

For unberthing one rigger boards to assist in singling up to 1 shore wire and one back spring each end. He then goes ashore by pilot ladder. Vessels berth day and night depending on tide.

Agent requires in advance the distances from bow and stern to centre of manifold.

AUTHORITY: Port Autonome de Bordeaux, Palais de la Bourse, 2 Place Gabriel, 33075 Bordeaux-Cedex. *Tel:* (56) 90.91.21. *Telex:* 570617 Pablv. *Cables:* Poronom – Bordeaux. *Contact:* P. Valls, Director General. Harbour Master – Ext. 183, 184, 185, 186, 187.

AGENT: See "Paris".

BOULOGNE SUR MER: 50.43 N. 01.35 E.

(See Plan Book)

DOCUMENTS: As for "Calais".

PILOTAGE: Compulsory for vessels over 60 m. length. Vessels can communicate with pilot station, tel. 31.36.08, through Boulogne Radio. When pilot launch is at sea, contact by VHF Channel 12.

The most favourable boarding point is between the sea buoy and the wreck buoy situated 1.5 miles to the South, or slightly nearer the land if there are strong Westerly winds. In any event, the surf created by the Carnot breakwater must be avoided by keeping at least 1 mile off shore. If Pilot is not immediately available, vessel must wait in Outer Roads, if necessary at anchor, until further instructions received. On no account should vessel attempt to enter Carnot Roads without Pilot.

ANCHORAGE: The outer anchorage for large vessels is midway between Bassure de Baas and the Carnot Breakwater. Anchorage prohibited in the main approach channel.

RESTRICTIONS: Entrance depends on tidal conditions. For larger vessels best to enter the breakwaters at slack water which occurs 2 hours before time of high tide. Arriving vessels are obliged to contact Harbour Master's Office immediately by radio, or VHF Channel 12.

MAX. SIZE: For outer harbour: length, 230 m.; draft, 10.67 m. springs, 11.00 m. neaps. Max. d.w.t., 35,000 (approx.). Bassin Loubet: length, 130 m.; draft, 7.5 m. springs, 7.75 m. neaps.

RADIO: Boulogne Radio, call sign FFB, also on VHF Channel 25.

HEALTH: Pratique given by Customs Officers who board on arrival. In case of suspected disease on board, Master should radio Agents prior arrival advising details.

TUGS: Will meet vessel as requested by Master on Pilot's advice.

BERTHING:

Sarraz-Bournet Dock: Europe Quay, 775 m., depth 11 m.; Ore Quay, 240 m., depth 11 m. max. rate 12,000 tonnes per day.

Carnot Basin: Mooring on dolphins for Ro-Ro vessels up to 146 m. long, beam 14 m. – 32 m., depth 9 m., max. draft 8.5 m. Connection to the open area by ramp capable of taking up to 175 tons.

Loubet Basin: (Closed by a lock, depth 5.50 m.) Huguet Quay, 240 m. for Ro-Ro/Lo-Lo vessels up to 132 m. LOA; Voisin Quay, 700 m. (for refrigerated vessels up to 135 m. LOA).

Fore-Port and Tidal Port: Cross-channel terminal with 3 ramps (one of which is dual level/double lane for new generation car ferries), capacity 40/175/144-228 tons. Can accept car ferries up to a length of 145 m. and a draft of 4.50 m.

Hoverport: Can receive 3 hovercraft at same time.

The station can accommodate the transit of 10,000 passengers a day. Direct connection by railway with Paris.

The port offers 70,000 sq.m. of warehouses and 150,000 sq.m of open storage area. 250,100 sq.m. of cold storage space.

A silo enables 42,500 tons of clinker to be stored for loading directly on to vessels at a rate of 1,200 t.p.h.

CRANES: 2×10 tons jib cranes for ore and 1 gantry for clinker (rate 1,000 t.p.h.). 24×0.6 tons, 6×3 tons, 1×5 tons, 12×6 tons cranes and 2×12.5/20 ton clinker transporters.

1 heavy lift pontoon, lifting capacity 130 tons.

FRESH WATER: Supplied by pipe-line to all berths.

FUEL: SMCL quay can supply marine fuel. Quay is limited to vessels less than 100 m. length and 5 m. draft, otherwise fuel obtainable by tanker lorry from Dunkirk.

OPENING/CLOSING HATCHES: Performed by crew.

CONSULS: Great Britain, Tel: (21) 30-25-11.

Finland, Tel: (21) 30-44-55.
Ireland, Tel: (21) 30-54-04.
Sweden, Tel: (21) 30-31-11.

REPAIRS: Only quick repairs may be effected because of congestion at the quays. Slipway for vessels up to 2,500 tons.

SURVEYORS: Soemari, 52 Rue Blanzy – Pourre, 62200, Boulogne-sur-Mer. Tel: (21) 922200. Telex: 110013.

STORING: See "Prelims", page viii.

1. Storing by lorries.
3. Lorries can proceed alongside at berth.
4. Ship's stores can be loaded by any means.
5. Fuel is free of taxes, the same applies to provisions (within proportions estimated by Customs with relation to the number of crew members).

SHORE LEAVE: Permitted, no restrictions.

DEVELOPMENTS: To the West of the mole of the Sarraz-Bournet Dock, it is envisaged that a 400 m. quay for commercial traffic will be provided.

AUTHORITY: Service Maritime des Ports de Boulogne-sur-Mer, 96 Boulevard Gambetta, 62321 Boulogne-sur-Mer-Cedex. *Tel:* (21) 301000. *Telex:* 110968 Sermar F. *Contact:* Directeur de l'Exploitation du Port.

AGENT: See "Paris".

BREST: 48.24 N. 04.30 W.

(See Plan Book)

DOCUMENTS: See "Dunkirk".

PILOTAGE: Pilots do not stay out at sea, but only go to meet ship at estimated time of arrival as sent by ship. Normally pilot boat positioned on the line Toulinguet lighthouse and Beuzec (or Charles Martel) buoy, about 2.5 miles N.W. Toulinguet lighthouse. If strong S.W. wind, pilot boat waits for ship at entrance of Camaret Bay, about 1.5 miles N.E. Toulinguet lighthouse. If sea too rough to allow pilot boat to sail out, boat waits for ship at entrance of Brest Roads, near Portzic lighthouse.

Ships proceeding Brest must send last message giving ETA Pilot station (stating if *local time or GMT*), about 5 hours before arrival. Message to be addressed *"Brest Pilot Office"* through Brest Le Conquet radio station (call sign FFU). Day and night watch at pilot office. Radio station phones message direct as soon as received. Any alteration in ETA should be passed pilot office immediately.

Pilot boat sails from Brest harbour about 1.5 hours before ship's ETA, and 0.5 hour later pilot boat takes radiotelephony watch on 2182 kHz, calling ship from time to time on same frequency. Ships fitted with radiotelephony should listen and call on 2182 kHz. Pilot boat also equipped VHF Channels 16, 9, 6, 12 and Pilot office Channel 9.

ANCHORAGE: At Pilot's discretion. Anchoring in main approaches restricted as indicated on charts.

RESTRICTIONS: Entry subject draft and height of tide on day in question. Two entrances to port, one dredged to 6 m. below zero of charts and the other 5.8 m. below zero. Depth at quays varies according berth from 6 m. to 11 m. below zero.

MAX. SIZE: Inside harbour, max. length 320 m. Draft up to 35 ft. subject to tide.

HEALTH: If from foreign port, cable Maritime Health Service 48 or 24 hours prior arrival requesting free pratique. If risk of contagious disease exists, vessel will be held in roads until cleared. If from another French port, free pratique automatic.

RADIO: Brest Le Conquet – FFU.

TUGS: Two port tugs of 4,000 h.p. and 1,900 h.p. Tugs join vessel at main entrance to port. Marine National places tugs at ship's disposal for all port movements. Generally, tow rope supplied by tug at additional charge.

One French salvage tug belonging to the Abeille Company is stationed at the port, but only gives assistance for vessels requiring aid outside the port area.

BERTHING: According to draft, ships may have to wait in roads before berthing, depending on height of tide in fairways. Also see "Restrictions".

6th East: 175 m. in length, 10 m. in depth (lowest tide) equipped with conveyor belts having a capacity of 1,000 t.p.h. and 550 t.p.h. respectively, connected to both.

Soya France silos (beans for flour making) capacity: 32,000 tons.

Public silos capacity: 32,000 tons.

Mixed loading capacity for road and rail transport of 800 tons per day.

5th East: 300 m. in length, 10 m. in depth (lowest tide) equipped with a conveyor belt of a capacity of 500 t.p.h., connected to a silo of a storage capacity of 20,000 tons.

The terminal allows bulk carriers of 80,000 d.w.t. to 100,000 d.w.t. rapid unloading at the rate of 15,000 tons per day of cargo such as: soya (bean of meal), manioc, grain cereals, as well as the possibility of rapid reloading of barges.

Also see "Berthing".

STEVEDORES: Agent has responsibility of making all arrangements for unloading, and is in touch with stevedores who arrange necessary gangs.

MEDICAL: Hospitals and clinics available. In the case of ship needing medical assistance, request should be addressed to Maritime Health Service through Conquet Radio Station, advising ETA, where vessel coming from and state of patient.

TANKERS: One berth for receipt of refined products destined for local storage tanks. Berth length 142 m., dredged alongside to a depth of 10 m. below zero of charts over an area 250 m. long and 30 m. wide.

FRESH WATER: All berths have fresh water supply. Apply to Chamber of Commerce who make necessary arrangements. Loading rate 13-15 t.p.h.

FUEL: Delivered by Societe de Depot des Petroles Cotiers and by Societe Maritime des Petroles.

TANK CLEANING: Station situated at the Southern extremity of the East Mole. Can operate 4 Victor Pyrate machines simultaneously. Equipped with 3 boilers to supply steam, 3 pumps, oily water separator and an extractor for solid residues.

The tank-cleaning station is connected by pipe-line to Repair Quays No. 1, 2 and 3 where tankers of 550,000 d.w.t. may be accommodated.

The new tank-cleaning and bunkering station, situated behind the dry-docks No. 2 and 3 is operational.

This station will be connected by pipe-lines to dry docks No. 2 and 3, all repair quays and so to the 6 South for bunkering facilities.

It will include four sections:

A tanker cleaning section with oil-water separator (2,000 cu.m.p.h.);

An oil-treatment section to transform the recovered oil in commercialisable products;

A bunkering section with tanks of 35,000 cu.m.;

A section that will be able to separate the solid residues of tankers.

WATCHMEN: Compulsory for ships carrying dangerous materials, non gas-free tankers, vessels with chemical products, munitions, etc.

CERTIFICATES:

Nationality.
Gross Tonnage.
Classification.
Derat.
Vaccination.

CUSTOMS ALLOWANCES: Tobacco, Wine/Spirit. Ship's provisions must be under seal.

CONSULS: The following countries are represented by Consuls at Brest:

Belgium
Chile
Denmark
Finland
German (Federal Republic)
Netherlands
Norway
Portugal
Spain
Sweden

REPAIRS: Repair Quay No. 1 at the South of the dry dock No. 2. Length: 320 m.; Depth: 9 m. to 9.50 m.

Repair Quays Nos. 2 and 3. Length: 608 m.; Depth: 8.30 m. to 10.70 m. Can accommodate vessels up to 550,000 d.w.t. (Pierre Guillaumat, Bellamya, Batilus, Prairial).

Repair Quay No. 4. Length: 400 m.; Depth 11 m.

Repair Quay No. 5. Length: 400 m.; Depth: 12.5 m.

continued next column

These two quays are situated to the North and to the South of the dry dock No. 3.

The 5 floating repair piers totalling 1,700 m. in length in water at a depth varying between 9 m. to 12.5 m. at the lowest tide, and connected to a tanker cleaning and bunkering station specially equipped to handle slop and residue from ship tanks.

Several modern lifting machines, among which:

1 crane of a capacity of 80 tons at 25 m.

1 crane of a capacity of 150 tons at 38 m.

Piers and dry docks equipped with electricity, steam, compressed air, oxygen, acetylene, telephone, potable water and fire fighting equipment.

DRY DOCKS: *No. 1:* Dimensions 225 m. by 26.77 m., entrance sill 4 m. below datum, situated at the Northeast angle of Basin No. 5. The entrance lock can receive 2 vessels simultaneously, 1 of 75 m. length and the other of 150 m. length, with some adjustments.

Max. draft, at Spring tides: 11.50 m.; at neap tides: 10 m.

No. 2: Dimensions 338 m. by 55 m. Can accept tankers of up to 280,000 d.w.t. Entrance sill 7.25 m. below datum. Dock situated in the Southeast of the Industrial Port Zone. Can accept vessels of the following dimensions.

At mean Spring tides: length 335 m.; beam 50 m.; draft 12.50 m.

At neap tides: length 335 m.; beam 50 m.; draft 10 m.

No. 3: Dimensions 420 m. by 80 m. Can accept vessels of 550,000 d.w.t. Entrance sill: 9 m.

AIRPORT: At Guipavas, 7 km. from Brest – 3 daily services to Paris.

TIME: Local time GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

POLICE/AMBULANCE/FIRE: Police 444850 and 445861; Police Secours 17; Ambulance and Fire Brigade 18 or 442766.

TELEPHONES: Can be placed aboard at certain berths.

SERVICES: Degassing station, tank-cleaning and slop discharge, adjustment of chronometers, chart and document department, weather forecasting, permanent daytime service for signing on crew, barometer adjustment. Also Compass and D/F adjusting.

Port Weather Service: Port Office, 30 Bis, Quai Commandant Malbert. Health Service: Quai Commandant Malbert.

DEVELOPMENTS: A new port industrial zone with an area of 100 hectares, and frontage of approx. 1,800 m. which will enable the construction of quays with depths of 10 m. – 12 m.

Furthermore, the Port is studying a vast plan to develop the commercial port, so that the latter may adapt itself to the requirements of modern maritime transport (1985-90).

AUTHORITY: Port de Brest, Direction Departementale de l'Equipement, Arrondissement de Brest, 2 rue Alderic-Le Comte, 29200 Brest-Cedex, France. *Tel:* 80.13.44 (12 lines). *Telex:* 940586. *Contact:* M. Mahe, Ingenieur des Ponts et Chaussees.

AGENT: See "Paris".

CAEN: 49.13 N. 00.21 W. (See Plan Book)

DOCUMENTS:

3 copies Crew List.
3 copies Provisions List.
3 copies Crew Personal Effects List.
Derat Certificate or exemption.

PILOTAGE: Pilot boat is on station from 2.5 hours before HW until 3 hours after HW. Vessels can contact the Pilot on VHF Channels 12 and 16. The pilot boat is stationed in the outer port of Ouistreham and goes out to the roads on vessels approach. International code flag signals are used to call Pilot.

Caen Pilot boat has a black hull with white stripe. The words "Pilote Caen" are written in white letters on the hull. During the Summer months the pilot boat is replaced by a launch bearing the same markings. As soon as the Pilot boards he will hand the Master an Entry Declaration to be completed.

ANCHORAGE: While waiting for the tide vessels may anchor in the vicinity of the light-buoy in Ouistreham Roads. The position of this buoy is Lat. 49° 19′ 50″ N., Long. 00° 14′ 18″ W. The buoy is positioned in depth of 10 m. Anchorage is open to winds from West through North to East; good holding ground. Currents do not exceed 2 knots at spring tides.

RESTRICTIONS: Dimensions of locks – East Lock length 181 m., width 18 m. West Lock length 225 m., width 28.45 m.

The locks are open to navigation from 2 hours before HW to 3 hours after HW. The locks can be used up to a maximum of 1 hour before/after these times by special permission of the Harbour Master and payment of additional dues.

Maritime Canal, length 14 km. The canal is dredged to 9.89 m. depth up to Herouville Dock. Vessels proceeding to the docks at Herouville and Calix must pass 2 bridges: Herouville 30 m. wide and Colombelles 30 m. wide.

Vessels proceeding to new dock must also pass the bridge at Calix, 21.76 m. wide. Maximum speed authorised in the Maritime Canal is 7 knots.

Maximum air draft for New Dock and St. Pierre Dock, 33 m.

MAX. SIZE: *Daytime:* Length 205 m., beam 23.5 m., draft 28.8 ft. sea water.

Night-time:

Blainville/Herouville	Length 160 m.	Beam 20 m.	Draft 25.9 ft. SW.
Calix	Length 150 m.	Beam 20 m.	Draft 25.9 ft. SW.
New Dock	Length 135 m.	Beam 16 m.	Draft 21.4 ft. SW.

HEALTH: Free pratique is automatic for all ships. Health control is carried out by Customs Officers under the direction of the Havre Port Health Office. For ships coming from ports in Africa, Asia, or Pacific Islands a Maritime Declaration of Health is required.

In case of suspected epidemic or fever on board Master must advise the port authorities who will instruct him to proceed to an appropriate anchorage to be boarded by the Port Health Doctor.

RADIO: Nearest radio station Boulogne Radio, call sign FFB.
VHF: Vessels may communicate with the Harbour Master's Office by VHF Channels 12 and 68. This service only operates during the hours when the locks are operating.
TUGS: The use of 1 or 2 tugs is recommended for vessels over 16.50 m. beam.

BERTHING:

Dock	*Quay*	*Facilities*	*Length (m.)*	*Draft (F.W.)*
Saint Pierre	Vendeuvre	Reserved for pleasure boats	280	4.0
	Cafarelli		150	4.0
Nouveau Bassin	President	4 cranes 5 t	150	7.0
	Hippolyte Lefevre	Cereals machinery rate: one 200 t.p.h.		
	President Gaston Lamy	4 cranes 3 t; 1 crane 5 t 2 cranes 15 t	550	6.5
	De Normandie	3 cranes 5 t; 1 crane 8 t 1 crane 10 t	375	5.8
De Calix	Calix	3 cranes 6 t	140	8.60
		Storage of Molasses: 13,500 t		
		Roll-on/Roll-off Berth	180	7.6
D'Herouville	President Delaunay	1 crane 5 t; 4 cranes 6 t	370	8.95
	Mole a charbon	Private berth, 4 cranes 8 t	200	8.95
Blainville	Blainville	Cereals machinery rate 400 t.p.h. 1 crane 6 t; 3 cranes 20 t; 2 cranes 26 t	560	8.95

STEVEDORES: Arranged by Agent on basis of ETA provided by vessel before arrival.
MEDICAL: Doctors and hospital facilities available.
TANKERS: There is a tanker berth (D.P.C.) in Calix Dock, max. draft 8.60 m. Gas-freeing is prohibited.
FRESH WATER: Available at all berths, rate about 5 – 10 t.p.h.
FUEL: Can only be supplied by tanker lorries.
WATCHMEN: Not compulsory during daylight hours from 0600 hrs. to 1800 hrs.
OPENING/CLOSING HATCHES: This work is normally carried out by the crew.
CUSTOMS ALLOWANCES: Amount of tobacco and alcohol for crew consumption must be declared on the stores list. Quantities held out of bond are at Customs discretion.

IDENTIFICATION CARDS: Not required.
CONSULS: The following countries are represented locally:
Denmark Tel: 82.33.13
Norway Tel: 82.05.42
Finland Tel: 97.33.27
Sweden Tel: 82.21.76
REPAIRS: Deck and machinery repairs can be carried out by local workshops. Nearest dry docks at Le Havre or Cherbourg.
REPATRIATION: Can be arranged.
AIRPORT: Situated 12 km. from the port. There are no regular services, but an air taxi with 5 seats can arrange connections to international airports.

TIME: GMT plus 1 hour or GMT plus 2 hours in Summertime.
HOLIDAYS: Work is carried out on legal holidays. No work on "Jours de Fetes" and Sundays.
POLICE/FIRE/AMBULANCE: Police Tel: 17; Fire Tel: 18; Ambulance Tel: 18.
TELEPHONES: Can be connected on board ships. Quayside telephone situated in Blainville Dock.

SHORE LEAVE: Allowed.
AUTHORITY: Ingenieur des Ponts et Chaussees, Chef de l'Exploitation, Direction Departmentale de l'Equipment, B.P. No. 37, 14035 Caen Cedex.

Commandant du Port, Pont de la Fonderie, B.P. 37, 14035 Caen Cedex. *Tel:* (31) 82.12.88, 82.36.36. *Telex:* 170213 FT.
AGENT: See "Paris".

CALAIS: 50.58 N. 01.50 E. **(See Plan Book)**

DOCUMENTS:
Ship Register.
Manifest of Cargo.
Bill of Lading
3 Lists of Provisions on board.
4 Lists of Articles held by Crew.
3 Lists of Crew.
List of open spaces.
Health Certificate, endorsed by Master on arrival.
Derat or Exemption.
For tankers, Certificate of Cargo Specification and Certificate of vessel's suitability to transport inflammable liquids in bulk.
PILOTAGE: Compulsory when entering or leaving harbour, except for ships less than 50 m. length. Pilotage area: 3 miles from piers. Ships required to give notice of their arrival 18 hours before, through Boulogne Radio. Pilot waits between buoys CA4 and CA6. Pilot boat: Black, white side stripe, bearing the inscription "Pilote Calais". She is equipped with VHF, Channel 6 and Channel 16.
ANCHORAGES: Between CA6 and CA8, 15 m. to 17 m. deep, sand and gravel. Good anchorage. When bad weather from North, ships are advised to stand out to sea or anchor in the roads of Les Dunes. Ship will receive instructions from Pilots or Harbour Captain's office when to enter roads of Calais.
RESTRICTIONS: Harbour channel 130 m. wide. In channel and outer harbour, depths are maintained at 8.40 m. MWL. Vessels should enter harbour preferably about 2.5 hours before high tide or half an hour after high tide. Because of the shape of sluice at the entrance larger vessels cannot have direct access to the Bassin Carnot at certain tides. These vessels may lighten in outer port, at "Quai Paul Devot", where depth is 9 m. LWOST.
MAX. SIZE: "Bassin Carnot", 150 m. max. length; "Bassin Ouest", (West Dock) 110 m. max. length; "Quai P. Devot", 190 m. max. length; "Bassin Carnot", 19 m. max. beam; "Bassin Ouest", 16 m. max. beam. Max. draft: 9.00 m. (29 ft. 6 in.). Port accessible to vessels of 20,000 d.w.t.
HEALTH: Sanitation controls can arrange deratisations and exemptions. International Vaccination Certificates required for ships coming from an epidemic zone.
RADIO: Messages through Boulogne Radio. ETA must reach pilotage station or Harbour Master's offices 18 hours before arrival. Near Calais, ships equipped with VHF can call Harbour Master on Channel 12 or pilotage station on Channel 16.
TUGS: Generally join ships at end of the piers. Towing ropes are generally ships own but can be supplied by tug.
BERTHING: Max. height of tide 7.30 m. Depth on dock sills 2 m. LWOST.

At West dock, entrance between 1.5 hours before and half an hour after high tide. In Bassin Carnot, entrance between 3 hours before and 1 hour after high tide.

There are 2 berths equipped for handling roll-on/roll-off traffic, situated in Bassin Carnot.
CRANES:

Maritime Station Quay	Electric cranes – 6 tons	3
Paul Devot Quay	Electric crane – 6 tons with automatic scoop	1
	Electric crane – 12 tons with automatic scoop	1
	Electric cranes – 15 tons with automatic scoop	2
Transit Station	A block of 2 gantries able to handle a load of 40 tons (containers)	
West Basin		
South Quay of the West Basin	Electric crane – 3 tons	1
	Electric cranes – 6 tons	2
	Electric cranes – 6 tons with automatic scoops	2
Carnot Basin		
Vistule Quay	Electric cranes – 6 tons	2
Loire Quay	Electric cranes – 6 tons	3
	Electric cranes – 6 tons with automatic scoops	6
	Electric cranes – 12 tons with automatic scoop	2
	Electric gantries – 6 tons with raisable forepeak and equipped with weights and automatic scoops	2
Crespin Quay	Electric cranes – 6 tons with automatic scoops	3
Fournier Quay	Electric cranes – 6 tons	5
	Electric crane – 12 tons with automatic scoop	1
Volga Quay	Electric cranes – 6 tons	2
	Electric cranes – 6 tons with automatic scoops	2

Dry Dock: One electric crane – 15 tons. 2 mobile cranes of 1/9 tons complete the lifting machinery of the Public Equipment of the Port.

BRIDGES: Swing bridges (West Dock) and draw bridges (Bassin Carnot) are situated on sluices.
STEVEDORES: Informed by Agent of tonnage, nature and condition of cargo.
MEDICAL: All facilities available.
TANKERS: Two posts provided for tankers: "Quai Paul Devot" for medium-sized tankers. "Bassin Ouest" (West Dock) for small tankers. "White and black" products can be accepted at "Bassin Ouest". Only "black" products admitted at "Quai P. Devot". Tankers are allowed to enter harbour only by daytime. They must leave as soon as operations are finished. Hoses 10 in. and 12 in. in diameter. Barges discharged with a 10 in. hose.
DENSITY: Salt.
FRESH WATER: Supplied from hydrants on wharves.
FUEL: Any fuel can be supplied by tank lorry of large capacity.
GANGWAY/DECK WATCHMEN: Ships must be guarded.
OPENING/CLOSING HATCHES: As a rule hatches are opened/closed by crew.
CUSTOMS ALLOWANCES: Tobacco: No limit for foreign ships, but the quantity must be declared on the lists of articles held by crew.
IDENTIFICATION CARDS: Identification cards and seamen's books are required.
CONSULS: *Vice-Consuls:*
Netherlands, M. G. Dumont, 12 Bd. des Allies, Calais.

Norway, M. Y. Lefebvre, 12 Bd. des Allies.
Sweden, M. T. Pagniez, 198 Rue des Quatre Coins.
United Kingdom, M. Russel, 331 Avenue de Saint-Exupery, Calais.
REPAIRS: Deck and engine repairs possible.
DRY DOCKS: One, 153 m. long, 21 m. wide. Depth at sill, 7.45 m.
REPATRIATION: Pilot boats and tugs may trans-ship equipment or hands in outer roads.
AIRPORT: Calais, Dunkirk (International), 7 km. away.
TIME: GMT plus 1 hour. Spring and Summer GMT plus 2 hours.
HOLIDAYS: 1st January; Easter Monday; 1st May; Ascension Day; Whit Monday; Tuesday afternoon following 1st Sunday of July (local feast); 14th July; 15th August; 1st November; 11th November; afternoon of 24th December; 25th December; Sundays.
POLICE/AMBULANCE/FIRE: Police 17; Ambulance 34.39.24; Fire 18.
SHORE LEAVE: Crew are allowed ashore.
AUTHORITY: Directeur de L'Exploitation du Port de Calais, Place de L'Europe, 62225 Calais, Cedex. *Tel:* (21) 96-63-00. *Telex:* Sermar 160758 F. *Contact:* P. Rattier, Port Director.
AGENT: See "Paris".

CALVI, Corsica: 42.34 N. 08.46 E. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
1 Provisions List
1 Cargo List.
1 List of Articles (new and customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
1 Health Declaration.
PILOTAGE: Not compulsory. If required, telephone pilot station at Bastia, Tel: (95) 315095.
ANCHORAGE: Outside port for cruise vessels.
MAX. SIZE: Draft 6.5 m.; length 140 m.
RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.
TUGS: None available.
STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.
CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.
FRESH WATER: Available at very slow pumping rate.
FUEL: Not available.
REPAIRS/CONSULS: None.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
AUTHORITY: Capitainerie du Port, Quai Landry, 20260 Calvi, Corsica. *Tel:* (95) 650521.

Affaires Maritimes, Quai Landry, 20260 Calvi, Corsica. *Tel:* (95) 650171.

CANCALE: 48.40 N. 01.51 W.

Used by fishing and pleasure vessels only.
PILOTAGE: Pilot available from St. Malo. Tel: 56.23.66.
BERTHING: 2 public wharves, depths from 0.5 m. to 13 m. at spring tides.
CRANES: One 3 ton crane available.
MEDICAL: Hospital facilities available at St. Malo, 15 km. distant.
FRESH WATER: Available in small quantities.
FUEL: Diesel oil available by truck.
AIRPORT: Nearest at Dinard, 30 km. away.
AUTHORITY: Direction de l'Equipement, B.P. 121, 1 Rue de la Corse, 35402 St. Malo. *Tel:* 566545.

CANNES: 43.33 N. 07.01 E.

DOCUMENTS:
To be sent on departure from previous port.
3 copies of Passenger List.
1 copy of Crew List.
Required on arrival:
4 copies of List of Passengers, showing Christian name, surname, age, date and place of birth, nationality.
2 Crew Lists.
5 copies of a Special Arrival form (supplied on arrival).
PILOTAGE: No Pilot station at Cannes. A tender with Company's flag on top of its mast will meet the vessel: *(a)* If ship is proceeding to anchorage No. 1, in Golfe de la Napoule, about half a mile South of the lighthouse at end of Cannes port Pier (Quai Lauboeuf); *(b)* If ship is proceeding to either anchorage No. 2 or 3, in Golfe-Juan, half a mile North of Ile Ste Marguerite.

The tender will lead to anchorage and will give 1 blast of the siren when correct position has been reached. At night, tender has a fixed white light at top of its mast, which replaces the flag. Should it not be possible to advise by wireless before arrival at anchorage and weather conditions making it necessary for ship to anchor at either position No. 2 or 3, boat will meet ship in Golfe de la Napoule, 2 miles South of Cannes port lighthouse. In this event, ship must proceed to anchorage No. 2 or 3 as appropriate, steaming to South of Ile St. Honorat, whilst tender will proceed by channel between Ile Ste Marguerite and the mainland.
ANCHORAGE: Advice of anchorage is passed to Captain via Grasse Radio or Monaco Radio, VHF Channel 16 usually about 1 hour before arrival. There are 3 anchorages, any of which may be used according to the weather:

No. 1 off the port of Cannes, approximately half a mile South of end of breakwater, used by calm sea or by East or N.E. winds.

No. 2 is situated to North of Ile Ste Marguerite, used by S.E. or S.W. or South winds.

No. 3 to the East of Cap de la Croisette, used by West or N.W. winds.

It could happen during the call, winds may change direction and movement from anchorage No. 1 to No. 2 or No. 3 become necessary. Shift takes about 1 hour.
HEALTH: Port officials will embark immediately the ship anchors. Free pratique may be granted by wireless telephone 1 hour before arrival at ship's surgeon request stating: "no illness on board".
FRESH WATER: One water barge (capacity 65 tons) and 2 water barges (capacity 20 tons) available.

12 hours notice required for orders up to and including 100 tons. 24 hours notice required for amounts in excess of 100 tons. Pumping rate 30–40 cu.m./hr. with one or two boats.
GANGWAY/DECK WATCHMEN: Watchmen for gangways should be provided by ship and passengers are requested to present their landing cards every time they use the gangways.
AUTHORITY: Capitainerie du Port.

CHERBOURG: 49.38 N. 01.38 W. (See Plan Book)

DOCUMENTS:
Declaration of Health.
Manifest of Provisions on Board.
Manifest of Crew's Possessions.
Manifest of Cargo – in certain cases.
Manifest of Equipment.
DEEP SEA PILOTAGE: Pilots board off "CH1" Buoy. Radio ETA to "Cherbourg Pilots" Telex 170952. (48 and 6 hours notice.) On approaching Cherbourg contact Cherbourg Signal Station on VHF Channel 16 confirming ETA.
HELICOPTER SERVICE:
Air Affaires – Heli-Services, Aerodrome de Cherbourg – Maupertus, B.P.1 – Gonneville, 50840 Fermanville. Tel: (33) 44.56.96. Telex: 171348 Helip.

Description of Services: A 24 hours – 7 days per week service, within a radius of 150 nautical miles of Cherbourg, to and from ships without the necessity of reducing speed or changing course, in any sea conditions.

The positioning and pick-up of persons are accomplished either by landing or by winching on all types of vessels, serving even small coasters and fishing boats.

Doctor and stretchers for injured personnel available within minutes of your call.

Note the possibility to put technicians and specialists on board for up to 12 hours work while underway and take them ashore again.
Recommended Procedure:

(A) 48 hours before	Please cable through Saint Lys Radio (FFL) or any radio station to Heli-Services Cherbourg Telex 171348 HELIP the following information: (a) ship's name (b) state you require Helicopter and reason for request (c) ETA rendezvous point requested (d) VHF in good order or not (e) Confirm full landing, restricted or winching area available.
(B) 24 hours before	With the same radio procedure confirm your ETA.

(C) 4 hours before — Call "Jobourg Traffic" (French Marine Traffic Centre) on VHF 16/11 to confirm your ETA. Heli-Services office is directly connected with Jobourg Traffic and transmit information concerning rendezvous point and helicopter operation.

(D) When helicopter is flying, its pilot contacts you on VHF. Give information about relative wind and start locked key homing signal on 410 kHz.

Services are assured 24 hours per day with two hours' notice, or immediately in case of emergency.

Rendezvous Points:

Standard Points

For normal operations, 4 rendezvous points are recommended.

Point A: 13 nautical miles North of Cap de la Hague.

Point B: 10 nautical miles North of Cap Levi.

Point C: 5 nautical miles North of Cap Levi (prohibited area for tankers).

Point D: 27 nautical miles North of Cap Levi (ships West bound)

However, if desired by the Master, the helicopter can meet the vessel at any point.

PILOTAGE: Requests for pilotage must indicate arrival time at the buoy CH1. They may be addressed to Agent or direct to pilot station, telegraphic address "Pilotage Cherbourg" Telex: 170952, or through the Homet look-out station by means of the usual signals. To avoid delay it is well to warn the pilot station 4 hours in advance of arrival. As a general rule, the pilot boat always comes out, whatever the weather. In bad weather, the vessel follows the pilot boat and Pilot boards as soon as shelter permits.

ANCHORAGE: Anchoring must be made strictly according to the instructions of the Pilot so as not to get in the way of movements and anchorage of steamers. Depths vary from 6 m. to 12 m. in safe anchorages.

RESTRICTIONS: In the wet dock, the bridge is opened 1 hour before until 1 hour after high water.

MAX. SIZE:

			Depth average tide	
	Length (m.)	*Breadth (m.)*	*Spring (m.)*	*Neap (m.)*
In the Roads	No Limit	No Limit	11	12.50
Trans-Atlantic Dock	No Limit	No Limit	7.0–12.5	8.5–14.0
Mielles Dock	150		5.00	6.50
Oil berth at Querqueville	200	31	9.0	10.50
Berth Amiot	100		3.0	4.50
Ro/Ro No. 1	130	20	7.0	8.50
Ro/Ro No. 2	200	30	8.0	9.50

Ro/Ro No. 3: (Quai de France – South). Length: No limit. Width: 44 m. Depth: 12 m.

HEALTH: From French port to French port, no formalities. From foreign port to French port, request for free pratique (yellow flag). In case of sickness on board, warn the Agent in advance. No crew member may leave ship before consultation and agreement of Port Doctor.

RADIO: The stations which offer the best facilities are Boulogne Radio, Brest le Conquet Radio, and St. Lys for ships which are a long way off.

TUGS: Tugs generally join vessel in the main approaches. With regard to the tow rope, a charge is made.

BRIDGES: Only the swing bridge at the entrance to the wet dock, which is opened on request from 1 hour before until 1 hour after high tide for the entry and exit of ships.

STEVEDORES: Agent needs ETA, to arrange personnel and equipment to be used for handling cargo.

CRANES: 35 ton capacity gantry for road/rail container and kangaroo operations. 40 ton capacity mobile crane for container and kangaroo operations. 30 to 90 ton floating cranes. Various mobile cranes for light and heavy lifts. Fleet of tugmasters and fork-lift trucks.

Also see "Berthing".

MEDICAL: Advise Agent of any requirements at the same time as ETA. There are 2 hospitals, civil and military, both very well equipped.

TANKERS: There is only one discharge berth, max. draft 9 m.

FRESH WATER: Water points on all quays.

FUEL: Available from local suppliers – Esso, Shell, etc.

WATCHMEN: Every ship in port must have a watchman, usually a crew member.

OPENING/CLOSING HATCHES: At the discretion of Master, crew may perform this.

CUSTOMS ALLOWANCES: Free allowance for each crew member – 200 cigarettes or 50 cigars, and 1 litre of alcohol. Common Market Countries – Crew: 300 cigarettes, 75 cigars and 1.5 litres of alcohol.

IDENTIFICATION CARDS: Each crew member must carry his seaman's card.

CONSULS:

Belgium
Portugal
Denmark
Finland and Norway
Haiti
Venezuela
Greece
Sweden
Great Britain

REPAIRS: All types of hull and engine repairs are possible.

DRY DOCK: Commercial Port's dock: length 75 m., width 14 m.

AGENT: See "Paris".

CONCARNEAU: 47.52 N. 03.55 W. (See Plan Book)

DOCUMENTS:
Ship's Registration Certificate.
Cargo Manifest.
Stores List.
Crew Personal Effects List.
List of Crew and Passengers with dates of Vaccinations.

PILOTAGE: The pilotage area is limited to the East by alignment of the sea marks of Point of Raguenes (Lat. 47° 47′ N., Long. 03° 48′ W.) and the Ile Verte (Lat. 47° 46′ 40″ N., Long. 03° 48′ W.), to the South by the Parallel of the "La Jument Buoy" (Lat. 47° 39′ N., Long. 04° 01′ 20″ W., to the South of the Glenan Islands), to the West by the meridian of the "Basse Rouge" Buoy.

Pilotage is not required for vessels with an overall length of less than 40 m., except for tankers carrying oil products or gas.

It is recommended to warn the Pilot 24 hours in advance, indicating the most accurate ETA (Tel: 97.15.47).

The pilot craft is not stationed at sea. The Pilot generally boards to the South of the Cochon Tower or, on request, between Cochon Tower and the Ile aux Moutons; the craft carries the "H" flag by day and white flashing lights at night.

If the state of the sea does not permit the Pilot to board, the pilot craft makes the signal "T" (by flag or morse code) signifying: "follow-me, the Pilot will board in the shelter of the Peneroff Breakwater". If the state of the sea does not allow the pilot craft to come out, it stations itself in the shelter of the Peneroff Breakwater and makes the signal "BT".

Access: It is not advisable for vessels of a certain size whose Masters do not know the channel well to proceed without a Pilot, at LW in particular, to the North of the line Beg-Meil – Trevignon Point.

ANCHORAGE: *Main Roads:* Vessels anchor in the bay, on request, on a muddy bottom, on the alignment at 028.5° from the Beuzec church tower through the la Croix lighthouse.

Small Roads: Vessels anchor in the small roads sheltered from the North to Southeast by East, in 8 m. of water and a bottom of sand and mud, on the access alignment or to the West of this alignment.

At night, when on the access alignment, as soon as the Lanriec Light appears, the alignment is opened so as to see the Beuzec Light to the left of the La Croix Light, and when the Lanriec Light disappears, the vessel anchors in 8 m. of water.

The recommended landing stage is on the La Croix Breakwater.

Kersos Cove (Lat. 47° 52′ N., Long. 03° 55′ W.): It is possible to anchor here sheltered from winds from North to South by East, but with a reduced turning area. Vessels anchor half way between the Kersos Tower and the coast to the N.E. in 3 m. – 5 m. water with a good holding ground of sand and mud.

MAX. SIZE: *Tankers:* By day: 91 m. overall; by night: 81 m. overall.
Other vessels: By day: 101 m. overall; by night: 91 m. overall.
RADIO: Contact Conquet Radio.
VHF: Tugs on Channel 6 on weekdays during working hours from 0800 – 1200 hrs. and 1400 – 1800 hrs.
TUGS: 2 tugs available on demand, meet vessels near Cochon Light, large vessels use a tug for berthing.
BERTHING: As Concarneau is essentially a fishing port, a commercial vessel of a certain size cannot enter without the authorisation of the port services, who must prepare a quay berth for her in advance.

The port of Concarneau includes the port of la Croix located to the West of the La Croix Lighthouse, a fore-port and a rear-port separated by the peninsula on which is Ville-Close. The Lanriec Passage connecting these two port areas is cleared at 3 m. depth and marked by 5 light towers.

Port de la Croix: It is protected from West winds by a breakwater, and by a quay to the North. The depth at the bottom of the mole is 3 m. The port is used by fishing vessels.

Fore Port: In the middle of the fore port are 2 lines of pontoons each 70 m. long enabling 280 pleasure craft with a draft of 2.5 m. approx. and length of 10 m. to berth.

Along the Peneroff Quay, deposits formed by a hard bottom covered by a thin layer of muddy water from 1 m. to 2 m. Along Ville-Close, the bottom dries from 2 m. to 5 m. Along the North face of the South Breakwater, a slipway permits careening of craft.

Rear Port: The Rear Port is comprised of 1,537 m. of mooring quay.
Aiguillon Quay: Depth 1 m., length 110 m.
Carnot Quay: Depth 2.50 m., length 250 m.
Lin Quay: Depth 2.50 m., length 250 m.
East Quay: Depth from 2.50 m. to 5 m., length 140 m.
Petrol Tanker Quay: Depth 5 m., length 95 m.
Sand Quay: Depth 5 m., length 25 m.
Right Bank Moros Quay: Depth 5 m., length 257 m.
Left Bank Moros Quay: Depth 5 m., length 220 m.
A Ship's Lift Pier: Depth 5 m., length 90 m.

These quays receive fishing and commercial vessels and vessels under repair. The vessels are positioned according to their characteristics and the nature of the goods to be unloaded or taken on board.

CRANES: 1 × 17.5 tonne (East Quay), 4 × 2.0/13.0 tonnes (mobile).
MEDICAL: Municipal Hospital at Porzou. Tel: (16-98) 97.10.60.
CUSTOMS ALLOWANCES: *Tobacco:* Fixed at 30 grams per day, at sea, per person.

Alcohol: The equivalent of 5 centilitres of rum at 42° per day, at sea, per person.

These allowances are free of tax for use on board, but may not be landed.

IDENTIFICATION CARDS: Any National Identity Documentation will suffice.
POLICE/AMBULANCE/FIRE: Police Tel: 97.17.17; Ambulance and Fire Brigade Tel: 18.
FRESH WATER: Available.
FUEL: Available.
DRY DOCKS: Synchrolift available. Max. capacity 2,000 tons; max. LOA 95 m.; max. keel length 76 m.; max. beam 14 m.; max. draft 5.50 m. Fresh water, electricity, compressed air and cranes available.

There is a slipway which can accommodate vessels of 350 tonnes.

AIRPORT: At Quimper – Pluguffan 30 km. from the town. Twice daily flights to Paris and flights to London during the Summer months.
AUTHORITY: Monsieur le Directeur, Departemental de l'Equipement, Cite Administrative de Kerfeunteun, 2900 – Quimper. *Tel:* (16.98) 95.70.32. *Telex:* 940.424.

Capitanerie du Port, Quai Est, B.P. 96, 29182 Concarneau. *Tel:* (16.98) 97.33.80. *Contact:* L. Tanguy, le Commandant de Port.

DIEPPE: 49.55 N. 01.04 E. (See Plan Book)

DOCUMENTS:
4 Crew Lists.
2 Lists of Stores.
1 Loading Manifest.
1 Passenger List.
1 Declaration (furnished by Agent) stating that ship possesses up-to-date Safety Certificates.
1 Health Declaration.

PILOTAGE: Pilot boards 4 miles from breakwaters. Pilotage is compulsory in this area except for vessels less than 50 m. long equipped with VHF (Channel 12). Pilot boat is ready to put to sea from 2.5 hours before to 1 hour after high tide when a vessel is expected. During this period maintains radio telephone watch. VHF Channel 12.

All vessels must send ETA to the pilotage authority of the Seine/Rouen/Dieppe at least 5 hours prior to arrival in the Dieppe Roads, any delay greater than 2 hours or where a tide is missed must be signalled at least 3 hours before the initially ETA. Vessels not obliged to take on a Pilot must indicate in their ETA whether or not a Pilot is needed.

Address: PILSEINE – 21 rue du Mont Diboudet – Rouen, Telephone (35) 71 68 50; Telex 770575.

APPROACHES: Coming from the West, immediate landfall is Cap d'Ailly which is passed at 3 miles distance and then vessels proceed to the landfall buoy of Dieppe marked D.1. (East Cardinal, black yellow black, very quick flashing light, 3 flash every 5 seconds and a bell).

Location: Lat. 49° 57′ 15″ N., Long. 1° 01′ 20″ E., or 2.5 miles to the N.W. of the port entrance.

The cliffs which surround Dieppe give very good radar echoes.

ANCHORAGE: It is recommended to anchor in zone bounded by following points: *(a)* Lat. 49° 56′ 55″ N., Long. 01° 04′ E.; *(b)* Lat. 49° 58′ 40″ N., Long. 01° 02′ 45″ E.; *(c)* Lat. 49° 57′ 42″ N., Long. 00° 59′ 20″ E.; *(d)* Lat. 49° 55′ 50″ N., Long. 01° 00′ 30″ E.

This anchorage area includes buoy D.I and depths are from 6 m. to 12 m. with sand and broken shell bottom. Larger vessels anchor approximately half a mile to North of buoy D.I in depths of 10 to 12 m.

Forbidden anchorage: It is forbidden to anchor in the area defined by the following points: Lat. 49° 56′ 55″ N., Long. 01° 05′ 29″ E. – Lat. 49° 56′ 25″ N., Long. 01° 03′ 03″ E. – Lat. 49° 56′ 05″ N., Long. 01° 04′ 50″ E.

RESTRICTIONS: The lock gates of the commercial basins are only open from two hours before to one hour after high tide. Vessels remain at anchorage in the roads until the gates are opened. Large vessels enter preferably at the time of high tide to benefit to the maximum from the level of water under the keel and the best conditions of navigation.

Entry and leaving: Vessels entering must arrive in the roads at the latest 25 minutes after high tide, except for large vessels which must be in the roads at the latest at high tide. Vessels leaving must be ready at the latest 30 minutes after high tide.

Entry and leaving signals: Entry and leaving signals are exhibited on the signal post on the West jetty and on the repeater post of the fore port (signals in accordance with the Lisbon Convention of 23rd October, 1930.) At the Colbert Sluice and at the various locks the signals are simplified.

MAX. SIZE: Vessels LOA 155 m. and beam 21.5 m. can enter. In certain cases vessels of LOA 165 m. may be permitted to enter.

Colbert Lock (Dimensions of Lock): 230 m. length, 37 m. width, controls entrance to Inner harbour, where depth maintained about 7.50 m.

Canada Docks: length 154 m.; width, 21 m.; draft 8 m.
Paris Dock: length 154 m.; width 21 m.; draft 7 m.

Opening of Canada and Paris basins: 2 hours before to 1 hour after full tide, night or day. The port is accessible to vessels up to 10,000–12,000 d.w.t.

HEALTH: Pratique given by Customs officers who board on arrival. In case of suspected disease, Master required to radio details to Agent in advance.

RADIO: Boulogne Radio (FFB). *Arrival advice.* Masters of vessels must send to the Port Authority, 24 hours in advance, or at the latest when leaving the previous port where this is located less than 24 hours away, the expected time of arrival in the roads, indicating the name of the vessel, tonnage, length, beam, the date and time of arrival, maximum draft of the vessel on arrival, the nature and tonnage of various items of its cargo and hazardous cargo (in transit or to be landed), possible damage to the ship, its equipment or to the cargo. A rectifying message must be sent in the event of a change. Address: Port Captaincy: 1 Quai de la Cale – Dieppe. Telephone (35) 84 10 55 – Telex: MARDIEP 180414F.

VHF: Dieppe Radio maintains continuous watch on Channels 2 and 24 and calls vessels on Channel 16. The Port Authority (Call sign "Dieppe Port") maintains watch on Channel 12.

TUGS: 3 tugs available (1,400 h.p., 750 h.p., 600 h.p.). Requests for use must be made to the Port Captaincy. Two tugs in service at all times.

BERTHING:

Dock	*Quay*	*Facilities*	*Length (m.)*	*Sea level chart*
Paris	Norvege	1 roll-on/roll-off ramp (80 t.)	715	7.5/9
	Maroc	6 noria conveyors for banana handling	600	7.5/9
Canada	Indes	1 grain bagging funnel	150	7.5/9
	Quebec	grain silo (cap. 12,000 tons). Capacity 500 t.p.h.	160	7.5/9
Avant-Port	Henri IV	1 roll-on/roll-off ramp (40 t.)	380	4.5/5 minimum
Arriere-Port	Quai Guynemer	1 roll-on/roll-off ramp (120 t.)		

Handling Capacities:

	Loading:
Colza oil	200 t.p.h. (from the quay)
Colza grains	60 tons/man hour
Grain and wheat	500 t.p.h. (silo)
Rough timber	23 to 28 cu.m./man hour
	Unloading:
Colza oil	(taken from quay)
Colza grains	50 tons/man hour
Sand and gravel	100 to 150 tons/man hour
Bananas	about 3,000 cartons/man hour
Citrus fruit on pallets	55 to 65 pallets/man hour
Citrus fruits not palletised (cases, cartons, crates)	16 to 21 tons/man hour
Pre-slung timber	about 80 cu.m./man hour
Bulk timber	about 25 cu.m./man hour
Iron and steel	50 to 60 tons/man hour

CRANES: One 30 ton crane at Quay de Tonkin. One mobile crane, 40 ton and jib 40 m.

Quay Cranes: 6×3 ton, 2×3/6 ton, 2×6/12 tons and 6×2 ton gantry cranes.

BRIDGES: There are 3 bridges without vertical obstacles, and to request opening of the Colbert Bridge give 3 long blasts on the ship's whistle, to call for the opening of the Admiral Rolland Bridge give 3 long blasts on the whistle, and for the opening of the Jehan Ango Bridge give 2 long blasts on the whistle.

STEVEDORES: Normal hours are 0800–1200 and 1400–1800. Possible to work from 1800–2200 to complete operations. No work on Sundays or holidays.

MEDICAL: All medical facilities available.

FRESH WATER: Supplied by pipe-line. There are a great number of outlets on the quay.

FUEL: Available in small quantities; delivered by tanker lorry.

GANGWAY/DECK WATCHMEN: Available if required.

IDENTIFICATION CARDS: Embarkation card or passport is sufficient.

CONSULS:

Norway
Sweden
Denmark
Netherlands

REPAIRS: Good facilities exist, all types carried out.

DRY DOCKS: Dry dock in the inner harbour, dimensions 130 m.×18 m. It can receive ships 129×17 m. One lift of 300 tons and 7 repair sites.

SURVEYORS: Bureau Veritas at Dieppe; Lloyd's at Le Havre and Rouen; American Bureau of Shipping at Le Havre; Det Norske Veritas at Le Havre.

OPENING/CLOSING HATCHES: According to agreement, either by crew or stevedores.

CUSTOMS ALLOWANCES: EEC countries – 300 cigarettes 1.5 litres of spirits and an exemption of 600 francs. Antilles: 400 cigarettes, 1 litre of spirits of more than 22°; Africa: 400 cigarettes and 1 litre of spirits of more than 22° and an exemption of 140 francs per passenger.

REPATRIATION: Good facilities.

AIRPORT: Dieppe Saint Aubin (3 kms.) has two daily connections with Shoreham, England. The nearest main airport is Paris.

TIME: GMT plus 1 hour, but during the period from beginning April to end September (six months) the legal time is advanced by 1 hour (GMT +2).

HOLIDAYS: 1st January; Good Friday; Easter Monday; Ascension Day; Whit Monday; 1st May; 14th July; 15th August; 1st November; 11th November; 25th December.

POLICE/AMBULANCE/FIRE: Police (Duquesne Quay) 84-87-32 or 17. Fire and Ambulance 18 or 84-33-00.

TELEPHONES: No connections on the quays.

SERVICES: Compass adjusting, etc. available.

SHORE LEAVE: Allowed.

AUTHORITY: Port de Dieppe, Quai de la Cale, 76208 Dieppe. *Tel:* (35) 84.10.55. *Telex:* Mardiep 180414 F. *Contact:* P. Leminicier, Commandant du Port.

AGENT: See "Paris".

DONGES: Refer to Nantes.

DUNKIRK: 51.03 N. 02.24 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" is the Dyck Lightship or the Roads if the ship comes from the East.

DOCUMENTS:

Entry Bill (all information about ship), given by Pilot to Master, who fills it in and gives it to Harbour Officer.

To be given to Customs:

3 Crew Lists.
3 Passenger Lists.
Manifest or copy.
Form for increase of tonnage.
Declaration of open spaces.
3 Lists of objects held by crew.

PILOTAGE: Pilotage station limits – there are 2 pilotage zones.

1. The Outer Zone which is limited:
   To the West by the meridian of Calais Lighthouse (Long. 01° 51′ E.);
   To the East, by the meridian of Long. 2° 27′ E.;
   To the North, by the line situated 3 miles seawards of the LW mark;
   To the South, by the Calais Pilotage Zone, the coast and the Inner Zone defined below.
2. The Inner Zone limited:
   To the West by meridian Long. 02° 08′ E.;
   To the North, by a continuous broken line constituted by the parallel Lat. 51° 03′ N., the line of the coast, the meridian Long. 02° 20′ E., the parallel Lat. 51° 04′ 30″ N.;
   To the East by the meridian of Dunkirk Lighthouse;
   To the South by the end of the water levels of the autonomous port of Dunkirk.

Pilotage is compulsory in Inner Zone for ships over 150 n.r.t. or ships of max. length 50 m., or with dangerous cargo.

Pilotage compulsory in Outer Zone for ships not fitted with VHF, or over 1,000 nett tons or max. length 100 m. or with dangerous cargo.

Vessels coming from the West should call Pilots 12 hours before arrival or when leaving the former harbour. Vessels coming from the East should call Pilots 2 hours before arrival. ETA based on time of arrival at Dyck Lightship, should be given through Boulogne Radio (telegraphy) or by radiophone (2182 kHz). ETA to state: ETA (at pilot station). Length of the ship. Draft. Place where the Pilot is requested: Dyck/Dunkirk Light Vessel; Dunkirk Roads; Zuydcoote Pass.

ETA will be considered null and void if vessel does not arrive within 2 hours of stated ETA.

In vicinity of pilot boat, vessels may communicate with Pilots by VHF Channel 16, or R/T 2182 kHz or by Aldis lamp or flag signals when pilot boat is in sight. Telegraphic address of Pilot: Piloduk. Telex: 820902.

Pilot boat is about 50 m. long, black hull with white horizontal stripe, "Pilot Dunkerque" written on hull. Black funnel with white anchors insignia.

Pilot boat is positioned between Dyck Lightship and Buoy CA.2. In bad weather, pilot boat stays on radio watch but may leave for a more sheltered place, or put into port.

Ship's Departure: Sailings must be ordered at the Harbour Office, pilot station, towage office and linemen's office.

Pilots: For a sailing between 0800 and 2000 hrs. 1.5 hours' notice is necessary to Pilot for the ships moored in Dunkirk-East (Mardyck Bassin excepted) a 2 hours' notice for ships moored in Mardyck Bassin and Dunkirk-West.

For a sailing between 2000 hrs. and 0800 hrs. vessels are required to give notice to the pilot office before 1600 hrs. and to order the Pilot before 1800 hrs.

ANCHORAGES: Large vessels waiting for entrance must anchor in the area West of Dyck Light Vessel. In bad weather, ships may anchor off English coast, in the roads of Les Dunes, with good mooring ground of sand and mud 20 m. deep. On the Roads of Dunkirk, ships must anchor East of buoy E.1 so as not to disturb the entrance of ships.

RESTRICTIONS/MAX. SIZE: Movement of vessels: Normal operating conditions. Exceptionally, dispensations may be given by port services after study of specific cases.

Eastern Port

VIA CHARLES DE GAULLE LOCK:

ENTRY: By day: Passage to breakwaters from sunrise to sunset.

Before high tide (HW −3 hours). Length 250 m. or under – max. draft 12 m.

After high tide (HW +2 hours). Length 280 m. or under if vessel is engine-driven and length 265 m. or under if vessel is turbine-driven – max. draft 14.20 m. Beam 44 m. or under (reduced to 42 m. if lock defences are not in good condition).

After agreement of Captaincy/Pilotage/Tugs is obtained, a second vessel can be taken at the entrance, up to 2 hours after high tide, providing its draft is 12.80 m. or under and beam 39 m. or under.

If tugs have to be changed during the entry manoeuvres of 2 large vessels, the Master of the vessel using the tugs must be warned in advance by a message from the Captaincy.

At Night:

Before high tide (HW −3 hours). Length 250 m. or under – max. draft 12 m. Beam 39 m. or under.

After high tide (HW +2 hours). Length 250 m. or under – max. draft 12.50 m. Beam 39. m. or under.

SAILING:

If length 251 m. or over and beam 39 m. or over, register for sailing between 1 hour before sunrise and 1 hour after sunset, except for berth AP 1, vessel with bow facing West, where the limit is 2 hours before sunset.

From tide-coefficient 95 onwards (h=5.85 m.) no registration required between HW – 3.5 hours and HW – 0.5 hours.

If the length is between 250 m. – 251 m. and beam is under 39 m. sailing registration possible from 0500 to 2200 hrs. (Summer and Winter) except for tankers, where length is still limited to 250 m. and beam under 39 m.

If length is under 250 m. and beam is under 39 m. sailing registration day and night without restriction.

VIA WATIER LOCK:

Passage prior to high tide: Max. draft 11.50 m. – beam 32 m. or under.
Passage after high tide: Max. draft 11 m. – beam 32 m. or under.
Max. length (before or after HW).

By Day: Length 230 m. or under with no vessel at Mole V. Length 220 m. or under with vessel at Mole V.

By Night: Length 220 m. or under with no vessel at Mole V. Length 210 m. or under with vessel at Mole V.

VIA TRYSTRAM LOCK:

Max. draft 8 m. – beam 22 m. Length 150 m. or under on leaving port, Tixier Lock pumps stopped on Pilot's request. Length 140 m. or under on entering port, Tixier Lock pumps stopped on Pilot's request.

BP BERTHS:

By day and by night, on direct entry or with tow relinquished: Length 250 m. or under. Draft 12.50 m. or under (this can be extended to 12.80 m. max. dependent on water level in basins).

DRY DOCK 6 – DOVER – PANAMA QUAYS:

Large vessels may manoeuvre in good visibility and wind less than Force 5 Beaufort.

Max. dimensions of vessels admitted to dry dock 6:

Length 280 m.×beam 44 m.×draft 6.50 m. Bow/8.5 m. Stern. (After improvement of access defences in Dock 6 – 290 m. × 44 m. will be possible).

On Relinquishing Tow: Entry and sailing registration on Dock 6:

By day, registration from sunrise less 1 hour to sunset less 2 hours for vessels length 251 m. or over and beam 39 m. or over.

Registration from 0500 hrs. to 2200 hrs. if length between 250 m. and 251 m. and beam under 39 m. No limit on registration time if length is 250 m. or under and beam is under 39 m.

Entry direct of vessels length over 250 m. and/or beam over 39 m.: passage to jetties when daylight fading – latest time 2 hours before sunset.

Direct sailing to sea from Dock 6 of vessels length over 250 m. and/or beam over 39 m.: Registration 3 hours before sunset.

Note: Mole V, Eastern section, must be clear for vessels of length over 250 m. swinging in front of Dry Dock 6, Dover and Panama Quays, and Watier Amont Quay free for passage of vessels of length over 250 m. via Brocquaire Channel.

RECOMMENDED DRAFTS FOR SAILING OR TOW RELINQUISHING MOVEMENTS

Length	150 m.-180 m.	180 m -205 m.	205 m.-230 m.	230 m.-280 m.
Draft	B 5 m.-S 6 m.	B 6 m.-S 7 m.	B 7 m.-S 8 m.	B 9 m.-S 10 m.

B=Bow, S=Stern. (except for repairs)

Western Port:

FLANDERS TANKER BERTH:

In Normal conditions of Dredging – Entry: Passage to jetties from sunrise to 1 hour before sunset.

Before high tide (3 hours before HW at Dunkirk East). Coefficient under 80 draft 20.50 m. Coefficient over 80 draft 20 m.

After high tide (HW at Dunkirk East plus 2.5 hours). All coefficients draft 22 m.

Tugs must be present at "DW 13/DW 14" 45 minutes before theoretical time of passage to berths of the tanker they are serving.

Theoretical Number of Tugs:

D.w.t.	D.w.t.	No. of tugs	
under	125,000	3	According to Pilot's request
125,000 –	175,000	4	According to Pilot's request
175,000 –	250,000	5	According to Pilot's request
250,000	and over	5 or 6	According to Pilot's request

Sailing: Sailing registration from 1 hour before sunrise to 1 hour before sunset.

With coefficient over 95, no sailing registration from HW – 3 hours to time of HW. The interval between registration time for sailing of a tanker from the Flanders Tanker Berth at the time of passage to the jetties of an incoming tanker must not be less than 4 hours.

Recommended draft on sailing:

Length 280 m. or under	Length over 280 m.
8 m. bow/9 m. stern	9 m. bow/10 m. stern

No. of tugs to be used:

D.w.t. under 150,000 tons – 3 according to Pilot's request.
D.w.t. over 150,000 tons – 4 according to Pilot's request.

Note: Wherever possible, between buoys DW 14 and DW 16, large vessels leaving Dunkirk East should not cross tankers entering Dunkirk West.

OPERATION OF S.F. BP OIL BASIN BERTHS:

North BP Berth:

Max. draft 12.5 m.	Length 250 m.
Max. distance stern/connection	127 m.

Middle BP Berth:

Max. draft 12.5 m.	Length 245 m.
Max. distance stern/connection	122.5 m.

South BP Berth:

Max. draft 10.5 m.	Length 230 m.
Max. distance stern/connection	120 m.

Coaster Berth – North Face:

(a) West Part, from Bollard 2.5 to Bollard 7 (quay length 80 m.) – Max. draft 6.5 m.

(b) East Part, to the East of Bollard 7 (length of quay 90 m.) – Max. draft 7.5 m.

Max. length of vessels admitted to coaster berth is 120 m. with a draft of 6.5 m.

Coaster Berth – South Face: Solely reserved for river traffic.

Bunker Berths: Reserved for bunkering craft.

Note: The drafts shown correspond to a minimum water depth in the basins of 5.3 m.

At all BP berths, vessels are positioned bow facing West.

Simultaneous usage of BP North and Middle Berths is only possible, under normal conditions, if the total beam of the 2 vessels in question is less than 70 m., otherwise the manoeuvring of these vessels, both on entry and sailing, can only be envisaged by day and in fine weather.

Vessels of larger dimensions than those covered by this note can be admitted to the following berths only after prior study and subject to special conditions of draft, berthing and securing cables, etc.

Overflow rafts: See Article 412 of Permanent Instruction No. 57.

Max. length of vessels, with draft of 12.5 m. transitting Brocquaire Channel is fixed at 250 m.

HEALTH: For ships coming from *(a) All European Countries:* Declaration of Health is not obligatory but general International Certificates are controlled. *(b) Other Harbours:* Admission subject to Declaration of Health and usual controls of certificates. Admissions in free pratique only in daytime except special cases (intervention of a physician). Request for free pratique may be made to Sani-Port, Dunkirk, through Boulogne Radio. In case of necessity, health service can – on request – intervene at night.

RADIO: Dunkirk Harbour Station (FFF), VHF call sign "Dunkerque Port", for messages about port service through VHF Channels 73 and 16. Communications other than in VHF made through Boulogne Radio (FFB).

VHF: Dunkirk Port Station maintains continuous watch on VHF, Channels 73 and 16.

RADAR: There is radar at the control tower of harbour. It is not a guiding radar.

TUGS: Tugs normally join vessel between buoys DW.28 to DW.30 and DW.16. Smaller vessels are joined by tugs in the outer port.

On departure tugs must be ordered with a 2 hour notice for Dunkirk-East and a 4 hour notice for Dunkirk-West. Moreover, for manoeuvring between 1900 hrs. and 0700 hrs. tugs must be reserved before 1600 hrs. and ordered before 1800 hrs.

It is possible to cancel or delay any order for tugs, without indemnity, provided this request is done with a 1 hour (daytime) and 2 hours' (night-time) notice for Dunkirk-East, with a 2 hours' (daytime) and 4 hours' (night-time) notice for Dunkirk-West.

Also see "Restrictions".

BERTHING: Berthing priority is decided by Port Captain's office. Vessel is informed by radio of the location and priority given to her.

Mobile Cranes (Port Services): 1 at 6/10 tons and 2 at 17/36 tons. Possibility of mobile cranes from other yards.

BRIDGES: Bridges of locks and wet docks are closed to navigation for short periods to allow trains or work hands to go. The maritime traffic is practically never disturbed.

BULK HANDLING FACILITIES: Bulk Quay No. 1, formerly known as the ore quay. Equipped with 3 gantry cranes. Principally used for iron ore destined for Usinor Dunkirk and Usinor Valenciennes. There is a loader for clinker at the Western part of the Quay.

Bulk Quay No. 2, a common quay with 2 berths belonging to the Dunkirk Port Authorities. Equipped with 2 polyvalent iron ore/coal gantry cranes. This quay is accessible for largest ships able to enter the port. Used to discharge coal destined for the Usinor coke mill, also receives coal for other operators, manganese ore and all iron ores for receivers other than Usinor.

Bulk Quay No. 3, an extension of the Usinor Quay for iron ore cargo. Equipped with 3 gantries of 50 tons capacity. Permissible draft 14.20 m.

Phosphate Quay, situated West of Bulk Quay No. 2. Berth is 600 m. long with a min. depth alongside of 14.8 m. Bulk carriers of 80,000 d.w.t. with a draft up to 14.2 m. can be accommodated.

Unloading equipment consists of 3 cranes with grabs, each with a max. discharge capacity of 565 t.p.h.

Cereal berth is accessible to 80,000 d.w.t. ships. Along its internal face, coasters, lighters and 3,000 ton pushed convoys can be tied up. Handling operations are secured by 2 pneumatic gantries at a max. rate of 600 t.p.h.

Sugar is handled at Freycinet No. 9 silo capacity 83,000 tonnes.

CONTAINER FACILITIES: *Dunkirk-West:* Quai de Lorraine and Quai de Flandre. Total length 1,200 m. equipped with 4 container gantry cranes capable of lifting 45 tons on spreaders for 20 ft.–40 ft. units.

ROLL-ON/ROLL-OFF FACILITIES: *Dunkirk-West:* Quai d'Alsace is equipped for direct transhipment of vehicles, trailers and wagons. Quai de Lorraine and Quai de Flandre are provided with movable steel ramps for direct transhipment of vehicles and trailers.

Dunkirk-East: Quay Freycinet VII, the berth South of Freycinet VI, has been provided with a fixed ramp for roll-on/roll-off for ships up to 8 m. draft and 22 m. beam, and Quay Freycinet XIII, South part, is fitted with a fixed ramp for ships up to 12.50 m. draft.

OIL TANKERS: The following tanker berths are available:
West Port: Flanders Oil Berth: max. draft 22 m. Discharge lines to Total Refinery, and to the B.P. Refinery. The access channel has been dredged to a depth of 22 m. at L.W. The turning circle at the entrance to the Outer Port West has a diameter of 1,400 m. Max. discharge rate 20,000 cu.m./hr.

East Port: S.F.B.P. Oil Dock: North wharf, max. draft 12.50 m. Loading/discharging pipes 26 in. diameter, bunker line 10 in. diameter.

Middle wharf North, max. draft 12.50 m. Loading/discharging lines 2 of 22 in. and 3 of 16 in. lines, bunker line 16 in. diameter.

Middle wharf South, max. draft 12 m. Dimensions of lines as for Middle wharf North.

Coasters Wharf, max. draft 7.50 m. Diameter of loading/discharge lines 6 in.

Bassin de Mardyck Oil Port: Appt C.F.R. – Poste Est. Max draft 12.50 m., Poste Ouest draft 14.20 m.

Facilities for discharge of dirty ballast are available at all main tanker berths.

Stocknord Pier: Pier of length 440 m. with 4 platforms.

P.1 – For barges only.

P.2 – For barges and coasters up to 85 m. length and 8.50 m. draft.

P.3 – Oil and Gas. For vessels up to 280 m. length and 14.20 m. draft.

P.4 – Gas only. Max. length 160 m. and draft 10.3 m.

C.P.A. Quay: Berth at Mole V. Mainly for Fuel and Vegetable Oil. For vessels up to 250 m. length and max. draft 9.60 m.

GAS TANKERS:
Appt. C.F.R.: Bassin de Mardyck: 1 berth for butane and propane. East side of pier for vessels up to 11.60 m. draft.

Stocknord: Bassin de Mardyck. The total length of the quay is 440 m. with a width of 30 m.

Alongside this quay, are berths or platforms P1, P2, P3 and P4.

P1: Oil only.

P2: Oil only.

P3: Coasters of 90 m. LOA and tankers of 280 m. LOA, d.w.t. 100,000 tonnes on East side of pier.

P4: Coasters LOA minimum 60 m. and gas-carriers of LOA max. 160 m., max. d.w.t. 10,000 tonnes on West side of pier.

Products: LPG, ethylene, FR and PP.

P3 can take LPG products and chemical products: vessels up to 280 m. length.

Distance from P3 to storage areas: approx. 800 m. with a 10 in. line. Nitrogen in gas-form available on site (2 in. and 3 in.).

P4 is for vessels of LOA 160 m. max. with a d.w.t. of 10,000 tonnes, and a max. draft of 10.3 m. Beam – no limits.

Products: LPG, derivates, propylene, ethylene, butadine. 10 in. lines and arm flanges of 8 in. ASA 300. Products can be refrigerated or at ambient temperature.

Connection with P3 and with the storage areas.

Nitrogen in gas-form on the quay (2 in. and 3 in.).

Length of platform: 25 m. Width of platform: 12 m. Height above water line: 5 m.

Loading and discharge by 8 in. Luceat arms.

Tidal movement at the quay is minimal: approx. 1.0 m. min./max. Predominant winds from the West.

Transhipment from vessel to vessel can take place at berths P3 and P4 by connection line between the two berths.

The possibility of transhipment with a first vessel berthed and a second connected to it is accepted. For this to happen:

1. Advise the authorities minimum of 24 hours before the operation.
2. A technician must be on hand.
3. The owner must supply hoses and defences.
4. Port rights and occupation of the quay is to be discussed with the owner.
5. A tug must be available for both vessels.
6. If the wind is blowing above force 5, the operation must be stopped and the connected vessel must go out to the roads with Pilot and tug, if the quay which can accept the type of vessel is not free.
7. Transhipment from vessel to vessel via connection lines from berth P4 and berth P3. If during this operation a priority vessel must at all costs berth, the operation of transhipment must be stopped and one of the vessels must connect up to continue the operation or go out into the roads (Pilot and tug necessary).

Port Entry: It must be emphasised that the depth of water at the port entrance towards the Mardyck basin at Charles de Gaulle lock, foreport East is 14.20 m. max. with a beam of 44 m.

Storage facilities: At approx. 800 m. from the Stocknord quay. 2 LPG – Propylene storage points of around 3,500 cu.m. each take propane for the account of the company CDF Chimie. They have a service pressure of 15 kg/sq.cm. and a temperature of −10°C.

From these 2 facilities, it is possible to load/discharge to and from lorries (18 tonnes) or trucks (45 tonnes).

Consumption of vapocracker (set for between 300 tonnes and 500 tonnes per day) is with the use of propane and naphtha.

List of storage points at Stocknord:

2×3,500 cu.m.	Propane–butane–Btd–propylene operating pressure 15 kg/sq.cm. Minimum temperature −10°C.
1×17,000 cu.m.	C2
1×17,000 cu.m.	C3
1×9,000 cu.m.	C4
8×6,000 cu.m.	Essences
9×6,000 cu.m.	Pyrolised essences
6×20,000 cu.m.	Naphtha, gasoil, diesel and fuel oil
2×2,000 cu.m.	(drums) chemical products
1×1,000 cu.m.	(drums) chemical products

Trains–trucks: Stocknord can hire, load, discharge trucks or lorries.

By truck: convoys of 1,000 tonnes of all products and throughout France.

By lorry: 15–20 tonnes LPG–ethylene, etc.

By truck: 45–50 tonnes each, filling in groups of 6; for each group of trucks filling takes approx. 20 minutes for all liquid products.

Nitrogen: Possibility of degassing at berths P3 and P4 (from 800 to 1,000 cu.m. per hour of nitrogen in gas-form).

Heater: Currently, there is a propylene land-based heater (350 cu.m./hour) of the steam type working from −47°C to +5°C.

This heater can be connected to the lines of the new propane storage facilities: time involved, approximately 1 month.

STEVEDORES: Each Master will contact his consignee.
MEDICAL: Hospitals and all medical facilities.
DENSITY: Salt.

FRESH WATER: Available in unlimited quantities. Numerous hydrants on all wharves.

FUEL: Supplied by barges or tank lorries if no connection at wharf. Fuel, diesel and gas oil available. Requests for bunkers must be made 48 hours in advance to Agents.

FIRE PRECAUTIONS: The preventive measures are taken for tankers are those of the I.M.O. recommendations. Rounds of the port officers. Ship's Master is given instructions of the harbour concerning tankers if necessary when filling the I.M.O Checklist. In case of storm, the Harbour Officer can stop loading or discharging.

GANGWAY/DECK WATCHMEN: Guarding is strongly advised.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES:
- Certificate of Nationality.
- International Certificate of Tonnage.
- Certificates from the Classification Office where ship is registered, especially:
- Certificate of Freeboard.
- Classification Certificate, engine and boiler.
- Classification Certificate, hull.
- Classification Certificate, electric equipment for tankers.
- List of Hoisting Apparatus.
- Derat Certificate.
- TOVALOP Certificate or similar for tankers.

CUSTOMS ALLOWANCES: Tobacco: Amount allowed for each member of crew: 200 cigarettes or 200 gramme tobacco. Wine and/or Spirits: 1 bottle.

IDENTIFICATION CARDS: An official identity certificate is compulsory ashore (passport, identification card, seaman's book, etc.).

CONSULS:
- Belgium
- Brazil
- Denmark
- Finland
- Germany
- Gt. Britain
- Greece
- Italy
- Luxembourg
- Netherlands
- Norway
- Portugal
- Spain
- Sweden

REPAIRS: All repairs possible.

Quai de la Mature	−1.50	90	

STEVEDORES: Informed by Agents (available).

CRANES:

Mobile Cranes: 1×180 tonnes, 3×40 tonnes, 2×160 tonnes.

Electric Cranes: 2×6 tonnes, 4×3 tonnes, 1×500 tonnes.

MEDICAL: Notice not required for medical attention. Doctors and hospital always ready.

FRESH WATER: Available from shore (pipes each 50 m. on quay).

FUEL: No fuel in port. Available only by lorries for bunkering.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: By crew.

CERTIFICATES: In accordance with international regulations:
- Load Line.
- Radio Equipment.
- Safety Equipment.
- Derat, etc.

CUSTOMS ALLOWANCES: About 200 cigarettes per man; wine/spirits at Customs Officer's discretion.

IDENTIFICATION CARDS: Not required.

CONSULS:

Consulate of Norway	tel. 28.00.08.
Vice-Consulate of Denmark	tel. 29.22.86.

REPAIRS: Possible.

DRY DOCKS: 1 slipway for vessels of maximum 1,500 tons displacement, total available length 75.60 m.

Max. water height in dock: 7.50 m. dredged down to minus 2.50 m.

Max. forward draft for access: 1.80 m.

REPATRIATION: Agents carry out these operations.

AIRPORT: Paris is the nearest.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: Arrangements for working during holidays can be made if necessary.

POLICE/AMBULANCE/FIRE: Police, tel. 0.17 and 28.06.68; Ambulance, tel. 28.31.91 and 28.09.59; Fire, tel. 0.18.

TELEPHONES: No arrangements for placing telephone on board.

SERVICES: No possibilities for tank cleaning, etc. Compass adjusting available if necessary.

SHORE LEAVE: Always possible for crew members to go ashore.

AUTHORITY: Chambre de Commerce et d'Industrie de Fecamp, Palais Consulaire. 2 Place Bellet, B.P. 126, 76400 Fecamp. *Tel:* (35) 28.00.99. *Telex:* 190452. *Contact:* J. Saunier, Director General of Services. J. York, President.

Port Authority: 16 Grand Quai, 76400 Fecamp. Tel: 28.23.76.

Port Office: Passe Gayant, 76400 Fecamp. Tel: 28.25.53.

GRANVILLE: 48.50 N. 01.37 W. (See Plan Book)

DOCUMENTS: See "Calais".

PILOTAGE: Pilotage not compulsory for ships of less than 45 m. length, except for those carrying dangerous cargo. Pilots board from fishing boats carrying regulation marks of a pilot boat, and maintain position at Videcoq buoy when a vessel is expected.

Limits of Granville pilotage are: 1. On entering, towards the West, the line joining "la Pierre d'Herpin", and Chausey lighthouse. To the North, alignment of Chausey lighthouse and "le Pignon". 2. On leaving, alignment of Mont. St. Michel through Champeaux Point. Ships bound Granville required notify ETA 18 hours in advance.

Telegraphic address: Telex 170002 SCAC Granville – Ship's Agency – Handling. Telex 170777 Monsieur LeFranc, Marine Broker.

1.5 hours before to 1.5 hours after high tide contact with Port Officer (tel. 50.12.45 and 50.17.75 Granville) can be established by relay through "Coastal" Stations. During same hours contact can be made with pilot boat and with Port Office by VHF Channel 12 (port wave band 156.6).

ANCHORAGE: At landfall buoy of Le Videcoq.

RESTRICTIONS: Draft restrictions apply at neap tides. Width of Lock – 20 m. Length – 40 m.

MAX. SIZE: Vessels 115 m. long, 18 m. wide and with a max. draft of 7.50 m. may enter the tidal basin during 6 days, twice a month with effect from a tidal coefficient of about 80.

For a vessel of this size, it is recommended to give advance notice of arrival as far ahead as possible at the commencement of tides with a coefficient of 80.

Entry of a deep draft vessel may make it necessary to close the tidal basin more quickly after high tide.

Speed in the channel, the fore port and the tidal basin is limited to 5 knots.

HEALTH: Pratique arranged by Customs.

RADIO: Boulogne Radio for ships coming from the North. Brest-Le Conquet Radio for ships coming from the South.

TUGS: Port not equipped with tugs. Pilot boats used as "pushers" for port manoeuvres, or for carrying hawsers to tying-up points.

BERTHING: Determined according to nature of cargo.

Tidal Basin: 3 electric cranes (2 × 7 tons and 1 × 6 tons) serve the South quay, and 1 × 10 tons serves the North and East quays.

Open areas, warehouses and storage silo capable of receiving all goods in bulk, bags or packages.

Internal transport: rail and road.

Fore Port: Open area and mobile cradle capable of hauling up vessels up to 100 tons. 1 × 5 ton crane on cradle. Repair yards.

West Quay: Between tidal basin and fore-port – solely for fish discharge and auction. Quay to be lengthened by 110 m. and widened by 14 m.

STEVEDORES: Work hours 0800/1200, 1400/1800. Overtime possible.

HOLIDAYS: See "Calais". Local holiday, Mardi Gras afternoon.

MEDICAL: Hospital available. Tel. 50.11.37. Also Medical Centre.

TANKERS: 2 berths for unloading domestic fuels through 8 in. pipes.

DENSITY: 1025.

FRESH WATER: Available at all quays, international connections.

FUEL: Available from tanker lorry to commercial vessels at 48 hours notice.

OPENING/CLOSING HATCHES: Carried out by crew.

GANGWAY/DECK WATCHMEN: Available on request.

CUSTOMS ALLOWANCES: Tobacco. 200 cigarettes. Wines and spirits. 1 bottle spirits.

CONSULS: None.

REPAIRS: Possible. Also radio repairs.

REPATRIATION: Paris, 3.5 hours by train.

AIRPORT: 10 km. from the port at Breville. Air-taxi and commercial flights.

TIME: Local Time GMT plus 1 hour in Winter and GMT plus 2 hours in Summer (1st April – 1st October).

POLICE/AMBULANCE/FIRE: Police Tel. 50.11.16; Fire Service 18; Ambulance 50.11.37.

GENERAL: Marina with 1,050 berths at Herel. Max. length 15 m. Max. depth available 2.75 m.

AUTHORITY: Le Commandant de Port, Port de Granville, Terre-Plein de L'Ecluse, 50400 Granville, France. *Tel:* (33) 50.17.75 or 50.12.45. *Contact:* R. Ragel, Port Officer.

HONFLEUR: 49.25 N. 00.14 E. (See Plan Book)

DOCUMENTS: See "Rouen".

PILOTAGE: Served by "Pilotage de la Seine" (address: 9 Chaussee Kennedy, 76 le Havre). Ships bound for Honfleur are received on the Carosse Roads (Rade de la Carosse) where the following signals should be made for summoning a Pilot. By day – flag "G" of the international code of signals. By night – in Morse by signalling lamp.

Complementary signals which can be used on arriving on the roads. By day – globe or ship's national flag hoisted at masthead. By night – red light at main masthead. At all times, sound signal of 5 long blasts.

Advice of ETA and draft in salt water is to be given to Rouen Port at least 5 hours prior arrival roads, as well as to Agent.

Similarly, vessels anticipating a delay of more than 2 hours after their reported ETA should notify Rouen Port or the pilot boat of this at least 3 hours before the time originally reported.

Before arriving on the roads, ships should call pilot station "Rouen-Pilot" which keeps a permanent VHF watch on Channels 16 and 11.

A Pilot is obligatory for every ship of more than 55 m. length.

RESTRICTIONS: Access to port made through channel 100 m. wide, protected by 2 dykes about 500 m. long, which leads to outer harbour. A tidal port, Honfleur possesses 3 basins:

Dock	*Length*	*Width*	*Sluice width*
West Dock	128 m.	77 m.	10.50 m.
East Dock	295 m.	71 m.	16.50 m.
Carnot Dock	788 m.	108 m.	13.00 m.

East Dock joins outer harbour: ships of more than 70 m. long must anchor in Carnot Dock which spans from East.

MAX. SIZE: Port can receive ships 100 m. long and 15.50 m. wide berthing in East Dock; but with Carnot Dock, only ships less than 12.50 m. wide can enter. Drafts vary according to tides: 6.00 m. with average spring tide, 4.70 m. in average slack water, and subject to variations because of silting up of harbour which necessitates frequent dredging.

HEALTH: Bill of Health is under the jurisdiction of Customs office of Honfleur. Hospital nearby.

RADIO: Boulogne Radio, Brest Radio or St. Lys Radio. A permanent watch is maintained by Rouen Port on Channel 16 and 11. Disengagement frequency after call on Channel 16 is Channel 71.

TUGS: If necessary are provided by "La Societe des Abeilles" of Le Havre.

BERTHING:

Name	*No. of Berths*	*Depth (m.) Neaps*	*Depth (m.) Springs*	*Equipment*	*Remarks*
Bassin Republique Quai Nord	3	5.10	6.27	Rail track 1×6 ton crane on rails	2 Berths equipped with pipeline

Quai en Seine	1				

1 "Richier" crane on tyred wheels available for use in the Port. Capacity: 30 tons at 3.50 m., 3.5 tons at 15 m.

TANKERS: Berth "Miroline" on dolphins in River Seine for tanker of 35,000 tons eventually after lightening according to the depth conditions.

FRESH WATER: Available. Supplies arranged through Agent.

FUEL: Supplies arranged through Agent.

AIRPORT: 12 km. from Port.

AUTHORITY: H. Pincon; Ingenieur Divisionnaire des T.P.E., La Lieutenance, BP 45, 14600 Honfleur. *Tel:* (31) 89.20.02. *Telex:* 170196. *Note:* Harbour Master at same address.

ILE ROUSSE: Corsica: 42.39 N. 08.56 E.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Provisions List.
1 Cargo List.
1 List of Articles (new and Customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
1 Health Declaration.

PILOTAGE: Not compulsory.

ANCHORAGE: Outside of port for cruise vessels.

RESTRICTIONS: None.

MAX. SIZE: Draft 5 m; length 160 m.

RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.

TUGS: None available.

BERTHING: Depths alongside 2.0 m. – 6.0 m.

STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.

CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.

FRESH WATER: Available at very slow pumping rate.

FUEL: Not available.

REPAIRS/CONSULS: None.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

AUTHORITY: Bureau du Port de Commerce, Ile Rousse, Corsica. *Tel:* (95) 60-00-68.

LA CIOTAT: 43.10 N. 05.36 E. (See Plan Book)

PILOTAGE: Chantiers Navals de La Ciotat (C.N.C.). have 2 Pilots.

ANCHORAGES: Good anchorages available in La Ciotat Bay. Anchoring in the harbour is forbidden.

APPROACHES: La Ciotat Bay is situated between Toulon and Marseilles. The bay is sheltered from North and N.W.'ly winds. The "Bec de L'Aigle", height 155 m., makes an easily recognisable landmark for the approach to the harbour.

The entrance channel to the harbour has a depth of 7 m.

MAX. SIZE: Largest vessel 380 m. long, 60 m. beam and 7.5 m. draft.

VHF: Signal station keeps watch on Channel 16 from 0630 – 2100 hrs.

TUGS: 2 tugs of 180 h.p. and 200 h.p.; tugs also available from Marseilles.

BERTHING: Harbour is formed by 6 moles. Depth in harbour varies from 1.32 m. to 7.62 m., vessels drawing up to 7.31 m. can enter. Total quayage 1,610 m. There are two basins near the main harbour specially equipped for pleasure craft.

CRANES: Electric cranes: 1×250 tonnes, 1×120 tonnes, 1×50 tonnes, 2×40 tonnes, 1×20 tonnes, 3×6 tonnes and 1×5 tonnes. One floating crane of 80 tonnes. All cranes belong to C.N.C.

MEDICAL: Private clinics and local hospital available.

FRESH WATER: Available from C.N.C.

FUEL: Available.

DRY DOCKS: Building Dry Dock: 360 m. × 60 m. × 9 m.

No. 1 Slipway: 228 m. × 39.30 m. with lifting apparatus for 7 – 150 tonnes.

No. 2 Slipway: 172 m. × 31 m. with lifting apparatus for 5 – 150 tonnes, one 660 tonne gantry crane and one 500 tonne gantry crane.

AIRPORT: Marseilles (Marignane) 55 km. away.

POLICE/AMBULANCE/FIRE: Police – Tel: (42) 839000. Fire – Tel: 18.

AUTHORITY: Capitainerie du Port de la Ciotat, Mole Berouard, 13600 La Ciotat. *Tel:* (42) 084384. *Contact:* H. Carcassonne, Harbour Master.

LA NOUVELLE: 43.01 N. 03.04 E. (See Plan Book)

DOCUMENTS:
1 Passenger List.
4 Crew Lists.
2 Stores Lists.
1 Cargo Manifest.
Bill of Health.
Safety Certificates.

PILOTAGE: Vessels call Pilot on VHF Channels 15 and 16. 3 pilot boats available. International Code pilot signals used.

MAX. SIZE: For port entry: Length 140 m., beam 20 m., draft 6.50 m. Tanker sea line: Max. draft 18m.

HEALTH: Pratique is given by Customs Officers who board vessel on arrival. In case of suspected disease on board, Master should radio Agents advising details before arrival.

TUGS: Not available. There are several launches to assist in mooring.

BERTHING: Effected in the order in which vessels arrive. Specialised berth for Roll-on/Roll-off available.

STEVEDORES: Arranged by consignees.

MEDICAL: Doctors available at La Nouvelle. Nearest hospital is at Narbonne, 27 km. away.

TANKERS: 1 sea line berth at buoys in depth of water greater than 18 m. 4 dolphin berths in the oil dock, max. draft 7.00 m. One of these berths is used for LPG cargoes. No slop disposal facilities.

DENSITY: 1025.

FRESH WATER: Supplied at all town berths.

FUEL: Available from several suppliers.

FIRE PRECAUTIONS: Usual safety regulations strictly applied. A barrage can be positioned across the channel to contain burning oil.

OPENING/CLOSING HATCHES: Optional, performed by stevedores or crew.

CUSTOMS ALLOWANCES: Each crewman allowed to retain only sufficient for his own consumption while in port. It is forbidden to take alcohol ashore.

IDENTIFICATION CARDS: Any person going ashore should carry a passport or identity card.

CONSULS: No local representation.

REPAIRS: Not possible ashore, except very minor ones.

REPATRIATION: No difficulties.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: In principal, no work done on legal holidays.

POLICE/FIRE/AMBULANCE: Police, tel. 480011; Fire, 480017; Ambulance, 480011.

TELEPHONES: No connections can be made on board.

SHORE LEAVE: No restrictions.

AUTHORITY: Ponts et Chaussees, Service Maritime, 34 Avenue de la Mer, 11210 Port la Nouvelle. *Tel:* (68) 48.00.37.

AGENT: See "Marseilles".

LA ROCHELLE/LA PALLICE: 46.10 N. 01.14 W. (See Plan Book)

DOCUMENTS:
4 Cargo Manifests, or Manifest of Ballast.
Certificate of Cargo Space.
3 Bills of Lading.
Ship's Provisions List.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Certificate of Crew Personal Effects.

PILOTAGE: Access from sea is through Pertuis d'Antioche, the strait between Isle of Re and Isle of Oleron. Pilotage compulsory for all vessels over 55 m. length. Pilot launch named *Armeria*, meets vessels at Chauveau Buoy in position Lat. 46° 06′ 05″ N., Long. 01° 16′ W. Contact Pilot via VHF Channel 16, 2 hours before arrival. ETA should be given to Agent 12 hours before arrival.

Vessels which do not receive berthing instructions on arrival should wait in the vicinity and South of Chauveau Buoy, keeping watch on VHF Channel 16.

ANCHORAGE: Vessels which do not receive berthing instructions on arrival should wait at anchor in the vicinity and 0.5–1.0 miles South of Chauveau Buoy. Keeping watch on VHF Channel 16.

Tanker Anchorage: Lat. 46° 05′ N., Long. 01° 15′ W.

RESTRICTIONS: Vessels in excess of 360 ft. length can enter Inner Basin only from 2 hours before to 1 hour after high water. Loaded tankers over 5,000 d.w.t. may enter tidal harbour in daylight hours only.

MAX. SIZE: Oil Pier: 120,000 d.w.t. Draft 53 ft. Outer pier mole, draft 30 ft.-40 ft. Tidal harbour, length 560 ft., draft 29 ft. Wet dock (inner basin), max. beam 69 ft., draft 25 ft. 6 in. neaps, 30 ft. springs.

HEALTH: Pratique given by Customs Officers who board on arrival. In case suspected disease on board, radio Agent in advance advising details.

RADIO: Bordeaux-Arcachon Radio.

TUGS: Join vessels either in outer roads or inner roads of La Pallice. Normally tugs' lines are used.

STEVEDORES: Normal working hours for stevedoring are: 0800 to 1200 hrs. and 1400 to 1800 hrs. 2 hours overtime may be worked from 1800 to 2000 hrs. When a quick despatch must be given to a vessel, an 8-hour shift can be arranged, from 0500 to 1300 hrs. and 1400 to 2200 hrs. during the week, and 0500 to 1300 hrs. on Sundays and holidays.

MEDICAL: All facilities available. Advance notice should be given if assistance required on arrival.

TANKERS: Only refined products are discharged at La Pallice.
1. Oil berths situated at South of Outer Mole.
West Side: Metal loading arm. Petroles de L'Ouest – 12 in.
Picoty – 16 in.
East Side: Metal loading arm. Petroles de L'Ouest – 10 in.
Picoty – 12 in.
2. Oil berths at North quay in tidal harbour in depths of 26 ft.
Raffineries du Midi: Pipe-line of 250 mm. diameter, hoses 200 mm. diameter.
Petroles de L'Ouest: Pipe-line of 300 mm. diameter, hoses 250 mm. diameter.
Total: Pipe-line of 200 mm. diameter, hoses of 150 mm. diameter.
Essence Aux Armees: Pipe-line and hoses of 200 mm. diameter.

FRESH WATER: Available from all wharves. No barges available. Loading rate from the quay 60-75 t.p.h.

FUEL: Supplied by tank trucks only.

FIRE PRECAUTIONS: Tanker berths are enclosed. Smoking is prohibited on the tanker berths.

OPENING/CLOSING HATCHES: Performed by ship's crew.

GANGWAY/DECK WATCHMEN: Available from shore if required. Necessary for tankers loading/discharging cargo.

CUSTOMS ALLOWANCES: 200 cigarettes and bottle wine/spirits per man.

IDENTIFICATION CARDS: Crewmen going ashore should carry passports or identity cards.

CONSULS:

Denmark	Tel: 41.10.66	Norway	Tel: 42.60.37
Finland	„ 42.60.32	Panama	„ 42.13.44
Greece	„ 42.13.44	Peru	„ 42.13.44
Italy	„ 41.35.94	Spain	„ 41.03.94
Netherlands	„ 34.98.66	Sweden	„ 42.13.44

REPAIRS: All kinds of deck, hull and engine repairs can be carried out by Ateliers et Chantiers de La Rochelle-Pallice.

Vessels not exceeding 21 m. beam may be repaired in the inner basin. Larger vessels are repaired at berths outside the inner basin.

DRY DOCKS: 2 dry docks in Inner Basin: 577 ft.×72 ft. and 351 ft.×41 ft.

REPATRIATION: Can be arranged without difficulty.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: New Year (1st January), no labour available; Easter Sunday, possibility of labour with overtime; Easter Monday, no labour available; Labour Day (1st May), no labour available; Ascension Day, possibility of labour with overtime; Whit Sunday, possibility of labour with overtime; Whit Monday, no labour available; National Day (14th July), no labour available; Assumption Day (15th August), no labour available; All Saints' Day (1st November), no labour available; Armistice Day (11th November), possibility of labour with overtime; Christmas Day (25th December), no labour available.

N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100% extra.

POLICE/AMBULANCE/FIRE: Police Secours 17; Commisariat Central 41.22.44; Ambulance 18; Fire Service 18.

TELEPHONES: Telephones are available at all berths at the mole, and are obligatory for vessels handling dangerous cargo.

SHORE LEAVE: Allowed, no restrictions.

GENERAL: Old harbour at La Rochelle is used only by fishing vessels and pleasure craft.

AUTHORITY: Capitainerie des Ports de La Rochelle, Terre-Plein de l'Ecluse, B.P. 2042, La Pallice, 17009 La Rochelle Cedex, France. *Tel:* 42.60.12. *Telex:* Capipor 791780 F. *Contact:* D. Campion, Le Commandant des Ports.

AGENT: See "Paris".

LE CHATEAU d'OLERON: 45.53 N. 01.11 W.

Very small fishing port on Ile d'Oleron. Entrance to port is 9 m. wide.

BERTHING: Tidal harbour with 350 m. of quayage. Depths alongside from 4.9 m. HW to zero at W.

CRANES: One 2.5 ton crane available.

REPAIRS: Minor repairs only.

AUTHORITY: Monsieur l'Ingenieur Des Ponts Et Chaussees, 17000 Le Chateau d'Oleron *Contact:* B. Mayereau, Harbour Master.

AGENT: M. Le Boutillier, 106, Bd. Emile Delmas, P.O.Box 2038. 17009, La Rochelle-Pallice. Tel: (46) 421344. Telex: 790742 ("Ships 790742 F"). Cables: "Daylight – La Rochelle".

LE HAVRE (Including Antifer): 49.30 N. 00.07 W. (See Plan Book)

DOCUMENTS: At arrival in-bound bill tendered by Pilot to be filled up and signed by Master specifying ship's data and more especially open spaces occupied (shelter) and dangerous cargo on board. After berthing:

The Master must also complete the inwards declaration as soon as the Pilot comes onboard. Any abnormality must be reported to the Port Captaincy.

For Custom's Officers
1 Crew List.
1 Crew Declaration List (personal effects, camera, radio set, cigarettes, cigars, tobacco, etc.).
1 Ship's Store List.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).

For Health Officers
1 Crew List.
1 Health Declaration.
Derat Certificate.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).
Individual International Certificates of Vaccination.

For Custom Broker
1 Crew List.
1 Crew Declaration List (personal effects, camera, radio set, cigarettes, cigars, tobacco, etc.).
1 Ship's Store List.
1 Certificate of open space occupied by cargo.
1 Passengers' Manifest (disembarking).
1 Baggage Manifest (non-accompanied).
Tonnage Certificate.

For Agents
1 Crew List.
2 Passengers' Manifests (disembarking).
2 Passengers' Manifests (in transit).
2 Baggage Manifests (accompanied).
2 Baggage Manifests (unaccompanied).
2 Dangerous Cargo Manifests and usual cargo documents.

For Immigration Office
1 Crew List.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).

PILOTAGE: ETA to be sent to Harbour Master (see "Radio"). Advisable then to confirm directly either to Pilot boat *Havre de Grace* (call sign FPCJ) or to "Havreport" between 24 and 12 hours before arrival (see "Radio"). Pilot boats have black hull with "Pilote Havre" in white letters on both sides, white funnel with black top stripe, green flag with white anchor on fore-mast. Located off Le Havre channel entrance East of the intermediate landfall buoy (LH). Pilot boat on continuous service, a helicopter is also available.

Vessels may anchor near lighthouse South of entry alignment in good weather and further off in bad weather.

Light or sound signal to be made by vessels requiring a Pilot, letter "G" in morse code.

Pilots also board by twin-screw helicopters. This method is most frequently used to bring the Pilot(s) to large tankers (only during the day), and Pilots are landed either by the craft landing on the deck or being winched down if the vessel has no landing area.

ANCHORAGES: Anchoring forbidden in the channel between both parallels 100 m. South and North of channel and in a zone 1 nautical mile long and 500 m. wide in prolongation of channel.

RESTRICTIONS: Depth in main channel 51 ft. LW. Depth in tidal basin 49 ft. LW.

Main lock entrance to enclosed basins, length 1,312 ft. width 220 ft., depth 49 ft.

Vessels berthing in tidal docks (Bassin Theophile Ducrocq) dependent on tide if draft in excess of 30 ft.

Quinette de Rochemont Lock open from 2 hours 20 minutes before high tide until 40 minutes after. During this period vessels of max. length 210 m. and max. breadth 26 m. may pass through. Otherwise max. length authorised is reduced to 180 m. In some circumstances some locks are completely closed around low tide.

CIM Berth No. 10 may receive tankers up to 300,000 d.w.t. with draft varying between 63 ft. and 68 ft. depending upon tide. Such vessels enter only by daylight and must arrive at Le Havre Buoy at least 3 hours before high water.

MAX. SIZE: Tankers: length 1,300 ft., draft (approx.) 65 ft. subject tide.

Berths of Compagnie Industrielle Maritime (C.I.M.): Max. draft recorded 20.73 m. Another vessel with following dimensions has also berthed – length 391.83 m., beam 68.05 m., 423,699 d.w.t.

Antifer (East and West Berths): Max. dimensions recorded: Length 414 m., beam 79 m., 555,051 d.w.t., draft 28.85 m.

Bulk Carriers: 149,949 d.w.t. (coal). draft 17.16 m.

HEALTH: Free pratique automatic for vessels coming direct from Continent or Italy and "Q" flag not to be flown. From other countries including Spain and Portugal usual applies. Free pratique may be obtained by radio message to Sanipor Le Havre specifying name of vessel – where coming from – total number of Crew members, number of Crew members vaccinated (yellow fever, cholera).

Tankers: For tankers it is advisable to ask free pratique by radio in order start operation as soon as vessel berths.

RADIO: Masters of ships are requested to send to Le Havre Harbour Master their expected time of arrival at Le Havre Light Buoy.

The message will be sent through radio stations of: Boulogne-Radio/FFB (working frequencies 1771 kHz and 2747 kHz) or Brest le-Conquet Radio/FFU (1806/2726 kHz).

It will give the date and time GMT of ETA, and the maximum draft. It will be sent about 12 hours before arrival and corrected by another message if necessary. This service is free. Same stations of Boulogne and Brest to be used to contact Agent and in addition Saint Lys/FFL. This ETA must be confirmed to Le Havre Port by VHF, 3 hours before arrival in the roads.

Port operation radio service: The "Havreportradio" station keeps a permanent watch on the following frequencies: 156.6 MHz (Channel 12); 156.8 MHz (Channel 16); 157.0-161.6 MHz (Channel 20 duplex). This station sends and receives all messages for the port operations control.

Ships call "Havreportradio" directly on Channels 12 or 20. Ships arriving, leaving or moored on roads *must keep watch on Channel 16.*

Ships with Pilot on board must keep watch on Channels 12 or 20 from Pilot on board until arrival at berth, and from departure of berth until disembarking Pilot. Havreportradio/FFY keeps watch on 2182 kHz. This frequency will be used only in a radius of 22 miles from Havre Light Buoy and only when it is not possible to use VHF.

RADAR/VHF: Radar assistance may be obtained by calling Le-Havre-Radar on Channel 16 (156.80 MHz). Then working frequencies are Channels 14 and 22. Radar coverage is from 20 km. to the West of the Light-Buoy and 40 km. to the West of Antifer.

TUGS: 17 tugs available, from 1,000 to 4,800 h.p. Normally join vessel inside the jetties in outer harbour. Ship's lines or tug's lines used at ship's option. Extra charge for use of tug's line. 2 tugs are equipped for fire fighting.

BERTHING: Agents generally inform Master by radio of berthing prospects, arrival time limits and any special requirements.

Dock	*Quay*	*Facilities*	*Length* (m.)	*Sea level chart* (m.)

BULK HANDLING FACILITIES: *Minerals:* 8 berths with cranes, outreach 15 m. – 37 m. Able to accept vessels up to 300 m. LOA and 150,000 d.w.t. Depths up to 16.0 m. Discharge rates up to 2,400 t.p.h.

Grain: Quai Hermann du Pasquier for ships up to 28,000 d.w.t. 4 elevators capacity 280/300 t.p.h. Max. LOA 656 ft., max. draft 29 ft. – 36 ft.

Quai Joannes-Coubert: For ships up to 60,000 d.w.t., 2 elevators each 600 t.p.h. capacity. Max. draft 33 ft. – 43 ft.

Quai des Arachides: For ships up to 6,000 d.w.t. Max. LOA 427 ft. Max. draft 24 ft.

Fruit: 7 berths available (2 banana berths). Depths up to 6.30 m. Max. LOA 300 m.

Containers: Quai de l'Atlantique: Length 800 m., 3 berths for large vessels. Depth 12.0 m.

4 gantry cranes of 40 ton capacity with 35 m. extension, at quay's edge. 2 French Railway's gantries for handling on to wagons. 1×7,000 sq.m. shed under construction near to terminal for container groupage and breaking bulk. 16 hectares open air areas. Extensive parking facilities. LASH facilities also available.

Quai de l'Europe: Length 1,800 m. 4 berths for large vessels, 3 of which are equipped to handle roll-on/roll-off traffic.

4 gantry cranes of 40 tons with 40 m. extension, at quay's edge. 1 shed 10,108 sq. m., 1 shed of 7,023 sq. m., already used for groupage and break-bulk of containers and 1 shed of 10,000 sq.m. under construction.

2 S.N.C.F. gantry cranes for loading and unloading of wagons. 45 hectares of open air areas. Extensive parking facilities.

Quai de Bougainville: Actual length 1,540 m. Equipped with 5 gantries for containers of 40 tons.

Roll-on/Roll-off: Four berthing places in the tidal basin, five berths in the wet dock, eight berthing places in the non-tidal docks.

Liquid Chemicals: At the berths of "Societe Normandie de L'Azote", "Sogestrol", and "Petrochimie" along the "Ofrand – Canal du Havre", 7 berths available, depths 0.5 m. – 5.0 m. For vessels of 80 m. – 240 m. LOA and 7,000 – 45,000 d.w.t.

LPG: 4 berths available, depths up to 9.0 m. For vessels up to 75,000 cu.m. and LOA of 240 m.

CRANES: Also see "Berthing".

76 quay cranes of 2.5 tons – 10 tons. 8 jib cranes at depots.

16 rail mounted jib cranes (3 cereals and 13 containers).

9 rail mounted jib cranes for unloading (cereals and minerals).

5 rail mounted jib cranes for loading (cereals and minerals).

4 floating cranes (8 tonnes, 90 tonnes, 125 tonnes and 200 tonnes).

3 mobile cranes (1×25 tonnes and 2×30 tonnes).

1 land derrick of 650 tonnes.

BRIDGES: No special restrictions. Opened upon request. Master will be informed as above in case any bridge stopped for repairs.

STEVEDORES: 2 Normal shifts (0700-1500 hrs. and 1500-2300 hrs.) every week-day including Saturday. Night shift in overtime 2300-0700 hrs. For fruits and reefer cargo and passenger ships possible working 2 hours overtime before morning shift to start at 0500 hrs. subject ordering gang the previous day at 0600 hrs., with 23 hours notice to stevedores. Night gang ordered the same day at 1400 hrs. with 9 hours notice to stevedores (same consequently involves 36 hours and 12 hours notice to Agents for morning and night overtime respectively).

For vessel completing loading/discharging may order 2 hours overtime from 1500 to 1700 hrs. after morning shift or only 1 hour overtime from 2300 to 2400 hrs. after afternoon shift. No possibility of dividing the shift of 8 hours. Consequently time lost between completion of work and end of shift is charged to the vessel at the cost of about Frs. 560.00 per hour (depending upon type of cargo).

No work possible on Sunday and legal holidays nor during night between Sunday or holiday and next working day. Necessary to give Agent soonest possible accurate ETA and hatch partition in order to enable his arranging work at the best, keeping in mind that shift cannot be split.

Work done with shore crane. Ship's derricks used only exceptionally. No hatch tents available from shore.

It is compulsory to put a net under the gangway before starting work, for lack of which stevedores refuse to go on board.

MEDICAL: It is not necessary for Agent to receive advance notice of required medical attention except when Master requests a doctor on board. The Master must after berthing inform Agent of number of patients and nature of disease, name of patient, rank, in order Agent may arrange corresponding appointment with doctors, dentists, specialists, etc. Hospital facilities available provided admission ordered by local doctor.

Inoculation. Yellow fever – effected only at the hospital once per week on Thursdays 1400 to 1500 hrs. Other inoculations may be effected by local doctors (with appointment).

TANKERS: Diameter of connections at different berths of C.I.M.: No. 3, 4 and 5, 10 in.; 6 and 7, 12 in.; 8 and 10, 16 in.

9 additional berths available for refined products. Max. LOA 270 m. (50,000 tons), depth 6.0 m.

Tankers calling first time at Le Havre recommended to inform Agents of position of manifold connection. Slop reception facilities available up to 1,000 t.p.h.

Also see "Report".

Antifer:

The Port of Le Havre – Antifer, attached to the port of Le Havre which covers it administratively, is a port on the coast, located 4 km. South of Cape Antifer, at Saint-Jouin-Bruneval.

It is an oil terminal, designed to accommodate during a first stage vessels of 550,000 d.w.t. and of 28.5 m. draft (Also see "Max. Size").

The port comprises: A breakwater 3,500 m. long protecting the port in its Northern area and starting at Groin Point, 3 km. South of Cape Antifer. A manoeuvring zone. A dry-land area of 35 hectares at the foot of the cliffs intended for hydrocarbon storage and for port operation installations. A 8 hectare service port. A mooring installation with 2 positions for tankers. The oil discharged into storage tanks is pumped away to installations in Le Havre port, by means of a pipe-line of 42 in. dia. and 25 km. long.

Tides and Currents: At Antifer, the influence of the Seine estuary is much less than at Le Havre. The tidal curve is of the sinusoid type, without, however, being perfectly symmetrical. Slack water only lasts a short while (about 20 minutes). With winds from the North to East, there is a drop of about 0.25 m. to 0.50 m. increasing with the amplitude of the swell.

With winds from the South to N.W., passing through a Westerly point, there is either a slight drop (0.15 m.) or a rise corresponding to the extent of swell and sometimes reaching 0.75 m.

Tidal currents are alternating in their direction and generally parallel to the coastline. With Spring tides they reach a speed of 3 knots.

The breakwater protects the port from the action of ebb currents.

Access: Vessels coming into the Port of Le Havre-Antifer will find 35 miles from the coast landfall buoys "A0", "A1" at the limit of the 50 m. depths.

Access is as follows: *An Approach Route* of a width of 3 miles and extending from the landfall buoys "A0" and "A1" on a bearing of 118.5° for 22.7 miles.

A Waiting Area which has the approach route on its Southern edge. It has the form of a trapezium 2 miles in length. The Western commencement of the large base of this area is marked by buoy "A3". It incorporates 2 anchoring areas: the N.W. area for vessels of more than 25 m. draft, and the S.E. area for vessels of less than 25 m. draft. The 2 areas are separated by buoy "A5".

A Connecting Area trapezoidal in shape and 2.5 miles in length, connecting the approach route to the approach channel.

An Approach Channel, 1,000 m. wide, marked on its Northern edge by buoys "A8", "A12", "A14", "A16", "A18", and on its Southern edge by buoys "A7", "A9", "A17". This channel is orientated in the same direction as the approach route on a bearing of 118.5°. Buoys "A7", "A8" and "A9" form at the entry of the channel a triangle easily identifiable by radar.

An Access Channel 3.5 miles long, 700 and then 550 m. wide and on a bearing of 127.5°. It is marked by 4 pairs of buoys: "A19/A20", "A21/A22", "A23/A24", "A25/A26". Its depth is 25 m.

A Separation Area adjacent to and to the South of the access channel, allowing vessels on entering to make a half-turn to come out of the channel and then come if necessary to the waiting area. The centre of this area is marked by buoy "DA".

A Swinging Area sheltered by the main breakwater, marked to the South by buoy "A27", and to the East by buoy "A29". This area is dredged to a depth of 24.70 m.

The conditions of current (direction and force) and the height of the tide determine, in terms of the drafts of vessels, the periods during which the port may be entered, and which are somewhere between full and low tides.

Vessels must, therefore, on leaving the separation area, follow entry instructions given to Masters by the Pilots, with the agreement of the Port Captaincy of Havre-Antifer.

Pilotage: The Pilot is taken onboard in the waiting area in the disengagement area by means of a pilot boat, a launch or the helicopter allocated to the Le Havre pilotage service.

Port: To the North of the swinging area, is the mooring area dredged to 26 m. allowing access to 2 alongside berths which have depths of water of 29.80 m.

The service port is reserved for the mooring of tugs, pilot boats, anti-pollution equipment (booms) and servicing equipment.

Arrival Advice: Masters of vessels destined for Antifer, as well as those whose vessels may enter either Le Havre or Antifer, must send to the Harbour Master of Le Havre a message stating the date and time GMT of their arrival at the Antifer landfall buoys or at the Le Havre lightship and stating the draft of their vessel.

This message must be sent via a coastal station at least 12 hours in advance and confirmed by a VHF message 3 hours prior to arrival at the landfall buoys of Antifer or at the lightship. In return, the vessel will receive from the Havre Port station all information and necessary instructions.

Radio: The Antifer Port Control (call sign HAVRE-ANTIFER) listens out permanently on the following frequencies:

156.8 MHz. (Channel 16)
157.10 – 161.7 MHz. (Channel 22) VHF

If Channel 22 is not available on board the vessel, Channel 14 (156.7 MHz) can be used after having first called up on Channel 16.

Radio communications are used for: Port operations (movements of vessels) and guiding vessels during times of fog.

Radar Assistance: During times of fog, radar assistance is supplied to vessels by the radar located on La Heve lighthouse (guidance provided by the Semaphore Lookout of Le Havre) as well as by the radar of the Oil Terminal (guiding provided by the Captaincy of Antifer from the Buoy "A–16"). Vessels requiring radar guidance must start by requesting it on the call-up frequency (Channel 16). Only after an affirmative reply can they switch in to the connections affected by radar, taking necessary precautions (listening out in advance) not to disturb a guiding process already taking place. Assistance is given in strict rotation of requests. Information is supplied free of charge in French and in no way renders the Port Authority responsible. Such information covers the following: route clear or not, vessels anchored or under way in the vicinity, successive positions in relation to the landfall buoys, possible position of the pilot vessel, then guidance in the channel as far as the swinging area and mooring area.

Syledis: A system of aid to navigation and to manoeuvring, covering the receipt on board the vessels of parameters covering in particular the position, the speed, is in the course of being tried out. It requires the Pilot bringing on board a small transmitter/receiver.

Aids to Manoeuvring: In order to facilitate swinging manoeuvres and mooring of large tankers, the port of Antifer has 3 lights of different colours, the positions and characteristics of which are as follows:

Access guiding light (on the open storage area at the foot of the cliffs) – light with red, white, green sectors, regularly flashing (4 secs.) the red sector to the North the green to the South.

Guiding lights for coming alongside (on the breakwater).

West light (position 3) – light of red, white, green sectors, regularly flashing (4 secs.) – Red sector to the East, green to the West.

East light (position 2), light of red, white, green sectors, flashing twice (6 secs.), red sector to the West, green to the East.

Each quay berth is equipped with aids for mooring comprising luminated panels showing the distance to the berthing point of the bow and the stern of the vessel; the speed (in cm./sec.) of approach or pulling away of the bow and stern of the vessel in relation to the berthing point.

Fresh Water/Fuel: Supplied by pipe-lines on the berth (S.H.M.PP. depot).

Cranes: 2 cranes of 2.5 tons capacity on the berth (1 per position). Berth for heavy items in the service port – handling by mobile crane.

Floating Equipment: Pontoon for transporting heavy items.

Tugs: Stationed in the service port are 1 or 2 tugs of 4,000 h.p. Other tugs required for manoeuvring come from Le Havre.

Pollution: Barrages laid on pontoons in the service port can be very quickly placed into service.

General Information:

The Port Captaincy is situated on the open land area of the Service Port.

Telephone: 22.81.40 Extension 886 or 987.
Pilot's office: At Le Havre Pilot's Office.
Customs: In the C.I.M. operational building (1st floor).
Towing: The Les Abeilles Company on the pontoon in the service port.
Police: In the C.I.M. operational building (1st floor).
C.I.M. Depot: 27.21.10 – 21.21.77.
S.H.M.PP. Depot: 27.20.73.

Communications: By buses from Saint Jouin. The airport of Le Havre – Octeville is 16 km. to the South of Antifer.

Control tower: Tel. 46.38.02.
Operating: Tel. 46.09.81.

DENSITY: In outer port and tidal docks: salt water. In inside docks brackish. Density depending upon season and amount of fresh water brought in by river Seine and Canal de Tancarville.

FRESH WATER: Most berths supplied by shore hydrants. Otherwise by barge minimum quantity invoiced then being 50 cu.m. Overtime charged in addition. Late cancellation of barge invoiced.

FUEL: All grades available, viscosities from 200 sec. to 3000 sec. Redwood. Minimum 48 hours advance notice required to prepare barges.

FIRE PRECAUTIONS: Dangerous cargo must be declared on "Inbound Bill" and in order not to delay vessel's entry it is highly recommended to inform Agent of quantity and exact nature of dangerous cargo on board 48 hours prior to arrival, thus enabling Agent to get in touch with Harbour Master and take necessary steps which may go from a single smoking prohibition up to a fire-picket on the quay during all the call.

Tankers: A "Notice to Master's of ships loading/unloading hydrocarbons" is handed to Master upon arrival. This notice specifies *inter alia:* repairs, ventilation/cleaning of tanks, handling of goods subject to Harbour Master's authorisation. All naked lights and fires prohibited, boiler furnaces and galley ranges excepted, such exception cancellable on simple order of Harbour Master or Depot Manager.

GANGWAY/DECK WATCHMEN: Compulsory, by ship's crew. Sworn watchmen in uniform and equipped with a VHF set may be obtained from the Port Authority per hour for day and night, working days and holidays. Some other companies may also supply watchmen (not sworn) at lower prices.

OPENING/CLOSING HATCHES: May be done by stevedores at the same price as shifting of cargo depending upon the type of cargo and consequent number of men included in the gang.

It is highly recommended to carry out opening by the crew before beginning of shift to avoid both loss of time and expensive charges and also risk of accident to stevedores who are sometimes not well aware of vessel's closing system.

It is emphasised that for reefer cargo stevedores wait for cold exhaust half an hour after opening hatches before getting down in the holds. Consequently it is strongly advised to stop ventilation and start opening hatches with crew about 1 hour before beginning of shift keeping in mind that for reefer cargo, the morning shift may commence at 0500 hrs.

CERTIFICATES:

Tonnage Certificate.
Safety Construction Certificate.
Loadline Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat Certificate.
Cargo Gear Register.

(Fresh water analysis certificate may also be requested.)

CUSTOMS ALLOWANCES: 200 cigarettes or 200 grammes tobacco plus 1 bottle spirit (must be mentioned on crew declaration list). Crew members may obtain extra allowance but only after 5–6 days' call.

CARGO GEAR: Cargo handling usually carried out by means of shore cranes. Hatch-tents to be supplied by vessel.

CREW IDENTIFICATION CARDS: Not required. Recommended to have passport or seaman book to go ashore.

CONSULS: The following countries have representatives at Le Havre:

Argentina
Belgium
Brazil
Chile
Colombia
Costa Rica
Denmark
Dominica
Ecuador
Finland
Germany
Great Britain
Greece
Guatemala
Haiti
Honduras
Italy
Ivory Coast
Japan
Liberia
Madagascar
Mexico
Netherlands
Norway
Panama
Peru
Portugal
Salvador
South Africa
Spain
Sweden
Switzerland
Uruguay
Venezuela

REPAIRS: 11 berths for vessels up to 350 m. Depths up to 10.0 m. 2 berths can accept vessels up to 550 m. LOA.

Societe Nouvelle des Ateliers et Chantiers du Havre (SNACH), 30 rue Jean-Jacques Rousseau, 76090 Le Havre. Tel: (35) 26.81.66 Telex: 190 322 F.

Specialises in: Ship repairs (boilers, engineering, fitting out, electricity); Alterations and conversion; Jumboisation.

Compagnie Generale de Reparation (COGER), Route du Mole Central, P.O. Box 1359, 76065 Le Havre Cedex. Tel: (35) 25.35.43. Telex: 190 964 F COGER.

Specialises in: Ship repairs (boilers, engineering, fitting out, electricity); Alterations and conversion; Jumboisation.

Caillard-Normandie, Ship repairs, Rue Bellot, P.O. Box 534, 76058 Le Havre Cedex. Tel: (35) 25.81.23. Telex: 190 321 F. Le Havre yard of the Company.

Ateliers Francais de l'Ouest. Head Office: 15 bd de l'Amiral Bruix, 75016 Paris. Tel: 502.12.20. Telex: 613 357. Offices in: Dunkerque, Le Havre, Rouen, Dieppe, Brest, Saint-Nazaire.

American Bureau of Shipping, 4 rue Andre Caplet, 76600 Le Havre. Tel: (35) 42.39.83.

Det Norske Veritas, 19 quai George-V, 76600 Le Havre. Tel: (35) 42.69.93 and 42.26.05.

Germanischer Lloyd, 20 rue Begouen, 76600 Le Havre. Tel: (35) 46.50.71. 110 rue Gustave Flaubert, 76600 Le Havre. Tel: (35) 43.75.18.

Lloyd's Register of Shipping, 7 rue Pierre Brossolette, 76600 Le Havre. Tel: (35) 42.42.15.

REPATRIATION: Except if airplane chartered by Owners, all crew have to pass through Paris.

AIRPORT: Le Havre airport 7 km. from the centre of the town, with a runway of 1,800 m. × 40 m. may receive chartered planes up to 40 tons total weight (50 T. with special authorisation). Regular flights from and to Orly (Paris Airport) twice a day, holidays excepted.

TIME: GMT plus 1 hour from 26th September to 28th March and GMT plus 2 hours 28th March to 26th September.

HOLIDAYS: New Year's Day (January 1st); Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; National Holiday (July 14th); Assumption B.V. Mary (August 15th); All Saint's Day (November 1st); Armistice Day (November 11th); Christmas Day (December 25th). No work possible except for passenger ships and tankers the latter being loaded/discharged round the clock every day.

POLICE/FIRE/AMBULANCE: Police 17 or 48.15.20; Fire Brigade 48.05.77 or 18; Ambulance 42.30.68 or 42.46.46; Hospital 42.77.83.

TELEPHONE: Possible at most berths.

SHORE LEAVE: Authorised within port and town area. Foreign seamen wishing to go further and more especially to Paris must obtain police authorisation and consequent pass.

REGULATIONS: Vessels carrying dangerous cargo must when on roads or in the entrance channel, show the red flag by daylight or 1 red light by night-time. When leaving the port they must keep their Pilot up to the end of the channel.

Vessels arriving with hazardous cargoes must declare same to Port Control 48 hours prior to arrival.

General: When the Pilot comes on board, he hands to the Master a file containing:

A leaflet showing a map of the port, the position of the fire brigade points, call-up points in the event of fire, fire-fighting hydrants, a list of important telephone numbers, a list of VHF Channels monitored by the Captaincy.

One copy, with map, of the the Maritime Prefect's decrees covering the circulation of vessels in the roads and channel, and in particular oil tankers.

An entry declaration which the Master must complete and which enables a check to be made that the hazardous material transported has already been the subject of a prior declaration to the Captaincy.

On berthing, instructions are handed to vessels:

– either by the ship's Agent where conditioned goods are involved.

– or by the operator of the berth for bulk carriers (liquid or liquified hydrocarbons, chemical products).

Furthermore, for these vessels, a check-list in accordance with that recommended by the IMO must be completed and signed jointly by the vessel and the terminal, prior to commencement of commercial operations.

REPORT: June 1982.

Requirements when vessels call to load/discharge LPG at Norgal:

Further to difficulties encountered for some months now in receipt or despatch of vessels, we would like the associates of NORGAL (or their customers) to let us know by telex, as soon as possible and for each operation, information of a general, technical and administrative kind, *those sections which are an obligatory nature being preceded by the sign* (+).

1. *General Information:*
   + Name of vessel and its ETA (expected date of arrival in the roads).
   + Nature of the operation (import, export, transit under Customs control).
   + Approximate quantity in tonnes and product and possibly the breakdown of capacity confirmed by a telex from the interested associate.
   Name of consignee (if possible).
2. *Technical information:*
   + Temperature of product.
   On board pressure.
   Hourly pumping capacity.
   Height of manifold in relation to water level.
   Dimension and series of manifold flanges.
   Laydays and possibly demurrage.

Receiving possibilities at NORGAL

Propane:

a) If temperature = 42°C and max. pressure 30 mb. (with return of gas) : 1,000 tonnes per hour.
b) If temperature = –10°C and max. pressure 3 bars : 300 tonnes per hour.
c) If full pressure : 80 tonnes per hour.

Butane:

a) If temperature = 10°C and max. pressure 30 mb. (with return of gas) : 1,000 tonnes per hour.
b) If full pressure : 70 tonnes per hour.

Characteristics of vessels:

Maximum length : 250 m.
Total displacement : 67,000 tonnes.
Depth of water : 12.5 m (41 ft.).

Quality if product admissible:

French commercial standards, for butane, the temperature must not be less than –8°C for a tv of 0 bar (effective).

3. *Administrative information (for Customs).*

a) *Imports:*
+ Product origin.
+ Price per tonne and currency of invoicing.
+ Kind of contract (f.o.b., c. and f., c.i.f.). If contract is f.o.b. state the amount of freight and insurance per tonne. If contract c. and f. state amount of insurance.
+ Invoice weight (at level acceptable to Customs).
+ Bank domiciliation (name of bank, number of pay office, number of domiciliation file) or the bank domiciliation file.

Note: The invoice and possibly the original of the Certificate of Origin justifying exemption form Customs duty (T2L, Certificate type "A", Certificate EUR1) must be sent to us *as quickly as possible* to be attached to the Customs entry or to put right this entry as quickly as possible.

b) *Exports:*
+ Consignee of the invoice and final destination.
+ Price per tonne and currency of invoicing.
+ Kind of contract (f.o.b., c. and f., c.i.f.). If contract is c. and f. or c.i.f., state f.o.b. value.
+ Invoice weight (as recognised and acceptable to Customs).
+ Name of domiciling bank and number of pay-office.

Note: The export invoice must be sent to us urgently for settlement at the end of the month.

c) *Transit under Customs control:*

(i) *Receipt.*
+ Declaration of Transit A42, if it has not been able to be placed on board.
+ Amount of freight per tonne for payment of VAT, where a foreign vessel is involved.

(ii) *Despatch.*
+ Consignee and Customs Office of destination.
+ Number of derogation of flag monopoly if a foreign vessel is involved. This number is required by Customs before loading.

DEVELOPMENTS: The new oil terminal of Havre-Antifer, built to the South of Cape Antifer has installations enabling vessels of 550,000 d.w.t. to be received at all states of the tide except at LW on neap tide. Shelter is created by a protective mole 3,520 m. in length. At the foot of the cliff, there will be a service port and open-air work areas. An access channel 550 m. wide to a depth of 25 m. will be dredged.

A second stage will see the provision of two further installations after further deepening of the sea to 30 m. in order to take vessels of 1,000,000 d.w.t.

Multipurpose Bulk Centre: Work is to begin in 1984 on a Multipurpose Bulk Centre which will be situated on the South bank of the Havre Ship Canal and in its initial phase will be accessible to vessels drawing 14 m. (46 ft.) i.e. vessels of up to 85,000 d.w.t. fully laden or of 150,000 d.w.t. with about 100,000 to 110,000 tonnes of cargo aboard. Equipment for reloading into barges will be added in the second phase.

The berth will be 250 m. (820 ft.) long and is expected to have a discharging capacity of 2,400 tonne an hour.

Completion expected mid-1985.

AUTHORITY: Port of Le Havre Authority, Terre-Plein de la Barre, B.P. 1413, 76067 Le Havre Cedex. *Tel:* (35) 22.81.40 *Telex:* 190663 Port Havre.

Harbour Master's Office: Boulevard Kennedy, 76600 Le Havre. *Tel:* 22.81.40 Ext. 350. *Telex:* 190663. *Cables:* Havreport.

AGENT: Jolasry (France), 35 Avenue Du 129°, P.O.Box 846, 76060 – Le Havre. Telegraphic address "Jolasry". Tel: 42.18.32 and 42.12.05. Telex: 190708.

LES SABLES D'OLONNE: 46.29 N. 01.47 W.

(See Plan Book)

PORT LIMITS: Entrance to wet dock constitutes port limits.

DOCUMENTS:

2 copies Crew and Passenger Lists.
2 copies Personal Effects Lists.
2 copies Stores Lists.
1 copy Cargo Manifest from ship's papers for Customs Authorities and all Bills of Lading, Ship's Papers, etc.

PILOTAGE: Pilotage is compulsory for all vessels equal to or exceeding 50 m. in length and for oil and gas tankers.

The compulsory pilot boarding points are two straight lines from "La Petite Barge" Buoy (Lat. 46° 28.9′ N., Long. 01° 50.6′ W.), to "Le Phare des Barges", and to "La Peruse" rock.

Confirmation of ETA can be given to the Agent or Pilot. Tel: (51) 32-60-97.

Channel 16 VHF is continuously watched as soon as Pilot is on board. Pilot boat is 9 m. long (black and white hull).

ANCHORAGE: Vessels awaiting Pilot may anchor in the waiting area with sand bottom. They can use pilot services in bad weather.

MAX. SIZE: Vessels up to 100 m. LOA and beam 16 m. Draft 4.8 m. to 6.2 m., dependent on tides.

HEALTH: Customs take action against suspected diseases or fever on board when vessel arrives.

RADIO: Saint Nazaire & Arachon Radio. All ETA and other messages should be in local time.

VHF: Harbour Authorities keep watch on Channel 16 during opening of lock gates. At neap tides, the watch is kept for 1 hour 30 minutes before and after HW.; at Spring tides for 2 hours before and after HW.

RADAR: There is no Port Control Radar.

TUGS: None, pilot boat assists.

BERTHING: Max. beam 16 m. to allow passage through lock gates. Max. LOA 100 m.

BRIDGES: None.

CRANES: Mobile cranes 5 tons – 10 tons.

STEVEDORES: Working hours from 0700 – 1200 hrs. and 1200 – 1900 hrs. No work on Saturdays.

MEDICAL: Full hospital facilities available.

FRESH WATER: Available in unlimited quantities, with 6 to 12 hours prior notice.

FUEL: By lorry from Nantes or La Pallice.

REPAIRS: Small repairs carried out if sufficient spares available.

SURVEYORS: None.

HATCHES: Opening/closing carried out by vessel's crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 2 litres of spirits per person.

REPATRIATION: Possible.

AIRPORT: At Nantes, 87 km. distant. 6 – 7 flights daily.

TIME: GMT plus 1 hour. Summertime GMT plus 2 hours (March to September).

HOLIDAYS: Port is open all year round.

POLICE/AMBULANCE/FIRE: Police, Tel: 17; Ambulance, Tel: 951953; Fire, Tel: 18.

SHORE LEAVE: When Immigration and Customs requirements have been satisfied, there is no restriction on crew shore leave so long as they rejoin the vessel before departure.

SERVICES: Compass adjusting.

DEVELOPMENTS: None.

AUTHORITY: Mr. le Ingenieur des Ponts et Chaussees, Service Maritime. Quai Dingler, 85100 Les Sables d'Olonne. *Tel:* (51) 32-62-61.

Mr. Keroulle, Harbour Master: *Tel:* (51) 32-11-79.

AGENT: Yves Lambot, 10 Quai Emmanuel-Garnier, B.P.: 65, 85102 Les Sables d'Olonne, Cedex. Tel: (51) 951010. Telex: 710634.

LIBOURNE: 44.55 N. 00.15 W.

APPROACHES: Channel Buoyed and dredged to 4.0 m. – 5 m. below LW.

RESTRICTIONS: Max. air draft 25.0 m.

BERTHING: One wharf managed by the Chamber of Commerce, length 65 m., depth 4.5 m. Berth can accommodate vessels up to 120 m. LOA.

CRANES: 2×15 ton, 1×20 ton, 2×30 ton and 1×45 ton.

AUTHORITY: Service Maritime de la Gironde.

Operator: Chambre de Commerce et d'Industrie de Libourne, 125 Avenue Georges Pompidou, B.P. 162 33503 Libourne Cedex. *Tel:* (57) 51.71.11. *Telex:* 570598. *Contact:* Jean-Loup Metivet, Chief of Mission.

LORIENT: 47.45 N. 03.21 W.

(See Plan Book)

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Compulsory for all vessels over 60 m. length. Vessels must contact pilot station advising ETA at least 6 hours before arrival by radio to the pilot station. On arrival at the Outer Roads or Groix vessels should call Pilot by VHF Channel 16. The pilot launch will be standing by from 1 hour before to 1 hour after the ETA previously advised by the ship. The pilot station is manned 24 hours per day. Pilot station telephone number 371480.
ANCHORAGE: The Outer Roads of the port are open to winds from the S.E. to S.W. Vessels waiting to enter the port may anchor in depths of 15 m. – 20 m., sand and shell bottom, good holding ground.

Mooring buoys are positioned off Port Tudy on the North coast of Ile de Groix. These buoys are reserved for the use of the French Navy. There are prohibited zones for anchoring due to presence of submarine cables, marked on chart.
RESTRICTIONS: There are 2 entry channels to the port. The South Channel, depth 3.6 m. is used exclusively by local fishing boats. The West Channel is marked by the alignment of Kerbel Light and Lohic Light. The depth in this channel is 7 m. Both channels are very well marked.

Traffic signals are hoisted at Port Louis Citadel as follows: Red flag or red light – entry prohibited. Green flag or green light – exit prohibited. Red over green flags or lights – port closed.

Tankers: Vessels carrying more than 500 cu.m. of hydrocarbons, or other dangerous cargoes in bulk, intending to navigate North of Les Trois Pierres Tr., should report 6 hours in advance to "Marine Lorient" and Port Captain giving details of cargo and of any defects which may affect manoeuvrability. Such vessels should establish contact with Vigie Port Louis giving ETA at Les Trois Pierres on arrival, or Kéroman Mole (Lat. 47° 43.7′ N., Long. 3° 21.9′ W.) on departure. Other vessels may obtain information about such movements on Channel 16.
HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessels should not receive free pratique, Master should radio Agent before arrival, advising full details.
RADIO: Use local station Radio Conquet or Radio Saint-Nazaire.
TUGS: 1 tug of 1,000 h.p., 2 tugs of 700 h.p., 3 tugs of 250 h.p. belonging to the French Navy.

1 tug of 700 h.p. at the fishing port (Morbihan Chamber of Commerce & Industry) and 1 tug of 1,800 h.p.

1 tug of 1,500 h.p. to be purchased.
BERTHING: Kergroise Quays, 568 m. Max. length of vessels 250 m. Depth of water 10.5 m.

8 cranes in service including 2×30 ton cranes.
TANKERS: The Oil Jetty is 112 m. long and can accommodate tankers up to 180 m. length, max. draft 10 m.
FRESH WATER: Can be supplied from the quays at Kergroise and at the Oil Jetty. Rate 10 t.p.h.
REPAIRS: Minor deck and engine repairs can be carried out. Slipways can accommodate 6 fishing boats at the same time. There are 3 dry docks the largest of which is 186.20 m. long×26.33 m. wide.
MEDICAL: All facilities available. Local maritime and civil hospitals.
IDENTIFICATION CARDS: Crewmen going ashore should carry passport or identity card.
CONSULS: Norway, Denmark, Netherlands and Sweden.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.
POLICE/FIRE/AMBULANCE: Police Tel: 21.19.16; First Aid Tel: 17; Ambulance Tel: (97) 65.33.44; Fire Tel: 18.
DEVELOPMENTS: One new berth, length 150 m. Depth of water 10 m. Will be ready early 1985.
AUTHORITY: Capitainerie du Port, Il Bd. J. Cartier, 56110 Lorient, France. *Tel:* 37.11.86. *Telex:* Marilor 950887 F. *Contact:* Harbour Master.

AGENT: See "Paris".

MARANS: 46.18 N. 01.00 W.

LOCATION: Marans is situated on the Sevre-Niortaise River.
PILOTAGE: Compulsory. Pilot boards at La Pallice.
RESTRICTIONS: Entry during daylight hours only.
MAX. SIZE: Length 60 m., beam 10 m., draft 3.2 m. (at Neaps), 4.0 m. (at Springs).
BERTHING: 3 berths available.
CRANES: One 3 ton electric crane.
BULK CARGO FACILITIES: One grain silo in the port.
REPAIRS: Minor repairs only.
AUTHORITY: Monsieur l'Ingenieur des Ponts et Chaussees, Le Port, 17230 Marans. *Tel:* (46) 01-10-35. *Contact:* Mr. P. Quenet, Harbour Master and Chief Engineer.

AGENT: See "Le Chateau d'Oleron".

MARSEILLES: 43.18 N. 05.25 E. (See Plan Book)

(a) Old Port to Estaque *(b)* Port de Bouc/Lavera/Caronte/Etang-de-Berre/La Mede *(c)* Fos

(a) OLD PORT TO ESTAQUE

DOCUMENTS:
Inward Declaration (Printed Form presented by Pilot on boarding).
Ships Register.
Declaration of Health.
3 Crew Lists.
2 Provisions Lists.
2 Lists of Passengers in Transit.
2 Lists of Passengers disembarking.
1 List of Ports where cargo is loaded for Marseilles.
Cargo Manifests and Bills of Lading.
1 List of Crew Personal Effects.

PILOTAGE: *Arrival:* Contact port authority by VHF on Channel 16, changing to Channel 12. M.W. Station, call on 2049 kHz. Station on 1939 kHz. ("Marseille Port") Compulsory. 21 pilot launches, mostly painted black, wooden hulls with white anchor insignia on the bow.

Contact pilot station and pilot boats by VHF Channel 8.

Southern Entrance: Pilot boards between "Le Frioul" and "Chateau d'If" island. Max. recommended draft 27 ft. in good weather.

Northern Entrance: Pilot boards at Estaque roads. In case of strong N.W. winds or for all deeper draft vessels the Northern entrance is preferred.

Vessels anchoring in roads without a Pilot will still incur full pilotage fee.

On departure, 15 to 30 minutes notice sufficient to order Pilot and tugs.
ANCHORAGE: Estaque Roads.
MAX. SIZE: Draft dependent on berth depth up to max. of 14.5 m.
HEALTH: Free pratique automatic vessels coming direct from continent or Italy and "Q" flag not to be flown. From other countries – including Spain and Portugal – usual procedure applies. Unless special arrangement for passenger liners free pratique not given by radio also practice issuing Health or Customs clearance on sailing now discontinued.

Free Pratique by Radio: Send cable to "Saniport Marseille" through Marseille Radio between 0700 hrs. and 1900 hrs., containing the following information:

Ship's Name, ETA Marseille, from (last 3 ports in reversed order) number of crew.

Then "ZT" (my Maritime Declaration of Health has negative answers concerning the 6 health questions).

Date of Derat (exemption) Certificate.

Then "ZS" (my ship is healthy and I ask for free pratique).

Example: Balder Antwerpen ETA 17/2300 Malaga, Hamburg, Bremen crew 25 stop ZT stop 06/07/81 stop ZS. Regards Master.

From 0700 hrs. to 1900 hrs., answer of Saniport will be: "ZY" (free pratique is granted).

If free pratique is requested and granted by radio, no sanitary officials will board the vessel, no declaration must be filled in, and crew members are granted shore leave without delay. Furthermore, the "Q" flag must not be flown on arrival.

The above information was supplied to a Ship's Master by the Port Health Officials.
RADIO: Within 150 miles Marseilles Radio/FFM – otherwise St. Lys/FFL.
VHF: Port Authority on Channel 16, 6, 12 and 30. Tugs on Channel 6.
RADAR: Port and approach radar station.
TUGS: About 25 tugs available, from 250 to over 3,000 h.p. Ship's lines normally used.

BERTHING: When specific side alongside berth required. Agents radio Master prior arrival also advise Pilot. Otherwise side alongside at discretion Master after conferring with Pilot.

CRANES:

Public Quay Cranes: 1×3 tonnes; 12×3 – 5 tonnes; 54×6 tonnes and 1×20 tonnes.

Public Mobile Cranes: 1×4 – 8 tonnes; 4×6 – 12 tonnes; 5×15 tonnes; 1×35 tonnes; 3×40 tonnes.

17 drydock cranes, largest has a lifting capacity of 150 tonnes.

2 floating cranes for public use, owned by the Port Authority, capacities 90 tonnes and 150 tonnes and one floating derrick owned by the Port Authority, capacity 500/600 tonnes. There are also 2 privately owned floating cranes, largest has a capacity of 60 tonnes.

BULK HANDLING FACILITIES:

Cereals:

Pinede Dock: Berth No. 30. Storage: The Madrague Silo, owned by the Societe Fonciere et Commerciale du Silo de la Madrague, has a capacity of 30,000 tonnes in 143 cells. The silo is connected to the berth by 420 m. (1,378 ft.) of covered conveyors. The silo is outside the port area. 2 suction units, rate 200 t.p.h.

Grande Joilette Dock: Berth Nos. 69 and 70. Storage: The silo, owned by the Marseilles Port Authority, is within the port area and has a capacity of 22,000 tonnes in 99 cells. it is equipped with 4 covered conveyors, 2 of which are reversible, thus allowing the export of cereals from the silo.

Grain, Copra, Oil Seed:

National Dock: Berth No. 43. Storage: Shed 6B has a capacity of between 12,000 and 18,000 tonnes for types of grain, on the first floor, and 6,000 tonnes on the ground floor. This shed is on the quayside. Oil seed handled. 4 cranes of 6 tons capacity.

Oil Seeds: 1 public berth in National Basin.

Berth No. 43: Max. length 170 m., max. draft 8.5 m.

The oil seeds are unloaded by an automatic bucket and received on the terrace of Transit Shed 6A, which is equipped with rolling hoppers permitting discharge or storage. Output capacity 700 tonnes per shift with 2×6 tonne cranes. Storage capacity 10,000 tonnes on the first floor of Shed 6A.

Minerals in Bulk:

National Dock: Berth Nos. 47 and 48. Specifically for bulk traffic, handled by bucket-cranes. Storage: 4,000 sq.m. (43,040 sq.ft.) in the open, beside the East Quay. 4 cranes, rate 300 t.p.h. or 150 t.p.h. per crane.

3 berths on the Seaward Breakwater, Berth Nos. 109, 110 and 111. Theoretical length 151 m. each, max. draft 12 m. Storage capacity 50,000 tonnes.

These berths are equipped with 5 bucket cranes of 7 tonnes and facilities for storing clinker.

President Wilson Dock: Berth No. 14. Allocated specifically for alumina. Storage: 2 silos, with a total capacity of 11,000 tonnes, constructed by and belonging to Pechiney Cie. and Ugine Cie., to facilitate the import/export of dehydrated alumina in bulk.

There is an additional warehouse with 1,000 sq.m. on Breakwater "D" which is used for hydrated alumina. Vessels are handled via Berth No. 47 (National Basin). Storage capacity 3,000 tonnes.

Leon-Gourret Dock: Berth No. 8. Allocated specifically for bulk traffic that can be handled by grab-bucket. Storage: An open area of 4,000 sq.m. (43,040 sq. ft.) at the quayside; suitable for import/export.

Liquids in Bulk:

Mourepiane Dock: Berth No. 150. For vegetable oils and chemicals. Storage: The private company, Marseille Vrac, which operates this depot, has 32 vats of 125 to 1,640 cu.m. (4,412 to 57,892 cu.ft.), with a total capacity of 24,500 cu.m. (864,850 cu.ft.). There are pipelines to the quay for discharging tankers.

Import and Export: The major import is vegetable oil; export is chemical products in bulk.

Berth No. 143 for refined hydrocarbons.

Berth Nos. 104, 105 and 106 for wine in bulk.

Sugar:

President Wilson Dock: Berth Nos. 19 and 20. Storage: The silo, which has a capacity of 24,000 tonnes is within the port area and is owned by the Port of Marseilles Authority. Sugar is discharged by bucket-crane into hoppers which feed the conveyor belts to the silo. The total conveyor capacity is 250 tonnes per hour.

SPECIALISED CARGO HANDLING FACILITIES:

Heavy Load Berths:

In Mirabeau Basin there is a special berth (No. 161) designed to receive barges loading and unloading heavy loads. This berth is located between Berth No. 160 and the Leon Gourret Mole and consists of a quay 80 m. long into which has been built a barge basin 50 m. long by 20 m. wide with a depth of 2.5 m.

Apart from this special berth, there are 29 roll-on/roll-off berths in operation in the port of Marseilles which permit direct loading of heavy loads into ro/ro ships. There are also numerous conventional berths that can be used for vertical loading and unloading of heavy loads, with the assistance of the port's "Atlas" and "Goliath" floating cranes, which have a lifting capacity of 90 and 150 tonnes respectively and can be coupled to lift a maximum of 220 tonnes.

In addition to these floating cranes, the following floating equipment is also available:

The Port Authority's floating derrick, "Protis", which has a lifting capacity of 500 to 600 tonnes.

Various types of private floating equipment with capacities ranging from 40 to 60 tonnes.

Various public or private heavy load barges.

The Port Authority's submersible seagoing barge.

This barge is designed for transporting heavy loads, or for putting them into the water in the case of floating loads (within the limits of its deadweight capacity of 1,800 tonnes; the loading and unloading of heavy floating loads of 1,800 to 2,000 tonnes must be carried out in dry docks). The barge can be loaded vertically, horizontally (Ro/Ro), or by floating the load into the hold in the case of a floating load.

Also see "Berthing".

CONTAINER HANDLING FACILITIES: Various quays are devoted to container traffic: At the Leon Gourret mole (14.5 m. permitted draft, large open areas, railway tracks); at the Mourepiane quay, in the Mirabeau basin, where there is a new terminal:

3 public berths, Berth Nos. 155, 156 and 157, each of which has a theoretical length of 154 m. and a max. draft of 11.7 m.

Container handling equipment: 2×40 tonne Caillard gantry cranes. 4×30 tonne at 30 m. mobile cranes.

Railed tracks: 2 railway tracks alongside the quay; 1 railway track behind warehouse 20; 2 railway tracks at the Eastern limit of the dense storage area behind warehouse 20.

Area alongside the quay 35 m. wide comprising: A working area 15 m. wide equipped with 2 railway tracks and a trailer movement area; a storage area for short periods, 17 m. wide (under the rear jib of the gantries).

Storage areas covering a total of 90,000 sq.m.

BRIDGES: Turning bridge near Southern end of port – Pont d'Arenc – opens on requests. Bridge further North – Pont de la Pinede – opens: 0600 – 2200 hrs. twice each hour between 5 minutes before the hour and 5 minutes afterwards, and between 5 minutes before half hour and 5 minutes afterwards. Open continuously 2200 – 0600 hrs.

STEVEDORES: Enable Agent order gangs important obtain in good time accurate ETA from vessels. Latest times to order gangs; normal and deferred shifts 0530 hrs. same morning – night shift 1600 hrs. same day – Saturday and Sunday, 1600 hrs. Friday. Failure to give precise ETA may result in ship losing 12/24 hours also cost gang waiting time includes waiting vessel's arrival – free pratique – opening/closing hatches – rain – shifting cargo or dunnage – crane or derrick breakdowns – time lost between finishing and end of shift. Work can be arranged on following official holidays – New Year's Day, Easter and Easter Monday, Whitsun, 14th July, 15th August, 1st November, Christmas Day, 1st May holiday when no work takes place, Stevedoring hours (normal shift) Monday to Saturday, 0630 – 1300 hrs. and 1330 – 2000 hrs. (Two shifts). Sunday, 0630 – 1300 hrs., if required – one shift 0800 – 1115 hrs. and 1300 – 1615 hrs. Night work if required or short night work 2015 – 2330 hrs. No work allowed Sunday night. All necessary gear supplied by stevedores except rain tents which vessel must supply.

MEDICAL: Yellow fever inoculations only in hospital (Tuesdays and Friday). Masters to advise by radio prior arrival if medical attendance required aboard.

TANKERS: Oil traffic in the Port of Marseilles is limited to two functions: the supply of refined products to certain urban installations, and the degassing of oil tankers before they enter a dry dock for repairs.

The specialised facilities available are:

Saumaty Basin: Three berths are available for tank barges alongside Mole I: Lengths: Berth No. 145, 70 m.; Berth No. 146, 105 m.; Berth No. 147, 133 m. Max. draft 4.7 m.

The quayside discharge pipes are connected to the Mourepiane Oil Storage Depot located outside the port enclosure. The total capacity of this depot is 42,000 cu.m.; 16,000 cu.m. for white products and 26,000 cu.m. for black products.

North Outer Harbour: Berth No. 143 (max. draft 9.5 m.) in the North Outer Harbour has a dual function. Firstly, it can receive oil tankers of up to 550,000 tonnes and LNG carriers for degassing and treatment of water polluted by oil product residues during tank-cleaning. Secondly, it can receive small and medium-sized tankers for discharging oil products. The quayside discharge pipes of this berth are also connected to the Mourepiane Oil Storage Depot.

Also see "Port de Bouc" and "Fos".

DENSITY: About 1028.

FRESH WATER: Can be obtained from hydrants or quays or from water-boats. When delivered by barge, minimum quantity invoiced is 50 tons. Preferable order prior arrival to avoid delays. Minimum pumping rate 50 t.p.h.

FUEL: Ordinary fuel, also fuel oil max. 1000 secs., diesel and gas oil. Deliveries by barge only.

FIRE PRECAUTIONS: Special harbour fire-fighting corps, with two fire-fighting vessels.

WATCHMEN: Available but not compulsory.

HATCHES: Crew allowed open and close.

SHIP CERTIFICATES: On first call Registered Tonnage Certificate; thereafter not required unless gross/net tonnages changed.

CUSTOMS ALLOWANCES: About 200 cigarettes and limited amount spirits per man.

CARGO GEAR: No additional requirements; all gear supplied by stevedores except rain tents.

IDENTIFICATION CARDS: Not required.

AIRPORT: Marseille-Marignane is the second largest airport in France with 18 air companies serving 60 national and international destinations.

The international airport of Nimes-Garons (50 km. from Fos) serves the West region of the Marseilles district.

CONSULS: The following countries are represented in Marseilles:

Algeria
Argentina
Austria
Belgium
Bolivia
Brazil
Canada
Colombia
Costa Rica
Cuba
Cyprus
Denmark
Dominica
Ecuador
Egypt
Finland
Great Britain
Greece
Guatemala
Haiti
Honduras
Iceland
Israel
Italy
Ivory Coast
Japan
Lebanon
Liberia
Madagascar
Mauritania
Mexico
Morocco
Netherlands
Nicaragua
Norway
Panama
Peru
Philippines
Portugal
Senegal
Spain
Sweden
Switzerland
Thailand
Tunisia
Turkey
U.S.A.
U.S.S.R.
Uruguay
Venezuela
West Germany
Yugoslavia

REPAIRS: Most repairs and overhauls possible. Pre-advice recommended.

SERVICES:

Mourepiane Deballasting and Degassing Station: The station is located at Berth No. 143 in the North Outer Harbour which measures 680 m.×800 m. and permits the manoeuvres of very large ships. The 90 m. long berth is dredged to a depth of 9.5 m. and can receive ships of up to 550,000 tonnes.

Facilities for deballasting and degassing oil tankers:
Storage Capacity: 17,000 cu.m.
Heated Pressurised Sea Water: 80°C, 13 bars, 200 cu.m./hr.
Pressurised Steam: 15 kg./sq.m., 34 t.p.h.
Compressed Air: 4 cu.m./min. and 18 cu.m./min.
Electric Current: 3×400 V, 250 A.
Fans.
Telephone connected to the international telephone system.
Personnel for cleaning, removing and treating solid wastes.
Facilities for degassing gas tankers:
  Nitrogen: 3,000 cu.m./hr.
  Burn-Off Capacity in the 15 m. High Burner: 3,000 cu.m./hr.

DRY DOCKS:

No.	Usable Length (m.)	Usable Width (m.)	Depth (m.)	Cranes (tons)	Sea Water	Telephones
1	171	19.60	5.30	2×9	–	1 line
2	135	17.30	4.20	1×9 – 1×20	–	1 line
3	100	15.60	4.60	–	–	1 line
4	80	12.50	4.75	–	–	1 line
5	122	14.60	5.30	1×9	–	1 line
6	125	15.60	5.30	1×9	–	1 line
7	200	23.00	8.10	1×9 – 1×20	–	1 line
8	320	49.00	11.00	1×6 – 1×9 1×50	800t/h	2 lines
9	250	36.00	8.50	1×6 – 1×9 1×50	800t/h	2 lines
10	465	84.00	10.00	3×25 – 1×150	10,800t/h	12 lines possible

Fresh water and power available at all berths.

One floating dock: Usable length 165 m., usable width 25 m. Depth 6 m. 2×7 tonne cranes. Fresh water and telephone available.

POLICE/FIRE/AMBULANCE: Police (disturbance of peace): Tel: 17. Marine Fire Brigade (fire, ambulance, injury, explosion, flooding, man overboard, etc.) Tel: 18. Police and Marine Fire Brigade can also be called through the Central Watch Tower (VHF CHannel 16) or Telephone: 912166 ("Marseille Port").

DEVELOPMENTS:

1. Tracked electric cranes to be reduced from 75 to 60.
2. A fourth 30 tonne (at 30 m.) mobile crane has been ordered.

SHIPMASTER'S REPORT: October 1983.
Documents: Inward declaration required for entry. This is given to Master by Pilot for handing to Agent.
Health: Routine message to "Saniport Marseille" sufficient even for vessels arriving from Ivory Coast/Senegal. This is required but not acknowledged.
Banana Discharge: Usually at Pier No. 58, starboard side to, by side doors via conveyor belts. Usual working hours: 2 shifts 0630 – 1230 hrs. and 1400 – 2000 hrs., 6 days a week. 4 conveyors available.
Fresh Water: Available at Pier No. 58 by barge only.
Security: Stealing from accommodation is rife.

AUTHORITY: Port Autonome de Marseille, B.P. 1965, 23 Place de la Joliette, 13226 Marseille Cedex 02, France. *Tel:* (91) 919044-919066. *Telex:* 440746 Portauto Marsl. *Cables:* Portauto Marseille. *Contact:* Harbour Master.

AGENT: Jolasry (France), 20 quai du Lazaret. Tel. 91.90.86. Telex. 440821. Cables: Jolasry.

(b) PORT DE BOUC, including Port de Lavera 43.23 N. 05.00 E., Port de Berre 43.27 N. 05.10 E., Port de la Mede 43.24 N. 05.07 E. Caronte 43.24 N. 05.02 E.

(See Plan Book)

DOCUMENTS: On arrival:
- Inward Declaration (presented by Pilot on boarding).
- 1 Cargo Manifest or manifest in ballast.
- Bill of Lading.
- Ship's Register (if required).
- 6 Crew Lists (8 if Spanish or U.S.S.R. ship or ship bound for these countries).
- 3 Passenger Lists.
- Health Declaration.
- Derat Certificate.
- Bunker's Supply (3 forms).
- 1 Crew Declaration of Personal effects – cameras, binoculars, radios, cigarettes, tobacco, etc. If on inspection articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Call "Port de Bouc Control" on Channel 16. Channel 12 for traffic. Pilot must be taken to enter Port de Bouc, Fos and Port St. Louis du Rhone. Contact by Marseilles Radio or pilot boat VHF (Channel 16 for calling, Channel 14 for traffic). Pilot boards in the Roads between 2 and 2.5 miles S.W. of Bouc Tower or further out if required, for entering Port de Bouc and Fos. Motor launch black hull, white cabin, white anchor on bow, "H" flag.

ANCHORAGE: It is recommended to ask for Pilot before anchoring in Outer Roads to avoid forbidden places for ships bound for Port de Bouc and Fos.

RESTRICTIONS: No entry restrictions for Lavera. Night transit of Caronte Canal to Etang de Berre forbidden to tankers above 6,000 g.r.t. Transit of Caronte Canal to Etang de Berre is forbidden for vessels over 180 m. (598 ft.) overall and over 24 ft. draft.

Notice: *"Port Authorities Instructions Concerning Fos/Lavera Tanker Areas.*

Special Notice No. 94/81.
Re: Berthing of Tankers Loaded with Naphtha or Gasoline.

Taking into account the recurring risks encountered with tankers discharging naphtha, super gasoline, gasoline or condensate, until further notice, it has been decided that only one vessel at a time, carrying said cargo, will be allowed to discharge in above areas of Port Autonome de Marseille.

For the time being these restrictions do not apply to coasters.

Furthermore, vessels concerned, whatsoever the year of building, will only be allowed alongside providing that pump room is clean, gas free and that no product is leaking at ship's valves or pumps.

Should above conditions not be fulfilled vessels could not be accepted in above areas".

MAX. SIZE: Lavera: LOA 275 m., draft 12.80 m.
Caronte: LOA 170 m., draft 8.84 m.
Berre: LOA 180 m., beam 24 m., draft 7.0 m.
La Mede: LOA 180 m., beam 24 m., draft 7.2 m.

HEALTH: Pratique given by Customs Officers who board on arrival. In case of suspected disease on board, notify Agents by radio before arrival.

Also see "Marseilles".

RADIO: Within 150 miles traffic through Marseille Radio/FFM, otherwise St. Lys (FFL).

VHF: Port de Bouc Radio (Harbour Office) VHF used for navigation purposes only – Channel 16 for call, Channel 12 for traffic.

RADAR: Port and approach radar station.

TUGS: Eleven tugs available from 90 to 1,800 h.p. Normally join vessel in entrance channel off Port de Bouc. Only ship's lines used.

BERTHING: Lavera: 19 berths (Total berthing length 3,088 m.) for public and private use. Permitted drafts: 3 berths of 2 m. to less than 3.6 m.; 4 berths of 3.6 m. to less than 5.5 m.; 1 berth of 5.5 m. to less than 6.1 m.; 5 berths of 10 m. to less than 11 m.; 3 berths of 11 m. to less than 12.5 m.; 3 berths of 9.9 m.

1×12 tonne public mobile crane.

Lavera harbour has been specifically designed and equipped to handle refinery products and the discharge of oil tankers.

Each berth has flexible pipe connections, with articulated metal arms, supported by special cranes. The type of pipework depends on the product handled (crude or refined) and is connected to the storage tanks of:—

C.F.R. and Shell
S.F.P. – B.P. Refinery at Lavera
The maritime terminal of S.P.L.S.E., which supplies the
Esso Refinery at Fos.

Berths A1, A4, H and K1 have been designed to handle the loading and unloading of propane and chemical products.

Crude: 8 public berths in 4 basins.

Name of Berth	*No. of Berth*	*Max. Length (m.)*	*Max. Draft (m.)*
B	721	325	12.00
C	722	325	12.00
D	723	325	11.89
E	724	325	12.20
F	725	325	12.80
G	726	325	12.80

Refined Products: 12 public berths.

Name of Berth	*No. of Berth*	*Max. Length (m.)*	*Max. Draft (m.)*
A1	711	210	10.10
A2	712	210	11.10
A3	713	210	11.10
A4	714	240	12.20
B	721	325	12.00
C	722	325	12.00
D	723	325	11.89
E	724	325	12.20
F	725	325	12.80
G	726	325	12.80
K1	701	100	6.10
K2	702	88	5.30
K5	705	100	5.80
K6	706	100	5.90

Liquid Gas: 4 public berths.

Name of Berth	*No. of Berth*	*Max. Length (m.)*	*Max. Draft (m.)*
A2	712	210	11.10
A4	714	240	12.20
H	727	200*	11.80
K1	701	100	6.10

*Usable length 100 m.

Annual capacity of loading or discharge: 600,000 tons based on the 4 multi-purpose berths being exclusively used for discharge of vessels bringing propane gas.

Average output per quay 600 cu.m./h. (300 t.p.h.)

Storage capacity: The storage capacity of propane gas of the Societe GEOGAZ is 120,000 cu.m (60,000 tons).

Chemical Products (exclusively): 2 public berths.

Name of Berth	*No. of Berth*	*Berthing Length (m.)*	*Permitted Draft (m.)*
A4	714	240	12.20
H	727	200*	11.80

*Usable length 100 m.

Berth A4 is also equipped for crude oil traffic, refined oil products and for the importation of liquid gas.

Berth H can also accept liquid gas.

Annual capacity of loading or discharge: 2,700,000 tonnes if these 2 berths are exclusively used for chemical product traffic.

Discharge rate using vessels' pumps: 150 t.p.h. Loading rate using land pumps 150 t.p.h. to 300 t.p.h.

Storage capacity: Societe NAPHTACHIMIE: factory. Societe MAVRAC: 53,000 cu.m. Density 0.80 – 1.62.

Port de Bouc/Caronte: Quay berths reserved exclusively for commercial operation of sea-going vessels: Berth Nos. 780 to 786 and 2 berths for river barges.

Total length of quays: 763 m.; Usable berthing length: 1,000 m.; Permitted draft: 2 berths for barges with draft of less than 4 m.; 5 berths of 8 m. to less than 9 m.

Berths reserved for repairs afloat (Agglomerate Quay No. 787): Total length of quays: 250 m. Max. draft 4.5 m.

Equipment:

Quay cranes: 2 cranes of 3–6 tonnes
3 cranes of 6–12 tonnes
2 cranes of 12 tonnes

Seven cranes, private, forming part of the installations of the Etablissement Maritime de Caronte et de Fos (CARFOS)

Quay gantries: 2 gantries of 10–20 tonnes, private (CARFOS) used for ores, stacking and removal from stock. Lifting capacity of the most powerful: 15 tonnes.

1 phosphate reloading gantry (CARFOS) with a capacity of 400 t.p.h.

Cranes allocated to naval repairs afloat, at the Agglomerate Quay: 2 private cranes from 6 to less than 15 tonnes. Lifting capacity of the most powerful: 4–8 tonnes.

Floating cranes: 1 private crane, with a lifting capacity of 100 tonnes.

Storage:

Quay-side sheds	8,200 sq.m.	(private)
Other sheds or warehouses	4,875 sq.m.	,,
Quay-side open areas	16,000 sq.m.	,,
	10,000 sq.m.	(public)
Other open areas	8,000 sq.m.	(private)

Bulk Liquids: Vegetable or animal oils and chemical products:

1 public quay under private use (Favat installation) (Berth No. 780): Verminck Quay. Useful berthing length: 120 m. Permitted draft: 7.50 m.

Discharge of oils is effected by shipboard pumps and the relay pump of the land installations – rate 200 t.p.h.

Storage capacity: 6,000 tonnes.

The Favat storage installations located outside the port area, on private property, have a total capacity of 12,000 cu.m. These installations are connected by a network of 3 pipelines of 200,150 and 100 mm. to the discharge points at the quayside. Storage Shed: 4,000 sq.m.

Chemical products exclusively: 1 private berth (Berth No. 786): Kuhlman Quay (Ets. Kuhlman). Useful berthing length: 140 m. Permitted draft: 7.50 m. Factory storage capacity: 2,500 tonnes.

Bulk Solids: Ores, coal, heavy minerals:

5 berths at the Caronte Quay (Berths Nos. 781–785) private use granted to Etablissement Maritime de Caronte et de Fos (CARFOS).

Usable berthing length: 650 m. Permitted draft: 8.40 m.

1 quay berth for loading phosphate barges, located between berth No. 785 and berth No. 780. Berthing length: 80 m. Permitted draft: 3.50 m.

The Caronte Quay has a specialised installation comprising:

3 transporting units and weighing hoppers with a unit output of 135 t.p.h.

1 transporting unit and specialist weighing hopper specialised in wagon loading: output 150 t.p.h.

2 weighing hopper towers – unit capacity: 1,200 tons per day.

2 weighbridges (40 and 80 tonnes).

The 7 scoop cranes are emptied into weighing hoppers which in turn discharge on to conveyor belts which terminate either above wagons to be loaded, into sheds or open storage areas. Hourly capacity per crane 120–150 t.p.h.

The quay is also equipped with 2 gantry cranes of 10 to 20 tonnes used for stacking and reclaiming minerals and 1 gantry crane with a capacity of 400 t.p.h. used for reloading phosphate.

Storage capacity: 63,000 tonnes.

The CARFOS storage installations include:

3 phosphate sheds of 6,800 sq.m.

1 ilmenite shed of 550 sq.m.

1 open area of 6,000 sq.m.

Oil seeds – oil cake: 2 berths (No. 784 and No. 785) at the Caronte Quay, private use granted to CARFOS

Available berthing length: 170 m. each. Permitted draft: 8.84 m.

Storage capacity: 10,000 tonnes. These berths are also used for ores, coal and heavy minerals.

Installations and equipment: identical to those on the quays for ores, coal and heavy minerals.

Etang de Berre/La Mede:

Available berthing length: La Mede – 190 m. Berre – 560 m.

La Mede: 2 berths. Berre: 4 berths.

Access to these berths is limited by the depth of the Caronte Canal 7.32 m.

Port of La Mede: Cie Francaise de Raffinage (C.F.R.). Berth Nos. 744 and 746.

Refined oil products: 2 private berths (C.F.R.).

Name of Berth	*Berth No.*	*Type of installation*	*Available berthing length (m.)*	*Permitted draft (m.)**
West Berth	746	50 m. mooring units set out in lake	120	7.20
4	744	Pier	70	5.40

*Access to these berths limited by depth of Caronte Canal 7.32 m.

The installations of the Compagnie Francaise de Raffinage permit loading or unloading of 100–600 cu.m./h. according to product.

The installations of the C.F.R. are connected to tanks by pipelines of varying sizes under the waters of the Berre Lake and Canal from Marseilles to the Rhone.

Storage capacity: Depot of the Refinery of C.F.R. – 1,510,000 tons of refined products to which may be added 346,500 tons of crude brought by pipeline from the berths at Lavera and Fos to the Refinery.

Port de La Pointe de Berre: Cie. de Raffinage Shell Francaise (Berths No. 751 to No. 754). Refined oil products. 4 private berths.

Access to these berths limited to 7.93 m. by the depth of the Caronte Canal.

Berth Name	*Berth No.*	*Max. length (m.)*	*Permitted draft (m.)*
A	751	160	7.31
B	752	160	7.01
Salins Berth	754	160	7.01
South West (coasters)	753	80	4.80

The berthing installations of the Cie. de Raffinage Shell Francaise S.A. have connections to its tanks by specialised pipelines for the various products. They provide loading and discharge outputs from 120 to 2,500 cu.m./h. according to product.

Storage capacity: Depot of the Port de La Pointe de Berre 154,000 tons.

Storage area of the Shell Refinery 1,572,000 tons.

To the above capacities should be added 303,000 tons of crude oil brought by pipeline to the Shell Refinery from the Lavera and Fos berths.

BRIDGES: 1 railway bridge and 1 road bridge across Caronte Canal each having special times for opening. Ships of less than 21 m. height clearance may pass below the railway bridge. Motorway bridge over Caronte Canal with 44.60 m. clearance.

STEVEDORES: To enable Agent order gangs important obtain accurate ETA between 24 hours and 48 hours in advance. 2 shifts 0500 to 1300 hrs. and 1300 to 2100 hrs. normally 6 days a week. Confirmation to be made at 0900 hrs. for afternoon shift, and 1700 hrs. for next day morning.

MEDICAL: All hospital and medical facilities. Yellow fever inoculation made by appointed doctors. Masters to advise by radio prior arrival if medical attendance is required on board.

TANKERS: See "Berthing".

DENSITY: About 1028. Variable in Canal de Caronte and Etang de Berre owing to discharge of hydraulic plant of St. Chamas.

FRESH WATER: Available generally by pipes and hoses at the berths. Water barges available from Marseille.

FUEL: By barges for cargo ships and vessels in the Roads. Tankers at Lavera refuel by pipe-line at the berths. All grades available.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes every 5 days; wine/spirit: limited amount per man.

IDENTIFICATION CARDS: Seamen going ashore should carry passport or identity card.

FIRE PRECAUTIONS: Oil Harbour fitted with a system of 203 mm. (8 in.) or 254 mm. (10 in.) sea water pipes at 5 bars permanent pressure. It may be increased by pumping station up to 9 bars, and supply 500 cu.m./hr. Each wharf has 5 fire hydrants with first-aid equipment: fire hoses and spray nozzle, foam nozzle with powder cans. If fire breaks out on a ship, the hose handling gantries are protected by a screen of sprayed water. All fire equipment and installations are painted red.

There is a special fire-fighting Corps with fire vessel. Call for firemen 06.21.29 or in case of fire call Port de Bouc Control – phone 06.22.26 or 06.63.39 or VHF Channel 16.

GANGWAY/DECK WATCHMEN: Available but not essential.

OPENING/CLOSING HATCHES: Always by crew.

CONSULS: Norwegian, Swedish, Danish and Spanish consuls at Port de Bouc. Others at Marseille.

REPAIRS: Permission must be granted by Port de Bouc Harbour Master only.

DRY DOCKS: Nearest at Marseille.

REPATRIATION: All facilities for crew change and repatriation by railway or planes.

AIRPORT: Marignane Airport 40 km. and Nice Airport 230 km. (this last for SAS lines).

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: Same as "Marseille".

POLICE/AMBULANCE/FIRE: Police, 06.23.74 or 07.03.31; Fire, 06.21.29 or 06.28.37.

TELEPHONE: On application can be connected on board at Lavera. Telephone ashore in other places.

SHORE LEAVE: Allowed.

SHIP SUPPLY SERVICES: *Auxiliaire Maritime:* Monsieur Seguin Technical Manager – Phone: (42) 06 09 89, 20 Cours Landrivon, 13110 Port de Bouc, France. Telex: 430 274. Regular and spot launches service. Fresh water delivery (with barge).

Port Service: Monsieur Erick Ganaye, Operations and Technical Manager, Place de Narvik, Port Petrolier, 13117 Lavera, France. Phone: (42) 81 62 30, Telex: 401 305. Shinc boat service, Interpreters, spot helicopter service, watching.

Societe Citerna: Anse Aubran 13110 Port de Bouc, France. Phone: (42) 06 09 90, Telex: 420 730. Bunkering (with no limits of tonnage).

Societe Ouvrages Sous-marins et Portuaires: Monsieur Boscolo – Director, Anse Aubran, 13110 Port de Bouc, France. Phone: (42) 06 22 44. Telex: 400 035, SHinc diving operations – wet docking. Speaking English, German and Spanish.

AUTHORITY: Port Autonome de Marseille, Capitainerie des Bassins Ouest, B.P.200, 13528 Port de Bouc Cedex. *Tel:* (42) 06.22.26. *Telex:* 410789 PORFOS. *Cables:* PORFOS. *Contact:* Harbour Master.

(c) **FOS:** 43.24 N. 04.53 E. **(See Plan Book)**

DOCUMENTS:

Inward Declaration (Presented by Pilot on boarding).

1 Cargo Manifest or Manifest in Ballast.

Bill of Lading.

Ship's Register (if required).

6 Crew Lists (8 if Spanish or U.S.S.R. ship or ship bound for these countries).

3 Passenger Lists.

Health Declaration.

Derat Certificate.

3 Bunker Supply Forms.

Declaration of crew personal effects, cameras, binoculars, radios, cigarettes, tobacco, etc.

If on inspection, articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Compulsory. Contact by Marseilles radio or direct to pilot boat by VHF Channel 16 for calling, Channel 9 for traffic. Pilot boards in the roads between 2 and 2.5 miles S.W. of Bouc Tower or farther out if required. Motor launch, black hull, white cabin, white anchor on bow, flying "H" flag.

Port de Bouc Port Control, call on Channel 16, Channel 12 for traffic. Pilot boat on Channel 16 for calling and Channel 14 for traffic.

ANCHORAGE: It is recommended to ask for Pilot before anchoring in outer roads to avoid prohibited anchorages.

RESTRICTIONS: When large tankers are proceeding in the Fos Channel, other vessels' entrance may be delayed.

Access channel for very large vessels dredged to 22 m. over a width of 250 m.

Notice: *Port Authorities Instructions Concerning Fos/Lavera Tanker Areas.*

Special Notice No. 94/81.

Re: Berthing of Tankers Loaded with Naphtha or Gasoline.

Taking into account the recurring risks encountered with tankers discharging naphtha, super gasoline, gasoline or condensate, until further notice, it has been decided that only one vessel at a time, carrying said cargo, will be allowed to discharge in above areas of Port Autonome de Marseille.

For the time being these restrictions do not apply to coasters.

Furthermore, vessels concerned, whatsoever the year of building, will only be allowed alongside providing that pump room is clean, gas free and that no product is leaking at ship's valves or pumps.

Should above conditions not be fulfilled vessels could not be accepted in above areas.

MAX. SIZE: Max. draft at Oil Jetty 22.25 m.; Solmer in Dock No. 1 – 18.6 m.; Mineral Quay in Dock No. 1 – 14.93 m. Dock No. 2 – 13.0 m.

HEALTH: Pratique given by Customs Officers who board on arrival. In case of suspected disease on board, notify Agent by radio before arrival. See also "Marseilles".

RADIO: Within 150 miles, traffic should be routed through Marseilles Radio, FFM, otherwise via St. Lys. FFL.

VHF: Channel 16 for calling. Channel 12 for traffic and Channel 14 for pilot.

RADAR: Port and approach radar station.

TUGS: Tugs normally join vessel in the entrance channel. Ship's lines are used.

GENERAL CARGO FACILITIES: *End of the Mole Between Docks 2 and 3:* 1 berth (No. 870). Serviceable length: 110 m. Max. draft: 6.50 m.

This berth permits sea-going barges to come alongside and is reserved for stern-loading Ro-Ro vessels.

Gloria Basin: On the East side of the basin: The Brule Tabac Quay for miscellaneous traffic.

3 berths (Nos. 871-873).

Berth 871: Serviceable length: 221 m. Max. draft: 11.50 m.

It is equipped with a floating ramp for ro/ro traffic.

Berth 872: Serviceable length: 222 m. Max. draft: 11.50 m.

Berth 873: Serviceable length: 222 m. Max. draft: 10.80 m.

It is equipped with a floating pontoon, permitting access for stern-loading ro/ro vessels.

Equipment: 1 quayside railway for direct transhipment; 1×40 tonne Caillard gantry crane; 2×15 tonne mobile cranes; 1×8 tonne mobile crane; a storage area of 170,000 sq.m.; a transit shed of 9,000 sq.m.

In addition to the above equipment, the Port Authority's 500/600 tonnes floating derrick "Protis" is available for use in the harbour areas of Marseilles, Port Saint Louis du Rhone and Fos.

On the West side of the basin: A deep-water quay, the Gloria, whose construction is scheduled before 1985, will be able to receive vessels of ever-increasing size which cannot be accommodated at the quays of Port Saint Louis du Rhone.

Berth 821: Solmer finished products dispatch quay.

South Dock: Length 360 m. Max. draft: 11.89 m. Equipped with 2 cranes of 50 tonnes at 26 m.

Berth 859: Private berth at the end of Dock 2, serving the installations of the Compagnie Francaise d'Entreprises Metalliques (CFEM).

Length: 120 m. Max. draft: 5.00 m.

BULK HANDLING FACILITIES: Fuel, solid minerals, ores: 3 public berths and 2 private berths.

Public Berths:

1982 FACILITIES:

3 berths Q1 (No. 851), Q2 (No. 852) and Q3 (No. 853) in Dock 1 , West Quay:

Total length of quay: 884 m. Usable length of quay: 850 m. Max. depth of water at quay side berth: 16 m.

Largest admissible ship: Deadweight capacity: 100,000 d.w.t. (approx.). Length: about 300 m. Max. draft: 49 ft. (14.93 m.).

Equipment: (Capacities for products of density = 1.3)

For discharge: 2×20 tons bucket gantry cranes (P1.P2) (2×700 t.p.h. peak output). 2×15 tons at 30 m. reach, bucket cranes (K1.K2) (2×600 t.p.h. (peak output). 2×70 cu.m. hoppers connected to cranes.

For loading: 1 continuous loading gantry C1 (Aluminium Pechiney) (1,500 t.p.h. peak output). 1 continuous loading gantry C2 for ships up to 50,000 d.w.t. (1,600 t.p.h. peak output). 1 assembly loader (tilting conveyor with feeder) for ships up to 25,000 d.w.t. (1,500 t.p.h. peak output). 1 loading berth for river barges (800 t.p.h. peak output).

Conveyors: 1 fixed reversible longitudinal conveyor belt L1 (2 speeds: 1,600 and 2,000 t.p.h. nominal). 1 fixed reversible transversal conveyor belt T1 (1,600 t.p.h. nominal). 1 train of 7 mobile conveyors (PMA) with stacker (1,600 t.p.h nominal). 1 fixed longitudinal conveyor belt LP supplying loading gantry C1. 1 fixed import transversal conveyor belt T2 (2 speeds: 1,600 and 3,400 t.p.h. nominal). 1 fixed reversible longitudinal conveyor belt L2 (2 speeds: 1,600 and 3,400 t.p.h. nominal). 1 reversible fixed longitudinal conveyor belt L3 (1,600 t.p.h. nominal). 1 second train of 7 mobile conveyors with stacker (CARFOS) (2 speeds: 1,600 and 2,000 t.p.h. nominal. 3 mobile conveyors of 36 m. (1,600 – 2,000 t.p.h. nominal).

Storage: Buffer stock: approx. 7 acres. Storage area: approx. 21 ha. Covered storage: 3,840 sq.m. shed. Whole storage capacity: approx. 900,000 cu.m. (excluding buffer stock. 25,000 tons aluminium silo (Aluminium Pechiney).

Commercial throughput subject to product specific gravity and grade, type of vessel, operating conditions.

Discharge: Three shifts daily (20 hours work) commercial rate for products from specific density 0.8 (coal) to 1.3 (bauxite, sulphur): Using 2×20 ton bucket gantry cranes: 12,000 to 16,000 t.p.day. Using 2×15 ton bucket cranes: 7,000 to 10,000 t.p.day.

Loading: Hourly commercial output for products of 0.8 to1.3 specific density: With the loading gantry C1: 600 to 1,000 t.p.h. With the loading gantry C2: 800 to 1,300 t.p.h. With combined use of assembly loader (inclinable conveyor) and feeder: 300 to 600 t.p.h. On the river barge berth: 600 t.p.h.

Annual terminal throughput capacity between 4.0 and 4.5 million tonnes per year consisting of:

3.0 to 3.5 million tonnes incoming cargo. 1.5 to 1.0 million tonnes outgoing cargo.

DEVELOPMENT IN 1983.

Maximum water depth on berth Q2: Deepened to 17.50 m.

Largest admissible vessel: Deadweight capacity: 140,000 d.w.t. (approx.). Draft: 55 ft. (16.76 m.).

Equipment: For discharge: 1 Five Cail Babcock continuous unloader (P+) for vessels up to 150,000 d.w.t. Peak output: 2,200 t.p.h. (coal). 2,700 t.p.h. (bauxite).

River barge loading berth. A new river barge loading berth with commercial output reaching (100 m. long North End): 750 t.p.h.

Conveyors. 1 fixed transversal export conveyor belt T3 supplying either conveyor belt L3 to loading gantry C2 or river barge berth.

Discharging commercial output. Three shifts daily (20 hrs. work) commercial rate on a 140,000 d.w.t. bulk carrier for product of specific density 0.8 (coal). Using: 1 continuous unloader (P+) plus 1 train of mobile conveyors: 22,000 t.p.day. Using 1 continuous unloader (P+) plus 2×15 ton bucket cranes (K1.K2) plus high capacity storage installation: 28,000 t.p.day.

Annual terminal throughput capacity. Between 5.0 and 6.0 million tonnes per year consisting of: 4.0 to 5.0 million tonnes incoming cargo. 2.0 to 1.0 million tonnes outgoing cargo.

Until the high capacity storage installation is put into service, this traffic capacity can only be reached by increasing the turnover rates of existing storage areas.

A further quay and equipment is planned to handle much larger vessels to be operational in 1986.

DRY BULK EQUIPMENT: P.M.A. equipment:

2×20 tonne bucket gantry cranes. 2 cranes of 15 tonnes at 30 m. 6 fixed conveyors. 10 public and 7 private mobile conveyors. 2 stackers on tyres. 3 feeders with a capacity of 1,500 t.p.h.; 1 of these is privately owned. 1 ship loader of 1,000 t.p.h. capacity. 1 continuous unloader with a capacity of 28,000 tonnes per day will be brought into service in 1983.

Private equipment: 2 discharging gantry cranes on the Solmer import quay. 2 cranes of 50 tonnes at 26 m. on the Solmer export quay. 1 loading gantry crane of 1,500 t.p.h. conceded to a private firm (Pechiney Co.) with the obligation to give public service on the ore quay.

Private Berths: Two private berths (Nos. 811 – 812) in Dock 1 – Eastern Quay. Ste. Solmer reception quay.

Available berthing length: 640 m. Permitted draft: 18.60 m.

Annual capacity of loading or discharge:

Solid minerals, fuels – Coal: 3,000,000 tons/year.

Ores: 4,000,000 tons/year.

The Societe Solmer Quay is equipped with 2×40 ton gantries, each having an hourly rate of discharge of 2,000 tons.

Storage Capacity: Fuel, solid minerals, Coal: 350,000 tons.

Ores: 1,000,000 tons.

Societe Solmer has a quayside open area of 360,000 sq.m. for the receipt and storage of coal and ores.

LNG FACILITIES:

At Dock No. 1. (Berth No. 830) (Owned by Gaz de France).

Length available for berthing 180 m. Max. draft 9.75 m.

2 storage tanks, for LNG in the liquid phase (−160° C.), each with a capacity of 35,000 cu. m. (1,235,500 cu. ft.) and 1×80,000 cu.m.

The pumps on the LNG Carrier discharge through articulated pipes of 300 mm. diameter (11.8 in.), 3 are specifically for discharge; one is to return the methane, in the vapour phase to the carrier.

After warming up from the liquid phase, with the addition of nitrogen to conform with the value in the French Gas Grid, the gas, in the vapour phase, is despatched by pipe-line to the underground storage at Tersanne, 214 km. from Fos (134 miles), and to Marseilles and the Cote d'Azur.

LPG FACILITIES: *Propane:* Geogaz's underground storage of 120,000 cu.m. at Lavera is connected directly by pipe-line to the oil refineries and the port

Butane: The construction of underground storage of GEOBUTANE at Lavera commenced in May 1982. Its original expected capacity of 170,000 cu.m. can now be raised to 230,000 cu.m. following a positive geological survey.

Reshipment Traffic: Over the past four years the port has established an international reputation for its technically delicate operations.

CHEMICAL PRODUCTS: One privately managed berth on the East quay of Dock 2, providing the facilities of the PCUK Company (Berth 858):

Serviceable length: 90 m.; Max. draft: 10.80 m.

This berth is reserved for the export of chemical products such as vinyl monomer chloride and washing soda.

CONTAINER HANDLING FACILITIES:

4 berths (Nos. 862–865) in Dock 2, Graveleau Quay.

Available berthing length: 910 m. Permitted draft: 13.00 m.

Annual loading or discharge capacity: 150,000 containers, i.e. 2,500,000 tonnes (approx.) (20 ft. and 40 ft.)

P.M.A. equipment: 5 Paceco quayside gantry cranes of 40 tonnes, capacity 20 – 25 containers p.h.

Private equipment for handling containers on ground surfaces:

2 transtainers (on tyres) capable of stradling 6 rows, 4 high, plus 1 service road and of lifting 40 tonnes; 15 front-lifters with 40 tonne lifting capacity; 6 fork-lift trucks with 12 tonne lifting capacity; 2 fork-lift trucks with 10 tonne lifting capacity; 10 fork-lift trucks with 3 tonnes lifting capacity; 32 park tractors with adjustable couplers; 77 skeleton trailers for containers.

Storage capacity: 15,000 containers i.e. 225,000 tonnes (approx.) (20 ft. and 40 ft.). Users have at their disposal a storage area with a total surface of 27 hectares.

Annual capacity of output or input: 150,000 containers (20 ft. and 40 ft.) i.e.: 2,000,000 tonnes (approx.) by lorries or railway. The French Railways Transcontainers terminal has 2 gantries on open areas with lifting capacity of 40 tonnes.

The terminal also has: A control centre of 2,000 sq.m.; 2 service areas of 200 m.×70 m.; a stuffing and unstuffing area of 3,200 sq.m. comprising 2 sheds of 25 m.×20 m. each.

TANKERS: Chicksan loading/discharge arms fitted at all berths. Ballast discharge ashore through pipe-line. Tank cleaning slop or oil residue not accepted through shore line, but can be disposed of by barge from Marseilles. Possibility of crude cleaning for vessels with inert gas system if cleaning does not exceed time of discharging operations.

Crude: 6 public berths, of which 2 are multi-purpose 0 and 0 Bis (Nos. 800 and 807).

Designation	*Berth No.*	*Berthing Length* (m.)	*Max. Draft* (m.)
0	800	250	12.80
0 Bis	807	250	12.80
1	801	370	20.58
2	802	350	18.90
3	803	420	22.25
4	804	420	14.00

Berths 0 and 0 Bis (800 and 807) are equipped to handle either export or import of refined products, or the loading of crude oil from a tanker moored at one of the berths 1, 2 or 3 (Nos. 801, 802, 803).

Berths 1, 2 and 3 (Nos. 801, 802, 803) are for receiving crude oil only. Berth 2 (No. 802) is specially equipped to tranship, by using special pipe-lines, crude oil from a vessel alongside at Berth 1 (No. 801) and No. 3 (No. 803).

Specialised lines, dependent upon the nature of the products, connect these berths to the oil depot of Fos, to the CRAU depot (Shell-C.F.R.-B.P.) to the Esso refinery and to the S.P.S.E. terminal, all located in Fos.

Storage Capacity:

S.P.S.E. Terminal	2,660,000 cu.m.
CRAU Depot	1,910,000 cu.m.
Esso Refinery	1,040,000 cu.m.
Total:	5,610,000 cu.m.

Berth 4 (No. 804): Located at Mole No. 2 of the oil terminal, offers in a primary stage a depth of water of 15 m. to be increased to 17 m. The berth is intended for berthing in ballast of vessels of 550,000 d.w.t. for washing out tanks prior to repair.

It also permits the reception of crude oil imports and the transhipment of crude from tankers moored at Berths 801, 802 and 803.

The maximum permissible draft is at present 14 m.

The berth is connected to the new deballasting station by a 20 in. diameter pipe-line. During the current first phase of development, this station treats only ballast of low oil content.

The berth can also be used for discharging crude from tankers with drafts up to 14.02 m., and is equipped with one 42 in. diameter discharge pipe and two 16 in. diameter discharge arms.

During the current first phase of development, this berth is not equipped with refueling pipes or boarding towers.

Refined Products: 4 berths of which 2 are multi-purpose – 0 and 0 Bis (Nos. 800 and 807).

Designation	*Berth No.*	*Berthing Length (m.)*	*Max. Draft (m.)*	*Remarks*
0	800	230	12.80	Public
0 Bis	807	200	12.80	Public
C.2	808	100	6.30	Public
Solmer	821A	100	5.50	Private

Independently of the receipt of crude oil, berths 0 and 0 Bis are equipped to handle either refined product import or export traffic, or the loading of crude oil from tankers berthed at berths 1, 2 and 3 (801, 802, 803).

Berth C.2 (No. 808) specialises in loading refined products on coastal vessels and the Solmer berth specialises in the receipt of fuel oil.

Storage Capacity:

Fos Oil Depot	522,000 cu.m.
Esso Refinery	1,023,000 cu.m.
Total:	1,545,000 cu.m.

BALLAST: *Deballasting Station:* This station is situated to the rear of the oil jetties; in the current phase of development it treats ballast of only low oil content.

Its main characteristics are as follows:

Primary separation: 4,000 cu.m/hr., with apparatus for removing sediment and the oil recovered.

Intermediate storage in a basin of 80,000 cu.m., 320 m. long by 108 m. wide by 3.50 m. deep.

Secondary separation capable of rejecting water containing less than 5 p.p.m. of crude oil and petroleum products (by infra-red measurement) with a throughput of 250 cu.m/hr.

Storage of oil-rich mixtures (slops) 4×360 cu.m.

Auxiliary installations (fire).

Storage of oil-rich mixtures, 4,520 cu.m. will shortly be in service.

FIRE PRECAUTIONS: A special fire fighting corp. operates at Fos. Tel: 062129 or Port De Bouc Control on VHF Channel 16 or Tel: 066339.

FRESH WATER: Available by pipe-line at all berths.

FUEL: Available by barge only.

MEDICAL: All hospital and medical facilities. Yellow fever inoculation made by appointed doctors. Masters to advise by radio, prior arrival, if medical attendance required on board.

REPAIRS: Ore berth can be used as a repairs berth when not required for cargo operations. Permission must be obtained for tanker repairs. No tankers repairs if vessel is not gas free. Permission given by Harbour Master only.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes every 5 days. Wine/Spirits: limited amount allowed per man.

CONSULS: Norwegian, Swedish, Danish and Spanish Consuls at Port de Bouc. Others at Marseilles.

AIRPORT: Marseilles/Marignane Airport about 60 km. distance.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

TELEPHONES: On application, telephones can be connected on board.

AUTHORITY: Port Autonome De Marseille, Capitainerie Des Bassins Ouest, B.P. 200, 13528 Port De Bouc Cedex. *Tel:* (42) 062226. *Telex:* 410789 Porfos. *Cables:* Porfos. *Contact:* Harbour Master.

NANTES: 47.14 N. 01.34 W.
ST. NAZAIRE: 47.17 N. 02.12 W. inc. DONGES: 47.18 N. 02.04 W. and MONTOIR: 47.18 N. 02.08 W.

(See Plan Book)

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Compulsory for vessels longer than 225 ft. owning radar/-VHF. Starts about 4 miles North of lighthouse of Le Pilier, on lightbuoy "SN 3". Pilot boat on station day and night, if weather conditions permit, West of a line drawn between "SN 3" lightbuoy and lightbuoy of "La Couronnee" about 2 miles N.N.E. If Pilot unable to come aboard he may invite ship to follow his boat until they have reached better shelter. Ships heading for one of the Loire estuary ports should give ETA at least 24 hours before arrival to Port Captain of Saint-Nazaire. Approximate time of arrival at "SN 3" buoy, the onward destination and speed should be given. VHF contact can be made direct with St. Nazaire pilot boat or "Estuaire de la Loire" pilot station.

ANCHORAGE: When Pilot service withdrawn, anchor near "SN 3" lightbuoy or in "Rade des Charpentiers". In rough sea ships heave to off harbour. In case of doubt contact pilot boat by VHF or phone. Sometimes Pilot taken aboard on "SN 3" is relieved by another who will board near the outer port of Saint-Nazaire or bring ship upstream. Vessels are not allowed to anchor before Quay Emile Cormerais and Chevire Power Station Embankment (cables).

MAX. SIZE:

St. Nazaire: South Entrance Lock: Max. LOA 200 m. Max. draft 9.30 m. Max. beam 28 m.

Montoir: Length 270 m., max. draft 17 m., minimum 15.50 m.

Donges: Length 350 m., max. draft 17 m., minimum 15.50 m.

Nantes: Length up to 225 m., max. draft 10.05 m., minimum 8.55 m.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive Free Pratique Master should radio Agent before arrival, advising full details.

RADIO: St. Nazaire Radio operates on 1687 MHz. It keeps a continuous watch on VHF Channel 16 and 2182 kHz.

VHF: VHF Radiotelephone must be used for giving information and obtaining clearance to navigate from the Harbour Master.

The following Channels and frequencies are used:

Channel 16	Frequency: 156.8 MHz
Channel 12	Frequency: 156.6 MHz
Channel 6	Frequency: 156.3 MHz

The Pilots can be contacted on VHF Channels 16 and 12.

A continuous watch is maintained on Channel 16.

RADAR: The radar service can be contacted on VHF Channel 16.

TUGS: *Nantes:* 4 "Abeille" tugs 500 to 550 h.p.

Donges – Montoir – St. Nazaire: 7 tugs 1,250 to 3,200 h.p. They are provided by "Union des Remorqueurs de l'Ocean".

BERTHING:

St. Nazaire: Is a port with locks. Max. draft: 31 ft. (vessels up to 20 – 25,000 d.w.t. in the best conditions of tides).

Dock Water density: 1003 to 1025.

Length of quay: 2,700 m.

Number of berths: 15.

Numerous cranes up to 12 tons and a 400 ton derrick.

Traffic: Timber, heavy loads, metallurgical products, refined products, fertilizers, grain (capacity of the grain silo: 10,000 tons. Loading rate 400 t.p.h.), oil seeds, phosphates, wine. Tanker berth – Deballasting station. Ro-Ro operations can be carried out.

Montoir: Port Authority use own steel cables to supplement ship's ropes.

Dock water density: 1000 to 1020.

Specialized facilities:

Ro-Ro berth – Max. LOA 130 m. Warehousing and 36,960 sq.m. of back up land.

LNG: 2 privately managed berths can receive gas-carriers up to 125,000 cu.m. Also see "Shipmasters Report" dated "June 1980".

Dry bulk: Length of quay 630 m., cranage 2×15 tons, 5×15/30 tons average throughput per crane 500 t.p.h. Storage facilities.

Traffic: Oil seeds, oil cakes, timber, coal.

Liquid chemicals: Connections for acids and liquids, molasses average throughput: 600 t.p.h.

Container Terminal: Length of quay: 160 m., max. draft 12.0 m. Storage facilities, 2×25 ton cranes. Ro/Ro vessels with side ramps also berth. 24 power points for refrigerated containers.

Coal: A coal berth is operational to receive ore carriers up to 140,000 d.w.t., rate 2,500 t.p.h.

Donges: Mooring of vessels to the docks No. 0, 1, 2, 3 is performed with ship's ropes. On docks No. 4, 5 and 6, Port Authority use own steel cables to which ship is secured to supplement her own ropes.

Berths Nos. 5 and 6: To reduce the time of mooring a special mooring gang can be put at Master's disposal for arrival and departure. Arrangements must be made 48 hours in advance of this service. Permanent watch on VHF Channel 16 is recommended.

Tanker berths: Can receive fully loaded tankers of 120,000 – 140,000 d.w.t. or the 280,000 d.w.t. lightened. Number of berths 6.

4 berths are designed for handling refined products and LPG. Throughput: 1,500 to 5,000 cu.m./hr.

2 berths are designed for discharging crude oil. Throughput: 10,000 cu.m./hr.

Crude connections: No. 5 berth 4×12 in. Chicksan arms, 12 holes type 150 lbs. No. 6 berth 5×12 in. Chicksan arms. 12 holes type 150 lbs. Reducers available, notice required prior to arrival.

Bunkering lines: No. 5 berth 8 in. Chicksan arm with 6 in. connection. No. 6 berth, 6 in., 8 in., or 12 in.

Paimboeuf: On the South Bank opposite Donges. One berth length 183 m., max. draft at LW. 4.5 m. Berth can accommodate 2 small vessels of 80 m. length or 1 vessel of 120 m. length. The berth is used as a waiting berth for oil barges and small vessels.

Nantes: Vessels may be moored with bow facing up or downstream. During heavy flood periods, however, bow to face upstream.

Dock water density: 1000.

Quai Chevire: Traffic: Timber and containers. 3 berths. Cranes up to 25 tons. Two 15 to 25 ton cranes are able to operate together, providing a 25 ton to 45 ton lifting capacity. Spreader available for handling 20 ft. containers (about 20 containers per hour). Storage facilities.

Quai Wilson: Length 1,472 m., 13 berths. Traffic: Heavy loads and containers in the Eastern part.

Phosphates, coal, pyrites, sulphur, salt, sugar, fruits and vegetables. Storage facilities. Numerous cranes up to 60 tons capacity.

Quai Roche-Maurice: 6 berths. Cranes up to 6 tons capacity. Discharging: phosphates, grains (loading rate 700 t.p.h.), molasses, fertilizers. Storage capacity of the grain silo: 80,000 tons.

Additional facilities for discharging oil and coaltar, chemical products, wine and various cargoes, length of quays: 1,500 m.

CRANES: 60 ton heavy lift crane at Nantes. 400 ton derrick at St. Nazaire.

BRIDGES: Vessels coming up the river to Montoir, Donges and upstream pass underneath the St. Nazaire bridge: Clearance 61 m.

STEVEDORES: Available.

MEDICAL: Facilities available at any time.

TANKERS: See "Berthing".

Degassing and deballasting operations possible at St. Nazaire, capacity 1,700 cu.m./hr.

FRESH WATER: Available at docks.

FUEL: Available in any grade or viscosity. Advance notice of at least 2 days must be given if vessel has to bunker on Saturday or Sunday. Otherwise, delivery within 36 hours by barge.

FIRE PRECAUTIONS: Usual precautions for tankers in neighbourhood of refineries. No fire, no smoking, Ground wire for ship.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Done by crew.

IDENTIFICATION CARDS: Not needed.

CONSULS:

Algeria	74.38.19	Netherlands	47.16.31
Belgium	71.57.10	Norway	71.33.35
Brazil	47.72.21 22.41.46	Portugal Spain	73.05.04 48.67.95
Denmark	71.89.13	Sweden	(46) 34.00.67
Finland	75.53.08	Switzerland	71.67.66
German (Fed. Rep.)	73.29.46	Tunisia	71.10.52
Greece	73.46.13	Great Britain	71.08.50

REPAIRS/DRYDOCKS: Very good facilities exist for all types of repair work.

St. Nazaire: "L. Joubert" graving dock, length 350 m., width 50 m. Dock can accommodate ships up to 240,000 d.w.t.

Repair pier: Dredged bed size: 720 m× 60 m; depth 8 m. Can accommodate ships up to 250,000 d.w.t. Waiting Station. Deballasting station.

Dry docks: No. 1 Ships up to 40,000 d.w.t. No. 2 Ships up to 1,500 d.w.t. No. 3 Ships up to 6,000 d.w.t.

Nantes: One 4,500 ton floating dock accommodating ships up to 130 m. long. One careening unit of 1,700 ton accommodating ships up to 100 m. long.

CUSTOMS ALLOWANCES: Tobacco: 300 cigarettes or 75 cigars. Wine; 7 pints. Spirits: up to 22° – 5.3 pints, beyond 22° – 2.7 pints. Coffee: 26 ozs. Tea: 5 ozs.

AIRPORT: *Nantes:* Good connections with French internal network (Air Inter) and also international, mainly with stop-over Paris. 5 daily flights to the capital. Direct flights to Bordeaux, Lorient, La Rochelle, Lyon, etc.

St. Nazaire: 2 daily flights to Paris.

TIME: GMT plus 1 hour, seasonal alteration.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 18.

TELEPHONE: Arrangements are possible.

SHORE LEAVE: No restrictions.

SHIPMASTER'S REPORT: June 1980.

Montoir: (Discharging ammonia) – See Plan Book.

Approaches: BA. 3216, 2989 and 2647, outer coverage not very good. Arrived in good visibility so shore lights gave good positions. Ile de Yeu does not show up very well on the radar until only about 16 miles off. The light on Ile de Yeu is listed on different charts as having different characteristics and in fact agreed with that in the Light List. The mainland showed up for some considerable distance but no worthwhile details were identified until well up to "SN1" buoy.

The light on "SN2" was seen about the same time as "SN1" and is much brighter. Both buoys were seen on radar at ten miles. As there are many fishing vessels, identification of these buoys in poor visibility would require a great deal of care.

Once in the "tanker channel" proceed to the pilot station as indicated on the chart.

NOTE: Remember the standard message to "Surnav France" for a tanker carrying hydrocarbons.

Pilotage: Contact made on Channel 16, working Channel 12. Good communications.

Pilot cutter is a large vessel which will come close alongside and send away a small boat. Pilot ladder virtually to the water.

The cutter surprised us by steaming towards us at full speed and we eventually met some 3 miles West of the boarding area.

Vessel may only berth (and unberth) at slack water at Montoir. Being loaded means having to arrive at the top of the tide, although if in ballast one may sail at low slack water. Should any supertankers be moving at that time, presumably having booked their tide first, vessel will not be allowed to sail. The Pilot could not confirm whether incoming ships had priority.

NOTE: Unberthing tugs and Pilot to be booked by 1800 hrs. for the following morning. Cost if unable to meet that particular slack water after ordering, in excess of £1,000 (Sterling).

Three tugs used for berthing and unberthing; tugs lines, 1 forward, 1 aft and 1 pushing amidships. Backsprings sent away first.

When unberthing vessel moves upstream to turn.

Mooring boat to handle ropes.

NOTE: There were a lot of buoys which are not marked on the chart due, no doubt, to extensive dredging operations and spoil ground dumping.

Length of pilotage to first line ashore 1 hour 30 minutes.

Berth: Consists of a small "T" jetty with a line of dolphins standing proud of it by 1.5 m. These extend from just forward of the accommodation to No. 1 tank dome, 150 m. approx.

Mooring arrangements were adequate and the linesmen were reasonably adept.

Shore gangway must be used.

It is necessary to rig the low extension to the liquid manifold as the shore chicksan has insufficient upreach. Invariably berthing port side alongside.

Storing: Prior to this call the berth operators allowed vessels to take on provisions and foodstuffs but port regulations forbid the loading of machinery items or heavy lifts during discharge.

The derrick only plumbs the after corner of the "T" jetty and all items have to be manhandled from the gate to the derrick hook.

If any items of machinery are to be landed or loaded, it is necessary to do this either before discharge or after completion; the port authorities insist on the chicksan being disconnected, merely stopping discharge is not sufficient.

Similarly they will not allow a fork lift truck to operate on the berth during pumping operations.

Lube oils were taken at this call and we were able to continue this during discharge, simply because the lines were connected before the chicksan and the lorry was still parked outside the jetty access.

However, after discharge, protest was made against the very low discharge rate and frequent stoppages; the berth operators were most upset by this and have sworn that NO STORING will be allowed there in future. This situation will obviously have to be checked very thoroughly in the event of having a large storing/lube oil programme. Barges are not allowed alongside during discharge.

Discharge: As already noted the low load/discharge line must be rigged on the port side prior to arrival.

There is no vapour return line. Ship supplied 10 in. reducer.

Storage capacity ashore is about 25,000 tonnes.

On arrival there was only a reported 2,000 tonnes in the shore tanks and they were therefore warm with consequent problems for the initial discharge. Apparently these tanks are loaded from the top, the liquid being allowed to free fall to the bottom. In the first 24 hours the discharge rate was little more than 80 t.p.h. and there was a total of 5 hours 29 minutes stoppages at shore request. We could not discover whether this was usual or if it was due to some uncommon machinery defect.

On boarding, the receivers quoted a maximum rate of no more than 400 t.p.h. and probably no more than 300 t.p.h. In fact, once the shore problems were resolved we rapidly increased to 550 t.p.h. and then up to 800 t.p.h. at times. At all times ship discharged to shore requirements, shore personnel at the chicksan communicating with the officer of the watch, but only by coming on board. No telephone contact, no walkie-talkie.

A telephone was put on board by the Agents.

Port Regulations require ship to maintain continuous VHF watch on Channel 16.

Receivers originally requested vessel to blow through lines on completion but this was not required.

Overall discharge rate 365 t.p.h.

Surveyor: Redwoods, figures taken on gauging of ship's tanks.

General: Fresh water available from quay, not costly.

Bunkers must come by barge, usual restrictions.

No film exchange possible unless with another vessel. If the depots at out ports have sufficient it may be possible to carry out an exchange if ample warning is given.

Chandler was quite good but closes over the weekend, plenty of warning should be given for unusual items.

Access to St. Nazaire by taxi, about 50 francs.

Papers: 2 Crew Declaration. 2 Stores and Bonded Stores Lists. Port Health Form; their own form, spares supplied. 1 Passenger Declaration, made up on board.

Applied for radio pratique but this was not granted prior to arrival.

Agents: Very good, very helpful with good representation on board. Local office in Donges, main office at Nantes.

Ballast: The river water is very dirty indeed, flood only being marginally less so than the ebb. High injection points only should be used.

If at all possible ballasting should only be carried out from about half flood to just beyond HW to minimise the amount of deposits within the ballast tanks. Even then an immediate programme of flushing tanks should be put into effect on clearing the river.

Density varied between 1025 and 1010.

AUTHORITY: Port Autonome de Nantes – St. Nazaire, 2 Place de L'Edit de Nantes, B.P. 1053, 44037 Nantes-Cedex. *Tel:* (40) 89.19.94. *Telex:* Poronom 700425 F. *Contact:* Harbour Master – Upstream: 18 quay Ernest Renaud, 44000 Nantes. *Tel:* 71.70.70. Downstream: 3 bis, boulevard de Verdun, 44600 Saint-Nazaire. *Tel:* 22.35.22.

AGENT: Jolasry (France), 44 Boulevard Paul-Leferme, Saint Nazaire. Telex: 71931. Tel.70-01-18.

NICE: 43.42 N. 07.17 E. (See Plan Book)

PORT LIMITS: The Port is situated in the N.E. part of the Baie des Anges (Bay of Angels) between the castle hill and the Boron Mount which form at the Nice Cape a rocky promontory towards the South.

DOCUMENTS: The Master of a vessel, when he arrives, is required to fill out an entry declaration, a copy of which is handed to him by his Agent or by the Port Captaincy.

A Crew List and a List of Passengers intended for the Port Commissariat must be drawn up before arrival at the port.

All documents required by marine regulations, i.e. health declaration, manifest, vessel's safety plan etc., . . . are required by the port services.

PILOTAGE: The pilot station operates 24 hours a day and is attended by 3 licensed Pilots. Pilotage is obligatory for vessels of LOA 50 m. and over. Pilotage is exempt for vessels of less than 50 m., and if they are equipped with VHF, vessels of less than 70 m. The licence of Pilot is valid for vessels of a length equal to or greater than 120 m. equipped with a bow thruster and VHF. Specialised vessels carrying liquid oil, gas, and toxic products are subject to pilotage.

The pilotage area of Nice-Villefranche extends as far as 3 miles from the coast between the meridians of the left bank of the Var (07° 12′ E.) and of Cap Ferrat (07° 20′ E.). Vessels must, if possible, give warning of their arrival 24 hours in advance, particularly if they intend arriving during night-time hours.

Pilots may be called up by regulation signals during the day and night or by radiotelephone to Grasse Radio or Monaco Radio both stations on VHF Channel, telephone Nice Station (85 52 41) or to the Port Captaincy (Tel. 89 50 85).

ANCHORAGE: The coast being very rocky, does not allow anchorage close to the port. The Villefranche Roads, on the other hand, offers a sheltered zone, giving very good anchorage facilities. In the Villefranche Roads, 2 buoys can be used with the permission of the Nice Captaincy, by vessels merely calling at the port or waiting for a place on the quay at the Port of Nice. There is access for vessels of all dimensions.

RESTRICTIONS: The transport and handling of dangerous or infected materials, within the limits of the Nice Port, are subjected to the requirements of decree of the 1st February 1951 which controls the transport and handling of dangerous materials in maritime ports. There is no operation in this respect at night.

All operations, prescriptions, order and stipulations as laid down in the general regulations and the local regulation covering "Port Services" are governed by the Port Commandant.

MAX. SIZE: The commercial port is accessible to vessels of 137 m. in length and 6.50 m. draft.

HEALTH: Health control at the frontiers is subject to the measures prescribed by the international health conventions; the functions of health police and health guard are entrusted to an Agent in the service of Customs and Excise. Urgent medical help can be obtained through the intermediary of the radio stations of Monaco and Grasse who establish contact directly with the department concerned.

VHF: From 15th June-17th October a Port officer is on duty 24 hours a day and listens on Channel 16.

From 17th October-15th June a Port Officer is in attendance from 0500 hrs. until the last movement. In case of urgency at night the Port Commandant can be contacted by telephone.

There are 2 Channels, i.e. 9 and 12 for communication purposes. No communication of a private nature may be handled.

RADIO: None.

RADAR: None.

TUGS: None.

BERTHING: Length of usable quays 1,600 m. having a depth of 5.0 m. – 7.50 m. and 10 berths available.

CRANES: Quai Infernet: 2×5 tons cranes on rails (scoop and hook).

Ribotti: 1 crane on rails of 3 tons capacity (hook).

Commerce: (Commercial Quay) 2 cranes on rails of 6 tons capacity (scoop and hook).

Commerce: (Commercial Quay) 2 hoppers of 50 cu.m. capacity – on rails. 2 Nellen cranes on tyred wheels, capacity 4.2 tons at the end of the jib and 8 tons at 6 m. (with tackle block).

CARGO HANDLING FACILITIES:

Material Handling Equipment: All the handling equipment is supplied by the stevedores. 1 forklift of 4 tons capacity and 11 forklifts between 4 and 8 tons capacity.

Storage Facilities: 45,000 sq. m. of open air areas. Specialised equipment for the discharge of bulk equipment (pyrite, clinker, mineral etc.)

1 specialised berth equipped with a vat-type storage system, for bulk liquids (oil or wine).

Unloading or loading capacity – cement 1,400 tons per day; various: 400 tons to 700 tons per day and per gang; ores in bulk: 1,200 tons per day with 2 hoppers, 2 cranes and 2 gangs. Bulk liquids 20 tons per day.

Facilities for Specialised Goods: 2 adjustable platforms for Ro–Ro traffic. Height of quays 1.23 m. and 3.06 m.

BRIDGES: None.

STEVEDORES: 87 professional dockers; 10 occasional dockers.

Employer – Bureau Central de la Main d'Oeuvre (B.C.M.O.) of the Port of Nice.

MEDICAL: Hospitals are situated in the town and give excellent treatment in the case of accidents or illnesses of any nature whatsoever.

Passengers coming from foreign countries are required to abide by the prescriptions of international agreements (vaccination certificates, health certificates, etc.).

TANKERS: No specialised installations. Only vessels carrying black products are accepted where the load does not exceed 2,000 tons. They may come alongside one of two quays specially designated for this purpose.

DENSITY: *Salinity:* Varies between 34 gm. and 38 gm. per litre.

FRESH WATER: It is possible to take on fresh water at all quays by connection to the main supply. Average rate of supply 15 t.p.h. – price 3.57 Fr. per ton.

FUEL: All types available.

FIRE PRECAUTIONS: The town provides fire fighting facilities. The fire station is close to the Port.

CONSULS: Algeria, Germany (Federal), Austria, Belgium, Brazil, Colombia, Ivory Coast, Republic of Benin, Denmark, Dominican Republic, Spain, U.S.A., Finland, Gabon, Greece, Ireland, Iceland, Italy, Liberia, Luxembourg, Mauritania, Monaco, Niger, Norway, The Netherlands, Peru, Philippines, St. Marino, Sweden, Switzerland, Tunisia.

REPAIRS: All possible deck and engine repairs can be carried out. There is no dry dock. Hull careening is carried out by underwater procedure.

SURVEYORS: Lloyd's of London, The Coasting Mediterranean Company, The Venturer Company, Weir (S.A.), Societe Azureenne de transports et d'affretements Maritimes, Societe Nationale Maritime Corse, Mediterranee, Pittaluga & Co., Martini & Co., Cie Charles le Borgne, Cie Fabre, Cie Fraissinet, Cie Messageries Maritimes, Nautilus Line, Barry Rogliano et Cie.

HATCHES: Hatches are opened and closed by crew.

CUSTOMS ALLOWANCES: 30 cigarettes per person per day; 1 litre of aperitif per 6 persons per day.

REPATRIATION: Airport and railway network in the town.

AIRPORT: International Airport 4 km. from the Port. Principal countries are served by international airlines.

TIME: GMT plus 1 hour (Winter). Summertime kept from April to October.

HOLIDAYS: These are staggered as far as dockers are concerned so that there is continuity of operation.

POLICE/AMBULANCE/FIRE: Police tel. 55 91 22 and 17; Ambulance tel. 89 70 70 and 18; Fire Brigade tel. 89 80 80 and 18.

TELEPHONES: Telephones can be installed on board at Papacino Quay, Entrecasteaux Quay, Quai du Commerce, Quai de la Traverse, and Quai Ribotti.

SHORE LEAVE: Crew members may disembark after checking with Police.

IDENTIFICATION CARDS: For foreign seamen a permit to come ashore is issued by the Port Police.

GENERAL: There is a bus and taxi service very close to the port also there are coastal trading entities within the Port precincts.

AUTHORITY: Departement des Alpes-Maritimes, Direction de l'Equipement, Subdivision Maritime, 2 Quai d'Entrecasteaux, B.P 3, 06 Port de Nice. *Tel:* 89.44.90. *Contact:* E. Bovis, L'Ingenieur des T.P.E., Chef de la Subdivision MAR. I.

PARIS: 48.51 N. 02.30 E. (See Plan Book)

PORT LIMITS: Within 1 km. of loading or discharging berth or, if occupied by another vessel, where the Pilot will place the vessel in agreement with the consignees.

DOCUMENTS: As Rouen is considered as the frontier port for vessels entering or leaving the Seine above this port (estuary to Rouen is known as "Seine Maritime", Rouen to Paris and beyond as "Seine Fluviale"), documents relating to vessel, crew, passengers, cargo, health, etc., are exactly the same as for Rouen and must be presented to the Agent on arrival in this port. If the vessel has never traded to ports inland from Rouen, technical inspection may be carried out in Rouen on first voyage.

PILOTAGE: As for Rouen, except that in spite of Rouen Agents being notified by Le Havre pilot station of vessels' time of entry into Seine and ETA Rouen, also in most cases of the final destination of vessel, Masters should notify by radiotelephone Rouen Agents before entry into Seine of the final destination so that "Seine Fluviale" Pilots are waiting to take the vessel from Rouen to inland destination.

ANCHORAGE: See "Rouen".

RESTRICTIONS: Above Rouen, night navigation possible on request to Rouen Agents.

MAX. SIZE: 120 m. length, 15.5 m. beam, 3.5 m. draft up to Paris; beam reduced to 11.4 m. and draft to 3.0 m. on River Oise and River Marne up to Bonneuil or even 2.8 m. on River Seine beyond Paris; airdraft is limited at 8.75 m. up to Seine and Oise Junction, at 7.7 m. up to Gennevilliers, at 6.0 m. beyond Paris, on River Oise and River Marne up to Bonneuil and at 5.5 m. on the upper section of River Seine (Montereau facilities).

HEALTH: See "Rouen".

RADIO/VHF: Vessels arriving in Seine Estuary are automatically notified to Rouen Agents. Any special messages to inland Agents or Receivers should be made by radiotelephone direct or via Rouen Agents, or by VHF to Rouen Agents when in "Seine Maritime". Pilot can always help Masters to send these messages via pilot stations. In the "Seine Fluviale" all locks have VHF and telephone by which messages can be relayed in case of accident, breakdown or delays. Pilot notifies inland Agents by telephone of such incidents.

RADAR: There is no radar service in the "Seine Fluviale". Bridge piles are equipped with radar reflectors.

TUGS: No offical tug service on "Seine Fluviale", but in case of breakdown, local tugs may be hired.

BERTHING: Many public or private facilities may be reached; main public ones are:

Quay	*Quay Length* (m.)	*Draft* (m.)	*Shed Capacity* (sq.m.)	*Remarks*
Bonneuil	3,500	3.0	21,000	Container terminal with 40 ton mobile crane.
Gennevilliers	8,000	3.5	84,000	Container terminal with 35 ton gantry and 12 ton trailers which can handle all containers from ship, barge, lorry or rail truck; ro-ro and heavy lift facilities.
Conflans-Ste Honorine	1,400	3.5	—	
Limay	1,600	3.5	17,000	3×20 ton travelling cranes.
Saint-Ouen l'Aumône	200	3.0	—	
Bruyères-sur-Oise	600	3.0	—	

CRANES: All types of cranes available from leasing or handling firms.

BULK CARGO FACILITIES: 3×1,000 t.p.h. bucket wheels for coal unloading at Vitry-sur-Seine, Champagne-sur-Oise and Porcheville power stations.

SPECIALISED CARGO HANDLING FACILITIES: Containers handled at Gennevilliers and Bonneuil-sur-Marne; Ro-Ro facilities at Gennevilliers (cars) and Evry (heavy loads); reinforced quay for heavy loads at Gennevilliers.

BRIDGES: See "Max. Size".

STEVEDORES: Available.

MEDICAL: See "Rouen".

DENSITY: River fresh water beyond the first lock.

FRESH WATER: Available at most quays.

FUEL: One barge delivers fuel and water.

CONSULS: Nearly all countries represented in Paris.

REPAIRS: *Main Yards:*

Chantiers navals d'Achères, La Croix d'Achères 78260 Achères. Tel: (3) 911.02.27. Telex: 697703 Cnacher.

Société Française de Construction Navale, 66 quai Alfred Sisley, 92390 Villeneuve-la-Garenne. Tel: (1) 794.64.46. Telex: Fracona 610998.

Chantiers Navals de la Haute-Seine, rue des Voeux Saint-Georges, 94290 Villeneuve-le-Roi. Tel: (1) 597.31.60. Telex: 691674 Auseine.

DRY DOCKS: Slips in the yards above.

SURVEYORS: Bureau Veritas, Lloyd's, American Bureau of Shipping and Norske Veritas have surveyors in Rouen or Paris.

GANGWAY/DECK WATCHMEN: Not normally considered necessary.

HATCHES: Normally opened by crew.

CUSTOMS ALLOWANCES: Same allocation per man per day as Rouen with allowance made for inland voyage.

AIRPORT: Paris "Charles de Gaulle" and "Orly".

TIME: GMT plus 1 hour (Winter), GMT plus 2 hours (Summer).

HOLIDAYS: See "Rouen".

TELEPHONES: Not available, but telephone always within short distance of quays.

SERVICES: Compass adjusting may be arranged by Rouen on outward trip.

SHORE LEAVE: Seamen's book sufficient.

AUTHORITY: Port Autonome de Paris, 2 quai de Grenelle, 75732 Paris Cedex 15. *Tel:* (1) 578.61.92. *Telex:* 204487 Poronom, Paris. *Contact:* Bruno Grange, General Manager. Rémi Loth, Head of Public Relations.

AGENT: Jolasry (France) S.A., 26, Avenue de l'Opera, 75001 Paris, France. Tel: (1) 296 14-15. Telex: Lasry 210905, Cables: "Jolasry Paris".

PORT-VENDRES: 42.31 N. 03.07 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
5 Passenger Lists.
2 Store Lists.
1 Maritime Health Declaration.
4 Cargo Manifests.
2 Bills of Lading.

Ship's Papers: Nationality Act, International Tonnage Certificate.

PILOTAGE: Three long blasts. ETA required for Agent, Pilot usually taken on outside unless in very bad weather. Call Pilot on Channel 16, 30 minutes before arrival.

MAX. SIZE: Max. length 150 m. max. draft 25-26 ft.

HEALTH: Usually Customs give free pratique. In event of suspected disease or fever on board must advise naval doctor.

RADIO: Marseille Radio (or St. Lys Radio) or Perpignan Radio.

TUGS: None available.

CRANES: 1 shore crane available only of 55 tons.

SPECIALISED CARGO-HANDLING FACILITIES: 2 Roll-on/Roll-off berths, 1 refrigerated warehouse 11,000 cu.m., and 1 warehouse of 1,200 sq.m. with temperatures regulated at 10° centigrade.

STEVEDORES: ETA to be given to Agent in order to arrange gangs (usual rate per day. 8 normal working hours). 200 tonnes per gang.

MEDICAL: Perpignan Hospital (30 km. away).

TANKERS: Berth for wine tankers with pipe-line.

DENSITY: Salt water.

FRESH WATER: Supplied by Chambre de Commerce, Port-Vendres.

FUEL: For small craft only, otherwise delivery by trucks.

DRY DOCK: 1 travelift for craft up to 150 tons.

SURVEYORS: Available from Sete or Marseilles.

OPENING/CLOSING HATCHES: Normally to be carried out by crew (or as per charter party if any).

CARGO GEAR: Load/discharge effected by ship's gear.

GANGWAY/DECK WATCHMEN: Recommended if loading dangerous cargo.

CERTIFICATES: Load Line Certificate.
International Tonnage Certificate.
Derat Certificate.

CUSTOMS ALLOWANCES: See "Calais".

IDENTIFICATION CARDS: Only seamans book required.

REPAIRS: Minor repairs only.

AIRPORT: Perpignan Rivesaltes (30 km.)

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: As for whole France – cargo work can be arranged on those days as overtime.

POLICE/AMBULANCE/FIRE: Tel. 82.00.60 or five long blasts. Officier du Port: 82.12.00.

EMERGENCY CO-ORDINATION CENTRE: Crossmed Toulon.

SERVICES: Workshop for small repairs, radio/radar repairs available, ship chandler for bonded stores, laundry.

STORING: Vessels can be stored by truck only, which are able to proceed alongside the berth. Fork lift trucks available. Customs Regulations in force.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Service Maritime-Capitainerie du Port, 66660 Port – Vendres. *Tel:* 82.12.00.

AGENT: See "Paris".

PROPRIANO: Corsica, 41.40 N. 08.54 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Provisions List.
1 Cargo List.
1 List of Articles (new and Customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
1 Health Declaration.

PILOTAGE: Not compulsory.

ANCHORAGE: Outside port for cruise vessels.

MAX. SIZE: Draft 5 m.; length 160 m.

RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.

TUGS: None available.

BERTHING: 3 basins, depths 4.0 m., 6.0 m. and 3.7 m. New Marina with 370 berths. Facilities include fresh water, electricity, telephone. Crane (12 tonne) available for lifting pleasure craft. Engine repairs also possible.

STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.

CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.

FRESH WATER: Available at very slow pumping rate.

FUEL: Available. Tel: (95) 76-12-37.

REPAIRS/CONSULS: None.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

AIRPORT: Propriano Tavaria 6 km. Direct flights to Marseilles, Nice and Lyons in Summer. Daily connections Airport Campo del Oro/Ajaccio.

POLICE/AMBULANCE/FIRE: Tel. Gendermarie Propriano 76.00.17.

AUTHORITY: Administration du Port de Propriano, Quai St. Erasme, Propriano. *Tel:* (95) 76.10.40. *Contact:* Captain A. Duval, Port Captain.

QUIMPER-CORNIQUEL: 47.58 N. 04.07 W.

DOCUMENTS:

Crew List.
Passenger List.
Customs Documents.
Port Health Documents.
Manifest of Cargo.
Stores on Board.
Ship's Papers.

PILOTAGE: Pilot Station, Tel: 910640. Contact via Le Conquet Radio or St. Nazaire Radio.

If vessel's ETA changes, telephone either the Agent or the Pilot at least 3 hours before arrival.

The pilot boat is a small black launch, white bulwarks with anchor painted on bow of each side, white cabin at the stern, one mast.

Only one Pilot on duty, but will meet ship at the time given in their ETA. Pilot boards either on the bearing 346° with Lighthouse of Benodet and du Coq in alignment, or on the bearing 000° with Lighthouses of Benodet and Combrit in alignment. Vessel should come as near as possible to the entrance, Vessels are anchored at the port entrance, or in the river, and await the tide, or proceed directly to the port.

In case of bad weather, when the Pilot may not embark, vessel to follow the pilot launch on the bearing 346° up to Plage du Trez, where boarding is possible. Vessels at anchor awaiting Pilot should get under way to approach the pilot boat on the bearing 346° when they see the launch approaching.

ANCHORAGE: Depths of 11 m. in position with the Taro Tower, bearing 245°; distance 0.8 miles.

Depths of 6 m. in position with the Point of Combrit bearing 000°; distance 0.5 miles.

Depth of 9 m., bottom sand and mud, in Du Trez Anchorage at the mouth of the Odet.

RESTRICTIONS: Vessels arriving at night must anchor outside the port entrance. It is dangerous to enter the river at night as there are no lights, and the channel is restricted by yachts at anchor.

MAX. SIZE: At spring tides: length 78 m.; breadth 12 m.; draft 4.95 m. At neap tides: length 72 m.; breadth 12 m.; draft 3.40 m.

RADIO: The Port Superintendent requires 24 hours notice of arrival.

TUGS: No tugs available.

BERTHING: At one quay there is 226 m. length for coasters. One quay of 120 m. length for discharging sand. 3 cranes available.

TANKERS: There is a fuel/oil depot at Quimper-Corniquel supplied by coastal tankers from Donges. Max. draft for tankers at Quimper is 3.50 m. to 4.10 m.

FRESH WATER: 5 drinking-water hydrants situated on the quay, loading rate 12 t.p.h.

FUEL: Can be supplied by various companies from tanker lorries.

AIRPORT: Airport of Plugussan situated 5 km. from the port. 2 regular daily flights to Paris.

AUTHORITY: Ingenieur en Chef des Ponts Chaussees, Directeur Departemental de l'Equipement.

AGENT: See "Paris".

ROCHEFORT SUR MER: 45.56 N. 00.57 W. (See Plan Book)

For all general information refer to Tonnay-Charente.

MAX. SIZE: Max. permissible length: 116 m; breadth: 16 m. (ships must pass through a lock of 18 m. width).

Max. draft is 18 ft. at any tide, 21 ft. at Spring tides.

Lock: Length 104 m., width 18 m., depth 9.0 m.

POLICE/AMBULANCE/FIRE: Police 17; Ambulance 99.30.69;

AUTHORITY: Direction Departementale de L'Equipement de la Charente-Maritime, Service Maritime, Subdivision Maritime-Hydrologie, B.P. 125, Avenue William Ponty, 17306 Rochefort-Sur-Mer Cedex. *Tel:* 99.01.47. *Contact:* M. Moussion, Surveillant de Port.

ROSCOFF: 48.43 N. 03.59 W. (See Plan Book)

SHIPMASTER'S REPORT: August 1983

PILOTAGE: Send ETA at least 24 hours in advance. Pilot and Harbour Master listen on VHF Channel 16, 0700 – 1100 hrs., 1300 – 2200 hrs. Pilotage compulsory for vessels over 150 n.r.t.

Pilot boards half a mile East of Astan buoy.

BERTHING: At Port de Bloscon adjacent to Ro/Ro terminal. Modern open concrete quays with large rubber fenders. Used by fishing vessels and coasters, (approximately 1 per week).

With strong N.E. winds, conditions in the harbour can be uncomfortable.

Minimum depths as per "Plan Book". Range of tide 7.6 m. maximum.

CRANES: 2.5 tonne mobile available.

FRESH WATER: Piped on to quays.

FUEL: By road tanker.

AIRPORT: Airport at Morlaix, 13 miles away, flights to Plymouth on Tuesday, Thursday and Sunday. Daily flights to London.

TELEPHONES: Payphones available at the Ro/Ro terminal.

SERVICES: Laundry available at Roscoff.

Chandler at Brest. The Agent can arrange for small quantities to be delivered from the hypermarket at St. Pol de Leon, 2 miles.

GENERAL: Customs are based at the Ro/Ro terminal.

Daily car ferry service to Plymouth, weekly to Cork. Local train service.

ROUEN: 49.28 N. 01.04 E. (See Plan Book)

DOCUMENTS: Cargo Manifest or Manifest of Ballast, Certificate of Cargo Space. Bills of Lading. Ship's Register. 6 Crew Lists. 3 Passenger Lists. Health Declaration. Derat Certificate or Exemption. Declaration of Crew Personal Effects. Certificate of insurance for oil pollution damages (tankers over 2,000 tons).

PILOTAGE: Vessels proceeding to the ports of Rouen and Honfleur are met by pilot boat on La Carosse Roads (Rade de La Carosse). Pilotage is compulsory between the mouth of the Seine and Rouen. Vessels of 55 m. length and less can be exempt from the obligation for the lower sector of the river, and vessels of 45 m. and less for the upper sector, on condition that such vessels be equipped with suitable radar, with VHF sets and able to speak French, and that they are not carrying dangerous goods. Each vessel taking a Pilot for the downriver stage between La Carosse Roads and Villequier, or vice-versa, and a Pilot for the upriver stage between Villequier and Rouen, or vice-versa.

The following signals should be made for summoning a Pilot on La Carosse Roads: By Day: flag "G" of the International Code of Signals. By Night: in morse by signalling lamp. Failing this, the vessel should hoist her national ensign at the foremasthead.

The following additional signal can be made: 5 prolonged blasts (– – – – –) to call attention to pilot boat.

The radio station "Rouen-Pilot", located in the radar tower at Honfleur keeps a permanent watch day and night on VHF Channels 16 and 11. Masters are requested to call this station when arriving on the Roads.

Vessels leaving harbour or shifting berth should apply for a Pilot to the Pilotage Office, 21 Avenue du Mont-Riboudet, Rouen (tel: 71-68-50)

Helmsman: Masters and Owners are advised that temporary crew members inclusively steersmen for the river are available by the Boatmen Association of Rouen. In the case of an incoming ship, they should be requested by cable to Harbour Master at least 6 hours before arrival in roads.

ANCHORAGE: In the outer roads at La Carosse and at several places in the river.

Three waiting berths on buoys at Villequier.

RESTRICTIONS: The height of water above chart datum at Le Havre is broadcast on Channel 11 by Honfleur VHF port radar station.

MAX. SIZE: Vessels over 260 m. length have entered. Draft approximately 3.5 m. more than height of tide at Le Havre. Maximum about 37 ft. Port accessible to vessels of 40,000 d.w.t. fully laden and 110,000 d.w.t. partly laden.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.

RADIO: Vessels are obliged to give their ETA and draft in salt water at least 5 hours before arrival to Rouen Information Centre via Brest – Le Conquet Radio or Boulogne Radio. The Port of Rouen Authority has introduced a VHF network of frequency modulation for port needs working on the following frequencies: Channel 16 (156.800 MHz); international safety and watch frequency. A permanent watch is maintained on this frequency at the Information Centre of the Port of Rouen.

Channel 11 (156.550 MHz) compulsory frequency to be used by all ships, boats, ferries . . . in movement between the pilot boat station and Rouen.

Channel 73 (156.675 MHz) secondary working frequency.

Special process for tankers and vessels carrying dangerous goods in bulk: For oil tankers it is compulsory, before entering the 12 miles limit, to have a VHF contact with Rouen-Pilot or with Rouen-Port, and to keep permanent VHF watch till the ship is back out of this limit.

Tankers over 250 m. length or 12 m. draft must wait for Pilot 7 miles from shore, others can come to La Carosse Roads, passing half mile South of Buoy Le Havre and remaining always South of a line marked by the buoys LH and RN.

They have obligation to announce every fault in engines, anchors or windlass, steering gear, radar, mooring gear, and their Masters must sign an inquiry paper given by the Pilot when coming on board.

PORT RADAR: Two radar stations are located respectively at the East of Honfleur and on the right bank of the river 12 miles upstream at Radicatel.

Both stations are operated from Honfleur and work as navigational aids between the first buoys of the channel and Aizier, from 2 hours after until 8 hours after low water Le Havre.

To obtain information call on VHF Channel 16 (156.800 MHz) or 11 (156.550 MHz).

Information given by this radar, at ship's option, is considered as an aid only and implies no responsibility either to the Port Authority or its Agents in any subsequent recourse to such information, which is given free of charge.

TUGS: Permanently available in the Port of Rouen. Tug assistance in the River Seine is available on request.

MOORING: See "Notice".

BERTHING: The main Maritime Port of Rouen extends from the Guillaume le Conquerant Bridge as far as La Bouille over a distance of 11 miles. Quays and wharves cover the length of both banks of the Seine. There are also 5 basins in direct connection with the river without the interposition of any locks.

On the Right Bank: St-Gervais Docks; on the Left Bank: the Timber Dock, the Rouen-Quevilly Dock, the Floating Docks tidal basin, and the "Bassin aux Hydrocarbures" at Petit-Couronne.

The extent of quayage in the Maritime Port is about 38,000 ft., and in the river docks 5,900 ft.

Between the downstream limits of the Port of Rouen and the sea are a number of maritime establishments serving local requirements. The most important of these, all of them managed by the Port Authority of Rouen, being the petroleum terminal at Port Jerome and the quays of St. Wandrille (2,000 ft.) and Radicatel (1,380 ft.).

Containers: One berth at the Quai de l'Ouest (St.-Gervais Dock) with 2×25 ton cranes, 2 berths at Rouen Quevilly Dock with 2×25 ton cranes and 2×35 ton gantry cranes.

One private berth at Radicatel Quay with a gantry crane.

2 berths at Grand Couronne Moulineaux with 2×35 ton gantry cranes.

Roll-on/Roll-off: 4 berths in service of which 2 Roll-on/Roll-off berths at Petit Couronne and Quai de Rouen – Quevilly able to load or unload rolling heavy lifts up to 400 tons (max. draft: 10 m.)

Berthing continued

Dock	Quay	Facilities	Length (m.)	Depth at low water (m.)
Charles Babin	SCAC	Storage include 1 hectare of storage space on water (logs)	101	9
	St.-Gervais	4 pipe-lines of 120 mm. diameter connected with 100,000 hl. wine sheds 1 ramp—load up to to 30 t (Vehicles and paper pulp)	—	—
Saint-Gervais	Quai de L'Ouest	5 unloading "norias" for bananas	411	8.8

Bassin Aux Bois	Quai de France	11 cranes 7.5 t; 2 cranes 6 t Specialised newsprint; china clay	923	7.5
	Quai Neuf	Speed of cranes for cereals: 2 cranes 300 t.p.h.; 2 cranes 800 t.p.h. 1 crane 600 t.p.h. + silo 100,000 t + 50,000 t	1027	8.8
Rouen-Quevilly	Rive Nord	6 machines for unloading grains 150 t.p.h.		7.3
	Rive Sud	11 cranes 8 t; 3 cranes 7.5 t, 6 cranes 6 t, 1 ro/ro ramp capacity 400 t 2 container cranes (25 t.) 2 container gantry cranes (35 t.)	1610	10.5
Seine Rive Gauche (Aval)	Maprochim	2 gantry cranes 7 t and 1 gantry-crane 10 t (Phosphates Rhone-Poulene)	220	8.8
		1 berth for liquid ammonia, 1 pipe-line	–	10.0
	Cie Rouennaise de dechargement		290	8.8
	Poste 14			8.0
	Poste 10	Cereal; loading speed 300 t.p.h. linked with silo of 70,000 t		7.5
	Petit-Couronne (QPC)	2 electric cranes 6 t; 4 cranes 7.5 t: 3 cranes 8 t; 1 ramp capable of carrying 400 t for roll-on/roll-off	625	10.0
	SCAC	4 moving gantry cranes 7.5 t	310	8.8
	M.R.M.	oilcake, coal, flour loading machinery for cereals 3 cranes at 400 t.p.h. silo 40,000 t capacity		11.0
	SAMS	2 electric cranes 6 t;	390	8.2
	SOGEMA	2 electric cranes 8 t; 1 crane 6 t; 1 crane 5 t 2 cranes 10 t; 1 gantry crane 7 t (fertilizer)	285	8.2/10
	Petit-Couronne	Refined products and Gas pipe-lines		7.5/9.5
	Appontement Jupiter	Crude oil; pipe-lines		11.1
Moulineaux	Moulineaux	1 ramp for ships—up to 30 t (new cars)		7.5
	Moulineaux	2 container cranes 35 t	400	11.0
	Gd. Couronne	2 cranes 6 t, 1 crane 7.5 t, 1 crane 15 t		
St. Wandrille	St. Wandrille	4 cranes 15 t. and partly specialised. 2 cranes 7.5 t. coal, fertiliser	645	9.5
Radicatel	Radicatel	20,000 d.w.t. ships	420	10.0
Honfleur	Honfleur		122	9.0

STEVEDORES: From Monday to Friday:

General working schedule; 0730–1130, 1330–1730, with possible overtime.

Special working schedule 0730–1330, 1330–1930, 1930–0130 or 1930–0430, 0130–0730.

On Saturday: for all ships 0730–1330 and 1330–1800.

MEDICAL: All facilities available. Vaccination Certificates required if vessels coming from a North African port. Yellow fever inoculations required if vessel coming from South of parallel 30° N.

TANKERS: Petit Couronne, Shell, 3 berths. One berth for vessels up to 250 m. length and 11 m. draft.

Port Jerome, Esso and Mobil Oil, 2 berths for vessels up to 11 m. draft (7 berths total).

Honfleur, Miroline – 1 berth for vessels up to 9 m. draft.

Deballasting facilities available at all berths.

Report: 1982.

Petit Couronne (Butane/Propane): Max. LOA 170 m. Bollards 40 m. downstream from loading arm and 30 m. upstream from loading arm. Vessels berth with bow to seaward. Max. draft 24 ft. (7.3 m.). Height of manifold above waterline 10.0 m. Max. distance between edge and manifold of ship 4.9 m. There is no special connection for the gas phase. Diameter of discharge arm 6 in. (300 ASA).

DENSITY: Except at Honfleur, all berths are in fresh water.

FUEL: All grades available by barge.

CONSULS: The following countries are represented in Rouen: West Germany, Belgium, Denmark, Spain, Finland, Greece, Norway, Netherlands, Portugal, Algeria, Senegal, Sweden, Tunisia.

WATCHMEN: Recommended to employ watchmen on board tankers and vessels handling dangerous cargo.

HATCHES: Opening and closing hatches always performed by ship's crew.

REPAIRS: All deck, engine and radio repairs can be effected.

DRY DOCKS: Two floating docks, the largest of which is 180 m. long, 25 m. wide for vessels up to 14,000 tons.

SURVEYORS: Bureau Veritas, Lloyd's Register.

AIRPORT: Nearest Rouen-Boos. Le Havre – Octeville, 80 km. away. Paris – Orly or Paris – Roissy, 120 km. away.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Spring and Summer.

POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 15 or by VHF via Rouen-Port on Channel 11.

TELEPHONES: Can be connected on board at some berths.

IDENTIFICATION CARDS: Crewmen going ashore should carry passport or identity card.

HOLIDAYS: No labour available on the following days; New Year (1st January); Easter Monday; Labour Day (1st May); 8th May; Ascension Day; Whit Monday; National Day (14th July); Assumption Day (15th August); All Saints' Day (1st November); Armistice Day (11th November); Christmas Day (25th December).

SHIP SUPPLY SERVICE: In case of emergency (sick crew members, exceptionally urgent stores) a liaison can be established by launch with a ship when passing off Port-Jerome or off Villequier.

NOTICE:

Notice to Masters:

General Instructions: Masters shall in all circumstances comply with Port Officer's orders either verbal, written, or given through the medium of Pilots and especially the orders regarding manoeuvring in the port, towage, berth, and mooring.

Mooring: The attention of Masters is particularly drawn to the provisions contained in Section 6-01 of the Police Regulation in the Port of Rouen and River Seine (issued June 26th 1974), which stipulates as follows:

1. Vessels can moor either bow upstream or downstream, unless particular orders are issued by the Port Officers.

2. Vessels must moor with a sufficient number of bow and stern ropes, breast ropes and springs according to their deadweights.

If possible each line must be fastened on a different fixed point.

3. The mooring must be homogeneous, this means that the lines having the same function must have the same mechanical qualities.

4. The lines must be in good condition.

5. Keep a permanent watch upon the lines and their slack must be hauled at any time if necessary, and especially before the Spring tide flow.

According to the position of the berth and to meteorological conditions, when the expected height of high water in Le Havre exceeds 760 cm. (approx. tide coeff. 90), risk of bore exists. In this case moorings must be heaved tight one half hour before the expected time of local low water and ship's main engines must be available for immediate use.

It is recommended that a Pilot be on board at this time.

Further information may be obtained from either Pilots of Port Officers.

6. According to the deadweight of their vessels, the situation of the berths, the height of high water in Le Havre, Masters must take all necessary precautions as the tide is arriving.

7. Vessels which, to make their berthing easier have dropped their anchor, must, unless contrary to Port Officer's orders, heave it up, if they are berthed in the basins.

8. Vessels must have some adequate fenders both off-shore and along the quay, these fenders must have a sufficient diameter to prevent the vessel being in direct contact with the quays.

In the case of quays or wharves which are not continuous over the length of the vessel, the fenders must be carefully maintained in front of the berthing surfaces in spite of the movements of the vessel, especially at the arrival of the Spring tide flow.

9. A sufficient free space must exist near the hatch-coaming to allow easy access to the gangway.

Gangway Ladders, Foot-Bridges Giving Access to Dry Land: The link between shore and vessel must comply with the International Convention No. 32, signed in 1932 concerning the protection of people working on board ships.

Action in Case of Accident or Fire: Anyone discovering a fire, or seeing an accident, should immediately give the alarm:

either to the Harbour Master (tel: 88.81.55 or VHF Channels 11 or 16, call sign ROUEN-Port);

or directly to the Fire Brigade (tel: 18).

Measures to be Taken on Board Vessels: Fire-fighting will be under the direction of the Master, but the operating crews from shore, especially the fire-brigade, will be under the orders of their respective chiefs.

The vessel's crew should be able to guide the assistants from shore.

Plans of the ship, the cargo plan, and stowage of hazardous cargo on board, should be available on their arrival.

The Harbour Master can decide upon the shifting of the vessel, or that of neighbouring vessels. No decision such as scuttling, beaching, overloading to upset the stability, nor in general any action which may have an effect on the working of the port equipment, can be taken without the consent of the Harbour Master.

Oil tankers, or vessels loaded with dangerous cargoes, should always have a hanging wire tow-line each end ready to be hooked by a tug boat.

Cleanliness: In order to preserve the River Seine and our shore cleanliness please use plastic bags for your ship's domestic wastes.

Full bags closely fastened should be laid at the place marked by "garbage" signal. These bags will be delivered on request to your Agent.

Injury or Sickness On Board: In case of serious injury, call the fire brigade in the same way as in case of fire.

In case of sickness, a doctor can be obtained quickly by the SAMU (tel: 15).

Radio Communications: Masters of vessels are advised that they can get communications by radio-telephone with telephone subscribers ashore on metric wave-lengths (VHF).

They must call:

when below Tancarville – LE HAVRE-Radio direct on Channels 26, 28, 82 or 23 Semi-duplex;

when above Tancarville – ROUEN-Radio direct on Channels 25, 27 duplex or 21 Semi-duplex.

Do not use Channel 16 for these communications.

These radio communications are authorised when alongside berth.

Furthermore it is useful to keep watch on Channels 16 or 11. LE HAVRE-Radio and ROUEN-Radio stations use Channels 16 or 11 when they call vessels.

Notice to Masters of Vessels Proceeding to Le Havre and to Rouen: The attention of Masters of vessels bound to or from the ports of Le Havre and Rouen is drawn to the regulations laid down in by-law No. 190 of the Marine Superintendant of the 1st District appertaining to anchorage and navigation of vessels in the Le Havre roadstead dated August 21st 1972.

Masters of vessels bound to or from Rouen, without calling at Le Havre are particularly concerned with the terms of Article 2.

BORE:

1. The bore is the name given to the phenomenon caused by the arrival of the tidal wave in the river at times of high tides. The current is reversed, going from ebb to flow.

The rise in water is then very rapid, and the level of the river can rise 1 m. in less than 10 minutes.

The greater the tidal coefficient and the lower the river flow, the greater the phenomenon.

Basically, it starts to be felt in the Seine when the full tide height at Le Havre reaches or exceeds 7.6 m., i.e. for tidal coefficients equal to or greater than 90.

It is generally stronger when the coefficients are falling than when they are rising, and it is greater in Summer than in Winter.

It is also stronger when atmospheric pressure drops and West winds produce tidal heights greater than normal.

In Winter, the Seine is in flood, and the very considerable river flow attenuates considerably the effect of the bore.

On the other hand, in Summer the relatively low level of the river favours the rise in water, and the bore is then much stronger.

The bore is experienced between Caudebec and downstream of the Port of Rouen. It then weakens by virtue of various structures in the river and some basins. Upstream of the port, it is no longer present except for high tidal co-efficient.

2. Vessels berthed at quays or discharge/loading points are subject to the effect of the bore all the more when they are heavy and loaded, which makes the passage of water difficult between the keel and the bottom.

Downstream of the port, vessels are wherever possible positioned with their bows downstream. They can be assisted during the passage of the flood by a Seine Pilot and possibly tugs.

The arrival of the bore is announced on VHF by the Rouen Port Station giving the time when it will pass La Bouille, which is the downstream limit of the Port of Rouen, and where a recorder is installed. It is then easy to forecast the time of its passage at different points in the port, by knowing the time taken for the flood to go from La Bouille to different berths:

Moulineaux Roulier: 4 minutes.
MRM Silo: 8 minutes.
Sogema Quay: 10 minutes.
Petit-Couronne Quay: 15 minutes.

In principle, it occurs at the time of local low-tide, but according to circumstances, it can be advanced by almost half an hour over the theoretical expected time.

3. During very high tides, the measures to be taken before the passage of the flood are as follows:

To be well berthed and tied up and to ensure opportunely that all lines are working in the same way.

Take up the gangway.

Stop handling operations in order to disengage cranes or gantries, or disconnect tankers.

Have engines ready for manoeuvring (30 minutes before theoretical time). Engines must be started up before the flood arrives and manoeuvred so as to counter the effect of the bore during its passage. Once the bore has passed, no risks exist.

The Port Captaincy carries out continuous watch on VHF Channel 11, and can give at any time all information to vessels on the bore and its strength.

DEVELOPMENTS: Dredging operations in order to accommodate vessels of 60,000 d.w.t. at Port Jerome and Honfleur and by 1985 drafts of 32 ft. 06 in. sailing from Rouen and 38 ft. entering the river.

AUTHORITY: Port Autonome de Rouen, Capitainerie, 34 Boulevard de Boisguilbert, 76037 Rouen Cedex. *Tel:* (35) 88.81.55. *Telex:* 770865 Buropor Rouen. *Cables:* Poronom-Rouen. *Contact:* R. Fossaert, Le Commandant du Port.

(See Plan Book)

DOCUMENTS:

1 Cargo Manifest or Manifest in Ballast.
Ship's Register.
Bills of Lading.
6 Crew Lists (8 if Spanish or U.S.S.R. or ships bound to these countries).
3 Passenger Lists.
Health Declarations.
Derat Certificates.
3 Bunker Supply forms.
1 Declaration of Crew Personal Effects. If on inspection articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Compulsory for vessels exceeding 300 tons net. Contact Pilots by Marseilles Radio or by VHF Channel 16 for calling Port de Bouc Port Control, Channel 9 for traffic. Pilot boards 1 mile E.N.E. of the lighthouse on the jetty.

River Pilot required by vessels loading salt in the Rhone river, boards at the locks entrance to Port St. Louis basin.

ANCHORAGE: Suitable anchorage outside Port St. Louis keeping well clear of Fos channel.

RESTRICTIONS: The St. Louis Canal is 3,300 m. long and 63 m. wide, with a depth of 24 ft. 6 in. The lock has a length of 135 m., width 22 m., and depth 18 ft. Max. ship size: length 95 m. beam 16 m.

No entrance allowed between 2100 hrs. and 0500 hrs. except in emergency, although entrance may be effected up to 2400 hrs. if ordered before 2100 hrs.

Entrance may be delayed when large tankers are proceeding in the Fos Channel.

HEALTH: Pratique given by Customs officers who board on arrival.

RADIO: Within 150 miles use Marseilles Radio FFM, otherwise St. Lys FFL.

TUGS: Three tugs available from 500 to 1,060 h.p. Ship's lines are normally used.

BERTHING:

Quays	*No. of Berths*	*Draft*
Quai Ouest	3	6.20 m.
,, Nord	2	6.50 m.
,, East	3	6.10 m.
,, Hardon	1	5.50 m.
,, de la Suisse	3	7.92 m.
,, Charles	1	7.92 m.

SPECIAL CARGO FACILITIES:

Company	*Berth No.*	*Length (m.)*	*Max. draft (m.)*	*Remarks*
C.R.E.A.	924	100	4.5	2 berths – Military, refined products.
Frahvile	925	80	4.6	Capacity 17,550 tons. Refined products.
S.A.G.A.	919	100	7.0	Natural Gas – Loading and discharging. Berth also used by Medistock.
Sedipa	921	100	5.5	Public berth, storage capacity 9,000 tonnes. (Chemicals, vegetable and animal oils).
Soterm	923	150	7.0	Private berth (destroyed 1982) used by Soterm, Mazout and Deleup. Storage Capacity (always available): Mazout 15,000 tons. Deleup and Soterm 30,000 tons.
Gedemer	916	100	7.0	Private berth. Storage Capacity: 5,000 tonnes. (Liquid tar).

Basin	*Berth No.*	*Length (m.)*	*Max. draft (m.)*	*Remarks*
Port St. Louis/Rhone	904	110	5.5	Ro-Ro
	909	130	6.0	Ro-Ro
Tellines	951	130	7.92	Ro-Ro.
„	952	147	7.92	—
„	954	147	7.92	Ro-Ro, heavy lifts. (4 ton/sq.m. – 6 ton/sq.m.).
„	953	160	7.92	Heavy lifts (4 ton/sq.m.). Private crane, 544 tonnes capacity and Port Authority floating derrick 500/600 tonnes capacity, located at this berth.

STEVEDORES: Shifts are 0800 – 1200 hrs., 1300 – 1730 hrs. Saturday afternoon, Sunday and Holidays in overtime. Shifts of 0600 – 1200 hrs. and 1300 – 1900 hrs. count as a day each.

CRANES: Also see "Berthing".

Quay cranes: 6×3-6 tonnes. One private crane at heavy lift berth, capacity 540 tonnes.

Mobile cranes: 1×6 tonnes, 1×12 tonnes.

Floating crane: Marseilles Port Authority operate a floating derrick, capacity 500-600 tonnes.

Front Loaders: 1×30 tonnes for containers.

FRESH WATER: Available from hydrants on the quays at a rate of 100 t.p.h.

FUEL: Available only by barge or railcar.

AIRPORT: Marignane Airport distant 70 km.

AUTHORITY: Port Autonome de Marseille 23, Place De La Joliette, 13002 Marseille, France. *Tel:* (91) 91 9044 or 91 9066. *Telex:* 440746 Portauto-MARSL *Contact:* M. Pechere, Director. Captain Sicard, Harbour Master.

ST. MALO: 48.38 N. 02.02 W. (See Plan Book)

PORT LIMITS: A vessel is considered to have arrived within the Port limits, when it is within a radius of 3 miles to the North of the Grand Jardin lighthouse.

DOCUMENTS:

Ship's Register.
Store List in duplicate (ship's stores).
2 Crew Declarations of Bonded Stores.
Health Declaration.
Manifests and B/Ls.
3 Crew Lists.
3 Passenger Lists.

One Security Form (inwards declaration) with vessel's details to be handed to Port Captaincy when passing through the lock.

PILOTAGE: Compulsory for vessels over 45 m. LOA and over 150 NRT.

(1) During tidal hours, 2.5 hours before and after high water, vessels may enter into direct contact with the Pilots on VHF Channel 12. Call Sign "Pilot – St. Malo".

(2) Outside tidal hours and during working hours, vessels may call the Port Office on VHF Channel 12. Call sign "Port Control – St. Malo".

When waiting for the Pilot, vessels anchor near the "Shore Buoy" and report their arrival to the Port Office.

In good weather, the Pilot boards near the "Shore-buoy". In bad weather when the wind is from N.E. or N.W. the Pilot may guide the vessel as far as Dinard Roads, where the Pilot will come aboard.

Pilot Cutters: One cutter ("Nepture" – length 13 m., speed 9 knots) fitted with radar, relief cutter ("Pilote Vayva" – length 10 m., speed 18 knots) both fitted with radio-telephone and VHF Channels 6, 12, 14, 16, 24 and 25.

ANCHORAGE: Large vessels with draft greater than 13 m. anchor by the land-buoy. Smaller vessels may anchor in St. Malo Roads, there is sufficient swinging room for vessels with draft of 7 m. It is recommended to use a Pilot to come into this anchorage.

RESTRICTIONS: Vessels are allowed to enter from 2.5 hours before to 2.5 hours after high water. To be certain of mooring, vessels should arrive at the lock (Naye Lock: Length 150 m., width 25 m.) at least 1 hour after high water.

Depth available 20 ft. to 22 ft. at Spring tides for the Bouvet and Duguay Trouin Basins.

No movements during foggy weather. Large vessels (length greater than 100 m.) approach the lock at high-tide. Tankers lock in by themselves (no other vessel allowed in the same lock) in daytime only. Movements are carried out day and night.

Vessels with hazardous cargo and large vessels (more than 135 m. LOA) enter in daytime only.

MAX. SIZE: The height of the tide, the length of the lock and width of the channel must be taken into account.

Cargo Vessels:
(a) Overall length 150 m., beam 20 m. or
(b) Overall length 135 m., beam 21.5 m.

Max. Draft: Spring tides 9 m. Neap Tides: Equal to the depth of water in the access channel according to the tide (height of water above zero of French charts) at the time when the vessel passes through the access channel to the lock (normally 8.5 m.), 2 tugs required.

Characteristics of the Channels: Permissible dimensions for vessels: St. Malo Channel linking the Vauban Docks to Duguay Trouin and St. Servan Channel linking the Vauban Docks to Bouvet. Length 120 m., breadth 16.5 m. Depth in the docks 5 m. (sill of the channels: 5 m.)

Jacques Cartier Channel linking the Vauban Docks to Jacques Cartier. length 150 m., breadth 21 m. – at the moment – depth of the docks 3 m.

Tankers: Length 147.50 m. (443 ft.), beam 20 m. (65.6 ft.), draft see *"Cargo Vessels"* above. 2 tugs required if vessel not fitted with bow-thruster.

HEALTH: Customs Officers are appointed as Health Officers and deliver pratique. In case of suspect disease, Masters must declare it at once by radio to their Agents who will contact authorities.

RADIO: Vessels coming from West use Brest le Conquest Radio, call letters FFU. Vessels coming from North should go through Boulogne Radio, call FFB.

Arrival Advice: The requirements on arrival of large vessels must be given to the Port Captaincy 8 days in advance.

For vessels with a length less than 100 m., 48 hours notice in advance must be given.

The precise ETA mst be sent 24 hours before arrival in the Roads.

VHF:
(a) Port Office – Channels 12 and 16, 24 hours
(b) Pilot – Channels 6, 12 and 16, when awaiting a vessel.
(c) Tugs – Channels 6, 12 and 16, at the time of high tide.
(d) St. Nazaire Radio – Channels 1 or 2, for telephone communications.

Vessels call Pilot and tugs on 12 or 16 and change to Channels 6 or 8 for working.

TUGS: 3 tugs are available at St. Malo (1,500, 650 and 650 h.p.). Usually joins vessel at the end of breakwater. Ship's lines are usually used.

Towing is obligatory on entering or leaving the docks for vessels which have a length greater than 80 m., as well as for oil tankers and vessels carrying hazardous cargo whatever their size.

BRIDGES: 3 bridges can be passed during tide vacation, otherwise, notice required to open.

BERTHING: 1 Ro/Ro berth outside lock for car ferries.

Duguay Trouin Dock: Length 2,000 (commercial), 2 Ro/Ro ramps for vessels less than 120 m. (Berth Nos. 7 and 6).
1 wine store house (Berth No.13).
1 berth for molasses (Berth No. 1).
1 grain silo (Berth No. 10) 6,000 tons.

Vauban Docks: St. Louis Quay: 360 m. – marina: 700 berths.
Corsaires Quay: 385 m. comprising:
1 continuous discharging apparatus for phosphates.
2 discharge points for molasses.
1 discharge point for hydrocarbons.
1 discharge point for phosphoric acid – (1,000 t.p.h.).
2 cranes on rails – 12 tons at 14 m.
1 dry dock: 120 m. × 15.5 m.
Ro/Ro ramp: In the North part of the Corsaires Quay.

Bouvet Dock: 641 m. for commercial trade.
260 m. for discharging fish.
850 m. for activities connected with fishing.
1 slipway – for vessels less than 500 tons.
1 slipway for yachts.

Jacques Cartier Dock: Length 300 m., comprising:
1 dockyard (ACM).
2 electrical cranes of 24 tons.
Numerous sheds – vats for molasses and acid (6,000 cu.m.)

The installations of this quay will be clarified in due course. 2 cranes on rails are envisaged.

Grain Silos: 1 of 6,000 tons capacity with loading possibilities of 130 t.p.h. and 2 of 6,500 tons capacity each with loading possibilities about 100 t.p.h. each are situated in Bassin "Duguay Trouin".

CRANES: 8 mobile cranes, 5 – 12 tons and 9 electric cranes (on rails) 8 – 24 tons.

TANKERS: Tanker quay, extension of Quai Des Corsaires, length 130 m. Diameter of discharge pipe 200 mm., one mobile arm, vessels to supply reducers. Max. discharge rate, 650 cu.m./hour.

No deballasting facilities. Tankers wishing to effect repairs must leave port and wash out their tanks and obtain a gas-free certificate.

On completion of operations tankers must leave on the next tide. If a second tanker is waiting to berth she must wait in the roads.

Safety instructions are issued when the vessel passes through the locks.

BERTH ALLOCATION: Dependent upon goods to be discharged and characteristics of vessel. Bearing in mind the widths of the channels, their depth and dimensions at the foot of the quays, the height of the dock which varies on average between 11 m. and 12.5 m.

The largest vessels tie up at Quai Des Corsaires.

It is recommended that an advance notice be sent via Agents to the Port Office 15 days prior to arrival, so that the vessel may be received under the best possible conditions.

STEVEDORES: In order to have workers ready on arrival, Masters are kindly requested to give as accurate as possible ETA the day before arrival, especially if there are many ships discharging at same time.

Normal working hours 0800 – 1200 hrs., 1200 – 1800 hrs. and 2000 – 2400 hrs. from Monday to Saturday, except holidays. There is no night overtime. Dispensations may be made to finish a vessel so that she may catch the tide.

MEDICAL: Notice is required to obtain an appointment with doctors or dentists. Hospital is available in St. Malo.

DENSITY: Average density is 1022.

FRESH WATER: Can be delivered from quay. Rate 3 t.p.h. – 10 t.p.h.

FUEL: Bunkers delivered at St. Malo (with notice varying, depending on the Company – Shell 2 days, Esso 1 week, etc.) come from Donges by road lorries and cost of haulage is supported by the ship (expensive). D.O. can be obtained from local suppliers but out of contract.

FIRE PRECAUTIONS: Usual non-smoking precautions (a watchman is compulsory for tankers). In case of fire call Port Captain on VHF Channel 12.

GANGWAY/DECK WATCHMEN: Watchmen are not compulsory except for tankers.

OPENING/CLOSING HATCHES: This work is normally carried out by crew. Stevedores' cranes may help for the beams, but dockers will not touch them.

CERTIFICATES: As per International Conventions, all Safety Certificates, Load line, Radio, etc.

Important: All vessels entering the port must be up to date with safety certificates as required by international conventions. An attestation must be handed in by the Master when he passes through the lock.

CUSTOMS ALLOWANCES: 200 cigarettes, or 200 grams of tobacco, and 1 bottle of spirit per crew member.

IDENTIFICATION CARDS: Crew members must have an identification card or their seaman's book when going ashore.

CONSULS:

Netherlands	(16-99) 56.07.21.
Denmark (Vice-consul)	(16-99) 56.07.21.
Norway	(16-99) 56.07.21.
Finland (Vice-consul)	(16-99) 56.31.57.

REPAIRS: Deck and engine repairs can be carried out by shipyard or workshops. Electricians are also available. RAMAC Agency can repair radars and radios, also Radio-Ocean agency.

DRY DOCKS: One dry dock. Max. length admissible 120 m., breadth 16.0 m. and draft 8.0 m. One slipway, 500 tons. Length admissible 45 m., breadth 9 m. With sufficient notice.

REPATRIATION: Can be effected from St. Malo by train or plane.

AIRPORT: Pleutuit/Dinard Airport 10 km. from port. Wintertime, services to Jersey (C.I.), with onward flights to England and Wales. Summertime, several times per day to Jersey, London, and to Paris except week-ends.

TIME: Local time is GMT plus 1 hour. From April till September GMT plus 2 hours. ETA messages must specify GMT or Summer Time.

HOLIDAYS: French legal holidays. Stevedores do not work on Sundays or public holidays.

POLICE/AMBULANCE/FIRE: Police, 40.85.80 and 17; Ambulance and Fire, 18. Port Captaincy, Tel: 56.23.86, or VHF Channel 12.

TELEPHONES: None.

DELAYS: Berthing delay will only be due to tide. For loading or discharging, it depends what kind of cargo is handled.

Deadlines: All vessels must leave the quay once unloading has terminated. They may be towed away to another waiting berth – if need be.

Vessels are admitted to port as soon as their berth is vacant, and providing nautical conditions permit.

Time limits for loading or unloading depend on the quantity of the nature of the goods. There is no special rule governing purely port operations.

It is rare for vessels to wait in the roads.

Special Cases: Vessels are not authorised to enter or to leave the port in fog.

In storms, starting at force 8 – Pilots cannot embark, nor disembark from vessels, without danger.

With strong N.W. winds (8 to 9) the port may be ordered to be closed to prevent damage to the lock gates and to structures (bridges).

SERVICES: Compass adjusting, radar or radio repairs can be carried out.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: L'Ingenieur Charge de l'Arrondissement de Saint Malo, 1 Rue de la Crosse, 35400 St. Malo. *Tel:* 56.55.45. *Telex:* Dde-Atm-950-197 F. *Contact:* J. Lannou, Port Commandant, Ecluse du Naye, 35400 St. Malo. *Tel:* (16-99) 81.62.86.

AGENT: See "Paris".

SETE: 43.24 N. 03.42 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the Port within which a vessel is considered to be an "arrived vessel" are indicated as follows: To the South by a line with the red light of Eastward end of breakwater bearing 257°; to the East by a line with the church tower of Frontignan bearing 005°; to the North by coastline.

A second zone is a circle of 1 mile radius centered on a point located on the bearing 298° and at 3.2 nautical miles from Eastward end (Red Light) of breakwater. This zone is connected from a landing buoy by a channel 500 m. wide steering 326°. This area is only for big tankers from 100,000 tons up to 280,000 tons which operate at buoy IMODCO Single Point Mooring System.

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo space.
Bills of Lading.
Ship's Register.
3 Crew Lists.
4 Passenger Lists.
Health Declaration, eventually vaccination list.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.
2 Provision Lists.

Tankers: Blue Card, TOVALOP Certificate.

PILOTAGE: Request Pilot by international signals (sound, flags, light signals) or telephone through Marseilles Radio or VHF by Sete Radio Channel 25, tel. 74.34.06 (or pilot boat VHF Channel 12). Description of pilot boats; motor launch with black hull, white band, white anchor on hull at bow. Pilot embarks between 1 and 2 miles South of breakwater in good weather. In bad weather he embarks in the shelter of l'Epi Delon. In this case make prior contact by radio or VHF (Marseille or Sete Radio) or Port Office VHF Channel 12. Provide a ladder on each side.

ANCHORAGE: In Roads from 0.5 mile to 1 mile to South of breakwater. (See "Port Limits" and "Tankers").

RESTRICTIONS: *Commercial Harbour:* In the Canal Maritime, length max. 145 m., breadth 20 m., draft 22 ft. 06 in.

Bassin a Petrole – see "Berthing".

MAX. SIZE: *Sea Line Frontignan:* South Berth: S.B.M. Tankers 280,000 d.w.t. draft 21 m. (69 ft.).

North Berth: C.B.M. Tankers up to 100,000 d.w.t. lightened draft 13.1 m. (43 ft.).

Bassin a Petrole: New Berth Tankers (P2) 35,000 d.w.t., length 225 m., draft 11 m. (36 ft.) P1 – length 140 m., draft 33 ft. P3 – Barges.

Darse No. 2 for ore carriers 210 m. length; 10.4 m. draft (34 ft.)

Commercial Harbour up to 8.5 m. draft (28 ft.).

Commercial Harbour in the Canal Maritime: max. length 140 m; breadth 20 m., draft 6.85 m. (22 ft. 06 in.).

HEALTH: Pratique given by Health Officers or by Custom's officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive Free Pratique, Master should radio Agent before arrival, advising full details.

RADIO: Marseille or Sete Radio VHF Channel 21 or 25, Port Office Channel 12. Port Authority Telex No. 480220.

TUGS: Tow line to be furnished by ships. Vessels taken in tow near the breakwaters on the North side.

BERTHING:

Bassin du Midi:	
North Quay:	Berths No. 16, 17, 18, 19 and 20 Draft 6.71 m. (22 ft.) Cranes: 4 Fives Lille, 7.5 tons at 22 m. with scoop and hook.
South Quay:	Berths No. 14 Draft 7 m. 15 Draft 6.10 m. Ro/Ro Cranes: 2 Fives Lille, 7.5 tons at 22 m.

Quai de la Republique:	Berths No. 30A Draft 5.20 m. 30B Draft 4.30 m. All Berths: Wine. Berths No. 31 and 32 – Tugs. Berths No. 33 – Fishing repairs. Cranes: Nil.
Quai d'Alger (Algier Quay):	Berths No. 34 Draft 8.20 m. 35 Draft 8.20 m. 36 Draft 8.20 m. All Berths: Wine. Passenger Quay: Length 200 m., draft 8.20 m. For example: German m.v. Europa.
Quai du Maroc (Morocco Quay):	Berths No. 37 Draft 5.50 m. (Ro/Ro) Length 130 m. Passengers and wine.
Bassin Orsetti:	Max. Length: 170 m. Berths B1 Draft 8.25 m. B2 Draft 8.25 m. Ro/Ro B1 and B2: Passengers General cargo. B2 Ro/Ro Gare Maritime Orsetti. *Lines:* Algeria. Baleares (Spring and Summer). Cranes: 1 Fives Lille, 8 tons at 22 m. Berths: D1 Draft 8.55 m. D2 Draft 8.55 m. D3 Draft 8.25 m. Length 152 m. Ro/Ro. All Berths: General cargo. Cranes: 4 Caillard 3 tons at 22 m. 6 tons at 22 m.
Mole Masselin:	Cereals 1 berth on 180 m. of quay dredged to 11 m. 1 loading gantry of a capacity of 550 t.p.h. 1 Fives Lille crane of 7.5 tons at 22 m. with scoop and hook. 2 storage silos of 22,000 tons capacity. (annual 100,000 tonnes).
Bassin aux Petroles:	See "Max. Size" Dock No. 1 named "Colbert Dock" Berths No. E3 Draft 34 ft. 02 in. Ro/Ro. E2 Draft 34 ft. 02 in. E1 Draft 34 ft. 02 in. Cranes: 2 Caillard 6 tons at 27 m. 9 tons at 19 m. 12 tons at 14 m. 2 Caillard 8 tons at 22 m.

TANKERS: Frontignan Sea Line Terminal North berth (C.B.M.) 1 berth for tankers up to 100,000 d.w.t. lightened draft 13.1 m. (43 ft.). Two 12 in. hoses for crude oil discharge. Submarine pipe-line 28 in. diameter.

Commerial Port: 1 berth for tankers up to 35,000 d.w.t. draft 11 m. (36 ft.). Five loading arms for black and white products. 1 old berth for tankers up to 140 m. length or 10,000 d.w.t., draft 10.1 m. (33 ft.).

Slop disposal facilities available up to 1,000 cu. m. per hour. Also see "Max. Size".

Frontignan Sea Line Terminal (South berth) Mobil SBM.

Operator: Mobil Oil Francaise.

Position: 43° 22′ 12″ N., 03° 46′ 49″ E.

Restrictions: Least depth of water 92.5 ft.

Max. Size: No limit on length and beam. Max. draft 69 ft.

Pipe-line: Length, 26,000 ft. Diameter 44 in.

Hoses: 2×16 in. Bow to manifold distance should not exceed 600 ft. Connections port-side.

Max. Pressure: 125 p.s.i. at rail.

Pumping Rates: 8,500 t.p.h.

Density: 1026.

Fresh water: Not available.

Fuel: Bunker "C" available by barge, capacity 900 tons. D.O. not available.

Ballast: No facilities for receiving dirty ballast.

Vessels up to 50,000 d.w.t. normally berth at spread mooring.

Regulations and Information: When scheduled to discharge at SBM Master will receive the following standard message from Mobiltrans Ny: "Your vessel will discharge at Frontignan SBM. located 43° 22′ 12″ N., 3° 46′ 49″ E. stop 4 days prior arrival radio your Agent your ETA SETE contact "Sete Port Office" on VHF Channel 12 approximately 30 miles range advising your ETA to entrance buoy located 43° 14′ 55″ N., 3° 53′ 40″ E. Only when authorisation is granted by "Sete Port Office" you may proceed to SBM on *compulsory* route on course 326° extending 500 m. each side of line joining approach buoy to SBM. When proceeding on compulsory route your vessel shall exhibit additional marks by day 3 black shapes in a vertical line the highest and lowest 1 ball the middle 1 diamond every one spaced by 1.5 m. stop by night 3 all-round lights in a vertical line the highest and lowest red the middle white every one spaced by 2 m. stop. Pilot will board approximately 3 miles seawards from SBM on compulsory route".

Your Agents will forward the following cable: "Advise ETA type size your manifold flanges whether suitable reducers available and Smit's Bracket fitted on forecastle stop Boom to lift 16 in. ID floating hose and two 16 in. 150 ANSI standard flanges ready on portside. On forecastle have 2 polypropylene 8 in. messengers 150 fathom ready. Accommodation ladder on starboard and boat ropes each side."

The "approach buoy" referred to in para 1, is located in 43° 14′ 55″ N., 3° 53′ 40″ E. having the following characteristics: 3 m. diameter – 7 m. height mast painted with vertical strip white and red with 2 crosswise shapes, with a white light 4 flashes every 12 seconds. Proceeding inshore of this buoy and inside the 12 mile line is not allowed without prior authorisation granted by "Sete Port Office" on VHF Channel 12.

An approach channel exists between the approach buoy and the SBM extending 500 m. each side of a line joining the approach buoy to SBM and must be used as a compulsory route on a course of 326°. Same compulsory route applies for outgoing tankers leaving the SBM.

When proceeding in the approach channel the vessel shall exhibit in addition to the normal navigation signals: *by day:* 3 black shapes in a vertical line the highest and lowest 1 ball, the middle one a diamond – every one spaced by 1.5 m. *By night:* 3 all-round lights in a vertical line, the highest and lowest red, the middle one white, every one spaced by 2 m.

The Pilot boards incoming tankers and leaves outgoing tankers approximately 3 miles seawards from SBM on the compulsory route. He will stay on board during the period the vessel remains secured to the SBM.

Every vessel proceeding to or departing from the SBM which requires to anchor should use the following anchorage areas:

Anchorage A – Vessels with less than 15 m. (49 ft.) draft should anchor in the area bounded in the North by a line 0.5 miles off the breakwater, and in the East and West by meridian passing through the extremities of the breakwater, and in the South by the 20 m. (65.7 ft.) contour.

Anchorage B – Vessels having a draft of greater than 15 m. (49 ft.) should anchor in the Southern semicircle around the SBM extending between 400 m. (1,310 ft.) and 1,850 m. (6,000 ft.) from the SBM.

When a vessel is proceeding to the SBM a Marine Superintendent and a mooring team will board. Then anchors should be secured and cable pawls in the down position, deck scuppers must be plugged tight and VHF on standby on Channel 12.

Throughout the period the vessel remains at the SBM the engine should be ready and power available on deck winches and windlass.

Adequate deck lighting must be available at night, and a constant fo'c'sle watch kept on the SBM.

Propeller r.p.m. must be kept to a minimum. Intermediate ballasting may be required in order to prevent excessive strain on moorings.

While weather operational limits will depend on circumstances port regulations specify the following criteria: Vessel must cease discharge when wind is 30 knots, significant wave height 8 ft. (assumed current 2 knots) vessel must leave berth when wind is 45 knots and significant wave height is 18 ft.

The Master of every oil tanker coming to Sete to load several refined products, some of which are heated, is required to give the Port Office, a cargo plan before loading.

Masters of oil tankers are invited to follow the terms of new French Law (Arrete Prefectoral No. 491 ADM du 24 Mai 1978) specially to send a message to the French Admiralty (Prefet Maritime de Toulon) 6 hours before entering the territorial waters and 6 hours before leaving the Port of Sete (even if leaving for another French port).

FRESH WATER: Available on most quays or by lighter of 140 tons capacity during working hours. Advance notice required for Saturdays and Sundays.

REPAIRS: Handled by Scotto et Repetto: 2 slipways for handling and repair of small vessels, Mechanical workshops, General repairs.

Claverie, Mechanical workshop for heavy repairs, and boiler repairs.

Di Biase, general repairs and Mechanical workshop.

Affre, General repairs.

FUEL: All qualities available subject to advance notice given.

CONSULS:

Denmark	tel. 74.30.20.	Norway	tel. 74.31.83.
Finland	tel. 74.25.72.	Sweden	tel. 74.25.72.
Netherlands	tel. 74.25.72.		

Others at Marseilles.

WATCHMEN: Service necessary for ships loading or unloading dangerous merchandise. Optional for other ships.

CUSTOMS ALLOWANCES: 40 grammes tobacco per day per man (calculated in accordance with the length of voyage undertaken by the ship). Amount of alcohol fixed by Customs in accordance with the crew, and length of ship's stay in port. It is a matter of tolerance and not of right.

REPATRIATION: Repatriation and crew changes are easily arranged.

AIRPORT: Airport (Class B) at Montpellier-Frejorgues, located 30 km. from Sete. (30 minutes by car on the motorway), and has services to Paris, Nice, Bordeaux, Clermont-Ferrand and London. The international airport of Marseilles-Marignane is 160 km.

IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.

TIME: GMT plus 1 hour – alteration from end of March to end of September to GMT plus 2 hours.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); St. Louis Day (Monday, no labour available); All Saints Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available).

N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

DEVELOPMENTS: *Project for August 1984:* 1 Container handling gantry crane Lieber. 43 tons at 38 m. (Spreader). 35–40 containers per hour.

Berths No. G1: Draft 34 ft. Ro/Ro. G2: Draft 34 ft. ore carriers. G3: Draft 34 ft. Ro/Ro.

Cranes: 2 Peiners 7.5 tons at 30 m. 10 tons at 22.8 m. 1 Fives Lille 7.5 tons at 22 m. 2 Kangaroo Caillard 12 tons at 30 m. 16 tons at 24 m.

Darse 2 (New Dock): Berth H2: Draft 34 ft. Ro/Ro. (Project draft 13.5 m.). Berth I 1: Draft 34 ft. Ro/Ro. (Project draft 13.5 m.). Berth I 3: Length over 225 m. Draft 34 ft. (Project draft 13.5 m.). For "Panamax" ore carriers and Ro/Ro.

Project August 1984. 1 crane Delattre Levivier with scoop and hook 20 tons at 44.5 m. and 26 tons at 33 m.

AUTHORITY: Capitainerie du Port de Sete, Quai du Maroc, 34200 Sete, France. *Tel:* (67) 748820. *Telex:* 480220. *Contact:* Commandant Pierre Guillard, Commandant du Port de Sete (Harbour Master).

AGENT: See "Paris".

STRASBOURG: 48.34 N. 07.42 E. (See Plan Book)

PORT LIMITS: In Strasbourg (Lat. 48° 34′ N., Long. 7° 42′ E.), the Port Autonome extends from the Km. 285 to the Km. 297 upon the Rhine, occupying an area of 1059 ha., of which 205 ha. are water areas including 15 docks (7 have a constant level, 8 a variable level), and 2 fore-harbours.

Out of these limits, the Port Automome de Strasbourg includes 8 branches designed for the handling of building materials, and 2 ports, Marckolsheim (at Km. 242) and Lauterbourg (at Km. 349), all the branches and ports being on the left bank of the Rhine.

DOCUMENTS: The ships must hold some documents, which they have to keep at disposal of the administration or the inspection authority when required, as following:

Certificate of Survey.

Certificate of Tonnage.

Certificate of Registration.

Log-Book.

Booklet of Verification of the used oils.

Attestation for Equipments of liquified gases.

Customs Documents for the carriage of goods.

Fluvial Bill of Lading.

Rhine Manifest.

Certificate of Ability to steer the ship.

Police Regulation for the Navigation on Rhine.

A.D.N.R., regulation for carriage of dangerous goods.

the documents relating to the boilers and other tanks under pression.

PILOTAGE: The pilotage is not compulsory on the Rhine and usually the Masters do not ask for a Pilot except for Gebirge and the Haut-Rhin. A Pilot can be obtained in the port of Kehl by dialling the number 19 – 49.7851.20.70.

ANCHORAGE: The ships have at disposal an area of about 10 ha. in the North and South fore-harbours to take anchorage. Depth of water: at least 5.20 m.

RESTRICTIONS: Restrictions to navigation are to be published in the Advices to the Nautical Corporation of the Inland Water Transport.

MAX. SIZE: The max. sizes of ships allowed on the Rhine are as follows: Length: 110 m., – breadth: 11.4 m. The ships of Rhine do not exceed a draft of 4.0 m.

Dimensions of the locks: – North lock: length 125 m., breadth: 13.5 m., South lock: length 125 m., breadth: 13.5 m.

In the constant level docks, the water depth is 3.5 m., but only along the North-South axis of the port; if not there, the water depth is 2.5 m.

In the variable level docks, which are the docks with a direct communication with the Rhine, the minimum depth is 4.30 m.

These depths are given, the Rhine being supposed at its lowest bench-mark: 135 m.

HEALTH: There is no Health Service for the Rhine.

RADIO: All communications on the Rhine are performed by radio-link and radiotelephony:

VHF Channels 10 and 13: used for ship to ship communications.

VHF Channels 20 and 22: used for transmitting of nautical advice in the way shore-ship and in the reverse order.

VHF Channels 24, 25, 26 and 27: used for public communications.

RADAR: There is no radar station on shore.

TUGS: The Port Autonome de Strasbourg put at disposal of customers two tugs and one 600 C.V. pusher according to their needs.

BERTHING: 10 km. of quays can be used for mooring. Some of these quays are situated in the constant level docks (max. draft 2.5 m.), some are in the docks that link with the Rhine (max. draft 4.30 m.). Tankers berth only in the Oil Dock Harbour.

BULK CARGO FACILITIES: Grain elevators: 2 berths for loading, and 2 berths for discharging.

Loading of gravel on the Rhine by belt-conveyors (8 facilities).

Loading and unloading of hydrocarbons in the Oil Dock Harbour by 18 facilities operating each at the rate of 300 cu.m./hr.

SPECIALISED CARGO-HANDLING FACILITIES: Containers up to 40 tonnes; heavy packages up to 350 tonnes.

The two operations are carried out at the container and heavy loads terminal at Adrien Weirich Dock and utilise a length of 180 m. of quay.

A plurimodal international transport centre, "Eurofret Strasbourg", is being developed in the Southern sector of the port, close to the container terminal and including a road transport centre (10 ha.), a warehousing area (20 ha.) and an area grouping various activities (12 ha.).

BRIDGES: The head room under the bridges reaches 8.8 m. in the constant level docks.

MEDICAL: Civil Hospital, 1, place de l'Hospital, 67000 Strasbourg, Tel: 36.71.11.

DENSITY: The density of water is about 1000.

FRESH WATER: Fresh water is supplied by Ets. Koejac, Tel: 61.26.78.

FUEL: Bunkering can be arranged with the m/s *Robertsau*, G.P.S., Tel: 61.68.32 or m/s *Jumbo*, Ets. Koejac, Tel: 61.26.78.

CONSULS:

West Germany	(88) 32.61.86
Belgium	(88) 35.43.63
U.S.A.	(88) 35.31.04
Netherlands	(88) 62.90.80
Switzerland	(88) 35.00.70
Austria	(88) 35.13.94

REPAIRS/SLIP: All the repairs can be carried out at: Forges de Strasbourg — Scar, Tel: 79.41.41. 101, rue du Rhin Napoleon, 67100 Strasbourg.

Any vessel capable of using the port can use the Forge-de Strasbourg slip.

SURVEYORS: Surveyors of the Commission de Visite, named by the Commission Centrale pour la Navigation du Rhin, can be obtained by the Master.

WATCHMEN: Ship's crew, if required.

OPENING/CLOSING HATCHES: Opening and closing of the hatches are performed by the crew or by the staff of the company freighting the ship, as any other handling. Dockers do not exist in the port of Strasbourg.

REPATRIATION: All the facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORTS: Distances from Strasbourg: Strasbourg-Entzheim: 15 km. Strasbourg-Mulhouse: 130 km. (airport Mulhouse Bale). Strasbourg-Francfort: 220 km.

HOLIDAYS: Work is stopped during the weekends and the statutory holidays. Labour can be obtained on these days if necessary.

POLICE/AMBULANCE/FIRE: Police: 17 – Ambulance 33.33.33. – Firemen: 18.

TELEPHONES: Office of the P et T, 5, rue du Port du Rhin, 67000 Strasbourg. In case of emergency: La Capitainerie du Port, 5, rue du Port du Rhin – North Lock of the Port, quai Jacoutot, can be contacted at any time. Tel: 32.49.15. There is also a public call box at the disposal of anybody at any time.

SERVICES: For the ship: Tank cleaning: SPIRSE, 14, rue de Rouen, 67000 Strasbourg, Tel: 61.40.45

Supplying of material: Koejac, quai des Belges, 67000 Strasbourg, Tel: 61.26.78.

Electronic repairs or supplies: Radio-Metzger, 17, rue de Dunkerque, 67000 Strasbourg, Tel: 35.45.42.

For the crew and various formalities (customs): La Capitainerie du Port, 5 rue du Port-du-Rhin, 67000 Strasbourg, Tel: 32.48.15.

SHORE LEAVE: The Master must introduce himself, within the 2 hours following his arrival, to the Commissariat Special du Port, 5 rue du Port du Rhin, 67000 Strasbourg, and produce the passports of the crew. The passenger ships have to comply with the regular supervision of authority. Each member of crew must be holder of an identification card or a passport when he is ashore.

REGULATION: The Reglement Particulier de Police du Port is very helpful to the Master and will let him know the particulars of the Port of Strasbourg.

DELAYS: The commercial operations begin and finish at the dates and hours shown upon the fluvial bill of lading. Every delay is subject to the payment of penalties. Except for the passenger ships, ships do not give notice of their arrival to the authority, before they enter into the port.

AUTHORITY: Port Autonome de Strasbourg, 25 Rue de la Nuée Bleue, F-67081 Strasbourg Cedex. *Tel:* (88) 32.49.15. *Telex:* 880476 Poronome Strbg. *Contact:* M. Georges Delmas, Port Director.

TONNAY CHARENTE: 45.57 N. 00.53 W.

(See Plan Book)

DOCUMENTS:
2 copies Crew List.
2 copies Ship's Stores Lists.
2 copies Crew Manifests (Tobacco List).
2 copies Passenger List (if any).
1 Declaration of Ballast.
Manifest form Last Port.
1 copy Bill of Lading (in case of any cargo to be landed).
Ship Register to be shown.
Derat Certificate or Exemption.

PILOTAGE/ANCHORAGE: Vessels have to proceed to about half a mile S.S.W. Isle of Aix Lighthouse and to drop anchor in the No. 115 alignment when safe anchorage is open (lowest tides; minimum depth of water 26 ft.).

River Pilot joins ships there, about 3 hours to 1 hour before high water, depending on draft and size of vessel concerned.

Pilot boat is equipped with VHF.

RESTRICTIONS: As the River Charente is unlighted, movements are not possible at night. However, vessels may leave anchorage in dark and come up river at daybreak (anchorage area is about 5.5 miles from the mouth of the river).

MAX. SIZE: Max. permissible LOA about 378 ft.; max. permissible draft about 17 ft. 6 in. at any tide; max. permissible draft 21 ft. 6 in. at Spring tides.

HEALTH: Free pratique is to be obtained on arrival at port. Usual yellow flag signal to be raised.

RADIO: Ships coming from South: Bordeaux-Arcachon Radio Station. Ships coming from North: Saint-Nazaire or Brest le Conquet Radio Stations.

VHF: No continuous listening out at the port. Nevertheless, vessels coming into the Roads can call up a correspondent by phone through Bordeaux – Radio – Channel 26.

TUGS: No tug is available. In case of need, tug may be obtained from La Rochelle-Pallice (about 20 miles).

BERTHING: 1 private berth for grain loading, which can take vessels up to 100 m. length. 1 berth 200 m. long for handling general cargo. 3 waiting berths. The central waiting berth can be used for handling small cargoes from 500 to 1,000 tonnes. Depth of water along the quays is an average of 6 m.

CRANES: 2×5 tonne cranes, 1×3 tonne crane, 2×5 tonne mobile cranes. All the cranes are capable of working with hooks or scoops.

BRIDGES: The Rochefort Bridge clearance over highest water is about 98 ft. (30 m.).

STEVEDORES: A 24-hour notice is required in order to arrange loading/unloading operations.

Discharge rates:	Coal – about 1,200 tons per day of 8 hours' work.
	Phosphates – about 1,500 tons per day
	Zinc concentrates – about 1,400 tons per day.
Loading rates:	Grain 2,000/2,500 tons per day.

OPENING/CLOSING HATCHES: This is the responsibility of the crew.

MEDICAL: The nearest hospital is at Rochefort (about 4 miles).

FRESH WATER: Fresh water may be obtained alongside, from hydrants, at the rate of about 10 t.p.h.

FUEL: Must be obtained from La Pallice (about 20 miles) by lorries.

REPAIRS: Small repairs may be carried out by local workshops. Nearest shipyard is at La Pallice.

REPATRIATION: Changing crew and necessary repatriation formalities may be effected.

AIRPORT: The nearest airport is La Rochelle (about 30 miles). Possible to reach Paris airports in a few hours by train.

POLICE/AMBULANCE/FIRE: Police: Rochefort H.Q. – Tel: 17; Tonnay-Charente Gendarmerie: Tel: 88.20.38; Ambulance: Tel: 99.30.69; Fire: Tel: 18 or 88.20.38.

AUTHORITY: Direction Departementale de L'Equipement de la Charente-Maritime, Arrondissement Maritime, B.P. 125, Subdivision "Maritime-Hydrologie", 17306 Rochefort-Sur-Mer Cedex.
Contact: M. Drieu, Sous-Lieutenant de Port.

AGENT: See "Paris".

TOULON: 43.07 N. 05.55 E. (See Plan Book)

DOCUMENTS:
Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Pilot station is situated on Est Quay, address: B.P. 742, Toulon. Tel: (94) 410328. Pilotage compulsory for vessels over 150 g.r.t. Pilot boards 100 m. North of the semaphore station at Cap Cepet.

There are 3 mooring buoys in the Inner Harbour owned by the Navy. The buoys can be utilised by merchant ships on request and are able to accommodate vessels up to 30,000 tons displacement.

RESTRICTIONS: Entry can be made by day and night except for vessels loading with refined petroleum or dangerous cargoes which are not allowed to enter between sunset and sunrise.

MAX. SIZE: The port is approached by a channel 125 m. wide. The docks can accommodate without tug assistance ships up to 250 m. length and 8.80 m. draft.

Renovation and reconstruction work is being carried out, after which passenger vessels of over 300 m. length and cargo vessels of up to 11 m. draft will be accommodated.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.

TUGS: Naval Tugs. There are many harbour tugs up to 1,000 h.p. and several deep sea tugs up to 2,000 h.p. controlled by the French Navy which may be called on for assistance by the Harbour Master or Pilots.

Commercial Tugs. 2 tugs of 180 h.p. owned by the Port Authority are used to assist smaller vessels.

BERTHING: President Fournel Quay, 335 m. length, depth alongside 9 m.

East Quay, 190 m. length, depth alongside 8.50 m.

Minerve Quay, length 135 m., depth alongside 7 m.

La Seyne – Bregaillon: One Ro/Ro Berth, depth 7.0 m. Ore quay (2 berths), length 215 m., depth 9.0 m., 2×26 tonne cranes.

TANKERS: Tankers discharge at naval installations at Milhaud and Lazaret.

Total Terminal. 1 jetty berth for tankers up to 6 m. draft, and a buoy berth for vessels up to 15,000 tons displacement.

STEVEDORES: There is a permanent working force of 30 dockers which can be increased by casual labour to 60 men if required. Shifts are available for 4 hours, 8 hours or 9 hours with possibilities for overtime.

FUEL: Only available by tanker lorries.

REPAIRS: Chantiers du Nord et de la Mediterranee, Shipyard specialising in naval construction. Total length of repair quays 835 m. Heavy-lifting facilities available.

Serra Fres: Floating dock 1,700 tons, length 85 m.

All types of repairs can be carried out at the Naval Dockyard.

DRY DOCKS: Several dry docks available in the Naval Dockyard, of which 3 can accommodate vessels in excess of 250 m. length.

IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

AUTHORITY: Direction Departementale de l'Equipment, Capitainerie du Port de Toulon, B.P. 1202, 83070 Toulon Cedex. *Tel:* (94) 429000, (94) 032760. *Telex:* Equip Toulon 400272.

AGENT: See "Paris".

TROUVILLE-DEAUVILLE: 49.23 N. 00.05 E.

(See Plan Book)

The port situated on mouth of River Touques, is composed of 2 parts: Trouville for small fishing vessels, and Deauville including 2 docks for cargo ships and pleasure boats.

DOCUMENTS:

1 Crew List.
1 Passenger List.
Tonnage Certificate.
2 Cargo Manifests.
Bills of Lading.
1 Crew Manifest.

PILOTAGE: Pilotage on entry and leaving is carried out by the Seine Pilots. Request for a Pilot must be made 12 hours in advance by radio or telephone, either to the Port Captaincy of Trouville-Deauville or to the Pilotage Office for the Seine at Le Havre or at Rouen. Vessels bound for Trouville/Deauville anchor in the "Rouen Waiting Area" Roads at Carosse where they take on the Pilot.

It is recommended to anchor near the pilot boat of Rouen and contact her by VHF for instructions.

ANCHORAGE: The best one is Rade de la Carosse (Lat. 49° 27′ 30″ N., Long. 0° 01′ E.).

RESTRICTIONS: No restrictions at night time. Draft allowed 2.80 m. neap tides, 4.0 m. spring tides, Entrance is dangerous with wind from N.W. to N. over force 6.

Access channel has a depth of 2.80 m. and dries out (zero on French charts). Lock gates are opened about 2 hours before time of commencement of flood tide at Le Havre. Lock gates are closed 2.5 hours after time of commencement of flood tide at Le Havre. The fore port and river quays at Trouville are uncovered at low water. The Trouville fishing port is one where craft are beached.

MAX. SIZE: Length: 210 ft. (64 m. OA); breadth: 45 ft.

RADIO: Radio-Boulogne FFB.

TUGS: No tugs available.

STEVEDORES: Loading and discharge by shore crane.

MEDICAL: All hospital facilities available.

DENSITY: 1025.

FRESH WATER: Available from quay.

FUEL: Small quantity by tank-lorry on demand.

CONSULS: See "Caen" or "Le Havre".

REPAIRS: Small repairs only.

AIRPORT: Deauville St. Gaitien 3 miles away.

AUTHORITY: Commandant du Port, Capitainerie du Port, Boulevard Cornuge, 14800 Deauville. *Tel:* (31) 88.28.71.

AGENT: See "Paris".

NOTES

Please also advise Shipping Guides Ltd.

Gabon

CAPE LOPEZ: 00.38 S. 08.43 E. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
3 Lists of Ports of Call.
2 Manifest of Ship's Stores.
Clearance from Previous Port.

PILOTAGE: No official radio station. Pilotage not necessary to approach Port Gentil Roads.

Pilotage to Cape Lopez Terminal is assumed by Elf-Gabon Pilots, while pilotage to Pointe Clairette Terminal depends on Port Gentil Harbour Authority.

For the private tanker ports at Pointe Clairette and Cape Lopez, pilotage is compulsory. On Cape Lopez Roads Pilot will board vessel 1.5 miles offshore on a line with Cape Lopez Lighthouse bearing 255° True, distance 2.4 miles in a launch carrying proper Pilot signals. The Mooring Master will stay on board throughout the vessel's time in port to assist in mooring, hose handling and loading operations.

ANCHORAGES: The waiting anchorage position is 2 nautical miles in a 075° direction from Cape Lopez Lighthouse. Depth of water 55 m.

It is necessary to guard against violent tornadoes occurring between December and May coming from the East or the North. These tornadoes occur very suddenly and are extremely strong.

MAX. SIZE: 250,000 d.w.t. and LOA 340 m. Max. draft 20.50 m. (67 ft.).

Minimum size of vessel: LOA: 215 m. (Approx. 35,000 d.w.t.).

If vessel arrives with a part cargo from another loading port the maximum arrival deadweight acceptable is 160,000 metric tons.

RESTRICTIONS: Berthing is effected day and night, however, certain vessels may be berthed in daylight only. Unberthing is effected by day or night. Vessels must arrive with sufficient ballast and correct trim in order to manoeuvre safely.

Ballast should not be less than 30% of deadweight. Fresh water and stores are not considered as ballast; draft on arrival should not be less than 50% of loaded draft. Elf Gabon reserve the right to leave vessels which do not comply with these regulations at anchor.

Berthing is not effected in rough weather. At the berth mooring lines must be in good condition and well tended. In case of storm or tornado loading operations must cease and vessel be prepared to leave the berth if so directed by the Terminal Superintendent or Pilot.

HEALTH: Formalities carried out on berthing. However, ships remaining at anchor may have Customs and health formalities carried out through their Agent.

RADIO: *Libreville Radio:* Call sign: "TRA" keeps watch on 500 kHz and 2182 kHz from 0600 – 1800 hrs. GMT.

Elf Gabon Terminal: VHF watch on Channel 16 or 72. The working Channel of the terminal is Channel 72.

When a ship is expected, a permanent watch on VHF Channel 16 is kept by the terminal for short distance communications.

All ships must contact the terminal in advance of their arrival. Elf Gabon will inform the vessel whether berthing will take place on arrival or whether it should anchor.

Arrival Advice: Advise Agent 48 hours and 24 hours before arrival, also if any appreciable alteration thereafter.

VHF: Before vessel's arrival watch is kept on Channel 16. During loading and mooring, watch is kept on Channel 6.

TUGS: Compulsory. Owned by Elf-Gabon, can be contacted on 2182 kHz or VHF Channel 16. Ship tow lines are not required, 4 tugs are available up to 1,800 h.p. There are 2 launches for handling mooring lines.

BERTHING: Anchors are not required for mooring operations but must be ready for emergency case. Vessel berths port side alongside on 6 dolphins, heading 044° True. Depth of water along the berth is 25 m. Mooring ropes used as follows: fore and aft 3 head/sternlines, 2 breastlines, 2 springs. 2, 3, or 4 tugs are used for mooring operations, in accordance with the d.w.t. Vessel's engines must be ready for immediate operation all the time vessel is at the berth. 2 or 3 tugs will remain standing by. Ship's gangway is not required, an automatic one is supplied by Terminal.

Connecting Hoses: Connection and disconnection is carried out by Elf Gabon personnel with the assistance of the crew.

The vessel's cargo derricks are not used except in the case of absolute necessity or in the case of breakdown of the platform hoisting gear.

The 4 loading arms are 16 in. diameter, with hydraulic couplers for 16 in., 14 in. and 12 in. flanges. The arms are located on either side of the dolphins' centreline.

Reducers shall be provided by the ship for the other flange diameters.

Before connecting arms, the ship will be connected to the ship-shore bonding wire, and disconnected only after loading arm uncoupling.

Hose Handling: 5 arms. Crude: 4 × 16 in. arms. Loading rate: 12,000 cu.m./hr. Finished products (Diesel and Naphtha) are loaded by means of a 5th loading arm; 2 loading arms can be used for Fuel Oil.

Loading: Communication between ships and shore loading installations, in any case (loading, fire, etc.), will be effected on VHF Channel 72.

An Elf Gabon representative, responsible for loading and safety is on permanent watch at the berth. The Master must supply him with all relevant information and assistance required to ensure operations run smoothly.

The Master will be held entirely responsible for operating the valves and for safe loading on board his ship. If necessary, pumping speed can be reduced.

At least 10 minutes before loading is finished, the terminal should be notified of the moment pumping should be stopped.

When loading is completed, the tank ullages will be taken by a ship's officer in the presence of an Elf Gabon representative.

Average samples taken from each tank from which the crude was pumped will be furnished to the ship by the terminal.

These samples will be numbered, sealed and labelled showing the origin of the crude.

Notice of Readiness: To Elf Gabon.

BALLAST: Vessels must arrive with clean ballast only. There are no facilities for discharging dirty ballast at the terminal. In no circumstances should dirty ballast be pumped overboard.

MEDICAL: Doctors and hospital facilities available. All vaccinations can be arranged.

DENSITY: Varies between 1021 and 1025.

FRESH WATER: Fresh water supplies can be obtained within a few hours from a 120 ton barge. Apply to Port Gentil.

FUEL: 1,500 secs. and 3,500 secs. fuel can be supplied by barge or at berth whilst loading, subject to 48 hours' notice.

CUSTOMS ALLOWANCES: No restrictions for quantities tobacco and spirits held on board the ship. It is prohibited to allow dutiable articles to leave the ship.

CONSULS: France, Germany and Great Britain.

REPAIRS: There are facilities for hull and engine repairs for barges and river craft. Slipway for vessels up to 300 tons.

AIRPORT: Can be reached in 15 minutes by road. Regular services to Europe every day.

TIME: GMT plus 1 hour all the year round.

HOLIDAYS: Holidays do not affect tanker working.

POLICE/FIRE/AMBULANCE: Police tel. 17; Fire tel. 18; Ambulance tel. 23-33.

REPATRIATION: Facilities available. Contact ship's Agent.

SHORE LEAVE: Crew members are allowed ashore. There is no regular immigration control but identification papers should be carried. Bathing alongside the ship and the berth is strictly prohibited.

GENERAL: *Ships spares:* Customs require originals of invoices for clearing spares. Copies are not acceptable.

SAFETY: During the whole time the ship remains at the loading berth, the Master shall:

Maintain on board sufficient number of crew members to carry out any manoeuvre without difficulty, and to enable first fire fighting measures to be taken; maintain engines ready for manoeuvring; ensure that mooring is satisfactory without undue wear on mooring lines.

Fire Precautions: It is forbidden: To smoke, use naked flame or tools likely to create sparks outside the zones generally authorised for tankers; to carry out repairs or handling operations on deck; to turn the propellers; to use in danger areas any equipment or tools not of a type approved by a competent organisation. Elf Gabon reserve the right to take any steps considered necessary in case of danger and, in particular, to suspend loading; loading of bunkers, supplies, water, etc., will be submitted for the approval of Elf Gabon.

During loading:

All hull valves should be shut, except for those required for water circulation; all scuppers of main deck should be sealed; two fire hoses will be connected and set up, one at the bow. the other at the stern of the ship. The fire main shall be maintained under pressure at all times; two long robust steel safety ropes should be placed on the starboard side of vessel, one at the bow and one at the stern. The eyes should be maintained at the right distance from the water so that tug boats can easily catch hold of them.

Movement Restrictions:

It is forbidden to enter the zone of Elf Gabon installations without due authorisation. Smoking or use of lighters or matches are strictly prohibited.

In case of fire on board a ship moored to the loading berth, the Shipmaster shall give the alarm by sounding a series of short blasts on the siren. He is responsible for organising fire fighting and ensuring the stability and safety of his vessel, taking all the necessary steps in this respect.

Elf Gabon may order any safety measures to be taken in the general interest of everyone.

If considered necessary, during a storm, the loading operator may suspend loading and disconnect the loading arm.

Safety Look-out:

Elf Gabon have a permanent look-out on the loading platform under the orders of the chief loading operator.

Equipment at disposal of ship:

Stand-by tugs (2×2,000 h.p. minimum); mooring launches 140 h.p.; equipment permanently available at berth (water screen, hoses, etc.).

A Kleber anti-pollution barrier 500 m. in length can be launched within a few minutes.

A "Vortex" device can be used to re-pump the crude oil spilt in the sea. This crude oil is then collected in plastic tanks.

When a ship pollutes the sea, the above action and use of these devices will be charged to the vessel.

WEATHER:

Meteorology: From June to September the prevailing wind comes from S.S.E. and can reach force 6. From October to end of May, and especially during February, March and April there is a risk of tornadoes. They can come from any direction and are always very dangerous.

Tide: Mean amplitude of Spring tide is 2.20 m.

Swell: The terminal is protected from ocean swell. Wave height created by tornadoes can reach 2.50 m.

Current: Generally less than 0.5 knots but can reach 1 knot. Average direction 040° and 215°.

SHIPMASTER'S REPORT: 1977. (Updated September 1982).

This vessel is an OBO carrier of 159,250 d.w.t. and called for a part cargo of 85,000 tons of Mandji Crude.

Mandji Crude has an API of between 30.0 and 30.4 and was on this occasion loaded at 97°F.

It appears to be wax free and has a slight suspended water content.

Vessel size: Accepts vessels from 35,000 d.w.t. to 250,000 d.w.t., max. sailing draft is 67 ft.

Berth: Berth face about 420 ft. long with connected mooring posts. "Floating" type fender piles. Pilots are cautious of impacts as berth is piled into very deep soft mud. Moorings on our visit were: Forward: 3 head lines, 3 breast ropes and 2 springs. Aft: 3 stern lines, 3 breast ropes, and 2 springs. (See Plan Book).

The springs were sent ashore first, fore and aft.

All lines are run, 1 at a time, by mooring boat, and there is no problem running wire rope moorings.

There is a shore gangway mounted on a tower.

Load Rate: Total max. rate of 12,000 t.p.h. using 4 chicksan loading arms. The connections are 16 in. and hydraulically coupled.

Berthing: Straight forward operation, no significant currents, vessels tie up bow out, port side to jetty.

Berthing Operations: From end of passage to all secure was accomplished in just over 3 hours, from Pilot aboard to secure took 2 hours. Connection of the loading arms used by this vessel took 1 hour.

From commencement of singling up to Pilot away took 1.5 hours.

Tugs: There are 2 modern 3,000 h.p. Kort Nozzle tugs and 1 older tug of 2,000 h.p. stationed in the port. The larger tugs made fast fore and aft, and the smaller pushed midships. On sailing only one of the larger and the smaller tug were used. The tugs normally use their own lines and remain fast until mooring is completed.

Weather: Mild and pleasant apart from tornadoes which occur from October to May, but especially February, March and April.

These spring up without notice to very violent winds in minutes, and though it is understood loading may be suspended, the tugs are used to assist vessel to remain on the berth if required.

Bunkers: A bunker line is being installed on the jetty, a barge is used temporarily, but it is understood that delays can be expected in taking bunkers, and they must be ordered beforehand from Elf Paris.

Fresh Water: Said to be available by barge from Port Gentil.

Usage: According to the Pilot, about 12 ships a month use the berth.

Slop Reception: There are no facilities, vessels must arrive with clean pumps and clean lines.

Radio: Tugs and Pilot are on VHF 16 and Marine and Terminal Operations are on VHF 72.

Repairs: Doubtful if any repairs could be undertaken, possibly in emergency the refinery workshops would assist.

Communications: There are regular daily flights to Libreville, and connections from there worldwide with minimal delay. Flight time Cape Lopez to Paris is said to be 7 hours.

Crew Changes: Could be carried out easily from a point of transportation, but Port Gentil only has 1 hotel and 1 guest house and they are stated to be full to capacity at all times.

Medical Service: Could not be obtained because vessel berthed on Saturday. However, there is a hospital.

Chandler: The port has a chandler, but there is no local produce whatsoever, all vegetables, etc., being airlifted from France and prohibitively expensive.

Cargo: Mandji Crude at loading temperature 95° to 100°F., API 30.25, has slight percentage suspended water.

Shore Leave: Permitted, but walking through the installation is forbidden for security reasons, and transportation is apparently difficult to obtain.

General: I understood no clearing or formalities are completed until vessel is berthed.

Pilotage: Mooring Master now performs pilotage only and leaves after berthing.

Accommodation: No longer required to provide accommodation for shore people.

SHIPMASTER'S REPORT: November 1981.

The Shipmaster's report dated 1977 still correct except for the following points.

They require 3 birds and animal lists, 3 arms and ammunition lists, 3 narcotics lists and 3 copies of Notice of Readiness.

Agency listens on VHF Channel 16 during normal working hours and they also listen at 0900 and 1500 LMT on frequency 2506. Cargo papers usually take 2 hours after completion of loading. There was no problem with crew going ashore.

AUTHORITY: Elf Gabon, B.P. 525, Port Gentil, Gabon. *Tel:* (241) 75-60-00. *Telex:* 8210 – 8216 Go Elferap. *Contact:* L. A. Jean, Operations Manager.

Terminal: Cape Lopez Terminal, B.P. 524, Port Gentil, Gabon. *Tel:* 75-60-00. *Telex:* 8210. *Contact:* Terminal Manager.

AGENT: Socopao-Gabon, BP 560, Port Gentil. Tel: 752491. Cables: "Freight Portgentil". Telex: 8223.

GAMBA: 02.50 S. 09.59 E. (See Plan Book)

SEA TERMINAL: SBM.

DOCUMENTS:

Last Port Clearance.
3 lists of Last Ports (during last 3 months).
3 Stores Lists.
4 Crew Lists.
3 Personnel Effects Lists.
3 Lists of Vaccinations.
1 Notice of Readiness.

APPROACHES: The approaches to the terminal are open deep water. Gamba sea terminal fairway buoy is located in position Lat. 2° 50.1′ S., Long. 9° 56.5′ E. Black buoy. Group Occ(2) 10 secs. Visibility 4 miles.

The single buoy mooring is located in position Lat. 2° 50.1′ S., Long. 9° 58.9′ E. and exhibits a white flashing light, visible for 5 miles.

Gamba Lighthouse: Lattice tower. Red and white. Height 47 m. White flash 2/10 secs. Visibility 21 miles. Position, Lat. 02° 47.0′ S., Long. 10° 01.4′ E.

READINESS: The notice of readiness will be received and accepted by the Berthing Master at the anchoring time if the ship is delayed on request of the Terminal (scheduled delays, awaiting cargo, awaiting orders, weather conditions, etc.) or at the time of mooring if the ship is berthed on arrival.

PILOTAGE: All tankers mooring at Gamba SBM must use the Shell Gabon Pilot who should also be used for unmooring.

Berthing Master boards tankers at the following position: Lat. 02° 50.0′ S., Long. 09° 57.0′ E.

The Berthing Master and his assistant will remain on board throughout loading. The Berthing Master also acts as ship's Agent and focal point for liaison with the shore; communications with the terminal by VHF (portable sets for ships not equipped with VHF are supplied).

The pilot boat/mooring launch which assist mooring/unmooring will stand by throughout loading. For this purpose a mooring rope will be provided aft, by the tanker.

ANCHORAGES: 1.5 miles N.W. from SBM in 60 ft. depth. Vessels anchor without assistance.

RESTRICTIONS: Heavy swell and tornadoes (October to May tornadoes can come from any direction and are always dangerous).

MAX. SIZE: Max. ship size 130,000 d.w.t., weather permitting. Max. distance bow to manifold – 465 ft. Max. draft 41 ft.

HEALTH: When advising ETA include in message whether any sickness on board. In case of emergency vessels should call before or after loading at Port Gentil for medical attendance or for crew changes. For this purpose send separate message to "Marine Gamba" and to Agency.

BERTHING: Berthing takes place both by day and by night. If a Shipmaster refuses to berth by night, delays will be charged to his vessel.

Depth and draft: Depth at berth: 59 ft. From this figure must be deducted the height of the manifold which is 8 ft., thus leaving a controlling depth of 51 ft. A nominal underkeel clearance of 10 ft. is allowed to take account of ship movement caused by swell. This leaves an approved safe draft of 41 ft.

SBM Description: The buoy is 8 m. in diameter, 4 m. high. A double 16 in. manifold is provided on the turntable (one pipe is blanked) 90° clockwise from the tanker securing point. The SBM is moored by means of 8 chains which are secured to the seabed by 120 tons holding power anchors.

MOORING: Recommended that vessel should be trimmed max. 8 ft. by the stern on arrival.

Ships must have ready on the forecastle, and before approaching the SBM, four synthetic mooring lines lashed two by two each side. These mooring lines will be connected to the pickup wires by the mooring launch by means of shackles and heaved up until the triangular plates are on board and are in turn connected to the mooring wires by means of forelock shackles. If vessel is not fitted with central fairlead, the most forward fairleads on either side will be used.

Vessels moor with 2×10 in. nylon ropes (length 50 m.) from SBM secured on board ship by two 2.25 in. chain cables plus two 3.25 in. wires which provided by terminal. Berthing Master will advise in detail mooring procedure.

LOADING: A derrick should be rigged with double whip and topped on the port side for loading mooring equipment and hose lifting.

Shore Line System: SBM – 1×28 in. submarine pipe-line (total length to Terminal 7.3 km. (24,000 ft.)). Reduced to 16 in. for connection to ship's manifold (total length of floating hoses: 865 ft.).

Gamba Crude Characteristics:

Density at 15°C:	0.8663	Salinity:	20 to 35 mg/Kg
API at 60°F:	31.75	Cloud point:	39°C
BSW:	0.40%	Wax:	18%

Connection/Disconnection: Connection and disconnection are carried out by ship's crew with advice from Berthing Master. The hose is connected amidship on portside and is ended by a 16 in. reducer having A.S.A.B. 165 flanges.

If there are no suitable reducers available on board, Gamba Terminal should be advised by radio giving size of ship's manifold and pitch of bolt holes.

Loading: During the loading the Berthing Master remains on board and acts as Loading Master. He is in permanent contact with terminal by VHF.

If necessary the pumping rate can be reduced at any moment. The Loading Master will be advised at least one hour before the completion of the loading. The average loading rate is 2,500 cu.m. per hour.

Papers: The Loading Master receives by VHF shore figures from the Terminal about one hour after the completion of the loading. All documents are completed before the departure of the ship. Two sets of documents are delivered to the Master: one for his own purpose and one for the Consignee.

Engines: Engine immobilisation is forbidden at the SBM. Engines should be kept ready for use at any time at the Berthing Master's request.

RADIO: Establish contact with Gamba Radio (call sign TRP 8) soon as possible (all open days or 4 days before nomination lifting date). ETA should be sent at least 4 days before arrival in Gamba to "Marine Gamba" via Gamba Radio. Thereafter keep close contact on telephone with Gamba Radio MF (2182) and VHF Channel 16.

Gamba Radio (TRP 8) Service:

Telegraphy A1	500 W On request by Gamba Marine.
Telegraphy A1	2 kW
13070 kHz	General call and TFC list at 0900 hrs. Listen on 12 MHz band from 0900 – 0930 hrs. and on 16 MHz band from 0930 – 1000 hrs. Range about 6,000 miles.
6510 kHz	General call and TFC list at 1300 hrs. Listen on 6 MHz band from 1300 – 1330 hrs. and on 8 MHz band from 1330 – 1400 hrs. Range about 1,000 miles.
Telephony A3	2 kW Maintains watch on 2182 kHz from 0800 – 0900 hrs. and from 1400 – 1500 hrs. Working frequencies 1877 kHz and 2678 kHz. Range about 300 miles depending on atmospherics.
VHF F3	50 W. Call sign "Marine Gamba". Watch on Channel 16/12. Working on Channel 12. Range about 30 miles.

24 hours' service in French language. Watch in English language during office hours (0600 – 1100 hrs. and 1300 – 1515 hrs.).

Pilot Launch Service	
	20 W Watch on Channel 12 (when at sea). Range about 20 miles.
Terminal Gamba	
	20 W Watch on Channel 12. Range about 20 miles, used only for loading operations.

Radio Beacon: Continuous airplane radio beacon call sign GZ, frequency 359 kHz. Position: Lat. 02° 46.8′ S. Long. 10° 02.3′ E.

N.B. All times in GMT.

MEDICAL: No medical or dental facilities at Gamba (See "Health").

DENSITY: 1025.

FRESH WATER/FUEL: Not available.

REPAIRS: No facilities available.

BALLAST: There are no facilities for discharging ballast ashore. Vessels must arrive at the loading terminal with clean ballast only, apart from contents of the slop tank.

GANGWAY/DECK WATCHMEN: Not required.

CUSTOMS ALLOWANCES: No restrictions on Tobacco/Wine.

CONSULS: None, French consul in Port Gentil.

REPATRIATION: No facilities.

AIRPORT: Gamba airport is local airstrip and is connected to Port Gentil by daily service (Except Sunday). Port Gentil airport is connected to Libreville International airport by daily services. Mail reaches any European country within seven days.

TIME: GMT plus 1 hour throughout the year.

GENERAL: The use of Channel VHF 9 is forbidden.

Ship's Spares: Customs require originals of invoices for clearing spares. Copies are not acceptable.

SHORE LEAVE: Not allowed.

IDENTIFICATION CARDS: Not required.

AUTHORITY: Shell Gabon, Gamba Marine (GMA), B.P.146, Port Gentil, Republique du Gabon. *Tel:* 752651/52/53. *Telex:* Gls/Gma 8206 Go. *Cables:* Shell Gabon Port Gentil. *Contact:* Berthing Pilot, Gamba Marine.

AGENT: See "Port Gentil".

LIBREVILLE: 00.23 N. 09.26 E.

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" and (subject to C/P terms) laytime will commence is 2 miles off shore at Libreville harbour.

DOCUMENTS: See "Port Gentil".

PILOTAGE: None available.

ANCHORAGES: Bottom of roads in Libreville slopes very gently down towards open sea. The greater the vessel's draft, the further out it must moor. e.g., ship of 7 m. to 8 m. draft will be moored approx. 1,500 m. from Harbour Pier. Ship 5 m. – 6 m. draft will be able to approach the Harbour Pier as near as 500 m. to 600 m. For reasons of safety, forbidden to come nearer, particularly during tornado season – February to May and September to December.

RESTRICTIONS: No restriction imposed on entering or leaving the Estuary. Channel marked by 5 buoys provided with radar reflectors and flashing lights. Sixth buoy, called a "landing buoy" moored in roads, where vessels moor.

MAX. SIZE: *Shipmaster's Report: March 1980.* Max. draft 7.4 m.

HEALTH: If there is sickness on board, Health Service warned by Consignor of vessels. Health Service can go on board to check state of crew's health. Immigration Service can also board to check crew list and condition of passengers, if any.

RADIO: *Libreville Radio:* Radio-telephony from 0600 to 1800 hrs. GMT on 2182 kHz, Radio-telegraphy from 0600 to 1800 hrs. GMT on 500 kHz, call sign TRA 22; from 0800 to 0830 hrs.on 13101 kHz, call sign TRA 8; from 1630 to 1700 hrs. GMT on 8722 kHz, call sign TRA 8.

TUGS: Tugs intended only for towing lighters, horse power 150 to 250, unsuitable for any harbour towing.

BERTHING: Only for lighters and small coasters with a draft of less than 3 m. Crews working unloading or loading of vessels in roads supplied by Consignor of the ship. Harbour Services have no radio apparatus. Shipping companies all have radio-telephone extensions, which allows them to be in permanent contact with vessel moored in roads. Unloading or loading operations of goods carried out by lighters which, towed by small tugs, ensure rotation between vessel in operation and quay. All this equipment belongs to shipping companies dealing with consignment of vessels in the roads. Every vessel arriving in roads must have its consignor.

STEVEDORES: Available.

MEDICAL: Hospital available, and in case of necessity, patient or patients will be admitted.

FRESH WATER: Water supply real problem, as there is no tanker to transport it. Therefore strongly recommended that any ship touching Douala coming from the North or Pointe-Noire coming from South, should fill up at one of these ports.

FUEL: There are fuel-tankers belonging to shipping companies. The tanker which provisions Libreville 2 or 3 times a week is brought alongside buoys in roads, (position: Lat. 0° 23′ 51″ N., Long. 9° 25′ 42″ E.); fuel is transhipped by sea-line to tank on shore.

FIRE PRECAUTIONS: No special precautions.

GANGWAY/DECK WATCHMEN: Carried out by crew.

OPENING/CLOSING HATCHES: This is done with the tacit agreement of the ship's Officer and the Consignor.

CARGO GEAR: Ship's own gear used.

CONSULS: None.

REPAIRS: Small repairs possible.

DRY DOCKS: None.

REPATRIATION: No facilities.

AIRPORT: 9 km. from the harbour. Links with French-speaking Africa, Switzerland, and France, also Johannesburg.

TIME: GMT plus 1 hour.

HOLIDAYS: 17th August, Independence of Gabon; 1st May, Labour Day – these are the only holidays in force.

SERVICES: None.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Required.

DELAYS: First come, first served method.

GENERAL: *Ship's Spares:* Customs require originals of invoices for clearing spares. Copies are not acceptable.

AUTHORITY: Capitainerie du Port.

AGENT: Socopao-Gabon, B.P.4., Libreville. Tel: 70.21.40 and 70.21.53. Telex: 5212. Cables: "Freight Libreville".

LUCINA MARINE TERMINAL: 03.40 S. 10.46 E. (See Plan Book)

DOCUMENTS: See "Gamba".

APPROACHES: Navigation aids:

West buoy: Gp. Occ. (2) 10 secs. Lat. 03° 40.0′ S., Long. 10° 44.3′ E. Black and white buoy showing West marker and radar reflector fitted.

North buoy: Gp. flashing (3) 10 secs. Lat. 03° 38.5′ S., Long. 10° 45.7′ E. Black and white buoy showing North marker and radar reflector fitted.

East buoy: Gp. flashing red (3) 10 secs. Lat. 03° 40.0′ S., Long. 10° 47.3′ E. Red and white buoy showing East marker and radar reflector fitted.

Platform LD 1: One white Morse code light: letter U. The flare installed on the Production platform LP 1 is very conspicuous.

Platforms LD 2, LD 3, LD 4: The beacon on these platforms consists of two white Morse code lights: Letter "U" plus 2 lights "U" 15 seconds (Fore and Aft).

SBM light: Position: Lat. 03° 39.6′ S., Long. 10° 46.2′ E. One flash 0.3 secs. each sec. Visibility 5 miles.

Storage tanker: The storage tanker is showing the lights of a ship at anchor. During the hours of darkness all deck lights are switched on.

NOTICE OF READINESS: See "Gamba".

PILOTAGE: Berthing Master boards vessel in position Lat. 03° 39′ S., Long. 10° 44′ E. Also see "Gamba".

ANCHORAGES: Vessels must anchor without assistance. Recommended anchorage in 19 fathoms about 1.5 miles N.W. of storage tanker.

RESTRICTIONS: No draft restrictions. Depth of water can be assumed to be 114 ft.

MAX. SIZE: Max. ship size 130,000 d.w.t., weather permitting. Max. distance bow to manifold – 465 ft.

HEALTH: See "Gamba".

RADIO: All messages sent to "Marine Gamba" through Gamba Radio TRP 8 (see "Gamba").

ETA: Should be sent to "Marine Gamba" via Gamba Radio. First ETA should be sent at least 4 days before arrival.

VHF: Vessels should call Marine Gamba on Channel 16 or 12 during office hours when passing Gamba area. Permanent watch on Channel 12 or 16, on the storage tanker and the mooring launch.

BERTHING:

Description and Location: The development consists of six oil producing wells, which are protected by 4 single four-pile platforms, LD 1 (Lat. 03° 41′ S., Long. 10° 44.3′ E.) – LD 2 (Lat. 03° 41.8′ S., Long. 10° 45′ E.) LD 3 (Lat. 03° 42′ 28″ S., Long. 10° 46′ 01″ E.) – LD 4 (Lat. 03° 40′ 56″ S., Long. 10° 44′ 37″ E.). Production facilities are located on four-pile platform LP 1 which is connected by a bridge to the adjacent platform LD 1. An 85,000 d.w.t. "Banio", floating unit of storage is moored by means of 10 anchors in position Lat. 03° 40′ S., Long.10° 45.8′ E. The FUS is connected with a SBM via a submarine line, length 1 km.

SBM description: The buoy is 8.5 m. in diameter and 4 m. high. Connections for submarine lines from the FUS are provided on the bottom of the centre swivel section which is free to rotate. (Other details same as Gamba).

Nylon moorings: Vessels moor with two 10 in. circ. nylon ropes from the SBM and are secured on board ship by two 56 mm. dia. stud link chains plus two 3.25 in. wires which are provided by the terminal. Both nylons are 50 m. long.

Floating hose and submarine line: 1×20 in. submarine pipe-line, length 1,100 m. from the FUS 1 floating line, length 865 ft., from SBM is reduced to 16 in. for connection to ship's manifold.

Mooring: See "Gamba".

LOADING: *Lucina Crude Characteristics:* Density at 15° C.=0.8258; API at 60° F.=39.8; B.S.W.=Nil; Salinity=3 to 5 mg/kg; Cloud point=27°C.; Wax=14%.

Loading rate: Average loading rate 3,000 cu.m.p.h.

Connection/Disconnection: See "Gamba".

DEBALLASTING: See "Gamba".

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No facilities. Engines not to be immobilised whilst at the SBM.

REPATRIATION: Not possible.

TIME: GMT plus 1 hour throughout the year.

SHORE LEAVE: Not allowed.

GENERAL: *Ship's Spares:* Customs require originals of invoices for clearing spares. Copies are not acceptable.

AUTHORITY: Shell Gabon, Gamba Marine (GMA), B.P. 146, Port Gentil, Republique du Gabon. *Tel:* 752651/52/53. *Telex:* Gls/Gma 8206 Go. *Cables:* Shell Gabon Port Gentil. *Contact:* Berthing Pilot, Gamba Marine.

OVENDO: 00.17 N. 09.30 E. (See Plan Book)

SHIPMASTER'S REPORT 1978:

Vessel, length 156 m., breadth 22.0 m. Draft (at the time, 30 ft.).

APPROACHES: The channel buoys showed very well on radar on the 3 and 6 miles ranges, even during heavy rain, but the lights on the red buoys are poor and all buoys occasionally unlit.

ANCHORAGES: Depths in the channel and river were found to be as stated during low water with a depth of 33 ft. over all the anchorage. Maximum draft allowed at this time was 30 ft.

The holding ground is good, 4 shackles were used for a total ship weight of 19,000 tons plus a small coaster alongside.

The tides are regular with only a very short slack water period, and run at between 4 and 6 knots.

PILOTAGE: There are 2 French Pilots who may be contacted on VHF Channel 16 when in range, they are ordered by the Agent to berth vessels only, although they will pass on advice to vessels regarding anchoring.

TUGS: There is 1 tug of approximately 1,000 h.p. which assists in berthing, either towing or pushing.

BERTHING: Well fendered modern concrete quay, 450 m. in length, laid out as per plan in the Guide. The normal practice is for there to be 2 ships of around 150 m. and one smaller ship alongside at one time. The inshore side of this quay is for small craft only.

Depths alongside Berth No. 1, 23 ft.; No. 2, 18 ft. and No. 3, 22 ft.

FRESH WATER: This is obtainable while alongside the quay but only in a dire emergency at the anchorage from the tug which can supply up to 8 tons.

REPAIRS: Only very small repairs are possible and it is suggested that a receipt is obtained for any parts sent ashore.

REPATRIATION: There are 2 planes a week from Libreville to Paris and approximately 12 planes weekly to Abidjan.

SHIPCHANDLER: There is no chandler for any form of stores, the only possibility being self-purchase at the local (Libreville) supermarket. All goods are imported and therefore very expensive.

HOLIDAYS: 12th March, Gabonese independence.

MARINE CLUB: There is a marine club about 1 km. from Ovendo in the Libreville direction (swimming pool, etc.).

SHIPMASTER'S REPORT: February 1979.

DOCUMENTS: Ship's Papers (sighted), Crew Lists (5), Passenger Lists (5), Port of Call (4), Crew's Custom Declaration (1), Marine Health (1), Arms and Ammunition (1).

PILOTAGE: Pilot boards by tug which is compulsory for docking and undocking. Vessels berthed head out for sailing.

APPROACHES: Gambia Lighthouse range 20 miles is easy to pick up, channel is well marked by buoys with good radar reflectors. No Pilot is available for the channel. After last buoy proceed directly to anchorage.

Soundings taken throughout channel showed a least depth of 20 m.

ANCHORAGES: Waiting anchorage is 0.5 to 1 mile West of the wharf.

RADIO: Agent keeps watch on VHF Channel 16.

BERTHING: A new port has been built about 4 miles South of old lighter jetties at Libreville, consisting of 1 wharf at right angles to the shore in 15 m. of water, capable of docking 2 ocean-going vessels.

STEVEDORES: Slow but efficient, about 6 tons per gang man hour.

REPATRIATION: Airport 12 miles from port, 6 flights per week direct to Paris.

TRANSPORT: Available by bus or taxi to the town.

SHORE LEAVE: Allowed.

SEAMEN'S CLUB: Within 1 mile of port with bar and swimming pool.

SHIPMASTER'S REPORT: March 1980.

PILOTAGE: Pilot compulsory. Pilot boards 1 mile S.W. of Ovendo Pier and requires 24 hours' and 12 hours' notice.

ANCHORAGE: One mile S.W. of the pier.

RESTRICTIONS: Pilot advises that vessels can only berth on slack water as a 5 – 6 knot (approx.) ebb tide runs. Vessels able to sail at any time, however, it is not advisable to manoeuvre during darkness as buoys are frequently unlit. Vessels are able to proceed from sea to anchorage at any time.

MAX. SIZE: Max. draft at Ovendo is 9.2 m. Mean tidal range 1.5 m.

TUGS: One tug available.

VHF: Pilot and Port Authority on Channel 16. Agent on Channel 9.

BERTHING: The berth at Ovendo is 20 miles from the entrance. There is one jetty 450 m. in length. The mean tidal range at the berth is 1.5 m. and the bottom in the vicinity of the berth is mud. Container vessels use the port and discharge using ship's gear. There is ample handling and storage space for containers. "Delmas" container vessels use the port frequently and they take preference over most other vessels.

SERVICES: The following are available:

Fresh water (rate 25 tonnes p.h.), airport, doctor and hospital.

The following are not available:

Fresh provisions, repair facilities, dry dock facilities, machine shop, surveyors, laundry service, fuel, lubricating oils, groceries, meats and slop facilities.

GENERAL: Arriving from a S.W. direction no difficulties were encountered, Point Gonbe was visible 18 miles on the radar and later the fairway buoy was visible at 10 miles. All the channel buoys showed up at 6 to 8 miles on radar.

The Fairway Buoy is very large, similar to the type used on the American coast. Chart used 1877 (Estuaire du Gabon).

Conspicuous wreck marked in position Lat. 0° 24.4′ N., Long. 9° 17.2′ E. is no longer visible.

On entering inward I checked the buoys' positions against the land and found:

Fairway Buoy Gp. Fl.(2) 6 secs. In position. Unlit.
(Course 090°×3.2 M) Fl. G. 4 secs. In position. Lit.
(Course 115°×2.1 M) Gp. Occ(2) G. 6 secs. In position. Unlit.
(Course 115°×2.1 M) Between { Occ. R. 4 secs. In position. Unlit.
Fl. G 4 secs. In position. Unlit.
(Course 137°×3.0 M) Fl. R. 4 secs. Out of position. Unlit.
(Course 137°×6.1 M) Occ. 6 secs. In position. Lit.

After passing the Fl. R. 4 sec. buoy, vessel was about to set a course to the anchorage off the port of Libreville but was told that vessels carrying cars were to proceed to the new port of "Ovendo" some 8.5 miles further up the river.

On arrival I was told to anchor 1 mile S.W. of the new pier.

Quite a modern port as described in the "Guide to Port Entry".

Laying alongside the berth is not very comfortable when the ebb tide starts to flow, anything up to 6 knots within half an hour of HW, getting its force from three rivers, River Egoume, River Ikoy and the main river Komo.

Vessels always berth on slack water with the aid of a tug to push. Vessels can leave at any time. Port employs two French Pilots.

REPORT: 1982.

Ship Spares: Customs require originals of invoices G11 for clearing spares. Copies are not acceptable.

AGENT: See "Libreville".

PORT GENTIL: 00.43 S. 08.48 E. (See Plan Book)

LOCATION: The deep water port of Port Gentil is located between Point Clairette (Sogara Refinery) and the Alcyon Bank (CFG factory).

APPROACHES: Buoyed channel, lit at night. Minimum depth 15 m.

DOCUMENTS:

Cargo Manifest.
Store List.
Crew's Personal Effects List.
Crew List.
List of Ports of Call (not compulsory).
Health Certificate.
Ship's Official Papers.

PILOTAGE: Pilot service operates 24 hours a day. Vessels berth day and night except at Sogara Quay where berthing is daylight only.

ANCHORAGES: An anchorage area for timber vessels faces the old port. Access to the zone is by leaving to starboard a path 200 m. from the buoys of the Alcyon and Talisman Banks.

An anchorage area for waiting vessels intending to berth at the new port, or at the Sogara Refinery is to starboard of a line joining the Prince Buoy to the buoy of the Sogara route to the port.

RESTRICTIONS: See "Pilotage".

The water area in the port is clear with no obstructions apart from the Alcyon Bank running from the marker buoy to the CFG factory. Dredging carried out permits manoeuvring of vessels to Berth No. 2 of the Commercial Quay.

RADIO: Port Control on HF 2182 kHz and VHF Channel 16, Working Channel 12.

TUGS: Not required.

BERTHING: *Commercial Quay:* 350 m. of quay with 11 m. depth of water and 75 m. of quay with a depth of 2.5 m. which constitutes the barge quay. The quay bollards are spaced 30 m. apart. This quay is able to accommodate 3 × 20,000 tonne vessels.

Fish Quay: The fish quay runs at right angles to the Commercial Quay (107° – 287°). 80 m. with 8 m. depth of water; 197 m. with 7 m. depth of water.

This quay is reserved as a priority for fishing vessels, but can be partially used for berthing vessels of a commercial nature. The quay bollards are spaced 20 m. apart.

Storage: 6,000 sq.m. of covered storage, divided into 6 bays of 1,000 sq.m. each. 3 bays leased to COMACO (8 reefer points available). 3 bays leased to SOAEM (1 reefer point available). 1 Customs warehouse located in the SOAEM bay.

Open storage area: Current paved surfaces of open storage areas – 14,000 sq.m. One tarmac non-covered area of 10,000 sq.m. is in service. A second storage area of 10,000 sq.m. (approx.) will be brought into service at a later date.

STEVEDORES: Work in 3 shifts throughout 24 hours.

MEDICAL: The port infirmary is located in the Comaco Building.

TANKERS: To N.E. of Mole is a petroleum pipe-line unloading point for small tankers, tying up on buoys, max. length 70 m., draft 5 m.

Prince's Bay, point for unrefined petrol by sealine is available to North of Prince's Bay (see "Cape Lopez").

FRESH WATER: Available at commercial quay and fishing quay.

WATCHMEN: Available.

HATCHES: Opened and closed by crew.

CONSULS:

France	BP. 511	Tel: 20.86
Netherlands	BP. 792	Tel: 28.09
Sweden	BP. 518	Tel: 21.71
Switzerland		Tel: 20.19

REPAIRS/DRY DOCKS: Not available.

REPATRIATION: Obtainable on medical grounds. No facilities for crew changes.

AIRPORT: 4 km. distant. Regular services.

TIME: GMT plus 1 hour. No alterations.

HOLIDAYS: No work on Independence Day, 17th August.

SHORE LEAVE: Permitted.

GENERAL: *Ships' Spares:* Customs require original of invoices for clearing spares. Copies are not acceptable.

AUTHORITY: Direction du Port de Port Gentil, B.P. 43, Port Gentil, Gabon. *Tel:* 75-35-63. *Contact:* J. B. Pea, Le Directeur du Port.

AGENT: Socopao-Gabon, B.P. 560. Tel: 752491. Telex: 8223. Cables: "Freight".

Gambia, Republic of

BANJUL: 13.27 N. 16.34 W. (See Plan Book)

DOCUMENTS:

7 Crew Lists.
7 Passenger Lists.
7 Ports of Call Lists.
Health Documents.
Deratisation (or Exemption) Certificate.
Yellow Fever Inoculation Certificates.
Customs Crew Declaration.
2 signed copies of Manifest.
Bills of Lading (may be sent in advance of vessel).

PILOTAGE: ETA and draft to be communicated to "Harbour Master Banjul" 48 hours before ETA and confirmed 12 hours before. Vessel arriving Monday ETA preferably not later than Saturday morning.

Pilot station situated in Harbour Master's Office has VHF station, calling Channel 16 (156.80 MHz) working Channels 12 (156.60 MHz) and 14 (156.70 MHz). Continuous listening watch kept 0800 – 1500 hrs. Monday – Thursday. 0800 – 1300 hrs. on Friday and Saturday. Listening watch at weekends if vessels are expected. Reception generally good within 100 nautical miles radius. Pilot boat has blue hull and white superstructure, exhibiting usual signals.

Pilotage from any point inwards from Fairway Buoy by request, but compulsory from No. 5 Buoy inwards.

ANCHORAGES: Good and spacious anchorages to the East and S.E. of Government Wharf in depths of 8 to 15 fathoms.

RESTRICTIONS: Vessels may enter and proceed to anchorage at all times and states of tides. Minimum depth in sea approach channel is 28 ft. LWOS. Average rise of spring tides 6 ft., neap tides 4 ft.

MAX. SIZE: Maximum length 600 ft. maximum draft 27 ft. (Banjul Wharf) 8 ft. (Government Wharf). For vessels anchoring only, length unlimited.

HEALTH: Vessels exhibit the appropriate International Code signals. Port Health Officer usually boards the vessel at the harbour anchorage or alongside between 0800 and 1700 hrs. daily, at all times in case of emergency.

RADIO: Banjul Radio call sign C5G. Radio Telephone 2182 kHz (calling) 2756.4 kHz. 1100 – 1200 hrs., 1400 – 1500 hrs. (weekdays) Sundays – on demand.

RADAR/VHF: Port VHF. Radar station being constructed – See "Pilotage".

TUGS: One tug of 1,000 h.p. and one 25 ft. mooring launch.

BERTHING: Banjul Wharf: Length 123 m. Breadth 19 m. Depth alongside 10 m.

Maximum permissible draft alongside; Banjul Wharf 27 ft. Government Wharf 17 ft. Government Wharf berthing face 294 ft. with 1 dolphin in line 100 ft. from North end. Mooring bollards on foreshore. Banjul Wharf berthing face 400 ft. mooring dolphin each end, set back from wharf face. Inner berth of length 335 ft. suitable for small vessels up to 17.5 ft. draft. Public Jetty berthing face 196 ft. maximum draft 11 ft.

New deep water berth similar to Banjul Wharf under construction close Northward of Banjul Wharf, completion June 1984. Also see "Developments".

BRIDGES: No bridges.

STEVEDORES: Normally 48 hours notice addressed to Agent. If arriving Monday preferable Agent notified requirements latest Friday. Normal working hours 0730 – 1900 hrs.

MEDICAL: Emergencies and cases requiring hospitalisation attended to at all times, giving as much advance notice and information as possible. Other cases attended to as convenient to ships after arrival. For certificates required see "Documents". Inoculation and vaccination yellow fever/smallpox given on request.

TANKERS: Tankers (discharging only) berth on Banjul Wharf. Maximum permissible draft 27 ft. Discharge of residue and bilge prohibited. Ballasting by permission of Harbour Master.

DENSITY: Normally salt water at Banjul, reducing to about 1020 ozs. per cu.ft. during River Gambia flood water period: August – February.

FRESH WATER: Fresh water available at Banjul wharves from hydrant. Notice of requirements should be sent with ETA. No water barge.

FUEL: Bunkering facilities available at Banjul Wharf by road tankers for reasonable quantities. Also available at Public Jetty for small craft (11 ft. draft). Advance notification required for all bunkers.

FIRE PRECAUTIONS: For tankers and vessels carrying explosives Fire Brigade will be in attendance.

GANGWAY/DECK WATCHMEN: Recommended. By arrangement with Agent.

OPENING/CLOSING HATCHES: Usually done by stevedores.

CERTIFICATES: Registry, Articles of Agreement, Load Line, Safety, Safety Equipment Radio Licence/Certificate.

CUSTOMS ALLOWANCES: Reasonable allowance of wine/spirits and tobacco/cigarettes out of bond, as per Master's request.

CARGO GEAR: In accordance with UK Factories Act. Ship's lifting gear for loading and discharging, also 4×6 ton and 1×30 ton mobile cranes available.

IDENTIFICATION CARDS: Needed.

CONSULS: In Banjul: Belgium, Denmark, France, Lebanon, Norway, Spain, Sweden. U.S.A. has resident charge d' Affairs and U.K. has High Commissioner. Senegal has resident Ambassador.

REPAIRS: Minor hull, deck and engine repairs and welding undertaken by G.P.A. dockyard.

DRYDOCK: A slipway of capacity of 500 tons displacement is included in the dockyard facilities.

REPATRIATION: Possible.

AIRPORT: Airport 14 miles from Banjul. Regular services.

TIME: GMT kept throughout the year.

HOLIDAYS: New Year's Day (1st January); Independence Day (18th February); Good Friday, Christmas Day, Boxing Day, Islamic Festivals of Eid-El-Fitr (Ramadan) and Eld-El-Kabir. No cargo work on Islamic Holidays.

TELEPHONE: Telephones installed on board at ships/Agent's request.

SHORE LEAVE: No restriction on normal shore leave.

GENERAL: Lighters may be hired for discharging ship at anchor and transhipments up river.

A private company operates a large fleet of lighters, mainly for transporting groundnut from river ports to Banjul. Ships stores: fresh vegetables, beef and fish, fruit (in season) and bonded stores are available.

Other Ports: River Ports: Kaur and Kuntaur at 118 and 150 miles upriver respectively from Banjul. River Pilots available at Banjul. Max. loaded draft 17 ft. 06 in.

DEVELOPMENTS: This envisages the commencement of Phase II of the Banjul Port Project as trade develops and ultimate embarkation of Phase III.

Work on Phase II which includes the building of a second deep water berth is underway. Length of new berth 123 m., breadth 29 m. and depth alongside 15 m. However, as the maximum depth at MLWS between No. 8 and No. 9 Buoys is 9 m. the maximum recommended draft is 8.5 m. The berth will be completed by June 1984.

AUTHORITY: Gambia Ports Authority, Wellington Street, P.O.Box 617, Banjul, Republic of the Gambia. *Tel:* 266 (Managing Director). 267 and 268 (Others). *Telex:* 2235 Gamport Gv. *Cables:* Gamports. *Contact:* Captain J. F. Leigh, Managing Director.

HEALTH: Pratique given on arrival. In case suspected disease or fever on board, radio details to Agent before arrival. Complete declaration of health required.

RADIO: Rugen Radio, call sign "Y5M".

TUGS: Available. Use of at least 1 tug is compulsory for vessels berthing and unberthing.

Sufficient number of tugs available, from 300 h.p. to 1,200 h.p. Tugs normally join vessel in front of the mole.

BERTHING: *Overseas Port:* Situated in Lower Warnow River about 3.8 miles from Warnemunde Sea Buoy.
Pier No. 1: 9 berths General goods depth 30 ft. to 34 ft.
Pier No. 2: 13 berths General goods depth 30 ft. to 33 ft.
Pier No. 3: 4 berths Bulk cargoes depth 30 ft. to 37 ft.
Pier No. 4: 3 berths Grain, Feedstuffs, Fish Meal. Depth 34 ft. – 37 ft.
Oil Pier: 3 tanker berths depth 30 ft. to 38 ft.

Chemical Port: 1 berth. Depth 29 ft. 7 in.

City Docks: In Warnow River, about 6 miles from sea. Total quay length 1,600 m. depths alongside 21 ft. and 18 ft. Grain elevators shooting capacity 42 t.p.h., suction capacity 33 t.p.h.

Warnemunde: Port for passenger service. Quay length 180 m. Depth alongside 27 ft. 06 in.

Port Control to be contacted through VHF Channel 14.

Roll-on/Roll-off terminal with facilities for 20 ft. and 40 ft. containers. Max. draft 25 ft.

CRANES: *Overseas Port:* 73 cranes and 15 crane-bridges with capacities from 3.2 – 63 tons. A self-propelled floating crane "Goliath", for heavy lifts not exceeding 100 tons is available. Heavy Lifts weighing up to 300 tonnes may be handled by means of additional 100 ton yard cranes.

City Docks: Crane capacities 2 – 10 tons.

BULK HANDLING FACILITIES: 4 berths, length of quay 900 m. Six bridges with 20 tons capacity and outreach of 40 m. Storage area 13,200 cu.m. for 90,000 tons of bulk cargo.

TANKERS: 3 berths available. Max. length 230 m., Max. draft 38 ft.
Berth No. 03, 31 ft. (max. LOA 215 m.)
Berth No. 04, 38 ft. (max. LOA 230 m.)
Berth No. 05, 30 ft. (max. LOA 215 m.)

Storage capacity of 120,000 cu.m. Max. discharge rate 2,900 cu.m. p.h.

MEDICAL: Doctors, hospitals available. Advance notice to Agent required if medical assistance necessary.

FRESH WATER: Available ex-shore hydrants.

FUEL: Available all grades fuel and gas oil by barge. Vessels calling for bunkers only, pay no harbour dues, and other fees are reduced.

REPAIRS: All repairs possible. Floating crane available. Neptun Shipyard and other repair shops situated at City Docks. Warnow Shipyard and floating dock situated in Overseas Port.

Tank cleaning, boiler cleaning and repairs.

REPATRIATION: Can be arranged if identification papers in order.

TIME: GMT plus 1 hour. Summertime, GMT plus 2 hours (24th March – 29th September).

HOLIDAYS: New Year (1st January); Good Friday; Easter Sunday; 1st May; Whit Sunday; Whit Monday; 7th October; Christmas Day; 26th December.

AIRPORT: Berlin – Schonefeld.

TELEPHONES: Ship-to-shore connections available.

POLICE/AMBULANCE/FIRE: Ambulance 366-3500; Police 366-3333; Fire 366-2222.

SHORE LEAVE: Crew members permitted ashore.

DEVELOPMENTS: Plans to build a floating island in depth of 21 m. off Rostock to accommodate tankers up to 100,000 tons. Estimated discharge rates up to 3,000 t.p.h. into smaller vessels for transfer to existing oil terminal.

New container and Ro-Ro installation to be built in the Southern harbour.

Port basin to be dredged to 14.0 m.

SHIPMASTER'S REPORT: September 1980.

VHF: While the vessel is in port, telephone calls to anywhere inside or outside Germany can be made most conveniently through "Rostock Radio" on VHF Channel 16. The working Channel is 26.

Customs: The Customs only seal the cigarettes and coffee. Spirits are not sealed. Each crew member is allowed 200 cigarettes.

Immigration: Immigration are very strict. Shore passes are issued to all crew members. All supernumeraries (e.g. wives on board), have to obtain visas which cost DM5/– each, and have to be paid to the Immigration Authorities, directly by the Master. On completion of discharge the entire ship's company (with the exception of one deck watchkeeper and one engine watchkeeper) are required to remain in their cabins with Passports/Seaman's Books, until the vessel is thoroughly searched by the Authorities for stowaways.

Density: The density of the water at the berth varies from 1000 to 1010 ozs./cu.ft.

AUTHORITY: Veb Seehafen Rostock, DDR-2500 Rostock-Uberseehafen. *Tel:* 366-3200. *Telex:* 31264. *Contact:* Mr. Silberbach, Director. Port Captain *Tel:* 366-4255.

Federal Republic of Germany

GENERAL:

RIVER ELBE: **(See Plan Book)**

GENERAL INFORMATION ON ELBE PILOTAGE, DEEP SEA PILOTAGE, HELICOPTER AND RADAR SERVICE, ANCHORAGE ON THE RIVER ELBE.

Elbe Pilots for all ports on the River Elbe, Cuxhaven, Brunsbuttel, Butzfleth, Stadersand, HEW-Wedel and Hamburg.

Pilot Vessel: For inward bound vessels near Elbe 1 Light-vessel, a 2-masted pilot vessel with black hull and yellow funnel and "Lotse" painted in white letters on both sides of hull is stationed in approx. position Lat. 53° 59.5′ N., Long. 08° 09.0′ E. (1.5 miles E.S.E. of Elbe 1 Light-vessel).

In bad weather pilot vessels shift to East of Light-buoy "9". Such shifting is reported by Norddeich Radio in a navigational warning.

Pilot vessel can be contacted on VHF Channel 16 or 8, by showing flag "G", by sound or morse light signals.

During the night pilot vessels show the lights mandatory for pilot craft according to Rule 29 of the International Regulations for Preventing Collisions at Sea.

The vessel used for embarking Pilots will, in addition, show white flares for 30 seconds at 2-minute intervals according to Rule 36 of the International Regulations for Preventing Collisions at Sea.

Traffic Separation Scheme in the "Approaches to River Elbe": The separation zone of this traffic separation scheme also constitutes a safety zone around Elbe 1 Light-vessel. Ships are urged to give the light-vessel a good berth when passing.

Masters are requested not to leave the traffic lane in question when taking a Pilot.

There is an anchorage lying 3 miles to the N.E. of the traffic separation scheme. Special care should be applied when approaching or leaving the anchorage. See "Anchorage".

Land-based radar contact can be requested through radar station "Elbe Approach Radar Radio", on VHF Channel 19 during bad weather conditions, e.g. when visibility drops below 3,000 m., when there are ice floes, when buoys have been removed from their respective positions or when pilot vessels are leaving their positions, for further particulars please see "Radar".

PILOTAGE: Vessels requiring Elbe Pilot must order same at least 12 hours prior to arrival at Elbe 1 Light-vessel by radiotelegram to "Elbelotse Brunsbuttel".

Cable address:	"Elblotse Brunsbuttel" via Norddeich Radio, call-sign DAN
Telex:	28343 Ellots D
Telephone:	(04852) 87295

Vessels coming from nearby ports should make the request as soon as possible.

If the ETA alters, a correction should be transmitted.

Message must include:

1. Name of vessel,
2. g.r.t,
3. ETA Elbe 1 Light-vessel, date 2 figures and time of vessel's arrival 4 figures,
4. draft,
5. vessel's destination.

(For example: 1., Eleka, 2. 12854, 3. ETA Elbe 1 02 1030, 4. 24 ft. 04 in., 5. Kiel Canal).

1 hour before arrival at Elbe 1 Light-vessel Masters are advised to contact the pilot vessel by VHF Channel 16 or 8.

Compulsory District Pilotage: Pilotage is compulsory on the River Elbe to and from Elbe 1 Light-vessel for all sea-going vessels over 1,000 g.r.t., furthermore for all oil-, gas- and chemicals-tankers and, in addition, for all such tank-vessels over 10,000 g.r.t. on their way to and from Deutsche Bucht Light-vessel.

These tank-vessels over 10,000 g.r.t. have to use the Western Approach Traffic Separation Scheme Deutsche Bucht.

Pilots for these vessels will be embarked and disembarked only at the Deutsche Bucht Light-vessel by helicopter or pilot boat. See "Deutsche Bucht Pilot Service".

Furthermore, pilotage is compulsory for all bulk carriers of more than 35,000 g.r.t. and other vessels of more than 60,000 g.r.t. on the River Elbe and on their way to and from Deutsche Bucht Light-vessel; all these vessels can embark and disembark Pilots only at the Deutsche Bucht Light-vessel by helicopter or pilot boat, they have to use the Western Approach Traffic Separation Scheme Deutsche Bucht. See "Deutsche Bucht Pilot Service".

Compulsory pilotage exists for outward-bound sea-going vessels of more than 20,000 g.r.t. as far as to the outer range of the pilot vessel position at Elbe 1 Light-vessel even when, under bad weather conditions, the pilot vessel has been moved up-river.

The disembarkation of Pilots can take place by helicopter at Elbe 1 Light-vessel, if these ships are equipped with a properly marked winching or landing area according to International Chamber of Shipping (ICS) Guide to Helicopter/Ship Operations.

See "Deck-markings and Dimensions Plan" in Plan Book.

The transfer of Pilot by helicopter can also take place on container vessels, if these ships are equipped with a special platform for winching manoeuvres.

Exemptions:

The compulsory district pilotage regulations do not apply to tankers of less than 300 g.r.t. and other sea-going vessels of less than 5,000 g.r.t., provided that:

- such vessels navigate a route which the Master of the vessel in question has navigated at least 6 times within the preceding 12 months in that same vessel;
- the Master of the vessel has an adequate knowledge of the German language;
- such vessels are equipped with an operational radar as well as with an operational VHF radiotelephone installation featuring the Channels specified for the pilotage district in question.

Nevertheless, it is most advisable for any vessel to take a Pilot not only because of his local navigational knowledge but also for his familiarity with the special provisions for the River Elbe, the quarantine and Customs regulations.

Vessels exceeding 35,000 g.r.t. (except container-, passenger- and naval ships) have to take 2 Elbe Pilots, but in fog all vessels from 25,000 g.r.t. upwards must do so.

Pilotage district divided into 3 areas:

1st district: From Elbe 1 Light-vessel to Brunsbuttel (entrance of Kiel Canal) 40 miles (from Deutsche Bucht Light-vessel to Brunsbuttel 68 miles) – operated by Elbe Pilots;

2nd district: From Brunsbuttel to Hamburg Seemannshoft (entrance to Port of Hamburg) 40 miles – operated by Elbe Pilots;

3rd district: Covers the whole area of the Port of Hamburg – operated by Port Pilots.

First change of Pilots takes place at Brunsbuttel for either a Kiel Canal Pilot or a second River Pilot, the Harbour Pilot for Hamburg will embark at Hamburg – Seemannshoft.

Vessels expecting Pilot may wait in vicinity of Elbe 1 Light-vessel or Deutsche Bucht light-vessel.

Contact either the Elbe pilot vessel or the Heligoland Pilot Station on VHF Channel 8, 13 or 16.

No restriction imposed on night entry for any vessels on the River Elbe.

Current velocity 2-3 knots; mean tidal range at Outer Bar Light-buoy "9" 9 ft. 10 in.; Brunsbuttel 9 ft. 2 in. and Hamburg 10 ft. 4 in. nature of bottom, sand and mud.

River pilotage dues (Lotsabgaben) have to be paid by all vessels exceeding 300 g.r.t., irrespective of whether they have used a river Pilot or not.

Pilotage fee (Lotsgeld) will only be charged if a Pilot is employed.

Deutsche Bucht Pilot Service: A central pilot service has been established at Deutsche Bucht Light-vessel.

Elbe Pilots will be transferred: By helicopter stationed at Wilhelmshaven-Mariensiel and/Brunsbuttel-St. Michaelisdonn or by pilot vessel operating from Heligoland. There is a pilot station on the island of Heligoland equipped with VHF operating on Channels 13 and 16 and which responds to calls addressed to "Heligoland Pilot".

Vessels expecting their Pilot at Deutsche Bucht light-vessel should stand by on VHF Channel 13 or 16 on approaching the rendezvous position.

HELICOPTERS: Helicopter Pilot service is available for vessels exceeding 10,000 g.r.t. at Deutsche Bucht light-vessel.

The service to drop or uplift Pilots onto or from ships "at anchor" or "underway" can be provided day and night.

A twin-turbine powered Bell 212 S and/or Sikorsky S-76 helicopter is available for this service. Only suitably equipped vessels may have a Pilot transferred by helicopter.

There must be a properly marked landing area or a marked winching area available according to International Chamber of Shipping (ICS) Guide to Helicopter/Ship Operation.

See "Deck-markings and Dimensions Plan" in Plan Book.

If such a marking is lacking, it will not be possible for the helicopter to touch down or drop a Pliot.

These vessels have to send aforementioned information together with the ETA.

(a) Pilots for the Elbe pilotage region are to be requested 24 hours prior to arrival at the helicopter rendezvous position in the vicinity of Deutsche Bucht light-vessel by radiotelegram to "Elbelotse Brunsbuttel".

Cable address:	"Elblotse Brunsbuttel" via Norddeich Radio, call-sign DAN.
Telex:	28343 Ellots D
Telephone:	(04852) 87295

Vessels coming from nearby ports should make the request on departure or as soon as possible.

Message must include:

1. name of vessel,
2. g.r.t.,
3. ETA Deutsche Bucht Light-vessel with date 2 figures and time of vessel's arrival 4 figures,
4. draft,
5. vessel's destination,
6. whether a properly marked landing area or marked winching area is available,
7. if yes, whether to starboard or port and on which hatchway or which part of the ship.

(For example: 1. Terre, 2. 104468, 3. ETA Deutsche Bucht 11 1530, 4. 41 ft. 03 in., 5. Brunsbuttel Elbe-Terminal, 6. Landing area available, 7. on port side.)

(b) A corrected ETA should be sent to "Elblotse Brunsbuttel" 6 hours prior to the transfer operation at Deutsche Bucht Light-vessel.

(c) Send the exact time of arrival to "Elblotse Brunsbuttel" 2 hours before arrival at Deutsche Bucht Light-vessel.

In addition to this, vessels should keep watch on *VHF Channel 16, 30 minutes before arrival* so that the helicopter can contact the ship.

After radio contact is established, the vessel shall advise the helicopter pilot of the vessel's position, heading, speed and the actual wind direction and speed over the deck.

It is essential that the vessel transmit direction finding signals on 410 kHz until the helicopter is over the ship. On request of the helicopter pilot an uninterrupted (locked key) transmission should be given.

When transferring the Pilot, vessels are restricted in their ability to manoeuvre according to Rule 3(g) (iii) and (iv) and may exhibit the lights and shapes as under rule 27(b) of the International Regulations for Preventing Collisions at Sea. In addition, they may inform shipping of their manoeuvres by VHF.

In cases of defect of helicopter, poor visibility, icing conditions, inadequacy of construction of ships, or no landing or winching area markings, the Pilot will have to be embarked or disembarked by the Pilot boat at the same position.

A sea-going Pilot boat is operating from Heligoland in up to Beaufort Sea Disturbance Nos. 4 – 5 for embarking and disembarking the Pilots, if the helicopter is not available, or if the ship's construction is inadequate for helicopter transfer, or if the helicopter landing or winching area of the ship has no proper marking according to International Chamber of Shipping (ICS) Guide to Helicopter/Ship Operation. See "Deck-markings and Dimension Plan" in Plan Book.

If due to incomplete or misleading ETA information it is found at the attempted Pilot transfer by helicopter that the vessel is not properly marked and/or fitted for such transfer and the helicopter consequently has to return to base, it will be necessary to send a Pilot by boat from Heligoland, which may involve considerable delay plus the cost of the futile flight.

General: If helicopter operation cannot take place, the ship will be informed of the fact by radio telegraph via Norddeich Radio (DAN). For that purpose a permanent radio watch should be kept on 500 kHz (512 kHz if distress traffic is in progress on 500 kHz) during the approach, starting 2 hours before reaching rendezvous position at Deutsche Bucht Light-vessel.

The Master will receive further instructions by radio message or via VHF on how to proceed, if Pilot transfer is not possible.

The Heligoland pilot station can be called on VHF Channel 16 or 13 and should be addressed "Heligoland Pilot".

Vessels expecting a Pilot at Deutsche Bucht Light-vessel will be called on 500 kHz (512 kHz during distress working) or on VHF Channel 16 or 13 for information on transfer details.

RADAR: A continuous and co-ordinated chain of radar stations has been established to cover the traffic flow along the estuary of the River Elbe from a point 4 miles before passing Elbe 1 Light-vessel as far as well into the port of Hamburg.

If visibility drops below 3,000 m. and/or if particular situations arise (e.g. ice floes, withdrawn buoys, pilot vessels leaving their positions, etc.). Masters of inward-bound vessels may request land-based radar monitoring assistance from a point *4 miles* before passing Elbe 1 Light-vessel until receiving a Pilot. This service will be rendered by Elbe Pilots and is available by contacting Elbe Approach Radar Radio, VHF Channel 19.

The same service is extended to outward-bound vessels as far as *4 miles* West of Elbe 1 Light-vessel.

Once the Elbe Pilot has come aboard he will be assisted by his land-based colleagues monitoring the shore-operated radar system.

Radar Stations along the River Elbe: Elbe Approach Radar Radio, VHF Channel 19; Neuwerk Radar Radio 1, VHF Channel 18; Neuwerk Radar Radio 2, VHF Channel 5; Cuxhaven Radar Radio, VHF Channel 21; Belum Radar Radio, VHF Channel 3; Brunsbuttel Radar Radio, VHF Channel 4; Freiburg Radar Radio 1, VHF Channel 18; Freiburg Radar Radio 2, VHF Channel 22; Steindeich Radar Radio, VHF Channel 5; Hetlingen Radar Radio, VHF Channel 21; Hamburg Radar Radio, VHF Channel 3 and 19.

Each station broadcasts periodical reports, in German and English, of visibility, ice, tide, alterations of seamarks, etc. See "Admiralty List of Radio Signals".

ANCHORAGE: A deep-water anchorage for deep-draft vessels, very large crude carriers (VLCC's), and ultra large crude carriers (ULCC's) is located South of "Deutsche Bucht" Light-vessel, approx. position Lat. 54° 05′ N., Long. 07° 27′ E. Depth of water from about 34 m. to 36 m.

In the vicinity of Elbe 1 Light-vessel (3 miles to the N.E.) for large and deep-draft vessels, North of estuary, approx. position Lat. 54° 03′ N., Long. 08° 09′ E., depth of water from about 14 m. to 19 m. below chart zero.

Neuwerk Roadstead, approx. position 53° 58′ N., 08° 30′ E., depth of water from about 8 m. to 17 m. below chart zero;

Medem Roadstead, approx. position 53° 51′ N., 08° 46.5′ E., depth of water from about 5 m. to 13 m. below chart zero;

Neufeld Roadstead, approx. position 53° 51.7′ N., 09° 00′ E., depth of water from about 8 m. to 10 m. below chart zero;

N.E. Roadstead, off Brunsbuttel, permission only for 1 tide, approx. position 53° 53′ N., 09° 12′ E., depth of water from about 13 m. to 14 m. below chart zero;

Freiburg Roadstead, approx. position 53° 50.6′ N., 09° 19.5′ E., depth of water about 13 m. below chart zero;

There are further anchorages for small vessels at Sudreede (South anchorage) off Brunsbuttel, Wischhafen, Krautsand, Grauerort – and Twielenfleth Roadstead.

The bottom at all these anchorages consists of sand and mud.

DEEP SEA PILOTAGE: Ships requiring the assistance of deep-sea Pilots in the North Sea, the English Channel, or the Skagerrak shall make use only of the service of deep-sea Pilots in possession of a Deep-Sea Pilot Card issued in accordance with the Rules and Regulations for the Good Government of Deep-Sea Pilotage in the North Sea.

German deep-sea pilotage covering the North Sea, Skagerrak and English Channel is centralised with the Brotherhood of Elbe Pilots with its headquarters in Hamburg: Lotsenbruderschaft Elbe, Elbchaussee 330, 2000 Hamburg 52. Tel: (040) 824075.

German state-licensed Deep-sea Pilots for the above mentioned areas can thus be requested only from the Brotherhood of Elbe Pilots. All such Pilots hold foreign-going Master Mariner's Certificates.

They are on call to board vessels in all North Sea ports of the Continent and the United Kingdom and in ports along the coastlines of the English Channel.

Vessels will be boarded on request by these Pilots for pilotage in the North Sea, Skagerrak and English Channel.

These Pilots are experienced in handling vessels of any type and size.

Advantages: Assistance to nautical staff in heavily congested areas.

Exact knowledge of local conditions.

In order to ensure that vessels will get their deep-sea Pilots in time, the following periods of notice should be observed for ships berthed in

German ports:	9 hours prior to ETD
Continental North Sea ports:	24 hours prior to ETD
UK North Sea and Channel ports:	48 hours prior to ETD or to passing the local pilot station.

Request for services to be directed by radiotelegram to "Elbelotse Brunsbuttel".

Cable address:	"Germanpilot Brunsbuttel" via Norddeich Radio, call-sign DAN
Telex:	28343 Ellots D
Telephone:	(04852) 87246 – Mondays through Fridays from 0730 to 1530 hrs. (04852) 87295 – all other times

Deep-sea Pilots (not authorised as dual capacity River Pilots) are not allowed to pilot any vessels (whether subject to compulsory pilotage or not) on the River Elbe from Deutsche Bucht Light-vessel as far as the Port of Hamburg, regardless of whether pilot vessels are on position or not during bad weather conditions or whether or not Pilots can be embarked or disembarked during bad weather at the normal transfer position.

In order to avoid all the disadvantages caused by such a situation it is urgently advised to take a German Elbe Pilot or dual capacity River Pilot at the last North Sea or Channel port of departure whenever such bad weather conditions are foreseeable.

Extra Service:

Inward-bound vessels wishing to proceed without delay by gale or fog, as may be caused when taking a Pilot at Elbe 1 Light-vessel or Deutsche Bucht Light-vessel, can request the Elbe Pilot to come aboard at the first Channel, North Sea or Skagerrak port of call for approaching the River Elbe and non-stop onward upstream pilotage.

Advantages: Saving of time, reduced hazards.

Please observe these periods of notice:

Continental North Sea ports:	24 hours prior to ETD
UK North Sea and Channel ports:	48 hours prior to ETD or to passing local pilot station.

Request for services to be directed by radiotelegram to "Elbelotse Brunsbuttel".

Cable address:	"Elblotse Brunsbuttel" via Norddeich Radio, call-sign DAN
Telex:	28343 Ellots D
Telephone:	(04852) 87246 – Mondays through Fridays from 0730 to 1530 hrs. (04852) 87295 – all other times.

BRAKE: 53.20 N. 08.29 E. (See Plan Book)

PORT LIMITS: The government-owned piers are the commercial area of the port. A vessel is considered to be an "arrived ship" when she is moored alongside such piers, and the customs formalities are complete. Laytime will commence according to referring charter parties.

Port Authorities distribute the free berthing places in following the "Benutzungsordnung fur den Hafen Brake" which says briefly that a vessel will get a rank position in actual arriving times:

(a) for ships coming from sea: arrival "Weser lightvessel" plus 5 hours.

(b) for ships coming from Bremerhaven North Roads and Blexen Roads: departure plus 2 hours.

(c) for ships coming from Bremen: departure plus 3 hours.

DOCUMENTS:

2 Lists Ship's Stores.
2 Crew Lists.
2 Passenger Lists.
Health Certificate (forms obtainable from Pilot).
Ship's Register.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: Carried out by Weser River Pilots. The river Pilots also act as docking Pilots. Also see "Bremen" and "Bremerhaven".

ANCHORAGE: No anchorage in vicinity of Harbour. Anchorage in "Blexen Roads". For further details see "Bremen".

RESTRICTIONS: Vessels proceeding to Brake with a draft in excess of 24 ft. will be restricted by the tide.

MAX. SIZE: Max. length 265 m. (869 ft.); no restriction on beam. Max. draft 37 ft. in fresh water.

PRATIQUE: Free pratique is given by Health and Immigration Officer only. If a case of fever or disease is suspected on board radio the Agent with details before arrival.

RADIO: Cable Agent via Norddeich Radio (Call sign DAN) advising ETA and cash requirements.

RADAR/VHF: Stations from Weser lightvessel to Bremerhaven. Radar service between Bremerhaven and Brake. Radar stations have day and night service. If no fog every odd hour radar stations give on VHF or Pilot walkie-talkie report of visibility, defective buoys, anchoring ships, obstructions to navigation, and special occurrences. Direct contact between port and ship is possible on VHF.

TUGS: Available day and night in sufficient number. No extra charge for using tug's lines.

BERTHING:

New locks have been built at the inner harbour and are operating since August 1979. Dimensions: Length 95 m. (311 ft.), width 16 m. (52 ft.) Max. size of vessel to be handled will be a fully loaded vessel of 3,000 d.w.t. with a max. draft of 6.0 m.

Inner Harbour with tide-independent lock: Length of dock 1,070 m. (3,500 ft.), width 110 m. (360 ft.). Length of canal 228 m. (750 ft.), width of canal 46 m. (150 ft.), length of quay in canal 228 m. (750 ft.). Depth 4.3 m.

Riverside Berth: Total length 1,852 m. (6,075 ft.), depth at pier 13.6 m. at normal low water, tidal amplitude 11 ft. 6 in. Max. draft 37 ft. Max. length of ships not more than 265 m. (869 ft.).

This government-owned pier is divided into 2 areas. The Northern part is the crane-area with a length of 4,510 ft., the Southern part, 1,565 ft. long, is the grain-handling area.

Private Pier of the Fettraffinerie/Unimills has a length of 245 m. (804 ft.) depth 11.0 m.

SPECIALISED CARGO HANDLING FACILITIES:

Inner Harbour:
2 electric cranes to lift 1 to 5 tons.
2 bridge cranes, capacity 50 tons.
2 bridge cranes, capacity 20 tons.
1 bridge crane, capacity 15 tons.
2 whipping cranes, capacity 25 tons.
2 whipping cranes, capacity 15 tons.
Riverside Berth.

South Pier:
4 grain suction units – total capacity 1,800 t.p.h.

North and Middle Pier:
5 shore unloader and loading bridges of between 16 tons and 50 tons capacity, waterside reach 32 m. to 40 m.

4 rotating tip cranes – 14 tons to 25 tons capacity – max. reach 40 m. to 46 m.

Conveyor belts 1,280 m., max. capacity 100 cu.m.p.h.
Wagon loading station: capacity 300 cu.m.p.h.
Combined ship loader: capacity 1,000 cu.m.p.h.

Loading/discharge points for vegetable and animal oils/grease, mineral oil, molasses and other liquid products: Discharge capacity: 1,500 t.p.h.

Inner Harbour:
2 rotary tip cranes – capacity 5 tons. Reach 22 m. to 25.5 m.

Storage:
Silo installation and storage shed for grain: 270,000 tonnes.
Storage sheds: 54,500 sq.m.
Free storage areas: 82,000 sq.m.
Tank storage for grease refinery and the S. uS. "Elbe" 110,000 tonnes.

The government-owned pier is equipped for containers, but not for Roll-on/Roll-off traffic. The berth does not handle liquid chemicals.

STEVEDORES: ETA has to be reported to the Agent to arrange gangs. Stevedores are working 3 shifts around the clock on working days (Monday to Saturday); on Sundays and holidays 4 shifts are worked around the clock.

MEDICAL: Two hospitals and several doctors available at Brake. Advance notice to Agent required if medical assistance necessary.

TANKERS: Fettraffinerie Pier: Max. draft 33 ft. Discharging lines: molasses 6 in., fuel oil 8 in., diesel 10 in. and vegetable oil from 4 in. to 8 in.

DENSITY: Brake Port, Fresh water: salinity = 1002–1004.

FRESH WATER: Available both at Riverside Berth and Inner Harbour. Pumping capacity from 18 t.p.h. to 20 t.p.h.

FUEL: All grades available by bunker barges.

FIRE PRECAUTIONS: No smoking on deck. For tankers at Fettraffinerie Pier smoking only in saloon and/or messroom.

CONSULS: No Consuls; consulates at Bremen.

REPAIRS: All normal ship and engine repairs can be carried out during laytime on board.

DRY DOCKS: One dry dock at Luehring Werft, Brake, for ships with a length not in excess of 85 m. (279 ft.), nor wider than 16 m. (52 ft. 6 in.), and a max. draft of 13 ft. 1 in.

SURVEYORS: Classification Societies not represented but several surveyors available at Brake Port.

GANGWAY/DECK WATCHMEN: Crew's watchmen necessary – strong tides, current-speed 3 knots.

HATCHES: Depends on the different charter parties.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle of spirits and 2 bottles of wine.

CARGO GEAR: Load/discharge normally effected by shore-gear.

REPATRIATION: Any necessary repatriation and/or crew changes can be effected by Agents at Brake.

AIRPORT: International airport served by regular airlines at Bremen. Brake to Bremen, distance 57 km. (35 statute miles).

TIME: Local time is GMT plus 1 hour.

HOLIDAYS: New Year, Good Friday, Easter Sunday and Monday; 1st May, Ascension Day; Whitsunday and Monday, Penitentiary Day, 2 Christmas Days. Cargo work can be arranged on those days, except on New Year, Easter Sunday (1st Easter day), 1st May, Whitsunday, 1st Christmas Day, and on the days before such days till 1200 and/or 1400 hours.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 4060; Fire 112.

TELEPHONES: No arrangements to place telephones on board.

SHORE LEAVE: Shore passes are required according to customs regulations.

IDENTIFICATION CARDS: Crew members to have valid identity cards.

DEVELOPMENTS: Weser fairway depth will be increased to 12 m. (39 ft. 6 in.).

SEAMAN'S HOSTEL: Weserstr. 1A, tel. 4490.

AUTHORITY: Niedersachsisches Hafenamt Brake, Brommstrasse 2, D-2880 Brake. *Tel:* 04401/5061. *Contact:* Port Captain.

BREMEN (Including Farge): 53.07 N. 08.45 E.

DOCUMENTS: **(See Plan Book)**
3 Crew Lists.
3 Passenger Lists.
Provision and Store Lists incl. fuel oil.
Dangerous Cargo Lists.
Health Declaration.
Ship's Register.
No Customs Papers if vessel laying in Freeports at Bremen.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German port.

PILOTAGE: Compulsory for ships of more than 1,000 g.r.t. and tankers of more than 300 g.r.t. and for all ships with dangerous goods in bulk and nuclear ships, exemptions possible.

Distance from Weser light vessel to Bremerhaven 36 miles. Distance from Bremerhaven to Bremen 32 miles.

At least 12 hours before arrival at Weser light vessel Masters should cable messages to "Lotsenbruderschaft Weser zwei Bremerhaven" via Norddeich Radio. Message to include name and g.r.t. of vessel, place where Pilot required to board, day and hour of vessel's arrival, vessel's destination and fresh water draft in metres. Sea Pilots board at Weser seabuoy to Bremerhaven. River Pilots board at Bremerhaven to pilot vessels to Bremen.

Pilot station near Weser light vessel 54° 05′ 16″ N., 07° 50′ 00″ E., black painted motor vessel, black topped funnel, white lettering "Lotse" on hull. In rough weather, pilot boat may be found inside near buoys 77 and 79. Pilots may be contacted by Norddeich Radio, 2182 or 2614 kHz. or by VHF Channel 16.

River Pilots boarding at Bremerhaven also act as harbour Pilots to all ports above Bremerhaven.

ANCHORAGES:
1. About 1 mile S.W. of Weser light vessel.
2. Hoheweg Road between buoys 17 and 19.
3. Tanker Road W. of buoys 27–31.
4. Blexen Roads (South Roads) only for smaller ships.

RESTRICTIONS: Vessels proceeding to Bremen, with a draft in excess of 25 ft. will be restricted by the tide.

MAX. SIZE: Bremen: length 190 m. with draft 10.7 m., longer ships with restricted draft.

Locks: At the entrance of the Industriehafen: Length 248 m., clear width 34.1 m.

Ships passing with max. length 230 m. and 33.5 m. breadth. According to tide, docking is possible up to 9.2 m. (30 ft. 03 in.).

HEALTH: Master has to fill and sign Maritime Declaration of Health which is handed to health officer on arrival at Bremerhaven and Bremen. In case suspected disease or fever on board radio details to Port Health Bremerhaven via Norddeich Radio before arrival.

RADIO: Cable Agent via Norddeich Radio, call sign DAN, advising ETA and cash requirements.

Bremen Port Radio VHF station on Channels 3 or 16 to be used for messages to all Port Authorities including Police and Fire Brigade and Port Health in case of emergency. Bremen Lock Radio on Channel 12.

RADAR/VHF: Stations from Weser light vessel to the mouth of River Hunte and at the port area of Bremen. Radar service between Hunte and Bremen is planned. If no fog, every odd hour radar station gives by VHF or Pilot walkie-talkie, report of visibility, defective buoys, anchoring ships, obstructions to navigation and special occurrences.

Ships ordered for Bremen Industriehafen should contact "Oslebshausen Lock" via Channel 12 VHF after passing Bremerhaven.

TUGS: Tugs available at all stations according to ships request. Tugs' lines used (only) without charge.

BERTHING: Berthing at Bremen: The following harbours can be reached:

Harbour name:	*Quay Length* (m.)	*Depth (above chart datum)* (m.)
Europahafen	2,730	3.20 – 8.60
Uberseehafen	2,960	3.20 – 10.20
Holz–und Fabrikenhafen	2,600	4.20 – 8.50
Getreidehafen	570	4.00 – 11.50
Neustadter Hafen	2,700	4.00 – 11.50
Kap Horn Hafen	725	9.00
Industriehafen	3,060	3.20 – 6.20 (plus harbour water, about 3.80 m.)

Max. draft is dependent on the prevailing winds

SPECIAL CARGO HANDLING FACILITIES:

Freeports: Neustadter Hafen, Uberseehafen and Europahafen, mainly general cargo.
Quay length: 7,560 m.
Max. draft: 11.50 m.
Shed storage: 532,000 sq.m.
Porterage company: Bremer Lagerhaus-Gesellschaft.

Facilities: Air-conditioned fruit storage, refrigerated storage, consolidated cargo centre, packing centres, Ro/Ro terminals, logistics and information processing on industrial plant transports and grain handling centre.

Container Handling Facilities: Neustadter Hafen Shed 24 is equipped with 2 container cranes, suitable for 40 ft. containers. Max. lifting capacity is 45 tons. The terminal has 116 connections for reefer containers.

Shed 21 is equipped with 1 container crane, suitable for 40 ft. containers. Max. lifting capacity is 80 tons.

Roll-on/Roll-off terminal: At the head of the Europahafen, 1 berth. Max. carrying capacity 60 tons, width 8 m. Max. draft 28 ft.

At the end of shed 24 Neustadter Hafen, 1 berth. Max. carrying capacity 60 tons, width 30 m., draft 32 ft.

LASH Terminal: A LASH terminal has been appointed at Shed No. 2 Europahafen. Lash-lighter places: Lankenauer Hoft and Shed No.19 Coolhouse.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m.
Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft 29 ft. 6 in.
Max. length 200 m. = 656 ft.
Max. beam 25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft 20 ft. 4 in. at low water.
Max. length 180 m. (591 ft.).
2 stationary elevators 3,000 tons per day
1 conveyor for loading bags only

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft up to 23 ft. at normal low water.
Quay length 710 m. (2,330 ft.).
Cranes 13 Grain/General cargo
Elevators 4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

BREMERHAVEN: 53.33 N. 08.35 E. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Ueberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.
Dock Basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.

Quay length 1,030 m. Depth 30 ft. – 36 ft.

9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations

A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.

The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals

2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.

Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

REPAIRS: All repairs possible.

DRY DOCKS: There are 2 graving docks and 10 floating docks with max. capacity 75,000 tons.

Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m.
Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft 29 ft. 6 in.
Max. length 200 m. = 656 ft.
Max. beam 25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft 20 ft. 4 in. at low water.
Max. length 180 m. (591 ft.).
2 stationary elevators 3,000 tons per day
1 conveyor for loading bags only

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft up to 23 ft. at normal low water.
Quay length 710 m. (2,330 ft.).
Cranes 13 Grain/General cargo
Elevators 4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

BREMERHAVEN: 53.33 N. 08.35 E. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.
Dock Basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.

Quay length 1,030 m. Depth 30 ft. – 36 ft.

9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations

A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.

The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals

2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.

Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.
Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

REPAIRS: All repairs possible.

DRY DOCKS: There are 2 graving docks and 10 floating docks with max. capacity 75,000 tons.

3 Personal Effects Lists.
3 Stores Lists.
Bill of Lading.
Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m. Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyor for loading bags only	

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

(a) General/Elbehafen/Canal Berth; (b) Elbe Terminal; (c) Brunsbuttel Oil Port; (d) Ostermoor.

(a) GENERAL/ELBEHAFEN/CANAL BERTH.

DOCUMENTS:
Health Certificate forms obtainable from River Pilot.
3 Crew Lists.
3 Personal Effects Lists.
3 Stores Lists.
Bill of Lading.
Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management. For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m. Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyor for loading bags only	

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.

Dock Basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.
Quay length 1,030 m. Depth 30 ft. – 36 ft.
9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations
A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.
The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals
2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.
Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.
Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.
Dock Basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.
Quay length 1,030 m. Depth 30 ft. – 36 ft.
9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations
A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.
The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals
2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.
Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.
Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)

3 Stores Lists.
Bill of Lading.
Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m.
Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyor for loading bags only	

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.
Quay length 1,030 m. Depth 30 ft. – 36 ft.
9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations
A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.
The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals
2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.
Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.
Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

REPAIRS: All repairs possible.

DRY DOCKS: There are 2 graving docks and 10 floating docks with max. capacity 75,000 tons.

Health Certificate forms obtainable from River Pilot.
3 Crew Lists.
3 Personal Effects Lists.
3 Stores Lists.
Bill of Lading.
Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:

Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m. Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyor for loading bags only	

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

DEEP SEA PILOTAGE: See "General" before first German port.

Bulk handling facilities (Industriehafen):
Bulk cargoes such as steel, and steelware, coal, coke and coke breeze, timber, ore, oil, molasses, sand, stones, phosphate and further fertiliser and chemicals are handled by companies under private management.

For entering Industriehafen see "Max. Size – Locks".

Huttenhafen: Klockner-Hutte mainly handles ore, scrap, coke and coke breeze, sand, steel and steelware as slabs and coils of Klockner Iron Mill.

Quay length: 520 m.
3 gantry cranes: 12.5, 15 and 55 tons.
Storage area: 80,000 sq.m.
Discharging capacity ore: 8,000 tons per 24 hours.
Loading capacity coils: 5,000 tons per 24 hours.
Loading capacity slabs: 6,000 tons per 24 hours.

Rhenus WTAG: Mainly handles provender, coal, coke, minerals, wood products, stones a.s.o.

Quay length: 450 m.
4 cranes: 25 and 56 tons.
Storage area: 21,000 sq.m.
Loading capacity coils: 6,000 tons per 24 hours.
Loading capacity plates: 5,000 tons per 24 hours.
Loading capacity coal: 6,000 tons per 24 hours.
Quarrier and riddler: 500 tons per 24 hours.

Olhafen: Oil farm for about 100,000 tons. One tank for molasses 11,000 tons.

Kohlenhafen: Gebr. Rochling mainly handles coal, coke, ore, phosphate and logs. West Africa Terminal specialises in all kinds of general cargo and container handling.

Quay length: 750 m.
7 cranes: 5 and 50 tons.
1 coal-loader: 60 tons.
Storage area: 30,000 sq.m.
Loading capacity coal: 9,000 tons per 24 hours.
Loading capacity coke: 6,000 tons per 24 hours.
Discharging logs: 1,555 tons per 24 hours (approx.).

Kraftwerk Hafen (Power Station): At this berth only coal cargoes for use by the power station are handled. Discharging rate (2 cranes) 1,250 tons per shift.

Kalihafen: Anker-Schiffahrt handles all kinds of cargo and is specialised in packing, decantation and sacking of chemical products.

Quay length: 500 m.
2 gantry cranes: 24 tons
4 special loaders
1 bridge for liquids
Storage area: 40,000 sq.m.

Tankfarm Defrol: Storage capacity 48,000 tons fuel.

Hafen E: Hansakai (Klembt) handles all kinds of cargoes and is specialised in coils, pipes, construction parts, heavy lifts, ore and containers.

Quay length: 285 m.
1 gantry crane: 15 tons.
4 cranes: up to 45 tons.
Storage area: 11,000 sq.m.

Wandel & Co: 60,000 sq..m. shed storage for grain and general cargo.

Hafen A: H. Menke & Co.: Quay length: 250 m. 1 tank for molasses 15,000 tons. Specialises in wine import with storage area for 20 million litres.

Bremer Lagerhaus-Gesellschaft:
Quay length: 300 m.
Storage area: 90,000 sq.m.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks, max. draft 35 ft. Lighterage is possible.
Berth "A" 3 elevators with a capacity of 400 t.p.h. max. length 275 m.
Silo capacity 150,000 tons.

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyor for loading bags only	

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4×250 t.p.h. each

General cargo loading installations (Kap Horn) with 2 quays, 1×320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area of 100,000 sq.m. is equipped with gantry crane for handling pipes, construction parts and general.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	Depth at LW
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.
Dock Basins:	Depth
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	Depth
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.

Quay length 1,030 m. Depth 30 ft. – 36 ft.

9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations

A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.

The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals

2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.

Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

REPAIRS: All repairs possible.

REPAIRS: All repairs possible.

DRY DOCKS:

Vulkan-Gravity Dock	up to 240,000 d.w.t.
and one floating Dock	up to 8,500 d.w.t.

SURVEYORS: All types of surveys possible.

GANGWAY/DECK WATCHMEN: Not considered necessary. But available when ordered.

HATCHES: Opening and closing normally by crew with stevedores assisting.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days further same quantities. Wine not restricted. Freeports in Bremen only Europahafen, Uberseehafen and Neustadter Hafen.

CARGO GEAR: No additional requirements. Preventers necessary.

REPATRIATION: Any time.

AIRPORT: Regular national and international flights.

HOLIDAYS: New Year's Day (no work performed); Good Friday; Easter Sunday (no work performed); Easter Monday; Labour Day (no work performed); Ascension Day; Whit Sunday (no work performed); Whit Monday; 17th June; Prayer Day; Christmas Day (no work performed); Boxing Day.

POLICE/AMBULANCE/FIRE: Police help 110; Fire, First aid 112.
Pilot Station Bremerhaven: Sea Pilots 4–22–20; River Pilots 4–22–89.
Pilot Station Bremen: 39–40–44.
Port Administration Bremen: 397-1.
Waterway Police: 38–20–31.
Port Medical Services: 38–34–16.
Immigration: Call Water Police.
Foreign Calls: 0010.

TELEPHONES: It is possible to rent a telephone box from Mooring Company.

REGULATIONS: Usual Port Regulations. Special Regulations for dangerous goods and Tankers.

AUTHORITY: Hafenamt Bremen, Hafenhaus Uberseehafen, 2800 Bremen 1. *Tel:* (0421) 3978504. *Telex:* 246089 (HABRE D). *Contact:* Harbour Master on duty.

AGENT: Wm. H. Muller Co. (Deutschland) GmbH. Birkenstrasse 37 Bremen 1.Tel.: (0421) 14910. Telex: 244704. Cables: "Batavier".

BREMERHAVEN: 53.33 N. 08.35 E. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German Port.

PILOTAGE: See "Bremen".

Docking Pilots join vessels between Buoys 49 and 51A if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short. Docking Pilots can be requested via Bremerhaven Port Radio on VHF Channel 12.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR: See "Bremen".

VHF: "Bremerhaven Port Radio" on Channel 12.

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	32 ft. – 38 ft. 08 in.
Stromkaje	40 ft. 04 in.

Dock Basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	42 ft. 08 in.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:
Kaiserschleuse: length 732 ft., gate width 88 ft. without fenders; including fenders 83 ft. 7 in. depth 23 ft. at LW.
Nordschleuse: length 1,220 ft., gate width 147 ft. depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:
Fischereihafen-Doppelschleuse
Small lock: length 349 ft., gate width 39 ft. without fenders; including fenders 34 ft. 06 in. depth 21 ft. at LW.
Large lock: length 328 ft., gate width 98 ft. depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.
42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

5 floating cranes having lifting capacities of 100 tons – 500 tons.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.0 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 900 t.p.h.

Columbus Quay Passenger and general cargo facilities.

Quay length 1,030 m. Depth 30 ft. – 36 ft.

9 cranes – 8 tons and one heavy lift bridge of 42 tons.

Car loading installations

A car loading installation is situated in the Nordhafen. Quay length 875 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' ramp.

The Car-Terminal Bremerhaven, situated in the Kaiserhafen II, has a quay length of 700 m. and a storage area of about 360,000 sq. m.

Container Terminals

2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 18 container cranes, capacity 42 tons – 54 tons.

Depth alongside in river 46 ft. at LW. Depth at Nordhafen 42 ft. 8 in.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: about 55,000 sq.ft. 30 cranes with capacities from 3–8 tons. Two banana discharging installations, with 10 elevators and have a capacity of over 350,000 tons per year.

LASH Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

Working hours:
1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)
on Saturdays:
1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)
on Sundays:
as Bremen Freeport.

TANKERS: Bominflot KG., Esso Kaje, Verbindungshafen. Max. draft 32 ft. 06 in.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCES: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULS: Barbados, Great Britain, Iceland, Sweden, Senegal.

REPAIRS: All repairs possible.

DRY DOCKS: There are 2 graving docks and 10 floating docks with max. capacity 75,000 tons.

SURVEYORS: (1) Caleb Brett: In Hamburg. Neustadter Weg 6, 2000 Hamburg 11. Tel: (040) 366286.

(2) Lloyd's Register of Shipping: Am Wall 102, 2800 Bremen. Tel: (0421) 310611. Also at Buckingstrasse 8, 2850 Bremerhaven. Tel: (0471) 45006.

American Bureau of Shipping: Steubenstrasse, Fahrgastanlage, 2850 Bremerhaven. Tel: (0471) 46906 daytime and (04743) 276 night time.

Bureau Veritas, District Hamburg: Spaldingsstrasse 1, 2000 Hamburg 1. Tel: (040) 230801. Telex: 02 154 26.

REPATRIATION: Any time.

AIRPORT: About 4 miles from Bremen. Regular airlines.

BANKS: (In Hamburg): Bank of America, Barclays Bank, Citibank, Lloyds Bank, Bankers Trust.

HOLIDAYS: New Year's Day (no work performed); Good Friday, Easter Sunday (no work performed), Easter Monday; Labour Day (no work performed); Ascension Day; Whit Sunday (no work performed); Whit Monday; 17th June; Prayer Day; Christmas Day (no work performed); Boxing Day.

TELEPHONE: Accidents, Police 110; Fire 112; Harbour Master and Docking Pilots 481 263/4, Telex 238564 Hba Hk D; Sea Pilots 42220; River Pilots 42289; Waterway Police 47011; Port Medical Service 40031.

AGENT: See "Bremen".

BRUNSBUTTEL 53.53 N. 09.09 E. (See Plan Book)

(a) General/Elbehafen/Canal Berth; (b) Elbe Terminal; (c) Brunsbuttel Oil Port; (d) Ostermoor.

(a) GENERAL/ELBEHAFEN/CANAL BERTH.

DOCUMENTS:
Health Certificate forms obtainable from River Pilot.
3 Crew Lists.
3 Personal Effects Lists.
3 Stores Lists.
Bill of Lading.
Ship's Register.
For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: *Anchorage River Elbe:* See "General" before first German port.

Pilotage Kiel Canal: Pilotage generally compulsory, vessels over 2,500 g.r.t. must employ a wheelman.

Pilot station, Tel: 04852/8088, VHF Channel 9, ETA 6 hours prior arrival Brunsbuttel Roads by cable to "Kanallotse Brunsbuttel" via Norddeich Radio (DAN), requiring Canal or Harbour Pilot at Brunsbuttel, (for example: Brigitte 1249 ETA Brunsbuttel 29 1800 3.5 m.). Pilot will board ships off the entrance to Kiel Canal.

Pilot boats are painted black with "LOTSE" in white letters on hull. Signal for Pilots is flag "G" over numeral pennant 1, sound or morse signal, VHF Channel 9.

ANCHORAGE: Vessels waiting for entrance to the Canal may anchor in N.E. anchorage, South anchorage, or Neufeld anchorage.

RESTRICTIONS: No restrictions imposed on night entry. If draft above 31 ft. 2 in. fresh water, vessels will be piloted to Brunsbuttel with flood-tide.

Dimensions of lock: length 310 m., beam 40 m.

The Canal can be navigated by vessels up to 235 m. LOA and 32.5 m. beam and draft in accordance with table below.

Length (m.)	*Beam in metres* 20	21	22	23	24	25	26	27	28	29	30	31	32	32.50
	Draft on (m.)

Height above water-line transitting Canal must not exceed 40 m.

For Binnenhafen, as far as km. 6.00, vessels not requiring to transit Canal may enter with draft up to 10.40 m.

HEALTH: Pratique automatic for vessels entering harbour for loading or discharging, and ships passing through Canal if required. Health Certificate form does not show any infectious diseases.

RADIO: All messages to Agents and Pilots etc., through Norddeich Radio, call sign "DAN". Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Brunsbuttel, VHF Channel 14, safety and calling Channel 16.

RADAR: Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Brunsbuttel. Radar Service in the area of Brunsbuttel available, can be contacted through VHF Channel 4, "Brunsbuttel Radar Radio".

TUGS: 6 tugs available at Brunsbuttel. Vessel's lines used. Tugs normally join vessels bound for the Elbe Harbour on river in vicinity of Canal locks.

From the approach limit up to entry into the lock, tug assistance is mandatory for vessels in Group 6 and also such vessels which manoeuvre only with difficulty. Tugs assisting ships entering locks join vessels on canal-roads.

BERTHING: Ships lying at terminals situated on Canal bank in Inner Harbour should take into consideration that vessels must moor safely, as suction of passing ships may cause breaking of lines.

Binnenhafen: Comprises the area between lock entrance and km. 5.27.

BRIDGES: Ships transiting canal must have bridge clearance of 40 m. Otherwise no obstructions.

STEVEDORES: Ordered by Agents, no ETA to stevedores necessary.

MEDICAL: Port Medical Service by Harbour Doctors. Day and night service. Inoculations have to be ordered 24 hours prior arrival. Hospital available at Brunsbuttel.

TANKERS: Elbehafen – Oil Section:

Location: At the Elbe-River bank, about 0.5 nautical miles upstream from Brunsbuttel Canal Locks.

Depth of Water: Within the approaches, 13.50 m., alongside berth 14.70 m.

Max. Ships Dimension Acceptable: Length about 400 m. Beam unlimited. Draft 12.95 m.

Dirty Ballast/Slop Disposal: Shore Line Diameter: 20 in.

Max. Discharge rate/hour: 4,000 cu.m.

Max. Slop Quantity Acceptable: 35,000 cu.m.

Elbehafen for VLCC's: The safe mooring of vessels up to 250,000 d.w.t. has been proved and has become a matter of routine. Harbour Authorities have no objections to accept larger vessels but investigations have to be made with regard to safe mooring facilities ashore. Tankers with more than 37 ft. draft must arrive 2 hours prior to highwater at L/V. "ELBE I", in order to dock at Elbe Harbour with slack water or first ebb-tide. Vessels with draft not exceeding 37 ft. may dock during whole ebb-tide. Pilot vessels to be contacted via VHF radio Channels 13 and 16.

Canal Berth:

Location: Inside Kiel Canal Lock at South bank of the Inner Harbour of Brunsbuttel.

Depth of Water: Within the approaches 11.00 m. Alongside berth 8.20 m.

Max. Ships Dimension Acceptable: Length 150 m. Beam unlimited. Draft 8.00 m.

Shore Line Diameter: 12 in.

Max. Discharge rate/hour: 2,000 cu.m.

Max. Slop Quantity Acceptable: 35,000 cu.m.

BALLAST:

Dirty Ballast Disposal: Operator: Elbe Slop-Ex. GmbH & Co. KG Brunsbuttel, 2212 Brunsbuttel, Schleswiger Strasse 14. *Tel:* 87051. *Telex:* 028368 eslop d. *Cables:* Slopex. Capacity: 4,000 cu.m.p.h.

DENSITY: Brackish at Elbe Harbour and inside locks. Average density 1003.

FRESH WATER: Most berths supply by shore installations.

FUEL: All grades available.

Bunker stations on South side of Canal are:

Shell	– 2 berths, gas oil only.
BP	– 3 berths.
Elf	– 4 berths.
Elbe-Slop-Ex	– 2 berths.

and on the North side of Canal:

KuBi – Bunker Station – 1 berth, gas oil only.

Brunsbuttel Bunker Service – 3 berths.

FIRE PRECAUTIONS: No specific precautions except in Kiel Canal.

GANGWAY/DECK WATCHMEN: Services of watchmen not necessary but available day and night if required.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ships entering canal and using terminals must have international ship's register. All other certificates should be valid.

CUSTOMS ALLOWANCES: Tobacco, each crew member 200 cigarettes or 50 cigars or 250 grams of tobacco. Surplus will be sealed up by Customs. Wine and/or spirits 1 bottle of spirits and 1 bottle of wine permitted for each crew member. Beer unlimited. Ships transiting canal are not affected.

IDENTIFICATION CARDS: Normally not needed. If necessary in special cases Identification Cards will be issued by Immigration.

CONSULS: All consulates available at Hamburg. Swedish Vice-Consul at Brunsbuttel.

REPAIRS: Only minor repairs can be effected. Big yards and dry docks available at Hamburg.

REPATRIATION: Crew changes can be arranged in connection with local Immigration Office.

AIRPORT: Nearest airport Hamburg. 90 km. away.

TIME: GMT plus 1 hour.

HOLIDAYS: Cargo work can be arranged on every day.

POLICE/AMBULANCE/FIRE: Police Tel: 110 and 3041. Waterway Guard Police Tel: 1012. Passport Control Tel: 87.262. Customs Tel: 8555. Hospital Tel: 3901. Fire Tel: 112.

TELEPHONES: No facilities for placing telephone on board in Kiel Canal.

DANGEROUS CARGO: Ships with dangerous cargo or tankers not gas free have to be reported to the Port Authority 48 hrs. before arrival.

AUTHORITY: Kiel Canal Authority – Wasser-und Schiffakrtsamt Brunsbuttel, 2212 Brunsbuttel 1. *Tel:* (04852) 8011 – 8016.

Harbour Authority: Hafenbehorde Brunsbuttel, Elbehafen, 2212 Brunsbuttel. *Tel:* (04852) 87044. *Contact:* Captain Dietze, Port Captain.

(b) ELBE TERMINAL

LOCATION: Elbe Terminal situated outside of locks, quay length 1,100 m.

PILOTAGE: Elbe Pilots also act as docking Pilots at Elbe Terminal.

RESTRICTIONS: For vessels bound for Elbe Terminal, Brunsbuttel, there are no restrictions with regard to length, breadth and height or with regard to day or night entry. Vessels may berth and unberth day or night.

MAX. SIZE: As the fairway of the River Elbe is being dredged, it is not possible to publish any long-term draft values. The max. admissible drafts of the various sizes of vessels intending to navigate on the River Elbe must be enquired of the authorities. The Elbe Pilots will have updated information on the latest depth and draft values.

Depth of water: Oil section: 14.70 m. below chart zero; dry cargo section: 12.70 m. below chart zero. Minimum keel clearance of 3 ft. required.

BERTHING: *Dry cargo section:* One gantry crane for handling of bulk cargoes with a capacity of 25 tons and outreach of 45 m.

3 level-luffing cranes for handling of bulk and general cargoes as well as containers. By means of syncronising 2 cranes, heavy pieces up to 45 tons can be handled.

Capacity of these cranes 12/24 tons with an outreach of 40/20 m.

2 level-luffing cranes for handling general cargo only with a capacity of 6/10 tons with an outreach of 32/20 m.

1 automatic crane with a capacity of 20 tons for handling of general cargo.

3 warehouses with a floor space of total 8,000 sq.m. available.

TANKERS: 2 Mannesmann marine loading and discharging units 12 in. diameter, each with a capacity of 1,500 t.p.h.

2 Mannesmann marine loading and discharging units 20 in. diameter with a capacity of 10,000 t.p.h.

The units are driven hydraulically. Connection to the tanker manifolds by hydraulically operated clamps.

One 30 in. pipeline to Texaco Tank Storage. Pressure admissibility of the units up to 19 Atu and a temperature up to max. +50°C (Crude oil).

Liquified Gases (Propane): 1 loading/discharging arm 250 mm. diameter, 25 bar, −50°C. 1 vapour return line 100 mm. diameter.

Also see "Regulations".

Mooring:

1. Tankers must be moored with particular care on account of the current, as handling equipment will be engaged for discharging and loading operations and therefore vessels must be moored safely. All lines must be heaved tight and secured to ensure that vessels will be firmly secured at the pier at all times.

2. Tankers exceeding 35,000 g.r.t. must be moored as shown in *Mooring Plan* (See "Plan Book") it being understood that these are minimum requirements for normal weather conditions.

3. The cross lines (wire ropes with a breaking strength of 120 tonnes) will be provided from the shore and should be belayed on bollards.

4. If at all possible, an additional two cross lines should be provided by the vessel.

5. All lines must be in perfect condition.

6. The winches to be used must be in perfect working order and capable of holding the tensile forces for which they are rated.

7. The crew must be large enough for efficient handling of the lines according to the standards of good seamanship.

8. The Port Authority may insist on calling in additional personnel for vessels not having a large enough crew to handle lines safely and quickly.

9. The Mooring Plan is based on all line systems. If no cross lines are provided from the shore, at least 1 wire rope each must be provided fore and aft by the vessel.

Fire Warp: Once the mooring operations are completed, a sufficiently strong tow-line (wire rope) must be lowered from bow and stern on the offshore side as far down as to the water surface.

Berthing/Unberthing: (a) Tankers may be berthed and unberthed only if the wind does not exceed force 7 Beaufort scale.

(b) If the visibility is at least 1 nautical mile.

Tide: The mean range of the tide at the pier is about 2.66 m. (8 ft.). The max. ebb current is 1.75 m. per second, the max. flood current is 1.5 m. per second.

Important:

1. The shore-side loading/discharge swivel arms are equipped with an automatic drift alarms. Should the vessel drift beyond the safety limit, a loud signal will be sounded and all ship-side pumps must be stopped and the lines must be checked.

2. In case of fire the Ship Fire Alarm is as follows:

1 or more tyfon blasts, each to be sounded for at least 10 seconds, in addition to sounding the General Alarm. All safety drills and precautions must be observed.

REGULATIONS: *Special Regulations for Gas Tankers:*

1. The maximum volume of gas tankers is limited to 15,000 cu.m. The volume of cargo in each single tank may not exceed 6,000 cu.m.

2. Only semi-pressurised tankers which are in possession of a valid IMO Certificate for the Transport of Butane and/or Propane according to IMO Code Resolution No. 328IX (new ships) or Resolution No. 329-LX for existing ships are permitted.

3. The gas tankers must be equipped with a refrigerating plant, which is capable of keeping the cargo at atmospheric pressure under extreme ambient conditions (45°C air temperature, 32°C water temperature). The refrigerating plant must consist of several identical units (at least 2), in case one should fail, the other to replace same fully.

4. The entire cargo (also eventual transit cargo) is to be kept in a fully refrigerated condition when entering port and while loading/discharging.

5. The release of cargo vapours for the purpose of reducing pressures and/or temperature adjustment – except in emergency cases – is forbidden.

6. Whilst gas tankers are on the River Elbe no materials like alkine (actylene), polyine (polyacethylene), allene, kumulene, MAPP gases, may be carried on board as cargo. ("Rules for the Protection of Nuclear Power Stations against Pressure Waves Resulting from Chemical Reactions" dated 1st August, 1976).

7. Vessels to dock against ebb tide with port side to. In case this requirement cannot be fulfilled due to an eventual delay during the river passage or any other unforeseeable reasons, a turning manoeuvre in a position East of the berth must be prevented (i.e. acceptance of additional tugs).

8. A wireless telephone connection is to be established between the security vessel and the personnel on the jetty, and the fire-fighting centre and the vessel. The wireless telephone connection must secure a duplex communication. Furthermore a wireless telephone communication must be established in good time prior to vessel's berthing.

9. Sufficient and suitable mooring personnel must be arranged for mooring and unmooring. The number of crew must be large enough to secure quick and a safe mooring manoeuvre. The local Harbour Authorities can order the acceptance of additional suitable personnel for this purpose.

10. The vessel must be tied up at the Elbe Harbour in such a way that a parting of the moorings (breaking, melting, burning) may not occur. At least 3 head lines, 3 stern lines, 1 fore spring and 1 after spring are to be made fast. At least 1 head line, 1 stern line and 1 spring MUST be of steel wire construction.

11. For berthing and unberthing at the Elbe Harbour Quay in way of the fire-fighting monitors at least two tugs must be accepted. The engine capacity of the tugs must be sufficient to assist the vessel in all wind, current and ice-conditions. The engine capacity of each tug must be at least 1,600 h.p. Vessels of less than 3,000 g.r.t., equipped with a working bow thruster may unberth with one tug less, weather permitting.

12. While discharging, the passing traffic is to be observed. In case a vessel comes too close, gas discharging/loading is to be stopped.

13. While handling gases, bunkering is not permitted.

14. LPG/Carriers may not be berthed at the Elbe Harbour together with laden or non-gas-free, non-inerted tankers, whose last cargo had a flash-point of below 61°C.

15. No vessels may make fast alongside a gas tanker while handling cargo.

16. During extreme meteorological circumstances (thunderstorms, hurricanes) the handling of liquid gas is to be stopped.

17. The vessel has to leave the berth immediately upon completion of cargo operations.

BALLAST: Ballasting of oil tankers during or after discharging into non-gas-free tanks is allowed only upto a volume of 50% of each tank concerned. This does not apply for inerted tanks.

DENSITY: 1003, brackish water.

FRESH WATER: Available at all berths.

GANGWAYS: Shore gangways available; for V.L.C.C.'s special gangway at hand.

FUEL: By barges. All grades available.

MINIMUM STAFF: During crude oil transfer a minimum staff shall be assigned for safe handling of cargo transfer. For tankers of 3,000 g.r.t. and more, the minimum staff shall be assigned as follows:

1 Deck Officer, 1 Engineering Officer familiar with cargo handling.
2 deckhands.

For tankers of 70,000 g.r.t. and more 2 additional deckhands are required.

TELEPHONE: Ship telephone connections are available at all berths.

AUTHORITY: *Port Operator:* Hafengesellschaft Brunsbuttel mbH, 2212 Brunsbuttel, Elbehafen. *Tel:* 8066. *Telex:* 28347 eport d.

Port Authority: Hafenbehorde Brunsbuttel, 2212 Brunsbuttel, Elbehafen. *Tel:* 87044.

(c) BRUNSBUTTEL – Oil Port

LOCATION: Oil Port situated on North side of Kiel Canal 3.5 km.

PILOTAGE: See Section (a) Canal Pilots also act as Docking Pilots.

ANCHORAGE: Anchoring near the compressed-air barrier is prohibited. The location of the barrier is indicated by rings with the inscription "Preßluftsperre".

MAX. SIZE: Max. allowed dimensions of vessel between the figure values (draft and beam) can be interpolated.

Max. Draft	*Max. Beam*
10.40 m. (34 ft. 2 in.)	27.00 m. (88 ft. 7 in.)
9.50 m. (31 ft. 2 in.)	29.00 m. (95 ft. 2 in.)
8.00 m. (26 ft. 3 in.)	32.50 m. (106 ft. 7 in.)

Max. LOA 235 m. (771 ft.)

Ships passing Kiel Canal: See "Restrictions" Kiel Canal.

BERTHING:

Berths: 3 berths (Nos. 6, 7 and 8) for tankers up to 10.40 m. (fresh water) draft.

2 berths (Nos. 4 and 5) for tankers up to 6 m. (fresh water) draft.

Oil Handling Facilties: Hoses of 6 in., 8 in. and 10 in. for handling of crude oil, diesel oil, gas oil, gasoline, tuluol, xylol and lub oil.

Mooring: Tankers are required to be moored at least by 1 steel wire fore and aft. The steel wire may be covered.

Restrictions: During loading and ballasting operations, it shall be made sure that a vapour/air mixture pressed out of the tanks is no longer flammable or toxic outside the port area. In order to achieve this without continuous checking, the pumping rate is fixed at 800 cu.m./hour maximum.

Minimum Staff: During cargo transfer a minimum staff shall be assigned for safe handling of cargo transfer. For tankers of 3,000 g.r.t. and more, the minimum staff shall be assigned as follows:

1 deck officer familiar with cargo handling.
1 engineer officer familar with cargo handling.
2 deck hands.

Fire Precautions: Fire hoses must be laid out and connected to fire line, which have to be under pressure during all cargo operations.

Fire wires must be paid out to the water level fore and aft.

1 lifeboat must be swung out into an embarkation position in order to provide an additional emergency escape.

Dirty Ballast Disposal: Not possible in the port. Available only at Elbe Terminal and Kiel Canal (inner harbour) by Elbe-Slop-Ex G.m.b.H. or by barges.

DENSITY: 1003.

FRESH WATER: Available at all berths.

FUEL: By barges. All grades available.

GANGWAYS: Shore gangways available.

AUTHORITY: Operator of cargo handling facilities:
Deutsche Texaco AG, Ostermoorer Str., 2212 Brunsbuttel. *Tel:* 2011. *Telex:* 028314.

Port Operator: Hafengesellschaft Brunsbuttel m.b.H., Elbehafen, 2212 Brunsbuttel. *Tel:* 8066. *Telex:* 028347 eport d.

Port Authority: Hafenbehorde Brunsbuttel, Elbehafen, 2212 Brunsbuttel. *Tel:* 87044.

(d) OSTERMOOR.

LOCATION: Kiel Canal Km. 5.66 (South Side).

PILOTAGE: See Section (a). Canal Pilots also act as Docking Pilots.

RESTRICTIONS: If passing through Kiel Canal, see "Restrictions" in Section (a).

MAX. SIZE: LOA 235 m. (771 ft.).

Max. draft	*Max. beam*
10.40 m. (32 ft. 02 in.)	27.00 m. (88 ft. 07 in.)
9.50 m. (31 ft. 02 in.)	29.00 m. (95 ft. 02 in.)
8.00 m. (26 ft. 03 in.)	32.50 m. (106 ft. 07 in.)

BERTHING:

Port Operator: Hafengesellschaft Brunsbuttel (PO).

Operator of Cargo Handling: AMH-Chemie GmbH (AMH).

Immigration Clearance: Will be carried out on board.

Customs Clearance: No freeport. Customs clearance will be carried out on board.

Tug Assistance: According to assignment of Port Authority.

Mooring: The use of constant tension winches is prohibited (Berth Nos. 2 and 4 only). Port Authority will allocate berth where as the exact position alongside berth will be advised by AMH. The Master is responsible for safe mooring. Additional mooring may be requested by Port Authority responsible (AMH). Bow of vessel at berth in direction Kiel Canal. Exception regulation by Port Authority.

Drinking Water: Available at Berth Nos. 1, 2 and 4 against payment (PO).

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (·–) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal: In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.
Cargo tank inspection by AMH.
Referring to "Operation plan" by AMH.
Connection of ground-wire.
Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).
Installation of telephones.
Gas detectors handed on board (Berth No. 4 only).
Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer } fully qualified in cargo
Ass. Eng. Officer } transfer operations
2 Deckhands
1 Watch Officer for duties other than cargo transfer.

	Berth/Products

AUTHORITY: Port Authority (PA): Hafenbehorde Brunsbuttel, 2212 Brunsbuttel, Elbehafen. Tel: 87044 – Area Code 4852.

Port Operator (PO): Hafengesellschaft Brunsbuttel mbH, 2212 Brunsbuttel, Elbehafen. Tel: 8066 – Area Code 4852. Telex: 28347 eport d.

Operator of the Cargo Handling Facilities (AMH): AMH-Chemie GmbH, 2212 Brunsbuttel P.O.B. 1268. Tel: 82-1 – Area Code 4852. Telex: 28360 Amh D.

BUTZFLETH: 53.39 N. 09.31 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.
Gas Free Certificate (OBO-Carriers)

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products*	
	Inflammable	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

Inside Berth:		Outside Berth:	
	Methanol		P.O.
	Telone/Vidden		Per
	P.D.C.		P.G.I.
	P.O.		Tet
	Propylene		Chlorothene VG/NU
	Ethylene		EDC
			Naoh
			Methylene Chloride
			Trichloroethane
			Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

AUTHORITY: Niedersachsisches Hafenamt Cuxhafen, Aubenstelle, Butzfleth, 2160 Stade 5. *Tel:* (04146) 1436. *Contact:* F. W. Bork, Manager. Captain W. Schroeder, Harbour Master.

CUXHAVEN: 53.52 N. 08.42 E. (See Plan Book)

DOCUMENTS:

Stores List.
Crew List.
Customs Manifest.
Derat Certificate.
Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (·–) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal:

In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.

Cargo tank inspection by AMH.

Referring to "Operation plan" by AMH.

Connection of ground-wire.

Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).

Installation of telephones.

Gas detectors handed on board (Berth No. 4 only).

Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer } fully qualified in cargo
1 Ass. Eng. Officer } transfer operations
2 Deckhands
1 Watch Officer for duties other than cargo transfer.

	Berth/Products		
Brunsbuttel-Ostermoor Loading and Discharging installations	*Berth No. 1 Urea bulk-bagged*	*Berth No. 2 Heavy Fuel Oil*	*Berth No. 4 Anhydrous Ammonia*

BUTZFLETH: 53.39 N. 09.31 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.
Gas Free Certificate (OBO-Carriers)

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate	
West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products* *Inflammable*	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

Inside Berth:		Outside Berth:	
	Methanol		P.O.
	Telone/Vidden		Per
	P.D.C.		P.G.I.
	P.O.		Tet
	Propylene		Chlorothene VG/NU
	Ethylene		EDC
			Naoh
			Methylene Chloride
			Trichloroethane
			Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

AUTHORITY: Niedersachsisches Hafenamt Cuxhafen, Aubenstelle, Butzfleth, 2160 Stade 5. *Tel:* (04146) 1436. *Contact:* F. W. Bork, Manager. Captain W. Schroeder, Harbour Master.

CUXHAVEN: 53.52 N. 08.42 E. (See Plan Book)

DOCUMENTS:

Stores List.
Crew List.
Customs Manifest.
Derat Certificate.

Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (·–) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal: In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.
Cargo tank inspection by AMH.
Referring to "Operation plan" by AMH.
Connection of ground-wire.
Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).
Installation of telephones.
Gas detectors handed on board (Berth No. 4 only).
Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer } fully qualified in cargo
Ass. Eng. Officer } transfer operations
2 Deckhands
1 Watch Officer for duties other than cargo transfer.

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products*	
	Inflammable	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

Inside Berth:	Outside Berth:
Methanol	P.O.
Telone/Vidden	Per
P.D.C.	P.G.I.
P.O.	Tet
Propylene	Chlorothene VG/NU
Ethylene	EDC
	Naoh
	Methylene Chloride
	Trichloroethane
	Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

AUTHORITY: Niedersachsisches Hafenamt Cuxhafen, Aubenstelle, Butzfleth, 2160 Stade 5. *Tel:* (04146) 1436. *Contact:* F. W. Bork, Manager. Captain W. Schroeder, Harbour Master.

CUXHAVEN: 53.52 N. 08.42 E. (See Plan Book)

DOCUMENTS:
Stores List.
Crew List.
Customs Manifest.
Derat Certificate.

Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (· –) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal:

In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.
Cargo tank inspection by AMH.
Referring to "Operation plan" by AMH.
Connection of ground-wire.
Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).
Installation of telephones.
Gas detectors handed on board (Berth No. 4 only).
Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer 1 Ass. Eng. Officer	fully qualified in cargo transfer operations
2 Deckhands	
1 Watch Officer for duties other than cargo transfer.	

	Berth/Products

AUTHORITY: Port Authority (PA): Hafenbehorde Brunsbuttel, 2212 Brunsbuttel, Elbehafen. Tel: 87044 – Area Code 4852.

Port Operator (PO): Hafengesellschaft Brunsbuttel mbH, 2212 Brunsbuttel, Elbehafen. Tel: 8066 – Area Code 4852. Telex: 28347 eport d.

Operator of the Cargo Handling Facilities (AMH): AMH-Chemie GmbH, 2212 Brunsbuttel P.O.B. 1268. Tel: 82-1 – Area Code 4852. Telex: 28360 Amh D.

BUTZFLETH: 53.39 N. 09.31 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.
Gas Free Certificate (OBO-Carriers)

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products*	
	Inflammable	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

	P.O.		Tet
	Propylene		Chlorothene VG/NU
	Ethylene		EDC
			Naoh
			Methylene Chloride
			Trichloroethane
			Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

Customs Manifest.
Derat Certificate.

Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (·–) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal: In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.

Cargo tank inspection by AMH.

Referring to "Operation plan" by AMH.

Connection of ground-wire.

Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).

Installation of telephones.

Gas detectors handed on board (Berth No. 4 only).

Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer 1 Ass. Eng. Officer	fully qualified in cargo transfer operations
2 Deckhands	
1 Watch Officer for duties other than cargo transfer.	

Brunsbuttel-Ostermoor Loading and Discharging installations	Berth/Products Berth No. 1 Urea bulk-bagged	 Berth No. 2 Heavy Fuel Oil	 Berth No. 4 Anhydrous Ammonia

BUTZFLETH: 53.39 N. 09.31 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.
Gas Free Certificate (OBO-Carriers)

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products*	
	Inflammable	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

Inside Berth:	Outside Berth:
Methanol	P.O.
Telone/Vidden	Per
P.D.C.	P.G.I.
P.O.	Tet
Propylene	Chlorothene VG/NU
Ethylene	EDC
	Naoh
	Methylene Chloride
	Trichloroethane
	Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

AUTHORITY: Niedersachsisches Hafenamt Cuxhafen, Aubenstelle, Butzfleth, 2160 Stade 5. *Tel:* (04146) 1436. *Contact:* F. W. Bork, Manager. Captain W. Schroeder, Harbour Master.

CUXHAVEN: 53.52 N. 08.42 E. (See Plan Book)

DOCUMENTS:

Stores List.
Crew List.
Customs Manifest.
Derat Certificate.

Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (·–) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal: In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.

Cargo tank inspection by AMH.

Referring to "Operation plan" by AMH.

Connection of ground-wire.

Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).

Installation of telephones.

Gas detectors handed on board (Berth No. 4 only).

Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer 1 Ass. Eng. Officer	fully qualified in cargo transfer operations
2 Deckhands	
1 Watch Officer for duties other than cargo transfer.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

Steam and Nitrogen: Steam at No. 2 Berth and nitrogen at No. 4 Berth available from ashore.

Bunker Supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship Repairs: Permission of AMH required.

Electricity Supply: No connections available.

Garbage Disposal: Available (PO).

Dirty Ballast Disposal: Not possible in the Port. Available only at Elbe – Port Jetty and Kiel Canal (Inner Harbour) by Elbe – Slop – Ex-GmbH.

Navigating into the North Basin: (Direction by AMH) – only after stop of cargo operations at Berth No. 4.

Gangways: At Berth Nos. 2 and 4 gangways are at hand (AMH). At Berth No. 4 and at waiting place a lifeboat has to be ready at the accommodation ladder on the offside during cargo operations.

Stop of Cargo Operations in Case of Emergency: At the sound of the signal "stay away" (· –) and fire (– – –) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of AMH has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo Stop in Case of Bad Weather: Berth No. 1: rainfall, windspeed 22 m./sec.; Berth Nos. 2 and 4: windspeed 26 m./sec. Disconnection at windspeed 22 m./sec.

ETA Messages: 72 hours prior to arrival to AMH via Agent with the following information: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Dangerous Cargoes: Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Ships requested to accomplish the Oil Liability Agreement (more than 2,000 tons oil onboard) must be in possession of a valid Oil Liability Certificate.

Regulation Covering the Transport of Ammonia through the Kiel Canal: In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMO suitability certificate for the transport of ammonia must be issued in accordance with the IMO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.

2. The loading system must be so dimensioned that at an outside air temperature of +25° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), watertight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in Section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMO – suitability indication in accordance with Section 1 and the certificate as per Section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo Handling at Berth Nos. 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.
Cargo tank inspection by AMH.
Referring to "Operation plan" by AMH.
Connection of ground-wire.
Emergency towing wires (steel) must be provided at water level (Berth No. 4 only).
Installation of telephones.
Gas detectors handed on board (Berth No. 4 only).
Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (Berth No. 4 only).

Connection and disconnection of loading arms will be done by AMH personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps and stop valves must be able to be shut down immediately.

Minimum Crew during Cargo Transfer Operation at Berth No. 4:

1 Deck Officer	fully qualified in cargo
1 Ass. Eng. Officer	transfer operations
2 Deckhands	
1 Watch Officer for duties other than cargo transfer.	

	Berth/Products		
Brunsbuttel-Ostermoor Loading and Discharging installations	Berth No. 1 Urea bulk-bagged	Berth No. 2 Heavy Fuel Oil	Berth No. 4 Anhydrous Ammonia
Loading/discharge rate with vapour return line (max.)	—	—	*800 t/h (at −33°C) 250 t/h (at ambient temp.)

Remarks: *reduced discharge rate at higher cargo temperature; †only possible in exceptional cases (discharge); ‡at following conditions: P min=3 bar, T min=+55°C. Viscosity max.=35° E/+55°C; §Compulsory during loading/discharging at Berth No. 4

AUTHORITY: Port Authority (PA): Hafenbehorde Brunsbuttel, 2212 Brunsbuttel, Elbehafen. Tel: 87044 – Area Code 4852.

Port Operator (PO): Hafengesellschaft Brunsbuttel mbH, 2212 Brunsbuttel, Elbehafen. Tel: 8066 – Area Code 4852. Telex: 28347 eport d.

Operator of the Cargo Handling Facilities (AMH): AMH-Chemie GmbH, 2212 Brunsbuttel P.O.B. 1268. Tel: 82-1 – Area Code 4852. Telex: 28360 Amh D.

BUTZFLETH: 53.39 N. 09.31 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.
Gas Free Certificate (OBO-Carriers)

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO/VHF: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

Pilot boat at "Elbe-1" can be contacted on VHF Channels 13 and 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

A fire fighting tug (1,760 hp) is available 24 hours and can be reached via VHF Channel 16, also available for assistance to vessels.

BERTHING:

Aluminium Oxid Stade GmbH. (AOS): This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 46 ft. 06 in. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside	200 m.	7 m. (23 ft.)

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	550–600 m.t.p.h.
Brazilian bauxite	600 m.t.p.h.
Australian bauxite:	
from Gove	550–600 m.t.p.h.
from Weipa	750 m.t.p.h.
Petcoke	100–400 m.t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products* *Inflammable*	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8.0 m.	8.0 m.
Beam at quay inside	18.75 m.	18.75 m.

No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

Max. Size: Vessels loading/discharging inflammable products: Max. length 270 m. Max. draft 14 m.

Vessels loading/discharging non-flammable products: Length unlimited. Max. draft 14 m.

Vessels with liquid gas and flammable products: Max. length 145 m. Max. draft 8 m. Max breadth 22 m.

Restriction: Mooring prohibited for vessels having IMO Class 2 products (liquid and/or gaseous) on board.

Simultaneous handling of gases inside and flammable products outside not permissable.

Manifolds: (Land side to sea side).

Inside Berth:	Outside Berth:
Methanol	P.O.
Telone/Vidden	Per
P.D.C.	P.G.I.
P.O.	Tet
Propylene	Chlorothene VG/NU
Ethylene	EDC
	Naoh
	Methylene Chloride
	Trichloroethane
	Chloroform/Methanol

Supplies: Nitrogen and potable water.

Technical requirements on ships discharging C2/C3.

Ethylene: For loading arm horizontal clearance ships manifold to the nearest structure 2.10 m., vertical clearance from centre of manifold up 0.50 m. and down 0.60 m., flange 6 in. (300 ASA) discharge-temperature of Ethylene minimum −103°C.

Propylene: For loading arm horizontal clearance 2.20 m., vertical up 0.50 m. and down 0.50 m., flange 6 in. (300 ASA), discharge-temperature of Propylene maximum −20°C.

Further on Propylene, vessels to be guaranteed, that the vessels in Summertime are suitable for pump against a back pressure of minimum 13 kg. but preferably it should be 15 kg./16 kg.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Hamburg or local supplier.

GENERAL: *Dirty Ballast:* No facilities.

Agent at Dow-Jetty: Messrs. Elbclearing, P.O. Box 5110; 2160 Stade 5. *Tel:* 04146/1033. *Telex:* 0218158 clear d.

REPAIRS: Minor repairs can be carried out.

SERVICES: Stevedores, hold cleaning, boatmen, mooring gangs, inspectors, fitters and launches.

DEVELOPMENTS: In the northern part of the port, a new pier is currently under construction (due to be completed in 1984), and which is planned to handle general and bulk cargo. It will have a free area of approximately 20,000 sq.m.

In the southern harbour, a further discharge head platform is under construction. Maximum vessel length 160 m., beam 28.0 m. and 7.50 m. depth of water (to be completed Summer 1984).

Apart from a floating crane of 20 tons and a mobile crane of 10 tons which are currently in use in the port, two jib cranes will also be installed each with 20 ton lifting capacity, for use with grabs or hooks.

AUTHORITY: Niedersachsisches Hafenamt Cuxhafen, Aubenstelle, Butzfleth, 2160 Stade 5. *Tel:* (04146) 1436. *Contact:* F. W. Bork, Manager. Captain W. Schroeder, Harbour Master.

CUXHAVEN: 53.52 N. 08.42 E. (See Plan Book)

DOCUMENTS:

Stores List.
Crew List.
Customs Manifest.
Derat Certificate.

Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Port", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 m. – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

Depths: Max. depth of water: 13.5 m. (45 ft.). Mean tide HW: NN+1.40 m. Mean tide LW: NN−1.50 m. Tide range is 2.90 m. (NN = approx. mean sea level).

Water depth in the basins up to 8.5 m. below MTLW. Water depth at the river quays 12 m. and 8 m. below MTLW.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".

RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.

TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.

BERTHING:

Fahrhafen and Neue Seebaderbrucke: Modern multi-purpose Ro/Ro terminal for passengers and for handling of motor vehicles and cargo direct at the Elbe River, 300 m. quay with 8 m. depth below MTLW.

Starting point of ferries for the North Sea and the Baltic Sea, for passenger ships to Helgoland and Hamburg.

Ro/Ro linkspans (one of them for axle-loads up to 50 tons and for stern-door width up to 18 m.). Hard-standing and storage area of approx. 60,000 sq.m.

Alter Hafen: Multi-purpose harbour for shipyards and for boats to the seaside resorts and islands.

Alter Fischereihafen: Multi-purpose harbour with transhipment and outfitting quays for fishing cutters, offshore base and emergency port. Fish auction and fish handling sheds, fish industry, equipment firms, deep freeze house for 5,000 tons of goods.

Neuer Fischereihafen: Multi-purpose harbour with transhipment and equipment quays for trawlers and luggers, offshore suppliers, Ro/Ro ships, for ships carrying general cargo and for minor bulk cargo ships. Fish auction and handling sheds, fish industry, equipment firms, deep freeze house for 25,000 tons, ice production, open storage space.

Entrance and exit any time by the sea-lock. Length of lock 190 m., width of lock 24 m. and depth of lock is 9 m. below MTLW.

Amerikahafen: Multi-purpose harbour with transhipment and equipment quays for ships carrying general cargo and for minor ships carrying bulk cargo, emergency port, floating docks, transit shed, deep freeze house, open storage spaces.

Steubenhoft: Multi-purpose facility for big ocean vessels with 400 m. long quay and 12 m. water depth below MTLW. Usable for cargo, repair, trial trip and passenger ships of all sizes.

CRANES:

10 portal cranes	1.5 – 10 tons capacity
1 loading bridge	8 tons capacity
1 crane for heavy loads	50 tons capacity
Various mobile cranes up to	20 tons capacity

Equipment also available to handle containers and Ro/Ro traffic.

MEDICAL: Doctors and hospitals obtainable day and night.

FRESH WATER: Available from shore pipe-line up to 50 t.p.h. Small quantities up to 15 tons may be obtained in Roads from bunker barge. There are no water barges.

FUEL: Bunker and gas oil available. Small quantities, up to 150 tons, may be obtained anytime. Otherwise according to conditions of supplying oil company.

FIRE PRECAUTIONS: No special restrictions. Ships with explosive cargo and liquid cargoes of danger class K1 and K2 not allowed in Cuxhaven Harbour.

CARGO HANDLING: A harbour for overseas ferries up to 150 m. length with Ro/Ro and container equipment.

GANGWAY/DECK WATCHMEN: Not obligatory, at Master's discretion.

OPENING/CLOSING HATCHES: Normally performed by crew. Stevedores must be paid if required to do this work.

CUSTOMS ALLOWANCES: 40 cigarettes, 1 bottle spirits and 2 bottles wine.

IDENTIFICATION CARDS: If no passport, shore pass required.

CONSULS:

Denmark, tel. 38021.
Iceland, tel. 36036/37.
Others at Hamburg/Bremen.

REPAIRS: All deck and engine repairs possible.

DRY DOCKS: Floating dock for vessels up to 110 m. length, and slipway for vessels up to 75 m. long and 13 m. beam.

REPATRIATION: All facilities available.

AIRPORT: Hamburg-Fuhlsbuttel, 130 km. away; Bremen, 110 km. away.

TIME: GMT plus 1 hour.

HOLIDAYS: New Year's Day, Good Friday, Easter Sunday, Easter Monday, 1st May, Ascension Day, Whit Sunday, Whit Monday, 17th June, Atonement Day, Christmas Day, Boxing Day. Loading/unloading can be arranged on these holidays.

POLICE/FIRE/AMBULANCE: Police, tel. 110; Harbour Police, tel. 22072; Ambulance, tel 23125; Fire, tel. 112.

TELEPHONES: At Steubenhoft and in the ferry harbour, telephones can be put on board.

SERVICES: Compass adjusting and radio repairs.

SHORE LEAVE: Allowed.

AUTHORITY: Niedersachsisches Hafenamt Cuxhaven, Am Schleusenpriel 2, P.O.Box 526, 2190 Cuxhaven. *Tel:* (04721) 37077.

AGENT: See "Hamburg".

DUISBURG-RUHRORT: 51.25 N. 06.46 E.

(See Plan Book)

LOCATION: Duisburg-Ruhrort port area, together with Hochfeld, covers a total surface of 1023 hectares on the right bank of the river between the Rhine km. 774 and 781, the Ruhr channel – 1 km., and the Rhine-Herne canal km. 1 to 2.

MAX. SIZE: Dimensions of vessels able to use the German inland waterways:

Type	*Length (m.)*	*Beam (m.)*	*Draft (m.)*	*Capacity (tons)*	*Horse Power*
Motor dry cargo vessel	38.5 – 110	5 – 11.4	2 – 3.5	300 – 2,500	100 – 2,000
Tanker	50 – 110	6.6 – 11.4	2.2 – 3.5	400 – 3,200	250 – 2,000
Train (Pushing motor vessel and barge)	150 – 186.5	9.5 – 11.4	2.5 – 3	2,530 – 4,400	800 – 2,000
Pusher tug	10 – 35	7.6 – 13.2	1.4 – 2.2		1,000 – 6,000
Dumb barge for pushing	70 – 76.5	9.5 – 11.4	2.5 – 3.7	1,240 – 2,600	

The largest pusher tugs push six barges = 15,600 tons.

RADIO: Duisburg Port Radio, VHF Channel 13.

BERTHING:

Docks	*Theoretical Depth respectively zero level above normal zero*	*Loading Depths (approx. value) Actual water level at Ruhrort water gauge*
(a) Ruhrort. Water gauge zero.	16.13 m.	
Port Entrance, Vincke Canal, Bunker Dock, North Dock, South Dock, Kaiser Dock, Port Canal, Dock A, Dock B, Dock C and Railway Dock	15.40 m.	+ 40 cm.
Werft Dock	17.05 m.	−120 cm.
(b) Duisburg. Water gauge zero.	17.00 m.	
Parallel Dock, Outer Dock, Wood Dock and Inner Dock at Marientor up to km. 3.5	16.10 m.	+ 40 cm.
Inner Dock Eastwards km. 3.5	16.50 m.	± 0 cm.
(c) Hochfeld. Water gauge zero.	17.42 m.	
South and Kultus Dock.	16.45 m.	+ 40 cm.
(d) Canal Dock Meiderich Ruhr Dock Neuenkamp		Loading depths as per inland waterways traffic regulations

CRANES: 90 cranes and travelling bridges of up to 40 tonnes lifting capacity for bulk goods and general cargo, as well as for containers. 1 heavy lift crane with 60 tonnes capacity.

BULK CARGO FACILITIES: 1 coal mixing and discharging plant with 2 car dumpers and 2 ship loaders, daily capacity up to 13,000 tonnes. Grain warehouses and silos with approx. 130,000 tonnes capacity, 4 conveyor belts, and 22 discharging plants.

Tank storage 1,327,825 cu.m. Liquid gas tank storage 20,000 cu.m.

SPECIALISED CARGO HANDLING FACILITIES: Container terminal with facilities for all means of transport Roll-on/Roll-off installation. 71 points for handling liquid gas.

STEVEDORES: Working hours: 0730 – 1600 hrs., Monday to Friday.

BRIDGES:

Bridge	*Lowest Point of Upper Structure Respectively Zero Level above Normal Zero*	*Correction Value for Calculation of Passage Height**
(a) Ruhrort. Water gauge zero	16.13 m.	—
Bridge over Railway Dock	36.10 m.	19.70 m.
Bridge over Port Entrance	34.20 m.	17.80 m.
Vincke Canal Bridge	33.10 m.	16.70 m.
Kaiser Dock Bridge	32.60 m.	16.20 m.
Port Canal Bridge	33.80 m.	17.40 m.
Bridge over the Cut Kaiser Dock/Port Canal	30.00 m.	13.60 m.
Bridge over Dock C	38.20 m.	21.80 m.
(b) Duisburg. Water gauge zero	17.00 m.	
Cable Bridge over Outer Dock	37.80 m.	20.90 m.
Road Bridge over Outer Dock	37.00 m.	20.10 m.
Marientorbrudge (clearance between bridge counter bearings 15.80 m.)		
At rest	29.30 m.	12.40 m.
Folded	Up to 33.9 m. height	Clear width 15.8 m.
	Over 33.9 m. height	Clear width 13.8 m.
Schwanentor Bridge (clearance between bridge counter bearings 15.80 m.)		
At rest	26.80 m.	9.90 m.
Lifted	34.90 m.	18.00 m.

*From the following values, the actual water level at the Ruhrort water gauge is to be deducted.

With water levels over 8.40 m. at the Ruhrort water gauge, the stop gate at the Marientor Lock is drawn in and therefore through passage to the Duisburg inner port/wood harbour is no longer possible.

AIRPORT: Dusseldorf (20 km.).

AUTHORITY: Duisburg Ruhrorter Hafen A.G., Alte Ruhrorter Strasse 42-52, Postfach (Postbox) 13 02 60, D – 4100 Duisburg 13. *Tel:* 8 031. *Cables:* Hafag. *Contact:* Y. Klaus van Lith or Dr.-Ing. Jochen Muller, Directors.

ECKERNFORDE: 54.29 N. 09.51 E.

(See Plan Book)

DOCUMENTS:

Stores List.
Customs Documents.
Cargo Documents.
Crew List.

PILOTAGE: No pilot station. No tide. In East winds, water level can increase to 1.50 m. above normal.

ANCHORAGE: Good anchorage in the Roads between N.W. to N.W. by W. bearing from the port, distance 1 to 1.5 miles. Depths 18 m. – 21 m. Anchorage not allowed in harbour area.

CLEARANCE: Customs clearance at any time subject prior notice given. If suspected diseases on board inform Health Authorities.

MAX. SIZE. In Outer Harbour, up to 5 m. draft; in Inner Harbour up to 3 m. draft.

RADIO: Radio Kiel, call sign DAO, Tel: 39011.

TUGS: No tugs.

BRIDGES: Outer and Inner Harbours separated by bascule bridge, opening to 10.7 m. width at top of bridge.

MEDICAL: Doctors and hospitals available.

FRESH WATER: Available.

FUEL: Diesel oil available. No coal.

WATCHMEN: Not available.

OPENING/CLOSING HATCHES: By ship's crew.

IDENTIFICATION CARDS: Required, if no passport.

REPAIRS: Available for fishing boats or coasters. Slipway for vessels up to 200 tons.

TIME: GMT plus 1 hour. GMT plus 2 hours in Summer (end March – end September).

HOLIDAYS: Work allowed on Sundays and official holidays subject to Harbour Master's permission.

POLICE/FIRE/AMBULANCE: Police Tel: 110. Hospital Tel: 9011. Fire Tel: 112.

TELEPHONES: Public telephones in harbour area. No installation on board.

SERVICES: Other services available from Kiel.

SHORE LEAVE: Permitted.

AUTHORITY: Stadtwerke Eckernforde GmbH, Bornbrook 1-3, 2330 Eckernforde. *Tel:* (04351) 5021. *Contact:* Mr. Wegner, Harbour Master. Mr. Poetzsch, General Manager.

ELSFLETH: 53.14 N. 08.28 E.

PORT LIMITS: The seaward boundary of the port is the entrance of River Hunte, vessels are considered to be arrived when alongside the berth or waiting berth, and Customs formalities are completed.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
1 Health Certificate.
2 Provision and Store Lists.
1 Ship's Certificate.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: Pilotage is carried out by Weser River Pilots, no Harbour Pilot available.

ANCHORAGE: No anchorage in vicinity of the harbour, see Blexen Roads.

RESTRICTIONS: Max. draft in the entrance at LW is 3.20 m.

MAX. SIZE: Max. size in daytime, length 80 m. Max. size at night-time, length 60 m., draft depends on the tide.

PRATIQUE: Pratique is given on arrival by the Health Officer. If disease or fever is suspected on board it has to be reported to the Agent.

RADIO: Cable Norddeich (call sign DAN) advising ETA and cash requirements.

RADAR/VHF: No port radar service but river radar can be used for approaching port from Weser Lightvessel to Bremerhaven. VHF Channel 21 from Bremerhaven to Elsfleth. Channel 19 from Bremen to Elsfleth.

River radar can be used for approaching port from Bremerhaven to Elsfleth (entrance of River Hunte).

Bremen Port Radar Channel 12.

VHF Channel 10 from Elsfleth to Oldenburg.

The 2 railroad bridges over the River Hunte can be called on VHF Channel 19.

TUGS: Tugs have to be ordered from Bremen or Brake, they join the vessel at River Hunte Estuary. If tug lines are used there are no extra charges.

BERTHING: 1 quay with a length of 260 m., depth alongside 150 m. = 5 m., and 110 m. = 4 m., 1 waiting berth for small vessel 3 m., 1 private berth (Omni-Pac).

2 waiting berths for vessels in inland trade. 9 vessels with length from 80 m. can use these berths. One waiting berth is by the naval college (3 berths) and the other at km. 23 on the River Hunte.

SPECIALISED CARGO-HANDLING FACILITIES: 2 cranes with 6.5 tons and 1 crane with 10.5 tons. Bulk cargo can be handled with grabs, no other special facilities.

BRIDGES: No bridges to reach the port, but all ships bound for Oldenburg are waiting at Elsfleth for opening bridges.

A flood prevention barrier has to be passed to reach the harbour.

STEVEDORES: ETA has to be cabled to the Agents to arrange gangs. Port works 3 shifts around the clock, including Sunday and holidays.

MEDICAL: Medical service is available day and night. Hospital is available at Brake.

TANKERS: No tanker berth.

DENSITY: Fresh water.

FRESH WATER: Delivered from the quay by hose.

FUEL: Fuel is delivered by bunker barges stationed in port.

FIRE PRECAUTIONS: No fire precautions.

CONSUL: None.

REPAIRS: 1 dockyard, all ship and engine repairs can be carried out.

DRY DOCKS: 2 slipways can be used.

SURVEYORS: Classification Societies have to be ordered from Bremen, surveyors available at Elsfleth.

GANGWAY/DECK WATCHMEN: A crews' watchman is necessary because of strong tidal streams, 2 – 3 knots.

HATCHES: Hatch-opening/closing to be carried out by crew.

CUSTOMS ALLOWANCES: Quantity permitted for each crew member: 100 cigarettes, 1 bottle of spirits.

CARGO GEAR: Loading/discharging is carried out by shore cranes.

REPATRIATION: Any time. Inform Agent.

AIRPORT: Airport at Bremen (50 km). Regular airlines.

TIME: Local time: GMT plus 1 hour.

HOLIDAYS: Cargo work can be arranged on those days.

POLICE/AMBULANCE/FIRE: Police: Station 2263, River 2377. Ambulance: Brake Hospital 04401 – 4060. Fire 2333.

TELEPHONES: No ship-to-shore communications.

SHORE LEAVE: Crew members are allowed ashore with valid passports.

IDENTIFICATION CARDS: No shore pass issued.

REGULATIONS: No unusual regulations for the port.

GENERAL: All ships bound for Oldenburg have to do clearance in port.

DEVELOPMENTS: A new private berth has been completed for the distillery "Pabst & Richards".

AUTHORITY: Niedersachsisches Hafenamt Brake – Hafenmeister Elsfleth, Ander Straats Kaje, Elsfleth. *Tel:* 04404 – 2202.

EMDEN: 53.23 N. 07.13 E. (See Plan Book)

PORT LIMITS: The vessel is to be considered an "arrived ship" upon having berthed at the designated waiting/loading/discharging berth, depending upon Charter-Party.

DOCUMENTS: Health Declaration (form from Sea-Pilot), Derat Exemption Certificate, Bill of Lading, Cargo Manifest, Certificate of Origin (for gas-tankers only), Certificate of Quality (for gas-tankers only), Certificate of Registry, 5 Crew Lists, 2 Crew Personal Effects Lists, 4 Slop-Chest Lists, Passports/Seamen's Books, 2 German Tanker Check Lists (for tankers and gas-tankers only).

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE: Compulsory. At least 12 hours prior arrival at Pilot Station, vessel to radio "Emslotse Emden" indicating vessel's name, ETA, destination and draft. Contact pilot vessel on VHF Channel 16 or MW 500 kHz or LW 2023 kHz (daytime) and 2182 kHz (night-time).

Pilot vessel located near Wester Ems Light Buoy in approx. position Lat. 53° 37′ N., Long. 06° 24′ E.

Tankers and gas-tankers above 10,000 g.r.t. with dangerous cargo have to pick up the Pilot at the TW/DB Buoy in position: 53° 59′ 18″ N., 06° 21′ 26″ E.

During bad weather periods pilot boat is withdrawn and stationed in sheltered area near the Isle of Borkum.

ANCHORAGE: Vessels may anchor in vicinity of pilot vessel 9.5 fathoms depth. Sandy bottom.

Further anchorage possibilities in the Ems fairway half way up to Emden at "Moevensteert", 45 ft. salt water at HW.

RESTRICTIONS: Vessels drawing in excess of 26 ft. salt water have to wait for high tide to proceed to Emden proper. Tide rise about 10 ft.

Vessels with LOA/beam over 255 m./35.5 m. respectively enter and leave in daylight only.

The "Great Sea Lock": The "Great Sea Lock" has a length of 260 m. (853 ft.) and a width of 40 m. (131 ft.) restricting vessels' size to 255 m. LOA and 35.5 m. beam, but upon special permission at about 256 m. LOA and 36.5 m. beam. Depending upon vessels' constructural shape even longer ships have been accepted in the past upon special application.

MAX. SIZE: Under normal tide conditions, vessels drawing 36 ft. can enter Emden directly. Vessel drawing up to 45 ft. salt water can be lightened in river inside Isle of Borkum at the unloading berth "Moevensteert" by floating cranes until appropriate draft achieved. Capacity of floating crane 1,000 t.p.h., 2 cranes available.

Length and beam restrictions imposed by locks at Emden: max. 255 m. length and 35.50 m. width. Vessels exceeding these dimensions require prior permission.

HEALTH: Pratique granted immediately on arrival at locks by Doctor or Health Official.

RADIO: Cables should be despatched via Norddeich Radio (DAN).

VHF: Norddeich Radio (DAN): VHF Channel 16 and all known communication facilities including ship/shore telex.

Knock Radar Control Centre: VHF Channel 18.

Emden Pilot: VHF Channel 16.

RADAR: Radar service on the river "Ems" from approx. position: Lat. 53° 37.5′ N., Long. 06° 23′ E. (Westerems) or Lat. 53° 35′ N., Long. 06° 23′ E. (Hubertgat) up to port entrance. The other range (Borkumradar) works on VHF Channel 18. Further information on this Channel.

BERTHING: *Outer Harbour:* Quay length 1,539 m. – tidal harbour. Also see "Developments".

New Inner Harbour: Accessible through Sea Lock (260 m. × 40 m.) and Nesserlander Sea Lock only for vessels up to 111 m. in length and 14.50 m. width.

INNER HARBOUR:

South Quay:

Commodity: Iron ore, coal, coke, bauxite, fertilizers and other dry-bulk cargoes, also wood, steel, general cargo, containers, etc.

Pier Length: 932 m.

Depth Alongside: 12 m. permanent (salinity about 1.005).

Draft Allowed: 35 ft. inbound, 34 ft. outbound.

Number of Cranes: 8, 1 cokeloader.

Lifting Capacity: 1×7 tons, 4×15 tons, 2×25 tons, 1×40 tons. 4,000 tons/day.

Daily Capacity: Discharging iron ore, about 30,000 tons. Discharging coal, about 24,000 tons. Loading coal about 10,000 tons.

Outreach of Grabs: 35.5 m. (cranes), 12.5 m. (cokeloader).

Distance Waterline/Lower Edge Grab: 14 m. (cranes), 13 m. (cokeloader).

Conveyor Belt: Double belt system.

Storage Area: About 25,000 sq.m. concrete paved. About 76,000 sq.m. for bulk cargoes. About 4,000 sq.m. of covered storage for general and bulk cargoes.

Loading/Discharging: Ex/onto rail cars, trucks, barges.

Working Period: Monday 0600 hrs. – Saturday 2200 hrs., overtime possible.

North Quay:

Commodity: Iron ore, coal, coke, bauxite, fertilizers and other dry-bulk cargoes, also wood, steel, etc., and general cargo.

Pier Length: 520 m.

Depth Alongside: 12 m. permanent (salinity 1.005).

Draft Allowed: 35 ft. inbound, 34 ft. outbound.

Number of Cranes: 4.

Lifting Capacity: 15 tons each.

Daily Capacity: Discharging iron ore, about 30,000 tons. Discharging coal, about 20,000 tons. Loading coal, about 10,000 tons.

Outreach of Grabs: 35.5 m.

Distance Waterline/Lower Edge Grab: 14 m.

Conveyor Belt: Available.

Storage Area: About 13,000 sq.m. concrete paved. About 32,000 sq.m. for bulk cargoes.

Loading/Discharging: Ex/onto rail cars, trucks, barges.

Working Period: Monday 0600 hrs. – Saturday 2200 hrs., overtime possible.

Industrial Harbour:
Commodity: All kinds of dry-bulk commodities in smaller lots, iron and steel, and all kinds of general cargo.
Pier Length: Total about 1,000 m.
Number of Berths: 3.
Draft: Between 23 ft. – 24 ft. permanent (salinity 1.005) depending on berth.
Number of Cranes: 4, and 1 mobile crane.
Lifting Capacity: 1×5 ton, 1×10 ton, 1×10-20 ton, 1×30 ton, 1 mobile crane 30 ton.
Outreach of Cranes: 16 m. – 40 m. depending upon weight of load to be handled.
Distance Waterline/Lower Edge Grab: 18 m. – 20 m.
Storage: About 5,500 sq.m. covered storage space. About 50,000 sq.m. open storage space.
Loading/Discharging: Ex/onto rail cars, trucks, barges.
Working Period: Monday 0600 hrs. – Saturday 2200 hrs., overtime possible.

Ro-Ro Berths I and II:
Commodity: Automobiles, paper and other Ro-Ro commodities.

Berthing Length:	Terminal I	Terminal II
	325 m.	300 m.
Draft Allowed:	Max. 23 ft. permanent (salinity 1.005).	Max. 23 ft. permanent (salinity 1.005).
Number of Ramps:	1 stern ramp. 1 stern or side ramp.	1 stern ramp.
Storage:	About 43,000 sq.m. storage space.	About 31,000 sq.m. storage space

Loading/Discharging: Ex/onto rail cars, trucks.
Working Period: Monday 0600 hrs. – Saturday 1400 hrs., overtime possible.

OUTER HARBOUR: This port basin has direct connection to the Ems Fairway, i.e. it is a tidal port area. There are no restrictions as to length or beam.

VW Berth:
Commodity: Mainly used for handling Volkswagen automobiles.
Berthing Length: About 245 m.
Depth Alongside: 8.3 m. at low water (salinity about 1.007).
Draft Allowed: 26 ft. LW.
Tidal Range: About 10 ft.
Number of Cranes: None.
Cargo Handling: Side door Roll-on/Roll-off or ship's own gear, ex/onto storage, rail, truck.
Loading Rate: 1,000 – 1,500 cars/day.

Granary I and II:
Commodity: All kinds of grain products, feed stuff, etc.
Berthing Length: 450 m.
Depth Alongside: 8.3 m. at LW (salinity about 1.007).
Draft Allowed: 26 ft. fresh water at LW.
Tidal Range: About 10 ft.
Number of Elevators: 3 shore elevators, 2 floating elevators.
Outreach from Fenderline: 18 m.
Distance Waterline/Hatchcoaming: 11.5 m.
Daily Capacity: About 12,000 tons heavy grain. About 6,000 tons soya meals.
Storage Capacity: About 150,000 tons.
Working Period: Monday 0700 hrs. – Saturday 2200 hrs., overtime possible.

Ems Quay:
Commodity: General, wood, logs, containers, etc.
Pier Length: 271.7 m.
Draft Allowed: 35 ft. salt water at HW.
Tidal Range: About 10 ft.
Number of Cranes: None.
Number of Ramps: 1 quarter ramp, 1 stern ramp.
Storage Capacity: About 6,000 sq.m. of covered storage space and 25,000 sq.m. of concrete paved open storage space.

Lightening/Topping-Off of Dry-Bulk Cargoes at Emden-"Dukegat":
General: Vessels exceeding a draft of 35 ft. salt water have the possibility to lighten/top-off at the "Dukegat" anchorage free of expense to the vessel, provided the balance of the cargo is being handled at Emden proper. On occasions also just lightening of vessels destined for other ports than Emden is performed at costs to be specifically agreed upon.
Commodity: Iron ore, coal, bauxite, etc.
Location of Anchorage/Lightening-Place (Dukegat): About 20 sea miles up-river from pilot vessel between Buoys "A12" and "A14" near the Isle of Borkum.
Dimensions of Anchorage/Lightening-Place (Dukegat): About 2,750 m. long and about 700 m. wide.
Draft: Maximum allowable arrival/sailing draft 45 ft. salt water.
Number of Cranes: 2 self-propelled floating cranes equipped with 25 ton grabs and hoppers connected with conveyor-belt.
Outreach from Fenderline: Max. 25.5 m.
Distance Waterline/Lower Edge of Grab: Max. 21 m.
Capacity: Iron ore, about 1,000 t.p.h. Coal, about 750 t.p.h. (lightening), about 500 t.p.h. (topping-off).

TUGS: Sufficient tugs available, stationed at Emden Locks, ranging from 790 h.p. to 3,900 h.p. Usually tugs lines used.
BRIDGES: None.
STEVEDORES: Since main commodities consist of bulk cargoes, such as iron-ore, coal, coke, bauxite, no specific requirements.
MEDICAL: Advance notice only required in urgent cases; hospital available.
BULK HANDLING FACILITIES: See "Berthing".

TANKERS: Olhafen situated in Inner Harbour. Tankers up to 34 ft. 6 in. draft discharge to Frisia Refinery, distance about 4.5 km.

Slops may only be discharged at the Tank Cleaning installation of Thyssen Nordseewerke GmbH.

Oil Harbour:
Commodity: Crude oil, naphtha, condensates, fuel oil, gas oil.
Number of Berths: 4 (2 large and 2 smaller berths).

Docking Length:	No. 1	No. 4
	255 m.	200 m.
Draft Permanent:	34 ft. 6 in. (salinity about 1.005)	34 ft. 6 in. (salinity about 1.005)
Loading Rate:	500 t.p.h. light fuel 750 t.p.h. heavy fuel	500 t.p.h. light fuel 750 t.p.h. heavy fuel
Discharging Rate:	2,500 t.p.h. crude oil	1,500 t.p.h. crude oil
Connections:	2×12 in. max.	1×8 in. max.

Working Period: Around the clock, SHinc.

LPG Terminal:
Commodity: Butane, propane and its mixtures.
Number of Berths: 1.
Docking Length: 255 m.
Draft: Max. 34 ft. 6 in. (salinity about 1.005).
Discharging Rate: About 80 t.p.h. at above 0° (about 250 t.p.h. in the future), back pressure about 15 bar at discharging arm.
Connections: 1 discharging arm with 8 in., 300 ASA liquid connection and 1×3 in., 300 ASA vapour connection.
Shore Heater: Available.
Shore Booster: Available.
Storage: Shore tank, capacity about 30,000 cu.m.

Cargo can also be discharged directly into rail tankcars.
Distance Berth/Storage-Filling Station: About 4.5 km.
Working Period: Around the clock, SHinc.

Lightening of Tankers: There is also a tanker lightening/anchoring place at the "Dukegat" anchorage at the location of Buoys "A10" – "A12" with an allowable draft of 41 ft. SW, dimensions 1,200 m. long and 800 m. wide.

However, lightening of tankers is not customary and has not been performed recently.

DENSITY: Average density in port 1005 – 1010.
FRESH WATER: Available, supplied by barge.
FUEL: All grades available, delivered by barge by major oil companies and others.
FIRE PRECAUTIONS: All common fire precautions to be obeyed.
GANGWAY/DECK WATCHMEN: Not compulsory.
OPENING/CLOSING HATCHES: To be performed by crew.
CUSTOMS ALLOWANCES: 40 cigarettes per day/person, 0.25 litre spirits per day/person (at "Outer Harbour" and "Old Inner Harbour").
REPATRIATION: Nearest airport to Emden is Bremen (about 150 km.). There are good train connections to and from Emden. Car transportation can also be arranged upon request to Agent. A small airport is available at Emden for domestic flights and charter flights.
CONSULS: Finnish (Vice-Consul), tel. 28800, Norwegian, tel. 20118, Swedish, tel. 21904, Netherlands, tel. 21404.

REPAIRS: All kinds of repairs possible.
DRY DOCKS: 1 dry dock 218 m. × 30 m., 1 floating dock 176 m. × 27 m., 1 floating dock 138 m. × 16.8 m., 2 floating docks 92 m. × 16.2 m.
SURVEYORS: German Lloyd, Lloyd's Register, Norske Veritas, Bureau Veritas, Panama Bureau of Shipping Inc.
AIRPORT: Nearest airports Bremen and Hamburg, about 2 – 3 hours drive from Emden. World-wide connections. Flight Emden to Bremen or Hamburg possible by air-taxi.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer (25th March-30th September in 1984).
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; June 17th; Prayer Day; Christmas Day; Second Christmas Day (December 26th). No work on New Year's Day, Easter Sunday, Whit Sunday, May 1st and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 22222; Fire 112.
TELEPHONES: Telephones can be placed on board if vessel berthed Northquay, Southquay or Thyssen Nordseewerke shipyard. Public telephone boxes are available close to the berths.
SERVICES: Tank cleaning installation for slop disposal available. Oil pollution service available.
SHORE LEAVE: Shore leave possible.
IDENTIFICATION CARDS: Normally, Seamen's Book sufficient. In certain cases shore leave passes issued.
REGULATIONS: None unusual, but tankers and especially gas tankers have to apply for a special entry permission through the Agents.
DELAYS: Normally, none.
BANKS: German banks, such as Deutsche Bank, Commerzbank.
EMERGENCY CO-ORDINATION CENTRE: Local Water Police, Tel: 04921-27169/51681.
STORING: See "Prelims", page viii.

1. Yes.
2. Throughout loading operations, except for gas tankers.
3. Mainly yes.
4. Mainly yes.
5. Stores have to be cleared through Customs.
6. Yes.

DEVELOPMENTS:
New Port Development (Dollarthafen): A construction programme has been developed to build a new port basin, including a new lock (380 m.× 62 m.), on the River Ems, called the "Dollarthafen-Projekt". With such a new port basin and entrance it is aimed to take fully laden vessels of 80,000/90,000 d.w.t. with a draft of 45 ft. without lightening. Sizewise, ships of about 250,000 d.w.t. could be accommodated. Building of the project is expected to be started in 1985 – construction period about 10 years. This port expansion will create entire new industrial areas of more than 500 Hectares.

AUTHORITY: Niedersachsisches Hafenamt, Matrosengang, 2970 Emden, West Germany. *Tel:* (04921) 29034/35. *Contact:* Captain W. Kuhn or Captain A. Brinkmann.

AGENT: Johs. Fritzen & Sohn-GmbH, Neptunhaus, PO Box 1552, 2970 Emden, West Germany. Tel: 04921 20011 (day and night). Telex: 27821 Frizn C. Cables: Fritzenagent Emden.

FLENSBURG: 54.48 N. 09.26 E.

PORT LIMITS: The seaward boundary is the line between two special boundary-stones on the West and East side of the port entrance.
DOCUMENTS: 2 crew lists, 2 passenger lists, 2 stores lists (bonded stores), EG cargo lists, bills of lading, general declaration, ship's certificates.
PILOTAGE: Pilot Station Flensburg, Schiffbrucke 12, D-2390 Flensburg, Tel: (0461) 25150. Advance notice 5 hours before arriving Buoy "Flensberger Foerde" by Kiel Radio or Agent (3 hours before leaving port). Pilot boards at Buoy "Flensberger Foerde". Pilot will board in all weather if possible, otherwise pilot-boat will lead vessel to that position where Pilot can board. Not necessary to anchor. Pilot-boat is a fishing-boat with "Lotse" written in white letters on both sides. Boat will show lights prescribed by international regulations and is fitted out with VHF Channels 6, 10, 16, 25, 26, 27.
ANCHORAGES: Just outside harbour entrance, N.E. of Mittelgrund and West of Kielseng leading lights. Depths of water between 12 m. and 19 m. muddy ground; same position for Quarantine Anchorage.
The other anchorage is at Buoy "Flensberger Foerde", depth of water between 20 m. and 27 m. Bottom is mud and sand.
RESTRICTIONS: No specific restrictions; no tide, water-level variations depending only on the wind.
MAX. SIZE: Max. draft up to 7.0 m. at normal water-level.
HEALTH: Generally free pratique for ships in the North Sea and Baltic Sea trade, ships coming from overseas ports pratique granted on arrival. Inform Pilot if any suspected diseases on board. He will make necessary arrangements. A valid Derat Exemption Certificate has to be on board.
RADIO: Kiel Radio, call sign DAO, tel. (0431) 39011, telex 02-0081.
VHF: None in Flensburg Port.
RADAR: There is no Port Radar Service.
TUGS: Harbour tugs are not available. If required, Flensburger Schiffbau-Gesellschaft can supply one tug 470 h.p., provided at least 3 hours notice given, ship's lines are used.
BERTHING: Powerstation-Quay length 170 m. depth of water 7.30 m. Harnis Quay length 460 m. depth of water 6.00 m. Harnis Quay length 240 m., depth of water 7.0 m. Schiffbruck Quay length 210 m. depth of water 6.50 m. Schiffbruck Quay length 130 m., depth of water 5.0 m. Depths of water refer to normal water-level.
CRANES: Powerstation Quay 1 crane 5 tons and 1 crane 10 tons lifting capacity; Harnis Quay 4 cranes 3 – 5 tons lifting capacity; all cranes are usable for general and bulk cargo.
BULK CARGO FACILITIES: 3 elevators for feedstuff.
SPECIALISED CARGO-HANDLING FACILITIES: Not available.
BRIDGES: There are no bridges at Flensburg Port.
STEVEDORES: Agents make all arrangements. Unloading rates depend on type of cargo. Bulk cargo discharge up to 160 t.p.h. per gang.
MEDICAL: Doctors, hospitals, ambulances available day and night.
TANKERS: 2 berths for tankers up to 1,000 g.r.t. with depths of water 5.70 m. and 5.00 m.; diameter of discharge lines are NW 200; average discharge of fuel and gasoil 300 cu.m. per hour.
DENSITY: Winter-time 1015; Summer-time 1012.
FRESH WATER: Available at all berths, delivery rate about 20 cu.m./p.hr. from shore hydrants.
FUEL: Diesel available in any quantity. Fuel oil subject to 5 hours advance notice from tank lorries.
FIRE PRECAUTIONS: No specific precautions.
CONSULS: Denmark, Nordergraben 19; others at Hamburg.
REPAIRS: Flensburger Schiffbau-Gesellschaft carry out all ship repairs; outfit section equipped with one crane of 42 tons lifting capacity.
DRY DOCKS: Two floating docks with 7,500 and 1,500 tons lifting capacity.
SURVEYORS: All main Classification Societies are present at Hamburg.
GANGWAY/DECK WATCHMEN: No watchman service available.
HATCHES: Opening/closing normally done by crew. Stevedores will perform this for additional payment.
CUSTOMS ALLOWANCES: For consumption on board merchant vessels for each crew member and per day 40 cigarettes or 20 whiffs or 10 cigars or 50 grams tobacco *and* 0.25 litre spirits *and* 3 litres wine are duty-free. If the ship stays for 3 days or longer it is usual to allow threefold of the mentioned quantity. For shore leave 20 cigarettes are permitted for each person only. If a crew member leaves the ship for at least 3 days the regulations for tourists are applicable.
CARGO GEAR: All loading and discharging done by shore cranes, except elevator-work.
REPATRIATION: Possible at any time without difficulties.
AIRPORT: Hamburg-Fuhlsbuttel, 175 km. distant; 2.5 hours by train.
TIME: Winter-time GMT plus 1 hour, Summer-time GMT plus 2 hours.
HOLIDAYS: See "Hamburg". No work on official holidays.
POLICE/AMBULANCE/FIRE: Police Tel: 110, Fire/Ambulance Tel: 112.
TELEPHONES: No installation on board ships.
SERVICES: No tank cleaning and slop disposal services. Compass adjusting possible, advance notice necessary.
SHORE LEAVE: Allowed.
IDENTIFICATION CARDS: Not required.
REGULATIONS: No particular or unusual regulations.
DELAYS: Normally no delays.
DEVELOPMENTS: A new quay of 150 m. length and 7.5 m. depth is under construction.
AUTHORITY: Stadtwerke Flensburg GmbH, P.O.Box 2751, Batteriestrasse 48, D-2390 Flensburg. *Tel:* (0461) 487301. *Telex:* 22653 Stawfl. *Contact:* T. Lauritzen, Harbour Master.

GLUCKSTADT: 53.45 N. 09.25 W.

PORT LIMITS: Line drawn between seaward ends of North and South moles.
DOCUMENTS:
Ship's Papers.
Cargo Papers.
Despatching Papers.
Crew Lists.
PILOTAGE: Pilot to be ordered via Agent.
MAX. SIZE: Vessels up to 4.5 m. draft can pass through lock to Inner Harbour.
BERTHING: Outer Harbour: 400 m. quayage, depth 6 m. at HW.
Inner Harbour: 300 m. quayage, depth 4.5 m. at HW.
Dimensions of lock between Outer and Inner Harbours are: Max. depth 5.76 m. HW, width 13.85 m., usable width 12.85 m.
CRANES: 1×14 ton jib crane, 1×18 ton mobile crane, 1×14 ton caterpillar crane, 1×28 ton jib crane (privately owned).
STEVEDORES: Working Hours: Monday to Thursday 0700 – 1200 hrs., 1230 – 1600 hrs. Friday 0700 – 1300 hrs. Overtime to be agreed.
DRYDOCKS: One slipway for inland waterway vessels up to 500 d.w.t.
AIRPORT: Hamburg.
AUTHORITY: Amt fur Land-und Wasswirtschaft Itzehoe, Breitenburger Strasse 25, 2210 Itzehoe. *Tel:* 04821-660 662138. *Telex:* 28226 Alwitzd. *Contact:* Harbour Master, Hafenamt Gluckstadt, 2208 Gluckstadt. *Tel:* 04124-2087.

HAMBURG: 53.33 N. 09.59 E. (including Altona, Harburg and Wilhelmsburg) (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
2 Provisions and Stores Lists including Fuel Oil.
3 Dangerous Cargo Lists.
Health Certificates (forms obtainable from Pilot).
General Cargo Declaration.
Ship's Register.
Oil Liability Certificate for more than 2,000 tons of oil.
DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg" and "General" before first German port.
PILOTAGE:
Pilotage-Anchorage River Elbe: See "General" before first German port.
Pilotage Port of Hamburg: Harbour Pilots board the ships close to the Seemannshoft Station. Harbour Pilots can be called by VHF, Channel 9, call "Hamburg Pilot", morse or sound signal "G" (2 long and 1 short) or flag "G". Pilotage is compulsory for vessels with dangerous cargo and over 1,000 g.r.t.
Exceptions: Pilotage is not compulsory for vessels with dangerous cargo up to 300 g.r.t. and vessels up to 5,000 g.r.t., if: (1) the Master has called the Port of Hamburg with his ship 6 times within the last 12 months, and (2) he speaks German fluently. Advisable to use Pilots in port.
ANCHORAGE: Available at several places between Elbe 1 and Hamburg. See "General" before first German port.
RESTRICTIONS: No restrictions imposed on night entry for any vessels.
MAX. SIZE: *Inward Bound:* Vessels allowed draft of max. 45 ft. in saltwater on arrival Elbe 1 Lightvessel, may enter only on rising tide under normal weather and tide conditions.
Container ships exceeding 37 ft. draft in salt water on arrival Elbe 1 Lightvessel may enter only on rising tide.
Outward Bound: Vessels up to 35 ft. draft in fresh water on departure from Hamburg may leave at any time.
Vessels exceeding 35 ft. draft in fresh water and up to 38 ft. on departure from Hamburg-Finkerwerder Port Pilot Station may leave 1 hour after low water until 2 hours before next following high water.
Container ships up to 38 ft. draft in fresh water on departure from Hamburg may leave at any time.
Container ships exceeding 38 ft. draft in fresh water and up to 41 ft. on departure from Hamburg-Finkerwerder port pilot station may leave 1 hour to 2 hours after low water, but required to anchor at Brunsbuttel N.E. anchorage depending on tide.
Inward Bound: Vessels exceeding 300 m. length or 45 m. breadth allowed draft to max. 41 ft. in salt water on arrival Elbe 1 Lightvessel, may enter only on rising tide.
Outward Bound: Vessels allowed draft to max. 35 ft. in fresh water on departure from Hamburg-Finkerwerder port pilot station may leave 1 hour after low water until 2 hours before next following high water. Keel clearance of 10% of draft required.

Vessels demanding the rising tide will proceed according to tidal conditions in order to reach Finkerwerder Pilot Station 1 – 1.5 hours before high water.

The following Harbours can be reached:

Harbour Name	*Max. draft subject to tide and berth (ft.)*	*At any time up to (ft.)*
Dradenau Hafen	36	33
Petroleum Hafen	27 – 31	24 – 28
Griesenwerder Hafen	30 – 31	27 – 28
Waltershofer Hafen	32 – 40	29 – 37
Kuhwerder Hafen	30 – 35	27 – 32
Obere Hafen	20 – 37	18 – 29
Rethe Neuhof HGL	40	37
Kattwyk Hafen	40	37
Neuhofer Hafen	39	36
Rethe Hansamatex	30 – 34	27 – 31
Rethe Kruse	37	34
Rethe Mackprang	37	34
Rethe Stroh	35	32
Schluisgrove Hafen	33	30
Hansaport	40	37
Harburg Seehafen 4	25 – 28	22 – 25
Harburg Seehafen 3	28	25
Harburg Seehafen 2	32 – 34	29 – 31
Harburg Seehafen 1	24 – 28	21 – 25
Kraftwerk Wedel	32 – 42.5	32
Blumensandhafen	40	37

The maximum draft is dependent on the prevailing Easterly or Westerly winds.

Also see "Shipmaster's Report".

REPORT: October 1984.

The following salt water drafts are permitted:

46 ft. 00 in. S.W., for vessels up to 300 m. LOA and/or 45 m. beam.
44 ft. 06 in. S.W., for vessels up to 315 m. LOA and/or 47 m. beam.
43 ft. 06 in. S.W., for vessels up to 330 m. LOA and/or 49 m. beam.
42 ft. 06 in. S.W., for vessels up to 345 m. LOA and/or 54 m. beam.
41 ft. 06 in. S.W., for vessels up to 360 m. LOA and/or 63 m. beam.

BULK HANDLING FACILITIES:

Grain	*Draft*	*Maximum Length*	*Number of elevators*	*Capacity total/hour*
Hamburg-Kuhwerder Hafen	36 ft.	656 ft.	4	900 tons
Hamburg-Rethe/Stroh	40 ft.	886 ft.	3	1,000 tons
Hamburg-Rethe/Kruse	42 ft.	820 ft.	3	900 tons
Hamburg-Rethe/Makprang	42 ft.	886 ft.	11	1,300 tons
Hamburg-Neuhof	43 ft.	902 ft.	4	1,300 tons

There are 11 floating elevators with a capacity of 350/450 t.p.h.

	Quay length (ft.)	*Max. safe draft (F.W.)*	*Max. height discharging gear above high water level (ft.)*
Coal and Minerals:			
Hamburg-Harburg II	1,720	40 ft.	66
Elbehafen Brunsbuttelkoog Gmbh	1,968	37 ft.	98
Coal:			
Hamburg-Strandhafen	560	36 ft. 6 in.	No restriction
Hamburg-Wedel	1,050	42 ft. 6 in.	No restriction
Fertilisers:			
Neuhof-Kalikai	1,215	40 ft.	60
Minerals:			
Hamburger-Stahlwerke	1,340	40 ft.	82
Hansaport	1,850	45 ft.	No restriction
Petcoke/Oxide:			
Hamburger Aluminium Werk Gmbh	600	36 ft.	No restrictions
Bauxite/Oxide:			
Aluminium Oxid Stad Gmbh (AOS)	1,080	43 ft.	62

ETA: Master's telegrams via Norddeich Radio, call sign DAN, are passed on to Agent 24 hours a day, week-ends and holidays inclusive. For this reason it is advisable that Masters communicate with Agent via Norddeich Radio.

In order to avoid delay and extra charges Masters should cable their ETA at least 12 hours prior to arrival at pilot station Elbe I to "Elbelotse Brunsbutelkoog" via Norddeich Radio, stating the following details:

1. Name of vessel.
2. Gross register tons.
3. Date (2 figures).
4. Time (4 figures).
5. Place where Pilot is required.
6. Place of destination.
7. Draft in metres (4 figures).

For example:

Eta Fjordaas	41079	12	1600	Elbeone	Hamburg	1214
(1)	(2)	(3)	(4)	(5)	(6)	(7)

1 hour before arrival at Elbe I lightvessel Masters are advised to contact the pilot cutter by VHF Channel 13 or 16.

BRIDGES: To be passed by vessels bound for basins South of Kohlbrand.

Bridge	*Situated*	*Max. breadth (ft.)*	*Height above normal H.T. (ft.)*	*Depth at normal H.T. (ft.)*
Kohlbrand Brucke (a high-bridge)	across the Kohlbrand near Neuhof	558	175.5	48
Kattwyk Brucke (a drawbridge)	across the Suder Elbe, before Harburg	328	168	43.6
Rethe Brucke (a drawbridge)	across the Rethe, near Reiherstieg	164	130.3	41

HEALTH: Master required complete health certificate when Pilot boards. Only vessels with infectious diseases are subject to detention.

RADIO: All messages to Agents, etc., through Norddeich Radio, call sign "DAN". Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships reporting stations are on permanent duty:

Cuxhaven: Call "Cuxhaven Elbe Port Radio" on VHF Channel 12, safety and calling Channel 16.

Brunsbuttel: Call "Brunsbuttel Elbe Port Radio" on VHF Channel 14, safety and calling Channel 16.

Stadersand: Call "Stadersand Elbe Port Radio" on VHF Channel 11, safety and calling Channel 16.

Hamburg: Call "Hamburg Elbe Port Radio" on VHF Channel 12, safety and calling Channel 16.

Hamburg Port Radio (Port Authority): VHF Channel 14 and 16.

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port.

Hamburg Radar Service "Hamburg Radar Radio", VHF Channels 3 + 19 at the lower end of Seemannshoeft, VHF Channels 80 + 7 at the Western and Southern part of harbour, VHF Channels 63 + 5 at upper part East of Koehlbrand.

TUGS: Normally join incoming vessels at Harbour pilot station at Finkerwerder. Vessels' lines usually used. If tugs lines required, an extra charge is made.

STEVEDORES: Ordered by Agents, no additional ETA's required.

Working hours

Monday to Friday	First shift 0650 to 1500 hrs. Second shift 1500 to 2310 hrs. Third shift 2310 to 0650 hrs.
Saturdays, Sundays and holidays	First shift 0700 to 1300 hrs. Second shift 1300 to 1900 hrs. Third shift 1900 to 0100 hrs. Fourth shift 0100 to 0700 hrs.

Work performed after 1500 hrs. Monday to Friday, on Saturdays after 1300 hrs., on Sundays and holidays is at overtime rates.

CONTAINER HANDLING FACILITIES:

	Burchardkai	*Tollerort Terminal (SHED 90/91)*	*Africa Terminal*	*Euro-Kai KG aA Griesenw. Damm*	*Unikai (SHED 73)*	*Unikai (SHED 75 and 77)*

TANKERS:

	No. of berths	*Max. Draft (FW)*
Kohlfleethafen (Esso/B.P.)	2	43 ft.
Petroleumhafen (B.P.)	10	36 ft.
Kattwyk Hafen (Shell)	2	44 ft.
Kattwyk Hafen (Petronord)	1	44 ft.
Blumensandshafen	1	44 ft.
Neuhof (Hansamatex)	4	35–43 ft.
Neuhof (Schindler)	1	36 ft.
Harburg Seehafen 4 (Esso)	2	34 ft.
Tankerlager Moorburg	1	40 ft.
Stadersand (Lower Elbe)	1	35 ft.

Tanker cleaning and gas freeing facilities at Neuhof Hansamatex, Kattwyk Hafen (Shell) and some dolphin berths by boats.

DENSITY: Fresh water.

FRESH WATER: Available from shore at most berths. Also supplied by barge.

FUEL: All grades available from oil berths, or supplied by barge.

WATCHMEN: Can be hired for all purposes. Normally arranged by Agent.

OPENING/CLOSING HATCHES: Normally by crew with the assistance of stevedores; otherwise, according to charter party.

CUSTOMS ALLOWANCES: No restrictions in the freeport area on board a ship. While not on board the ship in the freeport area or outside the freeport during shore leave or temporary leaving the ship up to 3 days, each Crew member allowed 20 cigarettes, 5 cigars and 50 grams tobacco. These quantities change when paying off – up to 200 cigarettes or 50 cigars or 250 grams tobacco.

REPAIRS: All deck, hull and machinery repairs can be carried out by local shipyards at Hamburg. Underwater repairs and cleaning can be effected by divers with special equipment.

DRY DOCKS: *Blohm and Voss,* tel. 3061: 6 floating docks with lifting capacities up to 50,000 tons. Graving dock, capacity up to 320,000 d.w.t.

Howaldtswerke Deutsche Werft, tel. 7411: 9 floating docks, with lifting capacities up to 53,000 tons.

Norderweft, tel. 311001: 2 docks, for vessels up to 4,000 tons d.w.t. and slipway for vessels up to 60 m. length.

There are other slipyards providing floating docks with lifting capacities of up to 5,000 tons.

SURVEYORS: Cargo inspectors available, contact Agent.

Lloyd's Register, American Bureau, Bureau Veritas and Salvage Association are represented.

REPATRIATION: Crew changes and repatriation can be carried out without difficulty.

AIRPORT: Distance 15 km., served by Lufthansa with flights worldwide.

TIME: GMT plus 1 hour. There is summertime from 28th March (0300 hrs.) until 26th September (0300 hrs.) – GMT plus 2 hours (1982).

HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; National Day (June 17th); Prayer Day; Christmas Day; Boxing Day. No work on New Year's Day, Easter Sunday, May 1st, Whit Sunday and Christmas Day.

POLICE/FIRE/AMBULANCE: Police 110; Fire 112; Ambulance 110; Port Medical Service 321021 (or call Hamburg Port Radio on VHF hannel 14).

TELEPHONES: Telephones can be placed onboard at all berths. No telephone connections for vessels at dolphins.

EMERGENCY CO-ORDINATION: Call Police (Tel: 110) or Hamburg Port Radio on VHF Channel 14.

BANKS: Deutsche Bank, Adolphsplatz 7, 2000 Hamburg 11. Tel: 040-3771. Telegraphic Address: Deutbank Hamburg. Telex: 212535.

Commerz-Bank AG, Ness 7, 2000 Hamburg 7. Tel: 040-361311. Telegraphic Address: Commerzbank Hamburg. Telex: 212391.

Dresdner Bank AG, Jungfernstieg 22, 2000 Hamburg 36. Tel: 040-3581. Telegraphic Address: Dreba Hamburg. Telex: 212098.

And others.

STORING: See "Prelims" page viii.

1. Vessels can be stored by barge or truck.
2. Vessels can store from barge during loading or discharging, except on tanker berths.
3. The truck can proceed alongside at the berths.
4. Fork lift trucks can be used for handling stores.
5. No Customs regulations in the Freeport area, outside the Freeport arranged by Agent.
6. Local riggers can be employed, arranged by Agent or ship chandler.

SHORE LEAVE: No restriction.

IDENTIFICATION CARDS: No shore passes issued. Seaman's Book or Passport is sufficient.

DEVELOPMENTS: Silo capacity for bulk cargo handled by pneumatic elevators is increased up to 500,000 tons at deep water. Capacity of further 500,000 tons is available. Maximum depth for bulk cargo vessels 40 ft. – 44 ft. See "Max. Size".

Dredging of the Lower Elbe to 13.5 m. at mean low tide completed.

Port Extension Area. An industrial port area of 4,600 ha. with access for large sea-going vessels up to 120,000 d.w.t. is under development.

Hansaport: The new ore/coal terminal at Sandauhafen (operational from 1977) has a capacity of 15 millions tons p.a. Length of the two berths: 560 m; depth of water: 15 m. (MLW). Vessels up to 270,000 d.w.t. (partially lightened) will be able to berth.

SHIPMASTER'S REPORT: 1978.

Recently vessel called at Hamburg to load a full load of steel beams for Iran under Time Charter. Originally charterers had asked me to calculate the full load with maximum S.W. draft of 38 ft. 00.875 in. with 10.5 in. F.W.A. and the weight came to more than 39,000 long tons. But later when we arrived at Hamburg, while checking with Port Authorities it was learnt that though vessels are allowed to come in with 42 ft. – 43 ft. drafts fresh water, no vessels excepting, at times fast container vessels are allowed draft more than 36 ft. fresh water. This is generally not known to many operators even in Hamburg.

AUTHORITY: Freie und Hansestadt Hamburg, Behorde fur Wirtschaft, Verkehr und Landwirtschaft.

AGENT: Wm. H. Muller & Co., (Deutschland) G.m.b.H., Monckebergstrasse 31, D-2000 Hamburg 1. Tel. (040) 33.54.76. Telegrams "Batavier". Telex 2162926.

HOLTENAU, Kiel Canal: 54.22 N. 10.09 E.

(See Plan Book)

For entrance from Baltic, refer to "Kiel".

For entrance from Elbe, refer to "Brunsbuttel".

LOCATION: Holtenau is a part of the town of Kiel, it is located on the Northern side of the entrance to the Kiel Canal.

BERTHING: The outer harbour of Kiel-Holtenau (Lat. 54° 22.2′ N. Long. 10° 09.2′ E.) in the N.E. part of the old lock fore port, with water depths of 3.5 to 4.5 m. and 280 m. long quay location serves vessels up to 3.5 m. draft, 85 m. long and 13 m. beam as a berthing point. At the quay not more than 3 ships with a total beam of 28 m. can lie next to each other. To the West of this, is a 125 m. long berthing pier, known as Kumobrucke, with 4.5 m. draft alongside for vessels up to 3 m. draft, 40 m. long and 8.5 m. beam. No more than 2 vessels may lie alongside each other.

Between this pier and the shore is a yacht harbour for pleasure craft.

The inner harbour, to the East of the Holtenau Road-bridge, can only be reached through the lock of the Kiel Canal. From the berths in the inner harbour, vessels may not enter the locks without a Pilot if they are obliged to take on a Pilot for the Kiel Canal.

The Gasworks quay, just to the West of the New Locks, has a length of approx. 210 m. and a nominal depth of 10.4 m. The quay has cranes with a lifting capacity up to 8.5 tons. Vessels up to 160 m. in length and up to 9.7 m. draft can tie up at the Gasworks quay. To the West of it, is an approx. 94 m. long quay with piers for Wik-Holtenau passenger ferries.

To the East of the Holtenau Road-bridge is an approx. 536 m. long quay belonging to Zerssen and Co. This location is used mainly for fitting out and bunkering of vessels. On the North side of the inner harbour ships with dimensions permissible for the Kiel Canal can tie up at the dolphins but only with special permission of the Kiel Canal Authority.

SERVICES: In Holtenau are a Service Station of the German Hydrographic Institute, a pilot station, a border police station, a water police station, Customs control, Port Doctor, Sailors' Central Control, Sailors' engagement office, and a sailors' hostel.

An office for marine charts and nautical publications is located at the lock; good facilities exist for the quick supply of ships' equipment, victuals and fuels. Repairs to machinery installations, radar and wireless apparatus, supply of spare parts, and also the exchange of crews can be arranged without long voyage delay virtually whilst a vessel is passing through the canal. Shipbrokers' services are available.

AUTHORITY: Wasser-und Schiffahrtsamt Kiel-Holtenau, Schleuseninsel 2, P.O.Box 8068, 2300 Kiel 17. *Tel:* (0431) 385-1. *Telex:* 02-92836.

ITZEHOE: 53.56 N. 09.33 E. (See Plan Book)

DOCUMENTS:
2 Bonded Stores Lists
2 Crew Manifests
2 Crew Lists

PILOTAGE: Pilot available. Pilot boards at the entrance to the River Stor.

RESTRICTIONS: Entering River Stor at HW only. Proceeding to Itzehoe during daylight only. Departure from Itzehoe about 1 hour prior to HW.

MAX. SIZE: Length: 60 m. due to bends in river. Beam 12 m. Airdraft 18.50 m. due to height of Storbridges. Draft 3.80 m.

RADIO/VHF: Elbe Weser Radio on VHF Channel 16.

RADAR: *Radar Chain River Elbe:*
From "Elbe 1" Light-vessel to entrance River Stor:
Elbe – Ansteuerung-Radar VHF Channel 19
Neuwerk – 1-Radar VHF Channel 18
Neuwerk – 2-Radar VHF Channel 5
Cuxhaven – Radar VHF Channel 21
Belum – Radar VHF Channel 3
Brunsbuttel – Radar VHF Channel 4
Freiburg – 1-Radar VHF Channel 18
Freiburg – 2-Radar VHF Channel 22

Also see "General" before first port.

BERTHING: Total length: 450 m.

Depth alongside: At HW 4m.; at LW 1.90 m. (tidal range 2.10 m.). Bottom consists of soft mud.

CRANES: 2×3.5 tons lifting capacity and about 13 m. outreach and 1×5 tons lifting capacity and 12.5 m. outreach are available.

BULK HANDLING FACILITIES: *Grain:*

Loading: By 1 elevator-pipe about 80 t.p.h. for heavy grain. By conveyor-belt about 40 – 50 t.p.h. for heavy grain.

Discharging: By 1 suction with elevator pipe about 35 – 40 t.p.h. heavy grain. By grab/conveyor-belt 50 – 60 t.p.h. heavy grain.

Grain silos of 35,000 tons capacity.

MEDICAL: Medical, hospital and dental facilities available.

DENSITY: Fresh water.

FRESH WATER: Available.

FUEL: All grades available by road tanker.

REPAIRS: Radio, radar, nautical equipment, engine, electrical and minor hull repairs possible.

SURVEYORS: Caleb Brett and SGS available from Hamburg.

Independent Marine Surveyors available at Brunsbuttel and Hamburg.

CUSTOMS ALLOWANCES: Customs allow each crew member 200 cigarettes and 1 bottle of spirits for consumption onboard.

OPENING/CLOSING HATCHES: Usually by crew.

REPATRIATION: Possible.

AIRPORT: Nearest airport at Hamburg.

TIME: GMT plus 1 hour. GMT plus 2 hours in Summer.

HOLIDAYS: 1st January, Good Friday, Easter Monday, 1st May, Ascension Day, Whit Monday, 17th June, Prayers Day, 25th/26 December.

POLICE/AMBULANCE/FIRE: Police Tel: 110. Fire and Ambulance Tel: 112.

SERVICES: Provisions, stores, nautical publications and charts available.

AUTHORITY: Hafenbehorde, Hafenamt der Stadt Itzehoe, Postfach 308, D-2210 Itzehoe, West Germany.

AGENT: Sartori & Berger, P.O.Box 1140, 2212 Brunsbuttel. Tel: (04852) 8091. Cables: Sartoriberg Brunsbuttel. Telex: 028324.

KIEL: 54.19 N. 10.10 E. (See Plan Book)

DOCUMENTS:
Stores List.
Bills of Lading.
Manifest.
Crew List.
Health Declaration.
Derat. Certificate.
If loading/unloading cargo, following also required:
Ship's Stores List.
Crew Possessions List.
Cargo Manifest.
Bills of Lading.
Customs Declaration.

Local Agents will advise Master on board regarding these Clearance Documents.

PILOTAGE: For Kieler Forde, vessels over 1,000 g.r.t. and oil-, gas- and chemical tankers must take a Pilot.

Vessels proceeding in the approach area or through the Kiel Canal are obliged to take on a Pilot.

Vessels and push-type trains, as well as tug trains, having the greatest possible max. draft of 3.1 m. and belonging to traffic group 1 are exempted from the obligatory pilot service. Vessels which must take on a canal Pilot are those with a beam exceeding 15 m. or whose gross register tonnage is more than 2,500 tons. Pilot station, tel. 362858. ETA required in advance. Pilot boat can be found near Kiel Lighthouse and also off the entrance to Kiel Canal. Pilot boats are yellow with "Lotse" painted on both sides. Signal for Pilot is flag "G" over numeral pennant 1. Pilots for Kiel Harbour also available and recommended if port is not familiar. Also see "Shipmaster's Report".

ANCHORAGE: Safe anchorages at Holtenau-Reede and at Heikendorf-Reede for vessels up to 9.7 m. draft.

RESTRICTIONS: Non gas-free tankers must give advance notice of arrival and will require chemist's certificate before entering harbour area.

Speed limit 10 knots South of line Bulk/Ehrenmal Laboe. Also see "Shipmaster's Report".

MAX. SIZE: For Nordhafen and ships passing Canal, 235 m. length, 32.5 m. beam and 40 m. above the water level. For vessels up to 160 m. in length, the max. permitted draft is 9.5 m. In the case of vessels with length in excess of 160 m. and over 20 m. breadth, the max. permissible draft are shown in the following table (draft data in dm.).

Vessel Length (m.)	*Vessel's Breadth (m.)* 20	21	22	23	24	25	26	27	28	29	30	31	32	32.5
	Max. permissible draft (dm)

Depth at harbour quays: Binnenhafen 10 m.; Scheerhafen 10.30 m. Bulk carrier of 35,000 d.w.t. draft 35 ft. has discharged at Scheerhafen.

HEALTH: If suspected infectious disease on board, inform harbour authorities by radio in advance.

RADIO: Kiel Radio, call sign DAO. Tel. 39011.

VHF: Kiel Port radio on continuous watch during office hours on Channel 16, working on Channel 11.

TUGS: If required tugs normally join vessel just off berth. Can be ordered by Kiel Radio or through Agents.

BERTHING: No particular restrictions except for vessels in distress, or carrying explosives or tankers not gas-free. In these cases special permission of Harbour Authorities required for berthing.

Binnenhafen: Length of quay 2,500 m. Depths up to 10 m. 4 cranes with capacity up to 24 tons, also 2 mobile cranes 12 tons and 45 tons.

There is a mobile Roll-on/Roll-off bridge, 18 m. wide. Max. axle pressure 70 tons and 3 berths with immovable ramps for Ro/Ro transhipment.

At Sartori-Kai there is a silo with a capacity of 16,000 tons, and at mouth of the River Schwentine another with capacity of 17,000 tons and discharge rate of 80 t.p.h.

Oslo-Kai: The terminal is for the exclusive use of passenger and car ferries. Depth of water 7.5 m.

Schweden-Kai: The terminal is for exclusive use of passenger and car ferries.

Scheerhafen: Length of quay 300 m. Depth 10.3 m. There are 2 modern high capacity cranes capable of lifting up to 10 tons. There is also a privately owned tanker unloading facility with storage capacity of about 70,000 cu. m. and facilities for receiving dirty ballast.

Nordhafen: Situated in the Kiel Canal. Length of quay 2,000 m. depth 11 m. Facilities available include a floating Roll-on/Roll-off bridge with permissible axle pressure of 60 tons, 6 cranes with capacities up to 25 tons, a 70,000 ton silo with drying capacity of 70 t.p.h. and 2 elevators each with capacity 125 t.p.h. 1 mobile crane 40 tons.

MEDICAL: Doctors, hospitals, ambulances available. Advance notice to Agents recommended if medical assistance required. Vessels coming from European ports need Derat Certificate. Vessels from other ports need in addition International Vaccination Certificates.

For all cases of poisoning needing special and urgent treatment telephone 597 3268, Medical University Clinic, Schittenhelmstrasse.

TANKERS: Unloading/Loading/Bunkering berths operated by private companies; slop discharge facilities available.

FRESH WATER: Available at all quays.

FUEL: All grades available. Preferable to order in advance through Agents.

FIRE PRECAUTIONS: Tankers should be prepared to leave port at any time. To be berthed with bow heading seaward. A valid Gas-free Certificate given by chemist in Kiel district is required before entering harbour area.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally by ship's crew. Can be arranged by stevedores if required.

CUSTOMS ALLOWANCES: 20 cigarettes per man per day. No alcohol.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	tel. 75079	Netherlands	tel. 3017235
Chile	tel. 30932	Norway	tel. 706600
Finland	tel. 3011601	Panama	tel. 51296
Liberia	tel. 63060	Sweden	tel. 3017/235

REPAIRS: All types of repairs possible.

DRY DOCKS: *Floating Docks.* No. 1, 1,500 tons; No. 2, 22,500 tons; No. 4, 6,000 tons; No. 9, 6,000 tons; No. 20, 1,700 tons.

Dry Docks: No. 5, 794 ft. long, 95 ft. wide; No. 6, 661 ft. long, 95 ft. wide; No. 7, 1,018 ft. long, 164 ft. wide; No. 8, 951 ft. long, 144 ft. wide. No. 8A, 1,395 ft. long, 292 ft. wide.

REPATRIATION: No restrictions. Can also be arranged in the locks of Kiel Canal by local Agents. Valid passports required.

AIRPORT: At Kiel, local flights to Hamburg. Nearest international airport at Hamburg, about 100 km. away.

TIME: GMT plus 1 hour. Summertime plus 2 hours.

HOLIDAYS: New Year's Day, Good Friday, Easter (2 days), Ascension Day, Whitsun (2 days), 17th June, Atonement Day, Christmas (2 days). Work can be arranged on above holidays except Good Friday and Christmas Eve.

POLICE/FIRE/AMBULANCE: Police, tel. 110, alternatively 51171; Ambulance, tel. 44112, alternatively 61036; Fire, tel. 112.

TELEPHONES: Installed on wharves and Oslo quay (ferries to Scandinavia). Public phones near quays.

SERVICES: All services available.

SHORE LEAVE: Allowed.

GENERAL: *Garbage/Sewage Removal:* Container for discharging of garbage must be taken. Barges for discharging of sewage/slops and bilge water are availabe.

SHIPMASTER'S REPORT: 1980.

"KIEL PILOTS" can be contacted on VHF Channel 16 and Channel 14, 2 hours before arriving at Kiel Lighthouse, for a Pilot for Kiel Harbour.

For vessels intending to transit the canal, send a message at least 3 hours in advance to "FORDE LOTSE" – KIEL by radio giving ETA, draft, g.r.t. and destination. Any request to arrange a Pilot at the other end of the canal may also be included in the message.

The maximum air draft allowed in the canal is 40 m. (from water line to highest point of the ship).

AUTHORITY: Hafenkapitan, Hafenamt der Stadt Kiel and Hafen und Verkehrsbetriebe der Stadt Kiel, Bollhornkai I, P.O. Box 2367, D 2300 Kiel 1. *Tel:* 901 1073. *Telex:* 292511 HVBKI D.

Wasser-und Schiffahrtsamt Kiel-Holtenau, P.O.Box 8068, 2300 Kiel 17. *Tel:* (0431) 385-1. *Telex:* 02-92836.

KIEL CANAL: (See Plan Book)

For entrance from Baltic, refer to "Kiel".
For entrance from Elbe, refer to "Brunsbuttel".

RADIO: Advise ETA at Elbe I Lightvessel (or Kiel Lighthouse). Confirm ETA 12 hours before arrival at Pilot Station.

VHF: Approaching from the Baltic Sea, Kiel Radio listens on Channel 16 VHF and will notify the Kiel Pilot.

GENERAL:

Additional information required prior to Kiel Canal transit: As a result of security regulations which became effective in 1978, the following regulations issued by the competent Authorities must be complied with when transiting the Kiel Canal.

Vessels which are potentially dangerous, which include pushing and towing units, carrying material listed in the special material list in bulk (see "Wilhelmshaven"), or after discharging mineral oil or petroleum products with a flash point below 35°C and still not gasfree or inert, including Reactor vessels, must report as follows:

1. Coming from the North Sea or from a port within the River Elbe District.

24 hours before entering the River Elbe, in writing, at the latest after clearing the last port:

(a) to the Wasser-und Schiffahrtsamt (Cuxhaven),
Deichstrasse, 2190 Cuxhaven. Telex: 232154.

And additionally when transiting the Kiel Canal:

(b) to the Wasser-und Schiffahrtsamt Kiel-Holtenau,
Aussenstelle Kiel-Holtenau, (KA),
Schleuseninsel, 2300 Kiel 17. Telex: 292836.

With the following information:

1. Name and Call Sign of vessel.
2. Nationality of vessel.
3. Overall length and draft of vessel.
4. Port of departure and destination port.
5. Details and quantity of cargo with particulars of the stated dangerous cargo according to the special material list.
6. If chemicals are carried, a declaration that the vessel is in possession of a certificate as required by the IMO code for Chemical Tankers as "New Ship".
7. A declaration of any known defect in the vessel or its cargo.
8. Name of the Owners of the vessel.

2. Coming from the Baltic Sea

24 hours before entering Kiel Bay, in writing, at the latest after clearing the last port:

To the Wasser-und Schiffahrtsamt Kiel-Holtenau,
Aussenstelle, Kiel-Holtenau (KA)
Schleuseninsel, 2300 Kiel 17 – Telex 292836

giving the same information as required in 1. above for vessels entering the River Elbe.

3. Coming from a port within the Kiel Canal Range

Reports as per 1. and 2. have to be given.

To conform with the pilotage regulations for Kiel Bay and the River Elbe, the above mentioned vessels which are potentially dangerous are obliged to engage the services of a Pilot.

Further instructions are in force for above mentioned vessels when navigating within the River Elbe and Kiel Bay, as well as when transiting the Kiel Canal, or passing certain points. Pilots will advise the Masters of vessels of the relevant regulations and assist.

Potentially dangerous sea-going vessels of up to 300 g.r.t. and inland water-craft will be exempted from the requirement to take a Pilot if:

(a) they are fitted with an operational radar set ready for use in addition to VHF radio with Channels 12, 14, 15 and 22.

(b) the Master on board has made at least 6 voyages within the last 12 months through the pilotage district.

AUTHORITY: Wasser-und Schiffahrtsamt Kiel-Holtenau, Schleuse, 2300 Kiel 17. *Tel:* (0431) 385-1. *Telex:* 02-92836.

LUBECK (including Travemunde): 53.52 N. 10.40 E. (See Plan Book)

DOCUMENTS:

2 Crew Lists.
1 General Declaration for Arrival and Departure.
1 Health Declaration.
2 Cargo Manifests.
2 Stores Lists.
1 Ship's Particulars form.
Crew Manifest.
Bills of Lading.
Customs Declaration.
Derat Certificate.

PILOTAGE: Compulsory for vessels over 300 g.r.t. Pilot station situated at Travemunde, near foot of Nordermole. Pilots board vessels in anchorage area. International signals used by Pilots and by vessels requiring a Pilot. Contact by VHF Channel 13 and 20.

RESTRICTIONS: Channel from Lubeck "A" buoy to Stadthafen is well lit and navigable by vessels fitted with radar in all weathers.

Depths: from "A" buoy to Travemunde (Nordermole) 10.5 m.; from Nordermole to Siechenbucht, 10 m.; channel to NWK power station, 9.5 m.; channel to Stadthafen 9.5 m. The river Trave narrows from 130 m. at seaward end to 90 m. at Stadthafen.

MAX. SIZE: Dependent on berth depth and approaches. Vessels up to 15,000 d.w.t. can reach Stadthafen. Also see "Restrictions".

HEALTH: Radio pratique possible. Pilot will ask Master to complete Health Declaration.

RADIO: Lubeck Radio, VHF Channel 27. Harbour Radio service used by Pilots, tugs, and other vessels.

TUGS: At Stadhafen vessels over 1,600 B.R.T. require 1 tug and vessels over 2,500 B.R.T. require 2 tugs.

BERTHING:

Travemunde: Passenger ferry harbour. North side river berths I and II, 7.5 m. depth; Kaiserbrucke, 100 m. length, 9.0 m. depth; Ostpreussen, 190 m. length, 7.0 m. depth; Priwall (South side), 180 m. length, 5 m. depth. 7 berths for Roll-on/Roll-off and passenger traffic each 140 m. – 220 m. length, 7 m. – 9.5 m. depth.

1 berth with railway connection. (Berth No. 6.)

Industriehafen: Depth alongside, 7.8 m.

N.W.K. Power Station: Depth alongside, 9.5 m.

Stadthafen: 27 km. from sea. Total length of quays 7.6 km. The harbour depth is 6 m. – 9.5 m.

Elbe Lubeck Canal: Navigable by barges up to 1,200 tons.

CRANES: 1 – 200 ton floating crane, 1 – 40 ton, 1 – 25 ton, 1 – 12 ton, also 3 ton cranes.

BRIDGE: Herrenbrucke is 56 m. wide and 22 m. above water level. Can be opened for vessels requiring higher clearance.

MEDICAL: All facilities available. Hospital near docks at Travemunde, and at Lubeck.

TANKERS: Two berths, length 150 m. Max. draft 8 m. and 8.5 m.

FRESH WATER: Available by barge at any location.

FUEL: Gas oil by barge, fuel at berth at Scandinavia Kaj in Travemunde.

CONSULS: Denmark, Norway, Austria, Sweden, Iceland and Finland.

REPAIRS: Several shipyards available for deck and engine repairs.

DRY DOCKS: Floating docks for vessels up to 13,500 tons (45,000 tonnes d.w.t.).

SURVEYORS: Addresses of inspectors and classification society representatives can be obtained from the Chamber of Commerce and Industry at Breite Strasse 6 – 8, Lubeck.

Germanischer Lloyd, Schwartauer Allee 84a.

OPENING/CLOSING HATCHES: By crew.

REPATRIATION: All facilities available.

AIRPORT: Hamburg, 1.5 hours by bus or train.

TIME: GMT plus 1 hour.

HOLIDAYS: 1st January, Good Friday, Easter Sunday, Easter Monday, 1st May, Ascension Day, Whit Sunday, Whit Monday, 17th June, Atonement Day, Christmas Day, Boxing Day.

POLICE: Lubeck River Police, tel. 3 34 40; Travemunde River Police, tel. 74141.

BANKS: *Lubeck:* Commerzbank, Breite Strasse 52/54. Dresdner Bank, Breite Strasse 83/87. Handelsbank in Lubeck, Kohlmarkt 7 – 15. Deutsche Bank, Sandstrasse 11 – 15.

Lubeck-Travemunde: Commerzbank, Vorderreihe 50. Deutsche Bank, Vorderreihe 35. Handelsbank in Lubeck, Vorderreihe 62.

STORING: See "Prelims", page viii.

1. Vessels can be provisioned by lighters and lorries at all berths.
2. No limitation of time for provisioning.
3. Lorries can go right alongside vessels, provided the loading and unloading operations permit.
4. At virtually all berths (with exception of the Wood Pier at Lubeck-Travemunde) fork lifts can be used.
5. Customs procedure as in all German ports.
6. There is always the possibility of obtaining riggers.

TELEPHONES: Ship telephone connections at ro/ro berths.

SHORE LEAVE: Allowed.

AUTHORITY: Hafen und Seemannsamt, Hafenkapitan, (Port Captain), An der Untertrave 107, Lubeck. *Tel:* 0451 – 12 – 23600. *Telex:* 026893 Hllueb D.

NORDENHAM: 53.29 N. 08.29 E. (See also Bremen and Bremerhaven) (See Plan Book)

DOCUMENTS:

Cargo Papers & Ship's Certificate.	2 Personal Manifests.
1 Stores List.	Derat Certificate.
3 Crew Lists.	

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: Pilot boards off the Weser Light Vessel. Docking Pilot will board off Bremerhaven.

ANCHORAGE: Sea anchorage off Weser Lightvessel or the Hoheweg Light. Max. draft 30 ft. River anchorage for vessels with a draft of 20 ft. off Blexen, 1 mile above Bremerhaven.

RESTRICTIONS: No restriction on night entry except vessels with a length exceeding 260 m. and a draft of 38 ft. Vessels with a draft exceeding 32 ft. will be controlled by tidal conditions. Controlling depth in channel 11 m. MLW. In the port 9 m. to 12 m. at MLW (Midgard Pier).

MAX. SIZE: (The max. drafts are estimated).

Midgard Pier: (a) Bulk cargo berth, total length 1,068 ft. max. beam 120 ft., max. draft 42 ft. 08 in. (FW).

(b) Oil Berth No. 1 (combined with Southern part of 'a'), max. length 850 ft., beam 120 ft., draft 42 ft. 08 in.

(c) Oil Berth No. 2, max. draft 42 ft. 08 in. (FW).

(d) Granary, quay length 188 m., draft 38 ft. – 40 ft. (FW) weather permitting.

Guanowerk, max. length 550 ft., max. draft 30 ft. (FW) (approx.).
Preussag, max. length 550 ft., draft 27 ft.
Midgard (ex-Asbestos Wharf): Max. length 820 ft. (250 m.) up to a draft of 38 ft. 06 in. (FW).

Also see "Tankers".

HEALTH: Pratique granted immediately on arrival in port by Health Official.

RADIO: Norddeich Radio Dan or Elbe Weser Radio (VHF Channel 16).

RADAR: No port radar available. Radar for entrance see "Bremerhaven".

TUGS: Ample available from Bremerhaven. Tug's lines used.

BERTHING: The following industrial works and companies within the port area of Nordenham possess a berth each for sea-going vessels which serve only their private supplies and requirements. These berths are situated North of Midgard Pier.

1. Norddeutsche Seekabelwerke Aktiengesekkschaft, (production of cables).
2. Felten & Guilleaume Schsltanlagen GmbH (production of electric appliances, motors, etc.).
3. Preussag Boliden. Length of quay 230 m., depth of water 32 ft. 10 in. (approx.) 2 cranes of 10 and 5 tons. Capacity 200 and 90 t.p.h. respectively. Storage capacity, 50,000 tons (coal or ore). 10,000 tons (metal blocks), 5,000 cu.m. (sulphuric acid).
4. Guano-Werke Aktiengesellschaft (s.a.) (phosphates and fertilisers). Length of quay 165 m. 1 gantry crane and 1 mechanical unloader for bulk cargo.
5. Erdolwerke Frisia Aktiengesellschaft (tanks for the storage of mineral oils).
6. Vereinigte Flugtechnische Werke GmbH (production of airplanes).
7. Midgard (ex-Asbestos).
8. Weser Tanklager Gesellschaft mbH (storage of mineral oils, bunker oil station of BP).
   Connections: Gas oil 2×8 in., fuel 1×8 in.
9. Titangesellschaft mbH (production of titandioxide).

Midgard (ex-Asbestos): Length 210 m. Extra mooring dolphins North and South of wharf 50 m. from each end of wharf. Depth alongside 12.5 m. at MLW. 2 mechanical unloaders for discharge of minerals into conveyor system of factory.

SPECIAL CARGO HANDLING FACILITIES:

Midgard Pier:

No. 1. Bulk cargo berth for discharging and loading. Length of quay 710 m. Depth 12 m. Five bridges with a lifting capacity of 22 tons each. Max. outreach 26 m. Capacity: 30,000 tons ore per 24 hours. 15,000 tons of coal per 24 hours. Connections for mineral oil and molasses.

No. 2. Oil berth. Length of quay 170 m. Depth 9.5 m. Three pipelines 10 in. to 12 in. diameter for fuel oil, diesel oil and gas oil. No shore steam or facilities for dirty ballast available.

No. 3. Granary. Length of quay 188 m. Depth 12 m. Two elevators with a total discharge capacity of 700 t.p.h. Loading rate to vessels 300 t.p.h. Storage capacity of 46,000 tons.

STEVEDORES: 24 hours' notice required. Notice required Friday morning for week-end work.

1st shift: 0600 – 1400 hrs.
2nd shift: 1400 – 2200 hrs.
3rd shift: 2200 – 0600 hrs. (overtime).

On Saturdays: (grain and other bulk cargoes).

1st shift: 0600 – 1400 hrs. (overtime).
2nd shift: 1400 – 2200 hrs. (overtime).
3rd shift: 2200 – 0600 hrs. (overtime).

MEDICAL: Hospital available; advance notice only required if urgent cases.

TANKERS: Diameter of lines 8 in.

Shell Berth: Max. size 34 ft.

Weser Tankerlager: Max. size 200 m., length 32 ft. draft at LW.

T-shaped mooring lines attached to pontoons fore and aft, middle lines are attached to the shore. Length of lines 100 m.

Also see "Special Cargo Handling Facilities".

DENSITY: Average density of water 1005 – 1012.

FRESH WATER: Fresh water available at a rate of 15 t.p.h. per hose price DM 5.40 per ton.

FUEL: All grades available; delivery by barge; 2 days' notice required.

FIRE PRECAUTIONS: Special regulations for vessels loading or discharging explosives.

CONSULS: See "Bremerhaven".

REPAIRS: Minor repairs can be carried out. Ample facilities for major repairs at Bremerhaven.

DRY DOCKS/SURVEYORS: See "Bremerhaven" or "Bremen".

WATCHMEN: Not necessary but available if required by Master.

OPENING/CLOSING HATCHES: Normally by crew but if by stevedores extra charges will apply.

CUSTOMS ALLOWANCES: Each crew member 200 cigarettes or 30 cigars or 30 grammes of tobacco and 1 bottle of spirits for a running period of 3 days.

CARGO GEAR: In most cases loading and discharging is effected with shore gear. Special equipment can be ordered from Bremerhaven.

REPATRIATION: Possible by air via Bremen or Hamburg.

AIRPORT: Bremen, distance 70 km., 1 hour by car. Hamburg, 200 km., 3 hours by car.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 2052; Fire 112.

TELEPHONES: Available on request.

SHORE LEAVE: Permitted.

IDENTIFICATION CARDS: Not issued.

REGULATIONS: Port regulations for the Midgard Pier including special regulations for handling of explosives.

DELAYS: None except waiting for high tide (see "Restrictions").

AUTHORITY: Asbestos Corporation, GmbH., P.O. Box 58, 2890 Nordenham 21. *Tel:* 04731/3630. *Telex:* 238312 Acgnh. *Cables:* Asbestos.

"Midgard" DSAG, Midgardstr. 50, Nordenham. *Tel:* 4731/811. *Telex:* 238317. *Cables:* Midgard Nordenham. *Contact:* Mr. Werner, General Manager. Mr. Gocht, Pier Inspector.

PAPENBURG: 53.06 N. 07.23 E. (See Plan Book)

LOCATION: Papenburg is 20 nautical miles above Emden on the Ems seaway at km. 0.0 and on the inland waterway Dortmund – Ems canal at km. 225.82.

PILOTAGE: The Sea Pilot is taken on board from the pilot cutter at Westerems and the district and Port Pilot at the Emden Pilot Station. All vessels over 1,000 g.r.t. (sea-going), and all oil, gas and chemical tankers require a Pilot.

RESTRICTIONS: *Lock operating times:* From 1st March to 30th September, Monday to Saturday, from 0600 to 2000 hrs.

From 1st October to 28th February, Monday to Saturday, from 0700 to 1800 hrs.

Lockings outside operating times, and on Sundays and Holidays must be promptly reported, at the latest half an hour prior to normal lock operating times, by telephone 04961/2640 or via VHF Channel 13.

Also see "Bridges".

MAX. SIZE: Vessels with a max. draft of 4.8 m. can reach the port during MWST. Vessels with a greater draft must discharge at Leerort.

VHF: Communications with the bridges and lock-keeper are on Channel 13.

BERTHING: The port is connected to the Ems by a lock 26 m. wide and 152 m. long. The port has a foreport (300 m. long and 80 m. wide), the sluice canal (1,900 m. long and 65 – 90 m. wide), the Southern Industrial Port (500 m. long and 100 m. wide), the Dever Port (450 m. long and 80 m. wide), the railway dock (300 m. long and 50 m. wide), the Werft Port 200 m. long and 100 m. wide), the Turm Canal (300 m. long and 35 m. – 60 m. wide, which can be reached through a 17.6 m. wide railway bridge), and the yacht marina. Depths vary from 3.5 m. to 6 m.

Of the 3,500 m. of the Spundwand Quay, 2,300 m. are devoted to cargo handling.1,200 m. of this is provided with railway lines. The total length of the port railway facility is 6,700 m. 40,000 cu.m. of open free storage space can be used for bulk cargo accommodation. Further open and covered storage areas, together with silo facilities, for approx. 11,000 tonnes cargo are available through companies operating within the port.

CRANES: In the port area there are 2 heavy lift cranes up to 120 tons (a total 230 ton capacity), 1 heavy lift crane 140 tons, 1 heavy lift crane 50 tons, 7 jib cranes 2.5 – 10 tons, 1 gantry crane 6 tons with a 52 m. long traverse, 1 crane 6.5 tons, 1 crane 5 tons, 2 cranes 1 ton, 2 mobile cranes 11 tons and 40 tons, 1 floating crane 6 tons, 1 mobile conveyor belt 100 t.p.h., 2 grain handlers 30 t.p.h. and 40 t.p.h.

BRIDGES: At Ems km15.02 the Leerort road rotary bridge has to be passed; West opening 29 m. and East opening 31 m. passage width. Opening times from sunrise to sunset and after prior report by telephone 0491/2992 and VHF Channel 13.

At Ems km6.9, the railway folding bridge has to be passed (Weener). The passage width is 24 m. Opening times are as per the current traffic plan. The bridge is manned daily, also Sundays and holidays, from 0400 to 2200 hrs. Telephone 04951/2065 and VHF Channel 13.

Both bridges have a passage height when closed of 3.50 m. at MWST.

FRESH WATER: Available.

FUEL: Available.

REPAIRS: Vessels up to 30,000 tons, length 250 m. and width 35 m. can be repaired at the local shipyards.

DRY DOCKS: A drydock of 90 m. length and 16 m. width is available.

POLICE/AMBULANCE/FIRE: Water Police Tel: 04961/4144 or 04961/2634 (After hours).

DEVELOPMENTS: The port installations are currently being extended by the Industry Port – North which will be approximately 1,000 m. long and 100 m. wide.

AUTHORITY: Hafenamt Papenburg-Ems, Post Box 14 40, 2990 Papenburg 1, West Germany. *Tel:* 04961 821. *Contact:* W. Hermanns (A.O.H. *Tel:* 04961-3169).

Town Port Authority, Sea Lock, 2990 Papenburg 1, West Germany. *Tel:* 04961/2640.

STADERSAND: 53.37 N. 09.32 E.

Oil Terminal in Elbe River operated by Hamburger Mineralolwerke.

DOCUMENTS:
3 Crew Lists.
3 Personal Effects Lists.
3 Stores Lists.
Cargo Documents.
Ship's Register.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: See "General" before first German Port.

RESTRICTIONS: Draft calculated by adding 31 ft. to height of tide and allowing 3 ft. keel clearance.

MAX. SIZE: Max. LOA 230 m. Max. beam 32 m. Max. draft (M.H.W.) 11.50 m. Max. size 60,000 d.w.t.

HEALTH: Health Certificate brought on board by River Pilot for Master to complete.

RADIO: All messages to Agents, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German Port, but no special Port Radar Service for Stadersand. Radar Service in the area of Stadersand available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio".

TUGS: Available. Meets vessel off the berth.

BERTHING: 1 tanker berth at T-head jetty. 1 pipe-line × 300 mm. diameter, 2 hoses × 200 mm. diameter, permissible pressure 12 bars. Max. discharge rate 1,200 t.p.h.

DENSITY: Brackish.

FRESH WATER: Only obtainable by barge from Hamburg. Minimum quantity supplied is 200 tons.

FUEL: Only obtainable by barge.

CUSTOMS ALLOWANCES: 100 cigarettes and 1 bottle wine/spirits per man.

CONSULS AND GENERAL INFORMATION: Refer to "Hamburg".

AUTHORITY: *Operator:* Nordwestdeutsche Kraftwerke Aktiengesellschaft, Tanklager Stadersand, P.O.Box 1780, 2160 Stade. *Tel:* 04141/15–1 and 15–460. *Telex:* 218140. *Cables:* Fiatlux Stade.

AGENT: See "Hamburg".

WILHELMSHAVEN: 53.31 N. 08.10 E. **(See Plan Book)**

DOCUMENTS: Tanker check list with statement of vessel's deficiencies to be provided and delivered to the Sea Pilot before commencing pilotage.

Oil Port	2 Crew Lists. 1 Health Declaration (Form supplied by Pilot). Derat Exemption Certificate. Passports/Seamen's Books. Vaccination List.
Harbour Docks	2 Crew Lists. 1 Health Declaration. 2 Cargo Manifests. 2 Stores Lists.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: Jade pilot boats are 2-masted and have yellow funnels with black tops; the black hull has white inscription "Lotse" on both sides. By day flag "1" below flag "G" of international code is flown; by night, signal is to be given by morse signals, in bad weather by whistle or morse signals.

Pilot vessel stationed at mouth of Weser. To call Pilot for Jade, in addition to International Code signals the signal "J" is hoisted by day or flashed by Morse lamp at night. The same signal can be made on whistle in bad visibility. When pilot boat operations are impracticable due to bad weather, pilot vessels will move inward to a position between Weser lightbuoys 15/Mellum 1 and 17.

Inward bound vessels with draft exceeding 16 m. or with gross tonnage exceeding 60,000 g.r.t. may take the Harbour Pilot only seaward of Jade lightbuoys 28 and 31.

ETA required 12 hours prior arrival at pilot station at lightvessel "Weser" (unmanned) and 24 hours prior arrival pilot station at lightvessel "Deutsche Bucht". Pilot vessel transmits and receives on VHF Channel 16.

Pilots for *Outward* bound vessels are to be ordered as follows:

1. At least 2 hours, prior to ETD.
2. For departures between 1900 hrs. and 0800 hrs. the Pilot has to be ordered by 1700 hrs.

Pilotage is compulsory as follows:

1. On navigation stretches inward of the respective outer position of pilot vessel, Wilhelmshaven Roads excluded for:
   (a) oil, gas and chemical tankers
   (b) other vessels exceeding 1,000 g.r.t.
2. On navigation stretches between pilot station at "Deutsche Bucht" Lightvessel and the respective outer position of pilot vessel for:
   (a) oil, gas and chemical tankers exceeding 10,000 g.r.t.
   (b) other seagoing vessels exceeding 60,000 g.r.t.
3. On navigation stretches between the position of the pilot vessel shifted up the "Weser" due to bad weather and lightvessel "Weser" for:
   (a) Vessels exceeding 20,000 g.r.t.; oil, gas and chemical tankers excluded.
   (b) Car carriers and Ro-Ro vessels exceeding 10,000 g.r.t.
4. Federal Government vessels and Federal navy ships are exempted.

Vessels exempted from compulsory pilotage have to order shore based radar assistance at visibilities less than 3,000 m. from the radio station of the Wilhelmshaven Radar and Information Centre (Revierzentrale) when navigating the stretches between lightvessel "Weser" (unmanned) and Wilhelmshaven. This station is to be called "Jade-Radar" on VHF Channels 16/20.

Vessels confined to the dredged channel due to their draft and/or exceeding 60,000 g.r.t. take 2 Sea Pilots at "Deutsche Bucht" Lightvessel.

Helicopter pilot service is available for vessels above 50,000 g.r.t. at "Deutsche Bucht" Lightvessel.

ANCHORAGE:

1. Deep water Roads for large tankers South of lightvessel "Deutsche Bucht".
2. Roads for large and deep-draft vessels S.E. of lightvessel "Weser" (unmanned).
3. Tanker Road Schillig for tankers not exceeding 250,000 d.w.t. and/or 13.5 m. draft.
4. Schillig Roads for all vessels – tankers exempted – not exceeding 13.5 m. draft.
5. Quarantine anchorage for vessels under quarantine.
6. Explosives anchorage for vessels carrying explosives or ammunition.
7. Tanker Roads North, S.E. of Lightbuoy 40 for tankers which are loaded or waiting for loading berth. A safety distance of at least 300 m. between vessels at anchor has to be maintained. Maximum draft 13.5 m.
8. Tanker Roads South, South of Lightbuoy 48/A1/Reede 2 for tankers being unloaded and not yet de-gassed and not exceeding 280 m. length. Maximum draft 13.5 m. When anchored vessels are turning with the tide, measures like tug assistance against covering the Arngast light sector or drifting to the West side of the fairway to diminish time and circle of turning.
9. Wilhelmshaven Roads, usually for smaller vessels waiting for sea lock passage.
10. Road for small vessels up to 20 m. in length.
11. Actual sounding plans are to be observed because changes of depths are possible.

Transhipment of goods according to IMDG Code Nos. 1 (explosives), 2 (gases) and 3 (inflammable liquids) is prohibited on the Jade including Roads.

Request for bunkering permit is to be addressed to "Wasser- und Schiffahrtsamt Wilhelmshaven" via radio station "Jade-Revier-Radio" on Channel 16/20 VHF.

RESTRICTIONS: No restrictions on night entry. Vessels draft exceeding 55 ft., will be controlled by tidal conditions.

Also see "General".

Traffic Safety Measures for Large Vessels:

Vessels with draft exceeding 17 m. will be guided by police vessels showing quick flashing blue light when navigating the Precautionary Area between lightbuoys DB 18/Jade and DB 19/Jade. All other vessels are requested to give way to these vessels restricted by their draft.

During the navigation of vessels exceeding 200 m. in length in the Precautionary Area, the radio station "Deutsche Bucht-Revier-Radio" transmits navigational warnings every 15 minutes on VHF Channel 80 in German and English language. Warnings will be announced on VHF Channel 16.

The following is a translation from German.

Quote

83/4995 Federal Republic of Germany. German Bight. Coast radio station and reporting system established. Information reports and safety reports will be broadcast.

1. Coast radio station established:

Position: Lat. 54° 11.0′ N., Long. 7° 53.0′ E. (approx.), Helgoland Lighttower.

Remarks: The coast radio station Deutsche Bucht Revier Radio has been established at Helgoland. The station provides the reporting system in the approaches of rivers Jade, Weser and Elbe as well as broadcasting information and safety reports on Channel 80 and 16, H24.

2. Reporting system:

Vessels over 150 m. in length and all tankers carrying gas, chemicals, oil and oil products in accordance with §30 Abs. 1 of the Seeschiffahrtstraben-Ordnung (traffic regulations for waterways navigable by seagoing vessels in the Federal Republic of Germany) which navigate Eastbound in the traffic separation scheme "Feuerschiff Deutsche Bucht, Westansteuerung" are urgently requested when passing lightbuoy TW9 in position Lat. 54° 08.0′ N., Long. 7° 08.7′ E. (approx.) to give notice to the coast radio station Deutsche Bucht Revier Radio and to report as follows:

(a) Vessel's name.
(b) Call Sign.
(c) Length.
(d) Draft.
(e) Gross Tonnage.
(f) Last Port of Call.
(g) Port of Destination.
(h) Position.
(i) Speed.
(j) ETA at lightbuoy DB 18/Jade and lightvessel "Weser" or lightvessel "Elbe 1".

Vessels which already have given notice in accordance with §58 Abs. 2 and 3 of the Seeschiffahrtstraben-Ordnung (24-hours'-notice) have to report (d), (e), (f) and (g) only when there are any changes.

Vessels which are participating in the reporting system and break their passage before passing lightbuoy DB 18/Jade should inform again the coast radio station Deutsche Bucht Revier Radio when passage is continued.

3. Information reports:

Information is broadcast by the coast radio station Deutsche Bucht Revier Radio every h+00 and h+30 in German and English on VHF Channel 80. Reporting range for special events covers the area contained within the arc of a circle radius 26 nautical miles centred on Helgoland light tower.

4. Safety reports:

Passing of "Precautionary Area" in N.S./S.N. direction by vessels of 200 m. in length and more and by gas- and chemical tankers in accordance with §30 Abs. 1 Seeschiffahrtstraben-Ordnung, as well as by other vessels in exceptional cases is broadcast as a warning to all other vessels. This safety report is broadcast by coast radio station Deutsche Bucht Revier Radio every 15 minutes after information report. The safety reports are announced on VHF Channel 16 and broadcast on VHF Channel 80 in German and English.

Remarks: The former vessel reporting system in the area "Precautionary Area/Traffic separation scheme Terschelling – Deutsche" is cancelled.

(WSA Wilhelmshaven, 21.12.1983 [100])

Unquote.

Remarks: Radio station named under No. 1 with all activities is operated from the Wilhelmshaven radar and information centre.

Shipping Regulations and Restrictions:

1. Vessels, including those being towed or pushed, which exceed a length of 50 m., have to report in advance before navigating the Jade to radio station "Jade-Revier-Radio" on VHF Channel 20. Report must contain the name of vessel, position and destination. This is not applicable for vessels obliged to report according to No. 2.

2. Vessels, including those being towed or pushed, carrying dangerous goods in accordance with the Annex No. 1 (list of substances – see Annex No. 1 before "Authority") to the traffic regulations for waterways navigable by seagoing vessels in the Federal Republic of Germany or being not de-gassed or not inerted and vessels with nuclear propulsion must report 24 hours before navigating the Jade, however not later than departure from last port of call, to "Wasser- und Schiffahrtsamt" Wilhelmshaven.

Report must contain following statements:
(a) Name and call sign of vessel.
(b) ETA at lightbuoy "TW 9" or "3" (Jade).
(c) Nationality.
(d) Length and draft.
(e) Last port of call and destination.
(f) Type, quantity and IMDG Code No. (see Annex III).
(g) When carrying chemicals or liquefied gases, indication whether a valid certificate according to IMO Code for chemical tankers or gas tankers is existing on board.
(h) Declaration about deficiencies of ship or cargo.
(i) Ship's owner or authorised Agent.

This report must be given in written form to Wasser- und Schiffahrtsamt Wilhelmshaven.

Above specified vessels must observe the following conditions when navigating the Jade:

(a) Navigation on the Jade, including leaving a berth or anchorage, is not allowed at visibilities less than 1,000 m. This applies to vessels up to 2,000 d.w.t. at visibilities less than 500 m., if they carry or have carried oil or oil products with a flash point of more than 35°C after the last tank cleaning or degassing, providing that they are equipped with a gyro compass or a tested magnetic compass.

(b) Continuous radio contact with radio station "Jade-Revier-Radio" on VHF Channel 16/20 must be made safe, also when communicating with other stations.

(c) A faultless working radar device has to be in operation and must be under permanent observation by an experienced person at reduced visibilities.

(d) Use of automatic steering gear is not allowed.

(e) Tank covers must be kept closed.

3. All vessels specified above under Nos. 1 and 2 have to report to radio station "Jade-Revier-Radio" on VHF Channel 20 when passing the following positions:
(a) Lightbuoy 3.
(b) Lighthouse Minsener Oog – breakwater A (Buhne A).
(c) Lightbuoy 35/Hooksiel 1.

Reports must contain ship's name, position, speed and passing time.

Lock Restrictions:

The sea lock opening times for No. 4 dock are announced in daily maritime bulletins. Coastal radio station "Wilhelmshaven Lock Radio" working on Channel 13 VHF during official service hours.

Dimensions of lock: 390 m. long, 57 m. wide and depth of 11.47 m. MLW. However, only smaller vessels use dock harbour as bollards for mooring larger ships not yet available.

See "Annex No. 2" before "Authority".

MAX. SIZE: Max. size fixed for navigating the Jade:
(a) Draft, entering: 20 m. (65 ft. 07 in.)
leaving 19 m. (62 ft. 04 in.)
(b) Length: 350 m.
(c) Beam: 52 m.

Vessel exceeding these dimensions must apply for a permit of navigation to "Wasser- und Schiffahrtsamt Wilhelmshaven".

See "Annex No. 3" before "Authority".

Keel clearance of at least 8.5% of draft required. Also see "Tankers".

RADAR: *Jade Radar, Wilhelmshaven Radar and Information Centre (Revierzentrale Wilhelmshaven):*

Jade Radar Chain extends from lightbuoy DB 19/Jade to lightbuoy 56. Radar information and shore based radar assistance is available to all ships. The Wilhelmshaven Radar and Information Centre is continuously in service and to be called "Jade-Radar" concerning radar services or "Jade-Revier-Radio" in all other cases on VHF Channels 16/20. This area station performs radar control and observations and is executing traffic regulations and all other traffic affairs on the navigable waters of the Jade. Information about traffic movements, dredging activities, disturbances, tidal and weather conditions will be given on request and is transmitted as situation report every even hour (H + 15 m.) in German language on VHF Channel 20. The orders issued by this station are to be observed.

RADIO: Norddeich Radio, call sign DAN. Elbe-Weser Radio can be contacted by VHF Channel 16.

Radio advice prior to arrival: Advise Agent 7 days before arrival:
1. Ship's name and call sign, ETA in GMT.
2. Nationality.
3. Draft forward and aft.
4. Cargo on board and slop information.
*5. Number and diameter of cargo manifold connections.
6. Discharge rate per hour.
7. Loading rate per hour.
8. Quantity of ballast on board.
9. Ballasting rate per hour.
*10. Leaks in the hull or overboard valves, if any.
*11. Inert or non inert gas report.
*12. Request for crude wash.
*13. Request for repairs.
14. Valid oil liability certificate.
15. Heli-landing/winching area.
16. VHF Channel 20 in good working order.

*Details must be with Agent at least 48 hours before arrival.

ETA to be confirmed 72 hours before arrival, and whenever ETA changed by more than 30 minutes.

Notify Agents of tug requirements.

HEALTH: Radio pratique possible. Sea Pilot will hand Health Declaration to Master. If one of the questions is answered "Yes", Pilot will advise Port Health Officer. A valid derat. exemption must be produced.

TUGS: Compulsory. Tankers normally require at least 4 tugs of minimum 1,500 h.p. for berthing. Tugs meet tankers at anchorage near Buoy "43". Only tug lines are used, charge inclusive. Tugs join vessels at Buoy "35" when proceeding to Mobil Oil Terminal.

VLCC's meet the tugs at Buoy "33" (Mobil Oil) or at Buoy "39", when they are bound for NWO.

BERTHING: *Wilhelmshaven Dock Harbour:*

The following dock harbours can be reached:

Harbour Name	*Max. draft*		*Quay length*
Handelshafen	16 ft. 05 in.		600 m.
Grosser Hafen	20 ft. – 26 ft.	Bontekai about	500 m.
Verbindungshafen	18 ft.	Sudwestkai about	200 m.
Nordhafen			
Hannoverkai	38 ft. (11.6 m.)		312 m.
Luneburgkai	26 ft. (7.9 m.)		205 m.
Lay-up Berth (Dolphins)	41 ft. (12.5 m.)		350 m.
Ausrustungshaven			
Schleusenhaupt			
Ehem. 3 Einfahrt (Lay-up berth)	19 ft.		140 m.

SPECIAL CARGO HANDLING FACILITIES: There is no Container or Roll-on/Roll-off-traffic at Wilhelmshaven.

BULK HANDLING FACILITIES: Figdor is the operator of cargo handling in the Handelshafen with its connection to railway, road and canal-system.

Equipment: Two modern gantry cranes of 8 – 15 tons and efficient mobile cranes. Storage facilities for bulk cargo to an amount of 70,000 tons, 1 silo with a capacity of 720 cu.m. and 2,000 sq.m. storage sheds for bulk and general cargo.

Also see "Tankers" – Niedersachsenbrucke.

CRANES: Bontekai and Sudwestkai without shore cranes, but mobile cranes available. One floating crane for heavy lifts up to 100 tons is also available.

TANKERS: *Nord-West Oelleitung Terminal:* Position Lat. 53° 33′ N., Long. 08° 08′ E. Distance from lightvessel "Weser", 24 miles. Type of Berth, Finger Pier "T" head. Density 1025. Current velocity, 3-4 knots. Mean tidal range, 11 ft. 09 in. Nature of bottom, sand and mud. Vessels may berth and unberth day or night. Vessels exceeding 55 ft. draft enter only on rising tide. Fresh water available, Diesel and Fuel "C" available. When discharging, full capacity of ship's pumps required. Normal residues and sediments are acceptable without any water. Shore gangway available. Vessels berth port or starboard side alongside.

No limit on length or beam. Max. draft, Berth No. 1 and No. 2 – 61 ft. Berth No. 3 – 51 ft. and Berth No. 4 – 66 ft.

Berth Number	*Grades Handled*	*Pipe-lines No/Dia.* (in.)	*Length* (ft.)	*Load – Discharge Rate* (t.p.h.)	*Maximum Pressure* (lbs.)	*Hoses* (in.)
No. 1	Crude Oil	1×30	4920	8000	220	4×12
No. 2	Crude Oil	1×30	4595	8000	220	4×12
No. 3	Crude Oil	1×30	4920	6000	220	3×12

No. 3	Fuel Oil	1×24	5905	250/300	110	2×12
No. 4	Fuel Oil	—	—	500/700	110	various

Use of berths is only allowed for transhipment of infiammable liquids of subclasses 3.1, 3.2 and 3.3 with low (< −18°C), medium (−18° to +22.9°C) and high (+23° to +61°C) flash point.

Mobil Oil Terminal: Berth Nos. 1 and 1A. Position Lat. 53° 37′ 28″ N., Long. 08° 08′ 30″ E. Distance from lightvessel "Weser", 20 miles. Type of berth, Sea Island. Density, 1025. Current Velocity, 3-4 knots. Mean tidal range 10 ft. 6 in. Nature of bottom, sand and mud. Least depth of water from port entrance to berth, 18.5 m. (60 ft. 09 in.) at MLW. Vessels may berth or unberth day or night. Vessels exceeding 55 ft. draft enter only on rising tide. Fresh water available by barge. Fuel "C" and Diesel available. Dirty ballast facilities available, capacity 29,000 cu.m. seawater, 17,900 cu.m. fresh/brackish water, discharge rate, 2,400 cu.m./hr. Vessels berth port or starboard side alongside. All ballast, including clean ballast, to be discharged ashore.

Shore gangway available. An under keel clearance of 1 m. is required at Berth No. 1A at MLW.

Berth No. 1. Max. LOA, 1,150 ft. Min. length, 800 ft. Max. draft, 65 ft. Depth at MLW 68 ft. 11 in.

Berth No. 1A. Max. LOA, 650 ft. Min. length, 500 ft. Max. draft at HW, 48 ft. 2 in. Depth at MLW, 41 ft.

Berth Number	*Grades Handled*	*Pipe-lines No/Dia.* (in.)	*Length* (m.)	*Load – Discharge Rate* (cu.m./h.)	*Hoses* (in.)
No. 1	Crude Oil	1×44	5000	17500	4×16
	Heavy Fuel Oil	1×30	3000	3200	2×16
No. 1A	Heavy Fuel Oil	1×30	3000	3200	3×12
	Light Fuel Oil	1×20	3000	3200	2×12
	Gasoline	1×12	3000	950	1×10

Use of Island Jetty (berth 1/1A) is only allowed for transhipment of inflammable liquids of subclasses 3.1 and 3.3 with low (less than −18°C) and high (+23° to +61°C) flash point.

Mobil Oil Terminal: (Also see "Shipmaster's Report"). Berth Nos. 2 and 3. Position Lat. 53° 37′ 12″ N., Long. 08° 07′ 36″ E. Distance from Weser large sea buoy, 20 miles. Type of berth, "L"-head jetty. Density, 1025. Current velocity, 3 – 4 knots. Mean tidal range, 10 ft. 6 in. Nature of bottom, sand and mud. Least depth of water from port entrance to berth 7.5 m. (24 ft. 7 in.) at MLW. Vessels may berth or unberth day or night. Vessels up to 21 ft. 4 in. may berth and unberth any time. Fresh water by barge. Diesel and Fuel "C" available. Dirty ballast facilities same as Berth Nos. 1 and 1A. Max. deballasting rates, Berth No. 2, 2×10 in. 1,800 cu.m./hr. Berth No. 3, 2×8 in. 500 cu.m./hr.

All ballast, including clean ballast, to be discharged ashore. Min. distance ship's side to manifold, 1.5 m. If reducer required to match shore flanges, at least 1.8 m. Shore gangway available. A keel clearance of 1 m. is required at MLW until silting developments after dredging can be firmly assessed. Vessels berth port or starboard side alongside.

Max. LOA, 400 ft., min. LOA, 263 ft. will be reduced to 180 ft. Beam, no limit. Max. draft, 31 ft. 8 in. (at HW). Depth of water at MLW 24 ft. 7 in.

Berth Number	*Grades Handled*	*Pipe-lines No/Dia* (in.)	*Length* (m.)	*Load – Discharge Rate* (cu.m./h.)	*Hoses* (in.)
No. 2	Heavy Fuel Oil	1×20	2000	2600	2×10
	Light Heating Oil	1×20	2000	2400	2×10
No. 3	Heavy Fuel Oil	1×16	2000	475	1× 8
	Light Heating Oil	1×20	2000	550	1× 8
	Gasoil	1×10	2000	550	1× 8
	Gasoline	1×12/1×10	2000	950/550	2×10/8
	LPG	1×8	2000	400	1× 6

Use of berth No. 2 is only allowed for transhipment of inflammable liquids of class 3 with flash point < −18° to +61°C.

Use of berth No. 3 is only allowed for transhipment gases (class 2) and inflammable liquids of subsclasses 3.1, 3.2 and 3.3 —flash point see above under Nord-West Oelleitung Terminal).

Voslapper Groden Jetty (ICI-Jetty):

Position: Lat. 53° 37′ 59″ N., Long. 08° 05′ 46″ E.

Traffic Bridge of 1,346 m. length ends in L-shaped cargo handling pier of 675 m. length. Traffic bridge is fitted with two tracks of 5.5 m. and 3.5 m. width, all cables and pipes are led lengthwise upon the bridge to the pier connections.

Berth No. 1 at the seaward end is provided for 1 tanker of 20,000 d.w.t. – 60,000 d.w.t., but not yet in operation. Berths No. 2 and 3 (inner side) are provided for tankers of 400 d.w.t. – 7,000 d.w.t., limited by a maximum depth of 8.5 m. at MLW.

Use of berth No. 2 is only allowed for transhipment of Ethylene (class 2, UN No. 1038).

Use of berth No. 3 is only allowed for transhipment of Vinyl Chloride Monomer (class 2, UN No. 1068) and its residue LE and HE or Ethylene Dichloride (subclass 3.2, UN No. 1184).

Berths may only be used by gas and chemical tankers which conform with IMO recommendations and which have a valid certificate to that effect as follows:

1. Resolution A 328 (IX) Code for the Construction and Equipment of Ships carrying liquefied Gases in Bulk,
2. Resolution A 329 (IX) Recommendations concerning Ships not covered by the Resolution 328 (IX),
3. Resolution A 212 (VII) Code for the Construction and Equipment of Ships carrying dangerous chemicals in Bulk.

All stores, fresh water exempted, must be taken onboard from seaward side. These activities are prohibited during cargo handling or taking ballast.

Also see under "General".

Harbour areas (NWO, Mobil Oil and ICI) may be exceptionally navigated by auxiliary and supply vessels if this is absolutely necessary for the transhipment or ship operations according to Port Regulations, providing these vessels comply with the safety requirements. All other vessels are excluded.

Niedersachsenbrucke: (Lower Saxony Bridge) The "Niedersachsen Bridge" which belongs to the state of Lower Saxony is equipped with a fuel oil discharge unit for supplying a large nearby plant. Small ships can be discharged by a portal crane of 15–18 tons. The land-side berth of the loading pontoon running parallel to the Ufer is about 12 m. depth, so that loaded tankers up to a size of 35,000 d.w.t. can come alongside this pontoon. Furthermore, on this pontoon a loading installation for caustic soda is available. A bulk discharger unit with a hourly capacity of 1,200 tons serves coal to a large nearby plant. Vessels of 80,000 d.w.t. and a draft up to 15 m. can be accommodated. Vessels up to a maximum deadweight tonnage (approx. 135,000 tons) must apply for a special permit to be issued by Port Authority.

Drinking water in adequate quantities is available at all shipment pontoons in the Jade.

Bunker and diesel oil is available in adequate quantities from Nord-West Ollleitung and Mobil Oil A.G. At the "Niedersachsen Bridge" it is necessary to order a bunker vessel in advance.

Also see "Developments".

DENSITY: Brackish water.
BRIDGES: 3 swing bridges affect entering dock harbour; these are opened to coincide with lock opening times.
STEVEDORES: 24 hours' notice required. Bulk cargo discharge rate about 150 t.p.h.
MEDICAL: All medical facilities available.
FRESH WATER: Available by pipe-line.
FUEL: All grades available. 2 days' notice required.
REPAIRS: Jadewerft Wilhelmshaven Dockyard (Handelshafen) for small repairs and a floating dock with a capacity of 1,100 tons.
GANGWAY/DECK WATCHMEN: Shore watchman recommended to attend telephone.
OPENING/CLOSING HATCHES: Usually by ship's crew.
CUSTOMS ALLOWANCES: Oil port is Customs free port. In dock harbour each man allowed 5 cigars or 40 cigarettes, or 50 grams tobacco and 50 pieces of cigarette paper; 1 unopened bottle wine/spirits.
IDENTIFICATION CARDS: Required in oil port.
CONSULS: Denmark Tel: 41061. Sweden Tel: 26266. Finland Tel: 8021.
REPAIRS: Facilities available for all deck and engine repairs. Repairs affecting main engine or steering gear intended to be carried out at the berths or at Wilhelmshaven Anchorage, must be authorised by NWO, Mobil Oil A.G. and Port Authorities, when sufficient security tugs will be ordered to stand by. No additional charge for tugs if ordered before arrival. Permission for repairs depends on prevailing weather conditions and should be requested before arrival.
DRY DOCKS: Floating docks for vessels of 8,000 and 1,000 tons respectively. 1 small dry dock 50 m. by 10 m. by 2.8 m.
REPATRIATION: All facilities available.
AIRPORT: Local airport at Wilhelmshaven-Mariensiel, available for helicopters and small aircrafts. Nearest international airport at Bremen, distance 102 km.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January; Good Friday; Easter Sunday; Easter Monday; 1st May; Ascension Day; Whit Sunday; Whit Monday; 17th June; Atonement Day; Christmas Day; Boxing Day. Work may be arranged on Easter Monday, Ascension Day, Whit Monday and Boxing Day.

Not observed in oil ports.

POLICE/AMBULANCE/FIRE:
Police: Tel: 52400.
NWO Oil Port: Fire/Ambulance Tel: 621.
Mobil Oil AG.: Fire/Ambulance Tel: 551328.
ICI: Jetty Operator Tel: 882 460.
Fire/Ambulance Tel: 882 310.
Niedersachsen Bridge: Fire/Ambulance Tel: 50308 or 26121.
Dock Harbour: Tel: 112 or 26121.

TELEPHONES: May be placed on board all tankers in oil port. At some locations in dock harbour, installation by Post Office, who require 2 days' notice.
SERVICES: All services available including tank-cleaning, diving, compass adjusting, etc.
SHORE LEAVE: Allowed.
GENERAL: *Federal Republic of Germany. Jade. Measures to direct traffic during the passage of LPG:* On the River Jade from the sea to Wilhelmshaven all vessels are to observe, with effect from February 19th, 1981, the following regulations during the passage of LPG and chemical tankers.

1. *Prohibition to navigate the River Jade from the sea to Wilhelmshaven.*
Vessels with a capacity of more than 7,000 d.w.t. carrying substances in accordance with No. 1 (Gases) of the version currently in force of the Annex (List of substances) – see "Annex No. 1 before "Authority" – to the traffic regulations for waterways navigable by seagoing vessels in the Federal Republic of Germany, ethylene dichloride or vinyl chloride monomer residues may not navigate the River Jade from the sea to Wilhelmshaven.
2. *Obligation to report to the shipping authorities in the case of vessels carrying sodium hydroxide.*
In the case of vessels carrying sodium hydroxide to and from the ICI plant, the regulations concerning the obligation to report to the shipping authorities in accordance with §58 para. 2, 3 and 4 of the traffic regulations or waterways navigable by seagoing vessels in the Federal Republic of Germany are in force.
3. *Passing Distances:*

3.1. Overtaking or passing vessels not confined to the channel must observe a passing distance of at least 150 m. from vessels with a capacity of less than 7,000 d.w.t. carrying substances as per No. 1 above.
3.2. Vessels with a capacity of less than 7,000 d.w.t. carrying substances as per No. 1 above must observe a minimum distance of 150 m. when passing vessels confined to the channel and vessels riding at anchor and when overtaking all vessels.
3.3. In cases of doubt, the appropriate instructions for the observance of these regulations are to be obtained in good time from the VHF radio station of the Wilhelmshaven Radar and Information Service.

4. *Prohibition to encounter and to overtake*

4.1. Vessels with a capacity of less than 7,000 d.w.t. carrying substances as per No. 1 above may encounter or overtake neither each other nor all other vessels with a capacity of more than 3,000 d.w.t. on the following stretches of the Jade:
Between Buoy Nos. 1/2 and 7/4,
17/14 and 23/20,
33a/32 and 41/40.
4.2. Vessels confined to the channel have right of way on the above-mentioned stretches.
4.3. The observance of these directions will be controlled and, if necessary, regulated by the above-mentioned VHF radio station, whose instructions are to be followed.

5. Vessels with a capacity of less than 7,000 d.w.t. carrying substances as per No. 1 above are to report in good time to the above-mentioned VHF radio station via radiotelephone on Channel 18 (shortly Channel 20) before reaching the stretches named in 4.1 above.

Particular atttention is drawn to the observance of the obligation to the shipping authorities prescribed as per Section A, Part II, No. 3 of the additional regulations to the traffic regulations for waterways navigable by seagoing vessels in the Federal Republic of Germany of the Wasser- und Schiffahrtsdirektion Nordwest in the version of 8th February, 1984.

Regulations Within the Entrance to the Sea Lock – New Outer Harbour – (Neuer Vorhafen) and the Sea Lock in Wilhelmshaven (extract of rules):

1. Areas within the Outer Harbour and the Sea Lock belong to the safety zone of Naval Base.
2. Port Authority within these areas is the Naval Port Captain.
3. Traffic direction inward and outward Sea Locks is performed by Wasser- und Schiffahrtsamt Officials.
4. Use of port facilities may be restricted or refused in consequence of certain reasons if deemed necessary by Port Authorities.
5. Vessels with dangerous cargoes have to obtain special authorisation issued by Port Authorities and civil permission before entering.
6. Vessels exceeding 150 g.r.t. may be obliged to take a Harbour Pilot.
7. Vessels are obliged to give notice to the radio station "Wilhelmshaven-Lock" on VHF Channels 16/13 before entering. Naval radio station is operating on VHF Channels 16/11.
8. Lock signals and preliminary lock signals are to be observed. This applies also to signals given by Naval Authorities.
9. Military safety zones must be passed at reduced speed but without delays. Bow anchors must be kept ready to drop.
10. Sailing vessels may not hamper other vessels.
11. Only in cases of distress is it allowed to go alongside within the Outer Harbour.
12. Photographing, fishing, bathing, diving, use of pyrotechnics and operation of position-finding devices and ship's wireless station – exempt for navigational use – is not allowed.
13. Pollution of water within harbour areas is prohibited.

DEVELOPMENTS: *Liquid Gas Berth:* To the North of Mobil Oil A.G. The existing ICI Terminal (see "Tankers") is planned to be extended for transhipment of L.N.G.

"Lower Saxony Bridge" (Niedersachsen Bridge): The "Niedersachsen Bridge" is to be extended. It is planned to provide facilities for the loading and discharge of large vessels up to 250,000 d.w.t. with dry and liquid bulk cargoes.

Dredging: Maintenance dredging in progress.

ANNEX NO. 1:
(List of dangerous substances which have to be reported) Annex III to the traffic regulations for waterways navigable by seagoing vessels in the Federal Republic of Germany:

1. *Liquefied Gases*	*IMDG Code No.*

3. *Mineral (crude) oil and mineral oil products*

4. *Remark:*

4.1 Substances not covered by IMDG Code are marked above with*.
In force since 1st March, 1983.

ANNEX NO. 2: *Data of Wilhelmshaven Sea Lock:*
Operation hours of Wilhelmshaven Sea Lock:

Monday-Friday	0600 – 1830 hrs.
Saturdays	0630 – 1600 hrs.
Sundays and holidays	0800 – 1600 hrs.

Beyond these hours the lock will be operated when service is ordered at least 2 hours before end of normal working hours (call Lock Master, VHF Channel 16/13 or Tel: 30 40 84/26 311) as follows:

Monday-Friday		0500 – 0600 hrs.
	and	1830 – 2200 hrs.
Saturdays		0500 – 0630 hrs.
	and	1600 – 2200 hrs.
Sundays and holidays		0600 – 0800 hrs.
	and	1600 – 2000 hrs.

Dimensions of Wilhelmshaven Sea Lock:

Length between gates	390 m.
Length usable	360 m.
Breadth between lock-basin walls	60 m.
Breadth between fenders	57 m.
Depth (above mean high tide)	14.75 m.

(Vessels in ballast up to 250,000 d.w.t. have passed without difficulties.)

In case of doubt, German text of lock regulations is authoritative.

ANNEX NO. 3

Standard Form

Wasser- und Schiffahrtsamt
Wilhelmshaven Wilhelmshaven, the......... of 1984
3-31-NVi /84

Official Permit of Navigation
No. /84

The Master of the tanker "..........................." has been granted official permission to navigate the Jade shipping channel on the grounds of the application made by the Agency................................, dated the .... of .... 1984 and in accordance with the stipulations contained in §57 subparagraph 1, No. 1 of the National Maritime Shipping Routes regulations (Seeschiffahrtsstrassenordnung) of the 3.5.1971 (Federal Gazette Bulletin 1, page 641), amended by the fifth ordinance for the amendment of the national maritime Shipping Routes Regulation dated the 16.2.1983 (Federal Gazette Bulletin 1, page 87). The transfer of this permit is forbidden unless authorised by the Waterway Authority (Wasser- und Schiffahrtsamt) Wilhelmshaven.

The validity of this permit expires on the .... of .... 1984 and applies to a single passage of the shipping channel in both directions. Such permission does not authorise the holder to encroach on or to prejudice the rights of third parties or to encroach on or to take into use objects being in possession of others neither does it supercede any necessary administrative measures in connection with any other lawful regulation or any agreements of a private and legal nature which may be, if occasion arises, concluded with the Government of the Federal Republic of Germany.

The above permit has been granted in accordance with the instructions laid down in the following documents:

(a) The application submitted by the Agency ....
dated the........... of 1984

(b) The National Maritime Shipping Routes Regulation of the 3.5.71 (Federal Gazette Bulletin 1, page 641) in the version of the 1.3.1983 (FGB 1 page 87-97).

(c) The proclamation of the Wasser- und Schiffahrtsdirektion Nordwest in connection with the National Maritime Shipping Routes Regulation dated the 1.3.1983 in the version of the 10th of January 1984 (official gazette No. 27 of the 8th of February 1984).

(d) The International Regulations for Preventing Collisions at Sea 1972 (SeeStrO), (Federal Gazette Bulletin 1 1977, page 813) in the version of the 1.6.1983 (FGB 1 page 521-524).

(e) The Schedule of Costs of the Federal Maritime Authorities in connection with shipping dated the 19.9.1977 (Federal Gazette Bulletin 1 page 1781), finally amended 23rd December 1982 (FGB 1 page 2092).

(f) The Ordinance concerning the administration and order of the pilot districts Weser I and Weser II/Jade dated the 23.1.1981 (official gazette No. 35 of the 20.2.1981) in the version of the 23rd December 1983 (official gazette No. 3 of the 5th January 1984).

This permit is issued subject to the following conditions and stipulations:

1. Shore based radar assistance has to be ordered well in time before commencement of river passage at the Wilhelmshaven Radar and Information Centre (Revierzentrale) via "Jade-Revier-Radio" (VHF Channel 16/20).
2. In case of a visibility of less than 1,000 m. the entrance into the Jade shipping channel or the departure from a berth or anchorage is not permitted.
3. In case of wind in gale force (Beaufort 8-9) or more the commencement of river passage is not permitted.
4. The relative speed of 10 knots laid down in the tidal navigation schedule for the Jade up to the lightbuoy "..............." must be complied with, taking into account the maritime traffic in the channel.
5. Before commencement of the passage in the channel, tidal gauge must be obtained sufficiently well in advance to ensure that the tide will permit an underkeel clearance, expressed as percentage of the maximum draft of the ship during the passage until vessel is taken over by the tugs, as follows:
   (a) Inward bound:
   from sea to buoy No. 25: 10%
   from buoy No. 25 to jetties: 8.5%
   (b) Outward bound: 15%
6. Before commencement of the passage, it is essential to ensure that the complete propulsion and steering equipment as well as all other manoeuvre and anchor devices are capable to operate without any restrictions, even when subjected to the increased stresses resulting from extreme manoeuvring conditions. Should, for any reason whatsoever, the passage in the channel need to be interrupted, the immedate assistance of sufficient tugs must be requested in order to maintain the ship on its course in the shipping channel, or if necessary, to allow the ship to be turned within the channel, taking the draft into account.
7. The turning or mooring manoeuvre must be carried out with adequate assistance of tugs in the manner mandatory in the harbour of Wilhelmshaven. Up to fresh breeze (5 Beaufort) total pulling force of at least ....tons is necessary.
   With strong breeze (6–7 Beaufort) a pulling force of at least ....tons is necessary.
   When mooring at low tide (to be considered only at a draft less than 16 m.) the total pulling force has to be increased respectively at least for another ....tons additionally.
   The total pulling force must be distributed among at least 6 tugs.
8. The stipulations contained in the above paragraphs 1–7 apply also to the casting-off manoeuvre and to the subsequent return seaward passage. For the casting-off manoeuvre, depending on wind conditions and with agreement of the pilots, the number of tugs and total pulling force may be reduced, as long as the safe execution of the manoeuvres is ensured.

This permit is issued subject to the following stipulations and instructions.

The right to issue any future necessary additions, amendments or supplements to the above instructions, or the right to cancel the permit are reserved, should this be deemed necessary to ensure the safety and the easy flow of shipping traffic or the prevention of dangers caused by shipping operations.

This permit can be cancelled immediately when one of the above specified conditions and for stipulations is not observed.

Charges:

In connection with the issue of this permit and in accordance with the scale of charges (No. 2) of the Schedule of Costs of the Federal Maritime Authorities dated the 19.9.77 (Federal Gazette Bulletin I, page 1781) finally amended 23rd December 1982 (FGB I page 2092)
a fee of ....DM
has been laid down.
In addition and in accordance with §2 (2)
of the above schedule, expenses of ....DM
The total sum due is ....DM

These charges should be made payable to account number 290 010 11 of the Bundeskasse Bremen with the Landeszentralbank Bremen, quoting the following cash remark "1203 – 111 01 WSA Wilhelmshaven", free of charge to the recipient, not later than the ....

Payments to any account other than that quoted will be disregarded.

Advice in respect of judicial right:

An appeal against this decree can be lodged with the local maritime authorities, Wasser- und Schiffahrtsamt Wilhemshaven, Mozartstrasse 32, within one calendar month, either in writing, or by appearing in person to register an appeal.

In cases of doubt, the German issue of this permit is authoritative.

Der Vorstand
des Wasser- und Schiffahrtsamtes
Wilhelmshaven
Im Auftrage

Seeoberkapitan

SHIPMASTER'S REPORT: Mobil Sea Island (Platform):

Position: Between Jade River Buoy Nos. 18 and 19.

Pilotage: Sea Pilots (2) board/leave at Deutsch Bucht Light Vessel by helicopter.

Berthing Pilots (2) board/leave about 2 to 3 miles North of Sea Island by launch.

Pilotage straightforward to Weser Light Vessel where river passage begins.

Two bad bends here make strict attention to steering and helmsman necessary.

Passage Time:

Inward (VLCC – half cargo)		
	Sea Pilotage	3 hours 50 minutes
	Berth Pilotage	54 minutes
	Mooring	57 minutes
	Pilotage distance	41 miles
Outward (VLCC – Ballast)		
	Berthing Pilotage	39 minutes
	Sea Pilotage (to 8 miles South of Light Vessel)	2 hours 24 minutes
	Pilotage distance	31 miles

Helicopters: Base for the 3 German rivers at Wilhelmshaven.

First contact 1 to 2 hours before arrival at Deutsch Light Vessel via Norddeich Radio Channel 16-27 when ETA confirmed and that vessel is familiar with helicopter procedures.

Thereafter continuous watch on Channel 16 VHF until helicopter contact will require continuous calling on 410 kcs and listening out on Channel 9 VHF until operation completed.

Berthing/Unberthing: Carried out at slack water only. Deep laden VLCCs on HW only. Ballast or half-loaded VLCCs on either slack water. Deep laden VLCCs can only proceed inward on flood tide.

River passage at Buoy No. 3 begins about 4 hours before local HW at Wilhelmshaven and is proceeding according to fixed tide schedule.

Minimum underkeel clearances to be observed:

1. Inward bound:
   (a) from sea to Buoy No. 25: 10%.
   (b) Buoy No. 25 to jetties: 8.5%.
2. Outward bound:
   jetties to sea: 15%.

Tugs: Six tugs used for any VLCC movement, 1 forward, 1 aft and 4 "pushers". Additional tugs have to be ordered well in advance.

Moorings: Standard VLCC mooring arrangement. Springs run out first.

Cargo: 4×16 in. Chicksan booms available. Discharge rates compatible with modern VLCC facility. Official outturn figures average 1.5% less than ship figures.

Crude Oil Washing: Subject prior permission this is allowed.

Air Pollution: Monitoring of gas emission from tank venting system carried out during ballastings. If readings high, ballasting rate must be adjusted to keep readings within set parameters (parameters not known).

Documentation: As per "Guide". *Important that Certificate of Financial Responsibility is on board otherwise vessel fined (up to a maximum of D.M. 10,000).*

Shore Leave: Permitted. Ferry is on call when required from Island to mainland berth. Refinery jeep is then on call from Gate House. It is forbidden to walk in Refinery area. Taxis can be called from Gatehouse.

General: The Sea Island is in the "free port" area, therefore, no personal effects lists or other customs problems. Authorities inflexible if certification problems arise (Certificate of Financial Responsibility).

AUTHORITY:

1. *Shipping Authority:* (Competent for nautical affairs and concerns of waterway maintenance, accidents, pilotage, traffic directions and police, radar etc. within or with effect to Federal Waterways.) Wasser- und Schiffahrtsamt (Waterway and Shipping Office) Wilhelmshaven, Mozartstrasse 32, 2940 Wilhelmshaven. *Tel:* (04421) 26311 or (after office hours) (04421) 41287. *Telex:* Wsawr 25 34 07. *Contact:* Captain Stockhorst or Captain Hanken.
2. *Port Authority:* (Competent for harbour affairs within harbour limits, exempt municipal and military areas). Niedersachsisches Hafenamt (Lower Saxony Port Office), Wilhelmshaven, Kieler Strasse 31, 2940 Wilhelmshaven. *Tel:* (04421) 26247 Port Captain. *Contact:* Captain Boege or Captain Schmidt.
3. *Municipal Port Authority:* (Competent for harbour affairs within municipal harbour limits) Stadt Wilhelmshaven, Rathausplatz, 2940 Wilhelmshaven. *Tel:* (04421) 297786. *Contact:* Captain Muehlinghaus.

NOTES

Ghana

GENERAL:

HEALTH: *Pratique Procedure:*

1. The Port Health Officer or authorised officer shall grant pratique to a ship as soon as the following conditions shall have been properly complied with:

(a) The Master shall complete accurately to the best of his knowledge and belief a Maritime Declaration of Health Form.

The Declaration shall be countersigned by a ship's surgeon if one is carried and shall be delivered to the Port Health Officer or authorised officer.

(b) The answers to the questions in the Declaration shall clearly indicate the absence of any infectious disease on board during the voyage or on arrival of the ship, and that the ship has not called at any infected area or had direct contact during the voyage with any ship from any infected area or having on board any case of infectious disease, and shall satisfy that Port Health Officer or authorised officer that the granting of pratique shall not be attended by any danger.

(c) The Master or any other person on board including a ship's surgeon, if one is carried, shall accurately and, completely answer any other questions put to him by the Port Health Officer or authorised officer in regard to the sanitary condition of the ship, the health of the passengers and crew or of any ship with which there has been direct contact during the voyage, and shall furnish any such officer with all such information and assistance as he may reasonably require.

2. In the event of any suspected disease or fever on board a ship before arrival at the port and any other circumstances requiring the attention of the Port Health Officer, the Master shall:

(a) If the ship is equipped with a suitable radio transmitting apparatus and is due to arrive at a radio receiving port, send before arrival, either directly to the Port Health Officer or through an Agent approved by him, a radio message to that effect.

(b) If the ship is not so equipped or is due to arrive elsewhere than at a radio receiving port, notify the Port Health Officer immediately on arrival of the presence on board of such infectious disease, or suspected conditions.

Any radio message sent shall:

(a) embody such of the items of information as are applicable;

(b) be sent so as to reach the Port Health Officer not more than 12 hours, and not less than 4 hours, before the expected arrival of the ship;

(c) if it is in code, conform with the section relating to standard quarantine messages of the 1931 International Code of Signals.

3. Any ship arriving at its first port of call in Ghana from a foreign port shall be deemed to have come from an infected local area, and shall be required to comply with the provisions as to flags and signal lights as prescribed until granted free pratique by the Port Health Officer or authorised officer.

The following signals are to be shown on arrival within 3 miles of land, by vessels requiring or required to show their state of health:

(a) in the daytime i.e. during the whole of the time between sunrise and sunset.

(i) "Q" flag signifying "my ship is 'healthy' and I request free pratique" or;

(ii) "Q" flag over first substitute ("QQ") signifying "my ship is 'suspect', i.e. I have had a case or cases of infectious disease more than 5 days ago, or there has been unusual mortality among the rodents on board my ship" or;

(iii) "Q" flag over "L" flag ("QL") signifying "my ship is infected" i.e. I have had a case or cases of infectious disease less than 5 days ago.

(b) by night i.e. during the whole of the time between sunset and sunrise, a red light over a white light, the lights being not more than 6 ft. apart shown at the peak or where the signal can best be seen from the shore, and exhibited only when the ship is within the presence of a port signifying "I have not received free pratique".

(c) Any ship displaying the appropriate signal in accordance with the provisions of paragraph (3) above shall, as soon as practicable, be visited by the Port Health Officer or authorised officer, who shall grant pratique or take such other steps as may be necessary before granting pratique.

4. A ship which has been granted free pratique at its first port of call in Ghana which has not been declared an infected area shall not be required to obtain further pratique at another port in Ghana.

Vaccination requirements in respect of persons arriving in Ghana

All officers, crew and passengers of every ship arriving at any port in Ghana shall be in possession of valid Certificates of vaccinations against yellow fever and cholera.

Where a person arrives at any port in Ghana and is unable to produce a valid Certificate as required, the Port Health Officer or the authorised officer shall require such person to be vaccinated on the spot or to present himself at a place or places for the purposes of being vaccinated.

Under no circumstances should any officer, crew or passenger disembark if he is not in possession of any valid Certificate against yellow fever and cholera.

CUSTOMS REGULATIONS: *Pre-Entry System:*

Customs Authorities have introduced a 'Pre-Entry System' whereby importers are expected to process their Customs Bills of Entry in advance, at least 7 clear days prior to vessel's arrival, failing which a penalty is imposed by Customs on importer/consignee. To avoid a situation where importers will hold Agent/Owners responsible for refund of penalties for late submission of Manifest with Customs, it is essential that shipowners are requested to let Agent receive all cargo manifests at least 10 days prior to vessel's arrival in order for Agent to lodge with Customs Authorities advance manifest for the benefit of importers. Recently, most cargo documents have been received late and in some cases manifests have been received when vessel is in port. It is suggested that manifests are airfreighted to ensure early receipt.

SALTPOND (Bonsu): 05.05 N. 01.00 W.

LOCATION: 9 km. South of Saltpond village in position Lat. 05° 04′ 47″ N., Long. 01° 00′ 25″ W.

TUGS: One tug available to assist with berthing and connecting hoses.

BERTHING: Ship to ship transfer through 1,200 ft. floating hose. Depth of water 85 ft.

The platform "Agpi" is permanently moored. The storage vessel is named "Farmer". Loading time for 20,000 tons is 24 hours. Product is named "Saltpond Crude" or "Bonsu Crude".

OPERATOR: Agripetco Ghana Inc.

TAKORADI: 04.53 N. 01.45 W. (See Plan Book)

PORT LIMITS: Are shown on Admiralty Chart 3102 and covers an area of about 1.5 miles to 2 miles outside harbour entrance.

DOCUMENTS:

Customs:

2 Stores Lists.
2 Lists Crew Personal Effects.
1 Bill of Health.
6 Crew Lists with dates of yellow fever inoculations.
6 Passengers Lists or 'Negative'.
6 Vessel's Itinerary Lists.
1 Freighted Cargo List.
1 Unfreighted Cargo List.
1 Set Bills of Lading.
1 Clearance from last Port.

Immigration Officer:

1 Crew List.
1 List Ports of Call.
1 List of Passengers, if any.
All crew and Passengers' Passports.
Advice to Immigration of any stowaway.

PILOTAGE: Pilotage compulsory for ships berthing alongside or on the moorings. Pilot boards within port limits. International code signals used. Pilotage for entering vessels from 0600 – 1800 hrs. and for leaving vessels from 0600 – 2300 hrs.

ANCHORAGES: Vessels may anchor outside the harbour without Pilot. Depth at moorings 22 ft. to 35 ft.

RESTRICTIONS: Depth at harbour entrance 35 ft. MLW.

MAX. SIZE: Up to 28 ft. draft for berthing alongside. Up to 33 ft. at buoys. Also see "Tankers".

HEALTH: See "General" before first Ghana port.

RADIO: Radio Takoradi. The station is a Coast Station and only operates on H.F. and M.F. equipment. The call sign for this station is 9GA.

VHF: Signal station Channel 14. 24 hour service for all information with regard to Pilots, berthing, etc.

RADAR: No radar services available.

TUGS: Tugs normally join the vessel outside port entrance. Tugs' assistance is compulsory to be ordered through Signal Station. 2 tugs of 1,350 h.p. and 1 of 850 h.p. available.

BERTHING: Additional coir springs from shore required at all berths.

Cargo discharging and/or loading at the buoy berths is by ships' own gear.

Berth	*Max. Length Vessel*	*Max. Draft*
Manganese	520 ft.	28 ft. 0 in.
2 Wharf	550 ft.	26 ft. 0 in.
3 Wharf	500 ft.	28 ft. 6 in.
4 Wharf	600 ft.	28 ft. 0 in.
5 Wharf	270 ft.	28 ft. 0 in.
6 Wharf	500 ft	29 ft. 0 in.
Bauxite	505 ft.	32 ft. 0 in.
Coal Wharf	250 ft.	14 ft. 0 in.
Oil Wharf	600 ft.	29 ft. 3 in.
1 Buoy	550/610 ft.	F.32 ft. 6 in. A.34 ft. 0 in. (If ship 610 ft. max. 27 ft. 6 in.)
2 Buoys	550 ft.	F.30 ft. 6 in. A.31 ft. 0 in.
3 Buoys	570 ft.	27 ft. 0 in.
4 Buoys	520 ft.	F.27 ft. 0 in. A.30 ft. 0 in.
5 Buoys	510 ft.	F.24 ft. 0 in. A.27 ft. 0 in.
6 Buoys	480 ft.	F.24 ft. 0 in. A.26 ft. 0 in.
7 Buoys	450 ft.	F.23 ft. 0 in. A.25 ft. 0 in.
8 Buoys	400 ft.	F.21 ft. 0 in. A.22 ft. 0 in.
9 Buoys	340 ft.	18 ft. 0 in.

CRANES: There are 35 Portal Cranes at the Port. Of these 15 cranes of 3 tons each and 1 crane of 15 tons lifting capacity are at the wharf berths for loading and discharging vessels. The remaining 19 cranes – 6 of 10 tons, 1 of 7 tons, 1 Butters crane of 15 tons and 9 of 3 tons are placed at the West Wharf to cater for the loading and discharging of logs and other commodities. Two of 5 tons are at the Cargo Platform to load and discharge other commodities. In addition there are 20 gantries for loading and discharging sawn timber.

There are no cranes at the buoy berths and ships are expected to use their own gear. Also, there are no floating cranes at this Port.

BULK CARGO FACILITIES: There are 2 berths for the loading of dry-bulk cargo – manganese ore and bauxite. In the case of grain, coal, fertilisers, sulphurs, copra, etc., discharge can be done at any of the wharf berths. The loading rate of manganese ore is approximately 333 long tons per hour; and the loading rate of bauxite is 330 long tons per hour.

SPECIALISED CARGO-HANDLING FACILITIES: The port does not have container or Ro/Ro handling facilities.

BRIDGES: There are no bridges at the port.

STEVEDORES: Berthing meetings are held daily between the Port Authority and all Port Operators with the view to determining ETA and EDD of vessels to enable the stevedoring companies to arrange for gangs and determine the relevant rates and charges.

Normal working hours: weekdays 0700 hrs. to 1200 hrs. and 1400 hrs. to 1700 hrs. Saturdays 0700 hrs. to 1200 hrs.

Gangs required for Sunday work should be ordered before 1130 hrs. previous day. For weekday work, gangs should be ordered before 1500 hrs. previous day.

MEDICAL: It is absolutely necessary for the Agents to be notified in advance of the required medical attention so that necessary arrangements for medical exercise be carried out immediately on the vessel's arrival. Also see "General – Health".

TANKERS: Oil tankers moor on the North side of Lee breakwater. 1 berth suitable for ships of 600 ft. length, draft 29 ft.

Pipe-line: 805 m. long, pipe size 8 in. for all grades of petroleum and Bitumen.

Discharge Rate:

Petroleum	–	Premium Mogas	150 t.p.h.
		Regular Mogas	150 t.p.h.
		A.G.O.	200 t.p.h.
		Kerosene	200 t.p.h.
Bitumen	–	80/110–142 cu.m./hr.	
		60/70 –154 cu.m./hr.	
		12/18 –337 cu.m./hr.	

DENSITY: Salt water.

FRESH WATER: There is fresh water at all wharf berths and delivery is by means of water hydrant and/or water barge of 448,000 gallons capacity. Fresh water is also delivered at the buoy berths by 2 water barges (capacity 200 tons). The rate of delivery is as follows:

By hydrant	–	11,000 g.p.h.
By barge	–	11,000 g.p.h.

FUEL: 2 grades available, Fuel and Gas Oil. Advance notice is necessary.

Fuel – 1,500 gallons per second through pipe-lines.
Gas Oil – 37.8 gallons per second through mobile tanker.

FIRE PRECAUTIONS: 6 firemen ordered to standby with fire engine. "No Smoking" notices are posted at considerable distances from the tankers.

CONSULS: There are no consuls in this Port. High Commissioners and Ambassadors are in Accra.

REPAIRS: Minor repairs can be effected, slipway for vessels up to 500 tons. Small drydock for vessels up to 100 ft. length.

DRY DOCK: There is no large drydock in this port but there is 1 small drydock capable of accommodating vessel of 100 ft. long, 25 ft. wide and 8.5 ft. draft.

SURVEYOR: Lloyds representation only operates in this Port.

GANGWAY/DECK WATCHMEN: Provision of Gangway, Deck and Hatch Watchmen is absolutely necessary to prevent stealing, pilferage and smuggling on board ships.

HATCHES: Hatches are normally opened and closed by the stevedoring gangs or, at times, by the ship's crew.

CUSTOMS ALLOWANCES: Quantity permitted for each member of the crew to be held Out of Bond is as follows: Tobacco 100 grammes; Spirit 0.75 litres; Wine 0.75 litres.

CARGO GEAR: Load/discharge is affected by the Port Authority's shore gear. There is 1 heavy lift crane of 15 tons capacity which is used for heavy lifts. Where the cargo exceeds the lifting capacity of the shore crane, the ship's jumbo derrick is sometimes used.

REPATRIATION: The Immigration Department is responsible for signing on and off on the advice of the shipping company.

AIRPORT: The distance of the airport from the Port is approximately 2 miles. It is served by regular airline to and from the capital city of Accra; and the number of flights is 2 per week.

TIME: The Greenwich Meridian Time is applied to this Port as the Greenwich Meridian passes through this country.

HOLIDAYS: The holidays at the Port are as follows; New Year's Day (1st January); Redemption Day (13th January); Independence Day (6th March); Good Friday (non-working day); Holy Saturday; Easter Monday; Republic Day (1st July); Christmas Day (25th December) (non-working day); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Telephone 999 for all 3 services.

TELEPHONES: Presently no arrangements exist for installing telephone on board ships.

SERVICES: There is no special service for tank cleaning, tank-washing or compass adjustment.

SHORE LEAVE: Every member of the crew is free to go ashore at any time of the day or night after the Immigration Officer has issued shore passes to that effect on the ship's arrival.

IDENTIFICATION CARDS: Seamen's Book or Passport is sufficient to identify any seaman. Also see "Shore Leave".

REGULATIONS: Ship's are not allowed to discharge on board explosives or petroleum without prior approval of the Port Manager. Ships are not allowed to berth after 1800 hrs.

DELAYS: Delays in berthing a ship occur when all berths are occupied; delays also occur when repairs are being carried out on any of the berths.

AUTHORITY: Ghana Railway and Ports Authority.

AGENT: Scanship (Ghana) Limited, P.O. Box 329, Takoradi. Tel: 35.31, 36.50, 35.33. Telex: 2181 and 2182 Accra. Cables: "Scanship Takoradi".

TEMA: 05.38 N. 00.01 E. (See Plan Book)

DOCUMENTS:

Arrival.

2 copies List of Stores.
2 copies Crew Declaration Forms.
1 Bill of Health.
6 Crew Lists with vaccinations lists for yellow fever.
6 copies of Passenger List (or "nil" passenger list).
Valid certificates for cholera and yellow fever vaccinations.
6 lists of Ports of Call.
2 Freighted Cargo Manifest.
7 Unfreighted Cargo Manifest.
1 B/L's set.
Port clearance from Last Port.

Departure – Port clearance visaed by Customs.

PILOTAGE: For Main Harbour pilotage for all vessels of more than 100 net tonnage, when arriving or leaving harbour, or shifting berth, but for both Fishing Harbours obtainable on request.

Time of pilotage as follows for Main Harbour:

(a) Dry cargo vessels: arrivals 0600 – 1800 hrs.; departure 0600 – 2300 hrs.
(b) Tankers: arrivals daylight only; sailings 0600 – 2300 hrs.
(c) Valco-carriers: all handling, during daylight only.

For fishing harbours: during daylight only.

Vessels arriving or wishing to enter harbour must await Pilot between E. and S.W. off outer water light, about 1 mile distance. Ships embarked by Pilots from 0600 hrs., according to time of arrival Quarantine Anchorage.

ANCHORAGES: Good anchorage, three-quarters to two miles from E.N.E. to S.W. off main entrance with depth 30 ft. to 60 ft. with good holding ground. Eastern area of anchorage is more comfortable, without additional swell reflected from main breakwater.

RESTRICTIONS: Ships' Arrival, 0600 – 1800 hrs. (on special request to 2000 hrs.). Ships' Departure, 0600 – 2300 hrs.

MAX. SIZE: Ships up to 800 ft. and draft of 32 ft.

HEALTH: All crew require valid certificates of vaccination against yellow fever which are inspected by Port Health Authorities. In case of any suspected disease or fever on board. Agent of the vessel should be notified in advance by radio. Also see "General" before first Ghana Port.

RADIO: All messages to Agents through their own VHF radio – Channels 6, 12 and 20.

VHF: The ports are equipped with VHF radio telephones, Channels 13, 14 and 16. Channel 16 is the international listening channel and Channel 14 is the port working channel. Channel 13 can be used if required, or if the other channels are not available. Signal station request LOA and draft in feet and last port of call.

TIDES: Maximal tides rise 6 ft. 2 in., minimal tides rise 3 ft.

PREVAILING WINDS: Light to fresh breeze from W. and S.W. during all year, except December to February when N.E. Harmathan is dominating with poor visibility. Dangerous winds are tornadoes from East, May to July, but occasionally isolated tornadoes are to be expected from January to December. There is a swell in harbour, especially after tornadoes, when lying alongside the berths.

HARBOUR: Harbour consists of 3 basins:

(a) The large basin of Main Harbour, formed by Main Breakwater 6,250 ft. long, and Lee Breakwater, 3,650 ft. long.
(b) Outer Fishing Harbour, East of Lee Breakwater.
(c) Inner Fishing Harbour on Northern side of former one.

Entrance to Main Harbour 800 ft. wide and together with the approaches has minimal depth of 35 ft. (Admiralty Chart Datum to which all depths refer).

Ships entering Harbour 2–3 cables before entrance roll heavily, up to 4–8° during some seasons. Ships deeper than 30 ft. enter only during high tide with maximum possible draft limit 32 ft. during neap tide. Bottom of harbour consists of sand and mud, with frequent hard rocky ground. Depth increases in direction of Main Breakwater. Two pairs of mooring buoys in depth of 34–36 ft. Inside harbour, alongside Lee Breakwater is an Oil Wharf for tankers with depth of 34 ft.

Obstruction: Sunken fishing vessel at No. 3 Buoys.

TUGS: Use of 1 tug compulsory for all ships over 2,000 g.r.t. and 2 tugs over 5,000 g.r.t. (but at Pilot's option), and 2 tugs compulsory for tankers and Valco-carriers. 3 Diesel Tugs 1,380 h.p. in service. 2 tugs available for duty between 0600 and 2100 hrs., otherwise 1 tug. Tug's wires to be used.

BERTHING: Quay No. 1 – 4,300 ft.; Quay No. 2 – 2,900 ft.

Berths	*Length*	*Max. Draft*
1	600 ft.	31 ft. 6 in.
2	600 ft.	28 ft. 6 in.
3	480 ft.	25 ft. 0 in.
4	600 ft.	25 ft. 9 in.
5	600 ft.	25 ft. 6 in.
6	600 ft.	24 ft. 6 in.
7	600 ft.	25 ft. 0 in.
8	600 ft.	25 ft. 0 in.
9	600 ft.	25 ft. 0 in.
10	600 ft.	25 ft. 0 in.
11	600 ft.	25 ft. 0 in.
12	600 ft.	25 ft. 6 in.
Oil Berth	Ships up to 800 ft.	32 ft. 0 in.
Valco Berth	Ships up to 575 ft.	32 ft. 0 in.

Berths No. 6 and 7 for loading cocoa-beans, equipped with 4 high-speed conveyers, transporting bags directly to ship's hold, from 4 cocoa sheds (totalling 2,400,000 cu. ft.) situated at Westerly corner of harbour.

Usually ships moor starboard side to berths No. 1, 2, 6–9 and portside to berths No. 3, 4, 5, 10–12.

SPECIALISED CARGO-HANDLING FACILITIES: 3 special berths for bulk cargoes only. Berth No. 10 for grain only. It is equipped with 1 elevator for sucking/discharging.

Valco Berth for handling bulk cargoes such as alumina, pitch/coke and alminium fluoride. It is also equipped with 2 elevators for sucking/discharging.

Berth No. 8 is partly meant for pumping/discharging of liquid/bulk chemicals such as tallow and alicane.

Cranes, Outloaders:

Quay No. 1	Portal Cranes	Cap.	(2) 5 ton	(2) 7.5 ton	(6) 3 ton
Quay No. 2	,, ,,	,,	(2) 5 ton		(6) 3 ton
		,,	(1) 5 ton	(3) 10 ton	

Cocoa Conveyor System: 4 Outloaders, each 30-35 t.p.h.
or : 2 Outloaders on high speed =70 t.p.h.

STEVEDORES: Available. Dry cargo is handled from 0730 hrs. to 1230 hrs. and from 1400 hrs. to 1700 hrs. on normal working hours, and overtime after 1700 hrs. to 2000 hrs. (for finishing ships 2030 hrs.) and on Saturdays p.m., Sundays and holidays. Oil Wharf and Valco Berth are working around the clock.

Gangs required for Sunday work should be arranged before 1130 hrs. previous day. For weekday work, gangs should be arranged before 1500 hrs. previous day.

Stevedores provided by Ghana Handling Company Ltd., Atlantic Port Services and Speedline Stevedoring Company Ltd.

TANKERS: Tankers always moored starboard side to dolphins, and ropes to breakwater and bow-buoys. Crude oil pumped to refinery, by ship's pumps, a distance of 18,000 ft.

North of Oil Wharf about 2 cables on same breakwater is Valco Berth for discharging of bulk materials for "Valco" aluminium smelter (mostly alumina). Narrow channel 250 ft. wide with depth 33 ft. 6 in.

FRESH WATER: Water pipes alongside all wharves, and under State's sanitary control.

FUEL: Fuel and diesel-oil available by tanker-trucks only. No coal-bunkers available.

DENSITY: About 1024.

FIRE PRECAUTIONS: Oil tankers when moored alongside must have "Fire Wires" hanging over the bow and stern on the outboard side of the vessel. These must be lowered to the water's edge and securely made fast on board so that they can be used to tow the ships away if necessary in an emergency. Two large fire fighting pumps and "snorkels" are mounted at the oil wharf. A floating boom to prevent the spread of oil spillage must be put in position around tankers loading and discharging. The Master of the ship should be warned to lower the guy ropes securing the boom to the ship, so that the boom is afloat at all times and not lifted up as the vessel's draft changes.

REPAIRS: Good marine workshop.

DRY DOCKS: There are two (2) drydocks.

Drydock No. 1: Serviced by 60 tonnes and 20 tonnes travelling cranes. Capacity: 100,000 d.w.t. Length: 910 ft. (277.4 m.). Width (entrance): 149 ft. (45.4 m.) Width (inside wall): 155 ft. (47.2 m.). Draft (entrance): 22 ft. (6.7 m.) (to be deepened in future). Flooding time empty dock: 2 hours (approx.). Dewatering time: 4 hours (approx.).

Drydock No. 2: Serviced by 45 tonnes and 25 tonnes mobile cranes. Length: 350 ft. (106.7 m.). Width: 44 ft. (13.4 m.). Draft (entrance): 18 ft. (5.5 m.). Flooding time of empty dock: 4 hrs. (approx.). Dewatering time: 4 hrs. (approx.).

Also there is one slipway with length 127 ft. (38.7 m.); width: 41 ft. (12.5 m.) and hauling capacity: 150 tonnes.

Fitting out quay: 600 ft. (182.9 m.). Draft: 14 ft. (4.3 m.) to be deepened. Crane: 15 ton travelling crane.

SURVEYORS: Lloyds and Bureau Veritas are represented at the port.

GANGWAY/DECK WATCHMEN: Services of watchmen necessary and compulsory.

HATCHES: Opening/closing of hatches is normally carried out by stevedores.

CUSTOMS ALLOWANCES: Per crew member: Tobacco: 100 grammes; wine: 0.75 litres; Others: 0.75 litres.

REPATRIATION: Facilities exist for effecting crew changes.

AIRPORT: Situated 18 miles from the port.

TIME: GMT. No alterations during the year.

HOLIDAYS: New Year's Day (January 1st); Independence Day (March 6th); Good Friday; Holy Saturday; Easter Monday; Labour Day (May 1st); Republic Day (July 1st); Christmas Day (December 25th); Boxing Day (December 26th). Cargo work can be arranged on those days on request.

SHORE LEAVE: Every member of the crew is free to go ashore at any time of the day or night after the Immigration Officer has issued shore passes to that effect after clearing inwards.

IDENTIFICATION CARDS: Shore passes issued are sufficient.

REGULATIONS: No unusual regulations for the port.

POLICE/AMBULANCE/FIRE: Telephone Nos: Police: 999 and 2936; Ambulance: 999; Fire: 999 and 2822.

GENERAL: Recommended to send ETA message at least 24 hours in advance. Essential that ETA message reaches Agent's office before 1430 hrs. Monday-Thursday or before 1000 hrs. Friday for weekends because of booking of gangs. Ships from Abidjan should also send 48 hours ETA message.

DEVELOPMENTS: Provision of Container Depot.

Rehabilitation of equipment, plant and civil structures. Modernisation of oil berth.

SHIPMASTER'S REPORT: (1976)

Good W/T. D.F. signals are obtained from Accra and Lome and with this vessel's equipment Marconi Type 758E will give a reliable position to within 2 miles. The 100 fathom contour line was accurate to within 1 mile where we crossed it. Within 20 miles the land definition is excellent on Radar. There is now an Oil Rig 137° 3.2 miles from the Eastern end of the main breakwater. This is an excellent seamark and is well lit at night. Native fishing craft are met with from about 10 miles offshore and show lights when fishing at night but reliability regarding these lights is doubtful.

VHF contact with the port Signal Station is good, although there was very heavy traffic during our stay outside waiting to berth 5.5 days, but I was allowed to use the main transmitter when berthed to inform Owners that we were alongside, at anchor no restrictions are placed on vessels using their wireless transmitters.

The pilotage is efficient although the tug was late in attending us when berthing this caused no difficulty.

The entrance to the Harbour is good, plenty of water all about if you have to wait for the Pilot, which we did. (He was moving a fishing vessel, and we had to cruise for about twenty minutes, after having come to the entrance on instructions that he would board there).

There were never less than 18 ships waiting for berthing.

W/T contact with Portishead was good.

SHIPMASTER'S REPORT: (1977)

From Southwards – a strong Easterly set experienced 24 hours prior to arrival and along the coast to Cape Palmas after departure.

Radar (in our case) of the land poor until 15 miles off when ships at anchor off the port gave the first and the best targets. Breaksea Point light good and sighted at full range.

Ship really needs to be on "standby" with engines ready on approach to the 100 fathom line, when the first of the many mainly unlit and poor radar target fisherman are encountered, and really are in dense packs all along the coast in the shallower waters. There is no point in adjusting speed for a daylight arrival, the earlier the better as port operates on a mainly first-come basis. Equally of little point to try and pick a selected anchorage, ships are to be found anchored over quite a wide area – avoid as per pilot book the "prohibited anchorage" and the 10 fathom rocky shoulder that runs parallel with the coast. There are invariably 12 ships or more at anchor even some large ships completely unlit and possibly unmanned.

The port as other Masters have reported is well run, Pilots, tugs etc., well trained and competent under normal conditions. The port is overbusy and accommodating and handling far more tonnage than ever designed for and commonplace to have ships double-berthed. Essential to be well moored and precautions taken against the scend and surge that enters the harbour under certain conditions.

Communication: W/T HF poor and ship unable to make direct radio contact with Ghana until well within M/F range.

VHF: All port signals are given on Channel 14, and VHF discipline on this frequency poor when local ships are at anchor or in the near vicinity. Liner Agencies reputedly keep watch on Channel 16, but we were unable to raise them or make any contact before berthing.

Stevedores: Worked well throughout, though some delay initially experienced whilst fork-lift trucks small enough to work in our hatches and under the coamings were obtained, some pallets having to be broken down in stow to be discharged. Hours of work – actual – this is without the ship being consulted in any way, but seemingly common practice throughout the port, were 0730 hrs. non-stop through to 1930 hrs. Some pilferage – mainly of spilt milk powder, no visible signs of any security control as such. Discharge rate overall (crane and ships gear) milk powder 13 tons per gang per hour; frozen meat 8.64 tons per gang hour.

Stevedores toilets: Essential that ship arrives with overside latrines bow and stern ready and rigged.

Noting Protest: It might well be wise to include need to note protest in arrival message. We berthed late Friday to find Consulate in Accra closed as from midday for the weekend.

Stores: The point cannot be over emphasised (and all ships must be given prior warning to pre-store accordingly) that ordinary every day stores are virtually non-available and the fresh provisions (vegetables, salads, eggs and even much of the fruit) that are available are highly priced.

Shore leave: Ship was warned by other ships, the Agents, Mission Staff etc. not to go ashore at all with muggings and robberies commonplace even in daylight (wrist watches prime targets). The Agency lays on a minibus seemingly as a matter of course, to run ships' staff to and fro. We in fact with use of the above bus and local taxis did not experience any problems and found local people friendly and hard working.

AUTHORITY: Ghana Ports Authority, P.O.Box 150, Tema, Ghana. *Tel:* 2631–9 *Cables:* "Harbours". *Contact:* Commander Keith Dadzie, Director of Port Services.

AGENT: Scanship (Ghana) Ltd., P.O.Box 64 Tema. Tel. 26.51 and 25.71. Cables "Scanship Tema". Telex 2181 and 2182 Scanship Accra.

Gibraltar

GIBRALTAR: 36.08 N. 05.21 W. (See Plan Book)

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
Arrival Report, to be completed when receiving Pratique.
International Maritime Declaration of Health.
Ship's Register.
Load Line Certificate.
Derat Certificate.
Ship's Articles.
Certificate of Insurance in respect of Civil Liability for Oil Pollution Damage.
Stowaway Report.

PILOTAGE: Pilotage compulsory for all navigation (except direct *departure* from anchorage). Give notice of arrival through Agents 24 hours in advance furnishing maximum draft. Ships approach off Rosia Bay where Pilot (available day and night) boards vessel. Pilot boat painted black and flies international Pilot flag. To call Pilot: sound, and fly flag "G" or call Gibraltar Port on VHF Channel 16 and pass message on Channel 12.

ANCHORAGES: In open bay, good safe anchorage, depths vary from 5 to 40 fathoms. Vessels normally anchor in area West of Harbour Moles.

RESTRICTIONS: *Note:* British waters in the Bay of Gibraltar extend to the Median Line drawn in accordance with the 1958 Geneva Convention on the Territorial Sea and Contiguous Zone (see Admiralty Chart D 1448). However, part of those waters, lying North of 3 Qk. fl. buoys, are considered by the Spanish Authorities to be within the limits of the Port of Algeciras/La Linea (Spanish Notice to Mariners 49/1563/67 of 9 December 1967), and the Spanish Authorities have claimed Spanish port dues in respect of vessels anchoring between the Median Line and the line of buoys.

The waters in dispute form only a small part of the anchorages available to shipping calling at Gibraltar.

MAX. SIZE: If anchoring in bay, any size. Max. draft alongside, 31 ft. 6 in.

HEALTH: Vessels are usually boarded by Port Authorities off the Southern end of the Detached Mole: if everything found satisfactory Pratique is granted immediately. Masters should advise Agents by radio before arrival of any illness on board so that Port Doctor may board vessel with Port Authorities.

RADIO: Gibraltar Radio, call sign ZDK.

VHF: Communicate with Port Authorities by VHF international calling Channel 16, pass message on Channel 12, many other channels available (24 hour service).

TUGS: 7 tugs, 500 h.p. – 1,600 h.p. When required for berthing alongside, tugs meet vessels off Mole. Ship's ropes sometimes used.

BERTHING: Cruise Liners and vessels calling for bunkers or water can be berthed on both sides of Western Arm. Outer side is 490 m. long with draft up to 9.60 m. The inner side is 450 m. long and max. draft is 8.53 m. Ships of deeper draft can be accommodated on half tide basis according to tide. Vessels calling for repairs or lay up can be berthed at the Detached Mole. There are also 5 berths of 100 m. in length available to vessels discharging general and bulk cargoes.

Masters required to advise ship's draft when giving ETA. Cruise ships are only charged 25% of normal berthing charge.

Ships calling for bunkers and/or fresh water and not conducting operations involving passengers or cargo are only required to pay 12.5% of the normal berthing charges providing the stay alongside does not exceed 8 hours in addition to the bunkering/water period.

Vessels coming in solely for bunkers are exempted from tonnage dues.

CARGO HANDLING: Container berth at No. 2 Jetty available for vessels up to 350 ft. in length, max. draft 26 ft. Containers are also discharged at No. 1 Jetty.

STEVEDORES: Agents automatically advise stevedoring company on receipt of ETA from ship.

MEDICAL: Masters should advise Agents when giving ETA if medical attention is required on board. Adequate hospital facilities available.

TANKERS: Max. draft at discharging berths 31 ft. 06 in. Diameter of discharging lines 14 in. fuel oil, 10 in. diesel oil and gas oil.

DENSITY: 1025.

FRESH WATER: Available at Mole from pipe-lines, delivery rate 60/80 t.p.h. Water can also be delivered at anchorage from barge, delivery rate 40/50 t.p.h.

FUEL: A quick and efficient bunkering service is provided on a 24-hour basis at alongside and anchorage berths. Ships arriving at night are required to give prior notice before 1600 hrs. on the day of arrival. The requirement is the same on Sunday and weekdays.

Fuel of various grades is supplied to shipping throughout the year from piped installations at all alongside berths (with the exception of the Detached Mole) using the latest metered bunkering techniques. The grades include marine fuel, thin, fuel, marine diesel fuel and gas-oil. Ships at the Detached Mole and in the Commercial Anchorage were serviced by lighters. This supply to ships is handled as a joint venture by the Shell International, Mobil, Chevron, Texaco and B.P. oil companies and is managed by the Shell Company of Gibraltar Limited, who own the main share of the installations.

The bunkering installation at Gibraltar, which was the first in the world to provide metered deliveries at shipside, includes 2 Fisher-in-Line blending units to ensure rapid delivery of fuel oils of any viscosity. Oil bunkers are normally delivered at 200 – 250 t.p.h. per connection subject to the ship's acceptance capacity. Similar rapid bunkering is provided in the anchorage by a lighter of 880 tons fuel capacity and a total capacity of 1,000 tons including bulk lubricants.

GANGWAY/DECK WATCHMAN: Not necessary but available if required.

OPENING/CLOSING HATCHES: Normally effected by stevedores.

CUSTOMS ALLOWANCES: No restriction whilst on board. Crew members may bring ashore small quantity for their immediate personal use.

IDENTIFICATION CARDS: Not required.

CONSULS:

International Direct Dialling (I.D.D.) in operation.

REPAIRS: Deck and engine repairs possible. Underwater operations including repairs and cleaning of vessel's hull.

DRY DOCKS: 4 dry docks (Admiralty) available subject Naval requirements. Largest 871 ft.×125 ft., smallest 260 ft.×46 ft.

REPATRIATION: Facilities exist for repatriating Crew members.

AIRPORT: Regular flights to London (Gatwick). Distance to airport about half mile.

TIME: GMT plus 1 hour in Winter, plus 2 hours in Summer.

HOLIDAYS: New Year's Day; Good Friday; Easter Monday; May Day; Commonwealth Day (24th May); Spring Bank Holiday; Summer Bank Holiday; Queen's Birthday; Christmas Day; Boxing Day. Cargo work can be effected at overtime rates on these holidays except on Good Friday and Christmas Day when no cargo work is carried out. Bunkering is effected on any of these holidays except on Good Friday and Christmas Day.

POLICE/AMBULANCE/FIRE: Police and Ambulance 72222; Fire 73333.

TELEPHONES: Telephone can be placed onboard at cruise ship berth. Telephones can also be placed on vessels under repair at the Detached Mole, through Admiralty Telephone Exchange, cost about £10.

DEVELOPMENTS: An unstuffing shed is under construction at the Container Terminal. This shed will give a covered area of 1,200 sq.m. During 1982, 3,307 containers were landed.

GENERAL: Advisable that vessels calling for bunkers and only stopping in port for few hours should radio their requirements prior to arrival to ensure avoiding delay.

SHIPMASTER'S REPORT: 1980: Offport Call. (Updated 1982).

VHF: Lloyds on Channels 16 and 14. Port and Pilots on Channels 16 and 12.

Pratique: Cable for free pratique 18 hours ahead. Standard message. Do not expect reply.

Pilot: Boards from small black hulled motor boat off Rosia Bay. Good lee required. Contact when South of Europa Point.

Anchoring: Not necessary for offport call with under 1 hour's wait. One anchor required ready with forecastle party on stand-by.

Agent/Quarantine Officer: Board off South end of Detached Mole.

Procedure: Require 5 Crew Lists and 1 Health Declaration. They also look at Register and Derat Certificate.

For British crew joining and leaving ALC3 and ALC5 are required to be filled in, so joining members must sign on immediately.

Time: Depends on numbers and ranks joining and leaving, but in October 1980, 9 officers left and 6 joined, procedure took 30 minutes with total off hire of 1 hour and 32 minutes.

General: Money: Sterling easily available in all denominations but make sure you cable in for Agent to arrange during bank hours.

Films: Walport from 'Restano' films and Vidpak – 48 hours' notice.

Agent: Very efficient, on prior request supplied British newspapers and up-to-date Lloyds Index.

Anchorage: Northern limit of tanker anchorage – East to West line 1 cable South of North End Detached Mole (Qk. Fl. G.), ("C" Head) – good anchorage 3–5 cables off mole – single anchor good holding.

For ships awaiting repairs or orders, North limit – East to West line North End South Mole (Fl. 2 sec.) – "A" Head.

Current: (From Pilot). Strong Southerly setting current up to 4 knots, with East wind, off moles.

Lloyds signal station: Approaching Gibraltar, will pass all messages to Pilots and Agent.

Port expenses: Agent quoted total off port (including Pilot) £650.

AUTHORITY: Captain of the Port, Port Office, North Mole, Gibraltar. *Tel:* 77754. *Telex:* 2223 Admsec Gk. *Cables:* Gibport. *Contact:* Captain F. J. Hayward, Captain of the Port.

AGENT: Lambert Brothers (Gibraltar) Ltd., 47 Irish Town. Cables: "Lambert-Gibraltar". Tel. 72685. Telex 2222. Ship's Agents, Insurance Agents, Travel Agents.

Greece

ACHLADI: 38.53 N. 22.50 E.

DOCUMENTS: See "Stylis".
PILOTAGE: Compulsory. Pilot station is in Achladi Village port about 2 miles from the factory. Pilot is a practical seaman who has experience and knowledge of local waters. There is a pilot boat, painted white, flying the International Pilot flag "H". VHF is installed, working frequency Channel 12. Pilot also serves Stylis port and Agia Marina.
ANCHORAGES: The waters which surround the port are free from dangers. Good holding ground with depths from 25 to 30 fathoms.
MAX. SIZE: Max. draft alongside is 60 ft.
VHF: Port Authority on Channels 7 and 12.
TUGS: For large vessels, tugs must be ordered from Volos.
BERTHING: Achladi port is a new construction belonging to the factory of Agroinvest S.A. It is a private berth about 200 m. in length standing about 2 m. above sea level and is well protected by rubber fenders. It was constructed in order to serve factory for loading and/or discharging their products, such as animal food, flour, wheat, maize, etc. Maximum permissible draft along the pier is 60 ft.

The factory is visible just after passing Akra Tapia. It is a conspicuous building due to the height of silos and warehouses. Two fixed green lights show the ends of the berth.
CRANES: Loading/discharging by ship's gear. Mobile cranes may be hired by arrangement with local Agent.
STEVEDORES: Working hours for unloading 0700 hrs. – 1430 hrs. and 1700 hrs. – 2300 hrs. Loading carried out 24 hours.

Loading rate for grain 100 t.p.h. Unloading rate up to 280 t.p.h.
FRESH WATER: Available but quite expensive. Vessel will be supplied by truck/barge only.
FUEL: Not available.
REPAIRS: Minor repairs can be carried out in Stylis or Lamia.
GENERAL: No stores or provisions available.
DEVELOPMENTS: A silo for grain is under construction on the pier.
AUTHORITY: Stylis Harbour Authority, Stylis, Greece. *Tel:* (0238) 22329.

AGHIOS NIKOLAOS (St. Nikolo-St. Nicholas), Crete: 35.12 N. 25.43 E.

DOCUMENTS:
- 4 Crew Lists.
- 2 Passenger Lists.
- 1 Cargo Manifest.
- 1 Spares List.
- 1 Stores List.
- 1 List Crew Personal Effects.
- Maritime Health Declaration.
- 1 Provisions List.

PILOTAGE: Not compulsory. No Pilot station. Private Pilot who can be used if needed. However, not always available. Area of Pilot's boarding is N.E. or S.E. of Aghioi Pandes Islet, depending weather conditions. Anchorage waiting place in same area. Call Pilot with signal "G". Small fishing vessels (length 13.0 m.) fitted with VHF can indicate position of anchorage if advised by Agent.
ANCHORAGES: (a) Harbour of St. Nikolaos, depth 3 – 5 fathoms. (b) Usual anchorage for vessels over 500 tons gross, South or S.E. of Nikolo Islet (Admiralty Chart No. 2536 B) and at a distance of 0.5 – 1.0 miles from the mainland, depth 10 – 40 fathoms respectively. (c) Poros Bay for small and large vessels, only when North and N.W. fresh gales, depth 16 – 27 fathoms.
RESTRICTIONS: Care to be taken off North entrance to port owing to rocky shoals, depth 5 m. Entrance from the S.W. is free of obstructions.
MAX. SIZE: Vessels of up to 100 m. length and 9.0 m. draft can enter the port. At oil bunkering installation outside the port, vessels of any size can be accommodated.
HEALTH: If from another Greek port free pratique is automatic and access to and from vessel granted on permission of Port Authorities. Port doctor visits all other vessels.
RADIO: No local radio station. Cables to Agent or Port Authority through "Athinai Radio", "Heraklion Radio" or "Rhodes Radio".
TUGS: One tug available.
BERTHING: Berthing position designated by Port Authority.
STEVEDORES: 10 permanent port stevedores available, but further 5 men can be engaged. Cargo worked by vessel's own gear.
MEDICAL: No advance notice of medical attendance required. Medical attention by town doctors available. Government hospital with all facilities.
TANKERS: No tanker berths. Vessels moor to buoys. Oil line 6 in. diameter.
DENSITY: 1025.
FRESH WATER: At new pier 3 hydrants, hose diameter 2.5 in. for supplying water. At the bunkering installation at Katsini Bay there is water storage tank capacity 500 cu. m. for supply to deep-sea vessels. Loading rate about 49 t.p.h. Delivery by flexible hose connection from the mooring buoys. Fresh water not available at the present time at the bunkering installation as they have ceased operating.
FUEL: Small quantities transported by tank truck are available from the pier.
HATCHES: Opened/closed by stevedores.
CUSTOMS ALLOWANCES: 2 packets cigarettes per crew member per day.
CARGO GEAR: No shore facilities. All cargo worked with ship's own gear.
CONSULS: None.
REPAIRS: Only minor repairs.
SURVEYORS: None.
REPATRIATION: Crew replacement and repatriation available.
AIRPORT: At Iraklion distance 66 km. 2 or 3 flights per day to Athens.
TIME: GMT plus 2 hours. GMT plus 3 hours late March to late September.
HOLIDAYS: In addition to standard Greek holidays, local holidays are Ascension Day (date not fixed), and St. Nicholas Day (6th December).
POLICE/AMBULANCE/FIRE: St. Nicholas Police tel. 100. State Hospital, tel. 22369. Fire tel. 22674 or 28905. Port Police tel. 22312. Area code for St. Nicholas 0841.
TELEPHONES: Available for yachts only.
SERVICES: Tank cleaning and hold cleaning.
SHORE LEAVE: Permitted with Port Authority pass.
STORING: Possible by truck or barge. Trucks may proceed alongside. No fork lift trucks available. Riggers available.
REGULATIONS: *(a)* Vessels are not allowed to approach Aghioi Pandes (goat reserve). *(b)* No refuse or other waste matter of any description allowed to be thrown overboard from vessel. *(c)* No visitors permitted without Port Authority permission.
DEVELOPMENTS: During next 5 years *(a)* deepening of Port Basin, *(b)* Provision of 1 shore crane, *(c)* construction of breakwater — length 200 m.
AUTHORITY: Port Authority of Aghios Nikolaos, Crete.
Contact: M. Iconomakis (Lieut-Commander), Harbour Master.

AGIA MARINA: 38.54 N. 22.36 E.

DOCUMENTS: See "Stylis".
PILOTAGE: Compulsory. Pilot can be boarded at Stylis Anchorage or Agia Marina. Pilot and pilot boat is the same as for the port of Stylis.
VHF: Stylis Port Authority on Channels 7 and 12.
TUGS: See "Stylis".
BERTHING: Agia Marina Port is an open port on the North side of Maliakos Kolpos. It is a private port belonging to Metalia Voxitou Elefsinos A.E. (Skalistiris Enterpr. S.A.).

The port of Agia Marina is visible just after passing Akra Drepanon and is 2 miles West of the main port of Stylis. A red fixed light shows the head of the elevator.

The berth, consisting of poles only, can accommodate cargo vessels up to 30 ft. draft for loading bauxite and/or chrome ore in bulk, cargoes come from the mines of Mount Parnassos and Mount Iti. Vessels calling at Agia Marina have to make fast to poles and are secured alongside the poles. Communication with the shore is effected only by motor boat which can be hired through local Agents. The loading takes place using an electric elevator and the rate is about 1,000 tons daily.

The port is lee to the wind and it has been reported that even with a Force 8-9 wind, vessels can stay in position without any difficulty. The vessel has to drop anchor in order to facilitate shifting(s) as elevator is immovable, also for better securing. The waters around are clear, with good holding bottom, the depth of which varies from 7 to 13 fathoms.
STEVEDORES: Working hours – 24 hours daily.
FRESH WATER: Not available. Can be obtained at Stylis, where max. draft allowed is 18 ft. 6 in.
FUEL: Not available. See "Stylis".
REPAIRS: Minor repairs can be carried out at Stylis or Lamia.
GENERAL: Stores and provisions available in limited quantities.
AUTHORITY: Stylis Harbour Authority, Stylis, Greece. *Tel:* (0238) 22329.

AGIOI THEODOROI: 37.55 N. 23.05 E.

DOCUMENTS:
- 7 copies Crew Lists (European and Asian).
- 2 copies Dates of Vaccinations/Inoculations.
- 1 copy Cargo Manifest.
- 2 copies List of Provisions and Stores (these are supplied on forms issued by Agent printed in Greek/English).
- 2 copies Officers'/Crews' personal declaration, on forms supplied by Agent in Greek/English, covering all high duty items, radios cameras, etc.
- 1 copy declaration of ships' cash on board, form supplied by Agent in Greek but made out in front of Master.
- 2 copies of Masters' declaration that all high duty goods have not been put under seal, and that he is responsible for any loss or landing of same without proper authority.

All passports and/or Seamen's books to be produced *if* requested by Immigration.

On completion of loading, documentation takes about 2 hours.
PILOTAGE: Compulsory. Pilot boards S.S.E. of port, about 1 mile off the outer jetty. No pilot boat as such; uses either a tug or mooring boat. Pilot is arranged by Agents who are based in Piraeus (1 hour by car). No means of radio contact between vessel and Pilot station.
ANCHORAGES: A reasonably safe anchorage can be obtained in position 0.5 mile off the outer jetty in a depth of 20 to 25 fathoms with a sandy bottom.
MAX. SIZE: Max. draft 70 ft.
TUGS: 2 tugs used for berthing, and 1 on sailing.

BERTHS: There are 3 main berths with 2 smaller berths for coastal vessels. The largest and outermost berth can accommodate vessels of 250,000 tons fully loaded, maximum discharge/loading rate at this berth being 5,000 t.p.h. The other berths can accommodate vessels of up to 50,000 tons fully loaded with maximum discharge/loading rate of 3,000 t.p.h. All berths are equipped with four 10 in. Chicksans. They are situated in an open position for winds from the South and West but provided ample moorings are put out, there should be no cause for concern.

Vessels can berth at any time day or night.

MOORINGS: Standard moorings on to dolphins which are well fendered and hold the vessel about 4 feet clear of the manifold complex. Vessels require their gangway but no derricks are required. 1 or 2 anchors are used depending on the berth used.

FRESH WATER: Fresh water for other than drinking purposes is available from the jetty, but drinking water has to come by barge from Piraeus for which 2 days' notice is required.

FUEL: Available alongside. Rate 3,500 cu.m./hr. for fuel oil and 600 cu.m./hr. for diesel.

REPAIRS: No facilities. Nearest port for repairs is Piraeus.

CUSTOMS: Bonded locker is sealed. Allowance 200 cigarettes or equivalent in tobacco or cigars per man (7 days) and a part bottle of wine and spirits is permitted per man (7 days). All Tobacco/cigars/cigarettes placed under seal. Crew excess must be declared on provision list in separate column for same.

SHORE LEAVE: Shore leave is allowed, passes being issued on arrival which must be handed in prior to sailing.

AUTHORITY: Motor Oil (Hellas) Refineries.

ALEXANDROUPOLIS: 40.51 N. 25.54 E.

DOCUMENTS:

Port Authority:

2 Crew Lists.

1 Passenger List (if any).

If from abroad Maritime Declaration of Health.

If Greek flag, articles and log book, and declaration of foreign exchange.

Customs:

3 Lists of Stores and Provisions.

1 Crew List.

Master's personal declaration that all stores not held in bond will remain on board.

PILOTAGE: No pilot service. If Master requires pilotage assistance an experienced local boatman is available, but Agent must be advised of ETA in advance order to arrange for this Pilot to await vessel about 1 mile outside port.

ANCHORAGES: Depth inside port 18 ft. 06 in., mud bottom. Depth increases outside port to about 10 m. at distance of 1 nautical mile.

Area around port subject to strong S.E./S. winds especially during Winter. During strong winds vessels can seek shelter off Samothraki Island. In strong winds port is considered safe but because of occasional large waves loading is stopped. Winds from other directions do not affect port work.

MAX. SIZE: Vessels with draft not exceeding 18 ft. can enter safely.

HEALTH: Vessels from foreign countries can enter harbour and obtain free pratique during the period from sunrise until 2200 hrs. Vessels having suspected contagious disease on board should remain outside harbour until visit of medical officer, and await further instructions.

TUGS: None.

BERTHING: At least 24 hours' notice of ETA to be passed to Agent in order to obtain allocation of berth from Port Authority.

STEVEDORES: Prior notice to be passed to Agent order arrange gangs. Rate of cargo working: General cargo about 100 tons per gang every 8 hours. Bagged cargo about 100 tons per gang every 8 hours. Coal about 80 tons per gang every 8 hours. Timber about 120 cu.m. per gang every 8 hours. Vessels must use own gear for loading/discharging.

MEDICAL: No advance notice required. 1 Government General Hospital, 3 clinics. Doctors' services readily available.

TANKERS: There is a floating pipe-line. Tankers with a draft of 18 ft. can discharge diesel oil and gasoline.

FRESH WATER: 10 hydrants available. Delivery rate about 5 t.p.h. (each), but delivery rate reduced when 2 or more hydrants in use.

FUEL: No bunker C fuel available. Supplies of diesel oil possible from road-tankers.

FIRE PRECAUTIONS: No port fire brigade. In emergency fire brigades must be called from Alexandroupolis.

WATCHMEN: Not available, and if required must be supplied by vessel.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: One packet cigarettes allowed out of bond for each crew member, for each day in port. Wine/beer no restrictions. Spirits, Master allowed one bottle.

CARGO GEAR: Load/discharge by ship's own gear.

IDENTIFICATION CARDS: Shore pass issued against crew list and seamen's book. Passes obtainable from Port Authorities.

CONSULS: Consul-Agent of France. Tel. 26–720 and Consul-Agent of Italy. Tel: 28–384.

REPAIRS: Only minor repairs available.

REPATRIATION: Facilities for crew changes and repatriation.

AIRPORT: 5 km. distant. 2 daily flights to and from Athens.

TIME: GMT plus 2 hours. Summertime GMT plus 3 hours.

HOLIDAYS: 1st January; 6th January; Whit Monday; 25th March; Good Friday; Easter Monday; 1st May; 14th May (local); 15th August; 28th October; 6th December; 25th December; 26th December, and all Sundays. Cargo work can be arranged on these days, subject to payment of additional charges.

POLICE/AMBULANCE/FIRE: Police station, 26352; Security Police, 26220; Ambulance, 25272; Fire, 26222. Port Police, 26468 (VHF 12).

TELEPHONES: No facilities for telephones on board.

SHORE LEAVE: Permitted.

DEVELOPMENTS: (a) Supplementary works are being performed outside along the West breakwater.

(b) Dredging works have already been started again inside the port.

AUTHORITY: Port Authority of Alexandroupolis. *Tel:* 26468 (VHF Channel 12). *Contact:* G. Tsironis (Lieut-Commander), Harbour Master.

ARGOSTOLI, Cephalonia: 38.12 N. 20.29 E.

DOCUMENTS:

3 Crew Lists.

3 Passenger Lists.

Customs Clearance.

2 Cargo Manifests.

Bills of Lading (copy).

4 Ship's Stores List.

4 Lists of Crew's Personal Effects.

Ship's Papers.

Crew Vaccination List.

PILOTAGE: No Pilot station.

ANCHORAGES: Vessels anchor in roads 0.5 miles N.N.W. from Entrance light. Max. channel draft 19 ft.

MAX. SIZE: Up to 19 ft. draft.

HEALTH: Free pratique given by Port Health doctor.

RADIO: Patras Radio. No VHF.

TUGS: None available.

MEDICAL: Advance notice not required except in urgent cases. For vessels arriving from foreign countries crew require vaccination certificates.

TANKERS: Small tankers discharge at DEH Power Terminal.

FRESH WATER: Can be supplied from the pier using ship's hoses.

FUEL: Small quantities available, but only for yachts.

OPENING/CLOSING HATCHES: Performed by ship's crew.

CUSTOMS ALLOWANCES: 50 cigarettes allowed for each crew member.

CONSULS: No local representation.

REPAIRS: Only minor machinery repairs can be carried out.

REPATRIATION: By air to Athens (once daily) or by ferry-boat.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summertime.

HOLIDAYS: Local holidays are 21st May, 16th August and 20th October, in addition to national holidays. Work may be arranged at double rates.

POLICE/FIRE/AMBULANCE: Police 22200; Ambulance 22515; Fire service available.

TELEPHONES: Can be connected on board vessels without charge.

SHORE LEAVE: Allowed.

AUTHORITY: Cephalonia Harbour Office.

ASPROPYRGOS: 38.02 N. 23.36 E. (See Plan Book)

DOCUMENTS: All usual certificates including Registry, Safety, Cargo Gear, Radio, Derat, Last Port Clearance and:

9 Crew Lists

2 Vaccination Certificates

Cargo Manifest

List of Spares

Maritime Declaration of Health

1 Vaccination List

4 Crew Effects Declaration

Passenger List

Cargo Documents

2 Special Customs Forms in triplicate

2 Store Lists

PILOTAGE: Cable Agent 72, 48, 24 hours in advance advising ETA. Agent informs Pilot Office of vessel's arrival time. Piraeus Pilots can be contacted on VHF Channel 12 for calling. Pilot boards vessel 0.5 miles S.E. of Piraeus Breakwater.

ANCHORAGES: See "Eleusis" and "Piraeus".

RESTRICTIONS: Max. 60,000 d.w.t., max. permissible draft to enter Eleusis Bay is 35 ft. 6 in.

HEALTH: Pratique is in accordance with International Regulations. Pratique automatic if arriving from another Greek port.

RADIO: Athens (SVA).

VHF: Operative throughout 24 hours on Channels 16, 12, 7 for Pilots and 16, 12, 7, 19 for Eleusis Coastguard. Aspropyrgos Refinery on Channels 8, 14 and 74.

RADAR: None.

TUGS: Usually join vessel at the entrance of the channel, ship lines always used.

BERTHING:
Position of berth: Lat. 38° 01′ 34″ N., Long. 23° 35′ 36″ E. Pilot will advise Master of berthing place in accordance with Port Authority instructions. Usually berthing with port side to at crude oil berth; with starboard side to at oil products berth and with the stern to at LPG berth.

According to the Pilot it is preferable to use ropes for mooring.

Also see "Tankers".

MEDICAL: Advance notice not required; clinic available in town of Eleusis if required.

TANKERS: One berth, depth 38 ft. 9 in., with 3 unloading arms (8 in. diameter each) for discharging crude oil. The max. acceptable pressure at the unloading arms is 9 kg./sq.m.

One berth, depth 38 ft. 9 in., with 3 loading arms (8 in. diameter each) for oil products.

One berth, depth 23 ft. 8 in., for loading LPG and oil products with flexible hoses, 6 in. diameter each.

There is one pier for small tankers (coasters) with max. depth 26 ft.

DENSITY: 1025.

FRESH WATER: Can be supplied from the piers (up to a maximum quantity of 300 cu.m. per vessel).

FUEL: Not available at present.

FIRE PRECAUTIONS: Fire wires rigged fore and aft on outboard side of vessel. Deck scuppers plugged. Spark arresters to be fitted on tank openings. Earth connections made. Patrols made by Port Officers.

In the case of a storm, the Dock Master can stop discharge of vessels. The refinery fire fighting procedure is followed.

CONSULS: None.

REPAIRS: While alongside, maintenance of any kind on board is strictly prohibited. In case of an emergency, the issuing of a special written "cold or hot work" permit is necessary.

DRY DOCKS: See "Eleusis".

GANGWAY/DECK WATCHMEN: Not required.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 open bottle of wine/spirit allowed per crew member.

REPATRIATION: All facilities available for crew changes and repatriation.

AIRPORT: Direct overseas flights available via Athens airport at Hellinicon.

TIME: GMT plus 2 hours; Summertime (March to September) GMT plus 3 hours.

POLICE/AMBULANCE/FIRE: All emergency services are available through the terminal office. Fire alarms are installed throughout the jetty. Fire tel: 300. Ambulance tel: 311, Police tel: 353.

SERVICES: Compass adjusting. Electronic equipment services.

SHORE LEAVE: Permitted.

IDENTIFICATION CARDS: Shore passes issued by Port Authority.

CHALKIS: 38.27 N. 23.36 E.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
2 Cargo Manifests.
2 Stores and Spares Lists.
2 Crew Personal Effects Lists.
Health Certificate.

PILOTAGE: Pilotage is compulsory.

Application for Pilot to be made by radio through Agent to Chalkis Port Authority. ETA required at least 8 hours before arrival.

Apply for Pilot through VHF Channel 12, or through radio/telephone on 2364 kHz calling Harbour Master, Chalkis.

Pilot boards from black motor-boat with white horizontal stripes, about 10 m. length, in a position about 1 mile – 1.5 miles North of the light buoys of the Northern Port.

The pilotage area extends from 1 mile North of red and green light buoys, North of Evripos Bridge, and to the South of Euboea, 2.5 miles from Bourtzi Point.

The anchorage for vessels coming from the North of Euboea and awaiting Pilot is at the centre of the Euboean coast off Lighthouse Kakokefali, North of the 2 light buoys and outside the bearing 020°/200° which is the axis of vessels passing in and out of Evripos Strait.

Safe anchorage for vessels coming from South of Euboea and awaiting Pilot is 1 nautical mile South of Bourtzi Point.

ANCHORAGES: *(a)* In the basin of South Port clear of vessels passing in the Straits. Depths over 21 ft.

(b) In North Port between the light buoys and Kakokefalis lighthouse and outside the axis of course 020°/200°. In depths of 10–15 fathoms.

(c) Anchorage mentioned in "Pilotage" above, depths of 10 fathoms.

RESTRICTIONS: Entry restricted only by depth. Max. draft 21 ft. For vessels intending to pass Evripos Strait having draft 19 ft., passage possible only at slack tide or with following tide. Full details in Evripos Straits Operations Regulations.

There is also a restriction in Steno Straits where there is an overhead cable 38 m. above sea-level.

MAX. SIZE: Max. draft 21 ft. in daytime and 19 ft. at night for vessels entering port. For vessels navigating Evripos Strait max. length 110 m., max. draft 19 ft., breadth 20 m. and subject to local regulations.

HEALTH: Pratique not required if coming from another Greek port. Otherwise international pratique regulations are applied.

RADIO: No local radio, all messages should be passed through Athinai Radio.

TUGS: 1 tug available, joins vessel off the berth. Ship's tow lines used. Tug is compulsory for vessels over 1,000 g.r.t. Tug used only for berthing and unberthing.

BERTHING: Berthing in both the North Port and the South Port can only be effected at slack water subject to available tide.

BRIDGES: Passage above Evripos Bridge can only be effected at slack water or with following tide.

STEVEDORES: Loading, discharging, carried out with ship's gear. Notice must be given by Agent to stevedores not less than 6 hours before vessel's arrival.

Cargo working rates: General cargo 80–100 tons every 8 hours. Bagged cargo 100–150 tons every 8 hours. Timber 70 cu.m.–90 cu.m. every 8 hours.

MEDICAL: Agent should be advised beforehand if medical assistance required on arrival. Clinic facilities available. Vaccination certificates required.

DENSITY: Average 1025.

FRESH WATER: Drinking water can only be supplied in small quantities by tanker lorry.

FUEL: Can be supplied in small quantities by tanker lorry.

WATCHMEN: Not required.

HATCHES: Opening and closing hatches can be effected by ship's crew or by workers if requested.

CUSTOMS ALLOWANCES: Crew members each allowed 1 packet of cigarettes per day. Only the Master is allowed 1 or 2 bottles of alcohol while vessel in port.

IDENTIFICATION CARDS: Shore passes are issued by port authorities.

CONSUL: France, Tel: 2574.

DRYDOCKS/REPAIRS: Khalkis Shipyards S.A., P.O.Box 18, Khalkis, Greece. Tel: (0221) 31502, 31512. Telex: 272143, 272180.

Shipyard has 3 floating docks (max. size 48,000 d.w.t.) and a lay-by berth for major repairs.

REPATRIATION: No difficulties as there are excellent communications with Piraeus. Also see "Shipmaster's Report".

AIRPORT: Nearest is Athens International Airport.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: 1st January; 6th January; 25th March; 21st April; Good Friday; Easter Monday; Easter Sunday; 21st May; 15th August; 28th October; 6th December; 25th and 26th December. Local holiday 26th July.

POLICE/FIRE/AMBULANCE: Port police 22580; Fire 23333; Ambulance 22282.

TELEPHONES: Cannot be connected on board.

SHORE LEAVE: Allowed.

DELAYS: Only waiting for suitable tides.

DEVELOPMENT: A pier 240 m. is under construction at Vourkos in the South Port; depth alongside 26 ft.

SHIPMASTER'S REPORT: June 1981.

The name appears to be pronounced Halkis but according to local people the spelling can be Chalkis, Khalkis, Halkis or Kalkis.

To repatriate Indian crew Agent requires names of those persons leaving at least 48 hours in advance. Crew usually cleared through Immigration 48 hours beforehand and through Customs when they leave the vessel. Immigration office closes at 1300 hrs. and all day Sunday. For British personnel, Immigration can be arranged 24 hours beforehand. All personnel must ensure that anything declared on the manifest such as cameras, radios etc., are crossed off on being taken ashore otherwise vessel will be fined if these items not sighted by Customs when vessel sails.

The bridge lowers and retracts under the road on the South side.

According to the Pilot the maximum tidal rate is 4 knots although it does appear faster at times.

AUTHORITY: Chalkis Port Authority.

CORFU (Kerkyra): 39.37 N. 19.56 E. (including Kalifoka and Kefalomandouko)

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
Maritime Declaration of Health.
3 Stores Lists.
3 Spares Lists.

PILOTAGE: At least 24 hours before arrival ETA should be passed to Port Authority on 2182 kHz, answering on 2830 kHz also VHF Channels 7 or 12 and Telex No. 332111. Vessels requiring Pilot during daytime should hoist letter "G" of international code, and sound letter "G" in the morse code on ship's whistle at intervals. Vessels should await Pilot in position Lat. 39° 38′ N., Long. 19° 57′ E. nearest to the coast of Ptychia Island (Vido) and Corfu, depending on weather conditions.

ANCHORAGES: Safe anchorages in the area between Vido Island and coasts of Corfu, depth about 30 m. During strong N.W. winds there is safe anchorage in the roadstead at Garitsa Bay at a distance of 0.5 miles from the shore where depth in excess of 20 m.

RESTRICTIONS: Only during unfavourable weather conditions or lack of berthing space.

MAX. SIZE: Draft 7.0 m.

HEALTH: Port Health Officer boards vessel on arrival and examines health declaration. In cases of suspected disease or fever on board the Health Officer will examine entire crew and passengers.

RADIO: Radio Kerkyra. 2182 and 2830 kHz.

VHF: Radio Kerkyra on Channel 26. Port Authority on Channels 7 and 12.

TUGS: One tug – "Hermes".

BERTHING: Vessels should prepare fenders prior going alongside berth.
STEVEDORES: At least 24 hours advance notice of ETA required order arrange gangs. There are 3 silos for the discharge of bulk grain at Mandouki.
MEDICAL: Agent should be advised in advance of any medical requirements. Medical clinics available.
DENSITY: 1025. Max. height of tide 0.6 m.
FRESH WATER: Available through 2 in. hoses. Cost 140 drachmas per ton (approx.).
FUEL: For yachts in the new harbour there is a diesel-oil tank, capacity 10 tons. Also available from road tanker for all vessels alongside.
FIRE PRECAUTIONS: Loading/discharging of inflammable liquids and explosives generally forbidden without permission of Port Police. The anchorage for vessels carrying inflammable liquids or explosives is between Lazareto Islet and N.W. of breakwater point.
WATCHMEN: Required.
HATCHES: Opened and closed by stevedores. Hold cleaning service available.
CUSTOMS ALLOWANCES: Crew of Greek vessels are not allowed more than immediate requirements out of bond. Seamen signing off and passengers leaving the vessel are allowed 200 cigarettes.
IDENTIFICATION CARDS: Required.
CONSULS:

Belgium: S. Savanis, 44 Alexandras Av. Tel: 33788.
Brazil: K. Palatianos, 124 Kapodistriou St. Tel: 30767.

Sweden: Adam Bogdanos, 5 Donzelot St. Tel: 29469.

REPAIRS: Facilities for minor repairs only.
DRY DOCK: Largest dry dock 20 m. length, 2 m. depth.
REPATRIATION: Facilities for crew changes and repatriation available.
AIRPORT: 2 km. from port. During winter 2 flights daily to Athens. During summer frequent daily flights to Athens, Thessalonika and abroad.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Local holidays are 21st May, 11th August and 12th December. In addition Corfu observes standard Greek holidays.
POLICE/AMBULANCE/FIRE: Port Police, tel: 32655, 30481; Police, tel: 23661; Ambulance, tel: 39403, 30033, 30562; Fire, tel: 29255, 39533.
TELEPHONES: Telephones only available for placing onboard for special cases.
GENERAL: Prevailing wind is from the N.W. Anchorage in the new harbour unsatisfactory due to mud bottom.
SHORE LEAVE: Allowed.
REGULATIONS: Forbidden to approach Lazareto Islet.
AUTHORITY: Kentrikon Limenarchion Kerkiras (Port Authority of Corfu), Xenofontos Stratigoy 4, GR 491 00 Corfu, Greece. *Telex:* 332111. *Contact:* Themistoclis Panaioannou.

ELEUSIS (including Skaramanga): 38.02 N. 23.33 E.

DOCUMENTS:

4 Crew Lists.
4 Passenger Lists.
Bill of Lading.
2 Lists of Stores and Provisions.

PILOTAGE: Piraeus Pilot Station regulations are operative.
ANCHORAGES: Port offers safe anchorage. Bottom mud and sand.
RESTRICTIONS: After sunset and for vessels intending to enter Eleusis port through Salamis Channel, it is imperative to give 6 hours' notice of expected time of arrival to Port Authorities of Eleusis, in order to obtain special permission from the naval yard of Salamis.
MAX. SIZE: No limitations to length and breadth at the installations or at the main port. Max. permissible draft of vessel entering Eleusis Bay is 35 ft. Max. draft at berths is 33 ft. Also see "Tankers".
HEALTH: For vessels arriving from other Greek ports, pratique is automatic. Vessels arriving from foreign ports boarded by Health Officer who grants free pratique.
RADIO: Athinai, 2182 kHz.
TUGS: Join vessel outside Piraeus Harbour and formalities much same as Piraeus.
BERTHING: Overall length of jetties and quay at Eleusis 715 m. Max. depth over 80 m. of jetty length is 33 ft. with depths of 26 ft. elsewhere.
SPECIALISED CARGO-HANDLING: Loading/discharging of iron ore is carried out by *(a)* Holivourgiki Co., which owns a pier of 180 m. long and from 26 ft. to 36 ft. depth, equipped with 4 cranes with average discharge rate of 6,000 t.p.h., and *(b)* by Metallia Voxitou Elefsinos Co., which offer a special anchorage with buoys. Loading is effected by means of silo.

Loading/discharging of fluid chemicals or liquid gas are carried out by Petrogas Co. to their private pier of 35 m. long and 15 ft. depth.
MEDICAL: Advance notice not required. Clinic available in town of Eleusis if required.
TANKERS: Operating companies supply reducing pieces. No facilities for residue discharge. *(a)* Esso Pappas: length 160 m.; breadth 30 m.; depth at pier 30 ft. *(b)* Greek Refineries: length 93 m.; breadth 12.70 m.; depth 7 m. *(c)* Texaco: length 80 m.; breadth 6 m.; draft 4.50 m. *(d)* Mamidakis: length 40 m.; breadth 5 m.; draft 27 ft.

Shipmaster's Report: June, 1981.

Petrola petroleum harbour just West of Elefsis town.

Petrola is owned by John Latsis Co. The terminal has their own VHF Channel 66 alpha, also use Channel 12 but this usually congested.

Moorings: Normally 3, 2, 1. Normally 2 tugs. Pilots employed by Petrola and come on board after Sea Pilot has taken vessel through the Bay. Fresh water available from jetty.
FRESH WATER: Barge delivery available.
FUEL: Available ex-wharf at tanker installations subject advance notice. Can be supplied by barge at other locations.
FIRE PRECAUTIONS: The usual precautions applicable to oil installations. During operations of white liquid (petrol, spirits, etc.) regulations require a tug to be standing by.
HATCHES: Usually opened and closed by crew and subject additional payment by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine/spirits allowed per Crew member out of bond.
CONSULS: None.
REPAIRS: All grades of repairs can be carried out at Eleusis shipyard, and also at Skaramanga (see "Dry Docks").
DRY DOCKS:
Hellenic Shipyards Co.

Skaramanga Shipyard: Situated on the coast between the Port of Piraeus and Eleusis Bay. Shipyard is 8 miles by road from Athens and 7 miles from Piraeus; driving time 25 and 20 minutes respectively.

Mailing address: Hellenic Shipyards Co. Athens: 4 Academias St. Tel: 36.11.142. Cables: Shipyard, Athens. Telex: 215123.

Skaramanga: Tel: 55.73.351, 55.73.471. Cables: Shipyard, Athens. Telex: 215293, 215396.

Office hours at Skaramanga: 0815 hrs. to 1715 hrs. (weekdays), 0815 hrs. to 1345 hrs. (Saturdays).

Floating Docks

Main Particulars	*Dock No. 1*	*Dock No. 2*	*Dock No. 3*
Lifting capacity	30,000 tons	22,000 tons	25,500 tons
Docking capacity (d.w.t.)	72,000 „	37,000 „	60,000 „
Length overall	826 ft.	673 ft.	760 ft.
Length on keel blocks	760 „	605 „	693 „
Breadth inside banks	121 „	105 „	111 „
Breadth outside banks	147 „	129 „	136 „
Ht. of WL above keel blocks	28 „	28 „	28 „
Pumping time (Minutes)	120	80	100

Skaramanga Yard's three floating docks have been designed in such a way as to eliminate delays of any kind in the raising of large vessels and to ensure that the work is carried out in minimum time and with the least possible inconvenience to the crew living on board.

The basic equipment of the docks is the following; Two 5-ton cranes, 2 fire extinguishing pumps 120 cu.m. per hour at 90 m. WC, DC current supply to ships 1200 A 220 V, AC current supply to ships 600 A 440 V 60 cycles, multipoint welding rectifier 2500 A, 2 oil pumps for supply of fuel oil from the dock to the vessel 60 cu.m. per hour at 50 m., 2 compressors 17 cu.m. per minute at 7 atu, emergency diesel generator set 200 KVA, foam fire extinguishing system, steam boiler and water distilling plants.

Shipmaster's Report: 1978.

Tankers may discharge residue at the deballasting station of Hellenic Shipyards, max. output 500 cu.m./hour.

Graving Docks

1. Capacity 500,000 tons. Length 420 m., breadth 75 m., depth 9.5 m.
2. Capacity 250,000 tons. Length 327 m., breadth 53.6 m., depth 9.25 m.

Ships are manoeuvred at the dock entrance with the assistance of two 5-ton capstans situated on each side of the entrance gate. They are then shifted inside the docks by two 15-ton auto-tensioning winches and hauling-in trolleys (mules) running on tracks on each side along the dock subway.

The dock floor is fitted with specially designed keel blocks for easy fitting and removal and with electrically operated side blocks.

The Graving Dock is served by two 100-ton cranes, one 50-ton crane and a small 5-ton crane.

A fleet of 5 powerful tugs is on hand at Skaramanga Yard to assist docking and undocking operations of all vessels calling at the yard.

Eleusis Shipyards S.A. is located 27 km. outside Athens. The site was chosen on account of the several advantages it presents. The bay is well protected from strong winds, sources of raw materials are available in the vicinity of the ward, and adequate transportation, power, and telecommunication facilities can service the needs of yard.

Athens Office: 67 Athinas Street, Athens 112. Tel. 349 053. Cables "Helnafel Athinia". Telex 215215 Esc Gr.

Yard: Eleusinia, Eleusis. Tel. (01) 5535111. Cables: "Helnafel Eleusis". Telex: 215684 Yard Gr and 215690 Yard Gr.

Floating Docks: Three floating docks are available with the following specifications:

	No. 1	*No. 2*	*No. 3*
Length	162 m.	227.5 m.	252 m.
Breadth at entrance	23 m.	33 m.	41 m.
Draft over keel blocks	6.30 m.	8 m.	9.40 m.
Lifting capacity	11,500 m. tons (20,000 d.w.t)	20,000 m. tons (60,000 d.w.t.)	30,000 m. tons (115,000 d.w.t)
Cranage	5 t at 15 m.	12 t at 20.6 m.	12 t at 20 m.

Quay Wall: The 640 m. long quay wall is equipped with 40 and 15 ton cranes, range 30 m.; power 220 volts DC 100 amp. – 42 volts DC 25 amp. – 280 volts AC 630 amp. Floating crane, 50 tons capacity.
Tugs: Available for manoeuvring purposes at all times.

AIRPORT: Athens Airport. Regular international flights.
HOLIDAYS: Cargo operations can be effected during usual Greek holidays, following submission of application to Harbour Workers' Union and subject cost increase of 75% above normal.
POLICE/AMBULANCE/FIRE: Eleusis Police Station 46674; Ambulance 46503; Fire Brigade 0199.
SPECIAL PRECAUTIONS: See "Piraeus".
AUTHORITY: Eleusis Port Authority.

IRAKLION (Heraklion), Crete: 35.20 N. 25.10 E.

(See Plan Book)

DOCUMENTS:

4 Cargo Manifests.
4 Crew Lists.
4 Passenger Lists.
Declaration of Crew's Personal Effects.
List of Stores and Provisions.
Maritime Declaration of Health.
Vaccination Certificates.

PILOTAGE: Pilotage area extends 0.5 to 1 mile N.E. of breakwater. Advance notice of ETA should be passed to Agents order arrange Pilot. Contact may be made with Pilot station on VHF Channel 12 during daylight, also when within distance of 3–12 miles, and subject prior agreement of calling time, communication can be effected by radio–telephone via Radio Iraklion – Pilot station telephone 286133. International pilotage signals apply. Pilot boat is wooden boat 12 m. length, hull colour black, with white deckhouse, carrying black board with word "Pilot" in white letters. In bad weather vessels should proceed close to entrance of port for Pilots boarding.

A cement pillar has been installed on the end of the extension of the North breakwater. Fl. G. every 3 seconds, visible 9 miles. The pilot boat is equipped with VHF, range 50 miles.

ANCHORAGES: Anchorage East of port entrance is forbidden owing to numerous underwater cables. In good weather conditions anchorage to be found 0.75 mile Northwards of North breakwater with Enetic Castle bearing 180°. In bad weather conditions, best anchorage is at a distance of about 5 nautical miles to the W. of the North breakwater and at a distance of 3 miles from the coast (Ellinoperamaton Haven); depth of water requires a big scope of anchor chain.

MAX. SIZE: Max. length 250 m., draft 29 ft.–29ft. 6 in. Usual rise and fall of tide 1 ft. but increasing with South winds and decreasing with North winds.

HEALTH: International regulations apply for obtaining free pratique. In the event of suspected disease vessel will remain under quarantine until cleared. Pratique is automatic if arriving from another Greek port.

RADIO: Radio Iraklion – SUH 2128 kHz.

TUGS: Tug of 1,300 hp. operated by Nicolas E. Vernicos. Telephone Piraeus 4527812-4522337 (24 hours).

BERTHING: Pilot will advise Master of berthing position.

STEVEDORES: Port authority owns 3 cranes but they are seldom used. Cargo operations usually conducted by use of ship's own gear. Discharge rates per gang in 8 hours: bulk cargo 100 tons, bagged cargo 140 tons, liquid cargo subject ship's equipment – transportation by barges, timber 100 cu. m.

MEDICAL: Advance notice should be passed to Agents if requiring medical attention. Clinics and medical treatment available.

TANKERS: Only very small tankers discharge in Iraklion Port and Ellinoperamaton Haven. At Iraklion, tankers discharging liquid fuel are required to berth at East breakwater (fuel pier). Attendance of fire brigade and 1 tug standing by is compulsory.

DENSITY: 1020.

FRESH WATER: Available ex-berth or ex-barge. Rate of delivery ex-berth about 500 tons per 24 hours.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: 2 packets of cigarettes per day per crew member allowed out of bond, and one 500 ml. bottle wine/spirits for whole time of vessel's stay in port.

IDENTIFICATION CARDS: Shore passes issued by Port Authorities.

CONSULS:

Belgium	tel. 282520 and 282296
Denmark	tel. 282253
Finland	tel. 284860 and 283860
France	tel. 282347
Germany	tel. 282266 and 285400
Netherlands	tel. 282615
Norway	tel. 282667
Sweden	tel. 282476 and 285859

REPAIRS: Minor repairs available by machine shops in town of Iraklion. No facilities for deck repairs.

AIRPORT: Distance 5 km. Now an international airport with numerous flights.

TIME: GMT plus 2 hours, GMT plus 3 hours end March – end September.

HOLIDAYS: Usual Greek holidays plus local holidays of 25th August and 11th November. Cargo work can be arranged on holidays subject additional costs.

POLICE/AMBULANCE/FIRE: Police, tel. 282241, 282430, 282316; Ambulance, tel. 282894, 282638; Fire, tel. 283555, 282333.

AUTHORITY: Port Fund of Iraklion.

ISTHMIA, Corinth Canal (including Sousakion and Corinth): 37.55 N. 23.00 E.

(See Plan Book)

DOCUMENTS: (For Sousakion only).

Port Authorities	*Customs*
Crew List.	Customs papers and declarations.
Passenger List.	Cargo Papers.
Ship's Certificates.	List of Stores and Provisions.
Health Certificates.	List of Crew's Personal Effects.
Certificate of Anchorage Dues.	

PILOTAGE: There are 16 Pilots for the Corinth Canal. Telegraphic address of Canal is "Corinth Canal", tel. 0741-24452, telex: 232164 Dico Gr. Master of vessel must give at least 4 hours' notice of ETA in order to avoid delay. For Pilot signals, etc., see article 7 of the New Company of the Corinth Canal "Regulation of Navigation and Tonnage".

ANCHORAGES: Open anchorage in Isthmia Bay.

RESTRICTIONS: Corinth Canal closed every Tuesday from 0600 hrs. to 2000 hrs. in order for maintenance work to be effected.

MAX. SIZE: The max. draft of ships negotiating the Canal, in relation to their width, is defined as below, assuming normal water level and normal weather conditions.

Width	*Maximum draft*
16.0 to 16.5 m.	6.2 m.
15.5 to 16.0 m.	6.2 m.
15.0 to 15.5 m.	6.6 m.
14.5 to 15.0 m.	6.8 m.
14.0 to 14.5 m.	7.0 m.

The max. draft for vessels of less than 14.0 m. width is 7.2 m. The max. width must not exceed 18.3 m. (60 ft.).

Special instances will be examined by the Master and the Canal Service in collaboration.

HEALTH: (For Sousakion only). Pratique effected by health department of the Port Authority assisted by temporarily engaged doctor. In cases of suspected contagious disease vessel will be held under quarantine and if necessary fumigation will be conducted at Piraeus.

VHF: Corinth Canal Pilots on VHF Channel 11. Harbour Master at Isthmia on Channel 19. Harbour Master at Corinth on Channels 19 and 12.

TUGS: Join vessel near Canal entrance at Isthmia and Possidonia. Ship's lines always used.

BERTHING: In Sousakion at private factory pier. No berths at Isthmia.

MEDICAL: Agent should be advised in advance of number of crew needing medical assistance, also information of any vaccination required.

FRESH WATER: Not available either at Sousakion or in the Canal.

FUEL: No fuel available at Corinth.

CUSTOMS ALLOWANCES: Each crew member allowed 200 cigarettes out of bond and 1 bottle wine/spirits.

CARGO GEAR: Loading/discharging by ship's gear.

AIRPORT: 100 km. distance.

TIME: GMT plus 2 hours.

POLICE/FIRE/AMBULANCE: Telephone Harbour Master of Isthmia Tel. No.: 22129.

DELAYS: Possible delay up to 1.5 hours in transiting Canal if another vessel already transiting canal from opposite direction.

GENERAL: Passage via the Corinth Canal is a *Transit*.

SHIPMASTER'S REPORT: (Corinth) 1977.

Vessel: 5,700 g.r.t., 9,200 d.w.t., Summer draft 24 ft. 07 in., LOA 409 ft. 05 in.

Documents: No special entry papers required and if anchoring to await the berth Customs and Immigration will usually board at anchorage.

Port of Corinth: The port has no VHF communications but messages can be passed through the Corinth Canal Pilot Station on Channel 11. Pilot will then telephone Agents.

Anchoring off the port in the case of delay is possible but cannot be described as safe due to the close proximity of land or shoal water. Holding ground, however, is good. This vessel anchored with Corinth Breakwater light bearing 248° in about 16 fathoms of water using 6 shackles of cable. Vessel rode out a force 7/8 gale from the North without dragging but with the cable fully stretched the bridge was only 2.3 cables from the breakwater and too close for comfort. A second anchorage was used with the breakwater light bearing 232° and the ship's bridge 5.6 cables from the breakwater in about 18 fathoms of water. Again with the cable fully stretched this gave a clearance off the nearest shoal water of 3 cables, 6 shackles of cable being used. This is a slightly more comfortable position and again gale force winds were experienced without dragging. The vessel did drag in this position but not until winds were gusting to force 9 as a prelude to very severe storm conditions in which no anchorage of this nature would have been satisfactory. The bottom is stiff grey mud and care must be taken when anchoring not to impede the traffic approaching the canal entrance. Anchoring further to the Westward in order to increase the clearance from shoal water, etc., is not recommended as in addition to the much greater depth of water the holding ground deteriorates, becoming crumbly mud.

A boat can be provided by the Agents for use as a liberty boat when at anchor and there is no objection on the part of the Authorities to using the ship's boats for runs ashore.

A first examination of the chart (B.A. Chart No. 1600) will not indicate anywhere to berth a vessel of this size. However, dredging work has been carried out and the berth is on the S.E. side of the breakwater where there is room for a vessel of this size and for one small coaster in addition. The breakwater itself is slightly different in shape from that shown on the chart and building and dredging work are still in progress at its seaward end. The green flashing buoy shown on the chart is no longer in position but a light of similar characteristics is now shown from a structure on the breakwater end.

Maximum draft for berthing is 6.7 m. (22 ft.) and on this vessel's first call soundings between ship and quay when alongside indicated depths of between 24 ft. and 26 ft., depths outside the ship being some 5 ft. greater.

A Pilot is available, and is of great assistance. He is an experienced shipmaster and has very good local knowledge. A small tug is presently employed shifting barges and cranes employed in harbour works and it is sometimes possible to use his services. This is dependent upon the tugmaster. He is particularly useful when undocking to hold the stern off the quay.

Initial approach to the berth is bow on until the starboard anchor has been let go which should be done at such a distance from the berth so as to allow 4 shackles of cable in the water when the vessel is alongside. Vessel is gradually swung on the anchor, long head and stern ropes are run by boat, and vessel is so brought alongside port side to.

The undocking operation is straightforward, the bow being pulled off the quay by means of the anchor. The only danger is that of the propeller coming into contact with the quay and here the services of the tug are valuable.

Docking and undocking in strong winds from any direction would be hazardous and in many cases impossible. Docking is always done in daylight and I do not recommend undocking at night either although this would be possible under calm conditions. An added disadvantage of undocking in evening time would be that the vessel would arrive at the Narrows ferry crossing in the dark.

The Pilot agrees with this appraisal of the situation.

The quay itself is smooth concrete usually well fendered with rubber tyres and with good mooring posts. Vessel should be well secured as strong winds from a Northerly direction are experienced particularly in Winter.

There is a concrete apron some 3 metres wide alongside the ship and clear of this a considerable unsurfaced area on to which cargo is discharged. This area is very wet and dirty during rain.

Fresh water is available but 7 lengths of ship's hose are necessary to reach the outlet. A permanent water main is in the process of being laid alongside the ship.

Cargo operation: This is controlled by the 'Carton Pack' plant manager, there being no stevedore as such. Ship's gear is used and normally 3 gangs of stevedores.

The working day is from 0800 to 1700 hrs., evening overtime being unusual. Seven day working is possible but all overtime is subject to the plant working to receive the cargo.

Stevedores can discharge rapidly from the ship lifting 2 rolls of linerboard at a time but there are frequent stoppages due to congestion on the quay which reduces the overall discharge rate to about 25–27 rolls per gang hour. Although head and end clamps are provided by Charterers (carried on board) stevedores refuse to use these and all discharge is by rope sling. Rolls are landed on wooden platforms (timber supplied by Charterers) and then rolled by hand clear of the concrete apron. Two or possibly 3 fork lifts are used to load rolls from here onto lorries for transportation to the plant a short distance away.

Damage rate is high due to rolls becoming wet and dirty on the unsurfaced quay with bands being broken and outer layers torn. Further damage is caused by the fork lifts when loading the lorries.

No improvement in discharging conditions can be seen unless the quay is surfaced with proper drainage and unless Charterers are prepared to provide clamp machines for handling the rolls on the quay. Care should be taken when signing final outturn report as of course damages are written up to make it appear that they took place before discharge.

Weyerhaeuser are fully conversant with the situation.

Agents: Situated in Piraeus which is some 90 km. away. They use sub-Agents in Corinth.

The sub-Agents are not geared for handling a foreign-going ship. To obtain action on major items it is best to telephone Agent in Piraeus direct.

Bunkers: Basically not available but diesel oil has been taken, having been brought from Piraeus by road tanker and with ten days ordering notice.

Repairs: These cannot be carried out except by bringing repairers from Piraeus at very high cost.

Lloyds' surveyor is obtainable from Piraeus, this being best arranged directly by the ship.

Provisions: These can be obtained locally and are of acceptable quality. There is no ship chandler as such and the system is for the Catering Officer to visit various suppliers with the Agents, pick his purchases and then leave Agents to collect and deliver to the ship.

Shore Leave: Passes are required and are renewed each visit. They should be available for return to Immigration on departure.

Corinth Canal: This vessel passed through the canal on the 4th November, 1977 on a draft of 3.6 m. forward and 4.74 m. aft.

Application should be made in advance to the Canal Authority quoting the minimum draft obtainable.

The transit presented no difficulties.

SHIPMASTER'S REPORT: (Corinth) December 1984.

Pilotage: One private Pilot.

Restrictions: Berthing daytime only. Unberthing anytime day or night.

Loading/Discharging: Vessel loaded iron pipes, rate 600 tons to 700 tons per gang, per 8 hour shift by ship's gear. Working only during daytime (never night-time).

Vessel discharged iron plate in coils, rate 600 tons per gang, per 8 hour shift by shore crane.

Cargo Handled: Vessel loaded iron pipes, porcelain in powder and fruit in boxes. Vessel discharged iron plate in coils and paper for boxes in rolls.

ITEA: 38.26 N. 22.25 E.

DOCUMENTS:

6 Crew Lists.
4 Passenger Lists.
Cargo Manifest.
Bills of Lading.
2 Lists of Ship's Stores and Spares.
Health Declaration.
Ship's Certificates.

PILOTAGE: Vessel should advise ETA at least 24 hours before arrival through the telegraphic office of Itea. Pilots are called with the assistance of the Port Authority on VHF Channel 12.

Pilot boards 1 mile S.E. jetty lighthouse. Pilot boat painted black with white deckhouse, the word "Pilot" is painted in white letters on both sides. On the bow is painted "PY21".

In bad weather vessel should enter harbour without Pilot and anchor using both anchors.

ANCHORAGES: Available inside the harbour and in Aggolis Gulf. Safe anchorage in the vicinity of the jetty head in depths of 8 m. – 10 m.

RESTRICTIONS: Vessel may enter harbour day or night. Harbour anchorage suitable for vessels up to 60 ft. draft.

MAX. SIZE: Max. LOA 130 m., Max. draft 6.0 m. Also see "Berthing."

HEALTH: Pratique is given on arrival by the port medical officer.

RADIO: Contact possible through Hellas coastal radio.

VHF: Contact with Port Authority and Pilot made on Channel 12.

TUGS: None available.

BERTHING: One pier. East side can accommodate one vessel with max. LOA 83 m. and draft 6.0 m. West side can accommodate one vessel max. LOA 130 m. and draft 6.0 m.

Parnassos: Bauxite loading facility. Max. size 30,000 d.w.t. Loading by conveyor.

Elefsinos: Bauxite loading facility. Max. size 10,000 d.w.t. with tide of 25 cm. – 60 cm. Loading by conveyor.

STEVEDORES: Gangs should be ordered in advance by Agents on basis of Master's ETA. Loading and discharging is effected by ship's gear.

MEDICAL: 24 hours' notice preferred if any medical requirements. Vaccination can be arranged within 24 hours. Hospital in Amfissa, 13 km. from the port.

TANKERS: There are no special installations for loading/discharging tankers.

FIRE PRECAUTIONS: There are no specific precautions.

GANGWAY/DECK WATCHMEN: Required, Master to appoint crew member.

CARGO GEAR: Loading/unloading by ship's gear.

AIRPORT: Nearest airport at Athens, distance approximately 210 km.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Not available.

HATCHES: Hatches are opened and closed by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of alcohol is allowed each man.

IDENTIFICATION CARDS: Needed for crew men going ashore.

CONSULS: No local representation.

REPAIRS: No facilities for repairs.

REPATRIATION: Can be arranged.

TIME: GMT plus 2 hours. End March to end September GMT plus 3 hours.

HOLIDAYS: Cargo work can be effected on all holidays on payment of overtime.

Official Holidays: January 1st; January 6th; Holy Monday; First Monday of Lent; Good Friday; Easter Sunday; Monday after Easter; 25th March; 1st May; Ascension Day; 6th August; (Local Holy Day); 15th August; 28th October; 6th December; 25th December; 26th December.

POLICE/AMBULANCE/FIRE: Police: Tel. 32222; Ambulance: Tel. 28400; Fire: Tel. 28199.

TELEPHONES: Not available.

REGULATIONS: There are general and specific regulations for the Port of Itea.

DELAYS: Delays in loading can seldom be expected.

DEVELOPMENTS: Extension and widening of the existing breakwater and the construction of a second breakwater.

AUTHORITY: Port Authority of Itea.

KALAMAKI: 37.52 N. 23.01 E.

SHIPMASTER'S REPORT:

DOCUMENTS: See "Piraeus".

PILOTAGE: Arranged by Agent.

MAX. SIZE: Max. draft 38 ft. (Additional one foot of draft by arrangement).

TUGS: Berthed without tug. Agent can arrange small tug from Corinth Canal.

BERTHING: Berth for discharging soya beans at Kalamaki Soya Mills (Refinery).

Bulk Handling facility: Fixed steel tower with two suction pipes capable of a total of 250 tonnes/p.h. but generally slower. Vessel to shift from hatch to hatch. Outreach of arms about 16 m.

The berth is not marked on the chart – B.A. 1600 and U.S. D.M.A. 54289. It is situated on the North shore of the Sarnikos Kolpos near the Eastern entrance to the Corinth Canal (Dhiorix Korinthou). When alongside, the Canal Breakwater Lt. Ho. was bearing 253°×0.64 miles and Akra Sofia 195°×1.14 miles. Starboard side to.

Mooring bollards are adequate, there being four suitable for backsprings on the short face (about 64 m.) of the 'T' jetty and one on shore for the headlines. At the Eastern side of the berth there is a new berth set in from the line of the jetty consisting of four concrete dolphins each with a bollard and three of our sternlines were made fast to these. Between this new berth, which is for discharging logs, and the leg of the 'T' jetty there is a facility for loading the products of the Soya Oil refinery into coasters. Tyre fenders on the 'T' jetty are few.

On approaching the berth from Eastwards it is recognisable by the dark grey ribbed metal silos and the lattice steel tower of the discharging unit.

FRESH WATER: Obtainable by truck 15 tonne capacity or by barge from Piraeus. Pipe for loading water from trucks will have to be extended by ship's hoses particularly if working cargo in forward hatches. Cost per truck about 3,000.00 Drachmas. Agent says price for barge supply is comparable to truck if a large quantity is required.

STEVEDORES: *Working Hours:* Continuous – Workers supplied by plant.

AGENT: *Sub-Agents:* G. Karagiorgis of Corinth. Cables: "Kaskoutas Corinth".

KALAMATA: 37.02 N. 22.07 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived vessel" and (subject to Charter-Party Terms) laytime commences to count are 0.5 mile from the breakwater red light, where Pilot boards.

DOCUMENTS:

3 Crew Lists, plus 3 additional for passenger vessels.
3 Crew personal effects lists, plus 3 additional for passenger vessels.
3 Deck, Engine and Steward department store lists.
1 Cargo Manifest.
All ship's official documents.
2 Crew vaccination lists, plus 2 additional for passenger vessels.
1 Health declaration.
The above are not necessary for incoming vessels from Greek ports.

PILOTAGE: Notice of ETA required 48 hours before arrival. There is VHF listening and transmitting on Channel 12 on continuous basis. Range 30 miles.

Pilot boards 0.5 miles East of the breakwater red light, weather permitting.

ANCHORAGES: Vessels awaiting Pilot may anchor 0.75 miles East of the breakwater red light.

MAX. SIZE: Vessels up to 29 ft. draft may enter harbour, for berthing alongside.

HEALTH: Port Health doctor boards vessel on arrival or alongside the berth. Master required to produce Fumigation Certificate, vaccination list and Declaration of Health. Health visit not necessary for vessels coming from a Greek port or West European ports.

RADIO: Athens Radio, call sign SVA, on R/T which covers the Kalamata region also R/T stations of Patra Kerkyra and Hiraklion.

TUGS: No tugs available.

BERTHING: Agents require details of vessel's draft in advance to get berthing permission from Harbour Authorities. Total length of piers – 1,200 m. Covered storage: 3,500 sq.m. Open storage: 22,000 sq.m.

SPECIALISED CARGO-HANDLING FACILITIES: There is a silo for grain. 2 electric pumps for liquids; 1 mobile crane, lifting capacity 40 tons; 2 forklifts.

STEVEDORES: Number of gangs required to be advised Agent in good time.

MEDICAL: Doctors and medical assistance available. Also private and public hospitals.

FRESH WATER: Available in any quantity at berths. No barges.

FUEL: Can only be supplied by road tankers – subject to advance notice.

DENSITY: 1018.

WATCHMEN: If required can be arranged from shore.

HATCHES: Can be opened and closed either by crew or by stevedores subject to regulation payments for this work.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirits per man.

CONSULS: France, Finland and Sweden.

REPAIRS: Minor repairs can be effected in shore machine shops. No dry docks.

REPATRIATION: Can be arranged by car, train or air.

AIRPORT: Situated 6 miles away. Flights to Athens 1/2 times a day.

TIME: GMT plus 2 hours in Winter. GMT plus 3 hours in Summer (end March – end September).

HOLIDAYS: Additional local holidays are Ascension Day and St. Dionysio's Day.

POLICE/FIRE/AMBULANCE: Police tel. 22218; Fire tel. 28273/4; Ambulance tel. 25555/27420; Tourist Police tel. 23187. District Code Number 0721.

SHORE LEAVE: Allowed. Shore passes issued by Harbour Authorities.

DEVELOPMENTS: In the near future a Free Zone will exist. A mobile crane with sufficient capacity to handle loading/unloading of containers is to be purchased. Additional open storage to be available.

AUTHORITY: Kalamata Port Office, Kalamata. *Tel:* 0721/22218. *Cables:* "Kalamata Port Office". *Contact:* Harbour Master.

KALI LIMENES, Crete: 34.56 N. 24.49 E.

DOCUMENTS: Vessels may arrive for bunkering without obtaining free pratique. However, if pratique is effected, vessels should have ship's papers ready for inspection, also 4 Crew Lists, 4 Passenger Lists, Cargo Manifest and a List of Stores and Provisions.

PILOTAGE: 1 private Pilot employed by the bunkering company SEKA who undertakes pilotage for vessels calling for bunkers. Pilot boat is a small boat equipped with signal lamp. Pilot boards about 1 to 2 miles S.S.E. of Aghios Pavlos (St. Paul) Islet. Vessels awaiting Pilot may anchor 1.5 miles East of Aghios Pavlos Islet.

ANCHORAGES: (See "Pilotage") Vessels may anchor in area between Aghios Pavlos Islet and Mavronissi, which is a safe anchorage.

MAX. SIZE: Vessels in ballast of up to 280,000 d.w.t. and max. draft 14 m. can enter port.

HEALTH: Vessels arriving from foreign ports wishing to obtain free pratique should cable Agents to arrange for boarding of Health Inspector. Free pratique automatic if arriving from another Greek port.

TUGS: There is 1 tug, but it is seldom used.

MEDICAL: Agent should be advised well in advance if medical assistance required. There are no hospitals or other local facilities and doctor has to be called from nearest town.

TANKERS: 3 berths North of Aghios Pavlos Islet (position Lat. 34° 55′ 45″ N., Long. 24° 48′ 30″ E.), max. draft 14 m.

FRESH WATER: Unlimited supplies available.

FUEL: Unlimited supplies, all grades of fuel, diesel and luboils available subject adequate advance notice. Supplied by Mobil and Seka S.A.

FIRE PRECAUTIONS: Portable foam fire extinguishers.

CUSTOMS ALLOWANCES: 200 cigarettes permitted to each crew member to be held out of bond, and 1 bottle of wine/spirits.

CONSULS: None.

REPAIRS: None.

AIRPORT: At Iraklion, 75 km. distant.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

SHORE LEAVE: Permitted if free pratique requested and granted.

SHIPMASTER'S REPORT: 1976. (Updated 1984).

Pilotage: Pilot boards about 1 mile South of Aghios Pavlos.
Anchorage: Half a mile E.N.E. of Mavronissi, depth of water 30 ft.
Max. Size: According to Pilot; 300,000 d.w.t. in ballast and max. draft 44 ft.
Pumping Rate: Fuel – 1,000 t.p.h., diesel – 200 t.p.h.
ETA: Send ETA 48 hours in advance through Radio Athens. The bunker station can be reached direct on VHF Channels 16 – 14.

KATAKOLON: 37.39 N. 21.20 E. (See Plan Book)

DOCUMENTS:

Maritime Health Declaration.
Usual Ship's Certificates.
3 Crew Lists.
3 Passenger Lists.
2 Lists of Stores and Provisions.
2 Lists of Crew's Personal Effects.

PILOTAGE: Not compulsory. Port has 1 private Pilot whom vessel may use provided sufficient advance notice passed through Agent.

ANCHORAGES: Vessels can anchor at a distance of 2 cables from the head of the breakwater (bearing 300°). Safe anchorage for vessels of up to 30 ft. draft between positions 37° 40′ N. 21° 19′ E. and 37° 40′ N. 21° 20′ E.

MAX. SIZE: Max. safe draft 24 ft. Depth inside port 8 m. Length of pier 204 m.

STEVEDORES: No advance notice required. No shore facilities. Vessels load/discharge with own gear.

MEDICAL: No medical assistance in Katakolon, but facilities exist at the town of Pyrgos 13 km. distant.

FUEL: Not available ex-berth, but can be delivered by tank truck from Patras or Kalamata.

FRESH WATER: Available. Capacity 20 cu.m./hr.

HATCHES: Usually opened and closed by crew but this work can be carried out by stevedores subject consent of Port Authority. Cost as agreed between Master and stevedores.

IDENTIFICATION CARDS: Passes issued by Port Authority.

CONSULS: None.

REPAIRS: Not available in Katakolon. Small quantities of engine spares available in Pyrgos.

AIRPORT: Andravis Airport 26 km. distant. Flights to Athens twice weekly.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: Usual Greek holidays plus local holidays of 6th December and 17th December.

POLICE/AMBULANCE/FIRE: Police and Immigration, tel. 41202; Fire brigade (Pyrgos), tel. 22633; Ambulance (Pyrgos), tel. 22344.

TELEPHONES: No facilities for placing on board.

SHORE LEAVE: Permitted.

AUTHORITY: Port Authority of Katakolon.

KAVALLA: 40.55 N. 24.25 E.

DOCUMENTS:

5 Crew Lists.
2 Lists of Foreign Exchange.
4 Passenger Lists.
2 Cargo Manifests.
2 Lists of Crew Personal Effects.
Copies of Bills of Lading and usual Ship's Certificates.

PILOTAGE: 24 hours' notice of ETA to be passed to Agents or direct to Port Authorities. Vessels requiring Pilot should indicate with light and sound signals code letter "G" on arrival 5 miles from Kavalla Lighthouse. Pilot boat is a tug 9 m. length. Pilot usually boards about 0.5 mile from breakwater light. In event bad weather, Pilot does not board, and vessel may take refuge N.W. of Cape Prinos at the head of Thasos Island. If strong South or S.W. winds prevailing, vessels recommended take refuge Eleftheron Bay. Vessels awaiting a Pilot may anchor 0.5 mile South of Kavalla Lighthouse.

ANCHORAGES: 0.5 to 2 miles South of Kavalla Lighthouse, depth 30 m. to 40 m. Bottom sand and mud.

MAX. SIZE: Max. length 150 m. with proportionate breadth. Max. draft 27 ft. Tidal range 2 ft.

HEALTH: Doctor boards vessel with Port Officer. Maritime Declaration of Health and Derat Certificate required. In case suspected disease or fever on board, Master should radio Port Authorities in advance. Pratique is automatic if arriving from another Greek port.

RADIO: No local radio station. Cables may be routed through Athinai Radio.

MEDICAL: Advance notice of medical requirements necessary. General hospital in Kavalla and numerous private clinics.

TANKERS: See "Prinos".

DENSITY: 1025.

FRESH WATER: Available at berth.

FUEL: None.

HATCHES: Opened and closed by crew.

CARGO GEAR: Vessel should have cargo gear ready on arrival in order to avoid delay.

CONSULS:

France	Tel: 3163	Netherlands	Tel: 3265
Finland	Tel: 3467	Sweden	Tel: 3669

REPAIRS: Minor repairs available.

AIRPORT: Distance 7 km. One flight daily to Athens.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: Standard Greek holidays. Local holiday 29th June.

POLICE/FIRE: Police, Tel: 3291; Fire, Tel: 1999.

AUTHORITY: Kavalla Port Authority.

KYMASSI: 38.49 N. 23.32 E. **(See Plan Book)**

LOCATION: Lat. 38° 48.6′ N., Long. 23° 31.5′ E.

The port is on the Northern part of Nissos Evvoia. Vessels load magnesite in bulk, and firebricks on pallets.

DOCUMENTS: Crew list and usual documents for Greece.

PILOTAGE: Pilot boards about 5 cables off the berth.

APPROACHES: See "Shipmaster's Report".

RESTRICTIONS: No berthing during night-time.

RADIO: ETA and other relevant information sent by radio to the Sub-Charterer's Agents, Financial Mining Industrial and Shipping Corp., in Athens. Cable Address: "Epichiris, Athens".

VHF: Approaching Kymassi VHF contact only with Harbour Master's Office on Channel 12 during working hours (and Channels 14 – 16).

TUGS: There are no tugs in the area, except pilot boat.

BERTHING: Safe draft alongside is 26 ft. 6 in., salt water. Ship berths alongside 2 dolphins which are very well fendered with numerous rubber tyres. On approach the port anchor is let go and as the ship snubs round to port an off-shore mooring line is run by the pilot boat aft to the off-shore mooring buoy, to which the ship's line is made fast. The next line is run to inshore mooring buoy the same way. Then vessel is made fast to strong bollards.

LOADING: Carried out via a sophisticated conveyor system, the main tower of which is on curved track, thus allowing flexibility in loading either forward or aft for all the length of the vessel without any shifting, this is necessary only when loading palletised cargo. Also see "Shipmaster's Report".

BANKS: National Bank of Greece in Mandoudi. Foreign banks in Chalkis.

EMERGENCY CO-ORDINATION CENTRE: Nearest at Chalkis 60 km.

STORING: See "Prelims", page viii.

1. Yes.
2. Yes, vessel can store from barges during loading.
3. Trucks can proceed alongside.
4. Yes.
5. Declaration to Customs.
6. No.

SURVEYORS: Cargo inspectors and surveyors come from Piraeus.

SHIPMASTER'S REPORT: March 1979.

The port is on the Island of Nissos Evvoia. Vessel loaded a cargo of bulk magnesite ore (deadburned).

Documents: Crew List. Usual documents for Greece. However, as the ship had already cleared into Greece at Corinth, the Bond had to remain sealed from that port to Kymassi. Leaving Corinth a photo-stat copy of all papers handed in at that port was placed on board duly stamped by Customs for production at Kymassi. Register and usual certificates were taken by Agent to authorities and returned with Pilot plus clearance before sailing.

Pilotage: Pilot boards about 5 cables off the berth. He gave advance advice about the time the other ship was to sail and when he expected to board.

Approaches: Although no large scale British Admiralty Chart of the area or port on board, the approach was made without any difficulty. The 100 fathom line runs approximately 1 to 1.5 miles off the land. The ore loading berth is on the South side of the Bay with fairly steep to land on the Northern side. As ship has to swing to lie head out to sea, it is better according to the Pilot to approach keeping towards the North side of the Bay. Anchoring is not advised unless very good weather due to depth of water and poor holding ground. The Pilot, via VHF, advised us to lie off as the berth was occupied when we arrived. The ship berthed was due to sail around 1200 hrs., we arrived at 0900 hrs.

Radio: ETA and other relevant information was sent by radio to the Sub-Charterer's Agents, Financial Mining & Industrial Corp., in Athens. Cable address 'Epichiris – Athens'. There were no problems clearing messages.

Approaching Kymassi there was no response on VHF until the ship was within 4 miles of the port, when the Pilot answered on Channel 16 and we worked on Channel 12.

Berthing: Ship heads towards the loading jetty, a high concrete structure of "Y" shape with the ship berthing against the two arms. Both these are well fendered with numerous rubber tyres. On approach the port anchor is let go and as the ship snubs round to port an off-shore mooring line is run by the boat aft to the off-shore mooring buoy. This buoy has a slip toggle arrangement to which the ship's line is made fast. The next line run is the inshore after line which is taken to a mooring buoy inside the line of the berth. A head rope was then run to the pier and to a strong bollard.

The anchor cable was slacked and ship hove alongside by the head and stern ropes, the offshore stern rope being slacked as required. Back-spring was led to a bollard on the jetty as was the spring from aft. A further headrope was run to the bollard on the pier and aft a second rope to the inshore buoy plus a bight to a bollard on the pier.

Loading: Carried out via a sophisticated conveyor system, the main tower of which is on a curved track, thus allowing flexibility in loading either forward of aft in a hatch. It is necessary to shift ship to load each hatch.

Two grades of magnesite were loaded. One grade in No. 2 hatch, (first loaded), then the other grade between No. 1 and No. 3 hatches. When No. 2 was completed it was necessary to warp the ship astern to load No. 1 and later warp ahead to load No. 3 hatch.

Loading commenced at 1540 hrs. on the 17th and was completed at 0650 hrs. on the 18th. Allowing for shift ship plus change of gangs ashore it averaged out at a loading rate of 556 tonnes per hour.

The loader has an adjustable spout which ensures that the cargo can be readily trimmed to ensure a good flat stow on completion of space without any need for trimmers. The loader is operated with regard to the spout and slewing from a control box situated on the draw-bridge section of the loader. A very dusty cargo.

General: Whilst the vessel was alongside a small ship berthed using a Mediterranean moor, two anchors down and stern moored to a buoy. This berth is further inside the Bay. The vessel loaded her cargo from lighters.

Agents: The Agent from the Financial, Mining and Industrial Corp. was most helpful and attentive to his duties. He appears to work long hours as he also supervises the loading and works continuously. He also attends to advising when it is necessary to shift ship.

AUTHORITY: Harbour Master of Kymassi, Mandoudi, Evia Island, Greece. *Tel:* 0227-22020. Also VHF Channels 12, 14 and 16. *Contact:* George Sakalis, Harbour Master.

LAVRION: 37.42 N. 24.04 E. **(See Plan Book)**

DOCUMENTS:

Maritime Declaration of Health with Crew's Vaccination Cards.
Cargo Manifests.
4 Crew Lists.

PILOTAGE: Address of Pilot station, Port Authority of Lavrion. Pilot boat is a motor launch 8 m. long, black hull with white stripe flying code flag "H". Vessels requiring Pilot should flash or sound letter "G". Pilot boards about half a mile from Green Light (Ak. Ergastiria). In event of bad weather, boarding position is inside the buoy. Vessels awaiting Pilot should anchor close to the Green Light depending on vessel's size.

ANCHORAGES: See "Pilotage".

MAX. SIZE: Max. length 130 m. (approx.), max. draft 21 ft.

HEALTH: Health Officer and Port Officer board vessel on arrival. Maritime Declaration of Health should be submitted to Health Officer who examines any sick crew. Free pratique is not automatic.

VHF: Pilot boat equipped with VHF.

BERTHING: Harbour open to S.E. winds, but otherwise sheltered and safe. There are two quays: one 330 ft. length, depth alongside 20 ft., and one of 260 ft. length, depth alongside 13 ft.

Mining company owns bridge elevator with capacity of 700 tons per day.

STEVEDORES: Advance notice required in order to arrange gangs. No shore cargo equipment, and cargo operations effected by ship's gear.

MEDICAL: Medical assistance available.

FRESH WATER: Can be supplied to vessels alongside berth from tanker trucks.

FUEL: Only small quantities available as existing fuel tank only 10 tons capacity. Can be supplied by tank trucks from Piraeus.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per crew member allowed out of bond.

REPAIRS: Minor repairs only.
AIRPORT: Athens Airport, distance 45 km.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
POLICE/AMBULANCE/FIRE: Police, tel. 25218; Ambulance, tel. 25340; Fire, tel. 25249.
HOLIDAYS: Local holiday 26th July.
AUTHORITY: Port Authority of Lavrion.

MEGARA (Agia Trias): 37.58 N. 23.24 E.

(See Plan Book)

BERTHING: Pier owned by Hellenic Aspropyrgos Refinery S.A. in position Lat. 37° 58′ 11″ N., Long. 23° 24′ 17″ E. (working 24 hours.)

Pier projecting 205 m. from shore with berthing head 63 m. long. Single berth with depth of 42 ft. 6 in. at S.W. end. 44 ft. at N.E. end. 46 – 50 ft. available at 1 m. from the berth.

With suitable fendering berth can accommodate vessels up to 65,000 d.w.t.

Tankers discharge cargoes by 3 flexible hoses of 8 in. diameter each. The maximum acceptable pressure at the unloading hoses is 8 – 9 kg./sq.cm.

FRESH WATER: Not available.
FUEL: Not available.

For additional information see "PACHI OIL TERMINAL".

AUTHORITY: *Operator:* Hellenic Aspropyrgos Refinery S.A., 18 Hermou Street, T.T. 126. P.O.Box 649, Athens, Greece. *Tel:* 3236601, 3236974. *Cables:* Refaspr. *Telex:* 215442, 215443, Ref Gr. *Contact:* A. Tzouros.

MILOS ISLAND (Adamas, Voudia Bay):

(See Plan Book)

LOCATION: Adamas Harbour 36° 41′ N., 24° 28′ E.

Voudia Bay: 36° 45′ N., 24° 31′ E. (on the N.E. side of Milos Island).

DOCUMENTS:

4 Crew Lists.
3 Passenger Lists.
2 Provisions Lists.
2 Personal Effects Lists.
Vaccination Certificates.
Derat Certificate.
Manifest (in duplicate).
Certificate of Registry.
Load-line Certificate.
Safety Equipment Certificate.
Radio-telegraphy Certificate.
Certificate of Measurement.

PILOTAGE: No Pilot station. Vessels requiring a Pilot should sound 3 blasts on ship's siren. Pilot boards from small motor-boat. Agents may contact Pilot in advance of requirement by telephone.

ANCHORAGES: Safe anchorage in all parts of Milos Bay, where Adamas port is situated. Main anchorage in Milos Bay is on East side of Bombardos Cape, which has a lighthouse showing a fixed green light.

MAX. SIZE: Any size vessel may enter Adamas Port but berthing alongside is restricted to vessels of 16 ft. draft.

Ore loading berth at Voudia Bay (Privately owned by Messrs. Silver and Baryte Ore Mining Co.). No facilities for tankers. Ore loading Berth at Kanaba (Privately owned by Micobar Ore Mining Co.).

HEALTH: Authorities require 24 hours' notice of arrival in order to grant free pratique to vessels arriving from a non-infectious country. Free pratique cannot be granted at Milos to vessels having disease on board nor to those arriving from an infected area. Such vessels are required to proceed to a main Greek port (Piraeus, Syros, etc.) to obtain health clearance.

RADIO: Athens Radio and Heraklion Radio.
TUGS: Not available.
STEVEDORES: Loading/discharging at Adamas is by means of ship's gear. Bagged cargo loading rate is 250 t.p.h. At Voudia Bay and Kanaba, bulk ore is loaded at a rate of 500 to 800 t.p.h. (Conveyor Belt).
MEDICAL: No hospitals, nor private clinics available. There are 3 doctors and 1 dentist resident on the Island. There is an airport on the Island with regular services to Athens. Also in case of illness, the possibility of an emergency service.
FRESH WATER: Available to vessels alongside using ship's hoses. Delivery alongside up to 30 cu. m. in 12 hours.
FUEL: Small quantities lubricants available.
OPENING/CLOSING HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of spirits per person. Customs office at Adamas Harbour. Tel: 0287-41644.
REPAIRS: Minor oxy-acetylene repairs available.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Sundays and customary holidays. Cargo work can be arranged on these days at 75% increase on tariff rates.
TELEPHONES: Police 21-204; Port Authority 41-607.
SHORE LEAVE: Permitted.
DELAYS: Strong Southerly winds may delay berthing, or force vessel to leave loading berth at Voudia Bay.
DEVELOPMENTS: Intentions to extend existing wharf up to 70 m. with depth increases up to 30 ft. (This development has been delayed for economic reasons).

SHIPMASTER'S REPORT No. 1: *Voudia Bay:* Fresh water is available using vessel's own hoses. Limited quantity of provisions are available. Hire of polypropylene ropes of 150 m. length is possible.

It is advisable to close ventilators before loading due to excessive dust.

Pilot remains on board during loading.
Cargo: Perlite.
Loading rate for bulk: 250 t.p.h.
Loading rate for bags: 18–20 t.p.h.

SHIPMASTER'S REPORT No. 2: *Voudia Bay and Milos Island:* Situated on the N.E. corner of the island of Milos. When approaching from the S.E. the most prominent features are the scarred terrain, the factory building and the silo which is situated just above the berth. The loading gantry has both fixed red and white lights on and is conspicuous.

Anchorage: The vessel anchored in a position with the loader bearing 302° T. distance 7.5 cables in 48.5 m. of water using 5 shackles of cable, the holding appeared to be good. The recommended anchorage is in a position with the loader bearing 328° distance 5 cables where holding is reported to be good. There was another vessel in that position at the time.

Caution: This anchorage is not recommended in strong South to S.E. winds due to the seas that build up in the Bay. Vessels are recommended to go to the North of Pilonisi Island and anchor in a position N.W. of the North West point, a distance of not less than 3 cables. This island is now joined to the main island by rubble from the factory, this is not shown on the Chart (1832).

Method of Berthing: (See Plans). Approach to the berth is made heading in a N.W.'ly direction, keeping the Northernmost buoy (A) close to the starboard side and when the bow is passed about a third of the ship's length, the starboard anchor is let go and let run until about 4 shackles on deck, then it is checked, in the meantime a boat will take a breastrope from for'd, run from the port shoulder lead (1). Once this is ashore and the vessel begins to cant to starboard, the bow is worked into position by heaving on the breastrope and slacking the cable until there is about 6 shackles on the latter. Meanwhile, a line is run from the starboard quarter (2) to buoy (B). A word of caution here, the berth is designed to take vessels up to 23,000 tons, so for a small vessel it will be necessary to have 2 ropes joined together for moorings (2), (4) and (5). The next line sent away is one from the Port Quarter to ashore as a breastrope (3), the stern is then brought into position in a similar manner to the bow. As the prevailing wind is from ahead usually, the next rope sent away is the head line (4) and finally the stern line (5). The latter two are used for shifting the vessel under the loader. Directly under the loading gantry, there is a dolphin arrangement to keep the vessel off the cliff, but on completion of mooring, the vessel should end up about 6 ft. to 10 ft. off this.

Caution: In strong South to S.E. winds, the berth becomes dangerous and vessels have to leave and go to anchor and it is often necessary to leave the ropes on the buoys etc. as it is not possible to let them go. It is also advisable to retain some ballast on board for berthing.

There are 2 Pilots, both speaking English, the younger, an ex-Chief Officer has the better command of English and was the source of a lot of this information.

On leaving the berth, the last rope to be let go is (2) and with a smaller vessel, this can safely let go while weighing anchor. Vessel will then proceed to another anchorage close to, to secure, obtain clearance and clean up.

Loading Procedure: Loading is done by a chute and at an approximate rate of 300 tonnes per hour. The cargo is very dusty and everything should be securely battened down and it is strongly advisable to wear goggles and protective masks on deck as the dust is choking and if it gets in the eyes, they should not be rubbed as it is abrasive and can cause permanent damage. Eyes should be washed out. The ship will advise what weight she can take, and as the weighing procedure ashore is liable to break down after the first 500 tonnes, vessel is loaded according to draft, which has to be carefully checked, as when stipulating amounts required per hatch, they will not necessarily keep to this unless told. A boat is available for checking the draft, 1 blast on the whistle will summon it. Only method of getting ashore is by boat, so it is necessary to have the starboard gangway down. Both foreman and boatman have a fair knowledge of English, but foreman does not come aboard but stays on the loader, so it is necessary to shout instructions etc. The foreman will advise on shifting for position required, this is done with the aid of frequent blasts on a pocket whistle. Only one man comes aboard and that is to tend the chute.

There appears to be a continual short swell which makes draft reading a little difficult.

Entry and Clearance: Agent, Doctor, Customs and Harbour Master boarded the vessel at anchor and entered her there. Forms on board were not acceptable, but they transferred them to their own. I understand that the only acceptable forms are the standard IMO forms, and if there are any of these on board they should be used.

Forms required:
2 Crew Declarations.
3 Crew Lists.
2 Bonded Stores List.
2 Stores Lists.
1 Vaccination list (Including Cholera).

There are various other forms to sign, but these are prepared by the Agent. The Health Declaration is made out by the doctor in his book. The Agent, who is from the Mining Company, spoke very good English.

Weather: Northerly winds predominate during the Summer and can become quite strong during September, mainly from midnight to noon.

AUTHORITY: Port Authority of Milos, Adamas Harbour, Milos Island, Greece. *Tel:* 0287-41607.

Silver & Baryte Ores Mining Co., 21a Amerikis Street, Athens 135, Greece.

MITILENE (incl. Geras Bay and Pamfyllon): 39.06 N. 26.35 E **(See Plan Book)**

PORT LIMITS: A vessel is considered to be an "arrived ship" and laytime will commence at the working hours that follow the delivery of the Master's Notice of Readiness.

DOCUMENTS:

Quarantine:
Maritime Declaration of Health.
Valid Derat Certificate.
International Vaccination Certificates.

Customs:
2 Crew's Effects Declarations.
2 Ship's Stores Declarations.
2 Bonded Goods Declarations.
2 Crew Lists.

Immigration:
1 Crew List.

Port Authority:
1 Crew List.
1 Passenger List.
Ship's Certificates or Memorandum.
Ship's Papers.

PILOTAGE: It is not compulsory, but, if required, the services of experienced Mercantile Marine officers, having knowledge of the port, can be obtained.

ANCHORAGES: Off the Outer Port, in depths of about 18 m.; extreme end East of Kastro Peninsula (or Fokiotrypa) light, bearing due North.

RESTRICTIONS: Entry is not allowed after sunset.

MAX. SIZE: Length 120 m. – draft 17 ft. at Inner Port; length 160 m. – draft 28 ft at Outer Port.

HEALTH: The Authorities must receive a 24 hour advance notice for the ETA of the vessel with information about the port of origin, the cargo, the number of crew and passengers and the port of destination; details of any suspected disease or fever on board must be included in that notice. Pratique is automatic only for vessels entering after calling at another Greek port.

RADIO: "Athinai (Athens) Radio", "Limnos Radio", "Chios Radio", call signs SVA, SVL, SVX respectively.

VHF: Port Authority's VHF radiocommunication; Channel 12 for calling.

BERTHING: See "Plan Book". For drafts see "Max. Size".

STEVEDORES: At least 8 hours' advance notice for the number of stevedores required.

MEDICAL: In case of illness on board the Master should cable details prior to arrival. Hospital and dental facilities are available. Vaccination cards required.

TANKERS: At Geras Bay (Mamidakis) and Pamfila (Purfina).

FRESH WATER: Available from the quay through pipes. Cost per ton about 70 Drs.

FUEL: Supplied by tanker trucks only; advance notice required.

FIRE PRECAUTIONS: No more than the usual ones.

CONSULS:

Belgium	Tel. 28494	Netherlands	Tel. 28760
France	Tel. 28151	Sweden	Tel. 28494

REPAIRS: Local machine shops undertake very minor repairs.

SURVEYORS: Lloyd's Register.

HATCHES: Opening and closing is normally carried out by crew.

CUSTOMS ALLOWANCES: For each member of the crew: tobacco – 200 cigarettes, Wine/Spirits – one bottle and wine.

CARGO GEAR: Load/discharge effected by ship's own gear.

REPATRIATION: There are facilities for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Distance 8 km. It is regularly served by "Olympic". Flights to Athens and Thessaloniki.

TIME: GMT plus 2 hours. GMT plus 3 hours during Summertime from April till September.

HOLIDAYS: January 1st, New Year's Day; January 6th, Epiphany; Ash Monday; March 25th, National Holiday; Good Friday; Easter Monday; May 1st, Labour Day; Whit Monday; August 15th, Assumption; October 28th, National Holiday; December 25th, Christmas Day; December 26th, Boxing Day.

Cargo work can be arranged on these days after consultation with the union of stevedores.

POLICE/AMBULANCE/FIRE: Police, Tel. 100 and 22021; Hospital, Tel. 28412 and 22005; Fire Brigade, Tel. 199 and 22055.

EMERGENCY CO-ORDINATION CENTRE: Hellenic Coast Guard Emergency Co-ordination Centre (S.A.R. Chamber) in Piraeus. Telephones: 4112500 and 4173238. Telex: (021) 2022, 2273 and 2239 Yen Gr.

BANKS:
Bank of Greece, Prokymaia Telex: 297110 Bngr Gr.

Credit Bank, P. Kountouriotou 33. Telex: 297151 Ccb Gr.

STORING: Vessel can be stored by truck only. Trucks can proceed alongside at the berth.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: Shore passes are issued.

DELAYS: Normally there are no delays.

SHIP SUPPLY SERVICE: Ant. Picoulos Shipping Agency, Prokymaia, Mitilene. Office Tel: 23720, 27000, 24933. Home Tel: 22341. Telex: 297120.

A launch of 11 m. length available for ship to shore transport of personnel and/or essential stores and/or sick crew members if allowed.

AUTHORITY: Hellenic Coast Guard, Island of Lesbos Port Authority, Mitilene Port Authority, Prokymaia, Mitilene 81100, Greece. *Tel:* 28827, 28647, 24115. *Contact:* Commander B. Ch. Antypas.

MYKONOS: 37.26 N. 25.25 E.

Vessels in excess of 22,000 d.w.t. have been accommodated. Loading of Barytes ore at rates up to 5,000 tons per day. In Winter when North winds prevail conditions are satisfactory for loading: however, loading position considered unsafe when S.W. or West winds prevailing. When sufficient cargo is available vessels can load in 2 days.

PACHI: 37.58 N. 23.23 E. **(See Plan Book)**

DOCUMENTS: All usual certificates including Registry, Safety, Cargo Gear, Radio, Derat, Last Port of Clearance and:
9 copies Crew Lists.
2 copies Vaccination Certificates.
1 copy Cargo Manifest.
1 copy List of Spares.
1 copy Maritime Declaration of Health.
1 copy Vaccination List.
4 copies Crew Effects Declaration.
1 copy Passenger List.
1 copy Cargo Documents.
2 Special Customs Forms in triplicate.
2 copies Stores Lists.

PILOTAGE: Cable Agent 72, 48, 24 hours in advance advising ETA. Agent informs Pilot Office of vessel's arrival time. Piraeus Pilots can be contacted on VHF Channels 7 and 12. Pilot boards vessel North of Kanaria Islands.

ANCHORAGES: See "Piraeus".

RESTRICTIONS: None.

MAX. SIZE: Pachi Oil Terminal is able to accept vessels for discharging crude oil from 20,000 d.w.t. to 600,000 d.w.t., max. draft 29 m. The depth at the head of the pier is 31 m.

HEALTH: Pratique is in accordance with International Regulations. Pratique automatic if arriving from another Greek port.

RADIO: Athens (SVA).

VHF: Piraeus Pilots and Eleusis Coastguard operate a 24 hour service on Channels 16, 12 and 7. Hellenic Refinery operates on Channel 16.

RADAR: None.

TUGS: Usually join vessel near to the berth. Ship's lines always used.

BERTHING:

Location of berth: Lat. 37° 58′ 25″ N., Long. 23° 22′ 50″ E.

Pilot will advise Master of berthing place in accordance with Port Authority instructions. Usually berthing with starboard side alongside with 3 head lines, 4 breasts, 2 springs, 3 stern lines, 4 breasts and 2 springs depending on the size of the vessel. According to the Pilot, it is preferable to use ropes for head and stern lines.

MEDICAL: Advance notice not required; clinic available in town of Eleusis if required.

TANKERS: There is one berth with 4 unloading arms 16 in. diameter each. The maximum and minimum height of the manifolds to the ship is 35.5 m and 2 m. respectively above sea level.

The maximum accepted pressure at the unloading arms and of the crude oil system is 11 bars (150 p.s.i.) and the maximum accepted flow rate through each unloading arm is 4,000 cu.m./.hr. (Total for all four unloading arms 16,000 cu.m./.hr.).

DENSITY: 1025.

FRESH WATER: Not available at present.

FUEL: Not available at present.

FIRE PRECAUTIONS: Fire wires rigged fore and aft on outboard side of vessel. Deck scuppers plugged. Spark arresters to be fitted on tank openings. Earth connections made. Patrols made by Port Officers.

In the case of a storm, the Dock Master can stop discharge of vessels. The refinery fire fighting procedure is followed.

CONSULS: None locally. Consuls at Athens and Piraeus.

REPAIRS: While alongside, maintenance of any kind on board is strictly prohibited. In case of an emergency, the issuing of a special written "cold or hot work" permit is necessary.

DRY DOCKS: See "Eleusis".

GANGWAY/DECK WATCHMEN: Not required.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 open bottle of wine/spirit allowed per crew member.

REPATRIATION: All facilities available for crew changes and repatriation.

AIRPORT: Direct overseas flights available via Athens airport at Hellinicon.

TIME: GMT plus 2 hours. Summertime (March to September) GMT plus 3 hours.

HOLIDAYS: None affecting cargo operations.

POLICE/AMBULANCE/FIRE: All emergency services are available through the Terminal Office. Tel: 26480 – 26580. Fire alarms are installed throughout the jetty. Eleusis Coastguard (01) 5543504.

TELEPHONES: This service is available aboard ship by prior arrangement through the Agents. Standard rates apply.

SERVICES: Compass adjusting. Electronic equipment services.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Shore passes issued by Port Authority.

AUTHORITY: *Operators:* Hellenic Aspropyrgos Refinery, S.A., 18 Hermou St., T.T. 126, P.O.Box 649, Athens, Greece. *Tel:* 3236601, 3236974. *Telex:* 215442, 215443. *Cables:* Refaspr. *Contact:* A. Tzouros.

Eleusis Port Police.

PATRAS (including Rio): 38.14 N. 21.45 E. (See Plan Book)

DOCUMENTS: Port Authorities: 2 Crew Lists, Customs: Declaration of Cargo and Passengers.

PILOTAGE: Advance notice of ETA to be passed to Agents who arrange Pilot. Vessels without Agents should advise authority of ETA through Athens Radio, or on arrival outside harbour make International Code sounds and signals for vessels requiring a Pilot. Pilot boat is small boat carrying pilot flag. Pilot usually boards less than 1 mile outside harbour entrance. VHF contact possible with Port Authority and Pilot on Channel 12.

ANCHORAGES: Patras Roads are usually safe; when very strong W./N.W. winds blow, vessels may anchor at Nafpaktos Roads.

RESTRICTIONS: Port entrance has depth of 32 ft. At main harbour vessels having draft in excess of 28 ft. cannot berth. The limit at the new berth is 32 ft. draft. There is 1 red and 1 green light buoy in position of the intended line of extension to Northern part of breakwater (extension of 250 m.) where work is in progress. Buoys are about 600 m. from permanent lights marking North entrance to the harbour, and indicate shallow water.

MAX. SIZE: Vessels of less than 34 ft. draft. No restrictions on length or breadth. Height of tide, max. 0.55 m., does not affect size of vessel.

HEALTH: Pratique in accordance with International Regulations.

RADIO: Athens Radio.

TUGS: Two tugs, 900 h.p. and 1,200 h.p. Use of tug compulsory for all vessels over 1,000 tons gross. Joins vessel at entrance to harbour. Ship's lines used.

Tugs also available on request to Nicolas E. Vernicos. Tel: Piraeus 4527812-4522337 (24 hours).

BERTHING: In accordance with allocation given by Port Authority. Also see "Developments".

STEVEDORES: Advance notice of ETA required in order to arrange berth and order number of gangs to commence work immediately. General cargo rate about 80–100 t.p.h./gang, bulk cargoes 75–90 tons. 7 shore cranes, capacity up to 25 tons available. One shore crane capacity 118 tonnes with container handling facilities.

TANKERS: No facilities at Patras, but Texaco-Restis berth at Rio for vessels up to 18 ft. and 2,500 tons alongside. No residue discharge facilities.

FRESH WATER: Supply line connected to all berths. Rate 30 t.p.h.

FUEL: Deliveries by tank trucks at Patras. Available at Texaco-Restis berth at Rio.

FIRE PRECAUTIONS: Vessels refuelling or discharging explosives or flammable materials must apply to Port Fire Brigade to stand by.

WATCHMEN: Advisable to employ night-watchmen on large vessels.

HATCHES: Usually opened and closed by crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine/spirits allowed out of bond for each Crew member.

IDENTIFICATION CARDS: Crew are supplied with passes by Port Authority.

CONSULS:

Belgium
Denmark
Finland
France
Germany
Italy
Netherlands
Sweden
Switzerland

REPAIRS: Very minor repairs only.

REPATRIATION: All facilities for crew changes and repatriation.

AIRPORT: None.

TIME: Summertime GMT plus 3 hours end March to end September, otherwise GMT plus 2 hours.

HOLIDAYS: In addition to general Greek holidays and Sundays, local holidays are 8th September, 30th November. Work can be arranged on these days subject to payment of additional charges.

POLICE/AMBULANCE/FIRE: Port Police, tel. 277–622; Patras Police Station, tel. 277–261; Ambulance, tel. 274–444; Fire Brigade, tel. 199. The port has a fireboat.

TELEPHONES: Facilities for connecting on board.

SHORE LEAVE: Permitted.

DEVELOPMENTS: *(a)* Outer breakwater to be extended 600 m. in total.

(b) 4.7 m. is the depth along the newly constructed quay between Custom's House and fish steps.

(c) St. Nicolas Pier – length: 200 m. – is now available for berthing ships on both sides. Depths alongside are equal to those in North and South basins.

(d) Astingos Pier is reconstructed now having a 160 m. length on the South side and a 180 m. length on the North side. Depths alongside are same as in the basins.

(e) Crane with capacity of 250 tons to be purchased.

AUTHORITY: Port Authority of Patras, St. Othons Amlios 85, Patras, Greece. *Tel:* 061-277 093. *Contact:* The Technical Manager.

PIRAEUS: 37.57 N. 23.38 E. (See Plan Book)

(Including AGHIOS GEORGIOS 37.57 N. 23.36 E.; DRAPETZONA 37.56 N. 23.37 E.; and PERAMA 37.58 N. 23.35 E.)

DOCUMENTS: All usual certificates including Registry, Measurement, Inspection, Load-line, Fumigation, Passenger Safety, Cargo Gear, and Radio.

9 Crew Lists.
2 Vaccination Certificates.
Cargo Manifest.
List of Provisions and Stores.
List of Spares.
Maritime Declaration of Health.
1 List Vaccination Dates.
1 Crew Effects Declaration.

Customs:

2 Special Forms in Triplicate.
1 Stores List.
Master's Declaration of typewriters and adding machines, etc.
Crew Passports, or Seamen's Books.
Passenger Passports.

PILOTAGE: Cable Agent well in advance advising ETA. Agent informs pilot office of vessel's arrival time.

Pilots can be contacted on VHF Channel 16 for calling, Channels 7 and 12 for communication. Pilot boat is a wooden vessel about 10 m. length with black-painted hull, word "Pilot" painted in white.

Vessels requiring Pilot should signal letter "G" by morse light or by ship's whistle. Pilot boards vessel about 1.5 miles off entrance to harbour, except when very strong South winds prevailing, in which case vessel advised by VHF or by signal light that conditions impossible for Pilot boarding, and whether vessel permitted enter harbour at Master's risk.

If awaiting Pilot, anchorage is possible inside pilotage area of Piraeus – Aghios Kosmas – Piraeus Anchorage – Perama Anchorage – Megara Anchorage (Pachi).

ANCHORAGES: As above. Depths between 9 and 35 fathoms.

RESTRICTIONS: No restrictions for Aghios Georgios Harbour or Drapetzona excepting draft. Harbours open throughout 24 hours for entry and departure subject prevailing weather conditions. No tidal restrictions.

MAX. SIZE: (also see "Tankers") Aghios Georgios max. draft 32 ft. Drapetzona max. draft 38 ft. Piraeus max. draft 36 ft.

RADIO: Athinai Radio – SVA.

TUGS: Usually join vessel outside harbour, always using ship's lines. Over 30 tugs available. 10 of less than 1,000 h.p. and remainder over 1,000 h.p.

Nicolas E. Vernicos Shipping Co. Ltd., operate 10 tugs, 500 – 4,000 h.p. Available for towage and salvage. Tel: 4527812, 4522337 (24 hours). Telex: 212450 Vern Gr. VHF Channel 6.

BERTHING: Agent must advise Piraeus Harbour Authorities in order to secure berth allocation. 20,000 m. of quay space. 9 Ro/Ro ramps available.

CRANES: 3 container cranes, lifting capacity 41 tons.

56 electric wharf cranes with capacities of 2 to 27 tons installed along the wharf of the main port and at the dry and floating docks.

51 mobile cranes with capacities of 3 to 20 tons.

19 Straddle-carriers for containers, capacity 30 tons each.

4 floating cranes with capacities of 15, 30 and 2×100 tons.

BULK HANDLING FACILITIES: Silo suction-duct installations capable of moving grain at up to 130 t.p.h. and storage facility for 40,800 tons, as well as 2 mobile suction-duct units for bulk grain-cargoes.

One gantry crane lifting capacity 10 tons, used for coal and bulk cargoes installed at Hercules Port. Pier length 200 m., max. LOA 160 m., max. beam 17 m., max. draft 10 m. Average daily rate for coal 1,000 – 1,200 tonnes.

STEVEDORES: Agent must submit letter of application to Piraeus Port Authorities for number of gangs required also time required to commence cargo work. Discharge usually effected with ship's own gear.

Normal work on loading/discharge of goods in the port is carried out by 2 regular shifts, the morning shift (0800 – 1400 hrs.) and the afternoon shift (1500 – 2100 hrs.). Likewise, upon application of the interested parties (ship-owners, Agents, consignees, shippers, etc.), and provided approval of the competent P.P.A. Service is obtained, a third, night shift can be assigned to the job if the necessary workers and operators are available. This shift is again of 7 hour duration, from 2100 – 0330 hrs. or can be extended to the morning hours if necessary. Exceptionally in the case of work on refrigerator vessels, on which work during the Summer period is limited to the afternoon hours, the Service can assign workers and operators of loading/discharge machinery, starting from 1630 hrs., for a 7 hour period which can be extended, if conditions warrant, to the morning of the next day. Loading/discharge work may also be undertaken on Sundays and other non-working days (holidays) such work being considered as totally extra, being burdened with extra charges accordingly.

MEDICAL: All medical and hospital facilities available. No advance notice required except in special cases.

TANKERS: Discharging effected at private installations.

Shell	max. draft 32 ft.	Petrolles	max. draft 29 ft.
B.P.	max. draft 36 ft.	Fina	max. draft 28 ft.
Elvyn	max. draft 26 ft.	Mobil	max. draft 48 ft.

D.E.H. max. draft 36 ft. (outside steam generator factory, no facilities for going alongside).

DENSITY: 1025.

FRESH WATER: Available alongside berths. For vessels at anchor, water can be delivered by barges (capacity 150 – 240 tons) belonging to Piraeus Harbour Authority at 50% additional cost.

FUEL: Gas oil, fuel oil and mixtures of both to a certain viscosity available. Advance notice of requirements should be sent to Agent order complete customer's requirements.

WATCHMEN: Required.
HATCHES: Opened and closed by stevedores.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per crew member allowed out of bond. Wine/spirits, 1 bottle.
CARGO GEAR: Before commencement of loading or discharge, cargo gear is examined by Piraeus Harbour Authorities.

IDENTIFICATION CARDS: Passes required for seamen going ashore.
CONSULS:
Belgium
Costa Rica
Cyprus
Denmark
Ecuador
Finland
Iceland
Italy
Liberia
Netherlands
Norway
Panama
Philippines
Senegal
Somalia
South Africa
Spain
Sweden

REPAIRS: Facilities available for all kinds of deck and engine repairs.
DRY DOCKS: (A) Two permanent drydocks at Piraeus (i) Length 136.4 m., depth 9.27 m.; (ii) Length 93.3 m., depth 8.0 m.

(B) Two floating docks at Perama. (i) Length 202 m., depth 40 m., capacity 15,000 tons. (ii) Length 113.8 m., depth 28 m., capacity 4,000 tons.

Also see Eleusis and Syros.

*Representative.

SERVICES: Compass adjusting, tank cleaning. No facilities for discharge of tank residues.
SHORE LEAVE: Permitted.

SPECIAL PRECAUTIONS: *Ship's Speed in Port:* Incoming or outgoing vessels must keep speed steady, provided weather conditions and vessel's manoeuvrability allow to do so, but never to exceed 5 knots.

Pollution in the Harbour: Throwing overboard of ballast, objects of any kind, oil, food rejects, and dirt in general is strictly prohibited. All such rejects can be jettisoned after ship's exit from the harbour and at a distance not less than 16 miles from the nearest coast. Alternatively, all such rubbish can be thrown in a special rubbish-collecting vessel in the port.

Sea Pollution by Bunker Oil or Sediments: The jettisoning of oil products generally in any port or roadsteads less than 50 miles from the coast is strictly prohibited. Similarly prohibited is the pollution of the sea by jettisoning of oil-sediments during dry-docking or repairs of vessels.

Pollution of the Air: Strictly forbidden is the de-sooting of boilers of all vessels at Greek ports. Similarly prohibited is the exit of gases in the form of smoke, which poisons the atmosphere and endangers public health.

Overloading: If upon arrival or sailing the Port Authorities ascertain overloading of the vessel, heavy fines are imposed.
DEVELOPMENTS: Container terminal under construction. Length 800 m., depth 14 m. Completion expected 1984.

PRINOS: 40.56 N. 24.31 E.

SHIPMASTER'S REPORT: May 1984.

ANCHORAGE/PILOTAGE: Tankers using this terminal are required to anchor approximately 0.5 miles South of the breakwater at Kavalla town if a waiting period is involved but other than that vessels pick up the Pilot and Loading Master in the vicinity of the berth. Vessels which have had to anchor off Kavalla pick up the Pilot and Loading Master from Kavalla and proceed to the berth with them.
TUGS: Two tugs are available to assist with mooring operations.
BERTHING: B.A. chart No. 1086 shows a tanker mooring of superbuoy size which is incorrect. Actual berthing arrangement is an open sea moor using both anchors forward run out to about 9 shackles on each anchor and aft making fast to 3 buoys using 3 lines to each buoy. The buoys are orange in colour exhibiting an orange light flashing every 5 seconds.
LOADING: Product is stabilised crude. API 31.12. Average temperature 72°F. Loading rate approx. 1,700 t.p.h. Manifold connection 1 × 10 in. hose. There are no dirty ballast facilities. At the end of loading there may be a delay of up to 3 hours whilst waiting for cargo papers.

PROTI ISLAND: 37.05 N. 21.32 E.

SHIPMASTER'S REPORT: July 1981.

LPG Transfer Anchorage:
CHART: B.A. 719.
LOCATION: About 12 miles North of Pilos. Ship has to go to Pilos inwards and generally outwards to clear Customs and Immigration.
ANCHORAGES: For ship-to-ship transfers, only two anchorages are allowed – to West and North of Proti Island, both in deep water of 60 fathoms.

The Western anchorage is safe in Northerly or Easterly winds, very unsafe in Westerly or Southerly winds. Northern anchorage used in West or Southerly winds. Prevailing winds in Summer are from the North. Generally reasonably good position can be found 0.5 miles off the coast in both cases.

In bad weather vessels are allowed to shelter to the East of the Island, which is an excellent anchorage in all winds with little to no swell and good holding ground. Unfortunately the local population do not like ships in the area and exert pressure on the local authorities to move the vessel if it can be seen, as it can, when anchored to the East of Proti Island.
VHF: Pylos Port Authority on Channel 12.
CURRENT: Generally sets at 0.5 knots, but can be variable.
FENDERS/HOSES: Stored at Marathos, the local fishing village, during the Summer season.
PERIOD: The area is used for LPG transfers from May to December. Between December to May Karamata Bay is used.
SERVICES: Agents: J. Vrettakos and J. Giannopoulos have office in Marathos manned when a ship is working at Proti Island.

Stores: Small quantities can be brought out by the local fishing boats. Large quantities have to come up from Pilos by tug. Stores can be warehoused at Pilos, until required.

Doctor: For Cholera injections, comes from Kalamata, charge $34.00 plus $4.50 per person. Doctor will come out to ship in calm weather otherwise injections done in Agent's office. Yellow Fever can only be done in Athens. For general medical attention, there is a doctor in the village, or hospital at Karamata one hour away.

Water: Fresh water can be brought from Pilos at $10.00 per tonne, minimum 200 tonnes. The sea water is so clean that ship's plant can make fresh water.

Money: Customs rule, no Greek Drachmas to overseas seamen, they must use their own currency and exchange.

Reliefs/Crew Exchange: For large scale crew changes this has to be planned well in advance with permission from Athens. This is because the local population do not like a lot of foreign seamen moving about, Marathos is not an immigration landing point (Comes under Karamata) but the ship clears inwards and outwards at Pilos, a different district. A few officer changes present no problems.

The total number of joining/leaving with their documents numbers, nationality, flight numbers (arrival and departure), must be telexed by Owner to Agent at least four days in advance of movement.

Customs Allowance: Very strict (every 10 days), advisable to take full crew issue to cut costs of visits.

Lloyd's Surveyor: From Piraeus, minimum 2 days, charge US $1,500.00 per 2 days.

Cargo Surveyor: Redwood from Kalamata. Surveyor checks inward and outward for quantity transhipped (not individual shipments). Cost $340.

Boat Service: Standard charge $82.00, basis 4 round trips per day to Marathos. Local boatmen use fishing boats who are generally very good. Last boat back 2300 hrs.

Local Facilities: Marathos is a quiet fishing village with a few tourists in Summer. The local population do not like any trouble from ships' crews and will get the authorities to stop shore leave at the slightest sign of trouble.

Storing Costs:		
	Tug from Pilos on small amount basis	$800.00
	Tug from Pilos on 40 tonne basis	$2,500.00
	Riggers at Pilos per tonne	$25.00
	Customs at Pilos	$83.00
	Barge Pilos Bay per tonne	$33.00
	Crane Hire Pilos – straight charge	$333.00
	Pilot at Pilos in and out	$250.00

Generally most facilities and items are obtainable in this area as long as sufficient notice given.

Cargo Transhipment: 'Naftomar' the Greek company have sole rights to transhipment in the area. Their representative (a former LPG Master and Mate) stays in Marathos when a ship is working off Proti Island. He does all the co-ordinating. Contact can be made on VHF Channel II call sign "Nestor".

The representative is very helpful. Usually about a day's notice is given for a ship and as they all have to call at Pilos before coming to Proti Island a further 4 hours' notice is given.

NO coming alongside at night. Vessels leave at night with complete safety.

All the vessels are around 3,000 cu.m. (semi-pressure vessel type). Propane can be taken at about 150 m.t.p.h. and Butane at 250 m.t.p.h.

Various ships are used – Generally Greek under 'Naftomar' flag but Panamanian, Norwegian and Japanese. Generally co-operation good.

We obtained a receipt for each shipment signed by 'Naftomar' representative. A local fishing boat transfers lines on coming alongside.

Hose connection/disconnection done by ship's crew. The hoses we had were new 'British Compoflex' like our own and no trouble. They also gave us some old hoses as vapour return which we did not use.

Fenders: 3×2 m. Yokohama type as primary and old truck tyres as secondary. We kept the fenders at all times except when weather bad with ship alongside when she took them with her to get away and fishing boats brought them back to us.

AUTHORITY: Port Authority of Pylos, Pylos Messinias, Greece. *Tel:* 0721-22225. *Telex:* 252101. *Cables:* Limenarchon-Pylos. *Contact:* Harbour Master.

PYLOS (including Sfaktiria and Navarino Bay):

36.55 N. 21.42 E.

DOCUMENTS:

For Port Authorities

1. For ships under the Greek flag and foreign flag vessels of Greek ownership.
   Inspection of all Ship's Papers.
   7 Crew Lists with full details of crew members' home addresses.
   For passenger vessels – 6 Passenger Lists including passport details, that is, number, date of issue and nationality.
2. Foreign Flag Vessels.
   Inspection of all Ship's Papers.
   3 Crew Lists.

For Customs

Crew Personal Effects List.
1 Crew List.
Passenger List.
Lists of goods or effects to be sent ashore.
3 Lists of Stores and Spares.
Bills of Lading.
Cargo Manifest.

PILOTAGE: No Pilot station. There is a private Pilot employed by the bunkering company named G. Mamidakis Limited. Agent and/or bunkering company should be advised in advance of vessel's ETA order arrange Pilot to meet vessel at entrance of Navarino Bay and take vessel to oil installations at Sfaktiria Bay.

ETA should be passed by radio telephone at least 48 hours before arrival and thereafter confirming ETA within 24 hours of arrival. If ETA has not been passed by radio, vessel should wait at entrance to Navarino Bay, and request Pilot by signalling letter "G" by flashing light or ship's whistle.

ANCHORAGES: Safe anchorage may be made in all areas of Navarino Bay except within red sector of Helonaki Islet light.

MAX. SIZE: Any size vessel can enter and anchor in Navarino Bay. The small harbour of Pylos is only suitable for small vessels.

HEALTH: Doctor visits vessels that require free pratique, and those coming from infected ports. Master and Health Officer together sign Maritime Declaration of Health. Free pratique continues when vessel arrives from another Greek port. A vessel in transit must have free pratique if remaining in port more than 24 hours. Infected vessels or suspected vessels remain under quarantine in accordance with existing health regulations.

RADIO: Athinai Radio.

TUGS: No tugs available.

STEVEDORES: Labour requirements passed by radio at least 24 hours prior arrival. No shore loading/discharging facilities and this work effected by ship's gear. Average rate load/discharge 100 tons per gang every 8 hours.

MEDICAL: Agent should be advised by cable prior arrival of medical and medicant requirements. There are two chemists and a Red Cross hospital. Yellow-fever and cholera vaccination certificates required.

TANKERS: Sfaktiria Island Installation (ESAPP. G. Mamidakis Limited). 2 flexible hoses diameter 6 in. and 1 gas oil hose diameter 2.5 in. No facilities for residue discharge. At Pylos small harbour there is a jetty 100 m. length, the head of which is reserved for small tankers carrying wine and spirits, which moor stern to quay. At head of pier, depth of water about 4 m., but within short distance from pier, depth increases to 10 m. Only 1 vessel of 12 ft. to 15 ft., draft can moor stern to quay at any time. Loading/discharging is effected through flexible and portable pipelines belonging to Gialovi Wine Factory at Pylos, and cargo is transported by special tank trucks.

DENSITY: 1023 in harbour basin and whole of Navarino Bay.

FRESH WATER: Master or Agent must apply in writing to Customs Authority, and application is to include notice from water supplier giving quantity to be supplied and cost of supply. Water barge capacity 200 tons. Rate of supply 160 t.p.h. by canvas hoses. Barge belongs to Maritime Agency I. Vrettakos, Pylos. Water also available alongside Pylos harbour quay.

FUEL: Mamidakis Fuel Installations at Sfaktiria Island. Vessels should give 48 hours' notice to Mamidakis (Athens Office, address: Eleftheriou Venizelou 56; Tel. 622543) Pylos Tel. 22282.

FIRE PRECAUTIONS: No unusual fire precautions at Sfaktiria Installations, but at main port of Pylos authorities do not allow loading/discharging of 2 vessels at same time, as the only 2 berths available are very close to each other.

WATCHMEN: Usually not necessary to employ watchmen, but if required, available.

HATCHES: Usually opened and closed by crew.

CUSTOMS ALLOWANCES: 2 packets of cigarettes per crew member/day allowed out of bond according to duration in port and this quantity to be declared on Stores List. Store orders for supply of additional quantities are allowed on the basis of the number of crew and the length of voyage, basis 2 packets per day per crew member. 1 opened bottle wine/spirits allowed out of bond.

IDENTIFICATION CARDS: Shore passes issued against submission of seamen's books.

REPAIRS: 3 workshops for minor repairs.

REPATRIATION: Crew changes and repatriation facilities available.

AIRPORT: Kalamata Airport, 40 km. from Pylos. Kalamata/Athens flights every day at 17.50 hrs. Athens/Kalamata every day flights at 19.10 hrs.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: *(a)* Standard Government Holidays; *(b)* Local holidays: 9th May (St. Nicholas) holiday for port workers; 24th September; 20th October (Anniversary of Battle of Navarino). During these holidays, cargo work can be arranged subject overtime payment.

POLICE/AMBULANCE/FIRE: Police (Pylos) 223-16; Greek Red Cross Hospital Pylos 223-15; Kalamata Fire Brigade 28373.

TELEPHONES: No facilities for placing on board.

GENERAL: Very severe fines imposed on oil pollution.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Work in progress to extend existing Pylos harbour pier to 215 m. length, 20 m. width, and 15 m. depth at head of pier. Depth inside pier to be 10 m.

SHIPMASTER'S REPORT: July 1981.

Time: GMT plus 2 hours Winter, plus 3 hours Summer as per A.L.R.S. Vol. No. 5.

Chart: Pilos/Navarine Bay – BA 211.

General: Pilos: A fairly busy port for ships taking stores and water and changing personnel.

Navarine Bay is well sheltered and generally deep.

Bay can be entered and left with safety as long as vessels keep well up to Pilos Island (Baba Island) off Cape Kypri, shoals exist on the Southern shore.

Pilot: Advise Agent 24 hours in advance. Pilot boards about 1 mile outside heads in calm weather, otherwise inside, from slow motorboat.

Pilot speaks little English, uses mostly sign language but seems competent.

VHF: Pilos Port Authority and Pilot on Channel 12 when expecting vessels. Agents work Channel 11, Call Sign "Nestor" when expecting vessels (unofficial).

Anchorage: In area 8.5 cables N.W. of Pilos Jetty (5 shackles).

Bay: Navarine Bay is good and sheltered. An 8 fathom patch in centre as per BA Chart 211.

Agent says 300,000 d.w.t. tankers drawing up to 15 m. draft have anchored in Bay.

New jetty for small craft at Pilos (nearly finished – July 1981).

Current: Outside Heads generally South going at rate of 0.5 knots.

Tug: 1 tug (1,000 h.p.) owned by principal Agency, called "Nestor", sometimes not at Pilos but at Karamata.

Agents: Principal Agents: J. Vrettako and J. Giannopoulos with offices in Athens, Karamata, Pilos and Marathos.

Pilos office: Telex: 252152 Vret GR. Tel: 0723-22-255/22-219. Cables: "Tainaron".

Very good and helpful.

Services/Supplies: Pilos: A 20 tonne crane on jetty owned by Agents.

Water: Fresh Water is plentiful at $4.00 per tonne minimum 20 tonnes in Navarine Bay.

Supplies: Generally good, although advance notice required. If frozen provisions required this must be stipulated.

Unitor Gas: Limited range held by Agents. Oxygen/acetylene, R22/12 has to come from Athens area (2 days' notice).

International Paint: From Piraeus full range (2 days' notice).

Lub Oil: Most brands including Chevron from Piraeus in drums (2 days' notice).

Repairs: Very limited at Karamata about one hour away, otherwise full range at Piraeus. Parts for repair can be sent by truck to Piraeus and return the next day if an emergency, but generally allow three days.

Fuel: Very limited supply H.O. and D.O. in Pilos but negotiations under way to expand local facility.

Walport Films: By arrangement with Agency in Skaramanga (2 days' notice).

Airport: At Karamata – local airport one hour away. Olympic Airways daily flight from and to Athens. Arrives at 1800 hrs. and leaves at 1900 hrs. (40 minute flight).

International flights from Athens. To catch internal flight to Karamata you must land in Athens not later than 1600 hours.

Communications: Roads poor, takes 6 hours to get to Athens. Telephone services – internal reasonable, overseas poor.

Boat Service: From anchorage to town in Navarine Bay easily arranged at $5.00 per ship per trip.

Customs/Immigration: Customs very strict. Basic issue only allowed but best take out for all crew members. Immigration check all crew books inward and outward. Greek shore passes required with crew members photo attached. Forms: All on Greek Papers.

1 copy Ship's Particulars.
2 copies General Stores Declaration.
2 copies Bond Store Declaration.
1 copy Crew Declaration.
6 copies Crew List (U.S.A. style).

AUTHORITY: Port Authority of Pylos.

RHODES (including Akantias): 36.25 N. 28.17 E.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Cargo Manifest.
1 Stores and Provisions List.
Usual Ship's Documents.

PILOTAGE: 24 hours' notice required by Rhodes Port Authority. Pilot boards 1 mile from port.

ANCHORAGES: Suitable anchorage up to a distance of 300 m. from the port East of the pier extension.

RESTRICTIONS: Port entry can be difficult and sometimes impossible with strong North or N.E. winds.

MAX. SIZE: Up to 24 ft. draft.

RADIO: Rodos Radio, 2182 kHz.

BERTHING: Pilot will advise Master of berthing place in accordance with Port Authority instructions.

2 diesel motor-driven cranes capacity 2 tons and 3 tons available for discharging. No facilities for containers.

STEVEDORES: 24 hours advance notice required in order to arrange gangs.

MEDICAL: General hospital and private clinics available.

FRESH WATER: Available – supplied by canvas hoses.

FUEL: Deliveries only by tank trucks.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: 60 cigarettes per day per crew member and 1 bottle wine/spirits per crew member allowed out of bond.

CONSULS:

France	Tel. 2318	Sweden	Tel. 3379
Germany	,, 7479	Turkey	,, 3362
Italy	,, 7432		

REPAIRS: Minor repairs only.

AIRPORT: Distance 15 km. During Winter, flights twice daily to Athens, and during Summer, flights 5 times daily.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: 1st January, 6th January, 7th March, 25th March, Good Friday, Easter Monday, 21st May, 15th August, 28th October, 8th November, Christmas Day, Boxing Day.

POLICE/AMBULANCE/FIRE: Police, tel. 7690 or 2220; Ambulance, tel. 2555; Fire Brigade, tel. 3333.

DELAYS: Sometimes necessary to remain outside harbour up to 3 hours to allow coastal passenger vessels to berth if other berths are full.

DEVELOPMENTS: Extension of the Merchant Port Pier by 110 m. to North and 140 m. to S.E. Also an extension of the new harbour (Akantias) pier, to the East of the Marine Harbour. Length to be 480 m. with a depth of 6.5 m. alongside.

AUTHORITY: Central Port Authority of Rhodes.

STYLIS: 38.55 N. 22.37 E.

DOCUMENTS: The usual Documents for all Greek Ports are required i.e. Cargo Manifest, Crew List, Store Lists, Personal Effects, Ship's Certificates, Oil Book, Cargo Gear Book, Exchange Declaration.

PILOTAGE: Compulsory. Pilot can be boarded at Stylis anchorage which is half a mile South of the Island of Kaloyiros. Pilot is a practical seaman who has experience and knowledge of local waters.

Vessels entering Stylis port must pass through the channel of 2 flashing green and 2 flashing red sea buoys and be in the line with the main light situated on the pier, flashing orange.

There is a pilot boat painted white flying the international Pilot's letter "H". VHF is installed and the working frequency is Channel 12.

There are 4 white launches available for hire (capacity 10 – 20 passengers). VHF is installed and the working frequency is Channel 10. These are for Pilots and Crew Members of anchored vessels.

ANCHORAGES: See "Pilotage".

The Gulf of Maliakos is a safe anchorage for laid up vessels. Position should be given upon request to the Ministry of Merchant Marine, Piraeus.

MAX. SIZE: Max. draft 18 ft. 6 in.

VHF: Port Authority on Channels 7 and 12.

TUGS: No tugs are available. For large vessels being laid up at Maliakos Kolpos tugs and Pilot must be ordered from Volos.

BERTHING: Stylis port is an open port on the North side of Maliakos Kolpos and consists of berths on the North side and of shallow waters on the South side which break at low tide. The berths total about 450 m. in length, forming the Greek letter π. The draft varies along the 3 berths with a max. of 18 ft. 6 in. at HW and 17 ft. at LW.

CRANES: No crane railway system is installed. Loading and/or discharging operations take place only by ship's gear or by mobile cranes which can be hired through the local Agents from Stylis/Lamia and/or Volos.

STEVEDORES: Working hours: 0800 hrs. – 1700 hrs. daily.

FRESH WATER: Fresh water available 24 hours. Rate 30 cu.m.p.h. Vessels must use their own hoses.

FUEL: No bunkers available. Vessels can be supplied only by barge and/or trucks ordered from Volos/Athens/Salonica.

REPAIRS: Minor repairs can be carried out.

STORING: A limited quantity of stores and provisions are available in Stylis. Transit stores are not available.

HOLIDAYS: Agios Athanassios on January 18th, Agios Nikolaos on December 6th.

GENERAL: No warehouses are available on the docks.

The main exported goods are olives and olive oil in tins/drums, reels of cables, cotton, etc. The imported goods are timber, machinery, paper, etc.

DEVELOPMENTS: A dredger is widening the channel and deepening the Harbour in order to accommodate vessels up to 20 ft. draft.

AUTHORITY: Stylis Harbour Authority, Stylis, Greece. *Tel:* (0238) 22329. *Contact:* Lieutenant Commander John Kioupis, Harbour Master.

SUDA BAY, Crete: 35.29 N. 24.09 E.

PORT LIMITS: Suda Bay.

DOCUMENTS:

3 copies Crew List.
Cargo Manifest.
Agency Manifest.
Transit Manifest.
Ship's Store or Instruments Manifest.
Clearance from the last Port of Call.
All the necessary certificates according to International Laws and Conventions.

PILOTAGE: Not compulsory – pilotage service is non existent.

ANCHORAGES: Safe anchorage area in the Port of Suda according to the Port Authority instructions.

RESTRICTIONS: Permission for departure or arrival after sunset is given by the Suda Navy Base.

MAX. SIZE: Permissible length 200 m., breadth 10 m.

HEALTH: Pratique is compulsory for all ships coming from ports outside Greece.

VHF: Helles Radio VHF Channel 16.

TUGS: None.

BERTHING: Cargo pier, depth up to 32 ft. Grain silo with similar depth alongside.

CRANES: None.

BULK CARGO FACILITIES: Bulk cargo discharging gear available.

SPECIALISED CARGO-HANDLING FACILITIES: Fork lift trucks available.

BRIDGES: None.

STEVEDORES: Available.

MEDICAL: Hospital facilities available.

TANKERS: There are no oil discharging installations or facilities for tankers.

FRESH WATER: Installations for the supply of fresh water available.

FUEL: Available in limited quantities.

FIRE PRECAUTIONS: Fire brigade service at Chania.

CONSULS: West Germany and France.

REPAIRS: Limited facilities.

DRY DOCKS: None.

SURVEYORS: None.

WATCHMEN: Services of watchmen are not necessary and are non existent.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle of spirits.

CARGO GEAR: Only with ship's gear.

REPATRIATION: Two flights and one passenger ship daily for Athens.
AIRPORT: Airport 15 km. from Suda Bay. Regular air service, two flights per day.
TIME: In Winter GMT plus 2 hours, in Summer GMT plus 3 hours.
POLICE/AMBULANCE/FIRE: Police 89271, Ambulance 22550, Fire 22432.
TELEPHONES: Arrangements do not exist for placing telephones on board.
SHORE LEAVE: Crew members are allowed ashore.
IDENTIFICATION CARDS: Shore passes are required.
REGULATIONS: Taking photographs of Suda Bay is strictly prohibited.
EMERGENCY CO-ORDINATION CENTRE: The Port Authority of Chania.
STORING: See "Prelims", page viii.
1. Yes. 4. Yes.
2. Yes. 5. —
3. Yes. 6. Yes.
DELAYS: Short delays only.
DEVELOPMENTS: No plans for new installations.
AUTHORITY: Port Authority of Chania, Chania, Crete, Greece. *Contact:* F. Psaras, Harbour Master.

SYROS: 37.26 N. 24.56 E.

DOCUMENTS: *Ships under the Greek flag* – documents required are:
Ship's Register.
Seaworthiness Certificate.
Log Books and Ship's Papers.
Load-line Certificate.
Radio Station Licence.
Fumigation Certificate.
4 Crew Lists.
2 Passenger Lists.
Ships under foreign flag, Greek owned – documents required are:
Ship's Articles.
Load-line Certificate.
Seaworthiness Certificate.
Ship's Papers.
Radio Station Licence.
Fumigation Certificate.
4 Crew Lists.
1 Passenger List.
Ships under foreign flag – documents required are:
Seaworthiness Certificate.
Fumigation Certificate.
Load-line Certificate.
Radio Station Licence.
2 Crew Lists.
1 Passenger List.
PILOTAGE: Pilot to be ordered by ship's Agent at least 24 hours before arrival notifying approximate ETA. Pilot boards from private motor launch, about 0.5 miles off the port, weather permitting. In bad weather Pilot boards in harbour entrance.
ANCHORAGES: Vessels awaiting Pilot anchor outside the harbour South of a line between the green breakwater light and the North end of Gaidaros Island. Anchorage in the Southern part of the harbour in depths of 20m. – 30 m.
MAX. SIZE: Length 200 m. Vessels of shallow draft may go alongside the Neorion Pier or moor stern to the pier. Deeper-draft vessels remain at anchor in the harbour.
HEALTH: Free pratique is given when ship's declaration of health has been endorsed by a Health Officer.
RADIO: Loutsa Radio.
TUGS: 2 tugs available. Tugs usually join vessel 1 mile from harbour entrance. Payment for use of tug's line is obligatory.
STEVEDORES: At least 1 day's notice required to arrange gangs.
MEDICAL: No advance notice required if medical assistance needed. Hospital and general clinic available.
TANKERS: Discharge alongside terminal of A. E. Seica at Lazareta, near the entrance to the harbour.
DENSITY: 1026.
FRESH WATER: Limited quantity can be supplied by private company. Delivered by barge.
FUEL: Can be supplied by A. E. Seica, by barge or pipe-line.
WATCHMEN: Not required.
HATCHES: Opened and closed by ship's crew.
CUSTOMS ALLOWANCES: Each man allowed 40 cigarettes per day for period not exceeding 5 days. Each man allowed 1 opened bottle of spirits. No restrictions for wine.
IDENTIFICATION CARDS: Shore passes are issued on production of seamen's books or passports.
CONSULS: France – Tel: 3–62. Netherlands – Tel: 7–20.
REPAIRS/DRYDOCKS: Neorion Syros Shipyards can undertake any kind of engine and hull repairs and alterations. Holds LTC licence for piston reconditioning.

	Floating Dock 1	*Floating Dock 2*
Capacity	75,000 d.w.t.	40,000 d.w.t.
Lifting Capacity	25,000 tons	15,000 tons
Length overall	230 m.	195 m.
Width between sidewalls	35 m.	33.5 m.
Pumping Time	160 minutes	100 minutes
Cranes	2×10 tons	1×15 tons 1×10 tons
Quay Space	1,800 m.	
Floating Cranes	1×70 tons capacity and 1×200 tons capacity	
Travelling Cranes	Up to 40 tons capacity	

Tank cleaning station with storage capacity of 7,000 tons and separator capacity of 3,000 tons of dirty ballast and slops per hour.

4 tugs of which one is an ocean going salvage tug.

Machine shop, plate shop, foundry containing the most modern equipment.

Gritblasting.

Service Agency for Sulzer Bros. Ltd., Lister Ltd., B+W, Caterpillar SA, SKL Ltd., MWM, MAN.

Resident Classification Surveyors: Lloyds Register of Shipping, American Bureau of Shipping.

Neorion Shipyards Syros Ltd., Syros, Greece. Telex: 0293123 Neorion Syros. Tel: 010-281 22001.
REPATRIATION: Can be arranged.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
REGULATIONS: Port Captain should be contacted for any queries not covered by lists of regulations provided on arrival.
HOLIDAYS: Work may be arranged on all holidays on payment of 75% additional to tariff.
POLICE/FIRE/AMBULANCE: Police 6-10; Fire 3-33; Ambulance 5-55.
TELEPHONES: Cannot be connected on board.
SHORE LEAVE: Crew may go ashore after pratique is given, carrying shore leave passes issued by Port Authority.
DEVELOPMENTS: Port being dredged to permit entry of larger vessels. Shipyard installing facilities for building vessels up to 15,000 tons.

SHIPMASTER'S REPORT: February 1983.
Vessel called for bunkers only.
Documents: Not required for bunker call.
Pilotage: Recommended, not known whether compulsory or not. Vessel could undock without Pilot, however, Pilot necessary for docking.
Pilot boards 1 mile East of harbour entrance.
Chart: B.A.1833 – Plans in the Kirkladhes.
Restrictions: No restrictions on night berthing at bunker dolphin. No tidal restrictions.
Radio: Limnos and Athens. Cable address "Sekavin Syros" for bunkers.
VHF: Pilot and Bunker Agent operate on Channel 12.
Tugs: One medium size tug used aft for mooring and unmooring. Vessel cannot moor/unmoor without aid of tugs.
Berthing: 'Seka' bunker dolphin 214°T×3 cables from Fl.G. 3s. breakwater light. Berth is 2.5 cables from harbour entrance.

Vessel berthed head 040°T, with 7 shackles out on each anchor. Bunker dolphin just forward of bridge, starboard side. 4 mooring lines run from main deck and 1 spring from poop. All short nips from main deck.

Berth appears unsafe but we found that vessel remained alongside in strong winds.

Soundings taken at stern when moored gave 13 m. of water.

Vessel is restricted by draft, and distance from manifolds to dolphin.
Density: 1025.
Fuel: Bunker fuel oil and diesel available. Rate 200 t.p.h.

Shore installation used 6 lengths of hose (6 in. diameter) which were lifted aboard by shore derrick from bunker dolphin. The hoses were manhandled forward to the vessel's midship manifold. Same hoses used for both products.

No lighters available for bunkering.
Repairs: Facilities available.
Dry Docks: Available.
Airport: No local airport.
Authority: No authorities boarded.
Agent: No Agent in attendance for bunker call.

AUTHORITY: The Harbour Office of Syros.

THESSALONIKI (Salonica): 40.38 N. 22.56 E.

(See Plan Book)

PORT LIMITS: A vessel is considered as an "arrived vessel", when she has passed the line connecting the Small Kara Point and Paliomanna light buoy.
DOCUMENTS: For Greek flag and Greek-owned vessels:
List of Foreign Exchange.
Crew list (additional for Port Authority).
All vessels:
4 Crew Lists (Port Authority, Customs, Immigration and Health).
1 List of Stores.
1 List of Personal Effects.
Copies of Bills of Lading and Cargo Manifest.
PILOTAGE: Apply for Pilot through VHF Channel 12 or by international code signals. Pilot meets vessel about 1,000 m. S.E. of breakwater light (white). Pilot boat is small motor-boat carrying pilot flag.
ANCHORAGES: Area from 500 m. to 1,000 m. S.E. of port offers safe anchorage.
MAX. SIZE: Average safe depth of water 9.50 m. Two berths with depth 11.50 m.
HEALTH: Health Officer boards vessels from foreign ports to grant free pratique.
RADIO: Radio Thessalonika. 24 hours' notice of ETA required to obtain berth and stevedores.
VHF: Operative throughout 24 hours on Channel 12, Central Port Authority.
TUGS: 3 tugs from 500 h.p. – 1,800 h.p. owned by Nicolas E. Vernicos, also available for salvage and towage contracts.
MEDICAL: Advance notice not required – all facilities available.

SPECIALISED CARGO-HANDLING FACILITIES: The port has silos of capacity 20,000 tons (rate 150 t.p.h.), a cold storage of 2,110 cu. m. of which 470 cu. m. is deep-freeze chambers and 1,640 cu. m. refrigerated chambers.

AGET Installation: 1 berth for discharging cement in bulk by specially constructed ships equipped with automatic discharging gear. Max. draft 30 ft.

CRANES: 36 electrically driven dock cranes of 3 tons–27 tons capacity. 22 mobile cranes of 3.5 tons–30 tons capacity. 1 floating crane of 70 tons capacity. Forklifts up to 25 tons. 2×35 ton straddle carriers.

TANKERS: 1. *Esso-Pappas installation. (a)* Sea Island berth capable of accommodating 2 vessels of 24,000 tons and 14,000 tons respectively. Max. draft 32 ft. 8 lines, diameter 16 in. (1); 10 in. (3); 4 in. (3); 6 in. (1). *(b)* 7 buoy mooring for vessel of up to 80,000 tons. Max. draft 44 ft. Submarine 34 in. pipe-line for crude oil discharge. 2 flexible discharge lines 10 in. diameter.

2. *Mamidakis Installation.* Stern discharge berth. Max. draft 32 ft. 2 submarine lines enable 2 grades of cargo to be discharged through 8 in. line at 200 t.p.h. and 6 in. line at 160 t.p.h.

3. *Ethyl Oil Berth,* length 320 m., depth alongside 10 m.

DIRTY BALLAST: 2 tanks of 600 tons each and 1 of 6,000 tons are available for the reception of dirty ballast at Esso-Pappas installation.

The discharge overboard of any oil or oil contaminated water is strictly forbidden and every precaution must be taken to avoid pollution.

DENSITY: 1025.

FRESH WATER: Unlimited supplies available.

FUEL: Unlimited quantities available. Usual notices required. Suppliers B.P., Shell, Esso-Pappas, Mamidakis.

FIRE PRECAUTIONS: One firefighting launch of 2 × 480 h.p. and one fire fighting station.

WATCHMEN: If required, cost by private negotiation.

HATCHES: Opened/closed by crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits allowed out of bond for each crew member.

CARGO GEAR: Adequate shore gear available.

IDENTIFICATION CARDS: Passes issued to crew members of foreign vessels.

CONSULS:

Austria
Belgium
Bulgaria
Chile
Denmark
Finland
France
Germany
Italy
Japan
Mexico
Netherlands
Norway
Peru
South Africa
Spain
Sweden
Switzerland
Turkey
U.K.
U.S.A.
Yugoslavia

REPAIRS: Only minor repairs.

REPATRIATION: Facilities for crew changes and repatriation available.

AIRPORT: Distant 12 km. S.E. of town. 6 flights daily to Athens.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: (National): 1st January, 6th January, 25th March, Good Friday, Easter Monday, 1st May, 15th August, 28th October, Christmas Day, Boxing Day. (Local): 26th October. Work may be arranged on holidays at double costs.

POLICE/AMBULANCE/FIRE: Port Police, tel. 531-502; Ambulance, tel. 531-531; Fire, tel. 199.

TELEPHONES: Facilities available for placing on board.

SHORE LEAVE: Permitted without restriction. For tankers, the Master should arrange transport with Agent for seamen to the landing pier in Thessaloniki Harbour. Seamen will not be permitted to pass through refinery area.

DEVELOPMENTS: 6th Pier under construction. Length 660 m., width 600 m. and depth 11.5 m. One section will be used as a container terminal.

AUTHORITY: Port Authority of Thessaloniki, Thessaloniki, Greece. *Tel:* 031-526221 (ext. 112). *Telex:* 412-536 Thpa Gr. *Contact:* E. Sophianopoulos or Panos Mamalis, General Manager.

VOLOS: 39.21 N. 22.56 E. (See Plan Book)

DOCUMENTS:

Nationality Certificate.
Measurement Certificate.
Crew Lists (5 copies).
Derat Certificate.
Health Documents of Crew.
Cargo Gear Book.
Safety:
  (a) Passenger Ship Safety Certificate.
  (b) Cargo Ship Safety Construction Certificate.
  (c) Cargo Ship Safety Equipment Certificate.
  (d) Cargo Ship Radiotelegraphy or Radiotelephony Certificate.
  (e) Exemption Certificate.
  (f) Nuclear Passenger Ship Safety Certificate.
  (g) Nuclear Cargo Ship Safety Certificate.
International Load Line Certificate (1966).
Certificate for Inspection of Life Raft.
Oil Book and International Sewage Pollution Prevention Certificate (1973).

PILOTAGE: Compulsory. Pilot boards about 1 mile outside port. Pilot boat is small launch coloured grey and black.

ANCHORAGES: Suitable anchorage situated 1–2 miles outside harbour in depths of 14 m. to 20 m.

RESTRICTIONS: Vessels in excess of 10,000 tons unable enter at night.

MAX. SIZE: Max. draft 30 ft., no limitation on length or breadth.

HEALTH: Port Officer acts as Health Officer and pratique effected on doctor's advice. If arriving from another Greek port, pratique automatic.

VHF: Port Authority on Channel 12.

TUGS: Join vessel at entrance to harbour. 7 tugs, 280 h.p., 380 h.p., 465 h.p., 480 h.p., 640 h.p., 860 h.p. and 1,080 h.p.

BERTHING: Ro/Ro facilities available.

Dock	*Length*	*Depth*
K	600 m.	8.0 m.
1	1,000 m.	9.7 m.
11	980 m.	9.7 m. (under construction)
R	270 m.	7.0 m. (under construction)

CRANES:

1	Mobile crane (For containers)	— Capacity 35 tons
1	Mobile crane	— Capacity 35 tons
3	Mobile cranes	— Capacity 10 tons
3	Crawler cranes	— Capacity 4 tons
1	Rail mounted crane at Dock 1	— Capacity 27 tons at 17 m. and 16 tons at 30 m.

Cranes under construction:

Dock 1	4 cranes	— Capacity 8 tons at 20 m. and 6 tons at 25 m.
Dock 11	2 cranes	— Same capacity as Dock 1

BULK HANDLING FACILITIES: 2 silos, capacity 15,000 tons, loading ability 370 t.p.h. Discharging ability 250 t.p.h.

STEVEDORES: Advance notice required order arrange gangs. Cargo operations handled with ship's gear and with 14 shore cranes.

MEDICAL: Advance notice of required medical attention is necessary. Hospital and medical facilities available.

TANKERS: One berth, depth alongside 27 ft.

DENSITY: 1025.

FRESH WATER: Available at all the piers of the harbour. Also available from special barge (capacity 300 tons).

FUEL: Order through Agent. Oil delivered by small tanker "KEA" at all berths capacity 182 tons fuel.

GANGWAY/DECK WATCHMEN: Ship's gangway used. Usually ship's crew.

HATCHES: Usually opened and closed by crew, but if by stevedores, additional costs apply.

CUSTOMS ALLOWANCES: 1 to 2 packets cigarettes allowed per crew member per day. 1 bottle wine/spirits allowed out of bond.

CONSULS: Germany, tel: 25379, France, tel: 25870, Sweden, tel: 22611, Italy tel: 26048, Belgium tel: 23318, Netherlands tel: 23494.

REPAIRS: Minor repairs can be effected.

SURVEYORS: Cargo inspector: Hellenic Register of Shipping.

REPATRIATION: Crew changes and repatriation can be carried out.

AIRPORT: No airport locally.

TIME: GMT plus 2 hours, Winter. GMT plus 3 hours in Summer.

HOLIDAYS: Usual Greek holidays. Local holiday 6th December; cargo work can be arranged subject to additional cost with the exception of 6th December.

POLICE/AMBULANCE/FIRE: Police, tel: 23652; Ambulance, tel: 27531; Fire, tel: 33191.

EMERGENCY CO-ORDINATION CENTRE: Ministry of Mercantile Marine (Piraeus) tel: 1/4112500-4173238.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: Shore passes are required.

SERVICES: Divers available for surveys and underwater repairs.

DEVELOPMENTS: Construction of a new dock at the grain silo.

SHIPMASTER'S REPORT: 1977. (Updated 1984).

Restrictions: Draft restrictions on new quays subject to maximum depth of water of 32 ft. and on the original town quays a maximum depth of water of 28 ft. East side, 26 ft. West side, 26 ft. Head. (Thus draft will have to be about 2 ft. less than depth.)

Stevedores: Working hours 0730 – 1400 hrs. and 1400 – 2100 hrs. on overtime.

Berths: Town quay (K) with approx. 800 ft. frontage on each side and cross berth approx. 385 ft. on end. No. 1 quay – "L" shaped berths with base to the shore with frontages approx. 600 ft. on North side, 1,570 ft. on East side, 505 ft. on head and 1,210 ft. on West side.

No. 2 quay – "L" shaped berths with base to the shore with frontages approx. 500 ft. on North side, 1,385 ft. on East side, 330 ft. of head and 1,520 ft. on West side (Not yet finished, see plan).

Pollution: Port regulations prohibit the scraping and scaling of ships side and the pollution of sea or port area by painting.

AUTHORITY: Volos Central Port Authority, 380 00 Volos, Greece. *Contact:* Lieutenant E. Kalabalikis, Harbour Master. *Tel:* 421-24179. Vice Harbour Master, *Tel:* 421-20115. Port Police Office. *Tel:* 421-24179. Safety Navigation Office, *Tel:* 421-24758. *Telex:* 282170.

YALI ISLAND: 36.40 N. 27.08 E. (See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Cargo Manifest.
Bills of Lading.
List of Ship's Stores and Spares.
Health Declaration.
Ship's Certificates.

PILOTAGE: A Mooring Master is available from Piraeus. Mooring Master boards at the anchorage.
ANCHORAGES: Safe anchorage in the roads (36° 39′ N., 27° 09′ 30″ E.) except in strong Southerly winds.
MAX. SIZE: Max. LOA 230 m., max. beam 24 m., max. draft 11 m.
HEALTH: Port Authorities will board by launch from Nissyros to arrange free pratique. Any sick crew members will be disembarked to Nissyros by the same launch.
VHF: Contact Yali Quarry on Channel 8.
TUGS: Available.
BERTHING: The vessel is moored at loading berth on 8 buoys in addition to port anchor. During loading operations vessels have to be shifted from hatch to hatch.
BULK CARGO FACILITIES: Loading Berth is located at the end of the conveyor belt shiploader. The shiploader is on a cement construction, about 500 m. offshore. The cargo is carried by conveyor belt to the spout. The raising and slewing of the spout is controlled by the operator from the control desk to allow trimming of the cargo.
STEVEDORES: Workers are employed by private loading company.
MEDICAL: Nearest medical and hospital facilities are at the island of Kos, 7 miles North of Yali.
FRESH WATER: None available.
FUEL: Not available.
HATCHES: Opened and closed by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of spirits are allowed for each man.
CONSULS: No local representation.
REPAIRS: No facilities exist.
AIRPORT: Nearest at Kos with daily flights to Athens during the Summer. 4 flights a week during the Winter.
HOLIDAYS: Do not affect vessels loading.
SHORE LEAVE: Allowed.
GENERAL: *Pilots Recommendations for Mooring:*

1. Pilot's motorboat at position P1 (see "Plan Book") when direction of wind N.E., North, N.W., West, S.W.W. or when wind force is less than Force 3 on the Beaufort scale. Pilot's motorboat at position P2 (see "Plan Book") when direction of wind East, S.E., South, S.W. and with wind Force over Beaufort 3.
2. Vessels are always berthed with starboard side towards the loading station.
3. Have ready following moorings:
   (a) Fore – Portside 1 × 200 fathoms manila or nylon ropes – Starboard side 2 × 200 fathoms manila or nylon rope and
   (b) Aft – Portside 2 manila or nylon ropes (should be 200 fathoms long) – Starboard side 2 × 200 fathoms manila or nylon rope.

Note: The 200 fathoms aft starboard side ropes are required only in the initial stage of mooring to bring the ship in her final position.

4. Secure lines as follows:
   (a) Manila or nylon ropes to each of Buoy Nos. 3, 4, 5, 6, 7, 8.
   (b) Manila or nylon rope(s) to either Buoy No. 1 or No. 2 according to ship's size.
5. Vessel to have portside anchor chain lowered (1.5 shackles) when vessel is about 400 yards away from anchoring point.
6. On arrival have portside gangway ready for immediate use.

Expedite Loading:

1. As a rule loading commences from midship holds. Vessel to be ready to shift back and forth at all hours of day and night for loading of other holds on 30 minutes' notice.
2. Have all hatches open.
3. Broom swept and washed clean holds, hold ladders and supporting beams.
4. Arrive at Yali fully ballasted.
5. If arriving at Yali 4-5 hours before sunset loading may commence before dark.
6. Shipper intends to work around the clock.
7. In case of tween decker, before arrival, remove all tweendeck hatch beams also 2 or 3 adjacent beams from the centre of Nos. 2, 3 and 4 main deck hatches.

AUTHORITY: Clerk of Mandraki, Port of Nissyros.
OPERATOR: Lava Mining & Quarrying Co., 49-51 Sof., Venizelou St., Lycovrissis, Attica, Greece. Tel: (01) 8088111. Telex: (21) 5168-9. Contact: N. G. Simeonides, Manager.
Quarry: Yali Island, Nisyros Dodecanese. Tel: (0242) 31280. Telex: (29) 2195.

NOTES

Please also advise Shipping Guides Ltd.

Greenland

GENERAL:

CUSTOMS: The Master is not allowed to distribute tax-free cigarettes or other tax-free tobacco in a Greenland port.
DOCUMENTS: Following documents must be on board:

Speed Certificate.
Crew List.
Radio Station Certificate.
Safety Equipment Certificate.
Clearance Certificate.
Health Declaration.
Tonnage Certificate.
Certificate of Registry.
Derat Certificate.
Sailing Orders.

RESTRICTIONS: Foreign-flag vessels do not normally have access to Greenland ports unless they have special permission. If such vessels have this permission, the crew may go ashore subject approval of Port Authorities and following presentation of Health Certificate or a medical check on board.
ICE INFORMATION: Ice Centre Narssarssuaq is transmitting daily at 1200 hrs. GMT and 2200 hrs. GMT the latest information of the ice in Southern Greenland Waters. Information is transmitted in Faximile (Mufax) on frequency 2780 and 6970 kHz drum speed 120. Ships can, free of charge, request telegraphic ice information from following coastal radio stations:

OZL—Angmagssalik
OZN—Prins Christian Sound
OXF—Julianehab
OZA—Frederikshab.

WATCHMEN: Ship is required to appoint a crew member as ship's guard on board.
TIME: GMT minus 3 hours. Permanent.
HOLIDAYS: As applicable to Denmark.
CONSULS: None.
WORKING HOURS: Normally from 0600 hrs. to 1800 hrs. with 2 meal breaks.
RADIO: In ports where there is a local radio station, vessels are prohibited from using ship's station for sending messages.
HEALTH: Before commencing voyage to Greenland, at the port of departure, Master is required to obtain a Health Certificate from an authorised medical practitioner, stating that there are no dangerous or contagious diseases on board, such as pest, cholera, yellow-fever, smallpox, or typhus. The crew list is to be included in this certificate stating that there are no venereal or other contagious diseases amongst the crew members. The Health Certificate is only valid if it has the stamp and signature of the Royal Danish Consul or Vice-Consul of the district in which the port of departure is situated. On arrival at the first Greenland port, the Master is to present the Health Certificate to the Port Authorities. Health Certificate may also be issued by a doctor in the first Greenland port of call.
REPORT: Immediately upon arrival of a vessel in Greenland, the Master must report to the Port Authorities.
WASTE DISPOSAL: It is forbidden to throw waste material of any description overboard into port waters.

EGEDESMINDE: 68.43 N. 52.53 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Roadstead, Inner Port (inside Bay), Anchorage, Boat Port, and Atlantic quay.
DAYLIGHT: Polar darkness from 2nd December to 11th January, and midnight sun from 22nd May to 23rd July.
CONDITIONS: *(a)* Current: flows Eastwards between the islands at Egedesminde from 3 hours before, to 3 hours after high water, following which, current flows Westwards for 6 hours. *(b)* Ice: Winter ice normally occurs from mid-December to early May, but can occur earlier, in November. New ice in the port can be up to 60 cm. thick; 1st January covering ice up to 30 cm and by 1st February about 45 cm. Icebergs sometimes enter port area and stop all shipping movement. *(c)* Tide: high tide height 2.6 m. (max. 3.1 m.). Low tide height 1.5 m. Direct West wind causes 0.3 m. rise above tidal height, and South or S.E. wind about 0.5 m. below.
PILOTAGE: No official port Pilot, but assistance arriving and sailing may be obtained from a local seafarer having good knowledge of the area. This local assistance should be ordered if required in ETA cable to Port Authority at least 24 hours prior arrival. The Port Manager usually acts as local expert as part of his normal duties.

There is VHF radio installation in office of Port Authority and it is usually possible to obtain VHF contact within 30 miles of Egedesminde.

Local area expert will board vessel from port boat at meeting place usually arranged just outside entrance to port.

No special pilotage regulations and no Outer Anchorage where Pilot may be taken on board. However, in waters North and N.E. of port entrance vessels may stop or proceed at very slow speed in order to embark local expert.
ANCHORAGES: No special anchorages, and vessel is only allowed to anchor for a short period at the entrance to port subject permission of Port Authority.
MAX. SIZE: Largest vessel to berth alongside Atlantic quay was length 136 m., breadth 20 m., draft 6.2 m.
ENTRY: Day or night.
TUGS: None. 2 port boats to take lines and assist mooring.
RADIO: Local radio station "OYR". RDF station beacon East of the town. Radio link between Egedesminde and Transitoen, and between Transitoen and Roeveo.
BERTHING: Atlantic Quay. Length 70m., depth alongside 8.1 m., at medium low tide and 10.7 m., at medium high tide. Height of quay at medium tide about 1.5 m., above w/l. 1 × 5 ton mobile crane and some fork-lift trucks used in discharging.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available at Atlantic Quay and at tank-station.
FUEL: Only gas-oil available for local fishing vessels from the tank-station.
REPAIRS: Shipyard for repairs to wooden fishing vessels. Machine shop also available. Slip for small vessels (250 tons).
AIRPORT: Heliport.
SALVAGE: Salvage-station in the area.
SERVICES: Radar and radio technicians available.
AUTHORITY: Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

FAERINGEHAVN: 63.41 N. 51.34 W.

(Also see "General Information" at beginning of Greenland Section).
DOCUMENTS: Bill of Health: Doctor's certificate mentioning each member of crew by name to be free of contagious diseases. This document to be signed by Consulate in the port of delivery to be prepared by competent authority, passengers excluded. One Manifest with Bill of Lading. Ordinary Ship's Papers.
PILOTAGE: As a rule Pilot can be ordered in the months May-October, notice 12 hours before arrival is required.
ANCHORAGE: Inside fjord area.
RESTRICTIONS: None.
MAX. SIZE: Oil-carriers about 26,000 d.w.t., draft 40 ft. Ordinary cargo-ships 20 ft.
HEALTH: Master to apply with documents at harbour office for free pratique.
RADIO: Godthab Radio: OXI, connected Faeringehavn by Telex and Telephone.
VHF: Oil company and fishing company are listening on VHF during working hours.
TUGS: Salvage tug stationed on West coast of Greenland. Stationed at Faeringehavn May–October, no fixed rates.
BERTHING: Natural port, anchorage for the largest vessels. Wharf, 225 m. with 5 m. at L.W.
STEVEDORES: None, but fishing and service company "Nordafar" may act as stevedores.
MEDICAL: Local sick room and nurse available in Summer. For medical service, apply Godthab.
TANKERS: Load/discharge lines 6 in. and 8 in. Smaller diameters for bunkering when necessary.
FRESH WATER: Only available May to November.
FUEL: Available. Light fuel, gas oil, aviation turbine fuel A1, gas oil, oct. 97.
GANGWAY/DECK WATCHMEN: Not required (ship's crew).
OPENING/CLOSING HATCHES: Must be carried out by ship's crew.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Small repairs only. Workshop available May to November.
REPATRIATION: Available, via Godthab by air to Copenhagen.
AIRPORT: Nearest airport is Godthab, distance 35 miles regular airlines.
TIME: GMT minus 3 hours.
HOLIDAYS: Danish holidays.
POLICE/AMBULANCE/FIRE: Police tel. Faeringehavn 34; Ambulance Faeringehavn 25.
TELEPHONES: Not available on board.
GENERAL: Bunker station open all year; during Winter-time sometimes difficulties caused by ice.
SHORE LEAVE: Allowed.
DELAYS: Bunker station closes for arrivals between 2200 hrs. and 0600 hrs. local time.
AUTHORITY: Kontrolloren, (Harbour Master).

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

FREDERIKSHAB: 61.59.7 N. 49.40.8 W.

(Also see "General Information" at beginning of Greenland Section)
LOCATION: The port is in the inner part of a small bay.
DESCRIPTION: Atlantic Quay; fishing quay; anchorage.
CONDITIONS: *(a)* Current: none. *(b)* Ice: big ice reaches to the North of the port; smaller ice reaches the port especially to the North, but South of the port it is usually ice-free. The best period of finding the port ice-free is between March/April and the end of August. *(c)* Tide: height of average high water is 3.8 m., low water 2.0 m. (max. 2.4 m.).
PILOTAGE: Pilot should be requested in ETA cable via Frederikshab radio. Pilot will meet vessel at Satuarssugssuaq (Fyroen).
ANCHORAGE: S.E. of Skarvo. Holding ground is not good and anchoring should be carried out at very slow speed.
MAX. SIZE: Length 100 m., draft about 6 m.
ENTRY: Day or night.
TUGS: None. Port boats assist in mooring.
RADIO: Radio station "OXI". RDF station beacon East of the town.

BERTHING: Atlantic Quay. Length 90 m., depth alongside at average low tide, 7 m., depth in harbour about 10 m. Cranes up to 5 tons capacity and fork-lifts trucks used in discharging.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available alongside Atlantic Quay.
FUEL: Refuelling quay, depth about 5 m., Gas-oil and diesel oil available.
AIRPORT: Heliport.
REPAIRS: Workshop for repairs to wooden fishing vessels. Machine shop available. Slip for small vessels (250 tons).
GENERAL: Police Station, Fire Brigade, radar and radio technicians, and service for IFD rubber dinghies: Cable address "Fladeservice FRH".
AUTHORITY: Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

GODHAVN: 66.56 N. 53.40 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port consists of a mooring inside a bay.
DAYLIGHT: Polar darkness from 25th November to 15th January, and midnight sun between 19th May and 26th July.
CONDITIONS: Ice: Winter ice is fast from November–December until end May or beginning of June. Thickest observed Winter ice is about 100 cm.
ENTRY: Day or night. Port is open from May to November. Between mid-April until May the port can only be used by specialised tonnage.
PILOTAGE: Boarding point arranged with Port Authority in ETA advices.
ANCHORAGE: Good anchorage in the bay – outer port.
MAX. SIZE: Largest vessel to date length 100 m., draft 6.5 m.
TUGS: None. Port boats assist with mooring.
RADIO: Extended from Egesminde "OYR". RDF Station beacon.
BERTHING: Quay length 12 m. depth alongside 4.0 m. at MLWS. Vessel moors to 2 anchors and stern-lines to the shore. Mobile cranes on shore capacity up to 5 tons. Depths in bay about 6.82 m.
MEDICAL: Hospital. Doctors and dentist available.
GENERAL: Arctic Scientific Station, Fire Brigade, Cable Office.
AUTHORITY: Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

GODTHAB: 64.10 N. 51.44 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Narrow entry to port, but well protected, with good modern berths and anchorages.
CONDITIONS: *(a)* Current: sometimes strong between anchorage and the berths. *(b)* Ice: only very occasional large quantities of ice reach the port and into the fjord. If ice in area South of Godthab, S.W. storms force drift ice into the fjord. In recent years the port has begun to freeze over in Winter, and small vessels have at times become icebound. *(c)* Wind: S. and S.W. storms spring up suddenly but only last for brief periods. *(d)* Tide: height of high water 4.4 m. (max. 5.1 m.); low water 2.1 m.
ENTRY: Port open day and night all year round.
DAYLIGHT: Godthab situated South of the border for midnight sun and Polar darkness.
PILOTAGE: Port Manager normally acts as Pilot for ships, but is not an authorised Pilot. Pilotage may be arranged by VHF contact with Authority during normal working hours.
ANCHORAGES: Good anchorages available inside fjord. Larger vessels should anchor close to Rypeo and in Malene Bugt.
MAX. SIZE: Largest vessel to berth at Atlantic Quay was length 135 m., breadth 17 m., and draft 7 m.
TUGS: None. 2 port boats to take lines and assist mooring.
RADIO: Local radio station "OXI". 24 hours notice of ETA should be passed to Authority, cable address "Handelschefen Gothab". Radio beacon at Kookoerne.
BERTHING: Larger vessels should contact Port Authority before approaching port at night-time. Atlantic Quay, length 170 m., has a depth alongside 7 m., approx. for the most Northerly 120 m., and between 4.5 – 5 m. at MLWS for the most Southerly 50 m.

Vessels normally berth starboard side alongside, unless fitted with bow thrusters, when a port side berthing is feasible. Mobile cranes capacity 5 tons.

Schooner Quay is 52 m. long, with a depth of 4.7 m., approx. Vessels normally berth bow Westward.

On the Coastal Passenger Quay length 30 m., depth 5.4 m., vessels usually berth with bow to the North.

There are several other small quays for the use of trawlers, and cutters, and a sand discharging berth length 30 m., depth 5 m.
TANKERS: Tankers can anchor and stern moor out from the gas installations, using an oil pipe-line connection. A mooring arrangement has been established for tankers of 25,000 – 30,000 d.w.t. below the tank and gas farm on the hillside.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Available at Atlantic Quay.
FUEL: Small quantities gas-oil available at Atlantic quay.
REPAIRS: Slip for small vessels (40 tons) and minor repairs. Slip for vessels up to 1,860 tons, repairs possible for steel and wooden ships.
AIRPORT: Runway 950 m. × 30 m.
GENERAL: Police, Fire Brigade, radar and radio technicians, radio station post, and cable office.
AUTHORITY: Director of Commerce who also acts as Port Manager.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

HOLSTEINSBORG: 66.56 N. 53.40 W.

(Also see "General Information" at beginning of Greenland Section)
LOCATION: Harbour is situated on Northern side of Tommermandsoen.
CONDITIONS: *(a)* Tide: average height of high tide 3.5 m. (max. 4.4 m). low tide 2 m. *(b)* Ice: Winter ice up to 1 m. thick. Ice normally occurs from December to March or April.
ENTRY: Port open day and night, and normally all year round.
PILOTAGE: Arrange with Authority through Holsteinsborg's radio, cable address "Director of Commerce Holsteinsborg". Pilot meets vessel at Jakobs Skaer, 2 miles S.W. of Mollersoe.
ANCHORAGE: Large vessels can anchor outside port and discharge into barges.
MAX. SIZE: Largest vessel that can berth alongside Atlantic quay, length 136 m., breadth 20 m., draft 6.2 m.
TUGS: None. Port boats take lines and assist mooring.
RADIO/VHF: Radio station extended from Egesminde "OYR". VHF connection in Port Director's office. Radio technicians available, cable address "Polar Radio".
BERTHING: Atlantic Quay, length 60 m., depth alongside 6 m., at average low water. Height of quay 2 m., above w/l. If berth occupied, loading/discharging of larger vessels at anchorage with barges. At Atlantic Quay there is a mobile crane with capacity of 3 tons and fork-lift trucks. Belt conveyor for coal.

Offshore Quay: Length 20 m. with depth of 6 m. at LW.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Obtainable at Atlantic Quay.
REPAIRS: Slip for small vessels (250 tons). Repairs possible to wooden ships. Machine shop available.
AIRPORT: Heliport.
GENERAL: Post and cable offices. Telephones not normally available for connection on board, but vessels at anchor can call Port Director's office on VHF during daytime.
AUTHORITY: Director of Commerce who acts as Port Master and Harbour Master.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

IVIGTUT: 61.12 N. 48.10 W.

(Also see "General Information" at beginning of Greenland Section)
OPERATORS: A/S Kryolitselskabet Oresund.
CONDITIONS: *(a)* Current: strongest about 3 hours before and 3 hours after high water, and vessels arriving and sailing should take this into consideration. *(b)* Tide: height of average high tide 3 m. (max. 3.4 m.), low tide 1.6 m. *(c)* Wind: calm for about half the year otherwise winds are usually from South or S.E. The dangerous winds for moored ships are the infrequent storms from North or N.E.; these storms seldom occur but if they do occur they do so in the Autumn. *(d)* Ice: Winter ice usually occurs from December onwards in the fjord outside Ivigtut and disappears in the beginning of April. Outside Ivigtut Winter ice always occurs, sometimes reaching a thickness of about 1 m. Information concerning ice conditions always obtainable on telegraphic request to GLK.
ENTRY: Day and night and usually all year round.
PILOTAGE: No official Pilot but an acting Pilot can be arranged through connection with Port Authority, cable address "Manager Ivigtut", at least 24 hours prior arrival.
MAX. SIZE: Largest vessel to have berthed at Kryolit Pier was length 102 m., breadth 14 m., draft 6.2 m.
RADIO: Julianehaab Radio "OXF" or Gronnedal Radio "OVC".
VHF: Gronnedal Radio listens on VHF 24 hours.
TUGS: None. Motor-boat will assist mooring.
BERTHING: Kryolit Quay, depth alongside about 7 m. height of pier about 2 m. above w/l. Berthing during daylight only. Kryolit not exported from mid-December to end March. Crane capacity 3 tons.
FRESH WATER: Available.
FUEL: Deliveries of small quantities of gas-oil.
REPAIRS: Machine tool workshop. Diver assistance obtainable.
MEDICAL: Hospital in Ivigtut, but doctors and dentists are in Gronnedal.
AUTHORITY: Ivigtut Cryolite Mines.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

JAKOBSHAVN: 69.13 N. 51.06 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port is a narrow open bay, entrance to the N.W., having outer port and inner port. In outer port is Atlantic Quay and bunkering station, and inner port has another quay and a fishing harbour.
CONDITIONS: *(a)* Tide: height of average high tide 2.8 m. (max. 3.3 m.) low tide 1.6 m. *(b)* Wind: usually East to N.E. In Autumn winds are strong especially in the morning. *(c)* Ice: impression can be gained when approaching port that port is closed due to icebergs. On closer approach channels between icebergs will be found but if these openings appear too narrow a wider passage should always be found to the North. *(d)* "Kanele": a natural phenomenon that occurs at this port causing regular and heavy swell, height up to 2 m. Wave characteristic, long and flat, frequency about 6 minutes. Pilot should be consulted for full information.
ENTRY: Port usually open day and night, from mid May to end November.
DAYLIGHT: Polar darkness between 1st December and 12th January and midnight sun between 21st May and 24th July.

PILOTAGE: A Pilot should always be used by larger vessels and request made to Port Authority in ETA cable. Pilot boarding place to be agreed with Authority.
MAX. SIZE: Largest vessel to berth at Atlantic Quay was length 93 m., draft 6.8 m.
RADIO: Egesminde Radio.
TUGS: None. Port boats take lines and assist mooring.
BERTHING: Outer port depth 6.5/7 m., inner port 5.5/6 m. Atlantic Quay length 40 m. Depth alongside Atlantic Quay 7 m. at average low tide. Height of quay about 1.1 m. above w/l. Permission to enter port should be obtained prior arrival from Port Authority. Mobile crane capacity 5 tons, also fork-lift trucks.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Obtainable alongside Atlantic Quay.
AIRPORT: STOL airstrip available for internal flights.
REPAIRS: Machine workshop. Crane for lifting small vessels, capacity 50 tons.
GENERAL: Police, Fire Brigade, Port and cable office.
AUTHORITY: Director of Commerce who acts as Port Manager.
Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

JULIANEHAB: 60.43 N. 46.02 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port is an open bay, facing South with Atlantic Quay.
CONDITIONS: *(a)* Current: flows N.W., but in Southern part of port from little current effect. *(b)* Tide: average height of high tide 2.8 m. (max. 3.2 m.); low tide 1.4 m. *(c)* Ice: drift ice between January and July occasionally fills whole port. *(d)* Wind: the most frequent wind is from East or N.E., normally occurring as storms during Winter months and as strong winds in Summer. Winds can be violent and cause rapid rise in temperature. Very secure moorings are advisable.
PILOTAGE: Port office is equipped with VHF which should always be used to contact Port Authorities before arrival, and to arrange Pilot's boarding position.
MAX. SIZE: Largest vessel to berth at Atlantic Quay was length 100 m. and draft 6 m.
ENTRY: Port open day and night normally throughout year, but from 1st January to 1st August, only available to specially constructed tonnage.
TUGS: None. Port boats take lines and assist mooring.
RADIO: Local radio station. Radio beacon station at Simiutaq about 10 miles West of entrance to Julianehab Fjord.
BERTHING: Atlantic Quay – length 60 m., depth alongside between 7/9 m. on average high tide and 1 quay, length 60 m., depth alongside 4.8 – 7.2 m. for small vessels. Height of quay is 1.3 m. above w/l. Mobile cranes, lifting capacity up to 5 tons.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available from Atlantic Quay during Summer months.
FUEL: Gas-oil available at Atlantic Quay.
REPAIRS: At repair quay there is a stationary crane lifting capacity 35 tons. Slip for small vessels (250 tons) and minor repairs. Machine shop available.
AIRPORT: Heliport.
AUTHORITY: Director of Commerce – acting as Port Manager.
Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

MARMORILIK: 71.07 N. 51.17 W. (See Plan Book)

DOCUMENTS:
International Load Line Certificate.
Safety Raid Certificate.
PILOTAGE: Optional for coastal vessels entering Davis Strait. Agents are to make arrangements if Pilot required.
GENERAL DESCRIPTION: The berth is located at the North end of the West side of Agfardlikavsa Fjord.

Agfardlikavsa Fjord, West Greenland, (entrance approximately Lat. 51° 18′ W., Long. 71° 08′ N.) is located at the end of the larger Qaumarujuk Fjord.

Qaumarujuk Fjord, the Northeastern arm of Ingnerit, has its entrance between Qegertanguit and the Western extremity of Akuliarusikavsak, a mainland projection about 2.5 nautical miles S.E. Ingnerit is one of the largest of the branch fjords and flows into Umanak Fjord. It is entered between Tuperssuatsiait, the S.E. extremity of the Alfred Wegener Peninsula, and Akuliaruseq, a point about 4 miles S.S.E. The waters of the Umanak Fjord flow into the Nordost Bay.

The Agfardlikavsa Fjord is separated from the Qaumarujuk Fjord by a shallow, narrow bar. Depth at the centre of the sill is approximately 30 m.

There is a considerable surface water run-off along the Fjord walls including occasional rock slides. The bottom of the Fjord is filled with 6 to 8ft. of fine silty materal.

Marmorilik (Lat. 71° 08′ N., Long. 51° 18′ W.) lies on the S.E. side of the Qaumarujuk Fjord at the Western entrance point of the Agfardlikavsa Fjord.

The larger fjords and Nordost Bay are encumbered with islets and rocks requiring extreme care in navigation. In particular, a shoal is known to exist some 350 m. N.W. of Marmorilik Point and extra care is required in this vicinity.
ANCHORAGE: There is an anchorage at Agfordlikowsa in depths of 20 m. to 35 m. Tankers can anchor near the berth in depths of 24 to 50 m., but must be aware of an unmarked 6m. shoal about 300° True, and 375 m. (approx.) from the discharge point.
MAX. SIZE: Max. d.w.t. 36,500. Min. depth alongside ore terminal is 12.5 m. at LW.
RADIO: Ship-to-shore communications will be maintained using the following frequencies: 2182 kHz, 2210 kHz and 2738 kHz.

Information on ice conditions in the fjord can be obtained from shore personnel. During loading operations, Greenex will supply the vessel with 2 portable radio transceivers for communications between the carrier and the loading control station.
TUGS: 1 tug available, 720 h.p. The tug will assist with berthing and unberthing if required, and will break up any thin ice in the vicinity of the berth and entrance to the fjord.
BERTHING: The Marine Terminal isused for loading ore carriers up to 36,500 d.w.t. The berth consists of 4 breasting dolphins with bollards for springs and breast-lines. On the shore are 7 bollards for head and stern lines spread over a distance of 366 m. The min. depth of water alongside is 12.5 m. at LW.

Vessels normally berth port-side alongside and use the starboard anchor to assist in berthing. No. 1 hatch is lined up under the loader as it is the first hatch to be loaded.

Initially the headlines go to the Northernmost dolphin and stern lines to the Southernmost bollard on the shore.

Loading: Zinc and lead are loaded with a luffing and slewing shiploader. The ship-loader is fitted with a 20 ft. conveyor to distribute the cargo in the hold. Communication is maintained between the vessel and control room by portable radios. The average loading rate is 500 metric t.p.h.

Notice of readiness will not be accepted at time of arrival at the dock unless the vessel is in all respects ready to load.

General Cargo: Unloaded into barges with vessel's gear and towed ashore to a separate lightering dock located about 500 m. N.E. of the ore terminal.
MEDICAL: Emergency medical and dental treatment can be arranged and should, when possible, be requested by the vessel's Master in his ETA message to the mine site office.
TANKERS: Diesel fuel oil and turbo-fuel are stored in a tank farm located on-shore about 500 m. West of the point at Marmorilik on Qaumarujuk Fjord, at an elevation of 50 m.

Vessels usually berth using both anchors, 5 shackles on the port anchor, and about 4.5 shackles on the starboard anchor, using a heavy chain from the stern to the S.E. point of the oil installation. The chain is available from the shore. Tankers can also moor to the N.N.W. of the oil installation, but must remain outside the 6 m. line.

The tanker hoses are connected to an 8 in. flange connection for diesel oil or a 4 in. hose adaptor with dust-cap for turbo-fuel. The static head on the lines is about 70 m. when the tanks are full. An anti-static cable is provided.

On the shore, there are two 50 ton bollards and one 20 ton stock. No breasting or mooring dolphins are provided.
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS: No facilities.
TIME: Standard time is GMT minus 3 hours.
GENERAL: *Repairs:* While alongside the dock, no repairs are to be undertaken that will prevent the main propulsion machinery from being activated at very short notice.

Vessel's Whistle: The vessel's whistle shall be operational during operations. One long blast on the whistle means "Emergency – stop operations".
AUTHORITY: Greenex A/S.
Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

NARSSARSSUAQ (Isrecognosceringsstation): 61.08 N. 45.26 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Ice outlook station, with quay.
CONDITIONS: *(a)* Current: occasional strong N.W. current.
(b) Tide: average height of HW 3 m. (max. 3.6 m.) LW 1.6 m.
(c) Wind: S.E. wind sometimes reaches typhoon strength.
(d) Ice: in Winter ice thickness sometimes reaches 1 m. Ice breaker not available.
PILOTAGE: Not available. Base representative should be advised of ETA well in advance of arrival.
TUGS: None. Port boats assist mooring.
MAX. SIZE: Largest vessel to berth at quay was length 130 m., draft 8 m.
ENTRY: Open season from mid-May to mid-October. During season, port open day and night.
RADIO: Julianehab Radio "OXF".
VHF: Extended from Julianehab.
BERTHING: Quay length 140 m., depth alongside (West) 6 m. – 11 m. (East) 5 m. – 8 m. Height of pier 2 m. above w/l. 2 vessels may berth, 1 on either side of quay. Heavy mooring equipment on the quay, and should be used by larger vessels. Mobile cranes capacity up to 4 tons, and fork-lift trucks.
WATER: Obtainable at quay, about 80 tons per single off-take.
AIRPORT: Landing-strip for aircraft. Ice station usually uses Twin Otter aircraft and S61 Helicopter.
AUTHORITY: Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

NORTH STAR BUGT (Thule Air Force Base): 76.36 N. 68.52 W.

(Also see "General Information" at beginning of Greenland Section)

DESCRIPTION: Supply port for the Thule Air Force Base. Port is operated by and belongs to the U.S. Air Force.

DAYLIGHT: Polar darkness from 1st November to 10th February and midnight sun from 23rd April to 20th August.

CONDITIONS: *(a)* Ice: port is frozen over from end October to beginning July. From beginning of November, large areas of compact ice appear, and these can sometimes be up to 20 miles wide. During May, compact ice areas commence breaking up; however, large quantities of drift ice remain along the coast until end July. Winter ice is normally about 180 cm. thick. *(b)* Temperature: in January and February average temperature is 29° below zero. In July, June and August, average temperature is usually above freezing-point, but for the rest of the year it is below freezing. *(c)* Tide: mean Spring tide is 3 m. (max. 3.4 m.). Mean neaptide 1.7 m.

ENTRY: Normally, port is open early July depending upon ice situation.

PILOTAGE: No authorised Pilot, but American Port Authority assists in mooring and should be advised of ETA well in advance.

ANCHORAGE: Good holding ground in depth between 20 m. and 40 m., but anchoring should only be carried out following advice of Port Authority.

MAX. SIZE: Largest vessel to berth alongside quay was length 130 m., and draft 7 m.

TUGS: None. Port boats assist mooring.

BERTHING: 2 vessels may berth at the quay. Depth alongside about 7 m. Height of pier about 2 m. above MHW. Mobile cranes and fork-lift trucks; however, equipment varies from year to year and Port Authorities should be contacted well in advance. 3 amphibious craft for vessels discharging in the roadstead.

FRESH WATER: Available alongside quay.

AIRPORT: Two rescue helicopters stationed at this base.

REGULATIONS: The area is a Military Defence area and special permission is necessary to enter the port. Shore leave is prohibited.

MEDICAL: Hospital, doctor and dentist available.

AUTHORITY: U.S. Air Force.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

SONDRE STROMFJORD (Camp Lloyd): 66.58 N. 50.57 W.

(Also see "General Information" at beginning of Greenland Section)

DESCRIPTION: Port is used for the supply of an American base, transit port for passenger carriage, and for air communication to Copenhagen. Port has a quay and a sea terminal for tankers.

DAYLIGHT: Camp Lloyd is situated South of the border for polar darkness but has a midnight sun from 15th June to 1st July.

CONDITIONS: *(a)* Current: the current at entrance and at the West of Sondre Stromfjord is N.E. at flood tide, and S.W. at ebb tide, and can reach a speed of 7 knots. *(b)* Tide: high water at Camp Lloyd is about 3 hours later than at the entrance of Sondre Stromfjord. Height of average high tide 3 m. (max. 3.6 m.). Low tide 1.6 m. *(c)* Ice: Sondre Stromfjord is frozen during winter throughout whole of inner harbour, but about 55 miles from Camp Lloyd, ice thickness varies from 5 cm. to 90 cm. *(d)* Winds: strong winds can occur from East and S.E.

ENTRY: On account of ice, the fjord is closed from beginning of January to end-June, but can be used day or night from beginning of July to end-October.

PILOTAGE: No authorised Pilot, but Harbour Master will assist berthing.

ANCHORAGES: Good anchorages about 2 miles S.E. of Emmons Pynt in depth of about 40 m. Great care should be taken in anchoring, since sea bottom is shelving.

RADIO: ETA should be given well in advance of arrival to the Royal Greenlandic Commercial Representative and also to the Port Authority. The arrival should be reported at least 24 hours in advance through GLK. The Harbour Master can be contacted on 2716 kHz and this contact should be established at least 1 hour before vessels arrival.

BERTHING: *(a)* A quay which is located North of Emmons Pynt, depth alongside only 3 m. *(b)* Tanker sea terminal about 700 m. S.S.E. of Emmons Pynt where there is mooring with discharge lines. Depth of water 24 m. – 26 m. on the South side of the mooring position; 15 m. at the mooring, and 10 m. on Northern side of mooring with rapid shelving to the North.

The Port Authorities should be contacted before mooring at the sea terminal. There are mobile cranes with lifting capacity up to 5 tons, and fork-lift trucks.

MEDICAL: Hospital, doctor and dentist available.

REGULATIONS: Camp Lloyd is an American Defence Area and is restricted. American supply ships have preference in mooring at all installations.

AIRPORT: Heliport.

AUTHORITY: The Royal Greenlandic Commercial Representative – Harbour Master.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

SUKKERTOPPEN: 65.25 N. 52.54 W.

(Also see "General Information" at beginning of Greenland Section)

LOCATION: Harbour situated on S.E. side of Manitsoq Island, and has Atlantic Quay.

CONDITIONS: *(a)* Tide: height of average high water 4.2 m. (max. 4.8 m.), low water 2 m. *(b)* Ice: Winter ice occurs from December to April. *(c)* Wind: advisable not to enter harbour area if winds are strong. Most obstructive winds are storms from South or S.W.

ENTRY: Port open day and night, normally all year round.

PILOTAGE: Pilot is arranged by cable to Sukkertoppen Radio when giving ETA, which should be sent well in advance. Pilot will meet vessel as arranged outside the harbour, or at Faltings Skoer.

RADIO: Extended from Godthab "OXI".

TUGS: None. Port motor-boats assist mooring.

MAX. SIZE: Largest vessel that can berth at Atlantic Quay is length 100 m., draft 6 m. Vessels up to 4,000 tons have used the port.

BERTHING: Depth in harbour is about 27 m. and alongside Atlantic Quay. Length 60 m. with depth of about 6.2 m. Height of quay is about 2 m. above w/l. Cranes up to 5 tons capacity and fork-lift trucks.

WATER: Available at quay.

REPAIRS: Repair workshop for repairs to wooden fishing vessels. Machine shop available. Slip for small vessels (225 tons).

MEDICAL: Hospitals, doctors and dentist available.

AIRPORT: Heliport.

GENERAL: Telex, telephones, Police, Fire Brigade.

AUTHORITY: Director of Commerce.

Gronlands Tekniske Organisation, Direktoratet, Hauser Plads 20, 1127 Copenhagen K, Denmark. *Tel:* (01) 13 84 72. *Telex:* 22979. *Cables:* Gronlandteknik.

NOTES

Please also advise Shipping Guides Ltd.

Grenada

ST. GEORGE'S: 12.02 N. 61.46 W.

DOCUMENTS:
Health Authority: Health Declaration.
Customs: Stores List, Crew Declaration, 2 Crew Lists, Passenger List, Clearance from last port.
Immigration: 2 Crew Lists, 2 Passenger Lists.

PILOTAGE: Compulsory for anchoring and berthing for vessels over 450 g.r.t. Notice must be given before 1500 hrs. for vessels requiring berthing between 1700 hrs. and 0700 hrs. the following day.

Pilot boards at Pilot Station 0.5 miles N.W. of the red flashing buoy.

ANCHORAGE: Vessels anchor in position 12° 02′ N., 61° 46′ W.

RESTRICTIONS: Vessels are berthed between 0530 to 2400 hrs. Unberthing may be done in certain circumstances outside of the above hours.

MAX. SIZE: Single screw vessels up to 600 ft. LOA, approximately, depending on type and machinery equipment of the vessel, this size may be increased. Max. draft 28 ft.

VHF: 25 watt base station – Grenada Ports Control (J3YA) Channels 6, 11, 12, 13, 16, 22A, 26, 68. Hours: 0800 – 1600 hrs., Monday to Friday.

Mobile station (J3YA) 5 watt, Channels 6, 11, 12, 13, 16, 22A. Hours flexible but mainly limited from 0600 to 2200 hrs. Monitors Channel 16.

St. Georges Pilot (J3YB) Channels 6, 11, 12, 13, 16 and 22.

TUGS: Not available.

BERTHING: Length of berth 791 ft. Depth alongside 30 ft. (minimum). Berth owned by the Government of Grenada.

Berthing in hours of darkness is carried out. Palletised and container cargoes are loaded and unloaded by ship's gear.

MEDICAL: Doctor and general hospital available.

STEVEDORES: Available.

TANKERS: A tanker berth exists at the bulk storage terminal at Grand Mal approximately 1.5 miles North of St. George's. Another terminal exists 100 yard South of Green Bridge at the Northern limit of the town of St. George's. A minimum depth of 26 ft. exists between the mooring buoys at this Terminal.

Due to shallows, manoeuvring in the area of the Grand Mal terminal is difficult and is not carried out during the hours of darkness. It is also not recommended to attempt berthing at the Queens Park Terminal during the hours of darkness due to lack of navigation ranges.

FRESH WATER: Available.

FUEL: This can be arranged with sufficient notice.

SURVEYORS: Michael Forshaw. Tel: 2881.

AIRPORT: Air services provided by Leeward Island Air Transport with regular services to and from Grenada.

HOLIDAYS: New Year's Day, Corpus Christi, Independence Day (February 7th), Good Friday, Easter Monday, Labour Day (May 1st), Whit Monday, August Bank Holiday (Monday), Christmas Day, Boxing Day.

TELEPHONES: No dockside telephone available.

GENERAL: *Charts:* B.A. Chart No. 2830.
Fire Service: Local fire service near docks (36 m.).

DEVELOPMENTS: New port developments being carried out by the Grenada Ports Authority commencing early 1983, comprising 250 ft. schooner wharf in basin behind finger pier, equipment for container handling being supplied. Container storage space being provided under Development plan.

SHIPMASTER'S REPORT: April 1982.
Anchorage: Anchored in position with George Pt. 120°(T), distance 0.5 m.
Restrictions: Contrary to report dated January 1979 Pilot boarded at 2015 hrs. and vessel alongside at 2130 hrs. Length of vessel 165 m. Entry possible up to 2300 hrs., after which there are no Linesmen. Vessels able to sail at anytime by special arrangement.

AUTHORITY: Grenada Ports Authority, Burns Point, St. Georges, Grenada, West Indies. *Tel:* 3013, 3418. *Telex:* 3418 Min. *Cables:* Grenada Port Authority. *Contact:* Michael T. Forshaw, Port Manager. Sydney Coard, General Manager.

Guadeloupe

BASSE TERRE: 15.59 N. 61.44 W. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Manifests.
Health Declaration Form.
6 Lists of stores on board.
Passenger List.
Clearance from last port.

PILOTAGE: Not available.

ANCHORAGE: On an 18 fathom bank North of the pier 2 cables from the shore.

RESTRICTIONS: Vessel can berth and unberth at any stage of the tide, but if vessel's first call, recommend berthing during daylight only.

MAX. SIZE: Max. LOA 300 m. Max. beam 30 m. There is 32 ft. – 36 ft. alongside but an allowance should be made for a 3 ft. swell, therefore would suggest max. draft approx. 29 ft.

HEALTH: Authorities require 24 hours notice of the vessel's arrival.

RADIO: Fort-de-France call sign "FFP" (high frequency) and Destrellan call sign "FFQ" for medium wave.

VHF: Port Authority on VHF Channel 16.

TUGS: Not available, however a small boat will assist in running lines if the Port Authority is advised in sufficient time on VHF Channel 16.

CRANES: 30 ton mobile crane available.

STEVEDORES: Working hours: 0700 – 1100 hrs. and 1300 – 1700 hrs. Extension possible.

FRESH WATER: Available.

MEDICAL: Doctors and hospital available.

DENSITY: 1025.

CONSUL: None, nearest consuls at Pointe-a-Pitre.

SERVICES: Fresh provisions, groceries and meats available. The following are not available: repair facilities, dry dock, machine shop, airport, surveyors, laundry services, bunker fuel oil, diesel oil, lubricating oil and slop tanks.

WEATHER: The swell is between 3 ft. and 4 ft. from a S.E. direction. The wind is mainly from an Easterly direction.

DEVELOPMENTS: New berth for ferries under construction. Expected to be ready late 1984.

AUTHORITY: Guadeloupe Port Authority, Place Cours Nolivos, 97100 Basse-Terre, Guadeloupe. *Tel:* 81-09-15 and 81.11.21. *Telex:* 919710 GL. *Contact:* Mr. Claude Julienne, Port Director.

POINTE-A-PITRE: 16.13 N. 61.32 W. (See Plan Book)

DOCUMENTS:
6 Manifests. See (a).
6 Crew Lists.
3 Stores Lists.
3 Crew Declaration. See (b).
6 Passenger Lists.
4 Declaration of Health.
2 Bills of Lading.
1 Clearance from Last Port.
6 Entrance Declaration.

(a) In addition, 2 sets of Manifests must be airmailed to arrive 72 hours before arrival in Pointe-a-Pitre.

(b) This Declaration must indicate all new and used personal effects.

PILOTAGE: Pilot meets vessels at "Mouchoir Carre" buoys. Advance notice of ETA to be passed 24 hours, and VHF Channel 16, 1 hour before arrival.

ANCHORAGE: Consult charts.

RESTRICTIONS: Max. length 210 m., max. tonnage 26,000 g.r.t. Max. draft 9 m.

MAX. SIZE: See "Restrictions".

HEALTH: Port Health board on arrival.

RADIO: Destrellan Radio, also on VHF.

TUGS: None available.

BERTHING: 9 berths available, 8 additional for petroleum, sugar, cement, flour mill, bananas, ro-ro and containers. Depth alongside up to 33 ft.

Tourist Port:
Quay No. 1: Length 150 m.
Quay No. 2: Length 180 m.
Quay No. 3: Length 145 m.
Quay No. 4: Length 145 m.

Commercial Port:
Quay No. 5: Length 150 m. Roll-on/Roll-off.
Quay No. 6: Length 170 m. Roll-on/Roll-off.
Quay No. 7: Length 150 m.
Quay No. 8: Length 150 m.

Industrial Port:
Quay No. 9: Length 180 m., depth 8.0 m. Mineral Berth.
Quay No. 10: Depth 8.0 m. Storage capacity 30,000 cu.m.
Quay No. 11: Sugar Berth. Storage capacity 70,000 cu.m. Loading rate 750 t.p.h.
Quay No. 12: Grain vessels, flour and feed.
Quay No. 13: Located at Jarry.
Quay No. 14: See "Container Terminal".

Industrial Area: The industrial area of Jarry offers 40 hectares of open storage at the water's edge.

Container Terminal:
Quay No. 14: Length 787 ft., depth 36 ft.
The container terminal is equipped with 2 × 40 ton Paceco-ACB cranes.

STEVEDORES: 24 hours advance notice of ETA required (72 hours if vessel arrives on Monday). Working hours 0700–1100 and 1300–1700.

MEDICAL: Clinics and Hospital facilities available.

TANKERS: Only tankers having less than 9 m. draft can enter the harbour.

FRESH WATER: Available day and night if requested in advance.

FUEL: Available F.O. 350 seconds Redwood, D.O. for gas oil. Delivered by road tankers.

CONSULS:
Belgium
Denmark
Ecuador
Great Britain
Haiti
Italy
Lebanon
Netherlands
Norway
Spain
Sweden
Venezuela

REPAIRS: Workshops available.

GANGWAY/DECK WATCHMEN: Available on request.

HATCHES: Usually opened and closed by crew. Stevedores will at Master's request but at ship's expense.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle per man.

CARGO GEAR: Ship's gear used.

REPATRIATION: All facilities available.

AIRPORT: 3 miles from the harbour with daily flights to Paris, Miami and New York.

TIME: GMT minus 4 hours. No alterations during the year.

HOLIDAYS: New Year's Day; Shrove Tuesday; Ash Wednesday; Carnival; Good Friday; Easter Monday; Labour Day (1st May); Ascension Day; Whit Monday; National Day; (14th July); Souls' Day; Armistice; Christmas Day.

Guam

GUAM (Apra Harbour): 13.26 N. 144.39 E.

(See Plan Book)

DOCUMENTS: Guam is a United States Territory in the Western Pacific and official documentation is as for mainland U.S. ports, including visaed crew list completed at port of departure prior to Guam. Vessels should have a stock of American Crew Lists Form I-148 and Form I-95A. The American Alien Crewman Landing Permit is acceptable and preferred. This is the plastic identification card previously issued on the U.S. coast.

Required on arrival:
- Vaccination Cards.
- Visaed Immigration Crew List.
- 4 Crew Lists.
- 4 Passenger Lists.
- 1 Store List.
- Clearance from last port.
- Cargo Papers.

Have ready Immigration Form I-94 for each passenger and Form 1-95 for each alien unless they have I-184 plastic Identification Card. Shore Passes not required. Crew Customs Declaration not required.

PILOTAGE: It is advisable to have on board U.S. charts for Guam: C & GS 4197 Apra Harbour. 4196 Guam Approaches.

Pilot available 24 hours a day. Weather permitting, Pilot will board outside breakwater upon Master's request.

ANCHORAGE: Harbour – range 084° True, 2 green lights. Strong set across harbour entrance, Navy recommends 10 knots entering. Quarantine Anchorage at Middle Ground, Outer Harbour, depth 45 ft.

RESTRICTIONS: The Harbour Master of the Port Authority of Guam, is in complete control of the approaches to Guam and it is essential to obtain clearance and permission to enter Guam from "Harbour Master" Port Authority, call sign KUF-810 at least 24 hours prior to arrival. Permission is readily granted with the condition to request permission again 2 hours prior to arrival at Guam. This time from Guam Control, call sign KUF-810 and NRV (USCG).

MAX. SIZE: Max. LOA 230 m. (Berths "F4", "F5" and "F6"). Depth alongside Berth "F5" – 10.97 m. at HW.

Berth "F3". Max. LOA 182.80 m. Depth 9.75 m. at HW.

Max. beam for container vessels is 33.55 m.

HEALTH: If from suspect port, Inspector boards at anchorage or at pier for thorough check. Grants pratique.

RADIO: Harbour Master Radio Station, call sign KUF-810 ship/shore watching 24 hours. Use of USCG Station "NRV" for best service if unable to reach KUF-810 due to limitation of range.

Notice to Ship's Agents: (20th August, 1980)

The Harbour Master's Control Tower is operating on a 24 hour basis. The following VHF frequencies are guarded and monitored:

156.8 MHz – Channel 16
156.6 MHz – Channel 12
156.65 MHz – Channel 13

In addition, Control Tower personnel will be monitoring S.S.B. with the following procedure:

2182.0 kHz continually.

4143.6 kHz – (4B). Every hour on the half hour for a period of 5 minutes.

8291.1 kHz – (8A). Every hour at 35 minutes after the hour for a period of 5 minutes.

12432.3 kHz – (12B). Every hour at 40 minutes past the hour for a period of 5 minutes.

The Port Authority solicits your co-operation in the matter of keeping the Harbour Master advised of all arrivals, departures, and other pertinent information whereby we may best serve the maritime industry.

VHF: Masters of vessels approaching should keep watch on Channels 12, 13 and 16.

TUGS: 3 tugs (1,200 h.p.) available throughout 24 hours. Tugs can be contacted direct on VHF Channels 16, 13 and 19.

BERTHING: Vessels may berth Port or Starboard side upon request of the Master or Agent at "F3", "F4", "F5" except "F6" port side to, 1 large tug and 1 small tug normally used. Ship's gangway is required. Local information from Pilots states that after completion of Berth F-1 (Gorco Oil Berth), a submerged wreck was discovered, said to be a 500 ft. long cargo vessel, and lies across and below the vessel in this berth, on the Eastern side of the jetty. It is advisable not to drop anchors – should they have to be used – until vessel has passed over the wreck. There have been instances of forward springs or breastlines becoming fouled in this wreck during operations.

TANKERS: *Mobil Pier:* Berth "G". Depth alongside 39 ft.

Gorco Berth: Berth "F1". Depth alongside 55 ft. Ship to pier hoses – 10 in. Crude shore line 24 in. (7 miles to tanks). Diesel/general line 16 in.

CRANES: 1 (Manitowoc) × 140 ton, 1 (P&H) × 40 ton and 1 × 35 ton.

2 Paceco rail mounted container gantry cranes for handling 20 ft., 27 ft. or 40 ft. containers. 30 fork lifts, capacity 3 – 20 tons, including a Hystainer with special spreader for handling containers.

IMMIGRATION:

1. *Prior to Departure for Guam:*
   A. Visaed Crew List: Prepare 1 Crew List on U.S. Form I-418 and have it visaed by a U.S. Consulate at a port prior to Guam. Without this, crew shore leave may be denied.
   B. Passengers must have a valid passport and also must have an appropriate U.S. Visa whether landing or not on Guam.
   C. Intransit passengers do not need U.S. visa if the Owners of the vessel have signed a contract called "Immediate and Continuous Transit Agreement" with the Commissioner of Immigration at Washington, D.C.
2. *Prior to Arrival at Guam:*
   A. Passenger List, Form I-418 prepare 3 copies of Passenger List on U.S. Form I-418 (for Immigration, Customs and Agent).
   B. Passenger Landing Card: Form I-94. Prepare or have on hand, 1 U.S. Form I-95A for each alien crew member. Not required if crew member is a permanent resident with U.S. I-184 laminated "Crewman's Landing Card". Not required of U.S.A. Citizens. Please present form I-95A in appropriate Seaman's passport or identification book. Form I-95A can be used repeatedly for future arrivals of same crewman on same ship at any United States Port.
3. *Upon Arrival at Guam:*
   A. U.S. Federal Immigration Inspector boards upon arrival at pier, must see all passengers with their passport and Form I-94 and all crew members with their passport or identification books and Form I-94A or Form I-184.
   B. Passengers and crew are required to be ready for inspection immediately upon docking at Guam.
   C. No shore leave and no visitors or stevedores may board until this Immigration inspection is complete. The Inspector will advise Master when he has completed his inspection of passengers and of crew.
4. *Prior to Departure from Guam:*
   A. Intransit Passengers: Pick up from intransit passengers the Form I-94 and hand to Agent before departing from Guam. These must be returned by Agent to U.S. Immigration as passenger departure records.
   B. Alien crew member joining at Guam: Pick up from them the Form I-94 which they used to enter the U.S.A. These must be returned to U.S. Immigration by Agent as permanent records.

SECURITY: Guam Government Official usually boards at pier, examines vaccination cards and inspects Steward's stores and slop chest. Also represents U.S. Customs. Requires 1 Crew List, 1 Passenger List, 1 Store List, Clearance from last port, later issues new clearance from Guam which Agents bring to ship. Normally does not seal stores or slop chest.

MARINE GUARD: Required when docked at Ammunition Pier, requires 1 Crew List.

FUEL: Marine Diesel Oil available by truck at any pier and by pipe-line at Berth "F3". Black oil available by pipe-line at Berth "F6". Both products also available by pipe-line at Berth "F1" (Gorco Pier) and the Mobil Pier. The distribution companies are Exxon, Gorco and Mobil. Infrequent fuel delivery restriction occurs when ammunition vessel working.

FRESH WATER: Very good, available any quantity, meter service.

STORES: Available but considered expensive. Produce from U.S.A.; meats from U.S.A. and N.Z.; milk is recombined in quart cartons, white, chocolate or buttermilk. Order milk day prior to delivery; tropical fruits seldom available; ice in blocks or cubes. Prices wholesale, except under 1 case lots when at retail. Delivered to ship's gangway or hook.

LAUNDRY: Also dry-cleaning available 3 days service at U.S.A. prices. 1-day service extra. Delivered to ship's gangway or hook.

MEDICAL: Foreign ships use Guam Memorial Hospital or other clinics in town. American ships use U.S. Naval Dispensary in Harbour area, or in emergency U.S. Naval Hospital near Agana, 10 miles distant. Certificates required signed by Master. Patient returns to vessel by taxi at vessel's expense. Dispensary hours for merchant seamen Monday to Friday 0800 – 1200 and 1300 – 1600 hrs. At other times, if emergency, use the U.S. Navy Hospital. Doctors will not normally visit ships.

Dentists: Private dentists only. Usual hours 0900 – 1700 hrs., Saturday to 1200 hrs.

REPAIRS: Commercial Yard and Casamar Yard available. Navy Yard, repairs by U.S. Naval Ship Repair Facility (SRF), subject to prior Navy commitments, and requires cash deposit in advance. Payment to be made for work done successfully or not. "No Cure No Pay" does not apply.

TIME: GMT plus 10 hours.

POLICE/FIRE/AMBULANCE: Ambulance U.S. Naval Dispensary, Harbour Area, Tel: 339-4224/4227. Fire Tel: 22222. Police – Naval Station Security, Harbour Area Tel: 333-2988. Police – Guam Civilian Police, Tel: Agana 777-9811

BANKS: Bank of America, Bank of Guam, Bank of Hawaii, Chase Manhattan Bank, Citibank, First Hawaiian Bank, Hong Kong and Shanghai Banking Corp.

AUTHORITY: Port Authority of Guam, P.O.Box 1445, Agana, Guam 96910. *Tel:* 477-9931, 477-8752, 477-8697. *Telex:* 7216157. *Contact:* Roy P. Duenas, General Manager. Frank Santos, Harbour Master.

Guatemala

GENERAL

DOCUMENTS:

Consular Documents:

Masters are required to:

1. Obtain a health and clearance permit, issued by the competent authority at the last port of call, and certified by the Guatemalan Consul, and;
2. Submit 5 copies of a general manifest of articles carried to each port of the country, approved by the Guatemalan Consul at the port of loading, and also, separate copies of the manifest for in-transit articles unloaded.

If no articles bound for the country are carried, a ballast manifest should be submitted.

Prior to Arrival:

Arrival Notice:

There is no minimum period for advance notice of the vessel's arrival, because Authorities exercise a degree of flexibility. However, it is recommended that notice be submitted in writing to the following sometime in advance: The Captain of the Port, Customs Administration and Customs Supervision of Unloading, Migration Delegate, Maritime Health, Plant Health Delegate and Port Watch. Notification must also be sent to the following agencies of the Port Authority: Port Administrator, Office of the Chief of Operations, Office of the Chief of Docks, Import Division, Export Division, Invoicing Division, Container Section (if any) and Pilots Division.

Information on Cargo for the Port:

If the vessel carries cargo to be discharged at the port, the following information will be submitted to the Port Authority:

Stowage Plan.
Cargo Distribution List.
Heavy Cargo List.
Amount of Exports.

If containers are carried to the port, 8 copies of the list of container contents and 8 copies of the list of complete shipments and of mixed shipments (for more than one consignee) are to be submitted to the Container Section.

This information may be submitted upon the vessel's arrival, so that no delays in the work will be experienced for that reason.

On Arrival:

Type of Documents	*Number and Distribution of Documents*						
Basic Forms	*Captain of Port*	*Customs*	*Security*	*Maritime Health*	*Immigration*	*Plant Health*	*Port Authority*

(b) According to the number of stevedores requested, more than 2 copies.

Other Requirements:

Requests for permission to load and unload are submitted to Customs, each on stamped paper and also, when appropriate, a request for overtime work.

Prior to Departure: The clearance permit is requested from the Captain of the Port 4 hours in advance, after obtaining clearance from Customs, on a clearance permit application, which is submitted on stamped paper.

CHAMPERICO: 14.17 N. 91.55 W.

DOCUMENTS:

Clearance from Last Port.
Travel Memorandum (original and 4 copies).
Declaration of Maritime Health.
Derat Exemption Certificate.
5 Crew Lists.
5 Passenger Lists or "no passengers" Declaration.
5 Provision Lists.
5 Dangerous Cargo, inflammable or explosives declaration.
5 Mail Lists or "no Mail" Declaration.
Manifests of Cargo from each port (original and 11 copies).
Bills of Lading from each port.
Vaccination Certificates for whole crew.
12 Ballast Manifests, if no cargo on board.

PILOTAGE: None.

ANCHORAGES: Without limit but recommended *not to anchor* less than 1 km. from beach.

MAX. SIZE: Vessels work cargo at anchorage in depth consistent with vessel's draft.

HEALTH: Give notice of any suspicious illness or fever on board when the doctor comes for official visit.

RADIO: ETA cables through Cristobal (Panama).

VHF: Channel 16.

TUGS: No tugs required.

STEVEDORES: No advance notice necessary. Possible to arrange gangs within an hour.

MEDICAL: Adequate advance notice required depending on gravity of case. Hospital 30 minutes away and possible to arrange transport for patient, also to arrange for doctor on board. Crew must have current International Vaccination Certificates.

TANKERS: No facilities for tankers.

DENSITY: Changes from 1.0226 gr./cu.cm. in October to 1.0270 gr./cu.cm. in April. Percentage of salt: Changes from 30.5 parts per thousand in October to 36.4 parts per thousand in April. Temperatures: an annual average of 28.5° C.

FRESH WATER: Free within port limits.

FUEL: No facilities.

GANGWAY/DECK WATCHMEN: Available upon request.

OPENING/CLOSING HATCHES: Either by crew or by stevedores.

CUSTOMS ALLOWANCES: Without limit on board. Prohibited to take tobacco, wine or spirits ashore.

CARGO GEAR: Ship's gear used for loading/discharging.

IDENTIFICATION CARDS: Not needed.

CONSULS: None.

REPAIRS: Minor repairs only.

REPATRIATION: All facilities available.

AIRPORT: International airport 3 hours distant with regular flights all over world.

TIME: GMT minus 6 hours. No alterations to clock during year.

HOLIDAYS: No work on 1st January, Maundy Thursday and Good Friday, 1st May and 25th December. The rest of the year work day and night.

POLICE/AMBULANCE/FIRE: All available.

TELEPHONES: Cannot be placed on the vessels.

GENERAL: Possible to supply provisions, especially vegetables and shell-fish at good prices.

SHORE LEAVE: No restrictions.

DELAYS: Some days in April and October the surge is very strong and work has to be suspended.

DEVELOPMENTS: Project to build a modern port with an entrance channel, artificial bay and capacity for 8 merchant vessels and facilities for fishing ships and tourist ships.

AUTHORITY: Empresa Portuaria Nacional de Champerico, 10A Calle 3-31, Zona 1, Guatemala City, Guatemala. *Tel:* 25-4-47, 85-2-16, 53-54-57. *Cables:* Epnac. *Contact:* Cnel. Antonio Batres Barreda, President. Gregorio Cifuentes Administrator.

PUERTO BARRIOS: 15.44 N. 88.36 W.

DOCUMENTS:

Clearance from Last Port.
Crew List, 1 legalised and 9 copies.
Passenger List 1 legalised and 7 copies or negatives.
Cargo Manifest, 1 legalised and 21 copies.
Stores/Provisions List 3 copies.
Voyage Memorandum 4 copies.
Bills of Lading, 2 sets.
Declaration of Health.

PILOTAGE: Pilot boards 2 miles off Puerto Barrios, from small unmarked launch. If awaiting Pilot, vessel may anchor about three miles North of Puerto Barrios, keeping port entrance clear. No VHF.

ANCHORAGE: In Santo Tomas Bay, depths up to 6 fathoms.

MAX. SIZE: Length 600 ft., draft 30 ft.

HEALTH: Advise Agent in advance if any fever or contagious disease suspected on board. Otherwise pratique granted on arrival. Officials board only between 0600 hrs. and 1800 hrs.

RADIO: Coastal radio in Costa Rica, call sign TIM operating on 8485 kHz.

TUGS: No tugs available.

BERTHING: One pier owned by International Railway used to discharge fuel oil. 1,000 ft. berthing length on each side. A flag is shown on the pier to indicate where vessel will berth. Berthing recommended during daylight hours only. Tankers discharge on South side of the pier.

See "Shipmaster's Report" for Santo Tomas de Castilla.

FRESH WATER: Available at the pier.

FUEL: Not available.

MEDICAL: Doctor available. All crew require International Vaccination Certificates.

CUSTOMS ALLOWANCES: Normal daily consumption on board. No tobacco, wine or spirits to be taken ashore.

IDENTIFICATION CARDS: Required.

TIME: GMT minus 6 hours; no alterations during the year.

SHORE LEAVE: Allowed.

AUTHORITY: Commandante del Puerto.

SAN JOSE: 13.55 N. 90.50 W. (See Plan Book)

DOCUMENTS:

Clearance from Last Port.
Crew List, 1 legalised and 4 copies.
Passenger List, 1 legalised and 7 copies.
Passengers in Transit List, 4 copies.
Cargo manifest, 1 legalised and 19 copies.
Stores/Provisions List, 3 copies.
Voyage Memorandum, 4 copies.
Cargo Check Lists, 18 copies.
Mail List, 7 copies.
Bills of Lading, 2 sets.
Baggage Declaration, per passenger, 4 copies.
Declaration of Health.

PILOTAGE: Not required and no resident Pilots available, except for Tankers where services of a Pilot could be made available upon request.

ANCHORAGE: San Jose is a lighter port (open roadstead). Vessels anchor about 0.25 mile from pierhead in 8–9 fathoms of water.

RESTRICTIONS: Normally no pratique granted after 1900 hrs., although in some instances and if prior arrangements made, vessels could be received by Port Authorities up to 2300 hrs. Tankers moor in daylight only.

MAX. SIZE: Size immaterial since no docking facilities. Cargo transported from vessel to pier and vice-versa by means of steel lighters or barges of 35 tons capacity each. This applies to dry cargo only. Bulk, liquid cargo at respective terminals (oil and oil by-products, imports, and molasses export), where vessels proceed after pratique.

HEALTH: Pratique automatic (0700 hrs. to 1900 hrs.), irrespective of previous port of call. Master's obligation to notify Authorities on arrival of any suspected disease and/or fever on board, in order that adequate precautions taken.

RADIO: Messages should be routed via Guatel.

TUGS: None available or required for manoeuvring vessels.

BERTHING: New port 2 miles East of San Jose Pier. The principal mole is 800 m. long and is dredged to 10.0 m.

STEVEDORES: No gangs available after 2100 hrs., unless another vessel is working in port. Rate of discharge/loading: dry cargo: 15–20 tons per gang hour. Max. gangs available: 3. Bulk cargo handled ten times faster.

MEDICAL: Hospital available. No vaccination/fever certificates required.

TANKERS: 2 buoy berths for tankers. Discharging lines 8 in. diameter. Esso Terminal: Mooring Master assists berthing. IRCA Terminal: Stern discharge.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: None required or necessary.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCES: On board, no restrictions, but no crew member allowed to bring ashore more than amount required for personal use.

CARGO GEAR: Ship's gear used for loading and discharging dry cargo. Vessels must bring own lines to tie lighters alongside.

IDENTIFICATION CARDS: Necessary for those on shore leave.

CONSULS: All Consulates located in Guatemala City, where vessels' Agents, when and if required, have special documents legalised. Normally, however, Agents can take care of regular certifications required, through port officials, who are authorised to certify documents in absence of a consul of a particular nation.

REPAIRS: No facilities available.

REPATRIATION: Possible. Usually arranged by Agents in cooperation with vessel's Agent in Guatemala City.

AIRPORT: Nearest airport Guatemala City, 108 km. due North of San Jose. Daily flights to and from all parts of world.

TIME: Central Standard Time, GMT minus 6 hours. No changes during year.

HOLIDAYS: January 1st; Holy Thursday; Good Friday; Easter Saturday; March 19th; May 1st; June 30th; July 25th; September 15th; October 20th; November 1st; December 24th; December 25th; December 31st.

POLICE/AMBULANCE/FIRE: These can be contacted through Agent at San Jose and/or Guatemala City.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Allowed.

DELAYS: Only 2 dry-cargo vessels can work simultaneously. A third vessel must await departure of 1 of the first 2. Only 1 tanker can work at each bulk liquid cargo terminal.

SHIPMASTER'S REPORT: September, 1978.

Approach was direct from the Pacific. A good landfall was made. San Jose main Light was observed to be Isophase, rather than Occulting, every 20 seconds.

Anchorage: Vessel anchored in a position with the head of the Iron Wharf bearing 011°(T) – 8 cables. We lay to 4 shackles of cable on the starboard anchor, in 13 fathoms of water. Despite a considerable swell at times, the vessel did not drag her anchor. If anchoring, vessels do not take a Pilot.

Berthing: Ocean-going vessels and at times, due to the swell, almost any vessel, cannot berth alongside the wharf. While we were at San Jose a tanker of about 20,000 d.w.t. berthed stern-on with both anchors down, to load molasses.

I understand that, if no tanker is expected, general cargo ships are sometimes berthed in this manner. The tanker employed a Pilot.

Communications; If at anchor, it is best to keep radio watches and maintain long-range communications in this way. When working cargo, the Supervisor is in VHF communication with the Agents, but this facility is not available outside of working days.

Charterer's Agents: Transmares S.A., of Guatemala City, who send a representative to San Jose while a ship is there. They are efficient and helpful.

Documents: As per "Guide to Port Entry". It was not possible to get any documents legalised prior to arrival, but this was arranged by Agents, as also was legalisation of documents for subsequent Central American ports.

Cargo Work: Continuous, weather and the supply of lighters permitting. There are only 3 general cargo gangs in the port and only 2 ships can be worked at a time. The first ship gets 2 gangs, the second ship 1 gang. Many delays were experienced waiting for lighters, and 2 full days discharging time were lost due to the size of the swell.

This is not a very serious problem alongside the ship, but makes discharge of the lighters at the wharf impossible.

Rate of discharge of coiled steel rods was 55 tons per gang-hour, net of delays awaiting barges.

Pratique: Granted on arrival.

Provisions: Not purchased.

Fresh Water: Unobtainable at the anchorage.

Shore Leave: Permitted, but one has to take one's chances of getting a ride to and fro on the lighters. Not many people went ashore and fortunately none were stranded when work was suspended.

SANTO TOMAS DE CASTILLA: 15.42 N. 88.37 W. (See Plan Book)

DOCUMENTS:

Clearance from Last Port.
Crew List, 1 legalised and 9 copies.
Passenger List, 1 legalised and 7 copies.
Passengers in Transit List, 4 copies.
Cargo Manifest, 1 legalised and 21 copies.
Stores/Provisions List, 3 copies.
Voyage Memorandum, 4 copies.
Cargo Check List, 18 copies.
Mail List, 7 copies.
Bills of Lading, 2 sets.
Baggage Declaration, per passenger 4 copies.
Declaration of Health.

PILOTAGE: Compulsory for all vessels arriving, leaving and manoeuvring within the port limits and available 24 hours a day. Pilot can be taken on board at 2 stations on ship's request, one at Cape Three Point (Tres Puntas) and the other 1 to 2 miles North of Villedo lighthouse.

The pilot station and the Control Office of Maritime Traffic of the Navy maintains listening on R.T. frequencies 2738 kHz, and Channel 16 VHF.

The pilot craft are painted white, flying a red and white flag by day, and red and white lights by night, they have VHF radio, but no radar.

The pilot craft base is the Santo Tomas de Castilla Quay, as well as the pilot station, and they will proceed to provide service once requested by the Ship's Agents.

The ladder for the Pilot to board must be positioned on the lee side of the vessel 1 m. above the water, but any alternative may be agreed between the Pilot and the Master of the vessel.

ANCHORAGE: Vessels with a draft up to 24 ft. can anchor about 1 mile to the North of Villedo Lighthouse, leaving the main channel free, but vessels drawing more water should anchor a little further away from the lighthouse.

The Pilots will anchor vessels with less than 24 ft. draft in the inner bay, i.e. nearer to the port, depending on the position of vessels anchored.

APPROACHES: As aids to navigation, there is a lighthouse at Cabo Tres Puntas, Ox-Tongue Lighthouse, Heredia Lighthouse, Villedo Lighthouse, the access channel together with the manoeuvring basin being marked by light buoys, driven by batteries recharged by solar energy.

RESTRICTIONS: The channel has a depth of 32 ft., at the marginal quay there can be a minimum depth of 24 ft., this will be deepened to 30 ft.

Vessels may sail from the port at any time of the day or night, holidays, etc., and vessels arriving after 1800 hrs. must make special arrangements via their agent in the port with the authorities for berthing.

HEALTH: In case of any contagious illness or fever on board the Sanitary Authority will be informed through respective Agent and vessel will moor to be examined by doctor in charge whether to subject vessel to quarantine or not. No automatic pratique.

RADIO: ETA cables to Agent and Receiver made through Florida Radio, Lantana (WDE) in the U.S.A.

VHF: The distance at which VHF communication can be established with the Santo Tomas de Castilla pilot station is 16 nautical miles, i.e. the distance at which Cabo Tres Puntas (Three Points Cape) is from the port.

When the Pilot is manoeuvring, communication with the tugs is via Channel 12 VHF.

TUGS: It is compulsory to use at least 1 tug for any type of manoeuvre; depending on the size, structure, location where the manoeuvre is being executed, and the state of the weather, the Pilot will decide upon the use of a second tug. The port currently has available 2 tugs, and in the near future a third tug will enter into service.

BERTHING: The quay is marginal with a length of 914.51 m., being divided into 6 berths of 152.40 m. (approx.) each. The depth of water alongside the quay is 29 ft., the water is saline, and for discharge and loading of goods, facilities are available for day and night work. The vessel's own gear and equipment is used, and in special cases shore equipment. It is necessary that prior to the arrival of the vessel's relevant and general information be provided regarding the cargo carried by the vessel, so as to allocate the corresponding berth, as well as equipment and storage warehouses.

CRANES: The port currently has 3 mechanical scoops (type P&H), 2 with a lifting capacity of 35 tons and 1 with a capacity of 7.5 tons. A mobile jib crane on rails capable of covering a distance of 450 m. approx., and with a lifting capacity of 30 tons. There is also a fixed crane with a lifting capacity of 50 tons. The Authority has no floating cranes.

The port can work conventional vessels, container and Ro/Ro ships, solid and liquid bulk carriers, and for operating solid bulk carriers, the Authority has a Buhller unit with a capacity of 100 t.p.h. discharge and mechanical scoops with grabs. Liquid bulk carriers visiting the port discharge and load products via tubes and hoses, conveniently installed along the quay.

SPECIALISED CARGO HANDLING FACILITIES: There are 4 berths for Ro/Ro vessels operation.

For handling container ships there is 2 Straddler carriers with a lifting capacity of 40 tons and stowage at 3 high, 2 Raygo-Wagner fork-lifts with 40 tons lifting capacity and stacking height to 3 high, 2 spreaders, 1 for 40 ft. and 1 for 20 ft. containers, 9 winches and 8×40 ft. platforms.

STEVEDORES: The port authority provides the stevedoring service in accordance with the applications for service submitted by port agents. Ordinary time from 0700 to 1200 hours and from 1400 to 1700 hours. Overtime from 1800 to 2400 hours.

MEDICAL: No advance notice necessary. Hospital facilities and ambulance service available. International vaccination certificate required.

TANKERS: Diameter of pipe-lines 16 in. and load/discharge lines 14 in. No slop discharge facilities. Only 1 mooring berth for tankers and max. draft permitted 30 ft. Also see "Shipmaster's Report".

DENSITY: 1015.

FRESH WATER: Pipe-lines alongside quay. Delivered by hoses belonging to port. Rate 15 t.p.h.

FUEL: Available by lorry or port authority tugs, no advance notice required. (Bunker: 60°, and diesel: 38°).

FIRE PRECAUTIONS: No specific precautions for tankers. Hydrants and fire brigade available to combat fires, besides tug's services and Coast Guard ships of Navy. Dangerous areas to be clearly signposted.

GANGWAY/DECK WATCHMEN: Not essential. If necessary provided free by port.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits: No definite quantity and usually regulated by the Master.

IDENTIFICATION CARDS: Passes issued to each crew member.

CONSULS:

El Salvador
Honduras
Mexico
Germany
Italy
Sweden
Holland

REPAIRS: Only minor deck and engine repairs.

REPATRIATION: Possible.

AIRPORT: In Puerto Santo Tomas de Castilla there is no airport. There is an airport at Puerto Barrios 8 km. away, and flying time from there to the capital, Guatemala City, is 45 minutes. There is no regular airline, but it is possible to hire air taxis.

TIME: GMT minus 6 hours.

HOLIDAYS: 1st January; 7th March; Maundy Thursday and Good Friday; 1st May; 30th June; 15th September; 20th October; 1st November; 25th December.

No work 1st January, Good Friday or 25th December.

TELEPHONES: No facilities for placing telephones on board.

BANKS: Central Bank of Guatemala.

SHORE LEAVE: Possible.

SHIPMASTER'S REPORT: 1976

Approaches: No difficulty once position is ascertained approaching the Gulf of Honduras. The Pilot boarded 3 miles North of the Villedo Shoal Beacon. Pilots have VHF Channel 16 call Porto Barrios Pilots. Only 1 pilot speaks English so if he is on duty there is no difficulty in communications.

The lights on the approach beacons are said to be unreliable but all were found to be good radar targets.

At the present time a dredger is working on a new approach channel to give a 32 ft. buoyed channel past Puerto Barrios up to Santo Tomas de Castilla.

General: The area is still recovering from the severe earthquake some 8 months ago in which the finger pier at Puerto Barrios was destroyed. This now constitutes a submerged hazard while in the channel on the approaches to Santo Tomas de Castilla. The channel is poorly marked and at present there are numerous survey buoys which can be confusing.

The berth is stern to at the Eastern end of the cargo jetty at Santo Tomas using 2 anchors and backing up to 10 ft. off the jetty from where the hose is passed up to the stern line by a mobile crane. The connection is made by the ship's crew. There is a 1 × 8 in. hose for all grades into a 10 in. shore line which is approximately 5 km. long. The requested back pressure of 8.5 kg. was easily maintained using 2 pumps.

AUTHORITY: Empresa Portuaria Nacional – Santo Tomas de Castilla, *Tel:* 0480060, 0480611, 0480588, 539098. *Telex:* Stomas GU 719. *Contact:* Carlos Tan. G, Deputy Manager.

NOTES

Please also advise Shipping Guides Ltd.

Guinea, Republic of

CONAKRY: 09.30 N. 13.44 W.

DOCUMENTS:
7 Crew Lists – Crew list with vaccination date for health service.
5 Passenger Lists.
5 Lists Port of Call (the last ports).
3 Stores Lists.
3 Lists Crew Declaration (personal effects).
5 Manifests of Cargo (if any).
2 Copies of Bills of Lading.

PILOTAGE: Telegraphic address Pilot station: "Harbour Master's Office, Conakry". Pilot meets vessels N.E. of sea buoy Tonnelier.
ANCHORAGE: Safe deep anchorage.
RESTRICTIONS: No entry at night. Channel depth 8 m. MLW.
MAX. SIZE: 600 ft. long. Max. draft for tankers 31 ft. – 32 ft. HW.
HEALTH: Valid yellow fever inoculation Certificates.
RADIO: Conakry Radio 2182-2586 kHz.
TUGS: 2 new tugs, 27 tons bollard pull, recently delivered. Tugs normally connect to starboard side. Ship's lines used.
BERTHING: All tankers berth according to HW. No berthing at night. Berthing 0700 hrs. to 1900 hrs. 10 berths, max. depth 11.5 m.
STEVEDORES: ETA to "Navalguinee" in order arrange gangs.
MEDICAL: Advance notice required for medical service, hospital facilities available.
TANKERS: Pipe-line 5,280 ft. long, 10 in. diameter. 2 tanker berths, 31 ft./32 ft. high-water max. draft at these berths.
DENSITY: 1016 in the port with particular relation to state of tide.
FRESH WATER: Available by connection from pier. Rate of delivery with good pressure 30 t.p.h.
FUEL: Not available.
FIRE PRECAUTIONS: Special fire service for tankers.
GANGWAY/DECK WATCHMEN: Compulsory, particularly for tankers. Large gangs of thieves have boarded vessels in daylight in the port and have stolen cargo from containers and holds.
OPENING/CLOSING HATCHES: Normally by crew. Stevedores if requested by Master.
CERTIFICATES: Derat Certificate, Log Book.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes out of bond. Wine and/or Spirit, 1 litre of spirit and 1 litre of wine per day out of bond.
IDENTIFICATION CARDS: Necessary.
CONSULS: All major maritime nations.
REPAIRS: None available.
REPATRIATION: All facilities exist for effecting crew changes and arranging repatriation to Europe.
AIRPORT: International airport distant 15 km. served by regular airlines.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day (1st January); Women's National Day (9th February); Labour Day (1st May); 1958 Referendum Day (28th September); Independence Day (2nd October); All Saint's Day and Guinea Army's Day (1st November); Anniversary of the Basic Law of 8th November 1964 (8th November); Assumption (15th August); Anniversary of Youth's Creation (J.R.D.A.) (26th March); Christmas (25th December).

Varying holidays which depend on the position of moon: Ramadan – End of fasting; Tabaski – Pilgrimage day at Mecca; Mahouloud – Day after Prophet Mahomed's Birthday.

Work available during holidays, except Labour Day, Independence Day, Ramadan and Tabaski.
POLICE/AMBULANCE/FIRE: Police 17; Ambulance 16; Fire 18.
TELEPHONES: Not possible to place telephones on board.
SERVICES: None.
SHORE LEAVE: Crew allowed ashore.

SHIPMASTER'S REPORT: 1974.

There are no shore or harbour lights in operation. The Tonnelier Buoy is off station together with all channel buoys other than Nos. 3, 6 and 9 all of which are unlit. There is no plan to replace or re-light these navigation marks.

Only 1 tug is available.

Fresh water can only be obtained by Fire Brigade Tanker truck of 4 tonnes capacity at a cost of £1.60 per tonne. This water if received needs chlorination and boiling before use.

Consuls – There is no British Consular Officer resident in this port. The nearest is located at Dakar in Senegal.

Repatriation of crew members by air is possible but difficult. Procedure is as follows;

Air ticket must be purchased outside Guinea. Airline then advises their office at Conakry that purchase has been made. Airline office at Conakry in turn advise ship's Agents when ticket and flight are available. Only then can Immigration formalities be commenced. Entry and exit visas are required and the overall operation may take up to one week.

Time – GMT is kept.

In the rainy season vessels should be prepared for the African Tornado. This usually occurs at night and produces winds reaching 90/100 knots from calm in a matter of minutes. It is as quickly over. The best indication of approach of this weather is a steep rise in the barometer, the highest winds usually Northerly being experienced during the rise.

Vessels berthed at the banana berth should be well fendered as they are subject to considerable movement due to invisible ground swell. A slight starboard list when alongside is an advantage.

SHIPMASTER'S REPORT: 1975.
Radio: Conakry Radio not working on radio telephony as stated, although same information given in List of Coast Stations. (Freetown Radio helped me with the relaying of my messages to Conakry and Europe).
Fresh Water: Only available by truck loads and after written application to Harbour Master, stating exact amount required. (Water is very expensive).
Identification Cards: Seamen's Books or passports used. (No landing permits issued).
Time: GMT.

AUTHORITY: Harbour Master.

PORT KAMSAR: 10.39 N. 14.37 W. (See Plan Book)

DOCUMENTS:
1 Vaccination List.
5 Crew Lists.
5 Passenger Lists.
1 Crew Declaration (Personal effects) List.
1 Stores List.
5 Last Ports of Call Lists.
7 Manifests of Cargo.
5 Copies Bills of Lading.

To ensure the best possible turn-round for general cargo vessels complete sets of the required cargo documents should be made available to the authorities by hand of the Master. Delays have been occasioned by the late arrival of documents sent by post. It would be of help for the Master to send hatch distribution and the amount of refrigerated cargo, if any, at the same time as ETA.
Quarantine, Immigration and Customs: Representatives of the departments board after the vessel has been made fast alongside. The Quarantine Flag "Q" should be flown by arriving vessels.
ARRIVAL ADVICE: Masters are required to send ships ETA, addressed to Harbour Master and/or Shipping Superintendent C.B.G., through Port Kamsar Radio Station, 7 days, 5 days, 3 days and 1 day before arrival at Port Kamsar.
APPROACHES:
Approaches to Rio Nunez: Port Kamsar formerly known as Kakande is located on the East bank of the Rio Nunez river and is approximately 17 km. from the sea.

Vessels bound for Port Kamsar will find there are few natural features to aid a landfall. The most prominent feature is Cape Verga situated to the Eastward of the Rio Nunez entrance. This cape can be observed by radar at a distance of approximately thirty miles. At present the light on Cape Verga is extinguished.

To the Westward of the Rio Nunez entrance are the Compony Shoals and Conflict Reef. These are screened by a series of light buoys and vessels approaching from the West should keep them well on the port hand. (See "Buoyage System" below).

Another prominent feature is Gonzales Rock on the starboard side close to the entrance to Rio Nunez. During daylight the hull and superstructure of a wreck stranded 765 ft. bearing 049.75° from the old Gonzales light structure is visible and may be picked up by radar at a distance of between ten and fifteen miles. A light buoy is positioned screening the rocks and is identified as buoy No. VII. The true position of the wreck is: 10° 24′ 24″ N., 14° 41′ 18″ W.

Vessels proceeding to Port Kamsar should anchor and await the arrival of the Pilot in the area bounded by Latitudes 10° 26′ N and 10° 28′ N. and Longitudes 14° 44′ W. and 14° 46′ W.
Kamsar Buoyage System: Approaches to Rio Nunez – Sea Buoys

No.	*Shape–Colour*	*Position* *N.*	*W.*	*Characteristic*	*Visibility (miles)*
I	Red cylindrical	10° 20.0′	15° 28.5′	GP. FL. 3 Ev. 15 sec.	5

VIII	Red cylindrical	10° 29.5′	14° 43.9′	FL. 10 secs	5

Charts of the area are as follows:
British Admiralty:
600 Cacheo River to Iles de los.
1562 Rio Nunez and Riviere Compony.
United States Naval Oceanic Office:
51580 Ponta Caio to Cap Verga.
Service Hydrographique de la Marine (These charts are recommended by the Port Captain):
6148 Embouchure du Rio Nunez.
6228 Acces au Rio Nunez.
6288 Abords du Port Kakande.

Rio Nunez Transit: The channel from the mouth of Rio Nunez to the bauxite loading wharf at Port Kamsar is 17 km. in length and 120 m. wide and is well marked by 21 light buoys. The channel is subdivided into an inner and outer channel, the bottom of which consists of mud and sand.

The inner channel extends from the bauxite wharf to point "F" and is dredged to between 8.25 and 8.50 m. below Reference Datum Level (R.D.L.) which is defined at +0.15 m. above the lowest water registered (British Admiralty Tide Tables L.L.W.S. = 0.00).

The outer channel extending from point "F" seaward is dredged to a depth of 9.00 m. below R.D.L. increasing to a depth of – 12.00 m. from km. 15.3 to the sea.

The turning, waiting basin for inbound vessels is dredged to –7.75 m. below R.D.L. the bottom of which is mainly mud and it is good holding ground.

PILOTAGE: Pilotage service is compulsory for all vessels over 150 ft. LOA. Vessels under 150 ft. LOA will also be required to have a Pilot aboard on their first calls, but may be exempt thereafter by consent of the Harbour Master and approval of the Port Director.

Pilots are supplied from the Director's Office. Pilots board vessels in the designated waiting area. When conditions are too unfavourable for a Pilot to board the vessel at the designated area the Pilot will pass instructions by VHF radio, Aldis lamp or loud hailer from the pilot boat, and the vessel will follow the pilot boat in until conditions are suitable for boarding.

Pilot boats are fitted with VHF radio can be contacted on Channel 16 or 12.

ANCHORAGE: See "Approaches".

RESTRICTIONS: Pilots are now berthing ore carriers of any size (up to 225 m. LOA, which is the largest size of ship calling at Port Kamsar) at any stage of tide, including with the half ebbing current of Spring tides during the dry season. However, this performance can be limited during Spring tides in the rainy season.

MAX. SIZE: Max. LOA 225 m. Shipmaster reported max. draft at LW 42 ft. 8 in.

HEALTH: Authorities board when vessel is alongside the berth. Yellow fever and Cholera vaccination certificates required.

RADIO: The Port Radio Station is operated by the Post, Telegraph and Telecommunications Department. The equipment includes a 5 kW. transmitter (both voice and telegraph) with the following frequencies.

A.

Frequency	*Power*	*Mode*	*Call Letters*
6383 kHz	5,000 Watts	A 1	3X0 27
8702 kHz	5,000 Watts	A 3	3X0 28
12885 kHz	5,000 Watts	A 3	3X0 29
484 kHz	1,000 Watts	A 1	3X0 30
500 kHz	1,000 Watts	A 1	3X0

NOTE: *Watchhours are at the GMT times shown below:*

0800 – 0850	500 kHz
0850 – 0950	6383 kHz
0950 – 1100	500 kHz
1100 – 1200	6383 kHz
1600 – 1700	500 kHz
1700 – 1800	6383 kHz
2000 – 2100	500 kHz
2100 – 2200	6383 kHz

B. *Port Operations:*

(1) A new SSB radio telephone set will shortly be installed and be operated on the following frequencies and watchkeeping hours:

Frequency	*Power*	*Mode*	*Call Letters*	*Watch Hours*
2182 kHz	150 Watts	A3H	3X04	8000–1200,
8702 kHz	150 Watts	A3J	3X028	1330–1730
12885 kHz	150 Watts	A3J	3X029	and as required

(2) VHF Channels 16 and 12. Watchkeeping hours: 0800 – 1200; 1330 – 1730 and as required.

C. A Radio Direction Finder has been installed and is operating with the following characteristics:

Position:	10° 39′ 41″ North 14° 36′ 25″ West
Frequency:	308 kHz
Signal:	KAM — · — · — — —
Power:	100 Watts
Range:	150 miles (approx.)
Operating Time:	Continuous

D. A further means of communication is through Port Kamsar Post Office through which international connections may be made.

Telegraphic address: BCTR KAMSAR.
Telex : 817 Kamsar.

TUGS: Two tugs in service (1×825 h.p., 1×2,800 h.p.).

BERTHING: Located 17 km. from the channel entrance is the bauxite wharf.

The area alongside the wharf has been dredged to a depth of 13.5 m. below R.D.L. Fendering is separate from the wharf proper, and consists of 12 flexible steel dolphins spaced 21.6 m. apart and protruding 4 m. from the face of the wharf.

A vessel proceeding to the bauxite wharf will normally swing off the berth and make fast port side to, heading seaward, during the flood tide. If the berth is occupied the vessel will be anchored in the turning basin to await the berth.

There is a single loading berth at the wharf. The longest vessel berthed had a LOA of 225 m., which is considered to be the maximum length permissible.

The mobile shiploader has a travel of 165 m., and an outreach of 21 m. from the outside face of the fendering. It is rated at about 4,000 tonnes/hour.

A vessel's air draft, i.e. distance from the waterline to the top of the hatch coaming, must not exceed 13.72 m. (45 ft.) at Highest High Water.

Weight of bauxite loaded is determined by a formula using deadweight survey and weightometer. The weightometer is used for loading runs.

Stowage factor of the dried bauxite is 28 cu.ft./long ton.

Bauxite vessels sail from Port Kamsar during the flood tide. Maximum departure draft is regulated according to tidal conditions.

Facilities for the discharge of petroleum products are also available on the bauxite wharf. Attached to the shiploader is a chicksan arm with an 8 in. connection. This feeds 2 main lines, 1×16 in. line for Bunker "C", and 1×8 in. line for Diesel. Discharge rates average about 450 tonnes/hour at 100 lbs. per sq. in. back pressure at the ships pumps.

Storage facilities are three 10,000 tons Bunker "C" tanks, and two 3,000 tons diesel tanks.

At the same wharf there is a 6 inch line for the discharge of petrol (gasoline) by the same tankers bringing diesel oil. Discharge rates average 60 cu.m.p.h. The storage facilities are two 1,400 cu.m. tanks.

There are 2 small general cargo wharves located at the entrance to the Dougoufissa Creek, where vessels of up to 100 m. LOA with a maximum draft of 6 m., may berth. As there is only 3.5 m. at Lowest Low Water, these vessels will be aground at low water periods.

One of these wharves is equipped with a heavy lift crane – derrick with a maximum S.W.L. of 110 tons. Safe Working Loads are as follows:–

Radius of derrick (metres)	*Lifting capacity (tons)*	*Height under hook (metres)*
16.5	110	29
26	75	23
32 (max.)	45	11

The derrick is also equipped with a secondary hook with a capacity of 20 tons.

Two 400 tons and two 200 tons barges are available for loading and discharging midstream.

WIND/WEATHER/TIDE: In the Rio Nunez approach area waves up to 4 m. can be encountered. At the entrance to the fairway or channel they are generally less than 1 m. high during the rainy season, and less than 0.5 m. high in the dry season. Waves and swell in the inner channel and harbour area are generally very moderate.

The tide, in the the proximity of the buoyed channel, runs N.N.E. and S.S.W. at 2.5 knots under normal conditions, but can reach 4.5 knots during Spring tides in the rainy season.

The flood tide runs parallel with the line of the bauxite loading wharf at a speed of up to 4 knots. The ebb tide, augmented by water coming out of the Dougoufissa Creek, runs through the bauxite wharf at an angle of approximately 20° at a speed of up to 4.5 knots on spring tides in the rainy season, tending to set the vessel off the wharf. It is therefore absolutely essential to tend moorings continuously, particularly on the stern of a loading vessel.

The density of the Rio Nunez at the bauxite loading wharf varies between 1013 (rainy season) and 1028 (dry season) at high water.

Port Kamsar has a typical tropical climate, which is characterised by two separate seasons.

Rainy season from June to October

Maximum rainfall	is during July and August mainly at night.
Relative humidity	is 70 to 80% during the day and 90 to 95% at night.
Temperatures	range from 17°C to 38°C, with an average of between 22°C to 28°C.
Wind conditions	Variable from between South and West, Force 3 to 6 Beaufort Scale. Possible tornados from between North and N.E. with wind reaching force 10 Beaufort Scale for short periods.

Dry season from November to May

Little rainfall.

Relative humidity	is 30% to 50% during the day, and 80% to 90% at night. There is often coastal fog in the mornings.
Temperatures	range from 15°C to 42°C, with an average of between 20°C to 35°C.
Wind conditions	Light breezes from the Southwest to West, force 1 to 3 Beaufort Scale.

MEDICAL: Hospital facilities at Port Kamsar are available only on an emergency basis.

TANKERS: See "Berthing".

FRESH WATER: Available in limited quantity on an emergency basis.

TIME: GMT.

HOLIDAYS: New Year's Day (1st January); Labour Day (1st May); Anniversary P.D.G. (14th May); Independence Day (2nd October); Victory Day (22nd November); Christmas Day (25th December); Tabaski (Variable date); Ramadan (Id il Fitri) (Variable date).

All Sundays are also declared Public Holidays. The President may also, at his discretion, declare any other day to be a Public Holiday.

The loading of bauxite is generally continued without stoppage for Public Holidays.

General cargo will not, except in special circumstances, be worked on Victory Day, Tabaski and Ramadan (Id il Fitri). All other Public Holidays are normally worked.

SHORE LEAVE: Crew members are not granted shore leave at present.

GENERAL: *Stores:* Provisions are scarce and therefore not available to calling vessels.

Gangways: Vessels must provide and attend their own gangways. A vessel berthing at the bauxite wharf should have its gangway swung out and ready to lower.

Normal practice of the port is for the foot of the gangway to be heaved out and landed on the wharf after the vessel is fast alongside.

Port Directors Office: The office of the Port Director is solely responsible for the operation of Port Kamsar, which includes the provision of Pilotage, tugs and launches.

The Office acts as sole Agent for all vessels calling at Port Kamsar, including the normal ships business functions performed by ships Agents.

SHIPMASTER'S REPORT: (1974)

Density: Varies from 1013–1028 according to season.

Fresh Water: Available, rate 20 t.p.h. Not recommended as drinking water.

Repairs: Small repairs can be carried out in an emergency.

Airport: Nearest airport is Conakry which is 8 hours away by car.

SHIPMASTER'S REPORT: August 1983.

Documents:

1 Vaccination List.	5 Ports of Call Lists.
5 Crew Lists.	7 Manifests of Cargo.
1 Crew Declaration.	5 copies Bills of Lading.
5 Passenger Lists.	5 Stores Lists.

Agent, Doctor, Customs, Immigration and Shippers Representative board on arrival alongside to clear vessel. Later during office hours a gentleman from the Maritime Inspection Department will board to inspect vessel's certificates etc. On ship's first visit he will issue a numbered chit which should be *retained* for future visits. A shippers' representative will board on arrival to carry out a deadweight survey. He usually accepts Chief Officer's figures for ballast, bunkers, fresh water, etc., which he should have ready. 3 Immigration, Customs, etc., Officers live on board for the duration of vessel's stay alongside. A room and food must be provided for them.

Approaches: Are fairly straightforward following the pecked line route on Charts B.A. 600 and 1560, however this with the benefit of a 'Satnav'. Currents in that area were found over several voyages to be unpredictable and at times quite strong. No. III Buoy is equipped with a Racon which can be detected at distances of between 13 and 18 miles and should be passed keeping it to the South, thence inwards keeping to the South likewise of Nos. IV and V Buoys (also pecked line route) proceeding to the anchorage after passing Buoy V, or if entering port directly from sea to the pilot station usually about 1 mile South of No. 8 Buoy. Here the pecked line (Charts B.A. 1560 & 1562) should be adhered to in order to avoid the shoal patch S.S.W. of No. 8 Buoy.

Buoy III appears to be about 3 miles South of charted position and Buoy IV even further out of position. At the time of writing the light on Buoy III is extinguished, however the Racon is working well. Ile Binari and Ile Gonzales show up well on the radar. Rocher Gonzales upon which lies a conspicuous wreck, shows on the radar as a double blip and has been found most useful for obtaining fixes. Unfortunately neither the light or Racon on the reef work. Most of the buoys show up well on the radar and are visible for about 6 miles (conditions allowing). Off the river mouth flood tide sets Northeasterly and the ebb Southwesterly.

Pilotage: 3 pilots available. Pilots should be called on VHF Channel 16 about one and a half hours before arrival, they are supposed to keep a 24 hour watch, however if many vessels are waiting at anchor this is not always the case.

If berth is unnoccupied, Pilot will meet vessel 1 mile South of No. 8 Buoy and conduct vessel through an 8.25 mile channel, well buoyed, 120 m. in width with a least depth of 8.25 m. to the inner anchorage and turning basin dredged to 10.0 m. Both anchors should be run out ready and a man standing by them for the channel passage. If entering on the flood tide (on which vessels must berth) immediately on entering the basin, vessel is swung to port and port anchor let go to one shackle (in water) until vessel has swung to flood, she is then dredged astern to a position N.W. of and handy to the berth, when anchor is weighed and vessel proceeds to berth. An adequately powerful tug assists in the operation. On weighing port anchor the starboard anchor must be ready in case of need on berthing.

If berth is occupied but no other ships waiting, vessel will enter as above, but when in position pay out cable and come to anchor. Holding ground is reputed good. As vessels of or near this size must sail one hour before high water Pilot rejoins about 1.5 hours before high water, cable is shortened and vessel dredged astern as above to await the sailing of berthed ship.

Anchorages: As will be seen on the charts the anchorage and pilot station area indicated is close to shoal water. I therefore found it preferable to anchor about 5 miles West of Rocher Gonzales. The holding ground is reputed to be good though I have never had opportunity to put this to the test.

Radio: Early ETAs have to be sent via Portishead Radio, however as these have to pass through Conakry and overland communications are poor, it is not unusual for these to be lost or badly delayed. It is therefore important to establish communication via Kamsar Radio as early as possible. Our earliest has been about 3 days from the port, when I have considered it worthwhile to repeat the 3 day ETA direct. The evening watch hours seem to be the best. Agents do not reply to requests for 'prospects'. First advice therefore is from the Pilots.

VHF: See "Pilotage".

Tugs: See "Berthing".

Berthing: If more than one vessel, waiting turn, order is: Vessel berthed, next on turn at inner anchorage, the rest anchored outside awaiting turn. Turns are not necessarily in order of arrival. If a ship is without laydays she must wait until laydays are allotted or until ships within laydays have loaded even though may have arrived later.

Bauxite Berth: An L shaped jetty extending about 6.25 cables from shore, it is well fendered with modern sprung fenders, depth alongside 13 m. Vessel berths port side to the quay head to flood. Tie up, forward 6 head ropes and 2 springs, aft 6 stern/breast ropes and 2 springs. On Spring tides and particularly during the rainy season, a very strong ebb sets at an angle across vessel's stern setting it off the quay. If need be the tug 'Dougoufissa' can be called on VHF Channel 16, either direct or via Pilots (depending on one's French) to stand by and/or assist by pushing vessel to quay.

There is no shore gangway. Ship's gantry must be landed on quay. As usual the space for it to run is restricted and it must be carefully kept out of the way of the loader.

Berth is equipped with a travelling loader with an outreach of 21 m. Max. airdraft to coamings (hatchcovers for siderollers) is 45 ft. Loading rate is up to 60,000 tons per day working around the clock. However during the rainy season and particularly if there is a run of ships, loading rate is limited by the capacity of the driers, about 1,500 t.p.h. for ships loading dry ore.

Max. sailing draft varies with height of tide and river, and will be calculated by the Pilot before he leaves the ship on berthing.

On sailing, Pilot will board 1.5 hours before high water (day or night) at which time vessel should be ready to single up as she must leave the berth promptly 1 hour before high water.

Fresh Water: Not available.

Repairs: No facilities for repairs.

Shore Leave: Not permitted.

Crew Mail: Mail left with Agents is forwarded to Brussels direct by air every Friday.

AUTHORITY: Port Director, Direction du Port.

NOTES

Please also advise Shipping Guides Ltd.

Guinea Bissau, Republic of

BISSAU: 11.51 N. 15.34 W.

DOCUMENTS:

Entrance Declaration.
Clearance from the last Port of Call.
List of all Passengers on Board, either in transit or disembarking in Bissau.
Provisions List.
List of the Crew Members Effects.
2 Lists of Passengers Baggage.
List of Cargo to disembark in Bissau, Baldeade (Bolama) or otherwise in transit to be disembarked in another port.
List of Cargo (inside sealed envelope).

PILOTAGE: Pilot's base and radio beacon located at Caio Point, (small island at the entrance of Geba's Channel). To call the Pilots and/or the radio beacon, send telegram to Servicosmarguine, informing of the ETA at Caio; pilotage is compulsory.

ANCHORAGE: Between Bissau and the Ilheu do Rei.

MAX. SIZE: Draft 26 ft.

HEALTH: Visit of port doctor compulsory if ship has no doctor, or if permission for exemption has not been requested; permission can be requested by radio. When needed, the health services in Bissau can be used by passengers or crew members. Yellow fever and smallpox vaccinations required.

RADIO: Station call sign CQF weekdays on at 0900, 1300, 1600, 1800 hrs. GMT. Sundays 0900 and 1100 hrs. GMT. Frequency 500 kHz, CW.

TUGS: 1 tug of 320 h.p. and 1 of 800 h.p. available.

BERTHING: Ponte, Cais de Bissau, length 131 m., width 25 m., depth 8 m.

Equipment: 4 × 6 ton cranes; 2 × 12 ton stacker trucks; 2 × 4 ton stacker trucks; 4 × 2 ton stacker trucks; 2 × towing tractors – 6 tons; 16 × 6 ton trucks; 1 × 35 ton towing tractor; 1 × 25 ton platform; 1 × 50 ton towing tractor; 1 × 50 ton platform; 2 × suction machines for 80 t.p.h.; 2 × 35 m. conveyor belts; 1 × 40 m. conveyor belt.

STEVEDORES: 1,500 stevedores available for loading and unloading cargo.

FRESH WATER: Available; pumping rate, 10 t.p.h.

FUEL: Diesel available; pumping rate, 6 t.p.h.

CONSULS: W. Germany, U.S.A., Algeria, Brazil, China, Democratic Republic of Korea, Cuba, Egypt, France, Nigeria, Portugal, Libya, Sweden, U.S.S.R., Netherlands, Lebanon.

REPAIRS: Small repairing work can be done on machinery or ship's hull.

AIRPORT: 7 km. from Bissau; 2 flights to Lisbon per week, 1 flight per week to Moscow, 1 flight per week to Algiers and 4 flights per week to Conakry.

TIME: GMT minus 1 hour all year round.

HOLIDAYS: *National Holidays:* 1st January; 20th January; 8th March; 1st May; 3rd August; 24th September; 14th November; 25th December, Days of Ramadan and Tabasky.

POLICE/AMBULANCE/FIRE: Police, tel. 213957; Fire, tel. 118.

TELEPHONES: Line connection land-ship, if requested to the Post Office Authorities.

DEVELOPMENTS: "T" shaped pier length 290 m. with head length 260 m. under construction, completion 1987.

SHIPMASTER'S REPORT: November 1979.
Vessel from Dakar; bound for Bissau. Speed 14 knots, draft 6.10 m.
Report on the River Entrance to Bissau:
The vessel was proceeding on course 172° (T) and positions taken at various intervals as follows:

0920 hrs.: Cabo Roxo Lt. Ho. Brg. 054° (T) × 20.5 miles
0930 hrs.: Cabo Roxo Lt. Ho. Brg. 047° (T) × 22.0 miles

At 0920 hrs. minimum sounding was taken at 4.0 m. under the keel and Westerly set was applied.

At 0930 hrs. the vessel altered course to 137° (T).

1025 hrs.: Pta. Cabaceira Pt. Brg. 081° (T) × 31 miles
1145 hrs.: Pta. Cabaceira Pt. Brg. 057° (T) × 26.1 miles
1210 hrs.: Pta. Cabaceira Pt. Brg. 048° (T) × 21.5 miles

From 0930 hrs. onwards, poor fixes due to poor radar targets of land points.

From 1020 hrs. the vessel steered various courses to the Fairway Buoy at Lat. 11° 47.3′ N., Long. 16° 41.8′ W., due to strong currents.

At 1145 hrs. Fairway Buoy was found not in position and the vessel altered course and steered heading for pilot station at Caio Island. Caio Island Western Point was picked up on radar at about 16 nautical miles.

Visibility throughout was hazy and poor, about 3-4 nautical miles due to sand dust. Radio beacon at Caio Island was not working. Aero Radio Beacon at Bissau appeared to be unreliable.

1345 hrs.: Vessel anchored South of Caio Island awaiting Pilot.
1415 hrs.: Pilot onboard.

Pilot station at Caio Island had no VHF or other possible means for communication with the vessel. Vessel had to anchor and await Pilot. The Pilot boat is small with a weak engine and at times not working. The Pilot may have to be picked up by own lifeboat. The River Pilot did not speak any English, only Portuguese and was unable to give proper orders to the helmsman. Navigation in River Geba to Bissau was mostly done by the vessel's officers. Entrance and departure from Bissau cannot be done during the night, as most lights and buoys are unlit. On arrival at Bissau the vessel has to anchor 4 cables N.E. of the jetty and await Harbour Pilot.

1808 hrs.: Vessel anchored at Bissau, 4 cables N.E. of jetty.
1900 hrs.: Vessel berthed at Bissau, starboard side alongside the jetty.

The Harbour Pilot was able to communicate in English. Berthing and unberthing is preferred on flood tide. Current alongside berth up to 3.5 knots. Maximum depth alongside at low water was 20 ft. 3 soundings were taken at low water alongside the wharf: West end: 7.40 m., middle: 6.10 m., East end: 9.30 m., length of wharf 131 m.

Discharging was slow. The vessel stayed 4 days in port to discharge 1,364 m/tons flour in bags of 50 kg. Cargo worked from 0800 hrs. to 2300 hrs. daily. No cargo work at night due to heavy pilferage from the cargoes, ship's watchmen were kept in all hatches during discharging.
Day of Departure:

0715 hrs.: Vessel left berth.
1210 hrs.: Vessel anchored at Caio Island.
1220 hrs.: Pilot disembarked by ship's lifeboat.
1305 hrs.: Vessel continued voyage.

On departure the pilot boat at Caio Island was not working and the vessel had to use her own lifeboat to disembark the Pilot.

Max. Size: LOA 131 m.
Anchorage: Good anchorage 4 cables N.E. of the wharf. Depth 6 – 7 fathoms, holding ground was good.
Pilotage: Pilot station on Caio Island which is 50 nautical miles West of Bissau. Request for pilotage is compulsory, via Agent.
Restrictions: Entry by night is difficult as most lights are unlit and the current rises at up to 3.5 knots on the flood and ebb tides, also the navigation aids are poor.
Tugs: Not available.
Berthing: Length of wharf 131 m., depth alongside at low water 20 ft. (FW).
Cargo Handling Facilities: General cargo only handled, there are no lighters, container or Ro-Ro facilities.
Cranes: 2 mobile cranes, maximum capacity 15 tonnes.
Repairs: Not possible.
Fuel: Not available.
Fresh Water: Supply to the wharf is unreliable.
General: Provisions not available.
Medical: No services available.
Airport: There is a twice weekly air service from Bissau to Europe. Distance to airport 7 km.

AUTHORITY: Junta Autonoma dos Portos da Guine, P.O.Box 382, Bissau, Guinea-Bissau. *Tel:* 2797 (Administrator's Office), 2783 (Secretariat). *Cables:* Porto, Bissau. *Contact:* Port Director.

NOTES

Please also advise Shipping Guides Ltd.

Guyana

ESSEQUIBO RIVER (Bartica): 06.24 N. 58.37 W.

DOCUMENTS: See "Georgetown".
PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 24 hours in advance to Pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.

Essequibo light (steel framework tower with red and white horizontal bands) marks seaward end of Essequibo main ship channel. Vessels in vicinity of Demerara Pilot station should listen for pilot boat on VHF Channel 16.
RESTRICTIONS: The Essequibo Bar is composed of hard mud and sand. The least depth of water is 3 ft. less than for Demerara Bar. Vessels should not attempt to cross the Essequibo Bar drawing more than 3 ft. less than that predicted for the Demerara Bar.
MAX. SIZE: Controlled by Bar draft predictions.
HEALTH: Pratique given at Georgetown when Pilot boards. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.
RADIO: Demerara Radio call sign 8RB operating on 2182 kHz. Georgetown Lighthouse operates VHF Channel 16 and HF 2738 kHz 24 hours a day. Also SSB 8281.2 kHz.
TUGS: Not available.
MEDICAL: Hospital at Georgetown and Bartica.
DENSITY: 1000, fresh water.
FRESH WATER: Not available.
FUEL: Not available.
OPENING/CLOSING HATCHES: By ship's crew.
CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.
CONSULS: At Georgetown.
REPAIRS: Government dry dock situated at Mazaruni, approximately 40 miles up river at junction of Essequibo and Mazaruni rivers. Extreme dimensions; 160 ft. by 35 ft.
AUTHORITY: Harbour Authority, Transport and Harbours Department, Water Street, Stabroek, Georgetown, Guyana. *Tel:* 02-67842. *Cables:* Transport Guyana. *Contact:* Captain I. N. Roman, Harbour Master.

GEORGETOWN: 06.49 N. 58.10 W. (See Plan Book)

PORT LIMITS: Seaward by an arc of a circle with radius 1 nautical mile, with the Georgetown lighthouse as centre.
DOCUMENTS:
Certificate of Registry.
8 Crew Lists.
8 Provisions and Stores Lists.
4 Passenger Lists.
Customs Documents:
2 Reports of Ship's Stores (Form C1).
2 Lists of Crew Personal Effects (Form C2).
1 List of Unmanifested Cargo (Form C3).
12 Health Declaration Forms (W.H.O.2)
Health Documents for Crew (1 copy for each crew member).
5 Cargo Manifests.
5 Bills of Lading.
PILOTAGE: Vessels apply for Pilots through local Agents or direct to Chief Pilot, Georgetown, through "Demerara Radio, 8 Romeo Bravo", 12 hours in advance of ETA at pilot station when vessel is proceeding in to Georgetown Harbour. Pilot boarding ground is in North-Western quadrant of circle with radius 5 cables and centre the Outer Georgetown Light. Normal international day or night signals for "I require a Pilot" are used. All pilot cutters are painted black (hull) and white (superstructure) with the word "Pilot" painted in white on black ground. Cutters are approximately 60 ft. in length.
ANCHORAGES: There are 5 with a least depth of approximately 20 ft. MLWS named A to E from North to South. Vessels are safely anchored at any of the above anchorages 1.5 cables to 2 cables from Georgetown park line. Bottom is soft mud and provides good holding ground.
RESTRICTIONS: No entry restrictions except those on draft imposed by the bar at estuaries.
MAX. SIZE: Draft 20 ft. 6 in.
HEALTH: Radio Pratique is not given, and pratique is only given at Georgetown. This normally involves a visit from the Health Authorities if the vessel is clear. If a vessel is "suspect" or "infected" Master should advise Harbour Authority by special message through Demerara Radio or Georgetown Lighthouse and await advice of Port Health Officers; meanwhile, if in the vicinity of Georgetown, vessel may anchor at the specified quarantine anchorage near the Outer Georgetown Buoy as entry into the limits of the port without the authority of the Ministry of Health is prohibited if the vessel is suspect or infected.
RADIO: Name of radio station "Demerara Radio", call sign "8RB", always standing by on 2182 kHz., will give latest weather report or RDF bearings on request. Georgetown Lighthouse operates VHF Channel 16, HF 2738 and SSB 8281.2 kHz.
RADAR: No service available.
TUGS: At present, vessels dock stem on to the tide without aid of tugs. However, tugs could be provided if urgently required.
BERTHING: There are 6 main wharves privately and government owned, situated along the river frontage at Georgetown and varying in length from 210 ft. to 730 ft. Depths alongside range from 16 ft. to 20 ft. at low water springs, but as the bottom is soft mud vessels may safely lie aground alongside. Ships work cargo with their own appliances.
BULK HANDLING FACILITIES: The sugar berth is 416 ft. in length with least depth alongside of 18 ft. MLWS and can accommodate vessels up to 530 ft. in length. Loading rate is 500 t.p.h. using 2 chutes. Vessels should not be more than 63 ft. beam.
CRANES: No heavy lift cranes available. Ship's gear has to be used. No floating cranes.
BRIDGES: Demerara Harbour Bridge: Floating bridge with retractor span situated 4.2 miles from mouth of river. Arrangements for passing are made by Agents. Bridge operators keep radio watch on VHF Channel 16.

STEVEDORES: Ship's Agent normally arranges for gangs in accordance with cargo plans or Master's cable advice. Gangs are unionised. Stevedores work around the clock every day of the week though they are paid overtime between hours of 1600 and 1900 and they earn time-and-a-half or double time on public holidays according to which one of the 12 public holidays they work.
MEDICAL: No special advance notice of required medical attention is necessary, and hospital facilities are always available.
TANKERS: There are no residue discharge facilities at this port. There are 4 tanker berths in the Georgetown area.
Rome Terminal (Shell) – depth alongside is 11.0 ft.
Ramsburg Terminal (Esso) – depth alongside 16 ft.
Ramsburg Terminal (Texaco) – depth alongside 11.0 ft.
Providence (Guyoil) – depth alongside 8.5 ft.
Size of pipe-lines: 6 in.
DENSITY: Average density in port is 1015, though during the rainy season (March-May; October-December) density of water may be as low as 1000 at low water in the harbour.

FRESH WATER: Fresh water is available, and is delivered alongside. The ship is required to pay for labour, overtime, etc., involved in the delivery.
FUEL: In case of emergency, providing advance notice is given by Master, vessels may be partially bunkered at any of Shell, Texaco or Esso installations. Vessels may be required to go alongside 2 hours before high water and leave not later than 1 hour after high water at the above-mentioned installations. Grades of fuel available are "Bunker C" and diesel fuel.
CONSULS: (and Embassies)
Belgium
Brazil
Canada
China (People's Republic)
Colombia
Costa Rica
Cuba
Denmark
Egypt
France
Germany (G.D.R.)
India
Italy
Jamaica
Japan
Korea
Libya
Mexico
Netherlands
Norway
Panama
Sweden
Trinidad & Tobago
United Kingdom
U.S.A.
Venezuela
Yugoslavia
FIRE PRECAUTIONS: There are no stated precautions other than regulations against pumping out residual heavy oil (e.g. "Bunker C"). Ships having cargoes of ammunition, high explosives, dynamite, etc., are required by Harbour Regulations to anchor North of Georgetown Lighthouse prior to proceeding alongside wharf to unload and/or proceeding up river.
GANGWAY/DECK WATCHMEN: Services of watchmen are necessary and can be obtained through a watchman's pool by ships' Agent. Armed gangs of robbers have boarded vessels and stolen quantities of ship's stores.
OPENING/CLOSING HATCHES: Normally carried out by ship's crew.
CUSTOMS ALLOWANCES: Each crew member is permitted up to 200 cigarettes aboard held out of bond, but is only allowed to take ashore 40 at any time. Only on a *final discharge* would a member of crew be permitted a tobacco allowance of half-a-pound. Each crew member is allowed to keep out of Bond, 1 (one) bottle of wine or spirits, but is prohibited from taking any of it ashore. Each member of crew is allowed tax-free only one-sixth gallon wine and one-sixth gallon spirits *when he is finally discharged.*
CARGO GEAR: Ship's gear.
IDENTIFICATION CARDS: Not required.
REPAIRS: Every type of deck or engine repair is undertaken at Guyana National Engineering Corporation (GNEC) dry dock. Above waterline and engine-room repairs of any type are undertaken on vessels exceeding the dimensions mentioned below while vessel is anchored in the stream. Also see "Dry Docks".
SURVEYORS: Lloyds and Bureau Veritas. No cargo inspectors available.
DRY DOCKS: GNEC Dry dock: A graving dock 210 ft. × 37 ft. 9 in. at entrance situated South of GNEC No. 2 Wharf, which is State owned and operated on normal commercial lines. 198 ft. length of dry dock is on blocks. Breadth: top 46 ft. 4 in., bottom 40 ft. 9 in., depth on sill at HWOST 92 ft.

Government Dry dock: Situated at Mazaruni approx. 40 miles upriver at junction of Essequibo and Mazaruni rivers is a graving dock and has extreme dimensions of approx. 160 ft.×35 ft.
REPATRIATION: Arrangements normally made through ship's Agents.
AIRPORT: Timehri International Airport is situated approx. 30 miles South of Georgetown with highway connection and is served by many intercontinental airlines.
TIME: 3 hours behind GMT. No alterations made to clocks during the year.
HOLIDAYS: New Year (January 1st); *Eid-ul-Ahza; *Phagwah; Republic Day (February 23rd); Good Friday; Easter Monday; Labour Day (May 1st); *Youman Naubi; Caribbean Day (July 5th); Commonwealth Day (First Monday in August); *Deepavali; Christmas Day (December 25th); Boxing Day (December 26th). *Religious holidays are variable.
POLICE/AMBULANCE/FIRE: Tel. 999. There are Police/Ambulance/ Fire Stations on the waterfront.
TELEPHONES: Could be arranged through Coast Station 8RB.

BANKS: Chase Manhattan Bank N.A., Bank of Guyana Building, Church Street, Georgetown, P.O.Box 101080, Telex: Chase Bk, GY 2222.

Barclays Bank Int. Ltd., 48 Water Street, Georgetown, Telex: Barclay GY 2248.

STORING: See "Prelims", page viii.

(1) Yes. (2) Yes. (3) Yes. (4) Yes. (5) Yes. (6) Yes.

SHORE LEAVE: Granted by Immigration Boarding Officer.

DELAYS: Only when berths are occupied.

AUTHORITY: Transport and Harbours Department, Battery Road, Kingston, Georgetown. *Tel:* 02-59350. *Cables:* Transport – Guyana. *Contact:* Captain I. N. Roman, Harbour Master.

LINDEN: 06.00 N. 58.17 W.

DOCUMENTS: See "Georgetown".

PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 12 hours in advance to pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.

From Georgetown to Linden and Linden to Georgetown, pilotage not compulsory, but advisable to use G.N.E.C. pilots.

RESTRICTIONS: Governed by depth of water at Demerara River Bar. Entrance normally at HW. Max. speed limit on the river is 10 knots.

ANCHORAGES: Vessels proceeding to Linden in ballast and drawing less than 15 ft. may anchor beyond Southern limit of Georgetown. Depths 16 ft. – 18 ft. MLWS.

MAX. SIZE: Draft 21 ft. 6 in.

HEALTH: Pratique given at Georgetown by Health Authorities. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.

RADIO: Demerara Radio call sign 8RB operating on 2182 kHz. Georgetown Lighthouse operates VHF Channel 16 and HF 2738 kHz, 24 hours a day. Also SSB 8281.2 kHz.

TUGS: Not available.

BERTHING: There are 2 bauxite berths accommodating vessels of up to 570 ft. One loader for metal grades has an airdraft of 29 ft. 8 in. and a loading rate of 800 t.p.h. The second loader for calcined bauxite has an airdraft of 34 ft. and a loading rate of 350 t.p.h.

The Alumina berth has a travelling tower with an airdraft of 64 ft. and a loading rate of 400 t.p.h. Max. beam of vessel 85 ft.

MEDICAL: Hospital at Georgetown.

DENSITY: 1000, fresh water.

FRESH WATER: Can be supplied.

FUEL: Can be supplied.

OPENING/CLOSING HATCHES: By ship's crew.

CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.

CONSULS/REPAIRS: At Georgetown.

AUTHORITY: Transport and Harbours Department, Battery Road, Kingston, Georgetown. *Tel:* 02 – 59350. *Cables:* Transport Guyana. *Contact:* Captain I. N. Roman, Harbour Master.

NEW AMSTERDAM (Everton, Berbice): 06.14 N. 57.31 W.

DOCUMENTS: See "Georgetown".

PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 24 hours in advance to pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.

RESTRICTIONS: The Berbice Bar is composed of fairly hard mud. Vessels may cross the Berbice Bar on even keel loaded to 2 ft. less than the Demerara Bar predictions.

MAX. SIZE: Controlled by Bar draft predictions.

HEALTH: Pratique given at Berbice by Health Authorities. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.

RADIO: Demerara Radio call sign 8RB operating on 2182 kHz. Georgetown Lighthouse operates VHF Channel 16 and HF 2738 kHz, 24 hours a day. Also SSB 8281.2 kHz.

TUGS: Not available.

BERTHING: The Bauxite berth is about 1,500 ft. long, and has a fixed loading arm with an average loading rate of 500 t.p.h. The airdraft is 36 ft.

There is a strong ebb current of about 4–5 knots, although the flood runs at about 3 knots.

MEDICAL: Hospital at Georgetown.

DENSITY: 1000, fresh water.

FRESH WATER: Can be supplied.

FUEL: Can be supplied.

OPENING/CLOSING HATCHES: By ship's crew.

CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.

CONSULS/REPAIRS: At Georgetown.

AUTHORITY: Transport and Harbours Department, Battery Road, Kingston, Georgetown. *Tel:* 02-59350. *Cables:* Transport Guyana. *Contact:* Captain I. N. Roman, Harbour Master.

Haiti

GENERAL

REQUIREMENTS CONCERNING DOCUMENTARY REQUIREMENTS PRIOR TO ARRIVAL:

Advice of Arrival: The arrival of the vessel must be announced 48 hours in advance, and in writing, to the Port Captaincy and to the Port Authority, with indication of the vessel's characteristics, the cargo which will be discharged and loaded, and requirements concerning supply of water, etc.

Information Concerning Cargo Intended for the Port: The Agency must receive in good time by air mail 6 copies of the Cargo Manifest and 2 copies of the Bills of Lading. In the event that it is not possible to supply these documents by mail, the information must be provided by telex to the Agency so that the latter may draw them up.

The Cargo Manifests are distributed to the Port Authority, the Haiti Terminal (private concern handling cargo consolidation), to the Ministry of Commerce, the Ministry of Finances and to the Agency.

REQUIREMENTS RELATING TO THE RECEIPT OF THE VESSEL:

Reception Commission: The vessel is received by representatives of the Port Health, Immigration, Customs, International Police, National Port Authority and the Agency.

Documentation Required: On the arrival of the vessel, the following documents are required, OEA/ALALC, IMO and certain other documents being acceptable.

	No of Copies and Distribution					
Type of Document	*Health*	*Immigration*	*Customs*	*Police*	*NPA*	*Agency (a)*
General Declaration	–	–	1	–	1	1
Cargo Manifest (b)	–	–	–	–	1	–
Crew List	1	1	3	1	–	1
List of Passengers	–	1	2	–	–	–
List of Stores	–	–	2	–	–	–
Declaration of Crew Effects	–	–	2	–	–	–
Maritime Health Declaration	1	–	–	–	–	–
Mail List	–	–	–	–	–	1
Arms and Ammunition Manifest	–	–	1	1	–	1

(a) The Agency requires additional copies of the Crew List, the Passenger List, the Stores List, the Arms and Ammunition Manifest, etc., dependent upon the destination of the vessel, in accordance with the requirements of Consular Clearance.

(b) Required in the event that the manifest has been received, or information regarding the cargo, in advance of the arrival of the vessel; if not, the agency requires 4 or 6 copies for distribution amongst the different authorities.

REQUIREMENTS CONCERNING DOCUMENTATION ON SAILING:

Documentation on Sailing: At the request of the Agency, the Customs issue a clearance with which permission to sail is applied for from the Port Captaincy. The latter's permit is used for requesting the services of the Pilot from the National Port Administration.

An Outgoing Manifest is presented to Customs which also contains a sworn statement (sworn statement of the Master of a vessel with cargo, or sworn statement of the Master of a vessel in ballast), and the List of Passengers. If the vessel is sailing with cargo, it is presented in 6 copies; if in ballast, in 4 copies.

CONSULAR INTERVENTION:

Consular Documentation: In accordance with the 1963 Customs Code, Article 119, the Master of a vessel loading cargo for Haiti, or his representative, must sign before the Consul a Declaration sworn as to the truthfulness of the manifest. This article is transcribed as follows:

Quote:

Article 119, *Oath.* Masters of vessels or their representative, at the time of having their manifests visaed, shall give the following oath which shall be transcribed by the Consul at the bottom of the manifest: I swear that this manifest contains exactly the packages shipped on board my vessel, that the quantities are in agreement with those shown on the Bills of Lading. I declare that I will accept all penalties which I may incur for offence against the Customs Law. I give my hand hereto.

Unquote.

In general, Consular Clearance has to be obtained at each port from the first at which cargo is loaded for Haiti. For this purpose, the Consul requires 6 copies of each of the following documents:

General Declaration.
Cargo Manifests or In Ballast.
Crew List.
List of Passengers or Negative.
Stores List.

The Consul returns 3 copies of the documents, which must go with the vessel, and 6 envelopes, i.e. 1 for each of the following Authorities:

General Customs Administration.
Director of Customs.
Department of Commerce.
Fiscal Department.
Finance Department.
Customs Collector.

The 6 envelopes are not always received, and at times only 2 copies of the visaed documents are given back. The Authorities apply a certain tolerance when it is established that the Consular Fees have been paid at the Consulate or at destination.

CAP HAITIEN: 19.46 N. 72.12 W.

GENERAL: For all general information refer to "Port-au-Prince".

APPROACHES: The current is about 3 knots in the entrance to the port when the river is in flood.

ANCHORAGE: Vessels which are unable to moor alongside because of deeper draft are anchored off the wharf.

BERTHING: The wharf at Cap Haitien was constructed by the Compania Industrial Maritima. The construction is in reinforced concrete. It extends for a length of 900 ft. in an Easterly direction and comprises 3 sections. The most important section is 600 ft. long and has berths for deep sea vessels on the South side in depths of 30 ft. The Western section, nearest the shore, is 300 ft. long with variable depths of 7 ft. to 9 ft. alongside, with berths for motor vessels of small tonnage and sailing ships. The central section accommodates the customs offices. 2 metal warehouses border the East and West ends of the wharf. Between the warehouses is 1 fixed crane of 30 tons capacity.

FRESH WATER: Fresh water is available at Cap Haitien.

FUEL: Available, only in drums.

DEVELOPMENTS: Ro/Ro Berth length 100 m., under construction. Main pier length 250 m., under construction. Cruise ship pier length 170 m., to be constructed.

MIRAGOANE: 18.25 N. 73.04 W. (See Plan Book)

GENERAL: For all general information refer to "Port-au-Prince".

BERTHING: The facilities at Miragoane are 1 small jetty for loading and discharging general cargo with a max. depth alongside of 18 ft.

There is a wharf for loading bauxite, belonging to the Reynolds Company, with a depth alongside of 34 ft. Total annual export about 350,000 tons.

PORT-AU-PRINCE: 18.33 N. 72.21 W. (See Plan Book)

Also see "General" before first port.

DOCUMENTS:

Shipmasters Report: October 1982.

Clearance from Last Port.
6 Crew Lists.
3 Nil Passenger Lists.
3 Provisions/Stores Lists.
3 Crew Personnel Effects Lists.
2 Ports of Call Lists.
1 Vaccination/Inoculation List.

PILOTAGE: Pilotage is compulsory for all movements of ships in the port. The Pilot boards to the West of the fairway buoy and is accompanied by port officials, i.e. Port Doctor and Representatives of Immigration, Police and Customs. These officials insist on using the accommodation ladder to board the vessel. Masters must arrange with their respective Agents the time which they will require a Pilot to leave the port. If they are ready to depart before the hour arranged they may call the Pilot by 3 blasts of the ship's whistle.

Berthing from 0530 hrs. – 2100 hrs. except Sundays and holidays.

APPROACHES: The port of Port-au-Prince is situated at the extreme S.E. of the bay. It can be approached from the North and from the South by 2 channels.

One may approach from the N.E. by the Saint-Marc channel or from the West by the Gonave channel, between Trou-Forban Point and the village of Ca-Ira. The bay extends between Trou-Forban Point in the North and the village of Ca-Ira about 20 miles to the South. The position of Ca-Ira is 18° 32′ N. 72° 39′ W. From Ca-Ira the South coast of the bay extends about 2 miles N.E. and about 12 miles East to Pointe Lamentin.

ANCHORAGE: Vessels must anchor to the West of the large red buoy No. 29 or at the quarantine buoy, situated about 1.5 mile N.N.W. of buoy No. 29. A bottom of sand over coral is to be found all over this region in depths of 10 to 18 fathoms.

Vessels may anchor or depart at any hour of the day or night.

In order to facilitate the rapid movement of vessels, these are normally anchored in order of arrival.

WEATHER: The Bay of Port-au-Prince is nearly always calm except at certain times of the year; for example, during the months from May to November, occasional strong winds may interrupt normal loading and discharging movements.

A light breeze from the East or N.E. blows after dawn, but in the afternoon a breeze 3 times stronger blows in the opposite direction.

The height of the tide is only 1.5 ft. Currents in the port are almost negligible, except that, when mooring or unmooring a vessel, one should pay attention to a Northerly current of about a quarter of a knot.

RADIO: All deep-sea vessels which enter the territorial waters of Haiti are obliged to advise the Port Radio Station.

The radio station is situated at the Bureau de Port. It is in operation 24 hours a day.

Visual light signalling may also be carried out as far as it is possible to do this.

The following apparatus is used at the radio station:

1. VHF Radio – Channels 6, 12, 16 and 18.
2. Medium frequency, SSB compatible frequencies 2182 kHz, 2738 kHz. Power 150 watts, range about 250 miles.

In addition to the VHF Channels, the Pilots may use radio-telephone on the following frequencies: 2182 and 2738 kHz.

The general call and distress frequency 2182 kHz is monitored continuously.

All messages addressed to the Port Authorities and messages concerning pilotage must be handled at this radio station.

Masters are particularly required to give the radio station, as soon as they arrive, the following information:

Vessel's draft and net tonnage, amount of cargo for discharge by hatch, number of gangs required.

The telephone number of the radio station is 2 – 3235.

48 hour ETA message to APN also to include details of the vessel, expected time of departure, quantity and nature of cargo to be handled.

TUGS: The port has at present a tug of 2,000 h.p. available at all times. The tug is compulsory for ship from 1,000 tons gross and upwards. At all times 2 aluminium launches, each 30 ft. long, are available for Pilot's use.

BERTHING: The New Port facilities are presently in service, located 600 ft. North of and parallel to the existing pier.

Prime features of new facilities are:

Length of berthing space: 1,400 ft.
Width of apron 93 ft.
Container crane on rails on the apron with 30 tons capacity equipped to handle 20 ft., 35 ft. and 40 ft. containers.
Ro/Ro platform.
Depth alongside 32 ft. MLW.

Finger Pier: Length 1,250 ft., width 60 ft. Ro/Ro platform on North side. On the South side there is 1,250 ft. of berthing space, depth 25 ft. – 30 ft. On the North side there is 540 ft. of berthing space, depth 32 ft.

At the outer end of the finger pier there is a dolphin berth for passenger vessel. Length 888 ft., depth alongside 32 ft. Vessels may berth on both sides.

There is an angular portion of 100 ft. between Quays No. 1 and 2 which may not be used for mooring, but which the bow of the ship may overhang. Vessels must be secured by at least 2 mooring cables at the bow and at the stern.

The Port Authorities require for vessels manoeuvring in the port a minimum of 2 ft. of water under the keel. This regulation may be modified by special authorisation of the Chef de Port.

In addition to the public pier, there are 5 jetties belonging to private companies used for handling products in bulk. These jetties belong to the following companies:

A. La Hasco, sugar refinery established at Port-au-Prince.
B. La Minoterie, flour mill situated at Laffiteau.
C. Le Ciment d'Haiti SA, cement factory situated at Fonds Mombin.
D. Jean Ackmed, fuel installation situated at Simonette.
The above jetties are established on the North side of the bay.
E. Installations of Shell Company and Tropigas on the South side of the bay, equipped with their own mooring buoys for tankers.

CARGO HANDLING: For vessels loading and discharging at the public pier, cargo is transported on railway trucks of 25 tons max. capacity.

1 quay is equipped for container ships. 1 quay is equipped to handle Roll-on/Roll-off traffic.

STEVEDORES: Loading and discharging of ships is carried out by gangs of private workers who are engaged by the ship's Agents under the supervision of a chief stevedore. The working gangs use the ship's own equipment for loading and discharge.

Handling rates are normally about 15 t.p.h. for general cargo, or about 25 t.p.h. for heavy articles, such as drums, planks, bundles of steel rods, etc.

Normal working hours in the port are from 0700 hrs. to 1900 hrs. from Monday through Saturday. Overtime is payable for work required at other than these hours and also for work required on Sundays and holidays.

FRESH WATER: Drinking water is available alongside; however, the ship must provide its own connections. Rate of loading varies from 4 t.p.h. to 10 t.p.h.

FUEL: There is no service for coal bunkers. Fuel oil may be supplied by tanker truck.

REPAIRS: There are no proper facilities for ship's repairs although minor repairs may be effected by small private workshops ashore.

MEDICAL: There are adequate medical facilities, pharmacies and hospitals.

AIRPORT: An international airport for jet planes connects Haiti with principle U.S. and Caribbean points. A local air service connects Port-au-Prince with principal towns of the Republic.

FIRE-FIGHTING EQUIPMENT: The Port Authority has a fire fighting squad equipped for early assistance. There is a town fire service organised by the Army and working in close cooperation with the Port.

HOLIDAYS: *Legal Holidays:*

Independence Day (1st and 2nd January); Labour Day (1st May); Flag Day (18th May); Ascension Day; Assumption (15th August); All Saints (1st November); Commemoration Day (13th November); Discovery of Haiti (5th December).

Authorised Holidays:

Lundi-Gras (half-day); Mardi-Gras; Good Thursday; Good Friday; Pan-American Day (14th April); President's Day (22nd June); Dessaline's Anniversary (17th October); United Nations Day (24th October); Fete des Morts (2nd November).

SERVICES: Fresh provisions are obtainable locally.

There are no facilities for refuse collection, but nevertheless it is forbidden to throw refuse, cinders or any other polluting material overboard.

Launches used for the transport of tourists are available at Port-au-Prince and these are operated by private companies. The Port Authority does not take an active part in the traffic of tourist passengers. Those who disembark on the wharf from cargo vessels or cruising liners must make their way on foot to the taxi station to take part in excursion tours. However, the majority of tourists coming on passenger liners anchored in the roads disembark by launches belonging to the Department of Tourism. They disembark at the Quai Colomb, which is under the authority of the Department of Tourism.

SHIPMASTER'S REPORT: 1975.

Documents:

Clearance from last port.
4 Crew Lists.
4 Passenger Lists.
2 Cargo Manifests.
18 Cargo Check lists.
International Declaration of Health.
Vaccination/Inoculation List (1) with valid dates.
International Vaccination Cards, these may be examined by Port Health.

Pilotage: Compulsory, 24 hour service arriving/departing. Require ETA to Agent 24 hours in advance. Pilot Station may be contacted on voice radio 2182 kHz, 2738 kHz and VHF Channels 16 and 12. Pilots board at quarantine anchorage buoy. Pilot boat has yellow hull and superstructure, 2 ft. freeboard. "Pilot" clearly painted on hull.

Anchorages: The harbour affords good anchorage in depths of 5 to 14 fathoms, clear of the entrance ranges southward. The Quarantine Anchorage is located about 2.5 miles East-northeastward of Pointe Lamintin.

Restrictions: See Sailing Directions for Prohibited Anchorages.

Max. Size: This ship is 495 ft. in length, with 69 ft. beam, we were accommodated easily. Passengers ships of 620 ft. in length are regular callers at the port. Maximum depths at the pier is 30 ft. Mean High Water Interval at the port is 8 hours 23 minutes. Spring tides rise 1.5 ft. Currents in the approach set East in the Canal de la Gonave, and Northwest in the Canal de Saint Marc. All buoys, lights, and navigation aids are unreliable.

Health: Pratique is now granted at the dock. Ship displays "Q" flag until cleared.

Radio: ETAs to Agents/receivers are best sent through WNU (Tropical Radio) at New Orleans, Louisiana or ITT station at Lantana, Florida, these stations then telex direct. Port Pilots will relay messages to Agents on voice radio 2738 kHz. Short range reception on voice radio has been experienced.

Berthing: Main pier, has 1,700 ft. of berthing space on its Southern side with depths of 18 ft. to 29.5 ft. Ship's always berth port side to, using the starboard anchor to assist in docking and undocking. A T-head pier with a pipe-line is located 2 miles Westward of the city. Mooring buoys lie off the end of this pier. It has been reported, (unverified) that this pier accommodated a tanker 560 ft. long, with a draft of 31.5 ft. in 1957.

Stevedores: Advise Agent tons per hatch at least 24 hours prior to arrival. Maximum amount of labour is available. Rate of discharging/loading is approximately 18 to 30 tons per gang hour on sacks, bales, cases, general cargo. Work after midnight is overtime with charges quite high.

Medical: Give Agent prior notice for any required medical attention. 3 hospitals available. Minor dental work can be accomplished. International Certificates with Cholera are required.

Density: 1025 as per this ship's test.

Fresh Water: None available at this time.

Fuel: None available at this time.

Developments: A 25 million dollar port expansion and construction project commenced October 1975. This new area is located 800 ft. North of the general cargo pier. From the shore in a Westerly direction the new pier shall extend 1,685 ft. in length, 469 ft. in width, with a working apron on the South side 81 ft. from the end of the ship's side. The pier will contain 2 warehouses; one 207 ft. by 1,101 ft., and the other 180 ft. by 447 ft. The Eastern end shall have 2 separate Roll-on/Roll-off sections. A container crane on rails shall traverse the entire South side working apron, capable of loads not to exceed 30 long tons. Dredging and filling has commenced and they are working towards a 30 ft. maximum depth at completion.

Gangway/Deck Watchmen: Cost unknown, supplied by Agent. Gangway watchman is recommended. If transit cargo is pilferable, I recommend using crew members for cargo hold security.

Hatches: (Automatic hatches) opening/closing normally carried out by stevedores with crew member supervision.

Customs Allowances: Bonded stores were not sealed, store lists were not required. Ship allowed each crew member 200 cigarettes. Local Customs Officials make no special requirements.

Cargo Gear: All loading/discharging by ship's gear. Fork lifts are available. There is a shortage of pallets and railroad flat cars which are used to accept cargo direct from the ship's gear on the dock. Warehouse space is limited.

Identification Cards: Shore passes not required, none issued by local authorities.

Consuls: United States of America; Panama; Lebanon; Republic of China, France.

Repairs: No facilities available.

Dry Docks: None available.

Repatriation: Possible.

Airport: 1 major airport. Located 40 minutes from the port area. Daily flights to North America. (Miami and New York)

Time: GMT plus 5 hours. No alterations to clocks during the year.

Holidays: December 5th Columbus Exploration Day; Christmas, New Year's Eve, New Year's Day. Cargo work can be arranged on most holidays at overtime rates.

Police/Ambulance/Fire: Utilise Agent for emergencies of this type, or have watchman make use of telephone from dock. "Fire". There are no international hose fittings on the dock, and limited means of handling shipboard fires from ashore.

Telephones: None available for placement on board the ship.

Services: Special services non-existent.

Shore Leave: Crew members are allowed ashore. No curfews, no passes required.

Port Regulations: Nothing unusual or out of the ordinary.

Delays: Possible berthing delays exist due to ship congestion. Delays in discharging may occur due to lack of warehouse space, pallets, or rail cars.

Agents: Agents and most officials including watchmen and stevedore supervisors speak English. All official documents and ship's clearance papers are written in French. The language spoken is predominately French (patois) with inflections that are easy on the ears, but difficult to utilise operationally.

AUTHORITY: Autorite Portuaire Nationale, Port de Port-au-Prince, B.P. 616, Port-au-Prince, Haiti.

NOTES

Please also advise Shipping Guides Ltd.

Honduras

GENERAL

DOCUMENTS:

Consular Documents:

Masters shall submit for certification to the Honduran Consul or Consular Agent residing in the port of loading 4 copies of the general manifest of goods carried for the Honduran port to which it is bound. 3 copies are to be left with the Consul or Agent, and 1 copy, with the certification and receipt to be provided by the Honduran official, is to be retained. The Consul will retain 1 copy in his files, the other 2 shall be sent by the earliest mail to the Secretariat of the Treasury and the Customs Administrator.

Prior to arrival:

Arrival notice:

The chief of operations of the National Port Authority (ENP) must be notified in writing no more than 24 hours and no less than 8 hours in advance, of the time and date of the vessel's arrival. This notice is received on working days up to 1600 hrs., but for holidays, the request must be submitted the day before up to 1100 hrs.

The Captain of the Port, Customs, Migration and Maritime Health must be notified of the arrival within the same period indicated above.

Information on cargo for the port:

If available, the following documents must be submitted: 4 copies of the cargo manifest, a set of bills of lading, 3 copies of the cargo list, 3 copies of the container contents list, and information on the cargo to be loaded. In addition, the following copies of the cargo index must be provided, according to the type of goods: 4 to 6 for Customs, 14 to 18 for the National Port Authority; 1 for each depot of the agency to take part, and 1 for general control.

The ENP also allows this information to be submitted after the official visit (boarding party).

Port services request:

The arrival notice submitted to the ENP also serves as a request for pilotage, docking and port services.

On arrival:

Type of Documents	*Number and Distribution of Documents*					
Basic Forms	*Port Captain*	*Customs*	*Migration*	*Maritime Health*	*Agriculture Inspection*	*Total*
General Declaration	1	1	–	–	1	3

Clearance from Last Port	1	–	–	–	–	1
Visaed Clearance from Last Port	–	1	–	–	–	1
"No Passengers" Declaration	1	2	1	–	1	5
List of Passengers In-Transit or "No In-Transit Passengers" Declaration	1	2	1	–	1	5
Cargo Manifest (b)	–	1	–	–	–	1
Crew List (b)	–	1	–	–	–	1
Passenger List (b)	–	1	–	–	–	1
Ship's Stores List (b)	–	1	–	–	–	1

a. Submitted to the shipping Agent.
b. With Consular visa.

Prior to departure:

Clearance must be requested from the Captain of the Port, on a special form at least 2 hours before the vessel's estimated time of departure. The form must be cleared by the Customs Chief of Exports and the Customs Administrator, therefore copies of the export cargo manifest must be submitted to Customs.

In the case of the terminals of Puerto Cortes, 30 copies of all documents are prepared, of which the vessel carries (aside from the original sailing permit and the maritime health declaration) an original and 24 copies of the cargo manifest (or ballast manifest), the crew list, passenger list, the mail and firearms list, the ship's stores list, and 2 sets of the bills of lading.

In addition, when the ship sets sail, 3 freighted cargo manifests, 2 sets of the bills of lading, a crew list, a passenger list, a mail and firearms list, and a ship's stores list must be submitted to the Chief of Docks. A copy of each of the following documents must be submitted to the Maritime Guard: sailing permit, cargo manifest, crew list, mail and firearms list, and ship's stores list.

When the ship leaves for Guatemala, it should have 34 copies of all documents, because 4 copies are submitted to the Consul.

For ships leaving for the United States, the clearance document is in Spanish, with 6 copies to be distributed locally, plus 18 copies of the cargo manifest, in English, of which 16 are carried on board ship, 1 copy is sent to San Pedro Sula and the other remains in possession of the shipping agency.

Request for pilotage:

Requests for pilotage and unberthing of the vessel are submitted to the National Port Authority at least 2 hours before clearance.

AMAPALA: 13.18 N. 87.39 W.

COMMERCIAL OPERATIONS AT THIS PORT HAVE BEEN SUPERSEDED BY THE NEW PORT OF SAN LORENZO

LA CEIBA: 15.46 N. 86.50 W.

SHIPMASTER'S REPORT: 1979.

DOCUMENTS:

10 copies of Crew List
6 copies of Store List
6 copies of Bonded Stores List
4 copies of Vaccination List
Mail Report
Passenger Report

PILOTAGE: Compulsory. Pilot boards 0.5 miles from the pier. 2 hours' notice required.

ANCHORAGE: Good anchorage 5 cables, 129° from pier, depth of water 40 ft.

RESTRICTIONS: Vessels able to berth and unberth at any stage of the tide day or night. Limiting factors are length and forward draft of vessel.

MAX. SIZE: Max. LOA 600 ft. However, the after end of the vessel would overhang end of berth (This vessel loaded to 23 ft. draft).

HEALTH: Quarantine Officials operate between 0600 hrs. and 1800 hrs. 2 hours' notice of arrival required.

RADIO: HRW – Standard Fruit operate from their own radio station. They handle vessel's traffic on 6350.5, 8560 and 12750 kHz. They also listen on 500 kHz and 8 MHz.

Hours of Operation: (GMT) 1355 – 1410, 1455 – 1510, 1555 – 1610, 1955 – 2010, 2055 – 2110 and 2355 – 0010.

VHF: The Agent is on Channel 16.

TUGS: Not available. Vessel is able to dock and undock without assistance of tugs.

BERTHING: One berth only available which is a finger type pier at right angles to the shore. Nature of the bottom at the berth is sand. Vessels normally berth port side to, and load through the side doors.

Mooring gang (6 men) come aboard with the Pilot to assist. The bananas are loaded direct from the rail cars using spiral elevators. It is usual to load all decks at the same time.

There are no facilities for handling bulk cargoes or Ro/Ro vessels. There are no shore cranes or floating cranes. There is no storage space for breakbulk cargo or palletised cargo.

Fendering: Pier fendered with the usual Standard Fruit type fendering, vertical uprights on a horizontal "V" bellows on horizontal girders.

CHARTS: B.A. Chart No. 513 (Isla Roatan to Puerto Cortes) and U.S.G. 5393 (positions on this chart are 2.5 miles W.S.W. of B.A. chart).

CONSULS: None.

SERVICES: Fresh water, fresh provisions, airport, telex, doctor, hospital, groceries and meats all available.

Labour: Shore labour is available for contract work such as scavenge cleaning, hull painting, etc. The work carried out during our stay was satisfactory and the rate for the foreman was US $1.50 per hour and workmen US $1.00 per hour.

AUTHORITY: Empresa Nacional Portuaria, Apartado Postal No. 215, La Ceiba, Honduras, Central America. *Tel:* 42-2712 (Superintendent), 42-0297, 42-0394, 42-0397, 42-2044. *Telex:* 8007 Enaporto Ho. *Cables:* Enportuaria. *Contact:* Roberto Dip H., Port Superintendent.

PUERTO CORTES: 15.50 N. 87.55 W. (See Plan Book)

DOCUMENTS:

Health Declaration, 2 copies.
Zarpe or Clearance Permit from the Last Port.
General Cargo Manifest (in ballast if that is the case) of all the cargo to be discharged in Puerto Cortes, 14 copies.
Crew List, 10 copies.
Passengers in transit, or no passenger declaration, 10 copies.
Derat Certificate, only if first on board call.
Stores List, 8 copies.
Mail Sacks declaration (negative or positive).
Bills of Lading, 3 complete sets.
Hatch list, 5 copies.
Tally Books, 15 copies.

All the original documents must be signed and stamped by the Honduran Consul at the port before calling Honduras and should be made out in Spanish. Documents for cargo destined to any Honduras Free Zones need not be signed by Honduras Consul.

If no consul of Honduras available, documents to be legalised by consul of a friendly nation or by the Chamber of Commerce, stating the facts.

PILOTAGE: Compulsory for vessels over 300 g.r.t. ETA to the Agent, 72, 48 and 24 hours ahead of arrival required. Pilot on VHF Channels 16 and 6.

ANCHORAGES: Once the ship enters the bay, *if no berth space has been notified to the Master,* she should anchor at a distance beyond 0.5 miles from the nearest pier, and wait for the boarding of the official party in order to be granted free pratique.

RESTRICTIONS: Vessels may enter the port day or night but are not visited by Port Authorities between 2000 hrs. to 0600 hrs., except in special cases.
MAX. SIZE: Dry cargo vessels up to 30 ft. draft. Tankers up to 30 ft. draft.
HEALTH: Pratique granted after Port Authorities (including doctor) board vessel, between 0600 hrs. – 2000 hrs. Pratique granted if no contagious illnesses aboard, otherwise quarantine restrictions imposed. No automatic free pratique when arriving from another port in Honduras.

All crew members to be vaccinated against yellow fever and smallpox. Vaccinations not available in Honduras.
RADIO: Port Authority operates a station HQSU, monitoring 2738 kHz, but by arrangement can reply on other frequencies. Telegrams to be routed via Hondutel. Lantana WOE, New Orleans WNU, Limon TIM, Balbao NBA and Miami WAX.

Ship's radio not to be used in port except for communication with the port authority. Vessel is fined if there is a violation. Also see "VHF".
VHF: Puerto Cortes Radio: Call sign "Cortes Radio". Channel 16.
Hours: Weekdays 0600–2200; Saturdays 0800–1200 and Sundays 0600 – 1200, 1300, 1700, 1800, 2200, every week except January 1st, Good Friday, May 1st and December 25th.
BERTHING: The Agent to supply information as to berth, and time of docking. Pilot will board the vessel and berth it, assisted by a launch to pass ropes. Departure should be effected when the despatch documents are on board and operations finished.

Pier No. 1 (Texaco Pier), for tankers or ships loading diesel or lub-oil; max. draft 30 ft.
Pier No. 2 (Banana Pier) length is 810 ft., depth 24 ft.
Pier No. 3 (General Cargo and Ro/Ro Pier) 630 ft., depth 30 ft.
Pier No. 4 (General Cargo and Ro/Ro Pier) Length 1,112 ft., depth 30 ft.
Pier No. 5 (Container Terminal, it also handles dry bulk cargo) length 1,127 ft., depth 33 ft.

CRANES: One P & H 125 ton capacity crane, one Paceco Container Crane 45 ton capacity at No. 5 pier and eight cranes of varying capacities.
BULK CARGO FACILITIES: Pier No. 5 (Container Terminal) is used as a multi-function pier, it is used to handle grain, ores, fertilisers and bulk sugar. It is large enough to be able to handle both operations simultaneously.
STEVEDORES: Vessels must give accurate ETA at least 24 hours in advance to enable Agents order necessary gangs. Gangs ordered 0700 and 2100 hrs. working 12 hours (daytime) and 9 hours (night-time) excluding the meal hours (0600–0700; 1200–1300; 1700–1800 and 2300–2330). No work on Holy Friday, May 1st (Labour Day), on other holidays work is possible with double payment.
MEDICAL: No advance notice necessary for medical attention, except in very urgent cases. At San Pedro Sula (35 miles by road) very good medical service can be obtained but several medical clinics are serving this Port. No inoculations required but Master should possess International Health Cards for each member of crew.
TANKERS: Discharge at Texaco Oil Refinery, cable address "Reftexa". Also see "Shipmaster's Report" – June 1981.
DENSITY: 1028/1030.
FRESH WATER: Water available at wharf face at 100 ft. intervals. Rate approximately 8 t.p.h. – 10 t.p.h. However, it is advisable to arrive with sufficient water as there is a shortage due to a recent earthquake.
FUEL: All grades available. 24 hours notice is required for good service.
GANGWAY/DECK WATCHMEN: Shore watchmen not usually required and this service left to discretion of the Master.
OPENING/CLOSING HATCHES: On liners normally by crew with assistance of stevedores, otherwise according Charter Party.
CERTIFICATES: On first call, Registered Tonnage Certificate; thereafter not required unless gross/net tonnage be changed.
CUSTOMS ALLOWANCES: No restrictions, free use on board. Customs officials check no sales ashore.
IDENTIFICATION CARDS: Identification card must be shown to gate watchman when crew members come back aboard.
CONSULS: None in the port. American Consulate and others at Tegucigalpa, 200 miles by road.
REPAIRS: Local marine repair companies can undertake limited repairs of general nature; pre-advice recommended.
REPATRIATION: All facilities available for effecting crew changes and repatriation by sea or air.
AIRPORT: International Airport Ramon Villeda Morales served by regular airlines. 35 miles by road.
TIME: GMT minus 6 hours, no changes during year.
HOLIDAYS: January 1st; April 14th; May 1st; Thursday, Friday and Saturday in Easter week; August 15th; September 15th; October 3rd, 12th and 21st; and December 25th. Cargo work can be arranged on those days, except on Good Friday, and May 1st (Labour Day).
TELEPHONES: Connections to all countries of the world from the Empresa Hondurena de Comunicaciones, located just outside main port gate, cable services also available.
SHORE LEAVE: Permitted without restrictions.
GENERAL: It appears that many of the stowaways discovered recently, are seafarers with a good knowledge of where to conceal themselves.

Local authorities are taking steps to restrict access to vessels by unauthorised persons, but Masters should take special precautions in this respect.

SHIPMASTER'S REPORT: September 1978.
Pilotage: Pilotage compulsory. Pilot boards 2–4 cables off the berth, advance notice of 72, 48, and 24 hours required.
Restrictions: Vessels can enter and leave at any stage of the tide day and night. Vessels are able to leave the berth in an emergency without use of Pilot if a tug available. Least depth of water in channel from sea to berth about 35 ft.
Max. Size: LOA 600 ft. Depth of water at banana berth is 33 ft. forward and 38 ft. aft. Max. draft 30 ft. There is a shoal patch about 150 ft. ahead of the berth.
Health: Authorities require 72, 48 and 24 hours notice of arrival.
Radio: Radio stations used when approaching the port were "WNU" and "TIM".
VHF: Port Authority, Pilot and Agent on Channel 16. Channel 14 also available.
Tugs: There are 2 tugs available, each 1,250 h.p. Vessels are able to dock and undock without the use of tugs.
Berthing: Banana Pier – Position 15° 50.05′ N., 87° 57.35′ W. Distance from berth to entrance 2 miles. The nature of bottom at the berth is coral, mud and sand. Prior to arrival it is an advantage to have all derricks up as various equipment has to be brought on board.

Always starboard side alongside, starboard side banana lids can be opened on all decks prior to arrival.

The banana elevators are extremely close to the quay side and usually moved to the East end of the berth for docking purposes, but as vessel is making fast they are moved into position. Leave starboard gangway turned in until alongside and elevators moved. It is a good idea to turn in overside light fittings and on no account have a starboard list. The bollards are situated on the edge of the quay. The quay is concrete with wooden face, only about 1.5 ft. above the water.

Fresh water was limited due to recent hurricane and repairs to the water line, however 100 tons was obtained.

Four elevators used for loading. Work carried out around the clock, best hatch rate 48 t.p,h,

Ro-Ro facilities available, vessel moors with 2 anchors and stern to the quay. There are facilities for handling containers. Presently the container area is being expanded.
Currency: Lempiras. Two to the U.S. Dollar. If cable sent in advance U.S. Dollars can be obtained.
Diversion: Agents request, if diverted to a Honduran port, a diversion cable must be sent to the Agents of that port giving time/date/nationality/port of departure/and ETA. (This helps Agents with the documentation).
Medical: Doctor and hospital available.
Tankers: The Texaco Pier accepts tankers with a draft of 30 ft.
Fresh Water: Available.
Fuel: Bunker fuel, diesel oil and lubrication oils available.
Density: 1025.
Repairs: Facilities available for small repairs.
Surveyors: Available.
Services: Fresh provisions, groceries, meats and laundry services available. Contract work such as deck and engine room cleaning and painting can be undertaken, however, prices of contractors should be compared.

SHIPMASTER'S REPORT: June 1981.
Berth: Texaco Refinery.
Arrival Draft: Forward 33 ft. 01 in., Aft 33 ft. 01 in.
Density: 1025.
Hoses: 1×6 in. and 2×8 in. clean products; 3×8 in. dirty products.
Pumping Distance: 4,000 ft.
No. of Berths: One.
Tidal Restrictions: None.
Bunker: Bunker "C" and diesel oil.
Bunkering Rate: 2,000 b.p.h.
Depths at LW: Bow, 33 ft.; stern, 40 ft. (by sounding).
Max. Size: LOA 700 ft., beam 90 ft., draft 33 ft.
Products Handled: Crude oil, fuel oil, diesel, kerosene.
Loading/Discharging Rate: 18,000 b.p.h.
Fresh Water: Limited supplies.
Ballast Facilities: None.
Distance from Sea to Berth: 2 miles.
Channel: Width 2,000 ft., minimum depth 35 ft.
Current: Variable/strong.
Docking/Undocking: Any time.
Tug: One required docking and undocking.
Depth Alongside: Minimum 37 ft.
Silting: Rapid.
Bottom: Sand.
Total Length of Dock: 250 ft. Condition: Good/moderate.
Chart: DMA 28000, 28160, 28162, 28163 or HON. 002 – 003.

SHIPMASTER'S REPORT: August 1981.

Entrance recommended via buoyed channel close to Punta Cabballos light which is normally unlit and has NO radio beacon. Pilot will board one mile North of channel if requested via VHF Channel 16. Large vessels are instructed by Port Authorities to anchor at least 0.75 miles from piers. One tug only is available – 900 h.p. approx.

Fresh water at banana pier strictly limited to 50 tons per vessel. Launch service available to vessels at anchor, cost $10 per trip.

AUTHORITY: Empresa Nacional Portuaria, P.O.Box 18, Puerto Cortes, Honduras C.A. *Tel:* 55-0326. *Telex:* 8007 Enaporto Ho. *Cables:* Enportuaria. *Contact:* Enrique Vitanza F., General Manager.

SAN LORENZO: 13.25 N. 87.27 W. (See Plan Book)

LOCATION: On the mainland of the Pacific Coast of Honduras near to the city of San Lorenzo, Valle.

PORT LIMITS: *Port Jurisdiction:* Lat. 13° 21′ 51″ N., Long. 87° 26′ 15″ W. Lat. 13° 24′ 51″ N., Long. 87° 25′ 13″ W.

Laytime: In the opinion of the Agent laytime will commence when vessel received by Port Authorities and pratique granted. Vessel will be received when docked or at anchorage in the port (but not at pilot station).

DOCUMENTS: List of documents requested on arrival of vessels at the port of San Lorenzo (all documents must be written in Spanish and without these documents serious delay of starting operations on board vessel are foreseen).

	Port Doctor	Captain	Port Authorities	Customs	Food Inspector	Immigration	Agency	Agency by Mail

Documents 1/2/3/4 – only from last port.

Documents 5/6/7/8/9/10/11/12/13/14 – from all ports where cargo has been loaded.

If the vessel will arrive without cargo for the port of Amapala/San Lorenzo documents as stated Ballast and Manifest (Manifiesto on Lastre) from the last port only before arrival are requested.

Leg.* = Legalized by Honduras Consul – or by consul of a friendly nation.

If there is no consul of any friendly nation, by Port Captain, BUT in this case one copy of each manifest should be sent to: Secretaria de Economia y Hacienda, Tegucigalpa, D.C. Honduras CA and to Administracion de Aduanas, Amapala, Honduras C.A. by airmail and certified.

PILOTAGE: Compulsory. Distance from sea buoy to berth – 16 nautical miles.

Pilot station at San Lorenzo is last buoys painted black/white in position: Lat. 13° 12′ 03″ N., Long. 87° 35′ 15″ W. Pilot will board the vessel about 1.0 miles – 1.5 miles South of the Sea Buoy, after coming down the Bay from San Lorenzo for about 2 hours' cruise by pilot boat.

Pilot recommends the best arrival time at Sea Buoy to be 3 hours prior to HW.

Two hours before arrival pilot station vessel must call Agent's office at San Lorenzo via VHF Channel 10 in order to send Pilot.

Pilot boat has white and green upper works, black hull with the word "San Lorenzo" on poop. Pilot boat on VHF Channel 16.

ANCHORAGE: Buoy in position: Lat. 13° 12′ 03″ N., Long. 87° 35′ 15″ W.

RESTRICTIONS: All incoming vessels must wait at the Sea Buoy located at the entrance of the access channel, where vessels will be boarded by the Pilot.

The access channel to the port of San Lorenzo is being provided with light buoys however, vessels may only berth/unberth during daylight hours. This is due to the tide variation and the prevailing fog in the channel at night. The seaward buoy is the pilot station. Depth of access channel at LW is 30 ft., width 122 m., and length 30 km.

MAX. SIZE: Depth alongside 32 ft. at LW. Vessels with draft 23 ft. may enter/sail at any time and vessels with draft 30 ft. – 31 ft. at HW.

HEALTH: If no disease on board reported by Master, no special procedure necessary.

The local authorities require all Crew members of vessels visiting Honduras to have valid vaccination certificates against yellow fever and cholera.

Such vaccinations are not available in Honduras and Crew members should be vaccinated at a convenient port prior to calling at Honduras.

RADIO: No radio station at San Lorenzo.

VHF: A continuous watch is maintained in office hours on Channel 16, after hours and on holidays, the watch is intermittent.

All calling should be on Channel 16. Tug works on Channel 12. Intership working is on Channel 6. Agents on Channel 10.

TUGS: One tug available. Tug normally join the ship about half mile from the berth. Use of tug compulsory.

BERTHING: "T" shaped pier with 4 berthing places.

Berth No. 1: 157 m. long. Depth alongside 10.67 m.
Berth No. 2: 139 m. long. Depth alongside 10.67 m.
Berth No. 3: 116.43 m. long. Depth alongside 6.70 m. (Inner).
Berth No. 4: 134 m. long. Depth alongside 6.70 m. (Inner).

Equipment: 2 cranes capacity 30 tons and 25 tons. One additional 140 tonnes crane is planned. 10 fork lifts, 6 × 6,000 lbs.; 4 × 15,000 lbs. 4 yard trucks.

Facilities: General Cargo Warehouse: 2,408 sq.m.; Lumber Shed: 1,204 sq.m.; Piling Sugar Warehouse: 3,072 sq.m. (10 tons capacity); Open Side Warehouse, for cotton: 1,806 sq.m.; 2 molasses tanks, capacity 1 million gallons; open storage 32,913 sq.m.

STEVEDORES: Arranged by Agents, working around the clock with breaks for meals.

Shifts: 0700 – 1200, 1300 – 1700, 1800 – 2300 and 2400 – 0600 hrs.

Cargo Handling Rates:

Resin:	15 tonnes per gang/hour.
Coffee:	30 tonnes per gang/hour.
Lumber:	20 tonnes per gang/hour.
Timber:	25 tonnes per gang/hour.
Cotton:	15/20 tonnes per gang/hour (100 bales).
Molasses:	145 tonnes per hour.
Sugar:	50 tonnes per gang/hour (2 gangs).
Meat:	10 tonnes per gang/hour.
Cars:	15/20 per hour.
General cargo:	8/10 tonnes per gang/hour.
Cement:	30 tonnes per gang/hour (in bags).
Wire/iron bars:	40 tonnes per gang/hour.

MEDICAL: Nearest hospital in Choluteca City, 30 minutes by car. Minor cases can be attended by doctor at San Lorenzo.

TANKERS: No facilities.

FRESH WATER: Good quality potable water available in unlimited quantities.

FUEL: Only if required, and if sufficient notice given to the Ship's Agency.

CONSULS: Consulates exist for the following countries:

Nicaragua, El Salvador in Choluteca City, 30 minutes by car from San Lorenzo.

Consulates for other countries in Tegucigalpa, the capital, (90 km.) 2 hours by car from San Lorenzo.

REPAIRS: Not available.

DRY DOCKS: None available.

GANGWAY/DECK WATCHMEN: Not recommended and not necessary.

HATCHES: By stevedores.

CUSTOMS ALLOWANCES: Tobacco/Wine; spirits are not allowed to be held out of bond.

REPATRIATION: Immigration Offices in town and in Tegucigalpa. Flights leave daily from Tegucigalpa. (90 km. from San Lorenzo).

AIRPORT: In Tegucigalpa, 90 km., 2 hours by car. Connections to Miami/New Orleans/Houston/Panama/Mexico and all Central American countries.

HOLIDAYS: January 1st, April 14th, May 1st, August 10th, September 15th, October 3rd, 12th and 21st, December 25th and Thursday, Friday and Saturday of the Easter week.

Work can be arranged excepting May 1st, September 15th and Holy Friday during Easter week.

SHORE LEAVE: Allowed. Restrictions placed on crew from some countries. Crew members to shore passes.

TIME: GMT minus 6 hours, no alteration during year.

TELEPHONES: None.

STORING: See "Prelims" page viii.

1. Vessels are stored by truck.
2. Trucks can proceed alongside the berth.

3/4. Fork lift trucks can be used on the jetty to handle stores. Truck must be hired.

5. There is no Custom Regulation in force regarding storing.
6. Local riggers can be employed to assist with storing.

SURVEYORS: Not locally available but can be called through Agency. Lloyd's Sub-Agency San Lorenzo, c/o Servicios Portuarios SA, San Lorenzo, Honduras, C.A.

EMERGENCY CO-ORDINATION CENTRE: Firstly Port Superintendent must be called using VHF Channel 16. Also Honduran Coast Guard can be called on the same Channel.

BANKS: At Tegucigalpa: Bank of America, Bank of London & Montreal, Banco Atlantida and Banco Ahorro Hondureno.

GENERAL:

Chart: Honduras Chart No. 004.

Tidal Variation: 2.5 m. – 4.0 m.

Prevailing Winds: From South and East.

Flags: Flags required:

1. The country's flag where the ship is registered.
2. The Honduran flag.
3. The yellow (Quarantine) flag (according to the case).
4. The red flag (according to the case).

AUTHORITY: Empresa Nacional Portuaria (E.N.P.), San Lorenzo, Valle, Honduras. *Tel:* 92. *Telex:* To be installed. *Contact:* A. Andres Casco, Port Superintendent.

AGENT: Servicios Portuarios, S.A. (SEPOSA) POB 35 Tegucigalpa, D.C., Honduras. Telex 1183 Uhler Ht or 4003 Seposa Ho. Tel: 22-8000, 22-5409.

TELA: 15.47 N. 87.30 W. (See Plan Book)

DOCUMENTS:

1 original Clearance
1 „ Health Certificate.
1 „ 12 copies Manifest.
1 „ 11 „ Cargo Book.
1 „ 8 „ Store List.
1 „ 8 „ Crew List.
1 „ 8 „ Passenger List.
1 „ Baggage.
1 „ Voyage Memorandum.

All documents must be in Spanish; Cargo Book should be in alphabetical order.

PILOTAGE: Permanent Pilot not available but can be supplied upon request. There is a small boat that assists docking by handling mooring lines from vessel to wharf. 48 hours advance notice of ETA required.
ANCHORAGES: 1 mile out from wharf, 100 ft. or more; no boundaries.
MAX. SIZE: Max. permissible length 485 ft., breadth no restrictions, draft 30 ft.
Shipmaster's Report: August 1981.

Max. length possible 569 ft. on draft of 25 ft. 6 in.
HEALTH: Agents arrange pratique; in case of disease or fever aboard, the vessel will be placed in quarantine for a minimum of 5 days.

Valid Vaccination Certificates against yellow fever and cholera required. These vaccinations are not available in Honduras.
RADIO: WNU New Orleans and TIM Puerto Limon via Tropical Radio.
VHF: Base Station call sign "Telarailco Tela". A continuous watch is maintained from 2 hours prior to vessel's arrival. All calling should be on Channel 16.
TUGS: No tug available.
BERTHING: Time for berthing is from 0600 hrs. to 2000 hrs.
General Cargo Berth: East side of pier, starboard side alongside.
Banana Berth: West side of pier, port or starboard side alongside, depending on which side elevator space is required (See "Shipmaster's Report" – 1979). 4 elevators available, type camel back. Rate per elevator 3,500 boxes per hour.
Depths: West side has 35 ft. depth at the northern point, 32 ft. in the middle and 27 ft. 6 in. at its southern end, while the east side has 35 ft. depth at its northern point, 33 ft. at the middle and 30 ft. at its southern end.
STEVEDORES: ETA advice should be given 48 hours prior to arrival in order to arrange gangs. Labour rates are subject to surcharge of 25%, 50%, 75% and 100% to cover overtime, depending on hour or day worked.

Gangs: For bananas: 180 men, 3 gangs. General cargo: No restrictions.
MEDICAL: Hospital facilities available.
TANKERS: Discharging lines only, crude 12 in., diesel 6 in., spray oil 6 in. Berth available for 1 tanker, max. permitted draft 30 ft.
DENSITY: Average density in port is 1029.
FRESH WATER: Delivered by hoses at rate of 100 gallons per minute.
FUEL: Available, rate 250 t.p.h.
FIRE PRECAUTIONS: Extinguishers and water hoses available.
GANGWAY/DECK WATCHMEN: Watchmen can be obtained at daytime rates plus 25%, 50%, 75% and 100% to cover overtime, depending on the hour or day worked.
OPENING/CLOSING HATCHES: Work done by stevedores.
CERTIFICATES: Health and derat certificates needed.
CUSTOMS ALLOWANCES: 1 carton cigarettes and 1 bottle wine or spirits for each man.
CARGO GEAR: Must have current valid certificate for ship's gear.
IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: Only minor repairs.
REPATRIATION: Repatriation can be made on request by Master.
AIRPORT: Distance from wharf to airport is about 80 km. served by regular airlines; 4 flights per day which connect with Pan Am every day.
TIME: GMT minus 6 hours.
HOLIDAYS: January 1st, work possible; April 14th, work possible; May 1st, not possible; September 15th, work possible; October 3rd, work possible; October 12th, work possible; October 21st, work possible; December 25th, work possible. Thursday, Friday and Saturday of Holy Week – work possible except Friday.
POLICE/AMBULANCE/FIRE: Contact telephone operator.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: Ship chandler and launch service available.
GENERAL: Ships must have Honduran flag on board.
SHORE LEAVE: Crew members allowed ashore, providing they do not have any diseases.
DELAYS: Delays can be expected any time there are 2 ships docked.

SHIPMASTER'S REPORT: February 1979.
Contrary to the previous information on this Port, "Vessel" berthed starboard side alongside.
Pilots: None available at present.
Berthing: Used port anchor, head out. The mooring boat meets vessel at the end of the jetty. It is a white painted boat with a small cabin. Very helpful in assisting with the lines, going from forward to aft as required. It is of great advantage to have a mooring rope on the fore deck starboard side, ready to lead forward as due to the Northerly wind and swell, vessel soon drops astern.

The beach shelves fairly fast, and with a ship of this length (575 ft.) a good guide is not to let the bow pass the end of the jetty. A depth of 24 ft. was recorded when sounding round when alongside, only 30 ft. astern of the ship.

The jetty itself has a sprung centre of about 350 ft. long with rubber tyres along same, unfortunately secured by chains which ruins the overside paintwork when the ship surges in the swell.
Additional moorings: The Tela Rail Co. is at present renewing the coir springs on the berth. The shore labour assisted at all times with the moorings as the ship was loaded, also when shifting ship at midnight.
Cargo Gear: The shore side derricks have to be "Doubled up". The existing runners doubled back and shackled to the preventer lug and a snatch block used. It is one straight lift and pulled on board by the single runner on the off-side derrick. The "Hallen" was used at No. 4 hatch but the preference was to use "Double Gear" at No. 3. The "Lift aboard" elevators are 3.7 tonnes, but at the jetty end they run on a steel roller, which is placed on a large steel plate.
Loading: Vessel loaded all hatches, No. 5 being through the side doors and later when No. 1 had finished vessel shifted ahead to give more depth of water aft. Due to a labour shortage we only loaded any three hatches at one time.

Cargo is brought onto the pier by train with several small shunts a shift, very little time lost during shunts.
Fresh Water: Available at slightly differing pressures, rate varies between 5 and 7 tonnes per hour.
Labour: All key personnel speak very good English and are extremely helpful. It is not necessary to keep crew on "Captive Time" for shifting ship during the night, Foreman and labour are only too pleased to assist.

SHIPMASTER'S REPORT: August 1981.

Engines should be kept at immediate notice while alongside, especially from December till May as swell may increase with little warning.

Shore labour for deck/engine room cleaning and painting are readily available.

Two mooring buoys shown on U.S. and B.A. charts to West of piers DO NOT EXIST.

Contact: F. A. Betancourt, Port Superintendent.

Head Office: Apartado Postal No. 30, San Pedro Sula, Cortes, Honduras, C.A. *Telex:* 5532 Trailco Ht.

NOTES

Please also advise Shipping Guides Ltd.

Hong Kong

HONG KONG: 22.18 N. 114.10 E. (See Plan Book)

HARBOUR LIMITS: (Approximately): Western Entrance – the N.S. line between S.E. extremity of Tsing Yi Island and the flashing light at S.W. corner of Green Island. Eastern Entrance – the N.E./S.W. line between the on-shore FL.W and the FL.R lights either side of the Lei Yue Mun Pass.

DOCUMENTS:

Marine Department (arrival)

Marine Department Shipping Report (Form MO. 618).
Certificate of Registry and/or Tonnage Certificate.
Certificate of Fitness (all vessels carrying chemicals in bulk if applicable).
Passenger ship: Safety Certificate.
Passenger or cargo ship: Load Line Certificate.
Cargo ship: Radio Certificate.
Cargo ship: Safety Equipment Certificate.
Cargo ship: Safety Construction Certificate.
Ship's Articles of Agreement with the crew (if the ship is British, or is a foreign ship belonging to a nation not represented by a consul in Hong Kong).
1 copy Safety Manning Declaration.
Derat Certificate or Derat Exemption Certificate.
1 copy of the ship's Passenger List (if specifically requested).
Clearance Certificate from the Last Port.
1 copy of the Import Cargo Manifest (if specifically requested).
5 copies of the Dangerous Goods Manifest (if applicable).
Compulsory Insurance Certificate (Tankers).

Note: All the above documents/forms must be submitted to the Ocean Shipping Control Section, Entry and Clearance Office, of the Marine Department within 24 hours of a ship's arrival with the exception of the Dangerous Goods Manifest which should be submitted at least 48 hours prior to the vessel's arrival.

Marine Department (departure)

Application for Port Clearance (Form MO. 618).
5 copies of the ship's export Dangerous Goods Manifest (if specifically requested).
1 copy of the ship's Export Cargo Manifest (if specifically requested).

Port Health Officer (arrival only)

Maritime Declaration of Health.
1 copy of the ship's Passenger List.
1 copy of the Crew List.
Derat Certificate or Derat Exemption Certificate (whichever is applicable).
International Vaccination Certificate against smallpox for each passenger and Crew member on board who has, within the preceding 14 days visited a smallpox infected country.

Note: The above documents/forms must be produced for the inspection of the Port Health Officer on boarding at the quarantine anchorage.

Department of Trade, Industry and Customs (arrival and departure)

2 copies of the ship's Import/Export Cargo Manifest. 1 copy for Manifest Check Section, Trade Licensing Branch, 14th Floor, Ocean Centre and the other 1 copy for Manifest Section, Industry and Economic Division, Census and Statistics Department, 20th Floor, Kai Tak Commercial Building.
1 copy of Import/Export Statement in respect of dutiable goods (Forms TIC 309 and TIC 309A).
2 copies of the declaration in respect of dutiable stores required during a vessel's stay in port (Form TIC 303).

Immigration Officer (arrival)

2 Transit-Passenger Lists.
2 Landing-Passenger Lists.
3 Crew Lists.

Note: The above forms must be produced for the inspection of the Immigration Officer on boarding after the ship has been 'cleared' by the Port Health Officer.

Immigration Officer (departure)

2 Lists Passengers boarding.
2 Lists Transit Passengers.
2 Crew Lists.

Post Office (arrival only)

1 copy of the Ship's Mail Manifest.

Hong Kong Police

1 copy of The List of Arms and Ammunition on board (Nil return required) to be handed in at the Entry and Clearance Office with Marine Department papers.

ARRIVAL ADVICE: It is mandatory for Shipmasters to cable MARDEP Hong Kong 24 hours before arrival requesting permission to enter Hong Kong waters and advising ship's name, nationality, type of vessel, total number of persons on board, ETA abeam of Waglan Island and reason for call. It is not permitted to enter Hong Kong waters until permission has been granted. It is mandatory for all vessels over 300 tons gross to carry VHF radiotelephone capable of operating on Hague Plan frequencies and to make contact with the Port Communications Centre on Channel 12 before entering Hong Kong waters and thereafter at specified calling points. They should report their position, ETA at pilot station, final berth, and intended route inwards, East or West. If entering from the East then the vessels mast height above the water should also be reported. (This is needed for information to the airport where the runway extends close North of the Hung Hom fairway). Shipmasters are also asked to report any other relevant information such as dangerous goods on board. If the vessel is taking a Pilot, reference should be made to the 'Sailing Directions' in the China Sea Pilot Vol. I, with regard to the positions of the pilot stations, and Pilots should only be embarked or disembarked at these points. Additional radio reports to MARDEP during the vessels inward or outward passage aid in the safe movement of all vessels in the port and approaches.

APPROACHES: A. (Dry-cargo and container vessels): The approaches are reasonably free from hazards and are well marked by day and night. Vessels working at buoys with drafts up to 11.2 m. are requested to enter port via the Western Entrance. Other vessels with drafts up to 10.9 m. may enter via Lei Yue Mun entrance.

B. (Tankers): Tankers without a gas free certificate are prohibited from transit through Victoria Harbour. Tankers which berth at Tsing Yi Island, Lamma Island, Ap Lei Chau, Tsuen Wan and Tap Shek Kok are requested to use the Western approaches and tankers with drafts up to 10.6 m. for Kwun Tong are requested to use the Eastern approaches. A channel has been dredged at Hongkong Electric Company Wharf at West Lamma Island for the purpose of accommodating vessels at 13.8 m. draft.

C. Buoyage. The system of buoyage used in Hong Kong has been changed from the Uniform to the IALA System.

Compulsory traffic separation lanes are in force for both the East and West approaches. Up-to-date Admiralty charts should be consulted for details.

PILOTAGE: Although pilotage is not compulsory in the port (to be compulsory in 1985), Pilots licensed by the Pilotage Board are available to board ships at either entrance on request. The Hong Kong Pilots Association, provide pilotage services. Pilots generally board in-bound ships using the Eastern entrance in the vicinity of the Lei Yue Mun "TCS4" Buoy (Lat. 22° 16.4′ N., Long. 114° 16.3′ E.) and disembark at the same point from outward-bound ships. At the Western entrance, Pilots embark and disembark to the West of Green Island. It is a contravention of Regulation 21(1) of the Shipping and Port Control Regulations, 1978, for any vessel to pick up or discharge a Pilot within a distance of one nautical mile from the centre of either the Lei Yue Mun Pass or Sulphur Channel. Maximum speed inside harbour, 8 knots.

ANCHORAGES: Examination anchorages (quarantine and immigration) for clearance inwards are situated within the harbour limits to cover the entry of shipping from East and West. The principal dangerous goods anchorages are situated at the Western end of the harbour and at Pun Shan Sek (tankers), whilst there are others at Junk Bay, Tsuen Wan and Rocky Harbour.

An anchorage for the discharge of logs has been designated. This was necessary because logs, which were being discharged and stored within harbour limits were endangering small craft, waterside installations and navigation.

The Western examination anchorage works 24 hours a day whereas the Eastern examination anchorage works from 0700 hrs. – 1800 hrs.

MAX. SIZE: Largest vessels calling regularly have been, dry-cargo container vessels, length over 292 m., with drafts up to 11.6 m.; tankers length over 900 ft., draft 48 ft. Maximum size governed by draft of vessel. No limit as to length and beam. Draft in harbour: "A" class mooring buoys 5.5 m. to 11.2 m. "B" class mooring buoys 5.3 m. to 8.8 m.

PRATIQUE: *Conditions under which a vessel may be granted radio pratique:*

(a) The vessel must not have called at a smallpox and/or plague infected port within 14 days prior to arrival at Hong Kong.

(b) If the vessel has called at a cholera infected port within 5 days prior to arrival at Hong Kong, the Chief Port Health Officer or his delegated officer has full discretion in the granting of radio pratique.

(c) There are not more than 24 passengers on board at the time of arrival.

(d) A vessel carrying more than 24 passengers may be granted radio pratique if there is a ship's surgeon on board.

(e) The Master must furnish, through his shipping company or Agent, the following cabled information to the Port Health Office not more than 30 hours and not less than 8 hours before his expected time of arrival at Hong Kong:

(i) ports of call with dates of departures during the 14 days prior to arrival;
(ii) numbers of passengers and crew members on board;
(iii) a statement that all persons on board are healthy and in possession of valid International Certificates of Vaccination against smallpox for those who, within the preceding 14 days have visited a smallpox infected country;
(iv) a statement indicating whether any case of infectious disease has occurred on board during the voyage;
(v) whether any person on board is sick;
(vi) the date of issue of the Derat or Derat Exemption Certificate;
(vii) whether the ship is an oil tanker, a cargo ship, a container ship or a LASH ship; and
(viii) whether foodstuffs are carried as cargo on board ship.

Notes:

1. Applications for radio pratique must be made by shipping companies or Agents. Application forms should be sent to Port Health Office, Li Po Chun Chambers, First Floor, Des Voeux Road, Central, during normal office hours (0900 to 1700 hrs. on Mondays to Fridays and 0900 to 1300 hrs. on Saturdays).

2. For urgent cases outside normal office hours, shipping companies or Agents may apply for radio pratique by telephone to the Port Health Office, Hong Kong Airport (Tel. 3–829284) during the following hours:

Mondays to Fridays	1700 to 2300 hrs.
Saturdays	1300 to 2300 hrs.
Sundays and Public Holidays	0900 to 2300 hrs.

All necessary information together with supporting documents must be submitted later in writing to Port Health Office, Li Po Chun Chambers.

3. No radio pratique will be granted between 2300 and 0900 hrs.

4. When radio pratique is granted, shipping companies or Agents will be responsible for notifying the Master concerned.

5. The granted radio pratique will automatically expire 24 hours after the stated expected time of arrival at Hong Kong.

6. The granted radio pratique will no longer be valid if there is any change in the health status on board the vessel concerned during the period from the submission of the application to the actual time of arrival

of the vessel at Hong Kong. This means that the Master of the vessel concerned will have either to re-apply through his shipping company or Agent, giving the additional information, or to display the appropriate signal when approaching the Quarantine Anchorages:

Day: International Code flag "Q"

Night: A red light over a white light in a vertical line, 6 ft. apart.

7. Ships granted radio pratique will be required to display the following signal when entering Hong Kong waters:

Day: International Code flag "T.O."

Night: 3 white lights in a vertical line, 6 ft. apart.

8. Maritime Declaration of Health and Passengers and Crew list will have to be collected by the shipping companies or Agents and delivered during office hours to the Port Health Office, Li Po Chun Chambers within 24 hours of the ship's arrival.

Also see "Notices".

IMMIGRATION: Immigration formalities take place at the Eastern or Western Examination Anchorages after clearance by the Port Health Authorities. Immigration launches are on duty 24 hours a day in the Western anchorage and from 0630 hrs. to 1800 hrs. in the Eastern anchorage throughout the year.

RADIO: Cable Agent via Radio Hong Kong call sign "VPS".

Signal Stations. 3 signal stations operated by the Marine Department are situated in the Eastern and Western approaches to, or within, the harbour limits as follows:

Eastern approaches: Waglan Island, (Lat. 22° 11′ N., Long. 114° 18.1′ E.). Western approaches: Green Island (Lat. 22° 17.2′ N., Long. 114° 06.6′ E.).

Marine Department Port Communications Centre, Lat. 22° 17.4′ N., Long. 114° 9.0′ E.

The Marine Department Port Communications Centre can be contacted by telex, by cable and by VHF radio-telephone on Hague Plan Channel 12. Additionally, the above stations are manned 24 hours a day throughout the year and contact can be made by means of international code flags, or by signal lamp. Communication between the stations is provided by teleprinter circuit, land-line telephone and by radio. Telex: Marine Department Port Communications Centre is equipped with telex No. 63607. Answerback MDPCC HX.

It is mandatory for the Master of every ship arriving within signalling distance of any of the above signal stations to hoist the national colours and (if one shall exist) the house flag and the signal letters of the ship, and to identify the vessel to the signal station by visual signals if requested. On recognition of a ship in the approaches to Hong Kong, the name is immediately relayed by teleprinter to the Port Communications Centre of the Marine Department, and the ship's owners or Agents can be notified on request.

Wireless Telegraphy: Radio communication apparatus on board a merchant vessel is not permitted to be used while the vessel is within Hong Kong territorial waters except in the following circumstances:

When a vessel is proceeding through Hong Kong territorial waters such apparatus may be used to communicate on minimum power with the nearest coast station or, if communication with the nearest coast station is impracticable and the safe navigation of the vessel so requires, with a more distant coast station or another vessel;

For the purpose of summoning assistance on an occasion of danger to the life of any person or to the vessel;

For the purpose of carrying out experimental tests for which permission in writing must first be obtained.

During the period when tropical cyclone signals 8, 9 or 10 are in force, radio and television stations will extend their hours of operation around the clock, and will undertake broadcasting of tropical cyclone warnings in English and Chinese, at two minutes to the hour and half past the hour. Should the expected local conditions so warrant, warnings will be broadcast at quarter to and quarter past the hour. Warnings in English will be broadcast by individual announcers at each station. Radio Television Hong Kong and Commercial Radio will provide a Chinese announcer to broadcast warnings in Chinese from the broadcasting studio at the Royal Observatory.

If conditions are expected to worsen, tropical cyclone warnings may continue after the normal close down time of the stations, or commence before the usual starting time in the morning even though only the No. 1 signal is in force at that time. After consulting the Director, Royal Observatory, the Director of Broadcasting will decide whether or not to adopt either of these courses. He will inform Commercial Radio, HK-TVB, RTV of his intentions as early as possible.

Frequencies: Radio Television Hong Kong – Radio 1 (Chinese) 640 kHz: Radio 2 (Chinese) 94 MHz, 103.5 MHz, 103.1 MHz; Radio 3 (English) 545 kHz; Radio 4 (English) 91 MHz, 100.5 MHz, 100.9 MHz; Radio 5 (English) 96 MHz, 105.5 MHz. Commercial Radio – English Service 1050 kHz; Chinese Services Channel 1, 850 kHz, Channel 2, 610 kHz.

All ships bound for Hong Kong must obtain permission from Mardep before entering the waters of Hong Kong. A contravention of this direction will render offending Masters liable to a fine of twenty thousand dollars and to imprisonment of one year. When applying for permission to enter the waters of Hong Kong Masters must provide the following information to Mardep (1) Nationality (2) Number of people on board (3) Type of vessel (4) Reason for call (5) ETA abeam Wanglan Island. You are required to answer all signals including those passed from Royal Navy vessels patrolling the approaches to H.K. when approaching Hong Kong – Mardep Hong Kong.

VHF: Port Communications Centre, Marine Department Hong Kong Port Radio call sign "Mardep" Channel 12, 24 hours listening watch. Range up to 35 miles.

Maritime VHF Radio-telephone Service (Hague Plan): This service operates in Hong Kong on 3 international channels, Nos. 16, 26 and 27. Channel 16 (156.8 MHz) is the simplex distress and calling frequency on which contact is made between shore and ship before changing over to either of the public correspondence channels, No. 26 or 27. The latter are duplex channels and Hong Kong transmits on 161.9 MHz and receives from ships on 157.3 MHz for Channel 26; transmits 161.95 MHz, receives 157.35 MHz for Channel No. 27.

Local connection to the service is *via* the Hong Kong Telephone Company and is made in the same way as for overseas radio-telephone calls by dialling "100". The local operator should then be informed that a telephone call is required on "the Maritime VHF Hague Plan Service". The operator will ask for details of the call, such as the name of the ship and the person required, and will then connect the call *via* Cable Wireless. Calls can also be sent from ship to shore. The range is about 50 miles and the service is available at all times of the day and night.

Harbour phones: If requested the Hong Kong Telephone Company will install and maintain VHF radio telephones on ships at buoys in the harbour for the duration of the ship's stay in port. Calls may be made between any two ships so equipped and between a ship and any telephone number on the Hong Kong Telephone Company network.

Ship to shore service: Hong Kong Telephone Company will also provide ship to shore telephone service by means of land lines at selected wharf locations. The Container Port is included.

Also see "Notices".

Shipmaster's Report: VHF Channel 6 is used for maritime disaster.

TUGS: Available for berthing and unberthing. Advanced booking is required. See Table B on page 584.

WHARVES: *China Merchants S.N. Co. Limited* – berths suitable for coastal shipping:

		Length (ft.)	*Depth (ft.)*
West Point	Berth No. (1) E.	320	35
	Berth No. (2) W.	320	35
H. K. and Kowloon Wharf Co.			
	Ocean Terminal	1,250	35
	Pier No. (3) S.	600	32
	Pier No. (3) N.	600	34
	Pier No. (4) S.	700	32
	Pier No. (4) N.	700	33
	Pier No. (5) S.	800	34
	Pier No. (5) N.	800	36
Kwai Chung Container Terminal			
	6 berths	7,500	40

CONTAINER CRANES: Modern Terminals Ltd. – 7 cranes.

Hong Kong International Terminals – 7 container gantry cranes.

BERTHING: Berthing of dry cargo vessels alongside wharf can be performed any time during day and night. Berthing at tanker wharf not permissible after sunset, depending on size of vessel or other special circumstances. Ships carrying explosives must obtain permission from the Marine Department before berthing is allotted.

Boatmen: Labour to handle ships' mooring lines when berthing and unberthing at any of the wharves in Hong Kong waters is supplied by the owners of the wharf concerned, the cost being included in the berthing fee. For berthing at a Marine Department mooring buoy it is usual for the ship's Agent to arrange for boatmen to handle the ship's slip wire and anchor cable, unless the ship's crew undertake this task. The services of boatmen are generally obtained through the Hong Kong Pilots Association.

Mooring Buoys: See "Max. Size" All ships are required to secure to Marine Department mooring buoys by their chain cable (vessel to supply shackle). The maximum length of a ship permitted to berth at an "A" class mooring is 182 m., the swing circle encompassing each buoy having a radius of 213 m. The maximum length of a ship permitted to berth at a "B" class mooring is 137 m., the radius of swing circle around such buoys being 167 m. It is therefore within the limits of safety for a vessel, when secured to a Marine Department mooring, to slack out to "1 shackle on the windlass" and still clear ships berthed at adjacent buoys, except in exceptional circumstances. As all Marine Department moorings are of the 1-legged type, it is permissible, should circumstances make it necessary, for a ship, when attempting to secure to a mooring, to drop an anchor at not less than 15 m. from the buoy without fouling the mooring chain. It should be noted, however, that 3 moorings sited within the man-of-war anchorage are either of the 2 or 3-legged type, and it is therefore not permissible to use an anchor when berthing.

44 "A" class mooring buoys and 28 "B" class mooring buoys for ocean going vessels. One "B" class mooring buoy is available at Yam O Bay, Lantan Island, for vessels with cargoes of logs.

BULK HANDLING FACILITIES: *China Light & Power:*

Location: Castle Peak.

Berth: Length 545 m. Depth 20 m. Max. draft 12.9 m. (limited by channel depth 13.7 m.). Max. Beam 42 m. LOA no restrictions.

Cargo: Discharge rate for coal 15,000 tons per day. Also see "Developments".

Hong Kong Electric Co. Ltd.:

Location: Lamma Island.

Berth: Depth 15.8 m. Max. draft 13.8 m. Max. LOA 270 m. Max. beam 40 m.

Cargo: 2 unloaders for coal, rate 15,000 tons per day.

CRANES: Available up to 700 tons.

STEVEDORES: The following table shows the average handling rates per gang hour:

Cargo	*Place*	*Load tons per gang hour*	*Discharge tons per gang hour*
General	Wharf	12	15
General	Stream	10	12
Bale or bag	Wharf	20	25
Bale or bag	Stream	15	20

Stevedores work 24 hours per day except Mid-Autumn Festival and Chinese New Year Holidays.

TANKERS: Any leaking of oil to water will be subjected to heavy fines. If not gas-freed, not allowed through harbour. Max. draft for berthing 42 ft. See Table A on page 584.

Table A. OIL INSTALLATIONS

Company	*Location*	*Length of berth*	*Depth alongside (Chart Datum)*	*Grade of oil*	*Capacity (water tons)*	*Delivery rate*	*Hose connection*

DENSITY: 1017.

FRESH WATER: Available but the supply is sometimes limited, depending on the storage levels in Hong Kong's reservoirs. The supply to ships is made at commercial wharves and from water boats. See Table C above.

FUEL: Excellent facilities exist for bunkering vessels with fuel oil and coal. Fuel oil can be obtained either at the wharves adjacent to the oil installation, or from harbour oilers owned and operated by the oil companies. Fuel oil from these vessels can be pumped on board without impeding cargo operations. Adequate stocks of good quality bunker coal suitable for coal-fired marine boilers are maintained in the port. Fuel oil available with viscosity up to 1,000 sec. Redwood. 24 hours' notice for supply is required. Also gas oil and marine diesel available. See Table D above.

FIRE PRECAUTIONS: The Fire Services Department operates six fire boats, the largest being the 350 ton "Alexander Grantham". It has an output capacity of 45,000 litres of water and 32,850 litres of foam a minute through a battery of monitors. This vessel is equipped to deal with any type of fire on any size vessel, and is designed to operate both in port and at sea.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.

OPENING/CLOSING HATCHES: Usually performed by ship's crew.

CERTIFICATES: Following certificates to be presented to the Marine Department Entry and Clearance Office before clearance could be granted:

Ship's Register and/or Tonnage Certificate.
Load Line Certificate.
Radio Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Derat Certificate or Derat Exempt Certificate.
Last Port Clearance.

CARGO GEAR: Normal routine gear, wire and rope slings, nets, grabs, boardtrays and floating cranes up to 100 tons available.

Vessel's cargo gear must be used for working cargo at all alongside berths.

IDENTIFICATION CARDS: No identification card is required for crew or passengers going ashore. When the vessel has exceeded a stay of 14 days in port, all crew members must deliver to the Harbour Control Office, Immigration Department through the agents a signed copy of the "Immigration Arrival Card".

CONSULS: The following countries maintain consular offices in Hong Kong:

Australia
Austria
Bangladesh
Belgium
Bolivia
Brazil
Burma
Canada
Chile
China (People's Republic of)
Colombia
Cuba
Cyprus
Denmark
Dominican Republic
Ecuador
Egypt
Finland
France

Taiwan
Thailand
Tonga
Turkey
Tuvalu
U.S.A.
Uruguay
Venezuela

REPAIRS: In addition to ship and engine maintenance and repair work, the dockyards have facilities for many miscellaneous services such as are provided by modern dockyards. These include physical tests on materials such as anchors and cables, for which test certificates can be supplied, chemical analysis, drawing office requirements, chemical cleaning of engines and boilers, shot and sand blasting, zinc spraying to name but a few.

DRY DOCKS:

Hong Kong United Dockyards Ltd. (Tsing Yi): Two floating docks, the largest of which has a lifting capacity of 33,000 tonnes. Length 260 m. Width 38 m. Depth over blocks 8.0 m.

Euro Asia Dockyards Ltd. (Tsing Yi): One floating dock, the lifting capacity of which is 100,000 tonnes.

Yau Lian Dockyard (Tsing Yi): One floating dock and a further floating dock (188 m. × 40 m.) in Tsuen Wan Bay.

SEAMEN: All formalities connected with engagement and discharge on board British ships, and on foreign ships whose flag is not represented by a Consular Officer resident in Hong Kong, are required by law to be conducted at the Mercantile Marine Office of the Crews Division. Hong Kong continues to be one of the main recruitment centres of Asian seamen and a Seamen's Registry Office, which is an adjunct to the Seaman's Recruiting Office, under the same division, maintains records of all Hong Kong seamen. The Seamen's Recruiting Office controls the recruitment, selection and supply of Hong Kong Chinese seamen to ships requiring them, and is situated at the Yardley Commercal Building, 16/F., 3, Connaught Road West, Hong Kong.

Seamen's Travel Documents: The Hong Kong Government Seaman's Service Record Book (Seaman's Discharge Book) is issued by the Marine Department and is a record of employment. The Hong Kong Government Seaman's Identity Book is issued by the Immigration Department and enables the holder to return to Hong Kong without a visa during the validity of the book (initially 5 years, with 5 year renewals), and also within 12 months after the expiry of the validity of the book.

A Seaman's Certificate of Nationality and Identity is issued at the Immigration Department only to seamen of British nationality, whereas the Seaman's Discharge Book and the Seaman's Identity Book may also be issued to seamen resident in Hong Kong and no visa is required for return to Hong Kong.

All Crew members signing-off for repatriation must first obtain permission from the Director of Immigration. All crew arriving to join a vessel must produce a guarantee letter through the Agents responsible for all maintenances and other eventual expenses.

AIRPORT: Regular International flights. Airstrip is capable of handling any size of jet planes. Transportation from port to airport terminal about 40 minutes bus drive.

TELEPHONES: Available at all alongside berths for connection on board ship.

TIME: Standard time kept in the colony is 8 hours in advance of GMT. Summer Time, which is 1 hour in advance of Standard Time, is kept from 0330 hrs. on the first Sunday after 15th April to 0330 hrs. on the first Sunday after 15th October, each year.

HOLIDAYS: Public holidays in Hong Kong occur mainly on festivals whose date is governed by the lunar calendar.

Every Sunday; First week-day in January; Chinese New Year's Day; Second day of Chinese New Year; Third day of Chinese New Year; General holiday in lieu of that for the Ching Ming Festival; Good Friday; Day following Good Friday (Ching Ming Festival); Easter Monday; Birthday of Her Majesty the Queen; Tuen Ng Festival; First week-day in July; First Monday in August; Last Monday in August, which shall be Liberation Day; Day following Chinese Mid-Autumn Festival Day; Day following Chung Yeung Festival: Christmas Day; First week-day after Christmas Day.

POLICE/AMBULANCE/FIRE: When the services of the fire brigade, immigration, port health or police are required, appropriate signals should be made in accordance with the list of "Hong Kong Port Signals". The Marine Division of the Police is responsible for internal port security. Its fleet of launches maintain constant patrols in Hong Kong's territorial waters.

GENERAL: No waste to be disposed into harbour. A free refuse disposal service is available for domestic refuse. Ship's agents can arrange this through Marine Department. Chain required for mooring to buoy. Unnecessary use of ship's sirens prohibited.

SERVICES: Services available including tank cleaning, painting, washing, compass adjusting, calibration of direction finder, radar repairs, 24 hours' service laundry, supply of stores and provisions, motor-boats service between ship and shore.

SHORE LEAVE: Crew members are usually allowed ashore.

WEATHER: 1st May to 31st October usually considered as typhoon season. No operation of cargo when typhoon signal No. 3 or upward is hoisted. Also see "Radio".

DEVELOPMENTS: The central fairway has been dredged to – 36 ft. Reclamation continues in various areas within the harbour. Additional 'Public Cargo Working Areas' are near completion and others planned.

2 × 1,100 t.p.h. ship unloaders under construction at Castle Peak for China Light and Power. First unloader to be ready December 1984 and the second to be ready early 1985.

15 ha. of additional container marshalling area to be reclaimed at Hong Kong International Terminals (HIT), completion 1987/88.

2 Hitachi container handling cranes to be installed at HIT's No. 4 terminal in April 1985.

NOTICES: Marine Department Notice No. 140 of 1984 (Dated 23rd July 1984).

Quarantine Inspection – Eastern Quarantine Anchorage:

1. Owners, agents and charterers of ships are advised that the following arrangements for obtaining quarantine clearance at the Eastern Quarantine Anchorage will come into effect on 1st August 1984:

(a) From 0630 to 1300 hours daily ships should show the normal signals to request quarantine clearance.

(b) From 1300 to 1800 hours daily ships should contact the Port Control Centre on VHF channel 12 to request quarantine clearance.

(c) No quarantine clearance can be given between the hours of 1800 and 0630 hours. Ships requiring quarantine clearance during those hours should proceed to the Western Quarantine Anchorage.

2. Copies of this notice may be obtained free of charge from the Entry & Clearance Office, Rumsey Street Multi-Storey Car Park, Connaught Road, Central, Hong Kong.

Signed: Director of Marine.

Marine Department Notice No. 152 of 1984 (Dated 8th August 1984)

Notice to Owners, Agents and Masters of vessels of over 300 gross registered tons calling at Hong Kong:

Owners, Agents and Shipmasters are reminded that Vessels of more than 300 gross registered tons are required to have on board, whilst in the waters of Hong Kong, very high frequency (VHF) radiotelephone equipment. Such vessels are required to make contact with the Port Communications Centre on Channel 12 or 14 of the VHF radiotelephone before they enter the waters of Hong Kong and thereafter to make reports as specified in the Shipping and Port Control Regulations. In addition, a continuous listening watch must be maintained on the radiotelephone, on the specified channels. Failure to comply with these requirements renders the Master liable to prosecution.

Accordingly, Owners and Agents are requested to advise the Masters of vessels enroute to Hong Kong of the foregoing requirements.

The booklet, Hong Kong Shipping and Port Control Laws giving further details is available from the Marine Department Headquarters, Fairmont House, 7/F, Cotton Tree Drive, Hong Kong, price $5. You should obtain a copy of this booklet if you are in any doubt as to the laws applicable in Hong Kong.

Please note that the requirement to comply with these VHF reporting procedures does not apply to any vessel to which Part IV of the Shipping and Port Control Ordinance applies.

Signed: Director of Marine.

SHIPMASTER'S REPORT: October 1984.

Immigration: Notice to Master – Immigration Clearance on Arrival in Hong Kong (Form 1D 245A)

1. (Text) Being the Master of a vessel, you are required, on arrival of the vessel in Hong Kong, to anchor or moor the vessel at an approved Immigration Anchorage (as illustrated on the back page) for as long as may be necessary for Immigration examination, and hoist the Immigration Examination Signal until an Immigration Officer permits you to lower it. The Immigration Examination signal should be, by day, the letters H. N. N. shown by means of signal flags and, by night, 3 lights coloured WHITE in a vertical line one over the other, equally spaced at a distance of not less than 1 m. and visible from any direction at a distance of at least 1 nautical mile. Failure to comply with this requirement is an offence under the Immigration Ordinance, Cap. 115, Laws of Hong Kong and is punishable with a maximum fine of $20,000.

2. This opportunity is also taken to remind you that it is your duty to ensure that no persons leaves or boards your vessel (except a Port Health Officer or a Pilot in the course of his duty) and nothing shall be removed from or taken or placed on board your vessel before Immigration Examination.

Master's remark: Approaching the Western Quarantine Anchorage without a Pilot was difficult, because of an enormous quantity of Chinese and local junks occupying the very narrow roads, waiting for their turn to be cleared. Vessel dropped anchor at 0900 hrs. local time and first persons to board were 2 Customs Officers who came on board by means of lowered accommodation ladder. They were followed half an hour later by the doctor and thereafter by the ship's Agent and shipchandler. As soon as the yellow flag was lowered bumboat people rushed to the ship displaying their merchandise on the aft part of the ship's deck. When Immigration Officers boarded almost 3 hours later they seemed to be very upset and asked me immediately to remove all persons not belonging to the ship's crew and furthermore to write a letter to their office explaining why I let anybody board before Immigration had cleared the ship. Fortunately I had hoisted the signal H. N. N. as per Agent's advice. With few words, they cleared the vessel at 1400 hrs. and I did not have to pay a penalty. They warned me again and told me on my request, after giving me their circular 1D 245A that nobody including Customs Officers shall board the vessel except Pilot or doctor before them and whenever the Customs Officers want to board before (which is the usual case) the Master is to contact MARDEP on Channel 12 VHF, asking to contact Immigration Office to get Immigration's confirmation for the Customs to board the vessel before Immigration have cleared her. They told me furthermore not to lower the accommodation ladder and to repulse any person who tries to board.

No vessel can obtain Pre-arrival Clearance if they have one person among the crew coming from a Communist country.

Sailing without a Pilot was also not very easy and I strongly recommend Masters to take Pilots whenever entering or leaving the port of Hong Kong due to the great amount of traffic in this port.

MARDEP – Reporting Points: Vessels approaching Hong Kong from the East to report their passing to MARDEP on Channel 12 VHF at the points:

through East Lamma Channel	*through West Lamma Channel*
Wang Lan Island	Wan Lan Island
Potoi Island	Potoi Island
LCS 1 Lamma Channel Buoy

AKUREYRI: 65.41 N. 18.03 W. (See Plan Book)

DOCUMENTS: See "Reykjavik".
PILOTAGE: Not compulsory but available by arrangement with Harbour Master.
APPROACHES: Natural well protected harbour formed by Oddeyri peninsula and the end of the fjord. Entrance to harbour (Pollurinn) has a width of 800 m. and depth of 47 m.
TUGS: None available.
BERTHING:

Berth	*Berth Length (m.)*	*Depth at LW (m.)*	*Remarks*
Krossanes	50	6.0	Oil, fish-oil, meat, cement
Drattarbraut			Slipway
Slippkantur	240	6.0	Ship repairs, asphalt tank
Togarabryggja 1	110	6.5	General cargo
Togarabryggja 2	67	6.5	General cargo
Londunarkantur 1	75	6.0	Fish landing
Londunarkantur 2	65	5.5	Fish landing
KEA-bryggja			Oil
Tangabryggja	65	5.5	Cattle feed
Oddeyrarbryggja	140	7.5	General cargo
Torfunefsbryggja	100	5.5	Passenger

STEVEDORES: Working hours: 0800 – 1200, 1300 – 1700.
MEDICAL: Full hospital facilities available without prior notice.
TANKERS: At Oddeyri (KEA-bryggja) and Krossanes, there are oil berths with depths alongside of 5.0 m. – 6.0 m.
FUEL: Coal and fuel by arrangement.
REPAIRS/DRYDOCKS: Two patent slips, one for vessels up to 200 g.r.t and the other for vessels up to 2,000 g.r.t. Ordinary repairs can be effected. Shipyard has a quay 230 m. long with a depth of 7.5 m. Divers available.
AIRPORT: At Akureyri, 2 km. from the port.
AUTHORITY: Harbour Committee, c/o Guomundur Sigurbjornsson, Strandgata 25, P.O.Box 407, 602 Akureyri, Iceland. *Tel:* 96-23305 and 96-22346. *Contact:* Baldvin Thorsteinsson, Harbour Master. *Tel:* 96-24391 and 96-23664.

HAFNARFJORDUR: 64.04 N. 21.58 W. (See Plan Book)

PORT LIMITS: The seaward boundary is drawn as follows:
Line 1: 020°, from Lat. 64° 02.4′ N., Long. 22° 08.0′ W. ("Hraunsnes").
Line 2: 272°, from Lat. 64° 04.7′ N., Long. 21° 59.2′ W. ("Balaklettur").
These lines cross at Lat. 64° 04.9′ N., Long. 22° 05.9′ W.
DOCUMENTS: Documents required for Customs clearance:
3 copies of Cargo Manifest
2 copies of Crew List and Passenger List
1 copy of Crew Declaration to the Customs
1 copy of Store List
Customs Clearance from Last Port.
PILOTAGE: Pilotage is compulsory for all vessels over 100 g.r.t. The Pilot usually boards the vessel 0.5 miles S.E. of the Outer Buoy (Valhusagrunn, red). Smaller vessels and Masters familiar with the port are invited to proceed to the Inner Buoy (Helgasker, green). The buoyage is IALA "System A". VHF communication with the Pilot on Channel 14.
APPROACHES: Vessels, with a draft of 7.0 m. or greater, are warned that shoals exist at Lat. 64° 04.7′ N., Long. 22° 08.8′ W. (1.5 miles×260° from Valhusagrunn Buoy).
ANCHORAGES: For vessels awaiting the Pilot, a good anchorage is to be found 1 mile S.S.E. of the Outer Buoy (Lat. 64° 04′ N., Long. 22° 04′ W.). Smaller vessels may anchor 0.4 miles North of Hvaleyrarhofdi (Lat. 64° 03.9′ N., Long. 21° 59.9′ W.).
TUGS: Hafnarfjordur Pilot and tugboat 360 h.p. is available. Further tugs can be ordered from Reykjavik.
BERTHING: The inner harbour is enclosed by 2 breakwaters. The Northern one is 200 m. long and the Southern one 450 m. Entrance channel is 150 m. wide, 9.0 m. deep, bottom soft clay.

North Quay: 255 m. long, depth 5.5 m. to 6.5 m., bottom soft clay. For general cargo and unloading fish.

Oseyrar Pier: 130 m. long and 25 m. wide, depth 2.5 m. to 4.0 m. at Southern side and 5.5 m. to 6.0 m. at Northern, bottom clay. Mainly used for fishing vessels.

South Quay: 150 m. long, depth 6.0 m. bottom clay. For general cargo vessels.

Finger Pier: 70 m. long, 10 m. wide, depth 5.5 m. to 6.5 m., bottom clay. Mainly used for unloading fish for industrial purposes and asphalt. Also see "Tankers".

CRANES: Mobile cranes of various capacities are available.
STEVEDORES: Working hours are 0800 – 1700, Monday to Friday. Overtime can be arranged.
TANKERS: *Oil Pier:* Inside the head of the Southern Breakwater is a berth for oil tankers. Depth 8.0 m., bottom soft clay. Max. draft for arriving tankers is 9.5 m.
DENSITY: 1025.
TIDAL VARIATION: Up to 4.5 m.
FRESH WATER: Available at all quays.
FUEL: Available at all quays.
CONSULS: Available at Reykjavik (10 km.).
REPAIRS: Minor repairs can be undertaken.
DRY DOCKS: None. Slipway for vessels up to 300 tons.
SURVEYORS: Lloyd's Agents and representatives for other Classification Societies are available in Reykjavik and Hafnarfjordur.
CUSTOMS ALLOWANCES: 1 bottle of spirits (0.75 litres); 200 cigarettes or equivalent; 24 bottles of beer or 1 bottle of wine.
AIRPORT: Domestic airport at Reykjavik 10 km. International airport at Keflavik 35 km.
TIME: GMT throughout year.
CARGO SURVEYORS: Konnun hf., Ingolfsstraeti 3, 101 Reykjavik. Tel: 91-28422.
DEVELOPMENTS: South Quay: New quay. Length 120 m., depth 7.5 m. – 8.0 m. To be constructed 1985/86.
AUTHORITY: Captain of the Port, Strandgata 4, 220 Hafnarfjordur. *Tel:* 91-50492, 91-53444. *Contact:* S. Hallgrimsson, Captain of the Port.
Board of Direction, Hafnarstjorn Hafnarfjardar, Strandgotu 6, 220 Hafnarfjordur, Iceland.

ISAFJORD: 66.05 N. 23.06 W.

DOCUMENTS: As for "Reykjavik".
PILOTAGE: TFZ Isafjord Radio 2182 kHz. To call Pilot use morse lamps or whistle "G".
ANCHORAGE: In Fjord, depth of 6 fathoms.
MAX. SIZE: Dry cargo vessels up to 4,000 g.r.t. Tankers up to 30 ft. draft.
HEALTH: Inform Agent.
RADIO: TFZ 2182 kHz.
TUGS: Not required.
MEDICAL: Inform Agent 1 hour in advance. Hospital available.
FRESH WATER: Always available through hose-pipes.
FUEL: All grades available advance notice required is 2 hours.
GANGWAY/DECK WATCHMEN: Necessary. Carried out by crew.
OPENING/CLOSING HATCHES: Performed by crew.
CERTIFICATES: All relevant certificates required.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes each crew member, 600 for Master; Wine/Spirits; 2 bottles for each crew member, 6 bottles for Master.
IDENTIFICATION CARDS: Not required.
CONSULS: British, German, Norwegian, Swedish, Danish.
REPAIRS: All types of repairs possible.
DRY DOCKS: 1 small dry dock available.
REPATRIATION: No facilities exist.
AIRPORT: Distance from port 2 miles, regular flights.
TIME: GMT. No change.
HOLIDAYS: Work carried out every day.
POLICE/AMBULANCE/FIRE: Police, Ambulance, Fire, Tel: 3258.
TELEPHONES: None available.
SERVICES: Compass adjusting, radar, echomaster, specialists.
SHORE LEAVE: Allowed.
AUTHORITY: Captain of the Port.

KEFLAVIK-NJAROVIK: 64.00 N. 22.33 W.

DOCUMENTS: As for "Reykjavik".
PILOTAGE: Pilotage is compulsory for vessels over 100 tons net. Pilot is available for all vessels 24 hours per day and is reached via Reykjavik Radio. Pilot boards vessel 1 mile outside Vatnsnes.
ANCHORAGE: Outside the harbour in depths of 27 m. with good holding ground.
TUGS: Use of tug is not necessary.
BERTHING: Port has concrete pier which will be extended for a length of 110 m., and a wooden quay 45 m. in length. Depth of water in harbour and alongside wharves is 20 ft. to 45 ft. Entrance is easy for access.
STEVEDORES: Working hours: 8 hours per day 0800 to 1700 hrs.
FRESH WATER: Available through hose connection on the quay.
FUEL: Available.
REPAIRS: 2 shipyards available.
AIRPORT: Keflavik International Airport is only 4 km. away.
TIME: GMT. No change.
POLICE/AMBULANCE/FIRE: All Tel. 2222.
TELEPHONES: None available on board.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

NESKAUPSTADUR, Nordfjordur: 65.09 N. 13.41 W.

DOCUMENTS:
Crew List.
Passenger List.
Customs Documents.
Provision List.
Manifests and Ship's Papers.
PILOTAGE: No Pilots. Road clear, keep in middle of fjord.
ANCHORAGES: Depending wind. With North or N.W. winds anchor towards South coast and well in the fjord. When N.E. off town towards North coast, but keep clear of small boat moorings.
MAX. SIZE: Length/breadth no restriction. Main quay is 70 m. long and it is built right out to the steep bank at the coast. Depth close to jetty 7 m. but increases quickly.
HEALTH: Free pratique automatic from Customs Officer. Radio for doctor if illness on board.

RADIO: Neskaupstadur Radio 2182 kHz (TFM) 24 hour watch. VHF, Channels 16 and 26. Range approximately 40 miles.

TUGS: No tugs but large motor-boats are normally obtainable if necessary.

BERTHING: No specific requirements unless over 7 m. draft, when fendering required.

STEVEDORES: If possible 24 hours ETA. Preferably before 1600 hrs. for commencing next morning. Load or discharge rates according to goods.

MEDICAL: Always send advance notice of required medical attention. Hospital available, also 3 doctors and dentist.

TANKERS: Diameters of lines 4 in. and 6 in. Oil companies BP and Shell have their own small quays. The third company Esso uses BP jetty.

DENSITY: Normal.

FRESH WATER: Shore line on jetty. No barge.

FUEL: Diesel oil only.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ship's Register.

CUSTOMS ALLOWANCES: 200 cigarettes a week while in Iceland. Only 1 allowance of spirit, i.e. on arrival 1 to 3 bottles according to occupation.

IDENTIFICATION CARDS: Not required.

CONSULS: Denmark tel. 199 or 330. France tel. 14 and 19.

REPAIRS: Limited repairs to engines, hull and deck. Good repairs to radars, sounders, tiller pilots, etc.

DRY DOCKS: None. 1 slipway, 450 tons.

REPATRIATION: Winter flights twice a week or more. Summer every day.

AIRPORT: Distance 3 km.

TIME: GMT, no alterations.

HOLIDAYS: Last Thursday April; 17th June; 1st May; 25th and 26th December; New Year, etc. If work is carried out 31st December, 24th December, Saturday before Easter and Whitsun double pay is claimed.

POLICE/AMBULANCE/FIRE: Telephone office at shore end jetty.

TELEPHONES: No arrangement to place telephones on board.

SERVICES: No tank-cleaning equipment. No discharge of tank-washings. Compass adjusting available.

SHORE LEAVE: Allowed.

DELAYS: None except if berth not available.

DEVELOPMENTS: No expected draft increases. New berths are under construction but will take unforeseen time.

PATREKSFJORDUR: 65.35 N. 23.59 W.

DOCUMENTS: 8 Crew Lists, Passenger Lists, Custom Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers.

PILOTAGE: Pilotage not compulsory, but if needed then contact Radio Patreksfjordur on 2182 M/F.

ANCHORAGE: Anchorage is sheltered by the peninsula.

MAX. SIZE: See "Berthing".

RADIO: Radio Patreksfjordur on 2182 M/F.

TUGS: Available.

BERTHING: The entrance has a depth of 4.7 m. to 4.9 m. (15.5 ft. to 16 ft.) at LLWST. The harbour has a depth of 6.4 m. (21 ft.) at LW, and 10 m. (33 ft.) at HW. 320 m. of quayage with depths from 5.5 m. to 5.8 m. (18 ft. to 19 ft.) alongside. The harbour can be entered by day and night.

STEVEDORES: Working hours 0800 to 1900 hrs.

MEDICAL: Hospital available, contact through radio.

FRESH WATER: Available. No notice required.

FUEL: Available. No advance notice required.

REPAIRS: Machine-shop. General repairs can be effected. Diver obtainable.

AIRPORT: About 26 km. distance from harbour. Regular service, by airlines.

TIME: GMT. No change.

SHORE LEAVE: Allowed.

AUTHORITY: Patrekshofn, Patreksfiroi.

REYKJAVIK: 64.09 N. 21.56 W. (See Plan Book)

DOCUMENTS:

For the Immigration Office

1 Crew List.
1 Passenger List.

For Customs Authority

Master's Report on vessel's arrival from abroad.
Master's Certificate with Manifests of all goods.
Master's Certificate with Manifests of goods to each port of discharge.
Health Declaration.
List of Provisions and other Stores in ship.
Ordinary procedure at least 5 copies of each manifest (3 for customs).

PILOTAGE: Pilotage compulsory. Telegraphic address: Harbour Master, Harbour Office, Reykjavik. Desirable advance notice of ETA 24 hours and again notice 3 hours before expected time of arrival. VHF working Channels 12 and 14 at Pilot station and pilot boats. 24 hour watch maintained.

Pilot boat: Grey hull with red and white deckhouse. International signals used if necessary. Pilot boat leaves harbour on request and meets vessel up to 1 nautical mile off Grotta (East of Buoy 6): Most frequent boarding place is Buoy 7 Kollafjordur.

ANCHORAGE: Good anchorage at Kollafjordur in 30 to 35 m. water 1.5 miles North of Engey Lighthouse. Anchorage prohibited in neighbourhood of harbour entrance.

RESTRICTIONS: All day service. Draft in old harbour restricted at MLWST to 18 ft. In Sundahofn to 26 ft. No other restriction.

MAX. SIZE: Longest straight quay 280 m. Breadth unrestricted. Depth 26 ft. at MLWST (29 ft. at MLWNT). At present 3 installations for oil carriers to discharge through submerged pipe-lines. Moorings for about 20,000 d.w.t. ships and draft restriction to 21 ft. in the approach to one of these installations.

HEALTH: Pratique obtained through Customs Authorities. In case of suspected disease notify port office or Agent in advance.

RADIO: Reykjavik Radio TFA.

RADAR/VHF: No harbour radar. Pilot office can be contacted by VHF Channel 16. Working Channels 12 and 14.

TUGS: Tugs meet vessels on roadstead. Ship's lines used. One ocean-going tug 1,000 h.p. and 2 smaller tugs available.

BERTHING: Larger vessels preferably handled at high water.

Old Harbour: The Old Harbour is protected by two moles leaving a 100 m. wide entrance. It is divided into the Fishing Harbour (West Harbour) and General Cargo Harbour (East Harbour) where coastal passenger traffic is also served.

In the Old Harbour there are several areas for ship maintenance, the main slipways and a great number of firms specialised in services for the fleet.

Quayage is about 3,300 m. of which there are 600 m. only for smaller fishing craft. Draft at the entrance is 7.0 m. (23 ft.) at MLWST, and depth at quays 5.5 m. to 6.5 m. (18 ft. to 21 ft.). bottom is sand and mud.

Sunda Harbour – Vioeyjarsund: The new harbour area in Vioeyjarsund was opened in 1968. Since then a growing part of the general cargo has been moved through this area with a special quay for grain. The entrance to the area is not restricted and water depth is more than 8.0 m. (26 ft.) at MLWST. Length of quays is 460 m. with a water depth of 8.0 m. (26 ft.) at MLWST. Bottom is sand and mud.

Sunda Harbour – Kleppsvik: A new harbour area for general cargo is under development in Kleppsvik. The entrance will be a 50 m. wide channel dredged to 7.0 m. (23 ft.) at MLWST. The water depth at the quay will also be 7.0 m. (23 ft.). 1×32 ton container crane to be installed late 1984.

Sunda Harbour – Grafarvogur: The harbour area in Grafarvogur was opened in 1968. This area is used for discharging and storing of cement, gravel and asphalt for industries in the vicinity. Further development is planned for industries with special requirements. An approach channel has been dredged to 4.0 m. (13 ft.) at MLWST and water depth at the quay is 4.5 m. (14 ft.).

Eiosvik: In Eiosvik there is a quay for the State Fertiliser Plant. The entrance is unrestricted with deep water to the quay. Eiosvik offers the best natural site for large ships in the Port of Reykjavik.

STEVEDORES: Stevedoring must be arranged in advance preferably by Agent. Working Hours: 0800 – 1700 hrs. With labour unions permission, work may be carried out until 2200 hrs. and on Saturdays.

MEDICAL: Medical attention available without notice. For hospital stay or surgical operation advance notice desirable, either through Agent or port office.

TANKERS: Submarine pipe-lines diameter for discharging are 8 in. 3 terminals handling vessels of 7,000 – 15,000 g.r.t. Vessels moor to buoys.

DENSITY: Salinity varies from 33.6% to 35.0% giving sea water density about 1027 in average.

FRESH WATER: Water delivered from taps at quay at rate of 20 – 30 t.p.h, on the roadstead delivered by tug with 50 cu. m. water-tank.

FUEL: Grade of fuel oil 200 – 400 per second. Supplied by oil-pipe or by barge. If supplied by barge then 1 day's notice required.

FIRE PRECAUTIONS: Ordinary precautions for handling of dangerous goods applied.

GANGWAY/DECK WATCHMEN: Ship's gangway to be used. Watchmen services from ashore not necessary but can be arranged if asked for.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CERTIFICATES:

1. Certificate of Nationality.
2. International Tonnage Certificate.
3. Certificate of Seaworthiness.
4. Cargo Ship Safety Construction Certificate.
5. Cargo Ship Safety Equipment Certificate.
6. Cargo Ship Safety Radiotelegraphy Certificate or Cargo Ship Safety Radiotelephony Certificate.
7. International Load Line Certificate.

Passenger ships must have certificates No. 1, 2, 3, 7 and in addition Passenger Ship Safety Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or equivalent. 0.75 litre beverage, 24 bottles beer.

IDENTIFICATION CARDS: Identification card must be carried.

SURVEYORS: Lloyd's Register, Norske Veritas, Germanischer Lloyd and Bureau Veritas.

REPAIRS: All kinds of ship repair possible.

DRY DOCKS: Only slipways available up to 2,000 metric tons weight. Dimensions: Length 85 m., breadth 13.6 m.

REPATRIATION: Can be arranged.

AIRPORTS: Reykjavik Airport within 10 minutes drive. Mostly for local routes. Keflavik Airport 50 km. distance, served regularly by airlines both to Europe and America.

TIME: Icelandic Summertime used all year round and is same as GMT.

HOLIDAYS: January 1 (New Year's Day); Maundy Thursday; Good Friday; Easter Monday; May 1; Ascension Day; Whit Monday; June 17 (National Day); First Monday in August (Bank Holiday); Christmas Day and Second Christmas Day. On Christmas Eve and New Year's Eve work stops at noon. Dock work goes on on Bank Holiday and by Labour Union permission work may be carried out on Saturday against overtime payment and exceptionally at night until 2200 hrs.

POLICE/AMBULANCE/FIRE: Police (Main station) 11166; Police (Harbour Station) 10145; Ambulance 11100; Fire 11100.
TELEPHONES: Telephone connection can be arranged at some berths in the old harbour and in Sundahofn telephone connections will be at the quay.
GENERAL: Engines may not be run while ship is berthed.
SERVICES: Compass adjusting carried out by private firm as well as tank cleaning.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Normally no delay is to be expected beyond that caused by normal customs clearance.
DEVELOPMENTS: In a new harbour area – Sundahofn – quay construction, dredging and reclamation is completed. Length of quay 680 m. and 70 acres storage area under development. Discussion is taking place on new terminal for coastal traffic. Ro/Ro facilities at Sundahofn being prepared.
AUTHORITY: Reykjavik Port Authority.

SIGLUFJORD: 66.10 N. 18.50 W. (See Plan Book)

DOCUMENTS: As for "Reykjavik".
PILOTAGE: Compulsory. Pilot meets vessel about 400 m. from harbour entrance.
ANCHORAGE: East of harbour in depths according to draft 25 m. to 30 m. good holding ground. Gales from North set heavy sea, vessels then seek anchorage in small bay S.W. of Siglunes.
RADIO: Siglufjordur Radio TFX 2182 kHz.
VHF: Channels 16, 24, 26 and 27.
TUGS: None available.
BERTHING: There are several piers and wharves inside the North Mole, 4 quays used by larger vessels have depths up to 23 ft. at LW and lengths from 50 m. to 125 m.
STEVEDORES: Available. Working hours 0700 to 1200 hrs. and 1300 to 1700 hrs.; overtime can be arranged.
MEDICAL: All facilities available.
FRESH WATER: Available.
FUEL: Available in general grades only.
GANGWAY/DECK WATCHMEN: Necessary.
OPENING/CLOSING HATCHES: Stevedores normally perform this work.
CARGO GEAR: Ship's own gear (no cranes).
IDENTIFICATION CARDS: Not required.
CONSULS:
Denmark Tel. 71672 Sweden Tel. 71440
REPAIRS: For moderate size vessels can be obtained. Diver available.
TIME: GMT. No change.
POLICE/AMBULANCE/FIRE: All tel. 71170.
SHORE LEAVE: Allowed.
AUTHORITY: Siglufjardarkaupstadur, Granugotu 28, 580 Siglufjordur, Iceland. *Tel:* 71237, 71433. *Contact:* K. Rognvaldsson, Captain of the Port.

SKAGASTROND: 65.50 N. 20.20 W.

DOCUMENTS: As for "Reykjavik".
PILOTAGE: Pilots are available. When approaching port, order Pilot through Agent if required.
MAX. SIZE: Draft max. 19 ft.
MEDICAL: Doctor available but located in Blonduos 20 km. away, doctor visits Skagastrond 3 days a week.
FRESH WATER: Available.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
REPAIRS: Small repairs available.
AIRPORT: Nearest 20 km. away in Blonduos.
TIME: GMT. No change.
POLICE/AMBULANCE/FIRE: Police Station and Firemen in the port.
TELEPHONES: Available.
SHORE LEAVE: Allowed.
AUTHORITY: Captain of the Port.

STRAUMSVIK: 64.03 N. 22.03 W. (See Plan Book)

PORT LIMITS See "Hafnarfjordur".
DOCUMENTS: See "Hafnarfjordur".
PILOTAGE: See "Hafnarfjordur".
APPROACHES: See "Hafnarfjordur".
ANCHORAGE: See "Hafnarfjordur".
TUGS: See "Hafnarfjordur".
BERTHING: This harbour is operated by Hafnarfjordur. Inside the breakwater is a berth, 220 m. long and depth 12.0 m. The entrance channel is 160 m. wide with a depth of 10.0 m.
CRANES: Two 8 ton harbour cranes for handling general cargo.
BULK CARGO FACILITIES: There is a suction unloader for discharging alumina.
DENSITY: Mixed salt and fresh water.
TIDAL VARIATION: Up to 4.5 m.
FRESH WATER: Available.
FUEL: Available.
CONSULS: Available at Reykjavik (10 km.).
REPAIRS: See "Hafnarfjordur".
DRY DOCKS: See "Hafnarfjordur".
SURVEYORS: See "Hafnarfjordur".
CUSTOMS ALLOWANCES: 1 bottle of spirits (0.75 litres); 200 cigarettes or equivalent; 24 bottles of beer or 1 bottle of wine.
AIRPORT: Domestic airport at Reykjavik 10 km. International airport at Keflavik 35 km.

AUTHORITY: Captain of the Port, Strandgata 4, 220 Hafnarfjordur. *Tel:* 91-50492, 91-53444. *Contact:* S. Hallgrimsson, Captain of the Port.
Board of Direction, Hafnarstjorn Hafnarfjardar, Strandgotu 6, 220 Hafnarfjordur, Iceland.

VESTMANNAEYJAR: 63.30 N. 20.14 W. (See Plan Book)

DOCUMENTS:

Health Certificate.	Manifest.
Crew List.	Ship's Register.
Passenger List.	

PILOTAGE: Pilotage compulsory, day and night service. Ship to advise over Vestmannaeyjar Radio ETA. Pilot always available but 1 hour's advance ETA is required.
ANCHORAGE: There are anchorages with depths from 24 m. to 34 m., good holding ground about 0.5 miles North of harbour and on North side of peninsula in depths of 28 m. to 34 m.; this anchorage is exposed to winds between West and North.
RESTRICTIONS: No restrictions except for largest vessels. They must enter at high tide.
MAX. SIZE: 5,000 g.r.t.
RADIO: Vestmannaeyjar Radio. VHF available.
TUGS: Normally join in-coming vessels at anchorage. The use of tug is optional. 1 Tug, 500 h.p.
STEVEDORES: Available. Ordered by Agent. Working hours: 0800-1700 hrs., Monday-Friday.
CRANES: 2 mobile cranes, capacity up to 15 tons.
MEDICAL: Not necessary to receive advance notice. Hospital facilities and doctors available.
TANKERS: Discharge lines, 7 in. No deballasting facilities available.
FRESH WATER: Shore installations on every berth.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Stevedores.
CUSTOMS ALLOWANCES: For each crew member; 100 cigarettes or 20 cigars or 100 grm. tobacco, and 1 bottle spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: Denmark, Germany, Great Britain, Norway, Sweden. To be called through Vestmannaeyjar Radio.
REPAIRS: All repairs possible.
AIRPORT: Local airport. Daily connection to Reykjavik.
TIME: Local time GMT.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (1 May); Ascension Day; Whit Monday; National Festival Day (17 June); Prayer Day; Christmas Day (25 December). No work on New Year's Day, Good Friday, Easter Sunday, Whit Sunday, 17 June, Christmas Day.
POLICE/AMBULANCE/FIRE: All tel. 1666.
SERVICES: Radio, radar services etc. Divers available.
SHORE LEAVE: Allowed.
DEVELOPMENTS: Depth of entrance to harbour to be increased to 6.5 m. New Quays on North Side of harbour to be built in the near future.
AUTHORITY: Harbour Master.

India

GENERAL

COURTESY FLAG: Correct flag to be flown by foreign ships visiting Indian ports is Indian Merchant Navy Ensign (a red flag with a length of one and one half times the width and with National Flag of India superimposed in top quarter next to staff) and not Indian National flag.

SHIP'S OFFICER'S REPORT: Apart from the various forms and Crew Lists, etc., the Customs Boarding Officer also requires a List of Private Property in possession of the Master, officers and crew on Form No. IV in duplicate and the local Agents need 2 more copies of the same for clearing the vessel inward. This procedure is followed when a vessel arrives from abroad or even when she is arriving from an Indian Port. It is common in both the cases.

ALLEPPEY: 09.29 N. 76.23 E.

PORT LIMITS: On the North by a line drawn from the North boundary pillar (white masonry structure) to 7 fathoms of water. On the South by a line drawn from the South boundary pillar, S.W. to 5 fathoms of water and thereon West to 7 fathoms of water. On the West by a line running North to South joining the Northern and Southern boundary lines. On the East by the beach road from the North boundary pillar to a stone on the beach road 220 ft. East of South boundary pillar.

DOCUMENTS:

(a) For Port Office:

Last port clearance (original for verification and return). Ships' Registry (original for verification and return). Load Line Certificate (for perusal and return). Safety Radio Telegraphy Certificate (for perusal and return). Safety Equipment Certificate (for perusal and return). Passenger List (1). Crew List (1). Deck Cargo Certificate (1).

(b) For Customs:

Application for entry inwards. Last Port clearance. Port Office Entry Certificate. Arrival report. Particulars required by customs in approved form. Favour Parcel Certificate. Gift Parcel Certificate. Health Report. Opium Certificate. Arms and Ammunition Certificate. Import manifest. Passengers list. Stores list, crew list, and private property declaration. Ship's currency declaration. ILH receipt.

PILOTAGE: None. Open roadstead port.

ANCHORAGES: Approach to port free from navigational dangers. The anchorage, 3 miles offshore, provides good holding ground.

MAX. SIZE: Being open roadstead, vessels of any size can anchor according to draft.

HEALTH: Port Health Officer may be contacted by telegram addressed "Cyclone Alleppey" for issue of pratique certificate. Procedure to be followed in Indian Port Health Rules.

RADIO: Morse system of signalling by light and signalling by International Code flags alone are available. Vessels code can be used as call sign.

TUGS: 2 tugs owned by Port Department render services per requisitions from Agents. Tugs usually approach vessels after anchoring.

BERTHING: No Berths. Electric cranes on the pier.

MEDICAL: Government hospitals available.

DENSITY: 1025.

FRESH WATER: Only available in very small quantities.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: By stevedores.

IDENTIFICATION CARDS: Necessary only when crew land ashore.

CONSULS: Nil.

REPAIRS/DRY DOCKS: None.

REPATRIATION: Crew changes are effected subject undertaking by Owners through Agents.

AIRPORT: Cochin, 62 km. North of Alleppey. Internal flights only.

TIME: GMT plus 5.5 hours.

HOLIDAYS: For work on approved closed port holidays and national holidays labourers have to be paid extra in addition to wages.

POLICE/AMBULANCE/FIRE: Emergency (Fire and Police) 100 Alleppey Exchange.

SHORE LEAVE: Crew allowed to land. Foreigners required obtain prior permission of Police authority through Agents.

AUTHORITY: Senior Port Conservator.

BEDI BUNDER: 22.31 N. 70.02 E.

DOCUMENTS:

1 Maritime Declaration of Health.
1 Last Port Clearance.
6 Crew Lists.
6 Passengers' Lists.
4 Stores Lists.
4 Private Property List of crew and officers.
4 Certificates of Currency, Arms and Ammunition and Deck Cargo.
1 Same Bottom cargo list.
1 Hazardous Cargo List with categories.

PILOTAGE: Vessels anchor at roads as pilotage not compulsory; however, if requested in advance by Master to "Portal Bedi", ship may be piloted from Pirotan Lighthouse to Rozi Anchorage about 7 miles from port by local Pilot Guide. Pilot boards vessel off Pirotan Island Light (Lat. 22° 36′ N., Long. 69° 57′ E.).

ANCHORAGE: Lighterage port. Vessels anchor at Rozi Anchorage about 7 miles from port, where good anchorage up to 7 fathoms at LW.

HEALTH: Pratique granted on delivering Maritime Declaration of Health to Customs Officer on boarding. Vessels having touched yellow fever area prior to arrival granted free pratique by Mosquito Party to be deputed from Kandla, which can only be arranged by prior notice failing which vessel has to proceed either Kandla or Bombay for Free Pratique.

RADIO: Call sign VUK5. Working hours:

0930 – 1130 hrs.	1730 – 1930 hrs.
1330 – 1530 hrs.	2130 – 2330 hrs.

Frequency 600 m. or 500 kHz, working at 429 m. and calling at 500 m.

TUGS: Port tug available for use at anchorage.

BERTHING: No berths.

STEVEDORES: Agents and stevedores require advance ETA of 24 hours for preparing labour gangs. Daily loading is 400/500 tons for bagged cargo.

MEDICAL: 24 hours notice required for medical service. Government hospital at Jamnagar where vaccination/fever injection services available.

DENSITY: 1025.

FRESH WATER: Supplies by barge capacity 50 tons. Possible supply about 50 tons every alternate tide subject adequate supply of water in port area.

FUEL: None.

GANGWAY/DECK WATCHMEN: The services of watchmen are recommended.

OPENING/CLOSING HATCHES: By ship's crew.

CERTIFICATES:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat Exemption Certificate.
Gear Certificate.

CONSULS: None.

REPAIRS: No facilities for repairs to ships.

DRY DOCKS: None.

AIRPORT: Jamnagar – 7 miles from city. Daily flight Jamnagar-Bombay.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Non-working days and work not permitted even on payment of overtime charges: Indian Republic Day; Bakri-Id; Holi; Muharram; Gokulastami; Dasehra; Diwali; Ramzan-Id.

POLICE/AMBULANCE/FIRE: District Superintendent of Police 100 and 3795; Ambulance/Casualty Department 4444; Fire 101.

SHORE LEAVE: Crew members allowed ashore in emergency or for medical treatment. Necessary police permits take 48 hours.

REGULATIONS: No launch services available for crew. Only 5 ships allowed to work at time at anchorage. Further arrivals wait turn.

DELAYS: Delay expected for loading and discharging in monsoon due to limited number of barges available.

GENERAL: Tidal port and barges loaded and sent out to ship during tide time only. Loading of barges carried out manually.

DEVELOPMENTS: The scheme of creating additional facilities, road connection, transit godowns, electrification and water supply and cranes, etc. near mouth of creek. This newly developed area is completed and connected by good all weather road with city of Jamnagar.

AUTHORITY: Port Officer.

BELEKERI: 14.43 N. 74.15 E. (See Plan Book)

PORT LIMITS: *North.* A line drawn due West from Kawada Guda Peak into the sea up to 7 fathoms of water starting from a point 50 yards above high-water mark of the shore.

East. Seashore of Belekeri Bay 50 yards above high-water mark from North Boundary Mark to rocky promontory in Lat. 14° 40′ N. including the Belekeri Creek and all branches thereof, as far as navigable and the shores and banks within 50 yards of high-water mark Spring tides including Islands. All patta lands and other private sites excluded.

South. A line drawn due West from a point 50 yards above high-water mark of rocky promontory in Lat. 14° 40′ N. into the sea up to 7 fathoms of water.

West. A line joining the two 7 fathoms points in the sea.

DOCUMENTS:

8 Crew Lists.
2 Manifests of Stores.
2 Private Property Declarations.
2 Currency Lists.
1 Maritime Declaration of Health.
3 Passenger Lists.
4 Import Manifests.
Last Port Clearance.

PILOTAGE: Not necessary. Vessels anchor in stream and in open sea. Ships can be manoeuvred under guidance of Port Officer.

ANCHORAGE: The anchorage for shallow draft vessels in open roadstead is with Kukra Island bearing 080° (T) distance about 1.5 miles in depth of 27 ft. to 29 ft. Anchorage for deep drafted vessels is with Kukra Island bearing 080° (T) distance about 2.5 miles in depth 34 ft. to 37 ft.

HEALTH: Medical Officer, Ankola acts as Port Health Officer. Free pratique to incoming vessels granted by radio. All vessels calling from foreign destination must send radio message addressed "Medical Officer, Ankola", at least 48 hours before entering, giving last port of call, number of crew, health conditions, ETA and requesting pratique; same message must be repeated to Agents also, on which pratique granted on shore. Anchoring time is pratique time. For vessels from Indian ports pratique not required. Vessels which have taken on board passengers or crew from yellow fever areas within 30 days of departure from such ports will be under quarantine. Free pratique will not be granted until Mosquito Search Party, from nearest major port (i.e. Cochin, Goa or Bombay) has inspected, disinfected and certified that ship fit for granting pratique. Master to inform Agent well in advance if arriving from yellow fever area to enable arrange Mosquito Search Party for quick pratique.
RADIO: Recommended to give ETA or pratique messages via Goa or Bombay Radio.
BERTHING: No berths.
STEVEDORES: ETA required at least 48 hours prior arrival order Agents advise Shippers and stevedores.
MEDICAL: No hospital but good medical aid given at Karwar, 20 miles distant. In case of inoculations and vaccination at least 2 days advance notice to be given for vaccines to be brought from Hubli or Belgaum, distance 100 and 150 miles respectively.
DENSITY: 1025.
FRESH WATER: Can be supplied from Karwar by water barge.
FUEL: None.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Generally done by ship's crew.
CERTIFICATES:
Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat Certificate.
Vaccination and Inoculation Certificates.
CUSTOMS ALLOWANCES: 200 cigarettes allowed per crew member. Wine and/or Spirit: 1 bottle of light spirit and 1 bottle of hard spirit per crew member.
CARGO GEAR: Valid International cargo gear certificate not more than 12 months old. Validity shall cover whole period of loading and discharging.
IDENTIFICATION CARDS: Not required.
CONSULS/REPAIRS/DRY DOCKS: None.
REPATRIATION: Arranged from Goa or Bombay.
AIRPORT: Nearest airports Goa or Belgaumi Bombay.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Observed as declared by Port Authorities. Non-working days when work not permitted even on payment of overtime: Republic Day (26th January) and Gandhi Jayanti (2nd October).
POLICE: Tel. 49.
SHORE LEAVE: Permission may be obtained (Chinese personnel not allowed to land on shore).
AUTHORITY: Port Officer, Karwar.

BHAVNAGAR: 21.47 N. 72.08 E.

DOCUMENTS:
Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Last Port Certificate.
Manifest on prescribed form (3 copies).
Declaration of private and personal property.
Crew List.
Customs circulation copy issued by Boarding Officer of last Indian Port of call.
Place and date of Derat Certificate.
PILOTAGE: Pilotage should be arranged in advance through ship's local Agent who may be contacted via the port radio, call-sign VUJ-9. An ETA should be sent at least 48 hours in advance in order to arrange Pilot. Pilotage is compulsory. Pilot boat does not have VHF, but may be contacted by light or flag signals. Pilot station is 4.5 miles N.N.E. of Piram Island Lighthouse and Pilot boat will only be on station when the vessel is scheduled to arrive. Vessels should arrive at pilot station about 2 hours prior to time of high-water and are advised not to anchor awaiting a Pilot but to make a reciprocal course until arrival of the pilot boat.
ANCHORAGE: Vessels up to 31 ft. draft are advised to anchor about 3 miles Eastward of Perigee Light Vessel. All vessels at anchorage are loaded and discharged by means of lighters.
MAX. SIZE: Up to 500 ft. length, and up to 65 ft. breadth may berth alongside.
Permissible draft for a particular tide is arrived at by subtracting 13 ft. from predicted height of high-water for that particular tide.
HEALTH: Healthy ships are granted pratique by the Pilot. International health regulations are applicable to vessels arriving from yellow-fever areas.
RADIO: Bhavnagar Port Radio, call sign VUJ-9 should be used for routing ETA messages, and is also used by Agents in cables to shipping.
TUGS: Tug assistance is available for berthing and unberthing vessels in inner harbour. Position where tugs join the vessel is dependent upon prevailing weather conditions. Usually ship's lines are used in connections to tug.
BERTHING: Berthings are as per tides and according to permissible drafts.
STEVEDORES: The stevedoring gangs are arranged directly by Agents through approved stevedores.
MEDICAL: Medical facilities can be arranged by Master through Agent. Hospital facilities available in city of Bhavnagar which is 13 km. from port.
FRESH WATER: Fresh water supplied alongside jetty as well as at anchorage.
Shipmasters Report: Water is often in short supply, and ships may be unable to obtain any at all at the anchorage. Ships should not rely upon an evaporator to make water at the anchorage, due to the high mud content of the sea water.
FUEL: Oil bunkering available in limited quantity.
FIRE PRECAUTIONS: Alongside jetty fire-fighting facilities available. At anchorage fire-fighting facility is provided by the tug.
Usual fire precautions applicable.
GANGWAY/DECK WATCHMAN: Gangway and deck watchman are recommended.
OPENING/CLOSING HATCHES: As arranged between the Master and stevedores.
SHIP'S CERTIFICATES: Registration; Safety Equipment; Safety Radio and Telegraphy; International Load Line.
CUSTOMS ALLOWANCES: As per Customs regulations in force from time to time at Indian ports.
CARGO GEAR: Ships should possess valid Cargo Gear Certificate.
CREW IDENTIFICATION CARD: Valid international passport or identification card necessary.
CONSULS: No consulates at port. Nearest consulates are at Bombay.
REPAIRS: No repair facilities exist for the ship except repairs of minor nature which could be undertaken by private repair firms.
DRY DOCKS: Small dry dock available for repairs of vessel of up to 200 ft. length.
REPATRIATION: Possible.
AIRPORT: Bhavnagar City is served by an airport situated about 7 km. from the Port. Regular flights to Bombay are available daily.
TIME: GMT plus 5.5 hours.
HOLIDAYS: 8 holidays in all in a year declared by Port Authorities on which working of the ship can be attended at the option of the port.
POLICE/AMBULANCE/FIRE: Police force and ambulance and fire facility available from Bhavnagar City. Limited fire-fighting facility available at port.
TELEPHONES: No facility is available for providing telephones on board the ships.
GENERAL: Port equipped with 3 berths having 6 cranes with 3 ton capacity. Cranes available for loading or discharging ship's cargo.
SHORE LEAVE: Citizens of The People's Republic of China and Pakistan not allowed ashore. All other nationals are allowed to go to Bhavnagar City which is 13 km. from port for which shore passes are issued by Customs Dept.
REGULATIONS: Photography in port prohibited. No crew member allowed to take liquour ashore.
DELAYS: Delays in berthing depend upon number of ships working on berth and awaiting if any. At anchorage generally not more than 2 ships are worked at a time.
DEVELOPMENTS: Intensified dredging operations are proposed to be undertaken for increase in drafts of the vessels berthing.

SHIPMASTER'S REPORT: April, 1981.
Bhavnagar discharging anchorage is a dangerous anchorage due to strong currents and an abnormal bottom.
All Shipmasters must make contact by cable 24 hours before arrival and await appointment from Port Authorities and pilot station. VHF not available and radio station working only during daytime.
All ships must arrive at pilot station, maximum 2 hours before HW and only during daytime and in good visibility, otherwise Pilot cannot board.
For many years anchorage was used for discharging, but now closed as about 300 anchor-chains remaining on bottom. In 1981, another anchorage opened, near to the port, and up till April, 4 ships lost anchors due to strong currents and irregular bottom. Contact with shore is very difficult and at night time impossible.
Our vessel was there for discharging and from 0300 hrs. when port anchor broke with 7 shackles of chain, up till 0700 hrs. we were waiting for tugboat from shore to pick up 100 stevedores, but was impossible. At 0700 hrs. we took ship out of dangerous area without Pilot and without any assistance, with 100 stevedores onboard.
To enter Bhavnagar Port, draft no more than 17 ft. and breadth no more than 65 ft., to pass the locks.

AUTHORITY: Office of the Port Officer, Gujarat Maritime Board, New Port, "C" Jetty, Bhavnagar Ports, Bhavnagar (Gujarat), India. Pin Code No. 364005. *Contact:* Captain T. P. Patel, Port Officer. *Tel:* 24302 (office), 23763 (residence).

BOMBAY: 18.56 N. 72.49 E. (See Plan Book)

PORT LIMITS: Vessel is considered to have "arrived" when Pilot is embarked and/or when vessel is required to anchor outside pilotage area awaiting a suitable tide, as in the case of large tankers.
DOCUMENTS: See "Calcutta".
Agents to submit berthing application 15 days prior to vessel's arrival together with cargo documents.

PILOTAGE: Motor pilot vessel *"Venu"* stationed Lat. 18° 51′ N., Long. 72° 49.5′ E. White, buff-coloured funnel, "Pilot" painted black capitals, exhibiting International Signals by day/night. Call sign "ATDZ".

Minimum advance notice 24 hours to Agents and Harbour Master through Bombay Radio (VWB) and 12 hours to pilot vessel on WT. Pilot vessel contacted VHF Channels 12, 14 and 16. In case pilot vessel not on station, vessels advised anchor at Pilot station, draft permitting, and wait instructions.

Vessels must not proceed beyond Sunk Rock inwards without a Pilot. Pilot normally boards/disembarks 1 mile E.S.E. of Prongs Reef Buoy. Whenever draft restrictions apply or a berth or anchorage is not available the Harbour Master will advise the correct time at which to approach the pilot station and vessels should stand off until such time. Deep draft vessels normally enter 2 hours before High Water.

ANCHORAGES: More than 60 anchorage berths radius 1,000 ft. with depths from 38 ft. to 14 ft.; of these two 38 ft.; 30 between 30 ft. and 35 ft.; 22 between 20 and 30 ft.; remainder below 20 ft. All anchorages safe.

RESTRICTIONS: According to state of tide and draft.

MAX. SIZE: Drafts are subject to dredging, rise of tides. Drafts every month are declared by Deputy Conservator.

Name of Dock	*Max. Normal Dimensions (ft.)*		*Max. Oversize Dimensions (ft.)*	*Remarks*

Also see "Tankers".

PRATIQUE: The Master of every vessel calling Bombay from a foreign port must send the following particulars by cable to "Quarantine Bombay" 24 hours prior to arrival and request for radio pratique:

> AAA ports of loading BBB last port of call CCC date of departure DDD ETA discharging port EEE vessel's Maritime Declaration of Health is negative and total number of crew on board all healthy FFF vessel has not called at any port in East Africa between Northernmost point of Eritrea and Southernmost point of Tanzania including Zanzibar or any other yellow fever infected area within last 30 days GGG no unusual mortality of rats on board HHH no monkeys III no persons embarked at Aden or Djibouti.

If the vessel is coming from a yellow fever area, then the Port Health Officer boards the vessel for inspection before granting free pratique.

RADIO: Bombay Coastal Station, call sign VWB.

Information regarding weather will be broadcast at 0630 hrs. and 1030 hrs. local time on 2,000 metres.

Tankers: Radio Advice: Radio Agents 96 hours before arrival giving Master's name, ETA, draft, ports visited last 30 days, vessel's gross and net tonnage, present loaded displacement, distance manifold from amidships, cargo quantities on board gradewise, and, if Bombay last discharge port, "Load-on-top" data, vaccinations required, men for doctor and dentist, supplies and cash requirements. *Failure to comply with foregoing could incur berthing delays.* Confirm ETA 48 hours before arrival. Any subsequent changes to be notified to Agents.

Note: Agents Offices are closed from Friday 1730 hrs. IST to Monday 0930 hrs. IST. Week-end messages to be in by Friday afternoon.

If wheat, flour, rice or tea required, advise quantity required and balance remaining on board, as these are restricted items in India and notice is required to release them. Radio "Quarantine Bombay" 12 hours before arrival using Standard Quarantine Messages from International Code of Signals, if vessel has called at a Yellow Fever area port within the last 30 days, whether all on board have valid Yellow Fever Vaccination Certificates or if any contagious disease is suspected.

Radio Pilot as soon as possible giving ETA, draft and any subsequent changes in ETA to the pilot vessel; call sign ATDZ Frequency: 500 kHz, working range: 800 miles, watch keeping 0400 – 0600 hrs., 0800 – 1000 hrs., 1200 – 1400 hrs., 1600 – 1800 hrs. GMT on weekdays only. These messages are free of charge.

Bombay Port Trust operates a VHF Service on Channels 12, 14 and 16. Call Sign – "Harbour Control" on a 24 hour basis for berthing control purposes.

Agents can be contacted by Bombay Radio VHF Channel 26, and thence public telephone system.

Where for any reason such as adverse weather, a vessel does not anchor on arrival the Master should ensure that the Port Authority is advised of his arrival as vessels are handled on a first-come-first-served basis.

N.B.: A Naval Signal Station is situated on the extreme south end of Bombay Is. at Colaba Pt. and all ships entering or leaving port are liable to be called up by signal lamp. Masters are required to answer such signals by lamp should their ship be called up.

Also see "VHF".

RADAR/VHF: No port radar service. Shipmaster contacts pilot vessel by ship's radio or VHF on international frequencies. Channels No. 12 and 14 also available on VHF.

TUGS: 8 tugs, 900 h.p. – 1,200 h.p. Tugs join vessel when close dock entrance and assist undocking. Ship's and tug's lines used.

BERTHING: *Indira Dock:* 21 berths, able to handle cargo vessels up to 20,000 d.w.t. Average length of berth 150 m. Most berths are equipped with 1×6 ton crane and 4×3 ton cranes.

Victoria Dock: 15 berths, able to handle vessels up to 5,000 d.w.t. Average length of berth 110 m. Most berths are equipped with 1.75 ton and 1.5 ton cranes.

Prince's Dock: Length 1,560 m. of which 1,200 m. is available for handling cargo. There are 8 berths able to handle vessels up to 5,000 d.w.t.

Ballard Pier: Length 244 m., width 110 m., when converted will handle passenger vessels up to 30,000 g.r.t. and cargo vessels up to 22,000 d.w.t.

The extension at Ballard Pier will be the new passenger terminal and will receive passenger vessels up to 30,000 g.r.t. at any stage of the tide.

CONTAINER HANDLING FACILITIES: New container terminal at Indira Dock No. 1 and 12B and Ballard Pier. Total area 12 acres. 3×35 tonnes rubber tyred gantry cranes.

A new 35 ton gantry crane has been installed.

A second container gantry crane to be erected in 1985.

CRANES: *Quay side:* Electric and Hydraulic cranes available at Indira, Prince's and Victoria Docks.

Mobile Cranes: 56 mobile cranes with capacities up to 43 tons available.

Heavy lift: Electric crane of 60 tons and steam crane of 20 ton capacity.

Floating cranes: 2 available, 60 ton and 125 ton capacity.

STEVEDORES: Supplied by Dock Labour Board. Port Trust supplies shore labour for handling cargo including stacking in sheds.

MEDICAL: Hospital facilities available. Notice in sufficient time, depending on seriousness of case, to arrange for transport, hospitalisation, etc.

TANKERS: Reducing pipe connections available at jetty. Dirty ballast tank available at Marine Oil Terminal. 3 berths at Butcher Island and 1 berth at Pir Pau exclusive to tankers. For draft details see "Max. size".

Pir Pau can handle tankers up to 16,000 d.w.t. and the Marine Oil Terminal at Butcher Island can handle tankers up to 54,000 d.w.t. at 2 berths and 36,000 d.w.t. at the other berth.

Tugs/Mooring: Two tugs required for berthing. Conditions at Pir Pau during S.W. monsoon necessitate the use of heavy wire springs which are supplied by the Bombay Port Trust.

Double back springs are required at Butchers Island on account of the Strong Ebb stream experienced there. Prior to the start of the Ebb it must be ensured that both back springs and breast lines are taut.

Normal mooring lay out includes in addition 3 head/stern ropes and 2 breast ropes fore and aft. Moorings must be tended regularly in view of strong currents and unsettled weather.

Loading: Crude oil and refined products handled through 8 in. hoses.

In order to minimise connecting up time on Crude Oil carriers reducing pieces suitable to receive 10 in. hoses (maximum 4 hoses available) should be fitted to the manifold prior to arrival alongside. The Pilot on request will inform vessel which side to the ship will be berthed.

The shore will accept ship's arrival ullage figures taken without their representatives present if this is necessary in order to avoid delay in commencing discharge.

Loading white oil tankers involves considerable line-clearing.

Handling of packed cargo not permitted during the discharge of Low Flash bulk cargo.

Fuel: Fuel Oil, Diesel Oil and Gasoil available ex-wharf. Lubricants available.

Fresh Water: Unlimited quantity of drinking and boiler water available ex-wharf and by waterboat, loaded concurrently with cargo operations.

	Delivery Rate:
Butcher Island	30 – 35 t.p.h.
Pir Pau	5 – 6 t.p.h.
Alexandra Dock	12 – 15 t.p.h.
2 Port Trust waterboats (250 tons, 130 tons)	25 t.p.h.
4 Privately owned waterboats (150 tons each)	25 t.p.h.

Tank Cleaning/Dirty Ballast: Butcher Island Berth No. 2: Line 16 in. Max. quantity acceptable 4,500 tons. Rate 1,000 t.p.h. Clean ballast may be pumped overboard.

General: During the early part of the S.W. monsoon, when the wind is South of S.W. the sea runs from the South and Masters are advised to keep their ships heading East when making a lee for the Pilot.

Crude Oil vessels discharging at Butchers Island are often required to "pump over tide" to reduce their draft before the first Low Water after berthing hence vessel should be in all respects ready to commence discharge once mooring and connecting up are completed. Discharge over the first 4 hours should be planned to reduce vessels draft bodily.

Crew landing passes are issued, and these are to be returned before sailing.

New berth at Butcher Island (4th oil berth), completed April 1984. Berth will handle tankers up to 125,000 d.w.t. with 42 ft. draft.

Also see "Report".

DENSITY: The Port of Bombay is essentially a salt water port and major fluctuations in the density occur on account of tide. Density varies mostly in monsoon period June to September.

FRESH WATER: Available all berths. By water-boat in stream, by water-mains in docks.

Ship Officer's Report: Vessel berthed at Ballard Pier, East side. Fresh water availability on pier dependent on capacity of storage tank at the time of call. The water was not available continuously and we had to wait for the tank to be refilled.

FUEL: Arranged by oil companies through Agents. Facilities at berths in docks and Butcher Island berths. No bunker facilities for vessels at anchor.

FIRE PRECAUTIONS: All regulations of Petroleum Rules (chapter 1/50 of BPT Port Rules). Port maintains fire stations, 24 hours per day, both at docks and at Butcher Island Oil Terminal. Special precautions taken for tankers at Marine Oil Terminal at Butcher Island.

GANGWAY/DECK WATCHMEN: No deck watchman supplied. BPT gangways generally available all berths except Butcher Island and Pir Pau.

CERTIFICATES:

International Safety Equipment Certificate.
International Safety Radio Telegraphy Certificate.
International Safety Radio Telephony Certificate.
International Exemption Certificate (Deratisation).
International Load Line Certificate.

CARGO GEAR: Compliance BPT Port Rules and Docks By-laws essential. Hydraulic Quay Cranes, Electric and Heavy Lift Cranes, Floating, Mobile and Crawler Cranes all available.

IDENTIFICATION CARDS: Necessary for Police/Customs authorities.

REPAIRS: All repairs possible.

DRY DOCKS: Two: "Merewether" 525 ft. long, 65 ft. 6 in. wide. "Hughes" 1,000 ft. long, 100 ft. wide.

REPATRIATION: Can be arranged, also crew changes.

AIRPORT: International Airport Santacruz, 15 miles from Bombay Harbour.

TIME: Indian standard time ahead of GMT by 5 hours and 30 minutes. No alterations to clocks are made any time.

HOLIDAYS: Holidays for the docks (when cargo handling is closed) are fixed every year. Republic Day (January); Bakri-Id (February); Holi (2nd day) (March); Muharram (March); Maharashtra Day (May Day); Buddha Jayanti (follows May Day); Independence Day (August); Ganesh Chaturthi (September); Mahatma Gandhi Jayanti (October); Dasara (October); Diwali (November); Ramzan-Id (December); Christmas Day.

POLICE/AMBULANCE/FIRE: Police 100; Ambulance 102; Fire 101.

TELEPHONES: Arrangements for placing a telephone on board ship exist at all transit sheds in Docks.

SERVICES: Tank cleaning equipment is not available. Dirty ballast accepted in tank at jetty at Marine Oil Terminal.

REGULATIONS: Stringent Port Rules and Docks By-laws detailed in "Bombay Port Rules".

DEVELOPMENTS: Satellite port in Nhava/Sheva area approved (port to handle vessels up to 70,000 d.w.t., container and bulk cargoes) also new harbour near Sassoon dock for trawlers drawing 5.5 m.

SHIPMASTER'S REPORT: September, 1979.

Anchorage: If inner anchorage berths occupied then pilot station will inform of same and vessels to anchor in Anchorage "A" or "B" West of Prongs Reef Lighthouse. The prohibited anchorage area between the zones is due to pipes and cables of the Bombay High Oilfield. Patrol vessels "Sagarika I" and "Sagarika II" inform vessels if they are beyond anchorage limits and vessels should adhere to their instructions.

Radio: Call sign "VWB". 24 hours watch. HF & MF. Vessels with good transmitter can contact Bombay directly from Port Said or Cape Town or Singapore.

Radar/VHF: VHF Channel 16 for contact with Pilots and listening watch. Call Bombay Pilots or Bombay Harbour Control. Channel 12 is port frequency for berthing or shifting.

Hatches: Opening and closing of hatches, beams, hatch covers by Stevedores. All mechanically operated hatches opened and closed by ship's crew. Rigging gangs at Owners expense may be employed for these jobs.

Stevedores: 1st shift (0800 – 1700 hrs.), 2nd shift (1700 – 2300 hrs.), 3rd shift (2300 – 0500 hrs.).

Consuls: U.S.A., Australia, Belgium, A.R.E., France, Greece, W. Germany, Japan, Liberia, Norway, Sweden, U.K., U.S.S.R. and others.

Medical: Excellent medical facilities and hospitals.

Customs: Weekly allowance of 1 bottle spirit (700 ml.) and 200 cigarettes.

Specialised Cargo Handling Facilities: Ballard Pier Berth specially reserved for container and roll-on/roll-off vessels. Another container berth and container yard being formed at Berth No. 23 I.D. As Bombay Port not full geared for mechanical handling of cargo, advance information and notice will aid Agents in arranging for specialised services and fork-lifts. Good facilities for LASH system of cargo.

Surveyors: All surveyors available. Standard marine and general surveyors.

REPORT: Pir Pau Jetty (LPG), June 1984.

Pir Pau Jetty: Datum draft 19 ft. 4 in. for Max. LOA 525 ft. Pir Pau Channel datum 13 ft. 1 in. Max. rise of tide approximately 15 ft. No berthing/unberthing between sunset and sunrise.

Pipeline/discharging facilities:

1. Refrigerated cargoes acceptable, but due design limitation of pipe-line/tank volume cargo to be heated to −10°C. before discharge. Sea water temperature at Bombay during year 18° minimum to 23° maximum.
2. Pipe-line length 5 km. diameter 8 in. ASA 300 psi, no vapour return line available.
3. Max. discharge rate 120 tonnes/p.h. at back pressure 14.5 kg/cm. (abs).
4. Vessel to carry suitable hoses making length of 75 ft. for discharge keeping in view items (2) and (3) above and to be equipped with derrick.

AUTHORITY: Bombay Port Trust, Administrative Offices Building, Shoorji Vallabhdas Marg, Bombay-400 038. *Tel:* 268011. *Telex:* 011-2345. *Contact:* Harbour Master.

CALCUTTA: 22.32 N. 88.22 E. **(See Plan Book)**

DOCUMENTS:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat Certificate.
Port Clearance from Last Port.
Indian Coast Light Dues Receipt (if any).
4 copies of Crew List.
4 copies of Passenger List.
1 copy of Through Cargo Manifest.
4 copies of Stores List.
1 copy of Cargo Manifest with B/Lading for the same.
4 copies of Opium and Dangerous Drugs Certificate.
Cargo Plan.
Cargo on Deck declaration.
4 copies of Certificate of Foreign Currency.
4 copies of Certificate of Arms and Ammunition.
Letter to Assistant Collector of Customs regarding Local Agency.
Letter to Assistant Collector of Customs regarding duty on ships stores.
Application to the Inspector of Police.
3 copies of Arrival Report.
4 copies of Watches and Clock List possessed by each member of the crew.

PILOTAGE: Telegraphic address of Pilot station: VWST "Pilots Sandheads". Radio message should be sent 48 hours prior arrival giving (a) ETA Eastern Channel Lt. Vs.; (b) from . . . to . . . (either Haldia, Budge Budge, or Calcutta); (c) deepest *fresh* water draft; (d) length overall; (e) g.r.t.; (f) whether VHF is or is not on board.

Pilot boards vessel at Sandheads from pilot vessel fitted with W/T, DF, VHF, radar, echo sounder and other navigational equipment, maintains continuous watch on 500 kHz. (600 m.) and receives ETA messages of incoming vessels.

As an aid to navigation, navigable channel in river is marked with lights and channel buoys. There is a lighthouse at Sagar and downstream from this point, 2 unattended Light Vessels are stationed at Upper Gasper and Lower Gasper and 2 attended Light Vessels at Intermediate and Eastern Channel Stations. Navigable channel leading to Haldia Port from sea is 63 nautical miles and to Calcutta about 123 nautical miles. There are 15 bars in different reaches of the river, 4 of these are downstream of Haldia and the remaining 11 between Haldia and Calcutta. Since these bars are subject to fluctuations, the river is regularly surveyed and dredged as required. Owing to sharp bends, narrow channel and difficult tidal conditions the navigation of ships between ports and sea requires service of trained Pilots employed by The Port Trust. River Pilots take charge of vessels at Sandheads, navigate to Haldia/Garden Reach as the case may be and then hand over to Harbour Pilots who manoeuvre vessels to Haldia Dock or riverside jetties, moorings, or dock entrance lock at Calcutta. Movement of ships inside docks is guided by Berthing Master.

Shipmaster's Report: December 1983.

Procedure for sending ETA Sandheads Calcutta: Vessels calling at Calcutta should, along with their ETA messages to the Commander Pilot Vessel, Sandheads, also indicate the Owner's/Agent's name and only then will Master's ETA message be recorded, otherwise vessel will not be treated by Calcutta Port Trust on arrival at Sandheads for further coming up river to the port.

ANCHORAGES: Anchorage in River Hooghly at Saugor Roads, Halida Kalpi, Diamond Harbour, Royapur, Ulubaria and Garden Reach of which Royapur, Ulubaria and Garden Reach utilised only by ships on passage to and from the port in emergency. Depths of anchorages vary on day to day basis according to River Draft Forecast but on average 30 ft. deep.

RESTRICTIONS: Navigation on River Hooghly is carried out only with Pilot on board and according to tide. Speed of vessel important factor and must be declared to Pilot on board, preferably telegraphed 48 hours in advance to Pilot vessel.

MAX. SIZE: Maximum LOA 565 ft. with beam of 80 ft. for Netaji Subhas Docks and 515 ft. LOA with beam of 70 ft. for Kidderpore Docks. A vessel of 535 ft. and over can sail out as "Tide Time Sailing" only and this restricts her draft from Calcutta.

Maximum LOA of tankers for tanker terminal at Budge Budge is 620 ft. Restriction of beam for vessels berthed at Baj Baj is 85 ft. Deepest draft alongside dock berths in Netaji Subhas and Kidderpore Docks 8.70 m. At Budge Budge deepest draft at any berth 9.00 m. Berthing of vessels, depends on prevailing draft of day published in Draft Forecast for month.

PRATIQUE: Procedure for obtaining pratique: To obtain Radio Pratique incoming vessels communicate by wireless to Port Health Officer, Calcutta, Cable address: "Quarantine Calcutta":

(a) No sickness or death from sickness on board within last 15 days.
(b) No sand, earth, pig, poultry, crew or passenger taken aboard from E. Coast of Africa between Port Sudan and Durban, both ports included.
(c) Ship not touched within last 30 days any port in E. Africa between Northernmost point of Eritrea and Southernmost point of Tanzania, including Island of Zanzibar or any other yellow fever infected area.
(d) No abnormal mortality of rats or mice on board.
(e) No monkey on board.

(Item *(a)* to be sent in code under usual standard quarantine messages required by ships; rest in plain language through local wireless station.)

In case of any suspected disease or fever on board, local Agents may be contacted by cable who arrange for doctor to be sent or for removal of a patient if necessary. Vessels calling at another port in same country are exempted from obtaining pratique.

RADIO: Calcutta Radio, call sign VWC. R/T. and VHF.

Information regarding weather distributed at 1030 and 0630 hrs. local time on 2000 metres.

Also see "Pilotage".

TUGS: 15 tugs, 550 hp. – 2,200 hp. Tugs used for vessels after passing lock entrances at Netaji Subhas and Kidderpore Docks. Tugs used for vessels to turn. Vessels own lines. At Garden Reach sailing on ebb tide for "Tide Time Sailings".

BERTHING: Vessels brought in for berthing according to tide. Movements from one berth to another inside dock not dependent on tide, but according to convenience of port. Vessels berthed at riverside jetties or river moorings required to have starboard anchor unshackled in order that starboard chain could be tied to buoy on arrival. After first chain is shackled on, port anchor is unshackled and 2 pieces of chain, each 30 fathoms long are removed from port cable and sent aft by boat and made fast to buoys, etc., and tied to stern of ship. The remaining port cable is tied up to another buoy forward. Vessels at river jetties and river moorings if left during Bore Tide are to comply with following:

Half an hour before low water:

(a) Gangway to be hoisted up, if ashore.
(b) Pipe-lines disconnected and triced up (for vessels at Budge Budge Jetty).
(c) Heave tight on forward chains to keep vessel about 6 ft. off jetty or pontoon. Make sure weight is on bore springs and not on chains aft.
(d) Tighten all buoy ropes.
(e) When bores expected, all vessels in stream shall have steam on main engines, windlasses and winches and a sufficient number of officers and crew on board to tend vessel in case of emergency.

After bore made, and vessel stopped ranging, slack forward chains to old mark. Bore springs could be had through Agents from local suppliers.

Baj Baj (oil terminal) on banks of River Hooghly has river jetties, hence above instructions also apply to vessels berthed at Baj Baj Jetties.

At Baj Baj two lengths of chain provided by Port Trust for stern moorings.

Kidderpore Dock: Lock entrance: 580 ft.×80 ft. 19 general cargo berths. 2 coal berths, of which one is fully mechanised. Peak loading rate 400 m.t.p.h.

Netaji Subhas Dock: Lock entrance: 700 ft.×90 ft. 8 general cargo berths, No. 1 berth equipped with 200 ton heavy lift crane. One oil berth, Berth "C", used for unloading petroleum products. 6 additional berths available.

Garden Reach Jetties: 2 alongside berths.

Budge Budge: Also see "Tankers". 6 jetties which can accommodate vessels up to 625 ft. (190.50 m.) LOA.

Jetties were previously used mainly for petroleum products for which large storage tanks are available. With the commissioning of the Indian Oil Refinery at Haldia, movement of products by large tankers has been transferred.

These jetties are presently available for handling bulk liquids like edible oil, vegetable oil, soya bean oil, etc., for which separate storage of 59,000 m.t. capacity is under control of the State Trading Corporation.

BRIDGES: 2 bridges, 1 collapsible, 1 swing, situated inside Kidderpore Dock are open for navigation to suit convenience of port.

STEVEDORES: 48 hours notice of arrival at pilot station required by Agent.

MEDICAL: Masters in need of medical services required cable Agents. Hospital facilities. Ships leaving for foreign port or minor Indian port (where no Port Health Officer) required to ensure officers and crew have valid health certificates (for cholera and yellow fever if proceeding to a yellow fever area).

TANKERS: Not permitted discharge residue into dock (at C berth Netaji Subhas Dock).

S.G.	A.P.I. of local types of oil
0.91 and 0.94	0.9430 varying to 0.9550.

Tanker terminal at Baj Baj 13 nautical miles from Calcutta by river.

BB Jetty No. 1 for accommodating vessels of OAL				620 ft.
„ No. 2	„	„	„	430 ft.
„ No. 3	„	„	„	230 ft.
„ No. 5	„	„	„	620 ft.
„ No. 6 out of commission				
„ No. 7	„	„	„	510 ft.
„ No. 8	„	„	„	620 ft.

Deepest draft alongside jetty berths 9.0 m., but vessels brought up according to prevailing draft as per forecast.

Berthing: Vessel is moored Starboard side to at Budge Budge as follows: Port Anchor to about 6 shackles on the Port bow with the ship's Starboard cable shackled to the shore cable on the Starboard bow. 2 shore cables made fast round the bitts are used aft. These cables are crossed. An experienced shore Mooring Gang boards vessels to assist in berthing, and these men require very little help from the Ship's Crew. The operation generally takes about 1.5 to 2 hours.

The sequence is as follows: The Port anchor is dropped well off and up-stream of, the Pontoon, on the first of the Ebb tide. The vessel's bow is then swung into the forward in-shore mooring buoy by a mooring rope. This buoy is then brought close under the bow whilst the Starboard ship's cable is made fast to the shore cable. For this purpose, the Shore Mooring Gang, will, on first boarding, hang off the Starboard anchor, through the hawse pipe, leaving the first 15 fathoms of cable flaked on deck. Ship's wire rope (100 mm.), should be available for hanging off, together with 75 mm. rope, quantities will be advised by the Berthing Master for lashing the cable.

When the forward cable is fast, the stern is swung, again using mooring and are made fast round the two bitts. 75 mm. (3 in.) rope lashings will also be used here. On completion of making fast the after cables, the vessel is hove into position by the windlass. The mooring ropes are made fast to the two quarter and two bow mooring buoys and are again used when the shore Gang board to break moorings prior departure. To avoid any chance of delay in mooring, the vessel should ensure that the first shackle of her Starboard cable is free prior to arrival, and should have three joining shackles ready for use in case these are required. One ship's wire will be required forward, for hanging off the anchor, and two aft, for heaving on board the ends of the shore cables. Although the shore Mooring Gang have their own shackles, etc., at Budge Budge, it is necessary for the ship to provide a drift punch and heavy hammer for breaking the cable.

It should be noted that at Calcutta itself there are not enough shore chains to provide moorings to all vessels using the port, and in these cases vessel's Port anchor cable will be broken to provide the after moorings. All the Budge Budge Berths, however, are supplied with sufficient cables. These latter cables are anchored to swamped moorings at each berth.

During the period of Bore Tides, the above moorings may have to be supplemented by coir ropes supplied by Burmah-Shell. In such cases, and in the event of the cable moorings requiring attention during the vessel's stay at Budge Budge, the local Harbour Master, or his assistants will advise the vessel.

Shore Lines: All products handled through 150 mm. (6 in.) or 200 mm. (8 in.) hoses.

Restrictions: Handling of packed cargo not permitted during the discharge of Low Flash bulk cargo.

Fuel: Fuel oil, Diesel oil and Gas oil available ex-wharf at Budge Budge and by lighter. Lubricants available.

Fresh Water: Not available.

Tank cleaning/dirty ballast facilities: Line 100 mm./250 mm. (4 in./10 in.). Max. quantity acceptable 130/170 tonnes. Rate 60/100 t.p.h. Limited facilities for various grades. Clean ballast may be pumped overboard.

General: A continuous and strict watch especially during the hours of darkness, should be kept on the vessel, both when anchored or in the berth, in order to prevent unauthorised persons boarding the vessel.

DENSITY: Average density in port is about 1000.

FRESH WATER: Fresh water on application from Masters or Agents and preferable if at least 48 hours' notice given. Supplies through barges and direct from quay line.

FUEL: Redwood 600/700 sec. supplied at Calcutta and require at least week's notice for supplying vessels lying inside dock. Fuel also supplied at Budge Budge terminal, 3 days notice to suppliers and Port Authorities.

FIRE PRECAUTIONS: Usual non-smoking precautions and Master, Owners, Charterers or their Agents of vessels carrying import cargo or intending to load export cargo of hazardous or inflammable nature, furnish 6 copies of list of cargo involved to Traffic Manager in prescribed form, at least 10 days before vessels intend to land or ship cargo. Traffic Manager on receipt of list, categorise items enumerated in list and landing delivery and storage of such cargo be done strictly in accordance with instructions.

GANGWAY/DECK WATCHMEN: Necessary and recommended by Agents at rate of 3 watchmen per shift of 8 hours.

OPENING/CLOSING HATCHES: Normally undertaken by stevedores, unless specifically mentioned that same will be attended to by crew.

CUSTOMS ALLOWANCES: 0.25 lb. tobacco and 200 cigarettes. Wine and/or Spirit: 1 bottle of wine or spirit per head for consumption on board.

CONTRABAND: Regulations provide that a vessel shall be liable to confiscation which is or has been in Indian Customs' waters where constructed, adapted, altered or fitted in any manner for the purpose of concealing goods.

The act also provides for a fine in lieu of confiscation which could in theory be up to the value of the vessel.

Indian Customs Authorities regard vessels as subject to the regulations if they have any alterations to the normal structure of the vessel or its fittings which is not of operational value, e.g. holes cut in panelling (over bulkheads) which are frequently found concealed from view behind cabin furniture such as settees, bunks desks, wardrobes, etc. Customs invariably impose fines for such cavities even though empty of about Rs. 5,000/- for 1 or 2 cavities and increasing if more cavities are found. Fines would be substantially higher if cavities in fact contained contraband.

To minimise fines it is essential that Shipowners should instruct their Masters to organise periodic anti-smuggling searches of all accommodation and other places in the vessel by ship's officers with a view to locating any cavities or contraband and such searches, and results thereof, should be logged. Furthermore, the Customs Authorities invariably obtain a statement from the occupant of the cabin whether instructions had been issued by the Owners or Master for each officer crew member to search his own cabin for cavities or hiding places or other unusual or irregular tampering with the normal structure of the cabin and to report to the Master any such cavities, hiding-places or such other unusual tampering found at any time whilst serving on the vessel.

If no such instructions have been issued, the Customs generally regard the Owners/Master as failing to take proper anti-smuggling precautions and the risk of increased Customs fines arises.

It is suggested that appropriate instructions should accordingly be issued without delay by all Masters to their officers and crews and that each officer or crew member should acknowledge receipt in writing of such instructions. It is also emphasised that such instructions should also be notified to any officer or crew member who joins the vessel after first issue of the instructions to the existing officers and crew.

CARGO GEAR: Proof of cargo gear tested by a competent authority required.

IDENTIFICATION CARDS: Not necessary if holding seamen's books or passport.

CONSULS: (Telephone Numbers)

REPAIRS: All types of deck and engine repairs undertaken.

DRY DOCKS: 5 dry docks owned by Port Trust available. 3 in Kidderpore Docks and 2 in Netaji Subhas Docks, dimensions as follows:

Dry Dock (Kidderpore) (1) 547 ft.×69 ft.×25 ft. (2) 497 ft.×69 ft.×27 ft. (3) 350 ft.×60 ft.×23 ft. (max. length/beam of vessel allowed. No. 1: 515 ft.×64 ft. No. 2: 500 ft.×64 ft. No. 3: 335 ft.×48 ft.)

Dry Dock (Netaji Subhas) (1) 581 ft.×80 ft.×22 ft. (2) 596 ft.×80 ft. ×22 ft. (max. length/beam of vessel allowed. No. 1: 565 ft.×75 ft. No. 2: 565 ft.×75 ft.)

Netaji Subhas Dry Docks arranged in tandem and used as one dock. Power supply, compressed air and fresh and unfiltered water supply, hydraulic capstans for propeller work and cranage service including heavy-lift available all dry docks. Each dock provided with automatic telephones for use on board ships.

REPATRIATION: Facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORT: 12 miles; served by regular international airlines with minimum 1 flight per day.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Closed Holidays (when no work is permissible): Independence Day, Republic Day, Gandhi's Birthday, Vijaya Dashami and Kali Puja.

Holidays when double wages payable: Saraswathi Puja, Netaji's Birthday; Idul Fitr, Dholjatra, Muharram, Bengali New Year, May Day, Fateh Duaz Dahan, Durgapuja, Guru Nanak's Birthday, Id and Christmas Day.

POLICE/AMBULANCE/FIRE: Police (port) tel. 45–1701 and ask Port Police or dial 100; Ambulance dial 102 or 45–4163; Fire dial 101 or 45–1701 and ask Fire Fighting Service.

TELEPHONES: No arrangements for installing telephones on board, but use of telephones from Port Trust's/Superintendent's Office on each dock.

GENERAL: *Important:* Masters of vessels in port should ensure that vessel's engines are not immobilised without prior permission of the Harbour Master.

SERVICES: Tank-cleaning equipment with minimum notice of at least 7 days. Discharge of tank-washings not permitted while vessels lying in dock. Compass and radar technicians available.

SHORE LEAVE: Seamen permitted to go ashore after cleared by Immigration Officer boarding vessel on arrival. In case of Chinese, special permission to be obtained from Immigration Authorities, through vessel's Agents.

REGULATIONS: Booklet "Dock and Jetty Handbook" supplied free by Port Trust to incoming vessels.

DELAYS: Delays occur during monsoon.

DEVELOPMENTS:

1. Container terminal (Netaji Subhas Dock) with related facilities to be set up (study underway). The aim being to increase capacity from 21,000 containers per year to 200,000 containers.
2. 11 new cranes and 16 fork lifts to be purchased.
3. Dredging (maintainance – deepening) of river to allow deeper draft vessels into Calcutta and Haldia.

SHIPMASTER'S REPORT: September,1979.

Approaches: When approaching Calcutta from South Sri Lanka it would be advisable to pick up False Point Light and then proceed to Eastern Channel Light Float at Sandheads for Pilot. During the S.W. monsoon vessels encounter long spells of overcast skies and rain hence vessels should pick up Dolphin Nose Light at Vishakhapatnam then coast up to False Point Light before branching off to Eastern Channel light vessel.

Pilotage: Pilots board at the Sandheads. For picking up Pilots from the pilot vessel, vessels will have to approach close to the Pilot, stern to stern. Separate accommodation has to be provided for Pilot.

Restrictions: None for vessels below 22 ft. draft. Those between 22 ft. and 24 ft. 6 in. may have to wait for Spring tide for entrance and departure. However, Hooghly River Authority publishes a booklet every month stating the draft restrictions for entry into Calcutta.

Berthing: Whilst entering locks, passing through cuttings and berthing, vessels should have good fenders rigged 2 ft. above the water to prevent dents and scrapes to the hull. The Port is not equipped with fenders. The coal berths at Kidderpore Docks are old. Masters should exercise caution when coming alongside these berths for waiting or loading. For tying up to riverside moorings both anchors have to be unshackled. Starboard cable lead to port buoy and port cable to starboard buoy in a cross fashion. At the stern vessels with stern cables will have to follow the same as forward. Over and above, ropes and tackles will have to be rigged for taking the initial stress of the bores before strain comes on the cable.

Tying up the vessel to the buoys at the riverside moorings can be aided by experienced shore mooring gangs at Owner's expense.

Radar/VHF: No Radar. VHF Channel 16 for contact with pilot boat or by W/T.

Customs: Very stringent about cargo particulars.

Cranes: One heavy lift quay side crane of 200 tonnes. Berths 2–5 at NS Docks fitted with electric 5 tonne cranes. Berths A & B of NS Dock and Berths 2–11 of Kidderpore Dock fitted with 3–5 tonne electric cranes of 90 ft. radius for overside discharge/loading.

Hatches: Wooden hatch boards and beams by stevedores. Mechanically operated or other hatches by ship's crew. Rigging gangs may be employed at Owners' expense.

Stevedores: 1st shift (0630–1530 hrs.) 2nd shift (1530–2230 hrs.) 3rd shift (2230–0530 hrs.).

Medical: Very good hospitals and nursing homes.

Specialised Cargo Handling Facilities: Containers can be loaded and stuffed aboard. No Roll-on/Roll-off facility.

Surveyors: A.B.S., I.R.S., L.R.S., G.L., N.V. and others. Standard marine, cargo surveyors and general surveyors also available.

General: Vessels navigating the Hooghly River should be very careful about river thieves who will board the vessel whether stopped or at anchor or making way at full speed.

AUTHORITY: Calcutta Port Trust, 15 Strand Road, Calcutta – 700001, India. *Tel:* 223451 (16 lines). *Telex:* Portcom CA 7336. *Cables:* Portcom. *Contact:* Director, Marine Department.

CALICUT: 11.15 N. 75.46 E.

PORT LIMITS: The seaward (Westward) limit of the port is the 9 fathom line.

DOCUMENTS:

Register.
Articles of agreement in the case of foreign-going vessels staying in port for more than 48 hours.
Nominal list of crew and passengers and the A & B Certificates.
Bill of Health in the case of a vessel arriving from an infected port.
Clearance from last port.
Port and Light dues receipts.
Vessel's manifest and any other document, which may be necessary.

PILOTAGE: No pilotage available.

ANCHORAGE: Anchorage is about 3 miles offshore. Mud – good holding ground.

HEALTH: In the case of all infected vessels Health Officer proceeds aboard, and in the case of all other vessels Health Officer may proceed on board and examine vessel. Master shall give every facility for examination of passengers, crew, personal effects, cargo, provisions, water-supply and any part of vessel Health Officer considers necessary to examine. Health Officer may require written declaration from medical officer (if any) of vessel or from Master (or from both) stating whether any death or sickness from an unknown or suspicious cause or any case of any disease occurred on board either during voyage or before departure, and whether any unusual mortality has been observed among rats on vessel. If Health Officer satisfied that such deaths or cases of sickness as may have occurred were not due to any of diseases specified he shall permit vessel to proceed to usual place of anchorage or berth in harbour and to discharge passengers and cargo without further restriction. Inspection by Health Officer not between sunset and sunrise except in unusual circumstances.

RADIO: Messages through Cochin Radio or Mangalore Radio.

SIGNALLING: The signal station is situated close North of the lighthouse. The station is manned 24 hours a day.

TUGS: 4 motor tugs for towing lighters.

BERTHING: No berths.

CRANES: Fixed wharf cranes with capacity of 3 tons – 10 tons on the piers.

STEVEDORES: Arranged through Agents and stevedore contractors.

MEDICAL: General Hospital and Medical College Hospital situated about 1 mile and 5 miles away respectively.

DENSITY: Sea water – 1025.

FRESH WATER: Can be supplied by port tug, max. 15 tons per day.

FUEL: Available. Small quantity of 30 tons can be provided, 48 hours notice required.

CERTIFICATES:

Registry.
Radio Telegraphy.
Safety Equipment.
Load Line Certificate.
Certificates of Competency of Master and other officers.

IDENTIFICATION CARDS: Necessary.

CONSULS: Nil.

REPAIRS: No facilities.

DRY DOCKS: Small slipway at Beypore.

SURVEYORS: The Port Officer at Calicut undertakes private surveys.

AIRPORT: Construction of airport at Calicut is under consideration by the Government. Nearest airport at Cochin, 150 km. South of the port.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Holidays declared by the State Government are holidays for the port. Cargo work can be arranged on holidays.

FIRE/AMBULANCE/POLICE: Police 100; Ambulance 100; Fire 100.

GENERAL: Ship-to-shore signalling is normally by morse light.

SHORE LEAVE: Permitted.

DEVELOPMENTS: Dredging commenced at Beypore and expected to be completed within a year or two and then ships of 18 ft. draft can be berthed alongside. Breakwater under construction and additional wharf under consideration at Beypore.

AUTHORITY: Port Officer, Calicut.

COCHIN: 09.58 N. 76.15 E.

PORT LIMITS: *Seaward Limits:* 9 nautical miles Westwards between the following 2 positions:

(a) Lat. 10° 02′ N., Long. 76° 03′ 27″ E.
(b) Lat. 9° 55′ N., Long. 76° 06′ 00″ E.

DOCUMENTS:

7 Crew Lists.
7 Passenger Lists.
1 Last Port Clearance.
4 Store Lists, including List of arms and ammunition.
5 Passengers' and Crew Personal Effects Declarations.
4 Cargo Manifests.
3 Cargo Certificates.
3 Deck Cargo Certificates.
3 Opium Certificates.
3 Currency Declarations.

PILOTAGE: Berthing arrangements, booking of Pilot, etc., normally done by Agent. Advisable send ETA messages at least 48 hours in advance to Agent. Amendments to ETA messages must be sent at least 12 hours in advance. ETA messages may also be sent to Harbour Master, Cochin Port Trust. Messages should contain time and date of arrival at Outer Roads in IST and also draft fore and aft (in salt water). 30 minutes before arrival at Fairway Buoy the Port Control to be contacted on VHF for instructions.

No Pilot vessel on station in Outer Roads. A pilot boat with red hull and white superstructure exhibiting the normal International Pilot Signal comes out to Outer Roads for embarking and disembarking Pilots. No special light or sound signal need be made for Pilots. All ships awaiting Pilot in Outer Roads must have engines ready at all times to enter harbour (unless instructed otherwise). Masters should ensure that a good pilot ladder with 2 manropes is lowered about 2 ft. above water for embarking Pilots. Also while embarking Pilot, lifebuoy must be kept handy, and a good lee given. Pilots must be escorted from and to the bridge, to the embarkation deck. Also see "Restrictions".

ANCHORAGE: Cochin Roads is open anchorage with good holding ground of oily mud. Masters are required to anchor vessels in Westerly area from North to South of Fairway Buoy within radius of 0.5 miles. Deep-drafted vessels may anchor in a Westerly direction from Fairway Buoy within a distance of 0.5 to 1 mile. To facilitate entry and departure of deep-drafted ships, Masters not to anchor in line with direction of main channel, Westward of Fairway Buoy.

RESTRICTIONS: Unless otherwise *specifically* instructed, vessels not to enter main channel at any time without Pilot on board. Pilotage compulsory for all vessels over 100 tons gross. No night entry for crude oil tankers.

MAX. SIZE: Maximum size of general cargo ships presently handled is 700 ft. LOA with max. draft 30 ft. *salt water.* Such ships taken in only during slack ebb. Tidal Conditions: In Cochin Port ebb and flood begins to run 2 to 2.5 hours after HW and LW. During monsoons, freshets are encountered and there may not be any flood for several days.

New Tanker Berth: Max. size 115,000 d.w.t. with part cargo. Max. draft 35 ft.

PRATIQUE: When a ship arrives at an Indian port, the Pilot who boards to bring vessel into harbour is authorised to give Free Pratique to healthy ships. The only exception to this procedure is if a vessel is arriving in India within 30 days of calling at 'Yellow Fever port' the vessel is put in quarantine and she is granted Free Pratique *only* after the Port Health Officer has boarded and satisfied himself that all persons on board are in possession of valid certificates against Yellow Fever and after conducting Mosquito Survey.

Once a ship has been granted Free Pratique at an Indian port, it is not necessary to apply for pratique at any subsequent Indian port she may proceed to which is automatic pratique.

Part I. The complete message comprises two parts. The first part embodying the code group on page 126 (Radio Quarantine Reports) from ships at sea e.g. ZS, ZT, ZU, ZV, etc.

Part II. The second part is in plain language and the following information must be given:

A. (i) Expected time and date of arrival in the port.

(ii) List of ports of call with dates of departure within 30 days period prior to arrival at the Indian port.

OR

'Called at' 'not called at' any port in West Coast of Africa from Senegal to Angola and Ethiopia, Somalia, Kenya or Tanzania, Brazil, Peru and any other countries North of these in South America including Trinidad, Tobago, Venezuela, Panama, Surinam, Guyane, Guatemala, Bolivia, Belize, Colombia, Costa Rica, Ecuador, Guinea, Nicaragua, etc. within 30 days.

(iii) Whether any monkeys on board.

(iv) Whether any person/crew taken aboard at Djibouti or Aden (if the ship has touched either of these ports).

(v) Number of crew and vaccination status.

(vi) Maritime Declaration of Health Questions. Whether negative 'ZT' or positive (indicated by compliments – 'ZU') as the case may be.

(vii) The message must finally embody the phrase 'Request Radio Pratique'.

B. Additional information: Name of Agent. Request for 'Radio Pratique' must also include the name of the ship's Agent in the quarantine message. The message should be sent when the vessel is not more than 12 hours and not less than 4 hours from the Indian port. If the expression 'Request Radio Pratique' is not used but the complete message outlined above has been sent in that specific form Free Pratique will be granted by the Pilot provided that 'all is well' aboard. The message should be complete, timely and specific otherwise Radio Pratique cannot be granted.

In addition to the quarantine message the Maritime Declaration of Health must always be completed and presented to the Pilot, Port Health Officer or other authorised person immediately on arrival. On verification of Maritime Declaration of Health if it is found that quarantine message sent by the Master of ship is defective then Port Health Officer has the right to cancel the radio pratique granted earlier.

Port Health Officer usually inspects all incoming ships coming from foreign ports to Indian ports and also carries out health and sanitary inspection and if satisfied gives free pratique on board the ship and certificate of clearance to sail out from Cochin port.

Note: Masters are requested to check this information with the Agents in individual Indian ports and advise us without delay, if these instructions are at variance with local requirements.

Special Reservations for India:

1. Ships having other infectious diseases besides diseases subject to the regulations, e.g., Chickenpox, Measles, Mumps (Epidemic Pariotitis), Cerebrospinal Meningitis, Whooping Cough, Malaria, Paralytic Poliomyelitis, Influenzal Pneumonia or any crew/passenger having temperature of 100°F or more for more than 2 days which is accompanied by rash, jaundice, glandular swelling or diarrhoea severe enough to interfere with normal activities should inform 'Quarantine' Cochin by message and to be brought in under QQ flag in day time and red and white light at night. Port Health Officer will board such ships and grant Free Pratique after observing health formalities.

2. Ships having passenger/crew originating from or embarking at ports of Djibouti, Massawa, Aden or Yemen and arriving within 14 days of departure from the said ports should inform 'Quarantine' Cochin and the ship to be brought in under QQ flag. Port Health Officer will board such ships and grant free pratique after observing all health formalities.

3. Healthy ships touching Aden or Djibouti and coming to Indian ports within 6 days without any passenger or crew embarking at Aden or Djibouti, should hoist 'Q' flag on approaching the port limit. The boarding Pilot in such cases shall grant Free Pratique to the ship.

If passengers or crew embarked on a ship either at Aden or Djibouti and the ship arrives at Indian ports within 6 days, such ship is required to hoist 'QQ' flag and Port Health Officer is to board the ship to eliminate the risk of Yellow Fever and grant the ship Free Pratique.

Master of such ships should send quarantine message to the Port Health Officer before arrival at the port. This message should be sent not more than 12 hours and less than 4 hours before arrival.

4. Ships carrying monkeys from Yellow Fever area and coming to Indian ports within 31 days to be brought in under 'QQ' flag and Master should send quarantine message positively. Port Health Officer will board such ships and grant pratique after observing health formalities.

5. Any ship carrying dead body, Master should send cable. Port Health Officer will board the ship to investigate the cause of death whether due to any diseases subject to the Regulations.

RADIO: Cochin Radio operates 24 hours daily, call sign VWN, however its range is limited to about 300 miles only. ETA messages may be routed through Bombay or Madras Radio which stations are directly linked with Cochin telegraphically.

VHF: VHF sets are installed in all port pilot launches, tugs, dredgers and at the Port Control Station in Harbourmaster's Office. Channel 16 is used for calling and Channels 14, 12 and 10 are available for communication. Ships awaiting berthing should maintain listening watch on Channel 16 at all times. Information regarding berthing would be generally available from Port Control at 0600 hrs., 1330 hrs. and 1800 hrs. daily. Cochin Radio maintains a VHF service which can be linked to shore telephones anywhere in India. This facility is available only between 0200 and 1400 hrs. GMT. Contact made on Channel 16 and then Channel 26 for conversation.

TUGS: Presently 3 tugs; one of 1,500 h.p., one of 1,400 h.p. and one of 1,000 h.p. An additional high powered tug, 30 tonnes bollard pull is also available. Tug's wire or ship's rope may be used at the discretion of the Pilot.

BERTHING: If particular ship required arrive at certain time, Agent informed in advance.

CARGO HANDLING: Modern systems of cargo handling such as pre-slinging, palletisation and containerisation are commonly used. The port has at present 28 wharf cranes with capacity varying from 3 tonnes to 10 tonnes, 9 mobile cranes of 10 to 40 tonnes capacity, 52 forklift trucks of 2 to 2.7 tonnes capacity and 1 floating crane of 120 tonnes capacity, 3 high powered tractors each of 180 h.p., 19 semi-trailer chassis, (10 with payload of 40 tons, 9 with payload of 20 tons) and 5 ordinary tractors and 11 trailers for cargo handling operations.

There are 8 general cargo wharf berths, 2 coal berths, 1 boat train pier jetty, 2 tanker berths, 1 open berth and 2 low wharves and 11 stream moorings. Interim facilities are also provided for handling fertiliser raw materials. Ro-Ro ships and container ships are also handled. Quay 9 open berth is being converted into a full-fledged container berth with sufficient back up area, power plug points for reefer containers, freight station etc. At present container ships use their own derricks.

STEVEDORES: Booking of gangs undertaken by Agent on receipt of ETA message.

MEDICAL: Medical attention easily available in Cochin. If medical attention required immediately on arrival, Agent to be informed when sending ETA. Valid inoculation and vaccination certificates against Cholera and Yellow Fever are essential.

Medical advices if required on high seas to be communicated to 'Quarantine' Cochin. Harbour Master/Deputy Conservator/Agents of shipping company usually arrange evacuation of serious cases for hospitalisation from anchorage.

TANKERS: LOA limited to 700 ft. at North tanker berth and 560 ft. LOA at South tanker berth. Max. draft 30 ft.

The new berth can accommodate tankers up to 115,000 d.w.t. with part cargo. Max. draft 35 ft. Products Handled: 1×750 mm. line for crude. 2×400 mm. lines for furnace oil and white oils; 4×300 mm. discharge arms. Discharge rate 4,000 tonnes/p.h.

Deep draft tankers berth only on ebb tide and during daylight hours. Ballasted or loaded tankers can sail any time.

All tankers must have fire wire fast and ready fore and aft on side facing channel.

DENSITY: Varies from 1000 to 1020 depending on tidal and weather conditions.

FRESH WATER: Supplied by barge (200 tonnes capacity) and through shore hydrants. Rs. 25/– and Rs. 40/– per 1,000 litres by barges for coasting and foreign vessels respectively. Rs. 15/– and Rs. 24/– respectively by shore hydrants.

FUEL: All grades fuel oils normally available. Essential give advance notice to Agent to make necessary arrangements.

GANGWAY/DECK WATCHMEN: Watchmen available at nominal cost. Recommended employ watchmen at gangway, on deck and in holds.

OPENING/CLOSING HATCHES: Opening hatches normally done by stevedores. Topping derricks and removing locking arrangements on hatches must be done by ship's personnel.

CARGO GEAR: All cargo gear must have valid test certificates and all other factory act requirements must be complied with.

IDENTIFICATION CARDS: Shore passes (temporary landing permits) are being issued. Seamens books cannot be used by foreigners unless with Immigration stamp.

CONSULS: United Kingdom, Norway, Italy and France have consuls at Cochin.

REPAIRS: The Cochin Shipyard now undertakes all types of deck and engine repairs.

In addition there are various other workshops who undertake engine and deck repairs. Exclusive surveyors to Lloyd's and non-exclusive surveyors to other classification societies are also available for hull/engine surveys. Repairs to radio, radar and other electronic equipment can also be arranged.

DRY DOCKS: Port dry dock can handle ships of up to 217 ft. LOA. However, not normally available for foreign craft.

The Cochin Shipyard dry dock can accommodate ships of up to 100,000 d.w.t. with max. size of ship up to 257 m. length and 38.5 m. beam. The dry dock entry draft permitted is 6.5 m.

REPATRIATION: Crew changes are carried out in this port. The Agents execute a bond before the Shipping Master before disembarkation. Repatriation undertaken by the Agents as mentioned in the said bond as well as general bond executed by them in Port Registration Office. Permission to enter India, travelling within India to the International airport through which they are leaving India and permission to leave India through Cochin port are being given by the Port Registration Office.

AIRPORT: Airport about 2 miles from harbour area. Cochin Airport handles internal flights only.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Closed holidays: Republic Day (26th January); Independence Day (15th August); Gandhi Jayanti (2nd October); 1st May and 25th December.

FIRE/AMBULANCE/POLICE: Willingdon Island Fire Station 6555; Willingdon Island Police 6005.

TELEPHONES: Arrangements can be made for telephone connections on board ships on wharf berths only.

GENERAL: Floating crane 120 tons, fire float.

SHORE LEAVE: Temporary landing permits are issued to foreign crew, subject to restrictions as per Government orders, if any.

SHIP SUPPLY SERVICE: "Ship Supply Service" is functioning at Cochin port. The Agents of the vessel arrange ship-to-shore transport of personnel and/or essential stores and/or sick crew members, etc., whenever such services are required. Usually, vessel's Agent gets these works after securing necessary clearance from the concerned Authorities and these are arranged through their ship chandlers or other contractors as the case may be. In cases of such emergencies, helicopter services are arranged by the local Agents with the Naval Authorities in Cochin with the assistance of the Port Health Officer stationed in the area.

DEVELOPMENTS: One of the existing berths (Q-9) is being converted into a full-fledged container berth. Necessary infrastructure facilities like hard-surfaced area, lighting, power plug points, etc. have been provided. The construction of a container freight station has been completed and commissioned. Tractor-chassis, trailers, etc. to handle 40 ft. and 20 ft. containers have been provided. Sophisticated equipment like transtainer crane and portainer crane will be installed in due course in order to provide full fledged container terminal facilities for handling cellular container ships at the port in view of the rapid increase of container traffic. Completion of the terminal is expected in 1985.

Fertiliser berth to handle raw materials under construction for ships up to 230 m. in length drawing 35 ft. The outer channel will be widened to 200 m. prior to the commissioning of the new berths.

SHIPMASTER'S REPORT: August 1979.
Hatches: Beams and hatchboards by stevedores and the remainder by ship's crew.
Stevedores: 1st shift 0800 – 1700 hrs., 2nd shift 1800 – 0300 hrs.

DOCUMENTS:

Inward Report
Valid Certificate of Safety
Radio Telegraphy
Safety Equipment
Safety Construction
Crew List

PILOTAGE: Optional. Vessels call at this Port for carrying ore cargo and anchor at open roadstead at a distance of about 1.25 miles to 5 miles depending upon their draft in a holding ground of sand and mud. The Agent of the ship bound for this port reports the vessel's ETA in advance. In the ETA message the name of the vessel, date and time of arrival are included.

ANCHORAGES: Good anchorage in depth over 8 fathoms at a distance approximately 5 miles from the channel bar.

Tippu Sultan Gudda Light bearing 053.5°(T) and Kodi Light bearing 080.5°(T). The Northern approaches to the Port area is rocky and the safest approach to the anchorage is from the South. Tidal range is 5 ft. Depth at bar 7 ft. at LWOST. 8 ft. – 10.5 ft. during HW.

RESTRICTIONS: No restrictions except that vessels calling at the port anchor at open roadstead.

MAX. SIZE: Vessels of smaller draft can anchor in 9 fathoms of water.
HEALTH: The Assistant Surgeon, Government Hospital, Coondapur is the Port Health Officer at the port.
RADIO: There is no radio station at the port. The nearest wireless station is at Mangalore and its call sign is "VWL".
VHF: Not available.
TUGS: There are 2 tugs/launches for towage service of sailing vessels and for special trips.
BERTHING: No berthing facilities available for ships.

1 wharf of 300 ft. in length with small stocking area.

1 RCC sheet piled wharf of 700 ft. length with vast stocking area duly electrified and a stocking platform of 180 ft. length are the only shore facilities at this port.

CRANES: None.
BULK CARGO FACILITIES: None.
STEVEDORES: Advise well in advance of ETA to shippers in order to arrange shore loading. Main cargo – ore.
MEDICAL: No advance notice except in case of serious illness to be included in arrival message. Hospital facilities available at Coondapur.
TANKERS: No facilities.
FRESH WATER: No facilities for supplying water to vessels are available. Sailing vessels crew draw their requirements of fresh water from nearby wells.
FUEL: For ocean going vessels, there is no bunkering facility. There are Oil Depots at Ganguli, Coondapur from where High Speed Oil can be supplied to small vessels in drums.
CONSULS: None.
REPAIRS: Small workshops where repair work for fishing launches, barge, etc., are undertaken.
DRY DOCKS: None.
SURVEYORS: Ship surveyors of Mercantile Marine Department at Goa and Cochin are available. Private Surveyors are available at Mangalore and Goa.
OPENING/CLOSING HATCHES: Usually by ship's crew.
CARGO GEAR: No shore facilities. Ships anchor at open roadstead and load cargo by ship's gear.
REPATRIATION: No facilities.
AIRPORT: Nearest airport is at Bajpe which is situated 73 miles South of the port.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Holidays declared by the Collector of Customs, Bangalore are followed at the port.
POLICE/AMBULANCE/FIRE: Pilot station is located at nearby Coondapur Town, Tel: 338. Ambulance facilities available at Government Hospital and Private Hospitals at Coondapur. Fire station available at Udipi 37 miles South of this port. Tel: 8333.
TELEPHONES: No arrangements exist for placing telephones on board the ship.
SERVICES: No facilities for ocean going vessels.
BANKS: Syndicate Bank and Canara Bank, Ganguli, Coondapur Taluk, South Kanara Dt., S. India. No telex facilities.
SHORE LEAVE: Crew members are allowed ashore subject to Customs formalities.
IDENTIFICATION CARD: Seaman's Book is sufficient and shore passes are issued by Customs.
DELAYS: Delays in loading can normally be expected during bad weather.
DEVELOPMENTS: None.
GENERAL: The Port of Coondapur is a riverine port which is seasonal. Open for traffic from 15th September to 15th May every year. Port is situated at the confluence of the River Hadi and Chakianadi at Ganguli village. The Port is 60 miles North of Mangalore which is the nearest railway head.

Charts: B.A. Chart No. 745. Indian No. 2019.

AUTHORITY: Port Officer, Coondapur, Ganguli P.O. Pin Code 576216, Karnataka, India. *Tel:* 72 Ganguli. *Contact:* Captain Mohan Chandy, Port Officer.

CUDDALORE: 11.43 N. 79.46 E.

DOCUMENTS:

8 Crew Lists.
8 Passengers Lists.
3 Forms of Import Manifest of Stores.
3 Lists of articles in slop chest.
3 Private Property Declaration of Crew.
3 Manifests.
3 Bills of Lading.

PILOTAGE: No pilotage. Open roadstead port.
ANCHORAGE: Vessels anchor in 5 to 7 fathoms with Cuddalore Lighthouse bearing 295° to 315°, which is most convenient anchorage for communicating with shore at all seasons of year. Nature of bottom, sand.
RESTRICTIONS: No restrictions regarding entry of vessels during day or night.
MAX. SIZE: Any size of vessel handled.
HEALTH: On arrival, Master to signal Port Health Officer stating all crew well and requesting Free Pratique. In event of any crew member suffering from suspected infectious disease, Master to advise Agents sufficiently in advance to enable Port Health Officer to board vessel on arrrival. No Free Pratique necessary whenever vessels call from another Indian port.
RADIO: No radio station. Cables routed through Madras Radio (call sign VWM).
TUGS: There are 2 tugs available. They are utilised for towing the lighters between ship to shore and vice-versa.
BERTHING: No berths.

Lighters: About 120 lighters owned by private individuals are operating for transporting cargo between ship and shore and vice-versa and handle 2,000 tonnes in total for a round trip.

Barges: 3 steel barges are available of 50 tons capacity each for lighterage purposes.

STEVEDORES: ETA advice required 72 hours in advance to enable stevedores to make adequate arrangements for handling cargo.
MEDICAL: No advance notice required unless vessel arrives with crew member requiring immediate medical attention. Seamen can be treated at Municipal Dispensary at Old Town near port and also at Government headquarters hospital in charge of District Medical Officer at New Town about 6.5 km. from port.
DENSITY: Density of water 1024 – 1025. State of tide does not affect density.
FRESH WATER: 1 steel water barge of 50 tonnes capacity is available for supplying fresh water to vessels in the Roads.
FUEL: None.
CRANES: 1 'Coles' 10 ton capacity mobile crane has been purchased for handling cargo in this port. This is a diesel electric crane.
GANGWAY/DECK WATCHMEN: Services of watchmen recommended in interest of ship to avoid pilferage. 3 watchmen night and day per shift of 8 hours.
OPENING/CLOSING HATCHES: By stevedores.
CERTIFICATES:

Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Derat Certificate.
Last Port Bill of Health.
Last Port Clearance.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes permitted for each crew member to be held out of bond. Wine/Spirit, 1 open quart bottle per crew member permitted to be held out of bond.
CARGO GEAR: Register of cargo gear and machinery to be maintained up to date and to be attested by competent authority.
IDENTIFICATION CARDS: Needed.
CONSULS: None.
REPAIRS: Minor repair facilities available.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.
AIRPORT: Nearest airport at Madras, distance 118 miles.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Cargo work arranged on all holidays except Republic Day, Gandhi's Birthday, Pongal Karinal, Masimagam, Pennayar Festival, Independence Day and Deepavali, on payment of overtime.
POLICE/AMBULANCE/FIRE: Tel. Police 24; Fire and Ambulance 99.
SERVICES: Cleaning of hatches after discharging cargo available.
SHORE LEAVE: Crew members permitted to go ashore within municipal limits.
DELAYS: No delay of anchoring of vessels. Cargo work carried out during day. No night work.
GENERAL: Private launches arranged for purposes of crew going ashore. Such launches ply between 0600 hrs. and 1700 hrs. Laundry, provisions, etc., can be arranged.
AUTHORITY: Government of Tamilnadu, Tamilnadu Port Department, P.O. Box No. 2595, Chetput, Madras 35. *Contact:* Captain I. V. G. Prasad, Port Officer, Cuddalore.

HALDIA: 22.00 N. 88.05 E. (See Plan Book)

Subsidiary deep water modern dock of Calcutta, situated on West bank of Hooghly River and 56 miles downstream of Calcutta.
DOCUMENTS, PRATIQUE: All general information; refer to "Calcutta".
RESTRICTIONS: The lock entrance lead-in jetty – 1,010 ft. (307.84 m.).

Lock: 985.5 ft. (300.38 m.) long and 130 ft. (39.62 m.) wide. Ships up to lengths of 885 ft. (269.75 m.) can be safely accommodated at Haldia Dock.

MAX. SIZE: Capital dredging in shipping channel is in progress and the results being constantly reviewed. Currently actual drafts as per draft of the day. Draft forecasts are issued 6 weeks in advance.
TUGS: 5 tugs available.
BERTHING:

1. An Oil Jetty – to provide berthing accommodation for super-tankers with LOA of approximately 780 ft. and draft up to 35 ft. See "Tankers".
2. A Finger Jetty – equipped with grab-bridge crane capable of transferring salt, rock phosphate and other bulk cargo from ship to barge, or vice versa at an average rate 5,000 tons per day.
3. A Coal Berth length 270 m. with depth alongside of 45 ft. is capable of loading bulk carriers of the 60,000 d.w.t. class. Mechanical plant capable of loading conventional ships and bulk carriers at a designed rate of 2,000 tonnes per hour. 2 wagon tipplers, capacity 1,500 m.t.p.h.; 1 conveyor belt; 2 stacker-cum-reclaimers – stacking capacity 1,500 m.t.p.h. Reclaiming capacity 1,000 tonnes; 2 Shiploaders, capacity 1,500 m.t.p.h. per loader.
4. An Ore Berth – rate of loading 5,000 t.p.h. and with provision for increasing to 8,000 t.p.h. Accommodation for carriers up to 80,000 d.w.t. 2 × 1,500 ton wagon tipplers, 4 stacker-reclaimers with capacity 1,500 m.t.p.h.; 2 shiploaders, capacity 3,000 m.t.p.h. This berth can also handle tankers.

5. A Fertiliser Berth – for ships up to 50,000 d.w.t. class. Mechanical plant for rapid mechanical discharge of finished fertiliser, rock phosphate, sulphur, etc., from bulk carriers and conventional ships at a designed rate of 1,400 t.p.h.; 1 conveyor belt, capacity 1,300 m.t.p.h. Can be extended up to the Fertiliser Factory; 2 ship unloaders, capacity 700 m.t.p.h.; covered storage for 30,000 tonnes (with provision for increase to 60,000 tonnes in future) and open storage for 15,000 tonnes, (with provision for increase to 30,000 tonnes in future).

6. Two general Cargo Berths – each with a quay of 720 ft. and 120 ft. wide and back-up area of 18 acres. Both will have adequate cranage, latest in cargo handling machinery and direct rail-road facilities. One berth will have a modern 100,000 sq. ft. transit shed and a 30-ton payload Portainer Crane for handling containers.

7. Container Terminal: The first fully-fledged Container Terminal in India with Portainer Crane for handling containers into or from ships. Back-up area 180,000 sq.ft. (16,722 sq.m.) providing storage space for over 1,000 containers at a time. Equipped with one high-speed transtainer crane capable of serving both rail and road vehicles.

TANKERS: Haldia Oil Jetty extends 180 m. into the deep water channel. The maximum velocity of current during ebb tide is 6 knots. During period March to June, Northwesterly squalls frequently blow up on inshore side of tankers moored at Haldia Oil Jetty, with reported wind speeds of up to 90 km./hr.

Vessels are programmed to berth on HW (daylight only) and port anchor is used to swing vessel for starboard side berthing. The flood stream continues to run 1.5 hours after HW and this provides sufficient time for safe mooring operations. 1 tug is in attendance when mooring. Although there is a hose handling gantry, it is not used during discharge as the hoses are reported to kink when excessive ranging occurs.

In view of the jetty being located in an area where strong tides are experienced, vessels are required to have the following moorings:

Forward – 5 head ropes	Aft – 5 stern ropes
– 3 breast ropes	– 3 breast ropes
– 3 back springs	– 3 back springs

This gives a total of 22 moorings. Doubling up of mooring ropes is acceptable to provide the above requirement provided all ropes are in good condition and of sufficient length to reach the shore bollards. After the vessel has been securely moored, ropes are turned over and the opposite eye is sent ashore. Mooring wires may be used as back springs.

In the final mooring position, the drift (distance fairlead to shore bollards/hooks) for the various moorings is a as follows:

Head and Sternlines:	Approx. 240 ft. (73 m.)
Breastlines F & A:	Approx. 125 ft. (38 m.)
Springs F & A:	Less than breastlines.

Above drifts apply to a ship with LOA 560 ft. (170.7 m.)

Hose Connections: Midships.

Shore Line System: Handles white oils, fuel oil and crude oil. 30 in. crude line with 3×12 in. connections on jetty. White oil line: 200 mm. (8 in.) to 300 mm. (12 in.) Shore lines: 1.5 km. long. Max. back pressure 7 bar (105 p.s.i.) Average rate 600 tonnes/p.h. (product).

Shore Steam: No facilities.

Bunkers/Lubricants: Not available.

Fresh Water: Available from shore in small quantities.

Tank Cleaning/Dirty Ballast Facilities: No facilities. Clean ballast may be pumped overboard.

General: Continuous and strict watch to be kept on vessel when anchored or in the berth to prevent unauthorised persons boarding.

Due to the remoteness of Haldia it is extremely difficult to arrange the formalities associated with crew members joining or leaving the ship.

In view of current and wind conditions it is recommended that a continuous watch is maintained to ensure that moorings are well tended at all times.

DEVELOPMENTS: A second oil berth is awaiting final approval.

AUTHORITY: Calcutta Port Trust, Haldia Dock Complex, Chiranjibpur, Haldia, West Bengal.

HONAVAR: 14.16 N. 74.27 E.

DOCUMENTS:

Crew Lists.
Passenger Lists.
Customs Documents.
Health Documents.
Manifests.
Bills of Lading.
Ship's Papers.

PILOTAGE: Open roadstead port. No system of pilotage. Pilot is however available, on requisition by Master or Agent.

ANCHORAGE: Distance off 3 miles, depth of 5.5 fathoms.

MAX. SIZE: No restrictions on length and breadth. Generally up to 34 ft. draft vessels can anchor within 2 miles to 3 miles from entrance.

HEALTH: Port Health Officer grants pratique as and when necessary, on requisition.

RADIO: Wireless station at Karwar.

BERTHING: No berthing facilities. Ships anchor on open roadstead.

MEDICAL: Proper hospital facilities available only at Karwar about 60 miles North. At least 24 hours advance notice ETA to be communicated to Agents.

DENSITY: Varies 1020/1025.

FRESH WATER: Very small quantities available. No arrangements for delivery to ships.

FUEL: None.

OPENING/CLOSING HATCHES: By crew.

CERTIFICATES: All ship's papers such as Certificate of Registry, WT Certificate, Safety Equipment Load Line, etc., to be on board for verification.

CARGO GEAR: Cargo gear Test Certificates, etc., to be produced.

IDENTIFICATION CARDS: Needed, if going ashore.

CONSULS: Nil.

REPAIRS: Nearest workshops undertaking major repairs available at Mormugao. Minor repairs may be carried out at Karwar.

DRY DOCKS: None.

REPATRIATION: Facilities available.

AIRPORT: Belgaum, about 178 miles.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Charter Party Holidays observed. Cargo work can be arranged on holidays. Dates of holidays vary from year to year.

POLICE/AMBULANCE/FIRE: Police 48; Ambulance 32; Fire Kumta 20.

SHORE LEAVE: Crew members are allowed ashore.

DELAYS: Generally no delays are expected.

AUTHORITY: Port Officer.

JAKHAU: 23.15 N. 68.37 E.

LOCATION: In Gulf of Kutch, on Godia Creek about 5 miles inside Arabian Sea. Port is about 7 miles West of Jakhau. Small sub-port exporting salt utilised by foreign-going and coastal traffic. Vessels calling Jakhau anchor in open roadstead about 6 miles offshore. Highest tidal range 14 ft. Current parallel to coast running about 4 knots.

AUTHORITY: Assistant Conservator Jakhau–Kutch.

KAKINADA: 16.56 N. 82.15 E.

DOCUMENTS: *(a)* To be supplied by Master on arrival:

Ship's Register.
Safety Equipment Certificate.
International Load Line Certificate.
Derat Certificate.
Last Port clearance.
ILH Dues Receipt, if coming from an Indian Port.
Crew List: 6 copies to Agents, 2 copies to Immigration Dept., 2 copies to Customs.
Customs Circulating Copy, if coming from another Indian Port.
Import Manifest of Stores (Store List).
Private Property Statement of crew and officers.

(b) Master to sign following certificates, in prescribed forms, presented by Agents, on arrival:

Port Entry.
Port Clearance.
Customs Entry.
Customs Clearance.
Departure.
Health.

PILOTAGE: No pilotage.

ANCHORAGE: *Allotment of Anchor Berths:*

Masters of vessels calling at the Port of Kakinada should cable the following information to the Port Officer directly, 24 hours before their arrival off the Port:—

(a) ETA (Indian Standard Time)
(b) Total cargo for loading/discharging at Kakinada and nature of cargo.
(c) Hatchwise distribution.
(d) Declaration of hazardous, inflammable and explosive cargo.
(e) Declaration of vessels winches in good working condition.
(f) Draft Fore and Aft.

A specimen cable covering the above is quoted below:

> "Port Officer Kakinada STOP Vessel XXX ETA Kakinada 22/10 0900 Local Time quantity loading 9,500 tonnes rice bran extractions hatch one 1,000 hatch two 2,000 hatch three 3,000 hatch four 3,000 hatch five 500 no hazardous inflammable explosives STOP All winches derricks good working condition draft fore 8 m. aft 9 m."

The above cable sent to the Port Officer (in addition to the cable sent to their Agents as per normal practice) will facilitate proper anchoring instructions from Port authorities to the Master and avoid difficulties in Port operations.

Masters should also keep watch on VHF Channel 16 to receive instructions from Port control and contact Port control on arrival at the approaches to the Port.

Specific instructions will be given by the Port Officer on VHF through Port Control in respect of anchorage positions. When once anchored as above, Masters should not shift their position without specific reanchorage position given by the Port Officer, unless in case of emergency in regard to the safety of the vessel.

Masters of vessels calling at this port are advised to be in possession of the latest navigation chart corrected up to-date. The Indian edition available is 3009 "Approaches to Kakinada Port" with an inset of Kakinada Bay.

Main engines should not be immobilised without specific permission from Port authorities.

The Godavari Point (sand spit) is extending Northwestwards at a rate of about 170 ft. per annum and a port hand buoy (flashing red) 5 secs. is installed at the tip.

The holding ground anywhere in the anchorage is considered excellent (soft mud and sand).

MAX. SIZE: No restriction. Vessels any size can enter the port.
HEALTH: Masters have to send standard quarantine message not more than 12 hours and not less than 4 hours before arrival. Pratique will be granted by Port Health Officer basing on the quarantine message, which will be instructed to the Agents. Health inspection of the vessel will be carried out by the Port Health Officer at the earliest convenience. Vessels that have touched ports in the yellow fever endemic area within the last 30 days, should send the quarantine message at least 48 hours before the expected time of arrival.
RADIO: Radio stations are Visakhapatnam and Madras.
VHF: VHF radio station is in the Port Office (Port Control) on International frequency, Channels 16 and 12, communication from ship/Port control and vice versa. If ship requires communication on Channel 12, it should be advised in advance to prepare machine accordingly.

The Port control VHF functions round the clock at the following specified times:–

0045 to 0100 hrs.
0345 to 0415 hrs.
0545 to 0615 hrs.
0745 to 0815 hrs.
1045 to 1115 hrs.
1245 to 1315 hrs.
1445 to 1515 hrs.
1745 to 1815 hrs.
1945 to 2015 hrs.
2245 to 2315 hrs.

All times Indian Standard Time.
TUGS: There are 5 small tugs and 6 Pablo Boats for towing cargo lighters.
BERTHING: 1 wharf, length 300 m. 1 floating crane, capacity 50 tons.
CARGO LIGHTERS: There are 110 cargo boats with total capacity of 9,600 d.w.t. In addition 5 self-propelled mechanised barges each of 250 d.w.t. owned by the Port Authorities.

There are also available 6 mechanised barges each 240 d.w.t. owned by Central Island Water Transport Corporation Ltd., Calcutta.
STEVEDORES: Gangs engaged by party doing stevedoring work. In case of liners, Agents attend. In case of chartered vessels, consignees/shippers attend. Master to give ETA with number of hatches to be worked on arrival. Revised ETA to be sent whenever there is change.
MEDICAL: Government general hospital available with specialists. Private nursing homes also available with efficient physicians and surgeons. Agents arrange medical aid on advance advice. Being roadstead port, launches have to be arranged, hence advance notice of 6 hours necessary through signal station while in port.
DENSITY: Ranging from 1010 to 1025.
FRESH WATER: Of the 5 mechanised barges owned by the Port Authorities, 1 mechanised barge is used for supply of fresh water up to 200 tons. Privately owned self-propelled barge is also available for supply up to 100 tons. Prior arrangements to be made through Agents of vessels 24 hours in advance.
FUEL: No fuel suppliers. In case of emergency small quantities of 10/15 tons, in 205 litre drums, can be arranged from Visakhapatnam, duty paid.
GANGWAY/DECK WATCHMEN: Arranged by stevedores.
OPENING/CLOSING HATCHES: By ship's crew only.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per head per week. Wine and Spirits: 16 oz. per head per week for those who are eligible for supply by ship.
IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: No facilities. Only minor repairs to winches, welding work, casting and repairing spare parts.
REPATRIATION: Can be arranged.
AIRPORT: Visakhapatnam 105 miles, Madras 350 miles.
TIME: GMT plus 5.5 hours = IST.
HOLIDAYS: Charter Party holidays are observed. Work is done day and night. Port and Customs also work on holidays and out of office hours on payment of overtime. No work even on overtime payment on following days: Bhogi, Pongal, Kanumu. Optional holidays to labour on Chollangi Amavasya, in January.
POLICE/AMBULANCE/FIRE: Police 3052; Fire 101; Ambulance 3311.
SHORE LEAVE: Shore permits given by Port Registration Officer (Immigration).
SERVICES: Fresh and dry provisions available.
NOTARY: Available for noting protest.
DEVELOPMENTS: Development programmes include canal protection, transport facilities, navigational aids, power supply to loading/discharging points and stacking yards at shore and providing breakwater of 880 m. in length (sea wall) and mooring circle on the West side of the sand-spit known as Hope Island. The breakwater can be extended a further 3.2 km. Eastward for direct berthing of ships to serve long term needs of the port.
AUTHORITY: Port Officer.

KANDLA: 23.00 N. 70.12 E. (See Plan Book)

DOCUMENTS: To be submitted by Masters on arrival:

Customs: Crew List (3 copies).
Crew Private Property List – this should indicate all items they possess (3 copies).
Ship's Stores List (3 copies).
All valid documents of ship in English for verification of Customs Boarding Officer.
Port Health: Maritime Declaration in duplicate.
Valid crew health cards and Derat Certificate.
Agents: Stowage Plan, Cargo Manifest and Bills of Lading.

Boarding Pilot collects following documents:
4 copies Arrival Report.
4 copies Pilotage Certificate.
2 copies Crew List.

PILOTAGE: Pilot station situated Lat. 22° 49.5′ N., Long. 70° 07′ E. Loaded vessels can cross bar only during high water. Vessel to report at Pilot station 2·5 hours before high water. Masters to keep Agents closely advised of ETA and anchoring time. 12 hours advance notice to be given by Agents for Pilot. No pilot ship or telegraphic address for Pilot station (Outer Tuna buoy). Vessels can contact Kandla Tower through VHF Channel 16. Pilot station 16 miles away from port. During all weathers vessels have to anchor at above position and await Pilot.

Chart: Indian No. 2059 and 203.

Shipmaster's Report: On calling at Kandla, the Pilot advised that anchorage outside a 2 mile range from the Outer Tuna Buoy and the Pilot having to board there, increases the pilotage dues by 100 per cent.
ANCHORAGE: Vessels can anchor 1 mile S.W. of above anchoring position. Inside harbour, anchorages allotted by Port Authorities, and Pilots anchor vessels at suitable positions.

Vessels can however anchor more than 2 miles from Fairway Buoy but must pick-up Pilot within 2 miles of Outer Tuna Buoy.
RESTRICTIONS: Being a tidal port, entering and leaving of loaded vessels depends on tide, and loaded vessels can cross bar at entrance of channel only during high water.

Ships having speed of less than 9 knots through the water will not be moved in and out of the port of Kandla during hours of darkness.

Berthing and unberthing of ships at the moorings will be restricted to daylight only. Daily draft forecast for crossing Kandla Bar published at intervals by the Kandla Port Trust.

No berthing of tankers in hours of darkness; unberthing is permitted. No restriction on berthing and unberthing of cargo ships during hours of darkness.
MAX. SIZE: Max. overall length 740 ft. No breadth restrictions.

For oil tankers max. permissible overall length is 700 ft.

Draft according to water on the bar varies between 26 ft. and 32 ft.

Sogal Channel (Mid Channel) was commissioned on 29th February 1984 which is likely to give additional draft of 1 ft. i.e. 12 ft. at Chart Datum.
PRATIQUE: The Masters of all ships arriving at Kandla are required to send the Port Health Officer, Kandla (cable address "Sandgrodh") a wireless message embodying all applicable terms of information set out in the Standard Quarantine message of the International Code of Signals. In addition to the International Code message, Masters are also required to give the following information in plain language:
(a) Whether there is any abnormal mortality of rats or mice.
(b) Whether there is any monkey on board.
(c) Whether touched or embarked at Aden or Djibouti any person.
(d) Names of all ports touched en-route within preceding 30 days, with dates of departure.
(e) Request for radio pratique.

Upon anchoring at Pilot station, cable again "Sandgrodh" stating time anchored and requesting radio pratique.

In cases where the vessel has touched any yellow fever area within preceding 30 days it is necessary for Master to certify that all officers and crew/passengers on board possess valid yellow-fever certificates.

Present practice for granting pratique is by radio or by Port Health Office boarding vessels inside harbour.

If the Maritime Declaration is not in order, the Pilot refers the Master to the Port Health Officer who then boards the vessel and grants free pratique after his inspection of the vessel.
RADIO: Within a range of 35 hours off Kandla, vessels can contact Kandla Radio on call sign VWK. Before 35 hours off, Kandla can be contacted through Bombay Radio only.
BERTHING: The cargo jetty provides 5 alongside-berths with total quayage of 3,825 ft. which can accommodate ships drawing up to 30 ft. loaded draft. The cargo jetty is served with 21 electric level luffing cranes, 16 of 3 tonnes, 4 of 6 tonnes and 1 of 10 tonnes capacity for handling cargo from ships.

Additional 4×3 tonne and 1×6 tonne capacity wharf cranes to be installed.

3 mooring berths are available near the cargo jetty. In addition, there are separate moorings for *(a)* ships loading salt, *(b)* deep draft mooring for ships up to 37 ft. draft. Also see "Developments".

The Bunder basin has 3 wharves, two wharves with transit sheds. The South wharf is served with 4 quay electric level-luffing cranes of 3 tons to 10 tons capacity for handling cargo from lighters. The North Wharf is for country craft. The West wharf is provided with a 60 tons capacity electric gantry crane.

Marine unloader with rated capacity of 500 tonnes per hour for discharging bulk fertiliser and its raw materials has been commissioned.

There is a back-up storage area of 30,000 tonnes. Automatic bagging and stitching machines are also available.
STEVEDORES: Minimum 24 hours notice required for arranging stevedoring labour and gangs. Bulk fertiliser – average 650 tonnes per berth/day by conventional method. Grain – 850 tons. General cargo 250 tons per hook, subject congestion prevailing in sheds, wharves, warehouses and clearance, and on number of vessels working at particular period.

Cargo Operations:

1. At this port the unloaded/loaded LASH barges are towed by tugs which are subsequently discharged/picked up by LASH ships (operation suspended at present).

2. Regulations concerning the handling of dry-cargo are applicable to handling of cargo in barges.

3. Trucks can proceed alongside the berth and can park within the reach of the shore cranes. Cargo is loaded/unloaded from trucks directly on the wharf for shipment per vessel.

4. Forklift trucks are used to transport the cargo from the place of unloading to the stacking area and vice-versa.

5. Cargo on board the vessel is handled by Kandla Dock Labour Board workers. Packaged cargo on shore is handled by labour engaged by respective importers/exporters which are drawn from local market. Bulk cargo viz. fertiliser and wheat is handled on shore by departmental labour of Food Corporation of India

TUGS: Port tugs join ships inside harbour off berth. Ship's wires used.
MEDICAL: Private Doctors' services available for vessels at berth. For vessels at Pilot station or inner anchorages minimum advance notice of 12 hours and 6 hours respectively required. Very limited facilities of private practitioners. No hospital facilities. Inoculation and vaccination carried out by Port Health Officer (a Government body) – minimum 48 hours notice required.
TANKERS: (Also see Port of Vadinar). Tankers with max. overall length of 700 ft., 40,000 tons displacement and 34 ft. draft permitted to berth. 3 main pipe-lines connected to tanks situated about 10 km. from berth, 2 generally used for white oils and one for black oil. White-oil pipe-lines diameter 12 in. and black-oil pipe-line diameter of 16 in. In addition, one 8 in. diameter pipe-line for soyabean oil, one 3 in. diameter pipe-line for acetone and one 4 in. diameter pipe-line for formaldehyde and one 12 in. diameter pipe-line for Phosphoric Acid imported by Indian Farmers Fertiliser Co-operative Ltd.

Berthing of Ammonia Tankers at Tanker Berth No. 1 with loading/unloading arm but restriction depending on the position of manifold.

Shipmaster's Report: Tankers will sometimes be brought in to the port even though a berth may not be available at that time. Such vessel will then be moored to a mooring buoy close to the jetty, awaiting her berth at the tanker pier. Mooring to this buoy is effected by use of the vessel's starboard anchor chain, so that the anchor has to be disconnected from the chain before entering.

In securing alongside the oil-pier, tankers are required to utilise 1 insurance wire fore and aft (not supplied from shore). In addition vessel is required to use all her available ropes and wires owing to strong currents – 4 head-ropes, 2 breast-ropes, 2 springs.
DENSITY: Varies from 1020–1030.
FRESH WATER: Can be supplied through shore pipe connection and barges.
Shipmaster's Report: Water is very scarce and should be ordered at least 3 days prior arrival.
FUEL: Furnace oil (heavy oil) and light diesel oil can be supplied. Usually 12 hours advance notice required for bunkering. In event of oil tanker discharging at berth, bunker supply can only be commenced 18 hours after completion of discharge by tanker. Quantities up to 500 tons supplied by tank trucks, above 500 tons supplied through pipe-lines if berth vacant. However, any quantity can be supplied by tank trucks.
FIRE PRECAUTIONS: 3 sea water fire fighting pumps installed at oil jetty. These pumps are under charge of fire brigade officers and have adequate fire fighting equipment. A tug fully manned with fire fighting arrangements also available at short notice.
GANGWAY/DECK WATCHMEN: All ships engage 2 watchmen round the clock at gangway. To look after mooring lines, 8 mooring men (4 each at fore and aft) are engaged round the clock.
OPENING/CLOSING HATCHES: Unless specified in relative Charter Party to contrary, ship's crew to accomplish this work.
SHIP CERTIFICATES:
Registration.
Safety Equipment.
Safety Radio and Telegraphy.
International Load Line.
CUSTOMS ALLOWANCES: 200 cigarettes per week per person. Wine and/or Spirit: 2 pegs of spirit per person per day or 4 pints beer.
Shipmaster's Report: Very strict Customs supervision, particularly in regard to declaration of foreign currency.
CARGO GEAR: Ships should possess valid Cargo Gear Certificates.
IDENTIFICATION CARDS: Required. See "Shore Leave".
CONSULS: Nil.
REPAIRS: Minor repairs carried out. Chipping and painting work also carried out.
DRY DOCKS: A floating dry dock to accommodate small craft up to 240 ft. in length, 10.7 m. (35 ft.) beam and 3.1 m. (10 ft.) draft of max. weight 500 m./tons for repairs, available.
SURVEYORS:
M/s. G. P. Dave & Sons, Ramnath Bhavan, 753/754 Saurashtra Society, Sector No. 5, Gandhidham-Kutch.
M/s. J. B. BodaMarine, & General Survey Agents Pvt. Ltd., Bunglow No. 16, Gandhidham-Kutch.
M/s. Metcalfe & Hodgkinson Pvt. Ltd., Jamuna Building, Sector No. 1, Gandhidham-Kutch.
M/s Navark & Mareng, Mohan Bhuvan, 109 Oslo Society, Sector 4, Gandhidham-Kutch.
M/s. Seascan Services Pvt. Ltd., Bunglow No. 79, Sector 4, Gandhidham-Kutch.
M/s. S.G.S. Ltd., above Arjan Stores, Gandhidham-Kutch.
M/s. T.C.R.C., Alankar Guest House, Gandhidham-Kutch.
REPATRIATION: Adequate facilities available.
AIRPORT: Kandla Airport 20 km. from the port and an additional airport about 70 km. from port.
TIME: GMT plus 5.5 hours.
HOLIDAYS:

Holiday (1982)	*Date*
Republic Day	January 26th
Holi (Second Day)	March 10th
Chetichand	March 26th
Good Friday	April 9th
May Day	May 1st
Id-Ul-Fitr	July 23rd
Janmashtami	August 12th
Independence Day	August 15th
id-Ul-Azha (Bakrid)	September 28th
Mahatma Gandhi's Birthday	October 2nd
Dussehra	October 27th
Muhurram	October 28th
Diwali	November 15th
Diwali (New Year Day)	November 16th
Guru Nanak's Birthday	November 30th
Christmas Day	December 25th

TELEPHONES: Available for tankers and cargo vessels.
GENERAL: Port equipped with 21 electric level luffing shore cranes of 3 tons to 10 tons capacity used for discharging all ships alongside cargo jetty. For discharging tankers with bulk grain port's vacuvators belonging to Food Corporation of India used.

Kandla port is a prohibited area where entry and exit are restricted to those persons having bona fide work only. Masters are requested to exercise a strict check at the gangway in order to ensure that only those persons with bona fide business to transact are allowed aboard. In the event that any unauthorised person is found to be aboard the vessel, the matter should be reported to port officials and the police on duty.

Masters are requested to advise their crew in advance of arrival at Kandla that photography within the port area is strictly prohibited, and it is suggested that all cameras should be left in the safe custody of the Master in order that crew members may not violate this regulation inadvertently and become involved in legal proceedings.
SERVICES: Tank cleaning by shore labourers. Tank washings and residue not allowed to be discharged in port area.
SHORE LEAVE: Possible.
Regulations: Photography in port area prohibited. No crew members allowed to take with them liquor of any kind ashore and not permitted to drink liquor outside port limit.
DEVELOPMENTS: Berths and bar continuously under dredging and drafts will increase in future.

Berth No. 6 under construction, length 900 ft. Expected to be ready in 1984. Construction of Oil Berth in progress.
AUTHORITY: Kandla Port Trust, Administrative Building, P.O.Box 50, Gandhidham-Kutch, India. *Tel:* 2001. *Telex:* 105-208. *Cables:* Port Trust Kandla. *Contact:* The Chairman.

KARWAR: 14.48 N. 74.06 E. (See Plan Book)

PORT LIMITS: *North:* A line drawn from Dayamada Point to Parker Rock.
East: Seashore of Karwar Bay from Dayamada Point to Badchidar Point 50 yards above high-water mark including Baithkiol Cove, Kalinady and all branches thereof as far as navigable and the shores and banks within 50 yards of high-water mark Spring tides including all islands and thence to Mogera Guda Island (including Mogera Guda Island). All patta lands and other private sites excluded.
South West: A line drawn from Mogera Guda Island through Gudsav Sunv, Westernmost point of Mandal Island to Parker Rock.
DOCUMENTS:
8 Crew Lists.
2 Manifests of Stores.
2 Private Property Declarations.
2 Currency Lists.
1 Maritime Declaration of Health.
3 Passenger Lists (if any).
4 Import Manifests.
1 Last Port Clearance.
PILOTAGE: The approach from Northward is between Oyster Rock Lighthouse and 2 front and rear leading lights on Simshigudda and Kurmagad Islands, respectively, in positions Lat. 14° 50′ 11″ N., Long. 74° 05′ 43″ E. and Lat. 14° 50′ 33″ N. Long. 74° 05′ 59″ E. Vessels approaching from Southward may enter between Oyster Rock Light and Karwar Head. Currents in bay are negligible. Ocean-going vessels are piloted by Departmental Port Officer who is a licensed Pilot. No pilotage charges at present.
ANCHORAGE: Anchorage for shallow draft vessels is with the Port Signal Station, bearing 120° (T), distance 1 to 2 miles, or Oyster Rock Lighthouse, bearing 278° (T), distance 2.5 miles in about 24 ft. to 28 ft. of water. Anchorage for deep drafted vessels is with the signal station, bearing 099° (T), distance 3 to 3.5 miles in depths of 38 ft. to 42 ft.
RESTRICTIONS: No entry restrictions. Karwar Bay may be entered on either side of Sunghiri Island, according to draft and anchorage taken as required. A vessel can enter Karwar either by day or night after having made lighthouse on Devghad Island.
MAX. SIZE: Any size of vessel can be worked as loading and unloading operation done in open sea. Depth at Outer Roads over 7 fathoms increasing accordance distance from land.
HEALTH: District Civil Surgeon acts as Port Health Officer. Free Pratique to incoming vessels from foreign ports granted by radio. All vessels calling from foreign destination must give radio message addressed "Civil Surgeon Karwar" at least 48 hours prior entering port giving last port of call, number of crew, health conditions, approximate time of arrival and requesting pratique, same message must be repeated to Agents who obtain pratique on shore. Anchoring time is pratique time. For vessels calling from an Indian port, pratique not required.

Vessels which have taken on board passengers or crew from yellow fever areas, within 30 days of departure from such ports will be under quarantine. Free pratique will not be granted until such time as a mosquito search party, from nearest major port (e.g. Cochin, Goa or Bombay) has inspected, disinfected and certified that ship is fit for granting pratique.

Necessary for Owners or Masters to inform Agents well in advance in case of vessel arriving from yellow fever area to enable arrange mosquito search party and quick pratique.
RADIO: ETA and pratique messages should be sent via Goa or Bombay Radio as Karwar Radio has been shut down.
TUGS: No tugs necessary as vessels work in stream.
BERTHING: No berth, vessels work in open sea. Baithkol Cove is safe berthing place for lighters. Alongside wharves 10 to 12 smaller vessels can obtain safe berth with depth of 6 ft. to 8 ft.

Also see "Developments".

STEVEDORES: 48 hours notice ETA required order enable Agents advise shippers and stevedores to keep cargo and labourers ready. Main commodity export of ore. Mechanised barge loading operations in port. Ore loading rate up to 4,000 tons per day. General cargo 1,000/1,300 tons per day.
MEDICAL: Good hospital facilities exist. 2 hospitals about 1.5 miles from port. In case of inoculations and vaccination at least 2 days advance notice to be given enabling bring vaccine from nearby town (Hubli or Belgaum) distance 100 miles and 150 miles respectively.
TANKERS: No facilities for tankers.
DENSITY: 1025.
FRESH WATER: Dumb water barge for supply to vessels anchored in open Roadstead.
FUEL: No bunkering facilities for ocean-going vessels. Diesel and petrol storage depots within port for supply to small vessels.
OPENING/CLOSING HATCHES: Generally carried out by ship's crew.
CERTIFICATES:

Ship's Register.
Cargo Gear Certificates.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat Certificate.
Vaccination and Inoculation Certificates.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits.
CARGO GEAR: Before commencement of loading, Master to present shippers or their Agents with valid international cargo gear certificate, which shall not be more than 12 months old. Validity of said certificate to cover whole period for loading and discharging. Fourth five-year plan includes proposals for mechanical front-end loaders, tipping trucks, mobile cranes and forklift trucks.

A 10 ton mobile crane is available.
CONSULS: None.
REPAIRS: Moderate-sized workshop in town able carry out minor deck and engine repairs.
REPATRIATION: Shipping Master arranges crew changes and necessary repatriation. Crew signing off repatriated via Goa or Bombay.
AIRPORT: No airport, or rail connections. Nearest airports Goa or Belgaum, 60 miles and 150 miles distant respectively. 2 flights per day to Bombay from Goa.
TIME: GMT plus 5.5 hours. Permanent.
HOLIDAYS: Charter party holidays declared and published every year by Honorary Secretary of the Karnatak Chamber of Commerce and Industry, Jaya Chamaraj Nagar, Hubli-20.

Non-working days when work not permitted even on payment of overtime: Republic Day (26th January) and Gandhi Jayanti (2nd October).
POLICE/AMBULANCE/FIRE: Circle Police Inspector 116; City Police Station 33; District Superintendent of Police 7; Reserve Police Headquarters 18; Ambulance 19.
SHORE LEAVE: Crew members are allowed ashore provided not of Chinese nationality.
DEVELOPMENTS: Proposed to develop port of Karwar into all-weather intermediate port, with 2 berths (the jetty 375 m. long) and 1 mechanical berth (ore berth, for vessels 40,000 d.w.t.), an approach channel and turning basin. Intended arrangements include ability accommodate up to 60,000 d.w.t. ore carriers, loading up to 8 million tons ore and 1.25 million tons other cargo per year. Also intended develop fishing harbour with facilities accommodate large-scale deep-sea fishing industry for 1 million tons fish per year. Also see "Cargo Gear".

Provision of Channel Marks:

1 Fairway buoy.
10 channel marking buoys.
Provision of a mooring boat with equipment for maintenance of buoys.
Experimental dredging.
Dredging approach channel and turning basin.
Land acquisition for future expansion.
Diversion of present main road alongside port wharf.
Improvement of Binga/Karwar Road.
Provision of 2 berths and 1 mechanical berth for ocean-going vessels.

Main berth length 172 m., depth 9.75 m. and secondary berth length 122 m., depth 7.5 m. will be ready early 1985.
AUTHORITY: Office of the Port Officer.

MADRAS: 13.06 N. 80.18 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the Port:

To the North: A line "NP" running from a point in position "N" Lat. 13° 07.2′ N. Long. 80° 17.95′ E. to a position "P" in Lat. 13° 12′ N. Long. 80° 25′ E.

To the South: A line "SQ" running from a point in position "S" Lat. 13° 04.1′ N. Long. 80° 17.25′ E. to a position "Q" in Lat. 13° 02′ N. Long. 80° 25′ E.

To the East: A line "PQ" connecting the Eastern extremities of the above described North and South boundaries, that is from point "P" in Lat. 13° 02′ N. Long. 80° 25′ E. to point "Q" Lat. 13° 02′ N. Long. 80° 25′ E.

Note: The port limits are being revised.
DOCUMENTS:

3 Private Property Lists.
3 Stores Lists (Bonded Stores).
3 Crew Lists.
1 Last Port Clearance.
1 Valid Derat Exemption Certificate.
1 Bill of Health (only if vessel has touched yellow fever areas).
3 Slop Chest Declarations.
3 Currency Declaration.
Passenger List (if applicable).

Ship's Papers:

Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Safety Construction Certificate.
Ship's articles (if vessel is Indian or Commonwealth flag).

Ship's papers to be handed over to Agent's Representative for final entry of vessel in Customs House. Same returned to Master.
PILOTAGE: Pilotage compulsory, both inward and outward, also for purpose of shifting inside harbour. Master required to advise ETA at least 24 hours before arrival, when local Agents contact Port Authorities for arranging berthing. If any berthing delay, vessel has to anchor at Outer Anchorage – anchoring point below 10 fathom line from breakwater light. Vessels requiring Pilot fly "G" flag by day and 1 white light exhibited on a conspicuous point on ship by night.
ANCHORAGE: Good anchorage found with breakwater light bearing between 240° and 300° – distance 1 mile to 3 miles.
RESTRICTIONS: No restrictions of entry, both day and night. In Bharathi Dock berthing of ships more than 50,000 d.w.t. while in a loaded condition is undertaken only during daylight hours, unberthing of ships of all sizes whether loaded or light is undertaken at all times.
MAX. SIZE: Max. length of South Quay I is 800 ft. (259 m.). Max. length of South Quay II is 518 ft. (157.88 m.). Max. length of Jawahar Dock is 1,700 ft. (518 m.) and breadth of entrance is 100 ft. (30.48 m.). Work on the extension of Jawahar Dock is in progress to accommodate vessels of 200 m. length on each side. Max. length of 900 ft. (274.31 m.) for oil tankers using the "Bharathi Dock" is in force, for the outer oil dock jetty during the fair weather season from January to October. During the North-East monsoon period, from October to January, max. size of vessel is restricted to 750 ft. (228.59 m.) with 42 ft. (12.8 m.) draft.

Draft in the enclosed harbour varies from 26 ft. (7.92 m.) to 35 ft. (10.67 m.). Draft at the outer oil berth during fair weather season is 46 ft.

Details may be obtained from the Deputy Port Conservator, Madras Port Trust, Madras – 600001.

Bharathi Dock: Vessels up to 46 ft. (14.02 m.) draft.
HEALTH: All vessels arriving from foreign ports have to apply for pratique through their radio – not earlier than 12 hours and not later than 4 hours before arrival. Pratique message to be addressed "Quarantine Madras" and worded as required by Port Authorities.

The Pilot boarding the vessel grants free pratique if the vessel is healthy in all respects – answer to all heath questions being negative.

In all other cases or if vessel is coming from yellow fever infected area within 30 days of departure or in case of any infectious disease on board, Port Health Officer boards vessel and after due inspection grants pratique.

Telegrams should take the following form: Name of vessel; ETA, in hours and date. No monkeys on board; answer to all health questions, (ports touched in last 30 days with departure dates). Request radio pratique.

Port health require to sight Derat and Vaccination Certificates when vessel due to leave before issuing clearance for Pilot and Customs who then issue port clearance.
RADIO: Coast Station Madras Radio, call sign VWM. Information regarding weather distributed twice daily. VHF communication with pilot station available around the clock to transmit and receive berthing and other operational messages. Calling frequency Channel 16 and operating frequencies Channels 14, 12 and 10.

Radar is installed on the fourth floor of M.P.T. Administrative Office Annexe Buildings.
RADAR/VHF: VHF communication available, see "Radio".
TUGS: Join vessel just inside breakwater. Vessels use own lines and no tugs' lines used/supplied. Tugs' lines are also used if required by Pilot.
BERTHING: Vessels berth at all times.

There are in all 18 general cargo/bulk cargo berths and 3 moorings. Drafts of these berths/moorings vary from 26 ft. (7.92 m.) to 35 ft. (10.67 m.).

There is an exclusive oil berth in the Outer Harbour with a draft of 46 ft.

An iron ore berth with modern mechanical loading facilities is in operation at Bharathi Dock with a draft of 46 ft. and rated capacity of 8,000 t.p.h.

There are two container berths which together have a quay length of 380 m. and draft of 10.5 m. which is being increased to 12.8 m.

The Bharathi Dock has the potential for accommodating 3 more berths one of which can be converted into a container berth.

Outer Harbour present draft is 46 ft. (14.02 m.) and it is likely to be increased.

A breakwater is under construction, extending from the Northern end of present breakwater to enable to have tranquil sea conditions in outer turning circle of Bharathi Dock.
BULK HANDLING FACILITIES: There are 4 berths, 3 in the Jawahar Dock and 1 in South Quay. Handling of iron ore has been discontinued in Jawahar Dock due to the operation of mechanised iron ore plant at the Bharathi Dock. Instead bulk cargo like barytes is handled.
CONTAINER HANDLING FACILITIES: There are two container berths with a quay length of 380 m. and draft of 10.5 m. which is being increased to 12.8 m. Two heavy duty gantry cranes of 35.5 tons capacity under spreader have been provided.

The container parking yard has a capacity for stacking 5,200 containers and is served by 2 rubber-tyred transfer cranes of 35.5 tons capacity under spreader.

5 top lift trucks of capacities varying from 25 tons to 35 tons are also available for handling containers.

The container freight station with an area of 6,300 sq. m. has been provided for stuffing and unstuffing operations.

40 reefer plug points for refrigerated containers are available with a standby generator for giving continuous power supply to reefer containers.

RATE OF DISCHARGE/LOADING:
Grains, by hooks/derricks:
Bulk: 400 tons per day per hook.
Bagged: 400 tons per day per hook.
By Vacs: 250 tons per Vac. per day.
Fertiliser: By hooks/derricks.
Bulk: 250 tons per day per hook.
Bagged: 375 tons per day per hook.
General Cargo: 225 tons per day per hook.
Liquid Cargo: About 150 t.p.h.

CRANES: One 3 ton crane and two 5 ton cranes are available at North Quay. Six 3 ton cranes, three 5 ton cranes and one 10 ton crane are available at West Quay. One crane of 50 tons, 2 cranes of 13 tons, 3 cranes of 10 tons, 3 cranes of 8 tons, 1 crane of 5 tons and 7 cranes of 3 tons available along South Quay.

Four cranes of 13 tons, two 10 ton cranes and 1 crane of 3 tons available along Eastern side of Jawahar Dock.

Two cranes of 10 tons, nine cranes of 3 tons and 1 crane of 5 tons available along Western side of Jawahar Dock.

Heavy duty floating crane 120 tons available.

BRIDGES: There are 2 bridges for pedestrian traffic only. 1 swing bridge at the entrance of Jawahar Dock and another Bascule bridge at the entrance of boat basin.

STEVEDORES: A copy of Manifest required for stevedores on board.

Working hours: 1st shift, 0600 – 1400 hrs. (Recess 1100 – 1200 hrs.); 2nd shift, 1400 – 2200 hrs. (Recess 1900 – 1930 hrs.); 3rd shift, 2200 – 0600 hrs. (Recess 0200 – 0230 hrs.).
